

NEWS OF THE WEEK.

The American liner Paris, which was in New York harbor during the week, was floated without difficulty.

Madison, Wis., April 1.—[Special].—The contract for the erection of the buildings for the state house for the feeble-minded at Chippewa Falls was last evening awarded by the state board of control to Thomas E. W. Woodley of La Crosse, his bid, \$27,587, being the lowest of the twenty submitted.

Madison, Wis., March 31.—[Special].—If the friends, or some of them at least, of Dairy and Food Commissioner H. C. Adams of this city accomplish their desire, that gentleman will be secretary of Agriculture in President McKinley's cabinet, provided of course Mr. McKinley is nominated and elected, and Wisconsin Republicans generally believe his nomination is almost a certainty.

Madison, Wis., March 31.—[Special].—The friends of Adams' friends are first in the field in naming the man and place. Mr. Adams himself says he has taken no steps nor attempted any deal in that direction, but that he is a pronounced McKinley man before he has any talk about being secretary of agriculture, but he does not deny that his friends may be urging him in that direction.

Madison, Wis., March 31.—[Special].—Mr. Adams was born in Glen Falls, Warren county, N. Y., November 3, 1818. He was educated at the district schools at Northfield, Conn., and was by profession a farmer and stock raiser.

Madison, Wis., March 31.—[Special].—Mr. Adams was married to Miss Helen Fitch of Oshkosh in 1842. They were afterwards interested with Dewitt Palmer in the cranberry business and was president of the firm for several years. He survived by a widow and one son.

Madison, Wis., March 31.—[Special].—George Fitch was born in Glen Falls, Warren county, N. Y., November 3, 1818. He was educated at the district schools at Northfield, Conn., and was by profession a farmer and stock raiser.

GEORGE FITCH DEAD. Succumbed to Appendicitis After an Illness of Several Weeks at Berlin.

Berlin, Wis., March 31.—[Special].—Ex-Senator George Fitch died at his home in this city at 1 o'clock this morning after an illness of several weeks. Mr. Fitch was taken ill some time ago, but his condition was considered serious until the forepart of last week. It was then found necessary to call in several physicians and consultation was held. It was the general opinion of the doctors that he was suffering from appendicitis and the nature of the disease to determine the nature of the disease. The funeral will be held Wednesday afternoon at Oshkosh.

George Fitch was born in Glen Falls, Warren county, N. Y., November 3, 1818. He was educated at the district schools at Northfield, Conn., and was by profession a farmer and stock raiser. He resided in New York from 1840 until 1871. Previous to this he had spent some time in Wisconsin. In 1871 he came to Wisconsin and settled in Berlin. He was elected mayor of that city in 1878 and served for two years. He was a staunch Republican and was well known throughout this part of the state.

Mr. Fitch was married to Miss Helen Fitch of Oshkosh in 1842. They were afterwards interested with Dewitt Palmer in the cranberry business and was president of the firm for several years. He survived by a widow and one son.

SUPPORT FROM MEXICO. President Diaz Declares for Monroe Doctrine.

City of Mexico, April 2.—The most important part of the President's message delivered yesterday at the opening of Congress is an allusion to the Anglo-Venezuelan controversy and President Cleveland's message to Congress. This part of the message is as follows: "With our Northern neighbors our intercourse is of the same friendly and cordial character, and our diplomatic relations have been for some time past, naturally, evocation of that doctrine which condemns all attempts at European usurpation and all tendencies to modify republican institutions of the new world, in a monarchical direction, as well as before the eyes of the nations of this continent and give occasion for demonstrations of sympathy, both moral and material, in support of the great matter that the executive is called upon to handle."

The Mexican government cannot but declare its partiality for a doctrine which is so justly and so justly supported by the people of this continent. It is a doctrine which is so justly and so justly supported by the people of this continent. It is a doctrine which is so justly and so justly supported by the people of this continent.

The Mexican government cannot but declare its partiality for a doctrine which is so justly and so justly supported by the people of this continent. HALE AND HEARTY. Eighty-first Birthday Finds the "Iron Chancellor" in Excellent Health.

Berlin, April 1.—A year ago, when delegates from all parts of the empire journeyed to Friedrichshagen to celebrate the anniversary of his birth, the veteran warrior and statesman privately expressed the opinion that it would be the last time that his friends would be afforded the opportunity of seeing him here. At that time he was sorely afflicted with rheumatism and gout, which, in combination with mental depression resulting from the loss of his brave and noble wife, who had been the mainstay of his declining years, had produced such a condition of body and mind that even those of his immediate family were doubtful of his ability to long survive.

God has been good, however, to the "grand old man" of united Germany, and it speaks volumes for his vitality and wonderful powers of recuperation that today, on the eighty-first anniversary of his birth, he seems in as good health physically and mentally as in the closing year of his public career, when he threw down the gauntlet to the boy emperor and precipitated a contest which, although it resulted in his retirement, placed him higher than ever in the estimate of the civilized world.

The usual pilgrimage to the "House of the Elms" at Friedrichshagen, from this city, as well as from Hamburg, Bonn, Leipzig, Munich, Frankfurt, Berlin, Breslau, Braunschweig, Stuttgart, Chemnitz and other places, the "iron chancellor" received in the early hours of his residence at the Hotel de Ville. The weather was fine and cool and crowds of people assembled about the Hotel to see the great statesman.

Later in the day rain fell and thinned out the crowd. The bright procession tonight. Tonight there will be a big torchlight rally, headed by the Hamburg delegation, and following which Prince Bismarck is expected to make a brief, but not long, stay in the city. He will be accompanied by his wife and children. The weather was fine and cool and crowds of people assembled about the Hotel to see the great statesman.

Kewaskum Statesman.

PUBLISHED EVERY SATURDAY.

Communications sent to this office for publication should be enclosed in respectable language and signed by the author, in order to receive proper attention.

GEO. NUGENT, Editor.

The Chicago base-ball club may have a treasure in Ryan, as hitting the ball into the Gulf of Mexico at Galveston is equivalent to knocking the sphere over the fence in Chicago.

The marriage of Ex-President Harrison to Mrs. Dinnick (sister of the deceased Mrs. Harrison) next Monday will give the after Easter season a great send-off in this leap year of 1896.

Last Wednesday was the 81st anniversary of Bismarck's birth, and, judging from press reports, "the iron chancellor" is becoming as grand an old man in Germany as Gladstone is in England.

As a result of the Oxford-Cambridge rowing race, last Saturday, it may be said that people will lose interest in the next contest, as this is the seventh successive year that Oxford has defeated Cambridge.

The weather clerk may be said to have "pulled the wool over our eyes" by marching last month out like a lamb so as to April fool us by ushering this month in with a temperature so low that it was followed by snow.

As a governor or regulator of legislative matters, an upper house may be of much practical use; but, there is no question but what the people may elect their own senators to Washington without materially affecting the usefulness of the United States senate.

Ottumwa was one of the most prominent places in Iowa at one time. Now, however, it finds it necessary to repent as having a man with a perpetual motion machine in order to attract attention. Poor, declining Ottumwa; you have our sympathy.

MILWAUKEE seems to lead over all the rest of the state in producing dishonest mail clerks; and, the only reason we can see for it is that Cream City men secure such positions upon sheer strength of a "political pull" rather than their fitness to handle U. S. mail.

The privilege of choosing Village officers only comes once a year; but, with a ticket open to all candidates, we trust the people will rest content with the result of our election next Tuesday and give the choice of a majority their undivided support throughout the ensuing twelve months.

The shooting of Jack Toney, by a United States marshal, last Saturday, shows that the quality of the populace of the Indian Territory is improving. We do not know of a country under the sun which could stand a bloom in the undertaking business better than the aforesaid territory. Clean the outfits out!

When we become free and independent enough to uphold right and denounce wrong, as we conscientiously see it, then only can we hope to attain the highest plane of American citizenship. The people of this country are at present suffering more from latter partisanship, upon the part of political representatives, than any other particular ailment.

An Indianapolis firm now has reason to say that "it does not pay to advertise"—at least, not so heavily as they did—as a recent bargain sale advertisement caused such a jam at their store that some children were trampled upon. Still, we presume, the number of moss-backed merchants in Indianapolis has not been materially diminished.

The "favorite son" boom is beginning to fade like flowers that bloom in the spring; and, with Manderson, Culom and Davis successfully shelved, it would seem that the Republican National convention may yet dwindle down to a contest between a fellow who deftly toys with a thimble while his opponent complacently chews pine-tree pitch between heats.

The late action of the Wisconsin Press association, in resolving to have the state libel law repealed, reminds us of the man who resolved to lock his stable after a horse was stolen, as it was not until Mark Barnum had been sentenced to prison that said action was taken. However, membership in the association will become of more practical significance with the accomplishment of the object sought in such action; and, furthermore, it may lead us to believe that body will some day bar editors who make bodily appropriations of the writings of fellow toilers without giving due credit.

Whether they are Republican or Democrats or Populists, the people of this country are agreed on one point. They want a president who wears his own hat and his own collar, and who, having convictions of his own, dares maintain them. No man who has permitted himself to be used as a tool by a political boss can be elected chief magistrate of the republic in this year of grace. Amiability of character and a well intentioned nature cannot console for a sacrifice of the individuality and courage which are essential qualities in one who aspires to become the nation's executive head. No puppet presidents are wanted in the United States.—Boston Globe.

NEW FANE PLATS.

A caucus will be held at John Schultz's next Monday at 2 p. m. A son was born to Mr. and Mrs. Henry Ficks last Saturday.

Lizzie Pesch returned home from Milwaukee last Wednesday.

Attend the dance at John Schultz's if you wish a good time next Monday evening.

Ida Kling, who spent a few weeks at the Cream City, returned home last Saturday.

Henry Ranthum and F. Retzlaff are at present engaged at carpenter work near New Prospect.

Some mischievous boys piled wood in the gateway to our governor's place, last Saturday, and the governor had to work on Sunday to clear the way.

WAXY WAFTINGS.

An election will be held at the hall here on April 7th.

Geo. Petri spent last Saturday in Milwaukee on business.

The town caucus was held at Joseph Mack's hall in St. Clair, April 2.

If you want a good job of painting, gilding, oil finishing or decorating, call on G. B. Wright.

School entertainment at the hall here next Wednesday, April 8. Don't miss it! Admission free.

Charley Brandt, our new saloon keeper opened his saloon to the full extent last Wednesday.

Nicholas Kuehler of here left last Saturday for Menominee Falls to visit relatives and friends there.

Fred. Becker and brother, George, returned from the State Normal school at Oshkosh last week Thursday.

Our young people spent an enjoyable evening with Adolph Ruefemacht and wife last Sunday. All had a good time.

An Easter dance will be given at Kohlvale, on Easter Monday, by Frank Halm. Schmitt's band will furnish the music.

Kilian Schmidt of Chicago spent two weeks with parents and relatives here and returned to his position as operator at the Northwestern depot last Friday.

The school entertainment given in Dist. No. 5 by Rosalia Kuhl last Saturday was not well attended on account of the bad weather that set in. The programme was well arranged.

LITHIA BEER.

This beer is brewed with water containing lithia, in a natural form, from our artesian well. Lithia is a recognized remedy for kidney disease and gout affections. This, combined with the admirable tonic qualities of our beer, makes it a most excellent beverage.

WEST BEND BEAMLETS.

Otto Arnold is going to work for John Gill during the coming season.

Henry Buettner has found employment as a farm hand with Michael McBride.

Charles Kilgusch, our postie shoemaker, visited friends in Jersey last Sunday.

John Mertes has been employed by O'Connell Bros. to collect cream during the season.

August Kreutzinger, who had his finger badly cut some time ago, is still hiring it very tenderly.

We now have in our burgh a "brilliant light," whose pen is mightier than the sword in the poetic arena.

Johnny Arndt, who recently returned from the "Great West" has been employed by Stahl, Backhaus & Co.

Peter Glass, Jr., is at present enjoying life, as he is relieved from the work which he has heretofore followed.

The Seidensticker & Schurr Sawmill Co. finished sawing here and will leave for Boltonville in the near future.

Herman Weinbater made a trip to Parnell and Cascade, where he posted bills for an auction sale of the old Glassnapp estate.

Miss Mary Altenhofen closed a successful term and, after one week's vacation, she will resume her place again here as teacher.

Quite a number of our young people paid their parting respects to William Glass, who will leave for Campbellsport in a day or so.

Messrs. Johnny Arndt and William Schulz, who went to Minnesota a few days ago, have suddenly returned. They claim that there is no place like home and Beechwood.

A caucus was held at our town hall last Saturday but, owing to bad weather, there were but very few to attend; but, notices are up for another caucus Friday, April 3; to nominate town officers.

WISCONSIN'S RESOURCES.

are attracting general attention, and its railroads furnish the means to develop them. The limitless iron ore deposits of the Penokee and Gogebic Iron Ranges provide abundant opportunity for the establishment of Iron Furnaces and general iron working industries. Hardwood timber in great quantities attracts manufacturers of all wood articles including Furniture, Woodenware, Staves, Headings, Hoops and Veneering; the Granite and Lime Stone quarries are attracting attention, as their quality is unsurpassed for fine building work and strong lime. Numerous Clay, Kaolin and Marl beds furnish the best material for Tile, Brick and Pottery.

All of these materials are located on the line of the Wisconsin Central, and any one who desires to locate a manufacturing factory is requested to write us, as we desire to confer with everyone who wants a good location with facilities for reaching markets everywhere. W. H. KILLEN, C. L. WELLINGTON, Industrial Counselors, TRAFFIC MANAGERS, H. F. WHITCOMB, Gen. Manager, MILWAUKEE, WISCONSIN.

WISE AND OTHERWISE.

A resident of Searsport, Me., says, and offers proof of his statement, that his grand-father married a second wife when 81 years old, raised a second family of six children and died at the age of 104.

In cutting down a large cedar tree in Caribon, Me., recently a woodsman found a hole in the center six inches in circumference, which was packed with honey for a distance of 12 1/2 feet. He took out 125 pounds of honey.

Many Canadian hares are soon to be turned loose in the woods of Sandwich township, Mass., which is on Buzzard's bay. Sportsmen of that region are arranging to secure the hares and turn them down in the hope of stocking the woods with them for game purposes.

All the money for the beacon in memory of Tennyson has been subscribed; the monument for the shaft has been successfully quarried in Cornwall, and the monument will be set up in the fall. Of the \$4,750 subscribed, \$1,250 came from the United States.

Vienna is to lose the Wien, the little river from which the city derives its name. It had for some time been raised as an outlet for sewage and often caused damage by overflowing, but will now be covered over. Reservoirs have been built, to which the water will be drawn during freshets.

At the Pasteur Institute in Paris, 1,520 persons were treated last year, of whom 1172 died, the smallest proportion yet attained. In ten years 17,337 persons have been inoculated, 85 of whom died. Nearly a third of the patients last year came from Paris and its neighborhood.

In his "Recollections of a Minister to France" Mr. Washburn says: "I was somewhat surprised to hear him (Napoleon III) remark that he thought Spain could not hold Cuba; and that the result would be that she would sacrifice all her soldiers and spend all her money and then lose the island in the end."

At Niederrentgen, near Diedenhofen, which is the German for Thionville, a treasure of from 15,000 to 16,000 Roman coins belonging to the third and fourth centuries was recently discovered, according to the Lothringen Zeitung. The coins weigh nearly 100 lbs and have been given to the Lorraine Historical society.

In the valleys of California grows a tall, slender-stemmed bilibaceous plant, with purple and white flowers, which played an important part in the economy of the Spanish population, and is still more of less used by the country people. It is the well-known amole, or soap plant. This bulb has the detergent properties of soap.

A very curious sort of entertainment takes place every two years in Berlin. The lady artists, painters, sculptors, actresses, singers, etc., give a fancy dress ball, from which the male sex is excluded, though many ladies adopt a masculine garb. One of these balls is soon to be held, and the costumes will be early nineteenth century.

Peachers in England, when found guilty, are generally sent to jail for several months, but a vicar of the Church of England who was recently convicted of willful perjury in swearing against two men, who were fined and imprisoned on his testimony for poaching, got off with a sentence of six days' imprisonment, from which the judge excused him.

The train rushed through Albany at the rate of 70 miles an hour. As the conductor came through the "smoker" collecting tickets, he announced that there would be no stops until they reached New York. A young man of fered his ticket and asked if he could not get off at Poughkeepsie. "Yes," answered the conductor, "you can, but God knows where you'll land."—Life.

Each instrument exceeds in some particular passage; the piano in scale passages, the harp in arpeggio, the mandolin in the rapid repetition of one note, the banjo in the rapid playing of broken chords, and so on, with other instruments, but the violin can beat them all on their own ground, while there is much violin music that can be played on no other instrument.

Mrs. Lydia Price Prytton of Orange county, Virginia, celebrated her 100th birthday on March 13th. She was born in Madison county, Va. She married when 18 years old and was the mother of twelve children, eight of whom are living, her oldest son being 80 years old. She has nearly 100 grandchildren and great-grandchildren living. She is well and active.

Very frequently when the shores of the Irish sea are wrapped in mist or fog and drenched with rain, the Isle of Man is lying beneath a cloudless sky, bathed in sunshine. In fact, a few hours' journey from one of the towns of south-east Lancashire, makes as great a change in the climate surroundings of the traveler as would a journey from London to the Riviera in February.

Miss R. was telling her Sunday school class of small boys about the Shut-In society, whose members are persons confined with sickness to their beds or rooms. "Whom can we think of," said she, "that would have had great sympathy for those that are so shut in?" "I know," said a little boy; "some one in the Bible, ain't it, teacher?" "Yes; and who, Johnny?" "Jonah!" was the spirited answer.—Hartford Post.

When New York was suffering from an epidemic of diphtheria, the board of health decided that its presence was to be attributed to the fumes of a kerosene lamp turned down low, more than to any other single cause. Whether or not this be so, it is certainly a mistaken kindness on the part of an indulgent mother to allow a lamp to remain in a child's bed-room with the flame turned

low. A turned-down kerosene lamp is a magazine of deadly gas, to which the strongest lungs cannot be safely exposed.—New York Herald.

A hard-looking tough was on trial in the court of general sessions. Judge Cowing was on the bench. Lawyer Howe, in a voice hoarse with emotion, addressed the jury: "Gentlemen, my client is a poor man. He was driven by hunger and want to take a small sum of money. All that he wanted was sufficient money to buy bread, for it is in evidence that he did not take the pocket-book containing \$300 that was in the same drawer." The eloquent attorney for the accused was interrupted by the convulsive sobs of the client. "Why do you weep?" asked the judge of the doctored man. "Becons I didn't see the pocket-book in the drawer." Everybody laughed except Howe; the attorney for the careless burglar.—Times Siftings.

A well-known gentleman, who some years ago lived in the country, was in the habit of coming to town every week or so and 'getting on the town.' On one of his visits he became more demonstrative than usual and was subsequently fined \$1 and costs. The next day he was still in town and 'loaded.' He was again arrested and placed on trial. When the commonwealth was through the defendant was asked if he had anything to say. He arose, slowly steadied himself on the back of his chair and said that he had read some-

where that a man's life could not twice be placed in jeopardy for the same offense. He maintained that the drunk was the same one on which he was convicted the day before; therefore, he moved for a dismissal. It is said that the judge sustained the motion.—Pittsburg Dispatch.

Stories of how bright witnesses get the best of smart lawyers are frequently met with. However, the following got into public print through the Washington Star and is related at the expense of Judge Hendershot, a leading lawyer of Ottumwa, Ia., while trying a case under the prohibition law. The question was raised as to whether or not a barrel of whisky was delivered to the defendant. A drayman by the name of O'Connor was being cross-examined. Assuming a dramatic pose, Hender shot said: "Remember, sir, you have sworn to tell the truth, the whole truth and nothing but the truth. Remember that to deviate one iota from the truth is perjury, and the punishment for perjury is imprisonment in the state penitentiary. Now, sir, upon your oath, did you deliver that barrel of whisky to Pat Duffy?" The drayman answered coolly and deliberately: "Well, judge, bein' on me oath, faith I couldn't say. I delivered a bar'l at Mr. Duffy's place. One ind of that bar'l was marked 'Pat Duffy,' and the other ind was marked 'Whisky,' but, bein' on me oath, I can't say whether Pat Duffy or whisky was in the bar'l." The defendant was convicted.

1896—SPRING AND SUMMER—1896

MILLINERY GOODS.

All new and the latest novelties of the season—now open for inspection.

L. & R. HOENIG, Kewaskum, Wisconsin.

**A Great Investment.**  
The Gold Stock Trading Co., whose announcement and prospectus will be found in our column, is one of the most successful and reliable methods offered for the investment of capital in the United States. The New York Financial Record, one of the leading organs of finance, in its issue of March 18 says: "The Gold Stock Trading Co. has declared a monthly bonus of 15 per cent. to certificate holders in interest at the end of February. The dividends of the company have been established at the rate of 20 per cent. per annum (payable quarterly). The conservative management and high character of the directors invite the cordial support of all investors desiring safe and large returns for small capital." With this endorsement our readers will do well to take advantage of the opportunity offered, and correspond with the company at 35 and 37 Broadway, New York, after reading their announcement.

**Four of a Kind.**  
Sallie Jackson, colored, 54 years old, who lives at Morrilton, N. J., gave birth to a quartet of healthy infants, three boys and one girl. The babies were about six months each. The mother is doing well. One of the boys has a double row of fully developed teeth. Four years ago Mrs. Jackson gave birth to twins, but both have since died.

—England imports about 400,000 packs of playing cards yearly.

**Mothers**  
Anxious watch declining health of their daughters. So many are cut off by consumption in early years that there is real cause for anxiety. In the early stages, when not beyond the reach of medicine, Hood's Sarsaparilla will restore the quality and quantity of the blood and thus give good health. Read the following letter:

"It is just to write about my daughter Cora, aged 19. She was completely run down, declining, had thin feet, and frequently would not live over three months. She had a

**Cough**  
and nothing seemed to do her any good. I happened to read about Hood's Sarsaparilla and had her give it a trial. From the very first dose she began to get better. After taking a few bottles she was completely cured, and her health has been the best ever since." Mrs. Addie Peck, 12 Railroad Place, Amsterdam, N. Y.

"I will say that my mother has not stated my case in as strong words as I should have done. Hood's Sarsaparilla has truly cured me and I am now well." CORA PECK, Amsterdam, N. Y.

**Hood's Sarsaparilla**  
Is the One True Blood Purifier. All druggists sell. Prepared only by C. I. Hood & Co., Lowell, Mass. Hood's Pills are purely vegetable. See labels and testimonials. RESCUED FROM A HUNGRY EAGLE.

**Little Willie Sloan's Dog Saves Him from an Awful Death.**  
But for his big Newfoundland dog, little Willie Sloan, aged 2 years, might have been converted into eagle food. He was playing in the front yard of his father, W. J. Sloan, whose house is at the foot of Jones Fork mountain, one of the highest of the Kentucky ridge, when a large eagle alighted on him and buried its talons in his side. Near him was his big and faithful dog, which ran to him just in time to catch the eagle by the leg. Mr. Sloan was sitting in his door and saw the eagle as it darted down from the mountain. He ran to the aid of his child and arrived in time to assist the dog in killing the eagle and saving the life of the boy's clothing and flesh. One eye is cut so that it is believed the child will lose it. The eagle and his left breast was torn considerably, but the injuries are not fatal. The bird is in the hands of a taxidermist and measures 7 feet from tip to tip.

—An authority on deaf mutes says that the ratio of deaf mutes to hearing is about one to every 1000. There are about 40,000 such persons in the United States and about 1,000,000 in the world's entire population.

—About 4000 stags are killed in the forests of Scotland each year.

**MOTHERS MUST GUIDE.**  
Should Watch the Physical Development of Their Daughters.

Information They Should Furnish at the Proper Time—Knowledge by Which Suffering May Be Avoided.

Every mother possesses information of vital value to her young daughter. When the girl's thoughts become sluggish, with headache, dizziness, and a disposition to

sleep, pains in back and lower limbs, eyes dim, desire for solitude, and a dislike to the society of children: when she is a mystery to herself and friends, then, her mother should come to her aid. Lydia E. Pinkham's Vegetable Compound will, at this time, prepare the system for the coming change. See that she has it, and Mrs. Pinkham, at Lynn, Mass., will cheerfully answer any letters where information is desired. Thousands of women owe their health to her and the Vegetable Compound, and mothers are constantly applying to her for advice regarding their daughters.

"I am sixty years of age and from girlhood have been afflicted with the name Ayer's Sarsaparilla. Five years ago, I became nervous, sleepless, and lost flesh. I took a variety of medicines without benefit. At last I began a course of Ayer's Sarsaparilla. I became stronger, gained flesh, and

**A HIDDEN VALLEY.**  
Discoverers of a Hitherto Unknown Paradise to Find It Again.  
For many years a delightful legend has been current among the people of the American population of Santa Barbara, to the effect that in the midst of the great valley of the mountains lying back of this valley there existed a fertile valley several miles in extent, but which was cut off by lofty and inaccessible peaks which completely encircled it, says the San Francisco Call. Now an attempt is being made to locate this hidden valley—an attempt that will not be given up until a most thorough search has been made.

The story goes that one occasion a party once looked down upon it from the mountain summit, and although they could not see the valley into which it descended to fight their way through thickets of chaparral and lower themselves past precipitous rocks until they reached this hidden paradise, which was surrounded by a waterfall which they were unable to pass, as they were not yet strong enough to overcome the perils way by which they have come. When they attempted to descend they were unable to find it, and although they made many attempts to reach it again, every peak that they climbed proved to be the same rugged and barren waste of mountains. The "Lost Valley" and it has been called by the name of the history of the county as a romantic tradition.

A party of Americans hunting through the ranges back of the Santa Ynez last year claim to have again come upon this wonderful valley, which they returned to their homes and again set out prepared to thoroughly explore it and perhaps take permanent possession of it.

Such faith have they in the valley's actual existence that they took a party of about twenty men and a pack train, prepared for a two months' trip and descended into the valley of the highest peaks they could find before resigning their quest, and as all the peaks which were and had to be the result of their enterprise will be awaited with interest by the skeptics they leave behind.

**A CRAVING FOR GREASE.**  
Indian Tribes in Cold Climates Store It for Future Use.

Fert Resolution is one of the most important of the country. Though it has not so many claims to distinction as Chippewyan, its natural resources for food and clothing are not less abundant. It is the most productive fishery in the country; the Dog Rib and Yellow Knife Indians keep it supplied with fish and grease are fairly plentiful in spring. Furthermore, it is the only one of the highest peaks they could find before resigning their quest, and as all the peaks which were and had to be the result of their enterprise will be awaited with interest by the skeptics they leave behind.

**FOR THE GRANT MONUMENT.**  
Wyoming Will Contribute Two Large Blocks of Feldspar.  
Wyoming will contribute two large blocks of granite to the costly and magnificent Grant monument which is to be erected in Yellowstone park, in the suburbs of New York city.

One of the engineers connected with the work of erecting the monument was recently in Laramie for the purpose of securing a bid for the quarrying of two large blocks of granite to be used in the monument. It is a beautiful granite, of feldspar, and will make very fine crystalline blocks when finished and polished. These blocks will be 55x30 feet in size and it will take from thirty to sixty days to get them to the railroad for shipment. The contract price is said to be less than \$1000.

**Gave Him Something.**  
Cardinal Bonaparte, who died recently, was a grandson of Lucien Bonaparte and a medical student of Napoleon. A Napoleon prided of his dress through the fires of purgatory. He was a very poor man, and he was very poor. "Give him what money you will find in my purse," said the cardinal. "Well, then, give him a silver spoon." The silver spoons are all given away. We but bring him the silver spoon. "Well, bring him in and give him a good meal."

**Requesting Brains to Science.**  
The brain of a criminal, and even of others less than normal have been chiefly accessible to medical students, and it is not to be wondered at that a Boston doctor's appeal for brains of normal and educated persons should have been made in a similar response to this appeal of the Cornell society. Eight brains have been bequeathed to the institution for scientific study, and twenty-five others now in healthy condition have been promised. But it is not a question of brains that is known for a period of years that they be studied might not receive the impression which would be revealed in a post-mortem examination.—Kansas City Star.

**"A Word in Season"**  
The season is Spring—Spring when you call on your body for all its energy, and tax it to the limit of effort. Does it answer you when you call? Does it creep unwillingly to work? It's the natural effect of the waste of winter. So much for the season. Now for the word. If you would eat heartily, sleep soundly, work easily, and feel like a new being, take

**REALRURALREADING**

**Two Million Dollars Worth of Chestnuts Imported Annually—A Home-Made Clog Crusher—Brooder for Early Chick—Profitable Cows.**

**Chestnuts for Profit.**  
Upwards of \$2,000,000 worth of nuts, mostly chestnuts, are imported annually into the United States, yet chestnuts are selling at as much per bushel at this time as they did during the war. At present prices, there is no more inviting field in all horticulture than the growing of these improved chestnuts. At this time, when the prices of many farm products are verging on the cost of production, and some going far below it, improved chestnuts not only yield a large profit to the grower, but sometimes make returns that seem fabulous.

**For Early Chickens.**  
It is not a difficult matter to hatch out chicks early with hens. It is a more difficult matter to make them live and grow when hatched in cold weather. They must stay under the hen almost constantly in order to keep warm, but after a few days the hen will not continually brood them, even if cold, and the chicks become chilled. So we see the necessity of rotation of garden vegetables, and have seen its effects by trying it. Try for yourselves and be convinced, says the National Stockman.

**Cleanliness in Butter-Making.**  
We hear a great deal about the value of bacteria culture. It is likely that some good will result from their introduction; there is danger, however, that in the attempt to produce the best result we overlook one of the oldest cultures in existence, the culture of cleanliness. We believe it was Wesley who said cleanliness was next to godliness, and it is true. The materials of a good people to be found in the Bible, says the Creamery Gazette. It contains, in fact, a very strong element of Bible doctrine. There is no place, however, where cleanliness is so essential as in the dairy. From the brushing of the cow to the washing of the milk can be found in the Bible, says the Creamery Gazette. It contains, in fact, a very strong element of Bible doctrine. There is no place, however, where cleanliness is so essential as in the dairy. From the brushing of the cow to the washing of the milk can be found in the Bible, says the Creamery Gazette.

**Comfort for Cows.**  
The simplest, cheapest and most effective remedy I know of is to feed them, says the New England Homestead. As soon as the corn is planted, scatter about two quarts of shell corn thinly over the whole piece, and this amount will be sufficient whether it is a half acre or ten. Every evening repeat the operation, using one quart. Do not put up any of the corn in any way, but scatter it over the ground for the cows to pick up as they graze. The corn planted under these conditions will be sufficient whether it is a half acre or ten. Every evening repeat the operation, using one quart. Do not put up any of the corn in any way, but scatter it over the ground for the cows to pick up as they graze.

**Thrifty Farming.**  
Farming ought to be done systematically, adopting those systems and plans which have proved the most successful in each individual case, says the Market Garden. Have a time and place for everything, and see that everything is kept in its place when not in actual use. And what must we do and have in order to make farming pay? First and foremost, we must give to the farm and the farm business our personal attention. We must have bone and muscle, a large amount of ambition, which needs to be put in constant use for about 313 days in the year, for without work on a farm nothing seems to do.

**Farming Not Hard Work.**  
Farmers are not an over-worked class. In fact, there is no class of laborers having work on hand at all times that are so little chained to the treadmill of labor as the farmers. Work well and hard they do—that is, the nature of the work is such that it is not time, leisure hours, stormy days, and above all, winter evenings, which give leisure and the opportunity for reading far above that of any other class of laboring people, says the Maine Farmer.

**High Feeding of Stock.**  
Within certain limits, high feeding, and especially high protein feeding, does increase both the yield and the richness of the milk. But it is evident that when high feeding is pushed beyond a comparatively limited range, the tendency is to increase the weight of the animal; that is, to favor the development of the fat tissue, and not to enhance the activity of the functions connected with the reproductive system.

**Armenian Corn.**  
Armenian corn is one of the latest novelties in the grain line. Its value has yet to be proved for the conditions of this section.

**An Idle Scavenger.**  
The bowels act the part of a scavenger, inasmuch as they remove such of the debris, the waste effluvia of the system. When they grow idle, negligent of their duty, the most important of the organs of the body are liable to suffer. It is a sad condition, and one which should be remedied by the use of a reliable purgative. The Bitters is like a drastic purgative. The Bitters is like a drastic purgative. The Bitters is like a drastic purgative.

**Sturgeon Roe Industry.**  
A new industry of considerable importance in Albemarle sound has sprung up lately in the shipment of sturgeon roe to Germany and Russia. The last report of the state labor commissioner of North Carolina shows that 100 boats and 250 fishermen are now engaged in this branch of the fishery industry in the Albemarle sound, one being a full and a half long. The seines are hauled in by steam power, and each season one of the big seines landed 455,000 herring and 2500 shad.

**Smooth Wire Fencing for Farming.**  
There is no question but that smooth wire fencing is bound to take the place of the old-fashioned post and rail fence. The progressive and successful farmer has already realized this and is making preparation to profit by the use of it. Land is too valuable to not be able to pasture every field as soon as the crop can be removed. It has been demonstrated in many ways that those pastures will, inside of two years, pay for inclosing the farm with smooth wire fence itself. Besides, it keeps stock healthy and seems to be the only true method of keeping the hog cholera out of your herd.

**Wisconsin Patents.**  
Patents for the following Wisconsin inventions are reported for this week by Lewis, Wheeler & Wheeler, 52 and 53 Loan and Trust Building, Milwaukee, Wis. These attorneys will furnish the "Inventor's Handbook" free on request. Carl E. Akeley, Milwaukee, horse collar. Henry L. Akeley, Milwaukee, horse collar. Henry L. Akeley, Milwaukee, horse collar. Henry L. Akeley, Milwaukee, horse collar.

**Green Contrast with Colors.**  
Green contrast with colors containing red, and harmonize with colors containing yellow.

**Such Ills as SORENESS, STIFFNESS, and the like, ST. JACOBS OIL WIPES OUT Promptly and Effectually.**

**YOU WILL REALIZE THAT "THEY LIVE WELL WHO LIVE CLEANLY," IF YOU USE SAPHOLIO**

**Gladness Comes**  
With a better understanding of the transient nature of the most physical ills, which vanish before proper efforts—gentle efforts of SAPHOLIO—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constitutional condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get the beneficial effects, to note when you purchase that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.
