Communications sent to this office for publication should be couched in respectable language and signed by the author, in order to receive proper attention.

The Associated press increases its present ratio of false reports, for the sake of creating a sensation, it will soon be difficult to get an ad. in the daily papers "next to pure reading matter."

The secret service division of the United States treasury department has discovered the existence of a counterfeit \$10 silver certificate, series 1891, check letter D, with the portrait of the late Thomas A. Hendricks.

The number of casualties at the U. S. Naval academy "resting from the present method of playing football" is so great that the surgeon-general recommends that rival games be prohibited unless the rules are modified.

The latest novelty in the line of injunctions is "the free-silver faction of the Democratic party of Nebraska has appealed to the court for an injunction to prevent the other wing of the party from using the name, Democrat, on its tickets."

In commenting on the Holmes and Durrant cases an exchange says "murder will out." We beg leave to differ, however, from that old quotation. We only hear of the murders that do out, while those that do not are an unknown quantity.

FUGENE FIELD, who died of heart failure at his home in Chicago, was undoubtedly the best up-to-date writer in the country, he having been particularly apt at writing of the present. Though physically deceased, he will literally live after many of us are forgotten.

The recent arrest of a bunco-steerer in New York while in the act of lidding a sucker good-bye, reminds us that one always has "money to burn" after doing business with a green-goods man; also, that drought doesn't seem to have affected this fall's crop of green farmers in Nebraska.

The Wabash (Ind.) man who sued a railroad company for the value of muck land burned through sparks from a locomotive, has some sympathizers in this vicinity, and they may be heard from in a similar way before the returns are all in relative to land burned by sparks from locomotives this fall.

Why is it that though colleges are supposed to be centers of culture, there is always more stupid, purposeless lawlessness in college towns than anywhere else?—Evening Wisconsin. It is because too many are sent to colleges who were too truant to be kept in public schools. Then, too, there is a great deal in the saying that "a pent-up colt knows no bounds when turned loose"—especially in the dormitory. However, the most wonderful thing about a college is how the management can sleep during hazing performances; but, somehow, they have a "faculty" for doing so that is only offset by their activity in the premises after the trouble is over.

OWING to the drought prevalent in this state, many farmers have deemed it advisable to act contrary to custom by prohibiting hunting upon their places; and, in view of the way Ches. Prost recently lost 8 acres of woods on Sec. 20 of Kewaskum township, we do not blame farmers for exercising every privilege within their grasp to protect their property. However, we beg leave to remind them that the drought which prevails is not confined to Wisconsin, as the Mississippi river is said to be lower than it has been known to be before within the memory of the oldest resident upon the banks thereof. At St. Louis, for instance, there is scarcely enough water for ferrying, and navigation is practically suspended.

As El Dorado for domestics now exists in South Africa. If the facts reported from Johannesburg are trustworthy, an ordinary white housemaid is paid at the rate of \$30 a month, while superior servants receive proportionately larger wages. Johannesburg is now one of the most modern of cities, the police force is large, and every home is provided with a refrigerator, making access to the kitchen most convenient. Yet, with all these advantages, only a few of the thousands of idle women in England can be induced to go to Johannesburg.—E. J. There is nothing attractive for domestics in a burg where there are none but colored men to utilize the rear "access to the kitchen"; and, those who have tried out-door work there say, the dust storms in Johannesburg give a white man pneumonia.

The ordinance pending before the Common council of Milwaukee, which requires wheelmen there to carry head-lights and alarm bells and stipulates a certain rate of speed, is more obnoxious than that devised by the board of electmen in the town of Stonington, Conn., where "no one will be allowed to ride a wheel on the sidewalk between the hours of 6 p. m. and 6 a. m., but during the day all bicyclists will be unfettered while on the sidewalks, provided they dismount when within fifty feet of any pedestrian. Thus if a rider prefers to use the sidewalks during the day, he must not forget that when he lights a pedestrian it is his duty to dismount and wait until the person on foot covers the required distance of fifty feet. Then he can again mount to pursue his way without fear of falling into the hands of constables."

A recent bulletin of the Department of Agriculture gives extended directions for the destruction of weeds. We give part of it here: "If the weed, like our most abundant kinds, is an annual, reproducing itself from the seeds only and dying root and branch each year, it may be subjected by preventing seed production. The seeds of many annuals retain their vitality for several years, so that if they once become abundant in the soil they are likely to germinate at irregular intervals, and thus cause trouble for a long time, even though no fresh seed is introduced. In this case merely preventing the production of seed will gradually reduce the quantity of weeds and will prevent any further spreading. For permanent pastures, lawns and roadsides, this is often the most practical method, and it is quite sufficient if persistently followed. In cultivated fields the land thus seeded should first be burned over to destroy as many as possible of the seeds of the surface. It may then be plowed shallow, so as not to bury the remaining seeds too deeply in the soil. The succeeding cultivation not deeper than the plowing will induce the germination of seeds in this layer of soil and kill the seedlings as they appear. The land may then be plowed deeper and cultivation repeated until the weed seeds are pretty thoroughly cleared out to as great a depth as the plow ever reaches."

NEW PROSPECT NOTES. Gus Dickman was seen here Tuesday. H. Elenreiter passed through here Monday. Mrs. Davis is sick with erysipelas in her face. F. Tice and family of Aurora are guests of L. B. Reed. Grandma Hutchins has been very sick but is improving. L. B. Reed and F. Tice made a trip to Dotyville last Tuesday. Some of our young people wheeled to New Cassel and back Sunday. Halloween visited this village and all except M. D. Martin received a roll of bar-wire. A. Spradow had a bee Monday for the purpose of hauling lumber for his new barn. Celia Van Blarcom is spending this week in Fond du Lac getting some dental work done. N. Tice and wife of Forest visited the latter's relatives in this vicinity last Sunday and Monday. L. B. Reed and wife and B. D. Romaine spent Saturday and Sunday at Aurora, Washington county. The hunters hereabouts have been excited by the appearance of a deer near Lake Fifteen last Friday. The social held at M. D. Martin's last Thursday was well attended. There was singing, speaking and supper for entertainment. Dentist Hildreth will save your teeth. Others will boast of extracting them by the hundreds. At Campbellsport every Tuesday. Railroad fare paid. Washing machines are down again. They were kept up all day Friday. One of our merchants thought it would not pay, so they have been lowered to the usual height. Next Thursday evening, Nov. 14th, there will be a social at L. B. Reed's. Every lady is requested to bring lunch enough for two, which will be sold in boxes to the highest bidder. Everybody invited. Citizens of Campbellsport and vicinity appreciate the effort that Dentist Hildreth, of Fond du Lac, is making in giving them the most complete dental office to be found in any large city; and the high-grade dentistry that the people are receiving at reasonable prices, should cause them to further encourage the doctor in his efforts.

He Was Consistent. A business man in a town in New York state was recently asked by a lady to put an ad. in the "woman's edition" of the local paper that was to appear. He did not want to do any advertising just then, but at the same time he did want to help the woman; so, he gave them the following ad., which duly appeared: "Oh, woman, woman! Thou shouldst have few sins of thine own to answer for, as thou art the authoress of such a book of follies in man that it would take the tears of all the angels to blot the record out." Paying \$30 for this space is a practical, palpable, incontrovertible verification of the above quotation."

Clover and Hogs. Swine-growers have all pretty well agreed that clover is an essential crop for the welfare of pigs, although all do not put an equally high estimate on the value of clover for this purpose. A contributor to the Swisscheid gives his experience as follows: "I have a 14-acre clover field near my barn that I fastened the sows out until May 15th; then I fastened the sows out but fixed the fence so the pigs could go back and forth at their pleasure. There have been from 25 to 75 pigs and sows running there every day. After this at pasturing I cut in June about two tons of good hay per acre, and it is now in blossom again. I consider good pasture for swine the mother of good health, and if you keep them plentifully supplied with wood ashes and salt (3 parts ashes and 1 salt) and pure water in the shade, you will have no cholera."

Ira D. Stanton is visiting relatives in Spencer, Iowa. Turkey rattles are becoming quite popular in this vicinity. A. Huolihan visited with the latter's parents in Forest Sunday. S. Ferdinand of Fond du Lac is visiting with her daughter, Mrs. F. Schenk. Miss Kittie Rush visited relatives and friends in Eden last Saturday and Sunday. Edward Murray is attending the Normal school at Oshkosh. He went Monday. Jacob Arimond and our miller, A. Huolihan, made a trip to Kewaskum last week. Frank Gadszkie purchased a horse and new buggy and harness from H. Bardfeldt. Our village school is progressing nicely under the management of Miss Gerie Corbett. Thomas Jourdan and wife of Rockfield are visiting with her parents, Mr. and Mrs. A. McDougel. John McDougel of Fond du Lac Wis., made a short call on his parents while here one day this week. Thomas Hughes, formerly of this place, but now of Milwaukee, spent a few days here on business this week. Miss Katie Brookmeyer, who is learning dress-making at Fond du Lac, spent Sunday at home and returned Monday forenoon.

The two small boys, who were quite badly hurt during the horse-races here a few Sundays ago, are up and attending school. Several of our young folks attended the Dime social at New Prospect last Wednesday. All report having had a good time. The dance at P. W. Gallagher's last Saturday evening was well attended. Music was furnished by Romain Brothers' String Band. Among those who had business at Fond du Lac the past week were: R. J. Romain, L. Schenk, Herman Marquart and A. McDougel. We notice that Alfred White has subscribed for the STATESMAN. Who is next? No family here should be without such a newsy paper. Peter Calvy commenced his term of school in Farnell last Monday. This is his first term of teaching and your correspondent wishes him success.

NEW CASSEL NUZZETS. John Adler is on the sick list. A. Rosenheimer was a caller here Tuesday on business. On. Pohn and John Frost went to Milwaukee last Monday on business. Peter Bremner has improved so he can sit up and be around the house a little. Mrs. Gane called on Wm. Pool's family while enroute from Chicago to Oakfield last Wednesday. A. C. Bushall received word Wednesday from Waukegan, Ill., announcing the death of his uncle Henry Conrad. The success that Dentist Hildreth is meeting with every Tuesday at Campbellsport is due to first-class work at reasonable prices. The funeral of Martin Ryan was held from the Catholic church last Wednesday with interment in Calvary cemetery at Fond du Lac. Best set of teeth \$8.00—warranted to stay and guaranteed to be of the best material—at Dentist Hildreth's—Campbellsport every Tuesday. Wednesday afternoon at 3 o'clock Rev. C. J. Huecker married Henry Krueger to Lizzie Ferber, after which supper was served at the Northwestern hotel by her sister, Mrs. P. H. Guehrer.

On Monday at about 3 p. m. Martin Ryan, an old resident of Eden was found dead in his house. He was alone at the time and had been reading an almanac. A coroner's inquest was held, and Doctors Hoffmann and Zimmerman ascribed apoplexy, brought on by old age, as the cause of his death.

ST. KILIAN KALIOGRAPHICS. Fresh oysters constantly on hand at Jos. Mack's and Strachota & Flash's. Fire in the Rock river marsh is still raging and doing great damage to farms. John Ruppinger, who took sick in church here, Nov. 1st, is seriously ill with lung fever. Don't miss the Ashford Kirmess next Monday and Tuesday. Good music and a good time is assured. The dwelling house of F. Beisber, which burned in the Kilian fire, has been rebuilt and is for rent. Born to Joseph Batzler and wife, a bouncing boy, last Monday. Nicholas Heerig and wife have one pretty near as new, too, as he arrived last week. Michael and Martin went outcoon hunting last week, and the third shot fired by Martin brought down a 30-pounder, which was caught by their dog. Joseph Mack can verify the correctness of the weight. Mrs. Knar, mother of Wenzel Knar and Mrs. Jacob Kral, died on Oct. 29th at the age of 77 years. Funeral took place at 9 a. m. last Saturday. Rev. Burellbach officiating, and the remains were interred in St. Kilian cemetery. During the wedding celebration not far west of here recently, a fire alarm was sounded while the guests were at the height of enjoyment. Women ran for their sleeping children, while men took to the roof with cans of milk and buckets of beer in their anxiety to foil the flames; but, when the shingles began to slide from under them, they discovered that the alarm was a false one, only the lamps having been found burning.

NOTICE.—All persons are hereby forbidden from trespassing on my place under penalty of the law.—CHAS. BATTL, Sec. 14, Town of Kewaskum.
—Fred. Schaefer spent Sunday and Monday last here with his folks. He purchased a horse for the grocery delivery business before returning to Milwaukee.

—A. W. Miller, the traveling representative of Prohl & Shire's wholesale millinery store at Milwaukee, was doing business here last Saturday. The firm is a late enterprise in the Cream City and many friends here are pleased to note that their practical experience and energy is crowning the new company with success.
—August Peterman, who lives 2½ miles north of here, was aroused by an unusual noise upon the part of his dogs last Saturday morning. As he reached the yard he noticed a queer looking animal which, upon closer examination, proved to be a deer. The animal bounded across the field and into the woods. Mr. Peterman took up the trail with a gun, but without avail. The only way we can account for the appearance of such exceptional game hereabouts is that Barney Demers and John Kass, who went up north a week previous, were "armed to the teeth" and are making it "mighty uncomfortable" for deer up that way. We wish the boys all the success in the world; however, we hope they will refrain from driving deer down upon us in droves.

—It seems that people are resorting to all sorts of schemes now days to make a living; and, if walking from Green Bay to New Orleans on stilts or rolling a beer keg over the same route proves successful, the man who started for Paris with his wife on a wheelbarrow will be encouraged considerably.

FARMINGTON FLASHES.
The recent rain weathed our faces with smiles.
The husking bee at A. F. Bratz's on Tuesday night was quite a gathering, as it was the last of the season.
Most of the farmers here are looking after the condition of their wells preparatory for winter.
J. F. Timmler, who had the contract for painting the new school house in Dist. No. 9, Fredonia and Farmington, got through Thursday.
It is said that one of the young bloods of Fillmore had quite a time to himself last Sunday. It seems that his double drove off with his girl, whereupon the rejected courier drove to a neighboring town, where he toned up with "skey" and became happy as could be, with a thirst that could only be measured by the desperation of a bilked Fillmorean—"dressed in his best suit of clothes."

Some of the boys treed something stronger scented than a coon lately judging from the swath that their dogs cut hereabouts.
A grand dance will be given at Frank Hahn's hall in Kohlsville on the night of the 10th inst. by Mr. Bertschy. All are invited. The Hillsburg band will furnish the music.
Messrs. Geo. Heisler and Geo. Abel of Kewaskum, and Henry Degenhar and H. Wentzel of Campbellsport attended the farewell party given by Henry Schneider at his former home at Kohlsville last Sunday.
John Bonesho, a farm-worker here, gave the young people a party at the home of Jac. Hawig on Sunday evening. Johnny, what will those girls say when you leave? He left Saturday for his home at Campbellsport.
It is well worth the trip to visit Dentist Hildreth's office at Fond du Lac, he having the most complete office in the northwest, (Minneapolis excepted) occupying space 70x125 feet, divided off into elegant furnished reception room, toilet room, laboratory, operating room, extracting room, impression room, bridge-crown room, laboratory room, reading room, and children's room with a nurse to take care of the children when parents are unable to leave them at home.
