PRESIDENT'S MESSAGE

Advises the Retirement of Greenbacks.

The Monroe Doctrine is Upheld-Neutrality Toward Cuba.

The message opens with reference to the importance of our foreign relations and the exigencies of the national finances at this time and the consequent de termination of the President to confin his message to those subjects.

The first subject of importance touche upon is the disordered condition of affairs in China following upon the clos of the war with Japau, the consequent weakening of the central authority of the government and the serious outbreaks of the old fanatical spirit against foreigners is discussed. The demands of the United States and other powers for the punishment of the aggressors and the compliance of the Chinese government are related, as is the demand of the United States for a special commission to investigate the disturbances when they first broke out. "The ener-getic steps we have thus taken," says the President, "are all the more likely to result in future safety to our citizens in China because the imperial govern-ment is, I am persuaded, entirely convinced that we desire only the liberty and protection of our own citizens and redress for any wrongs that they have suffered, and that we have no ulterior designs or objects, political or otherwise. The Waller Incident.

ns,

Of the Waller incident the message Of the Waller incident the message says: "The customary cordial relations between this country and France have been undisturbed with the exception that a full explanation of the treatment of John L. Waller by the expeditionary military authorities of France still remains to be given. The official record of the trial has been furnished this government," says the message "but the ernmeat," says the message, "but the evidence adduced in support of the charges, which was not received by the French minister for foreign affairs till the first week in October, has thus far been withheld, the French government taking the ground that its production in response to our demand would establish a bad precedent. The efforts of our ambassador to procupe it boyoger though bassador to procure it, however, though impeded by recent changes in the French ministry have not been relaxed and it is confidently expected that some satisfac-tory solution of the matter will shortly be reached. Meanwhile it appears that Mr. Waller's confinement has every alle-viation which the state of his health and all the other circumstances of the case demand or permit"

The President points out, a pleasant contrast, the condition of a permanent treaty of arbitration between the two countries and recommends the accept-ance of the invitation to take part in the Paris exposition of 1900.

Paris exposition of 1900.

Our relations with Germany, he says, are influenced by the "delusive doctrine that the internal development of a nation is promoted and its wealth increased by a policy which, in undertaking to reserve its home markets for the exclusive serve its nome markets for the exclusive use of its own producers necessarily ob-structs their sales in foreign markets and prevents free access to the products of the world; the desire to retain trade in time-worn ruts, regardless of the inexorable laws of new needs and changed conditions of demand and supply, and our own halting tardiness in inviting a free exchange of commodities, and by this means imperiling our footing in the external markets naturally open to us, have created a situation somewhat injurious to American export interests, not only in Germany, where they are perhaps most noticeable, but in adjacent countries."

products and also en our insurance com-panies, is pointed out. The necessity for open-handed fairness in dealing with other nations is stated, but it is argued that if necessary to provide restriction ination, the way to such a course is easy but should not be lightly entered upon.

The vexatious points of the Behring sea question are referred to and the failure of the arbitration tribunal to provide means of settlement is pointed out. The insufficiency of the British patrol of Behring sea and the necessity for a more Behring sea and the necessity for a more effective enforcement of regulations if it is hoped to save the seals from extinction, have, it is stated, been pointed out to the British government. Of the proposal to pay \$425,000 to Great Britain in the President recommends that it be again considered and sanctioned. If this is refused, we are bound by every consideration of honor and good faith, he says, to provide for its speedy settlement by arbitration. A treaty of arbitration is accordingly to be laid before the Sen-An appropriation for the comple of the Alaska boundary survey which follows the contour of the coas is earnestly recommended. The im portance of an international agreemen is to the line of the 141st meridian, which forms the rest of the boundary s dwelt upon. Attention is also calle to the Great lakes and the recessity for Regarding Venezuela.

Of Venezuela, the message simply states that a statement of the interest and policy of the United States regarding the boundary dispute was sent to Great Britain in July last. "The gensubstance that the traditional established posed to a forcible increase by any pow er of its territorial possessions on this continent; that this policy is as well founded in principle as it is strongly supported by numerous precedents; that as a consequence the United States is bound to protest against the enlargement of the area of British Guiana in derogation of the gights and against the will tion of the rights and against the will of Venezuela; that, considering the dis-parity in strength of Great Britain and Venezuela, the territorial dispute be-tween them can be reasonably settled ony by friendly and impartial arbitration and that the resort to such arbitration should include the whole controversy and is not satisfied if one of the powers bitration only the portion lying on one side of it. In view of these conclusions the dispatch in question called upon the British government for a definite answer to the question whether it would or would not submit the territorial controvers between itself and Versian Linking. would not submit the territorial controversy between itself and Venezuela in its entirely to impartial arbitration. The answer of the British government has not yet been received, but it is expected shortly, when further communication on the subject will probably be made to the Congress."

ear to have especially characterized this sanguinary and fiercely conducted war, have in the least shaken the determina-

have in the least staken the determina-tion of the government to honestly fulfill exery international obligation, yet it is to be honestly hoped on every ground that the devastation of armed conflict may speedily be stayed and order and quiet restored to the devastated island, bringing in their train the activity and thrift of peaceful pursuits." The Allianca inident and Spain's disavowal of it and issurances of a non-recurrence of similar nterference are stated.

The Turkish Outrages.

The Amanca in estimated at \$500,000.

Two persons were frozen to death at St. Paul as the result of the unexpected cold wave and two others narrowly escaped a like fate.

The President then expresses his regret that the Turkish government should have thwarted the purpose to send to have thwarted the purpose to send to the results of the operation performed two weeks ago to remove a tumor. United States consul at Siyas in order to investigate and report. Every effort, he says, is being put forth to insure the safety of American residents, and the United States minister is alert. But, he goes on, several of the most powerful European powers have assumed a duty as agents of the Christian world in Turkey to restrain fanatical brutality, and it is earnestly hoped that prompt and effective action on their part will not be delayed.

lelayed.

The message recommends at length an mprovement in the consular service by some plan of appointment and control. · The Financial Situation.

Fully half the message is devoted to the financial situation. "By command of the people," the message says, "a cus-toms revenue system designed for the protection and benefit of favored classes at the expense of the great mass of our countrymen, and which, while in effect for the purpose of revenue, curtailed our relations and impeded our entrance to the markets of the world, has been superseded by a tariff policy which in prin-ciple is based upon a denial of the right of the government to obstruct the avenues to our cheap living or lessen their comfort and contentment for the sake of according especial advantages to fa-vorites, and which, while encouraging our intercourse and trade with other nations, recognizes the fact that Ameri-can self-reliance, thrift and ingenuity build up our country's industry and de-velop its resources more surely than enervating paternalism."

enervating paternalism."

But this and the repeal of the silver purchase law, it is said, fall far short of curing the financial evils from which we suffer. A lengthy review follows of the growth of our currency and particularly the United States notes and pressure, reter and the growth of the growth and pressure, retering the control of the growth the control of the state of the same and the growth and the same and t treasury notes, and the consequent end-less drain on the gold reserve of the

The President states that "among the causes for this constant and uniform shrinkage in this fund may be mentioned a great falling off of exports under the operation of the tariff law until recently in force, which crippled our exchange with foreign nations and necessitated to some extent the payment of our balances in gold; the unatural is, asion of silver in gold; the unnatural i... asion of silver into our currency, and the increasing agitation from its free and unlimited agitation from its free and unlimited coinage, which have created apprehension as to our disposition or ability to make gold payments. The consequent shortage of gold at home and the stopping of investments of foreign capital, as well as the return of our securities already sold abroad, and the high rate of foreign exchange, which induced the shipment of our gold to be drawn against, as a matter of speculation." against, as a matter of speculation.

The Bond Syndicate. The history of various bond transactions which had to be resorted to in order to replenish the gold reserve is reviewed and the subsequent fallings off with the syndicate the President says:
"The performance of this contract not
say restored but checked for a time the "The performance of this contract not so yet yet to be so yet of the solution of the contract not solve yet yet of the sarrangement and am quite willing to answer for my full share of responsibility for its promotion. I believe it describes a sarrangement and a such that after the sightest misgiving the sarrangement and am quite willing to answer for my full share of responsibility for its promotion. I believe it the sarrangement and the sarrangement and am quite willing to answer for my full share of responsibility for its promotion. I believe it the sarrangement and the sarrangement and am quite willing to cause is known for suicide, as his family relations were entirely believe its promotion. bility for its promotion. I believe it averted a disaster, the imminence of which was fortunately not at the time

which was fortunately not at the time generally known to our people."

We are now, the President says, nearly where we started and nearly all of the gold withdrawn has been paid out on United States notes, which still remain ancancelled. The President says: "I am convinced the only thorough and practical remedy for our troubles is found in the retirement and cancellation of United States notes, commonly called green-States notes, commonly called green-backs, and the outstanding treasury notes issued by the government in pay-ment of silver purchases under the act of 1890."

Retiring Treasury Notes. The method he proposes is the exchange of these notes for bonds, small and large, and bearing a low rate of interest and for a long term. The increase in the bonded debt would be compensationally to the compensation of the com ated by renewed activity and enterprise and restored confidence at home. A troublesome indebtedness would be cancelled instead of remaining in the shape of a menace of unending bonds.

"The obligations necessary to fund this indebtedness would not equal in amount those which we have been reamount those which we have been re-lieved of since 1884 by anticipation and payment beyond the requirements of the sinking fund out of our surplus revenue. "The currency withdrawn by the re-tirement of the United States notes and tirement of the United States notes and treasury notes, amounting to probably less than \$486,000,000 might be supplied by such gold as would be used in their retirement or by an increase on the circulation of our national banks. I think they should be allowed to issue circulation equal to the par value of the bonds they deposit to secure it, and that the tax on circulation should be reduced to 1/4 of 1 per cent., which would undoubtedly meet all the expense the government incurred on their account. In addition they should be allowed to substitute or deposit in lieu of the bonds now required as security, for their circulation those

retiring the United States notes and treasury notes."

Coroner's Jury in the Lafreniere Case at Ishpeming. Ishpeming.

Ishpeming, Mich., Dec. 3.—[Special.]—
The coroner's jury in the case of Eva Lafreniere, whose body was found six weeks ago in the garret of Mrs. Wendel's house here, has finally returned a verdict. It is to the effect that the child was murdered. The evidence against Carl Wendel, who is charged with the crime, during the last few days the jury was in session, is very strong. Some of Wendel's companions testified that the lad confessed to them that he had killed the girl with an axe. Wendel is in the county jail awaiting trial, but he has shown no signs of weakening. He positively refused to talk to anyone about the affair. Ishpeming.

HAYWARD'S EXECUTION.

Likely that Friday, December 13, will be Set.

Minneapolis, Minn., Dec. 2.—It is considered likely that December 13 will be set for the execution of Harry Hayward, the chief conspirator in the murder of Katherine Ging. Nobody believes for a moment that the governor will commute the sentence or in any way intermute the sentence or in any way inter-

MINERS GET A RAISE.

Companies at Ishpeming and Negaunee Increase the Wages 10 Per Cent.

Ishpeming, Mich., Dec. 4.-[Special.]-The mining companies of Ishpeming and Negaunee today notified the employes that the wages of miners had been increased 10 cents and laborers 5 cents

per day. This places the scale for miners at \$1.80.

The men as a rule have been doing better than this as the companies are not limiting them to the scale. The advance was a surprise to the men as they had not made a demand. It is asserted, however, that the men had concluded to ask for an increase on January 1 if the company had not given it now. A fur-ther increase is looked for shortly after the first of January when contracts for next season are closed.

It is intimated by the union that all

here will be asked to join the organiza-tion and if they refuse the union men will be called out. In the event of the latter mine managers say they will close down for the winter, as they will not recognize the union in any way.

MAHER AND "FITZ."

The buildings were all brick and were three and four stories high. A number of accidents occurred. Several firemen were carried down by falling walls. One, and probably two, it is believed, who have been taken to the hospital, will die.

NEW MAP SUBMITTED.

A. J. Turner Fresents a Schedule that Undoubtedly will be Adopted.

Madison, Wis., Dec. 5 .- [Special.]-The legislative apportionment committee will convene tonight to receive Clerk Turner's revised schedule for an apportionment of the state into Assembly and Senate districts, made in accordance with the view of a majority of the comwith the view of a majority of the com-mittee that Assembly districts should be constructed first without regard to Sen-ate districts, instead of by equalizing representation between the two, which was Mr. Turner's idea. The committee had secured legal advice from ex-Senator Spooner that the independent plan was the correct one, and in accordance with the request of the committee Mr. Spoon-er will submit a written opinion sustain-ing this view when the committee meets tonight.

This is in accordance with the contention made by Col. L. J. Rusk before the committee. The new list of senatorial districts is as follows: First-Brown and Kewaunee countles

Second, Door, Marinette and Geonto, 62.

Third—Racine and Kenosha, 58,658.
Fourth—Sixth, Thirteenth, Eighteenth and Twenty-first wards of city of Milwaukee, village of Whitefish Bay, towns of Granville and Milwaukee, 56,117.

Fifth—First, Second, Third, Fourth, Seventh. Fifteenth and Sixteenth wards, Milwaukee, 59,282.
Sixth—Ninth, Tenth, Nineteenth and Twentieth wards, Milwaukee, 59,487.
Seventh—Fourteenth and Seventeenth wards, Milwaukee; villages of Cudahy and South Milwaukee, towns of Lake, Oak Creek, Franklin, Greenfield, Wauwatosa, 57,722.

Eighth—Fifth, Eighth, Eleventh, Twelfth has held first

Twenty-eighth-Richland and Vernon, 46,-

Twenty-ninth—Dunn, Barron, Polk and Burnett, 67,137 Thirtieth—Langlade, Forest, Iron, Flor-chice, Oneida, Price, Taylor and Vilas, 47,-

184. Thirty-first-Jackson, Monroe and Wood, 64,709. Thirty-second-La Crosse and Trempealeau. 65,573. Thirty-third-Washington and Waukesha, 30,639. Under the schedule no senatorial dis-

Under the schedule no senatorial district has a population exceeding the unit 58,724 by one-sixth, and but one district which falls one-fifth below the unit. The number of senatorial districts have been changed so that each "holdover senator will retain the number of the district in which he was elected.

Besides the change in Dane and Chippewa counties, a change is made in Assembly districts by adding Burnett county from its union with Bayfield, Washburn and Sawyer counties and making a district of Burnett and Polk counties, with a population of 16,117, and putting the other four counties together, with a population of 26,494.

of 26,494.

The only other changes made in Assem bly districts are in transposing the towns of Ashford and Friendship in Fond du Lac county, transposing towns of Schleswig and Cato in Manitowoc county and in Waupaca county.

Decision of the Board of Review

New York, Dec. 5.—Among the cases decided by the board of review of the National Trotting association today was that of G. G. Robens of Grand Rapids, Mich., accused of fraud in the \$10,000 Alcryon-Nelson race at Beacon park, Boston, in 1889. Robens had applied for permanent reinstatement, but the board would only continue the temporary reinstatement granted him at Chicago last year. Dr. J. E. P. McCuskey-of Lancaster, Pa., who was expelled for informality and wrong opinion at Le Grand's track in 1892, was ordered to be reinstated, as the board considered he had been sufficiently punished. T. B. Davis of Williamson, Pa., was fined \$100 for a track violation.

BALANCE ON HAND.

cultural Society-Report of the Secretary.

Madison, Wis., Dec. 4.-[Special.]-The State Agricultural society opened its annual session in the rooms at the capitol today, with only a dozen members

its annual session in the rooms at the capitol today, with only a dozen members present. The meeting of the executive board was held prior to that of the society, at which reports of the treasurer and secretary were read and adopted, and in turn reported to the society.

The report of Treasurer M. R. Doyon showed total receipts of \$43,361.57, including a balance of about \$4200 left from last year. The disbursements were \$39,122.62, including about \$900 paid for old debts, leaving a balance on hand of \$4238.95. This will be increased about \$1300 by outstanding accounts due the society, which will make this year's balance in round numbers \$5500.

Secretary Fleming in his report showed that included in this year's expenditures were \$5018.95 for extra expenses, largely permanent improvements, the items being: Paid street car company running to the grounds, \$799.35; insurance for three years, \$1242.50; infield, \$156.84; sidewalks. lumber, labor, etc., \$850; barns, \$1970.26. Besides this, \$5000 more was paid for premittins this year than last, making the total extra expenses about \$10,000. In conjunction with all this, the secretary says, the society's grounds have been improved about \$30,000 by the Jockey club which had the use of them last summer, the improvements being in cement walks, new buildings, track, grading, etc.

When the society convened President Hubbard submitted a communication from Gov. Upham suggesting that the society vacate the display room adjoining its office in the capitol which is occupied with a large display of cereals and mineral products, and that the room be occupied only by the secretary to be used for the society's meetings. The suggestion was not kindly received by the society and Dairy and Food Commissioner H. C. Adams was instructed to prepare a reply embodying the views of the members.

MAY ASSESS THE MEMBERS.

Plan to Lift a Mortgage from the Fond du Lac Track Association.

Fond du Lac, Wis., Dec. 4.—[Special.]

—A meeting of the stockholders of the Kite Park Fair association was held at the council rooms last evening for the purpose of raising \$3500 to pay off a mortgage which was raised on the track at the July and September races in 1894. The members of the association expressed favorable views toward raising the money and a meeting will be called in a few days for that purpose. The mortgage comes due January 1, 1896, and is held by the First National bank of this city. The property on which the mortgage is held is valued at \$17,000. It was proposed by several of the members that the stock be assessed at \$3 per share, which would raise the sum of \$3900, \$400 more than is needed, as the total number of shares is 1300. Plan to Lift a Mortgage from the Fond

Judge Decides in Favor of the Marinette Judge Decides in Favor of the Marinette
Lumber Company.

Marinette, Wis., Dec. 3.—The Marinette Lumber company is the winner in a suit brought by D. L. Bush of Abrams for \$18,000 alleged to be due him on a logging contract. Attorney F. C. Cody of Green Bay, who was appointed referee in the case, not only decided against Bush, but requires him to pay about \$18,000 to the company for breach of contract.

\$18,000 to the company for breach of contract.

A demurrer has been granted to the city in the case which Kringle, a sewer contractor, brought against it for recovery of 25 per cent. holdback fund and extras amounting in all to \$11,500. The demurrer will materially influence the final determination of the case and it looks favorable to the city.

The Wilson heirs today contested the will of the late Adolph Wilson. They charge that his young wife influenced him in the matter and also that he was of unsound mind. The old man died recently and gave over \$12,000 to a second cently and gave over \$12,000 to a sec

WAS HEAVILY INSURED.

Heirs of the Late Charles Alvord will Receive \$17,000.

Green Bay, Wis., Dec. 3.—[Special.]—It has been discovered that Charles B. Alvord, who died suddenly Sunday morning at his farm near Oconto after being charged here with forgery, carried life insurance to the amount of about \$17,000. Some of this was placed but a short time before his death, the last \$6000, taken out for the benefit of his boys at St. Joseph orphanage here, having been placed about a week ago. Mayor Cook of Ocvonto has taken possession of the eleven horses and conveyances used on the mail route between here and Sturgeon Bay on a mortgage, but will permit the bondsmen to use them until they can make other arrangements. Heirs of the Late Charles Alvord will Re-

APPLICATION DENIED.

Madison, Wis., Dec. 4 .- [Special] .-

Annual Meeting of the State Agri- The National Fraternal Insurance Union of Cincinnati Refused a License.

> The application for a license by the order of the National Fraternal union of Cincinnati, O., for admission as a mutual beneficiary society, has been denied.
>
> One reason for the refusal is that the fige limits, 16 to 19, do not comply with the law; second reason is that its name is too similar to that of the order of the National priority of the refusal priority of the refusal priority. National union, a fraternal beneficiary organization already admitted. The third and most important reason is that in the opinion of the commissioner an organization applying for admission as a mutual beneficiary society cannot issue endowment, limited payment life policies or give each surrenders poid un. cies or give cash surrenders, paid up, or extended insurance; that such features are wholly foreign to objects and purposes of assessment insurance; that if such features were permitted there must naturally follow a reserve liability must naturally follow a reserve liability to absolutely guarantee the fulfillment of contract, and right here would come an objection that an assessment company can issue only a contract which is flexible at one end or the other.
>
> In concluding his reasons for refusing the application the commissioner says: "The pathway of assessment endowment insurance is so strewn with wrecks of past experiments and have cost our people so many thousands of dollars, for which they have received no other reaurn that receiver's report, that to permit the admission of any organization of

Turner's Mutual Benefit association of Milwaukee has been licensed by Iusurance Commissioner Fricke to do an insurance business in Wisconsin.

Bayfield County School Board Sued for Alleged Violation of Contract.

Madison, Wis., Dec. 4.—[Special.]—The suit of the Minnesota Stone company against the school board of the town of Washburn, Bayfield county, for \$20,000 damages for alleged violation of contract, is before Judge Bunn in the United States court today. The stone company had contracted for the construction of a schoolhouse for the town which they partially built two years ago. The school board became dissatisfied with the manner in which the work was done and on the company's refusal either to change it or quit work Assemblyman change it or quit work Assemblyman William O'Neil, who was then president of the school board, raised an impromotu of the school board, raised an impromptu army and drove the company's workmen from the building, the board then taking hold of the work and completing the structure, which cost \$42,000. The Stone company was paid for the work it had done, but sues for damages for alleged violation of contract. Tomkins & Merrill of Ashland are attorneys for the plaintiff and H. H. Hayden of Eau Claire for the school board.

FREE LIBRARY COMMISSION.

sum of \$3900, \$400 more than is needed, as the total number of shares is 1300. With the amount left over it is proposed to erect county fair buildings.

It was expected that the committee was no quorum. A sufficient number of members will, however, be here before evening.

Turner's new apportionment of Assembly districts gives Dane county but three members instead of four, and gives Chippewa county two instead of one. The case was called before Judge Bardeen in the circuit court at La Crosse this morning.

Sum of \$3900, \$400 more than is needed, as the total number of shares is 1300. With the amount left over it is proposed to erect county fair buildings.

Grand Recorder Frank M. Givins, A. O. W. W., went to La Crosse yesterday afternoon to testify in a suit brought by John A. Daniels, an attorney of that city, to recover \$3000 alleged to be due him for services rendered the order while H. C. Heath of that place was grand recorder. The case was called before Judge Bardeen in the circuit court at La Crosse this morning. and R. G. Thwaites of the State Historical society were present. It was decided to issue a pamphlet bearing on the work of organizing free public libraries, the purpose for which the commission was appointed. The members will also visit communities which need assistance in organizing. The commission is allowed \$500 annually by the state to cover expenses, the members serving without salary.

SHOT DID ITS WORK.

A. H. Bueto, Who Attempted Suicide,
Dled of His Wound.
Chippewa Falls, Wis., Dec. 4.—[Special.]—A. H. Buetow, who attempted suicide in such a tragic manner about a week ago, died at St. Joseph's hospital. The bullet wound in his head finally proved fatal and notwithstanding the struggle he made for life and the skill of the physicians who attended him, the battle for existence proved fruitless and he passed quietly away while the attendants were watching at his bedside.

WANT A PERMANENT CLUB. West Side Athletes at Green Bay will

Organize. Green Bay., Wis., Dec. 4.—[Special.]—
Arrangements are being made for the organization of a permanent athletic association on the west side. The only sociation on the west side. The only organization they have ever had there has been something temporary formed just previous to an athletic contest, which has ended when the contest was over. For this reason they have been able to appear to advantage.

BROKE THROUGH THE ICE.

Green Bay Young Man's Close Call from Drowning.

Green Bay, Wis., Dec. 4.—[Special.]—While skating last evening George Kolocheske broke through the ice on East river and was rescued with much difficulty by his companions. His face and hands were badly cut by the ice in his efforts to help himself and he was taken from the water so thoroughly chilled that his recovery is considered very doubtful.

FARMER'S HARD LUCK. August Swanson Loses His House and

Furniture by Fire.

Junction City, Wis., Dec. 4.—[Special.] Junction City, Wis., Dec. 4.—[Special.]

Up for His Funeral. We are told a curious circumstance concerning the colors of the Thirty-third, or Duke of Wellington's, regiment. On the death of the Iron Duke the regiment was brought from Glasgow to London to attend the funeral. The colors were lodged at the town house in Portland place of the commanding officer, Lieut-Col. Blake, where the color party were

To the simple, uninitiated mind of Mrs. Blake the tattered condition of the regi-Blake the tattered condition of the regimental color seemed a reflection on the regiment, and she was askamed that it should be seen in that state in such a great ceremonial. Taking her white silk wedding dress, she obtained the material wherewith to repair the color, and it was, practically speaking, her wedding dress duly draped that was borne at St. Paul's that day.—Royal United Service Journal.

The Modern Mother

has found that her little ones are im proved more by the pleasant laxative, Syrup of Figs, when in need of the lax-ative effect of a gentle remedy than by any other, and that it is more acceptable to them. Children enjoy it and it bene-fits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

Tricks of Mexican Pickpockets. - Two German gentlemen were talking at the corner of First Plateros street, just off the entrance of the Portal, when sud-denly one of them was roughly pushed by a pelado. The German tried to remona pelado. The German tried to remonstrate and even made motions with his cane to punish the offender. At this moment his companion felt a stinging pain in the back of his neck. Another pelado and the back of his neck. Another peaked had thrown aburning match inside of his collar and naturally made him throw up his hand, and while so doing the pick-pocket grabbed the man's watch and chain and ran away, followeed by a policeman. The ratero was not caught. The German's timepiece was a silver one, of little value, and what the Tueton felt most keenly was the burning of his neck.

THE WISH.

So you would kiss the poet's lip, And catch the music his heart feels; Would in his honeyed garden sip The sweetness that each flower conceals.

Oh, you have asked a foolish thing.
The poet's lip is not divine;
It cannot through its passion fling
The secret of the jealous Nine.

But if you truly love, and he—
A poet lover—loves you too,
His lip will drop a melody
More golden than the Sirens knew.
—Charles T. Lusted in Blackwood's Maga-

Those far and foreign chaps and teach 'em, by example, to be good. —New York Recorde

She was the youngest but one of a and seventeen years of perpetual martyr-family of eight. Physically, her life was and could be nothing save one long eru- to live?" stretched behind her a record of suffering; before her the prospect of greater torture still. Nature had used her cruelly, for while her puny and misshapen frame inspired ridicule, or at best shudframe insp eifixion. Crippled and deformed, there dering pity, she had been dowered with a capacity for affection that burnt itself into fiercer intensity waiting the love

wality. It was her violin that expressed more eloquently than herself could ever have done the loneliness and the lovelessness of her life. How many heartconceived tragedies had throbbed harmlessly away upon its vibrating strings! How many delirious day-dreams had groped their way from her inner consciousness into exhilarating life through that medium which faithfully interpreted all her varying moods!

"It speaks for me," she once confessed to the old doctor, who understood her

old doctor, who understood her than anyone else. "What other petter than anyone else. "What other people feel they can explain in words; but I seem to have no power of expression except through my violin."

Dr. Marshall was silent for a moment; then he asked presently: "Did you ever hear my boy Austin play?"

Ida shook her head. She had heard hear one ther mortid consciousness of in-

one. Her morbid consciousness of infirmities prevented her from attending any public concert, and Austin Marshall, she knew, was a professional violin-

ist of repute.

"You ought to hear him. They tell me his execution is remarkably good—and, besides, geniuses like you two ought to know each other. I'll tell you what I'll do," he added kindly; "I'll bring him ound one evening to see you, if you like, when he isn't busy."

Not many days elapsed ere the doctor

kept his promise, and Austin Marshall, tall and strong, held the small, wasted hand of the diminutive musician, and hand of the diminutive musician, and wondered the while how the perfect soul his father had described had managed to find itself in that missbapen little body. And later on, when Ida had completely astounded him with her rendering of Dvorak's "Romance"—wild, intense and heart-breaking—he told himself that such a thing was monstrous. Here was an untutored genius, beside whom himself would nale into comparative insignifirould pale into comparative insignificance, doomed by nature to perpetual solitude while, Orpheus-like, she sought by her music to charm into life the rocks

"You want some lessons to correct a few technical errors," he said at last, "and then you ought to be able to hold your own at Queen's hall or St. James' with the best of them. If I could believe in the transmigration of souls I would swear the lost soul of some re-

He spoke with the generous enthusism of genius; mere talent is sparing of last night by Deputy United States Mar-shal Buckley. His face was wrapped up in a big cloth and as soon as the station

"Ida on a public platform! Why, hey'd never see her!" interpolated a lor admiring friends had sometimes mis a conscious smile that betrayed the orig-nator of the questionable pleasantry. Poor Diminished Seventh! She winced as from a blow, and Austin, with the intention of covering her confusion, aberved with ready tact:

"I suppose because the minor harmonies are most perfect and least under

amily was left speechless, and not quite certain whether some disguised slur on himself had not been subtly introuced: while Ida, feeling vaguely that hose few words had sealed a compact eternal friendship between Austin Marshall and herself, took up her violin again and dashed into a wild and chareteristic Hungarian air, whose reckless ubilance was shadowed by an underly-ng vein of sadness. And when at last e music was all over, she crept to her om upstairs, marvelling that the Book oom upstairs, marvelling that the Book of Life, with its multitudinous possibilities, had never been opened to her it the enchanting page of Friendship.

That evening was but the forerunner of many similar. Scare a day passed without Austin Marshall contriving to pend some time with the deformed musician. And as the days lapsed into weeks, and the weeks into months, it was noted that when Ida played alone. as noted that when Ida played alone or airs were more romantic than before. nd even her unmusical family became d music as much as any one-if she

new that Ida might not attain the su-reme height of inspiring dance music, ach as her mother loved, and abandon orever those ghoulish wails she said ere classical. But when the old doctor noticed the hange he shook his head in apprehenon, while tears of pity filled his eyes. His profession had trained him to read nd if all he thought and dreaded were true—! Had things been different! Ki from the sweetest gifts life can

ood doctor feared.
"I shall miss and this dreadfully when

it glided to the window, unlocked it and passed out on the porch. I knew in a momentary surprise. Then he sat spell-bound, while she played the weird "Romance" of Svendsen's, once heard never forgotten.

He had heard it played by more than one finished murgician; but this was a different rendering. It was like the desonizing ory of a lusty swimmer falling near the shore, or the wail of a lost soul striving to escape from the sea of torture and driven back by a host of fallen angels. In those strains he read herbeart as plainly as though speech had passed between them; he knew the bitterness of her life; he saw the vistary and barren before her; and when the last note died away he learned in a brief glance from Ida's cress all the strange discords had not confessed.

It was but for an instant. For, in the next, overcome by the strong excitement she had just experienced, the bow slid belplessly from her nerveless fingers, and she failisted.

Symptoms of little moment in an ordinary person might in her case proguesticate the worst, and any new phase, however slight, was at once submitted to medical abulion. In the present instance,

probably took possession of her mindbelplessly from her nerveless fingers, and
she fainted.

Symptoms of little moment in an ordinary person might in her case progdinary person m

and before he left the house she had For some time father and son went tomeward in silence. Then the doctor asked abruptly:
"Does Ida know you are going away?"

"I told her this evening," Austin answered, and in some confusion, as he recalled the way she had received the called the way she had received the news. "Father, do you know —"
"Ah! That accounts for it," said the old man, as though speaking to himself. "Yes. Do I know what?"
"Well—I think—that is, I'm afraid—that Ida —" He stopped short, for the confession was alike tender and humiliating. But his father, who had humiliating. But his father, who had feared such a contingency well nigh from the first, understood what had been left

"I know, Austin, I know. But what to be done? The friendship that you have felt for her—that she believes she has felt for you—has been the one bright spot in her life. Seventeen years old

"I suppose that when she's 21 —"
Austin began, but the doctor cut him

that never came.

Misunderstood, she had gradually retreated into a little world of her own, with nothing to love. Nothing? There was her violin, but that could hardly be considered apart from Ida's own individuality. It was her violin that expressed

thin ribbon of spring sunshine had strug-gled through a crevice of the window blind and lay a bright streak across the floor. Outside the garden was cheerful with the song of birds and the rustling of leaves. Inside sat the little cripple, propped up with nillows, her nitiful vital.

or leaves. Inside sat the little cripple, propped up with pillows, her pitiful vitality burning itself slowly away.

She knew she was dying, but the knowledge brought her no fear. Perhaps she believed that if eternity held for her was the sale had. for her worse torture than she had yet endured she had served on earth an apendured she had served on earth an apprenticeship to pain long enough to fit her for it. Perhaps Austin Marshall's companionship and sympathy during the last few weeks were making the end comparatively easy. At any rate, when the door was opened quietly and he looked in, violin in hand, she greeted him with a grateful smile.

"Like to have some music?" he asked cheerfully, though he was pained to

"Like to have some music?" he asked cheerfully, though he was pained to mark each day how her hold on life was weakening. "What shall I play?"
"Give me mine," she said suddenly, "and we'll play together."
The violin lay, as usual, on the table close by, but Austin hesitated.
"If you really feel equal to the exertion," he began, and then, answering the command in her eyes, he passed it to her without another word.
With tremulous fingers she drew her

With tremulous fingers she drew her bow across the strings, and, recognizing in the opening notes her favorite, "Lied" Schubert, Austin softly followed, and in a moment was so absorbed he scarce noticed how her bowing became gradualnoticed how her bowing became gradually weaker, until it faltered and stopped just before the concluding bars. He looked up in sudden apprehension. Surely her face had not worn that strange gray shadow just before?

She did not move.
"Ida! What is the matter-what is solved into perfect harmony.-Black and

SONG OF THE ABSINTHE DRINKERS.

Of things that drive away all care,
Remembe, abstinthe's praises,
Caught up from earth, we walk on air
In the strangest of strange places.
With a drip, drip, drip,
And a sip, sip, sip,
We drink to the bad,
And the merry and sad,
In the cup that kills or crazes. Of things that drive away all care,

Deep in the opal glass we look
At the dreamland's mystic phases,
And see the goblin and the spook
That dance in wreathing mazes,
With the drip, drip, drip,
And the sip, sip, sip,
We'll drink all night
To our hearts' delight,
In the cup that kills and crazes.
New York Evening Sun.

MYSTERY OF SLEEP WALKING.

How a Clever Detective Fathomed a Mat said a well-known dectectie to a reporter. beries, extending over a considerable space of time. The servants of the louse had been changed several times, and yet the thefts continued. About once a week someone entered the man's sleeping apartments and took what money he had, if any, and, if not, succeeded in obtaining some of his wife's jewels or valuable silverware. I was employed in the case and made a thorough overhood in the premises.

the man one night, and that he went out of the window and down the porch, which was undoubtedly the way he came in the described. which was undoubtedly the way he came in. He described the man as being small, thin any pale, and wearing a peuliar mask. The description did not uit anyone in the house or anyone whom

"My client slept in the front room, and his wife in one adjoining, there being double doors between them. I And one evening came the crisis the coold doctor feared.

"I shall miss. 2h this dreadfully when it away." Austin said, as he turned over a pile of music for a particular luct. "I'm going North in a day or two rou know—didn't I tell you?" he added, unswering the unspoken question.

"Next autumn, when I am back that something was wrong, "we shall have some more pleasant evenings together, I hope."

Lida snake not. For a moment she was could find no trace of the missing jewels or silverware, and after watching the could find no trace of the missing jewels or silverware, and after watching the could find no trace of the missing jewels or silverware, and after watching the during which time there was another robbery, I prepared to sleep in my client's room, to which he readily assented. The first night I siept there my client's belongings were andisturbed, but several dollars in loose change had been abstracted from my own pockets, although usually I am a very light sleeper and awaken at once by any unusual sound. I said nothing about my loss, but concluded to remain awake there-are all find no trace of the missing jewels or silverware, and after watching the subject of the was another robbery. gether, I hope."

Ida spake not. For a moment she was conscious of naught save a terrible sense of absolute despair, and a curious buzzing in her head like the repeated twang of the G string. Going away—and until the autumn! Why, by that time she might be dead and buried. She looked round vacantly, as one gropes blindly in the dark for some familiar object. She tried to speak, but the words refused to come. Something like a dry sob rose and was strangled in her throat. Then, without a single word, she took her bow again and drew it softly across the vibrating strings. Austin looked up in momentary surprise. Then he sat spelbound, while she played the weird "Romance" of Svendsen's, once heard never forgotten.

He had heard it played by more than

It isn't very much, 'tis true,
But then, it is her all.

She's bought a lovely cape; a hat That's fashionably strange. And various other things, and now The heathen gets the change.

Suppression of Hog Cholera. The diseases generally known as hos holera and swine plague have appeared n several districts in Wisconsin, and unless they are checked they may become general and cause enormous losses. To prevent this it is absolutely necessary that every herd of hogs, whether well or sick, should be protected by the strict observance of preventive measures, such s are herewith advised.

Causes—Hog cholera and swine plague are caused by different bacteria, but they are equally dependent for the success of their attacks on the unhealthiness of their hogs, due in most instances to un-wholesome food and filthy surroundings The causes are so similar and the symp oms are so much alike and often compl cated that it will be best to consider the diseases together in what follows. The germs that cause them are easily spread over large territories by being car-ied by corresponding or shoes of perried by cars, wagons or shoes of per-sons that have been among infected hogs. Most frequently the origin of the out-break may be traced to the importation of hogs from disease districts or spread from such centers by running streams. Symptoms—The first symptoms usually shown in attacks of these diseases are those that indicate fever—a rise in temperature, thirst, loss of appetite and redness of the skin on the lower part of the neck and inner side of the thigh. Usually a hog so diseased begins to cough when started from its bed. A constipated condition of the bowels changes to diarrhoea as the disease progresses, and this results in a rapid loss of flesh. Dissection generally shows the lungs to be inflamed, the spleen enlarged or the ining of the large intestine covered with imerous ulcers.

Prevention—To protect hogs from attacks of these diseases it is necessary to observe the following recommendations: The hogs should not be watered at running streams, as the germs are readily carried by these. Persons com-ing from infected districts should not be allowed to go near your hogs and you should not go among your neighbors hogs if they are sick. When other hogs re brought to your farm, assume tha they are infected and keep them awa rom yours for at least six weeks. Ol erve as much cleanliness as possible n regard to food and surroundings n regard to food and surroundings. Feed a mixture of foods in a slop or oft condition and withhold heavy grain feeding. Disinfect the quarters of the hogs by sprinkling liberally with a er cent, solution (by volume) of car bolic acid and use a 2 per cent, solution of the same for washing the hogs.

Treatment—The hogs showing any o e symptoms that have been described ould be at once separated from the others and out in cheaply constructed quarters so that the latter may be burned when no longer required. The well hogs should be removed to disin fected quarters. Give all the hogs the following mixture, recommended by Dr. Salmon, chief of the bureau of animal

This should be given in soft food in the proportion of a teaspoonful daily to a 200-pound hog. Remove all refuse from the pens in which the infected hogs were kept, dig out the old soil, put in fresl earth, disinfect with carbolic acid sotu "Ida! What is the matter—what is tion and allow the pens to remain vacant for at least six months. The same feeder should not attend the well and the sick e covered with a layer of quicklime and effaced, the entire mass in the trench should be covered with six inches of quicklime and at least six feet of earth The place selected for the burial of the hogs should not drain towards a stream, and it would be better to fence it so that other hogs may be kept away from it. The dead hogs should never be drawn over the ground and the wagen used should be washed with a disinfectant... John A. Craig. Wisconsin Agricultural Experiment Sta

> December Berry Bulletin Any intelligent farmer can grow ripe Any intelligent farmer can grow fife, luscious strawberries, ready for picking, at 2 cents a quart. With good cultivation at least 100 bushels per acre should be grown. Two hundred bushels per acresshould and 200 is acre is not an unusual yield and 300

often produced.

Fruit that can be grown so cheaply and will yield so much, should be consi and will yield so much, should be cred a necessity in every family. No one can so well afford to have berries every day in the season as the farmer. No

market depends somewhat on location and the manner in which it is done. For not, as in England, the end of courtship

his profit after all these expenses are paid. The farmer may have his berries at first cost. He saves expense of pick-ing and provides a pleasure for wife and children. He saves boxes, cases, packing, freight, express and commission. Every farmer in the country and every owner of a house in the village should er. A berry garden for next season should be decided upon at once. The best preparation for it is the reading of good books and papers. Subscribe for them now and thus provide the greatest

a dollar. That would reclaim one square yard of land, and at \$200 per acre it would only be worth three cents. From these figures it will be seen that there is much land covered by trees and rocks that can never be used for anything but woodland, cutting out the superfluous trees so as to give what are left a better chance to grow, and encouraging new growth by keeping stock couraging new growth by keeping stock away as much as possible.

Lime in Food for Fowls. Laying hens require lime to produce the shell, but it is not always best to feed the lime separately. Some kinds of food the lime separately. Some kinds of food are rich in lime, as wheat and peas. Where these are given no extra lime will be needed and none will be eaten. Corn is very deficient in lime, and if fed exclusively the egg shells will be thin and fowls will get in the habit of eating their eggs. Besides, corn is too concentrated food, and does not give bulk enough in proportion to its nutrition. Clover is proportion to its nutrition. Clover is rich in lime and if cut in fine pieces it will be eaten by fowls in considerable quantities. It also aids the digestion of

BIBLE TEACHING BY SIGNS.

Missionary Converting Indians by Trans lating Scripture Into Pictures. Among the less enlightened tribes of the Indian territory a unique campaign of education is being conducted by Lewis F. Hadley, a missionary who has spent the greater part of his fifty years among the wild tribes of American Indians. Mr. Hadley is teaching the Indians the Scriptures through the medium of a sign language which he discovered while studying the Indian dialects, of which he transcribed nine for the Smithsonian institute. It took him several years to acquire this sign language, and when he had mastered it he set himself to work to devise a system of sign printing based

The idea is to present to them a picture The idea is to present to them a picture of a sign that they will at once recognize, and underneath the sign is printed its meaning in English. The Indians learn to read by the use of this system much more readily than by any other plan ever employed. Mr. Hadley uses Scripture texts almost altogether, and exerts a strong influence for good over the Indians among whom he labors. He converses in a great many Indian dialects.

A STRANGE INVASION.

A Lot of Badgers Invade Sioux Falls and Are Building Winter Quarters. "Wonder if it not an indication of

hard winter," asked the old man on the corier yesterday. He had reference to the badgers which are coming to the city from the surrounding country. These animals were never known to come into town before. Several have taken up their quarters near the heart of the city during the past couple of weeks and are building winter quarters. In one night they can construct a system of under-ground trenches that will render them safe from the attacks of dogs or men, and so long as they remain out of sight in their subterranean works they are all right, but their nocturnal raids is what right, but their nocturnal raids is what had caused citizens to declare war on them. John W. Hutchison succeeded in despatching one that had undermined his residence lot last week, and now W. H. Booth is disturbed by one that has been working on his premises a week or more, Several others have been reported in different sections of the city. It is the oddest invasion ever heard of in this region. In fact, but few people knew that such an animal as a badger inhabited this country.—Sioux Falls Press.

ROYAL LANDSCAPE GARDENING.

Mr. A. P. St. John, a citizen of

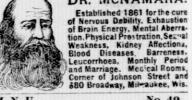

Oregon, Wisconsin, in an interview

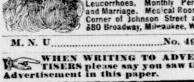

had with D. E. Williams, of the Oregon Observer, on the 6th day of May, 1895, said: "For a long time I have been more or less troubled with dyspepsia. Having considerable hard work to do, if I followed the cravings of my appetite it was sure to result in those terrible distressing pains of the stomach. When in the most agony I would endeavor to obtain partial relief by some 'grandmother' treatment, which, if of any benefit, was to strengthen the imagination that the distress was a trifle less. At times I have suffered intensely. While visiting my sister Cora I was recommended to try Ripans Tabules, which I soon discovered were a blessing to mankind. Now I am never without them, and am pleased to recommend them as a Godsend to those troubled with dyspepsia."

Ripans Tabules are sold by druggists or by mail if the price (50 cents a box) is sent to The Ripans Chemi-cal Company, No. 10 Spruce Street, New York. Sample vial, 10 cents.

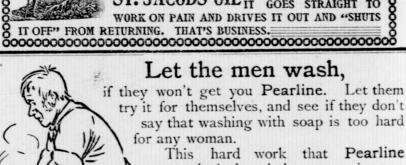

WATCH WONDER LADIES' 14-karat GOLD (filled) WATCHES—genuine - 42 815.00 GA 0 THEO. SCHELLE,

windmill business, because it has reduced the cost of wind power to 1.6 what it was. It has many branch houses, and supplies its goods and repairs at your door. It can and does furnish a better article for less money than others. It makes Pumping and Geared, Steel, Galvanized-after-Completion Windmills, Tilting and Fixed Steel Towers, Steel Buzz Saw Frames, Steel Feed Cutters and Feed Grinders. On application it will name one of these articles that it will furnish until January 1st at 1/3 the usual price. It also makes Tanks and Pumps of all kinss. Send for catalogue. DR. MCNAMARA.

This hard work that Pearline saves isn't the whole matter; it saves money, too-money that's thrown away in clothes needlessly worn out and rubbed to pieces when you wash by main strength in the old way. That appeals-where is the man who

wouldn't want to have the washing made easier—when he can save money by it?
