PUBLISHED EVERY SATURDAY.

Communications should be accompanied by the name of the writer; not necessarily for publication, but as evidence of good faith on the part of the author.

GEO. NUGENT, Editor.

The choice of the people will be our next president, regardless of whether it proves to be Bryan or McKinley.

The Chicago Record's postal-card ballot evidently proved a failure, as only 239,576 ballots were polled at the close last Tuesday evening.

WHAT a pleasing picture is presented today! The American flag waves over the whole United States, showing that while a divided politically we are united in loyalty to our country.

THE Massachusetts manufacturer who threatened to shut down his factory in case of Bryan's election, has been "paired" by the president of the stove works company of Newark (O.), who has promised to increase the wages of his employees in case of William J. Bryan's election.

THE supplement which we publish this week contains all necessary information for voters. The amendment will be voted upon, if carried, will give the legislature power to raise the salary of the state superintendent of schools, where it is now fixed at \$100 per month or \$1200 per year. In voting a straight ticket simply mark an X in the square space at the top. In voting a split ticket mark an X on the right-hand side of the name of every man you want to vote for.

HALLOWEEN.

It is an ancient and honored festival which falls on Oct. 31. It has always been popular in Great Britain, particularly in the north country, out of which have come so many quaint and curious customs. The Scots and their descendants in America take especially kindly to the old festivals and their observance, and this one of hallowe'en, the vigil of Hallowmass or All Saints Day, is remembered and celebrated by them everywhere in a becoming manner.

The beliefs and practices of the young men and maidens, described by Robbie Burns in his poem on Hallowe'en, have passed away and are replaced by the less romantic but quite as enjoyable festivities of the fireside, such as ducking for apples in tubs of water, cracking jokes and nuts about the hearth, making merry and molasses candy, and playing the innumerable innocent games that form so much of the recreation of a simple people. Many of these observances have been translated from the hills and glens, the cottages and elachans of Highlands and Lowlands, and repeated even till "the dawn of a new millennium."

Quite a number of our people attended the Democratic meeting in Kewaskum last Tuesday evening "And they cheered Bryan's name!"

The morning after election, when the reports of Bryan's victory prove that "Under God the People Rule," and that a silver dollar is as good as a gold dollar, all will welcome the expansion of our currency through the "free coinage of both gold and silver at the present legal ratio of 16 to 1" without waiting for the consent of Johnny Bull.

A gigantic pine tree, recently cut in Pennsylvania, scaled 8,033 feet of lumber. It made seventeen saw logs, none less than twelve feet and some twenty feet in length. The top end of the butt log was fifty-eight inches in diameter.

IMMENSE GOLD DEPOSITS.

Great Quantities of the Precious Metal in Sight in South Africa.

Some rather startling information is brought back from South Africa by Dr. G. F. Becker of the United States geological survey. Within fifteen miles of Johannesburg, he says, there is an amount of gold practically in sight, in a range running not over 30 miles, equal to something like \$3,500,000,000, or nearly as much as the entire volume of gold existing in the world today. But this is hardly a beginning of the story to be told. He brings back the testimony of a reliable American mining engineer in the Transvaal that the gold deposits instead of extending over only thirty miles, really run over 1,200 miles. If thirty miles of deposits will yield \$3,500,000,000, what will 1,200 miles of deposit yield? Dr. Becker estimates that the \$3,500,000,000 will be thrown upon the world's gold market within the next twenty-five years, to say nothing of what may come from the 1,200 more miles of deposit.

If the financial world could be persuaded to believe all this, if such gold supplies actually did overhang the market, the vested interests of the earth would be in a panic and clamoring for the demonization of gold, for such a depreciation of the monetary standard of the commercial world would be threatened as to make the free silver proposition appear mild indeed.—The Springfield (Ill.) Republican.

CAMPBELLSPORT CULLINGS.

Farrel and Meixensperger shipped 2 carloads of stock last Monday.

New Catholic Church at St. Kilian.

It is almost 50 years ago since St. Kilian's congregation was organized, and the present new edifice is the third building erected for divine worship at that place. Work on the foundation walls of the new church was taken up about 13 months ago and finished in the fall of last year. Since last April, the masons and carpenters have been busy at their respective occupations and the result is that St. Kilian today contains one of the most substantial and beautiful churches in this vicinity.

The material used in the construction of the building is lime stone found near by, while the cut stone was procured from the Eden quarries. The dimensions are 45x114; basement, 8 feet in clear—to be used for furnace, fuel and storage room; height of walls, 26 feet; height on inside, in center of auditorium, 32 feet in clear; height of tower, 100 feet. The belfry has three chime bells of about 800 lbs weight each, and it is surmounted by a cupola with five heavily gilded crosses. The main entrance has lobbies on each side. Two stairways lead from the lobbies to the gallery. Style of architecture, Roman. Cost of the building, about \$9,000. Seating capacity, about 1,300. The architects are H. Messner & Son of Milwaukee, who planned the churches at St. Anna, Schlessingerville, Random Lake, Two Rivers, Port Washington, Matawa, Neosho and numerous other places.

The interior of the new building presents a pleasant appearance. The ceiling is arched and has ornamental stucco beads, rosettes and caps. There is a large gallery in the rear of the church and the sanctuary and three sacristies are spacious. The stained glass windows were purchased in Milwaukee at a cost of \$45 each and are fine specimens of art in line. The windows of the communion railing and the heavily gilded sanctuary lamp were donated by parishioners, while the church societies

bought two new side altars. Solid oak pews have been placed in the auditorium. The building will be heated by a large hot-air furnace.

THE DEDICATION. At 9:30 a. m., Oct. 28, the Rev. F. X. Katzer was received from the parsonage in procession and escorted to the old church. Then the procession proceeded to the entrance of the new church, whereupon the Most Rev. Archbishop performed the blessing thereof according to the impressive ceremonies of the Roman Pontifical. After the blessing of the new church, the people were admitted into the same. Solemn High Mass was celebrated by Rev. P. Schumacher of Milwaukee, assisted by the Rev. J. Millwaukee of Hartford and deacon and Rev. P. J. Vogt of Kewaskum as sub-deacon.

At the bishop's throne the Revs. P. A. Schleier of Nenno and F. Raess of Leroy assisted; Rev. P. Schweiger of St. Lawrence acting as "presbyter assistants," Rev. J. Pierron of Milwaukee being the master of ceremonies and Rev. M. Groff of Theresa censor-bearer.

After the gospel of the mass Rev. F. X. Heller of New Cassel preached both in German and English. In the sanctuary the following priests were present: The Revs. S. Bernard of Lomira, H. Blum of Ashford, G. Muenzer of St. Michaels, M. Condon of Oregon, R. Ollig of Kiel and the pastor of St. Kilian, Rev. P. J. Burelbach. After High Mass the Most Rev. Archbishop confirmed a class of about 70 children, and spoke in English and German thanking the people for their good will, sacrifice, and unity in erecting such a beautiful church during the present hard times. The ceremonies concluded at 12:30 with the benediction, the Blessing of the People, and the "Te Deum," in the singing of which the whole congregation joined with a joyful and grateful heart.
