GEO. NUGENT, Editor.

CONGRESS will convene next Monday. The "horseless carriage" or "mote-cycle had better be called a moco.

The Cincinnati Chamber of Commerce has concluded to petition congress to create a new cabinet position—that of commerce and manufactures.

The announcement that President Cleveland will reside at Princeton, N. J., reminds us that few presidents have returned to their old homes upon retiring from the highest office within the gift of the people.

The stand of the Milwaukee Sentinel in opposing H. C. Payne for a position in Mr. McKinley's cabinet seems to have been prompted by its having a higher regard for the good and welfare of the Republican party than any man in it.

If the supreme court sustains a late decision of Circuit Judge Johnson, the Plankinton bank creditors will be paid in full; and, we presume the latter will not be particular whether their money returns in the shape of gold, silver or certificates therefor.

The action of some Spaniards who assailed the American flag in Spain, some time ago, was recently offset by the militia boys of Newcastle, Delaware, who pulled down and burned a Spanish flag there. The latter action is being about as generally condemned as the former was, also.

The wooden mortar which was used in crushing coffee and spices for the meals of passengers on the Mayflower was recently presented to the State historical society of Kansas by Mrs. W. A. Simmons, she having obtained it from Thos. and Elizabeth Turner, who came over to this country in the Mayflower.

The people of Topeka, Kan., have been shocked by the fact that there are 400 deserted wives in that city. However, the shock will be nothing compared to the difficulties which the good people of that place will encounter in attempting to check hard times, the general cussedness of men, and the divorce mill.

The records show that Hon. William H. Upham has pardoned forty-three convicts since he was inaugurated as governor of Wisconsin; and, the returns are not all in yet—he has a few more weeks to serve. The next legislature should take steps towards creating a regular board to consider all pleas for pardons.

The Alabama representative who introduced a bill in the state legislature prohibiting females from wearing tight, bloomers, divided skirts and short waists in public, will be given more free advertising upon the vaudeville stages of Alabama than any man in America; and, that is about all his bill will amount to. Moreover, even in the advertising acts, the ladies will have more appeal than the proposed measure would prohibit them from wearing.

WHO OWNS THE UNITED STATES?

The New York World recently published the following interesting table of the cash value of British holdings in this country:

| | |
|--------------------------|-----------------|
| Bonds | \$1,250,000,000 |
| Mines | 150,000,000 |
| Gas light companies | 50,000,000 |
| Electric light companies | 50,000,000 |
| Breweries | 35,000,000 |
| Stockyards | 20,000,000 |
| Cotton mills | 20,000,000 |
| Flour mills | 10,000,000 |
| Dressed log companies | 10,000,000 |
| Rolling mills | 10,000,000 |
| Distilleries | 5,000,000 |
| Grain elevators | 5,000,000 |
| Sash and door factories | 5,000,000 |
| Leather goods factories | 5,000,000 |
| Food produce companies | 4,000,000 |
| Paper mills | 3,500,000 |
| Shipyards | 3,500,000 |
| Potteries | 3,000,000 |
| Varnish works | 2,400,000 |
| Rubber mills | 2,000,000 |
| Miscellaneous | 2,000,000 |
| Real estate | 1,500,000,000 |
| Total | \$1,193,400,000 |

It is reported that an extra effort will be made, during Mr. McKinley's administration, to repeal certain portions of the postal laws by which newspapers and monthly publications are to be taken from the list of "second-class matter" and placed in a higher priced class; instead of costing 1 cent a pound, as at present, it is proposed to charge 8 cents per pound. It will also be remembered that some Milwaukee merchants memorialized the last congress for the change. The move is evidently the outgrowth of a desire to get cheaper mail rates on advertising circulars, etc., at the expense of newspaper publishers by increasing the mail rate of their publications enough so that the Post-office department can afford to reduce the rate on the cut-price and bankrupt stock advertising circulars which some people are wont to flood the mails with. The free circulation of newspapers in the counties wherein published is to be wiped out also, and they are to be placed upon the 8-cent list. The move is reported to have met with much favor at the last session of congress, and is said that nearly 100 members who secretly favored it refrained from voting for it till they could stand the test of re-election, when, if returned, they were pledged to its support. However, the proposition should be opposed by every editorial association in the United States, as if carried out it would destroy hundreds of news publications to which the people look for enlightenment, and we hope the Wisconsin organization will not be slow in joining the opposition.

SOUNDS LIKE "CASTLES IN THE AIR."

A Building Fifty-nine Stories High Planned for Erection in Gotham at a Cost of \$35,000,000.

The New York World says that plans have been drawn and negotiations are under way for the erection of a 59-story office building with a 6-story cupola on top. Some English capitalists, headed by Jacques & Welton of Lancashire, are backing the enterprise and will expend \$35,000,000 in erecting the structure. In addition to the fifty-nine stories there are to be seven subcellars and six stories in the cupola, making a total of seventy-two floors in the building. It will be 108 feet square and 900 feet high, with a large central court, and there are to be 5,900 rooms and five large stores on the ground floor.

The motion for a state semi-centennial celebration started in the metropolis of Wisconsin several moons ago, and the balance of Badgerdom subsequently said: All right, go ahead; we'll attend. However, the Milwaukeeans have now come to the conclusion that they just had that kind of a celebration a comparatively short while ago.

That yankee ingenuity is keeping pace with the progress of the present century may be seen from the following clipping: "H. D. Booge, a Topeka man, has adopted a unique plan for getting 'even' with the 'money power.' Recently he lost his handsome home through foreclosure. He owned the adjacent vacant lot, and he built a barn on it, within twenty feet of the front door of his lost home. The loan company thus finds itself unable to rent the house and Booge takes secret satisfaction in seeing it remain vacant."

—A teachers' institute will be held here on Saturday, Dec. 12th. Exercises will begin at 9 a. m. A cordial invitation is extended to the public by the county school superintendent.

—The North-Western line is now selling commutation trip tickets, between here and Milwaukee, as follows: 10-day family ticket, \$9.10; 25-day individual non-transferable ticket, \$15.95.

—Last Monday and Tuesday we had the coldest weather known here for years on the last day of November and first of December. The thermometer registered 6 degrees below zero Monday morning.

—Skating on the mill pond has been the leading sport for our young people this week; also, for some of the middle aged. The ice has been in good shape and the weather was quite favorable, barring the cold spell of Monday and Tuesday.

—Services will be held at the I. O. G. T. hall tomorrow (Sunday) as follows: Sunday school (English) at 2 p. m.; D. C. Mayer, leader. Sermon (German) 3:30 p. m., by Rev. Lemkaemper of Wauwatosa. Y. P. S. C. E. (English) 6:30 p. m.

—The marriage of Miss Lydia Kocher (daughter of Mr. and Mrs. John Kocher) to Hubert Keller took place last Tuesday afternoon in West Bend, Rev. Terborg officiating. The occasion was celebrated at the bride's home. We wish the young couple much happiness.

—Last Monday morning while M. Margolis, the tin peddler, was loading his wagon at the depot, his horse became frightened and bolted towards "Canada," scattering a partial load of tinware and other goods upon the highway and smashing the wagon as he went. However, the animal was found to have escaped injury, beyond a few bruises, after having been captured at a point about 1/2-mile from the village.

—The county board's committee on jury list, for the year 1897, selected the following residents of our town and village among others: Grand jury—Simon Sommer, Bernhardt Hauschild and Allen Foot of the town, and Nic. Remmel, John Strobel and Wm. Muckerheide, John Remmel, Fred Backhaus, Peter Campbell and Peter Lircken of the town, and M. Beisler, W. Gritter, W. Kudeck and A. Buss of the village.

DIED.—Henry Taeveranus, at his home in Milwaukee, at the age of 40 years, after an illness of a week's duration. Mr. Triveranus was well known through this section, and was at one time employed by L. Rosenheimer at Schleiserville; and, for the last five years, he had been in partnership with David Rosenheimer in the butcher and commission business at Twenty-fifth street and North avenue, Milwaukee. He leaves a wife and two children. The remains were brought to West Bend last Tuesday and interred in the Union cemetery there.

A PIONEER PASSES AWAY.

George F. Fleischmann died at his home in Mayfield last Wednesday, aged 77 years and 7 months. The funeral occurred at the same place yesterday at 2 p. m.

The deceased was a brother of Chas. Fleischmann of this village, and of Adam Fleischmann of the town of Ashford. He was a native of the Grand Duchy of Hesse Darmstadt and was born near Maxence on May 7, 1819; he attended the common schools of his native province and the Teachers' Seminary of Bensheim. On Nov. 27, 1848, he emigrated to America and resided in New York city until March of 1850, when he went to Maine, resided a year in that state and came to this county in 1851 and located in the town of Polk, where he taught school until 1853 and then returned to Germany for a year, after which he resumed teaching until May of 1856, when he established a general merchandise business at Mayfield. He was elected superintendent of schools of the town of Polk and served three years, when he was elected town clerk and served four or five years. On May 1, 1860 he was married in Milwaukee to Miss Catharine Dannenfelser, daughter of Henry Dannenfelser, who was also born in Germany.

Mr. Fleischmann was a man of superior culture, one whose intimate knowledge of the history and politics of the old world made him an entertaining and instructive companion, and his death produced sorrow in many a circle beyond that of his own home. Peace to his ashes.

The Englishmen who paid so much for a lot in New York that they found it necessary to erect a 59-story building there, in order to "play even," should have come to Kewaskum, where a 2-story building with basement proves comparatively as profitable on the money invested as a "sky scraper" in Gotham.

WISCONSIN.

—The death of Mary Bastian, a year ago last September, resulted from a fractured rib penetrating one of her lungs, according to the statement of the physician who attended her, so the brothers of the deceased had an inquest held, and the jury found "That the deceased, Mary Bastian, came to her death by assault and violence done to her by Herman Bastian, her husband, by being by him violently thrown against a woodbox and upon the floor, fracturing two of her ribs and causing injuries which resulted in her death."

Mr. Bastian was then arrested upon the finding of the jury and held for trial in the circuit court, which resulted in the verdict indicated above, at a late hour of Nov. 27th.

NEW PROSPECT NOTES.

John Uelman returned home this week.

Ed. Bowser was a caller in our burg last Monday.

Mr. and Mrs. Parrot visited at W. J. Romaine's last Sunday.

Our school commenced again last Monday after a short vacation.

G. M. Romaine and wife went to Fond du Lac last Wednesday.

Eldon Romaine was sick during the fore part of the week with a severe cold.

Miss Edna Haskins of Campbellsport visited at G. M. Romaine's last week.

Geo. Miller returned last Saturday from Kohlsville, where he was visiting friends.

Jo. Gritter, the live stock dealer of Kewaskum, passed through here last Tuesday.

Miss Ruby Gage of Campbellsport visited at L. B. Van Blarcom's last Saturday and Sunday.

We advise the young men of our burg not to wear their best hats when making Sunday evening calls.

John Van Blarcom has returned home from Aurora, where he had been making cheese the past week.

Byron Peck of Campbellsport made a business trip through here Monday enroute to Sheboygan county.

Jo. Doyle held the lucky number that won the first prize at the entertainment last Thursday evening.

Some people from here attended the dance at Campbellsport last Wednesday and all report as having had a good time.

Our roads are very rough. We never saw the like; Still, Garry thinks they are the stuff. For he sailed through here on his bike.

Absolutely pure, perfectly harmless, and invariably reliable are the qualities of One Minute Cough Cure. It never fails in colds, croup and lung troubles. Children like it because it is pleasant to take and it helps them.—Charles Miller.

ELMORE ETCHINGS.

If anybody is in need of pasture, he should call on our neighbor, Dan.

A MUSICAL BICYCLE HAS BEEN INVENTED HERE AND WILL BE SEALED BY FLATS.

Charley, the general manager of the corners, is still rushing it, and *wieft nicht schlecht!*

Wm. Klumb, our general merchant, received a fine lot of Xmas toys this week. Call and see them.

F. Kleinhaus is kept busy sharpening drills and preparing the new drilling outfit for Meichels & Odekirch.

John Schrauth, Jr., and wife have moved into his new home, which was formerly owned by Dan. Schrauth.

John Hess, Sr., called on us last Monday, and it seemed to us that the old gentleman rather enjoys village life.

Some of our boys attended the ball in Campbellsport on Nov. 25th; and, as some of them were not satisfied, we would advise them to patronize home music hereafter.

Two girls in this vicinity, while coming home from a New Cassel church last Sunday, took a short route and soon became so interested in conversing that they got lost in a marsh and finally wound up where they started, whereupon they willingly took the regular route homeward. "Stick to the well beaten path," girls; "the longest way around is the shortest way across."

FARM FOR SALE.

PROCEEDINGS OF THE COUNTY BOARD.

(Continued from last week.)

The session of Nov. 19th was spent withdrawing resolution appropriating \$197 for stationery, hearing reports of committees on general claims, court claims, assessments and jury lists.

On Nov. 20th resolutions were adopted in favor of appropriating money for stationery for the county offices, authorizing the clerk to have 1,000 copies of the board's proceedings printed by the lowest bidder of county papers provided such bid would not exceed 6 cents per copy, and appropriating \$500 to the County Agricultural society. A resolution offered by E. Purcell of Erin, fixing the sheriff's fees for boarding prisoners at \$2.50 per week and 50 cents for washing, was laid over until the next session. Reports were made by committees on general claims, treasury and county farm; also, by committee on printing, to the effect that they had let the job printing to the *Pilot* for \$496.25, and the board proceedings to the Hartford Press for \$49.

On Nov. 21st a committee was appointed to act in conjunction with a like Ozaukee county committee relative to building an insane asylum; resolution appropriating \$675.22 for per diem and mileage was adopted; reports of committees on assessments, treasury, asylum and pauper accounts, besides a report from committee appointed to confer with Ozaukee county committee, were adopted. Chairman appointed S. F. Mayer, G. W. Root, Chis. Reis, John Hose and J. A. Christnacht as a committee on the insane asylum matter and Geo. Moulster and A. Rosenheimer as a committee on the semi-centennial matter. After reading and approving the minutes, the board adjourned *sine die*.

WISCONSIN'S RESOURCES

are attracting general attention, and its railroads furnish the means to develop them. The limitless iron ore deposits of the Penokee and Gogebic Iron Ranges provide abundant opportunity for the establishment of Iron Furnaces and general iron working industries. Hard-wood timber in great quantities attracts manufacturers of all wood articles including Furniture, Woodware, Staves, Headings, Hoops and Veneering; the Granite and Lime Stone quarries are unsurpassed for fine building work and strong lime. Numerous Clay, Kaolin and Marl beds furnish the best material for Tile, Brick and Pottery.

All of these materials are located on the line of the WISCONSIN CENTRAL, and any one who desires to locate a manufacturing plant is requested to write us, as we desire to confer with everyone who wants a good location with facilities for reaching markets everywhere.

—The death of Mary Bastian, a year ago last September, resulted from a fractured rib penetrating one of her lungs, according to the statement of the physician who attended her, so the brothers of the deceased had an inquest held, and the jury found "That the deceased, Mary Bastian, came to her death by assault and violence done to her by Herman Bastian, her husband, by being by him violently thrown against a woodbox and upon the floor, fracturing two of her ribs and causing injuries which resulted in her death."

Mr. Bastian was then arrested upon the finding of the jury and held for trial in the circuit court, which resulted in the verdict indicated above, at a late hour of Nov. 27th.

Sharp Twinges

Only the sufferer from rheumatism can realize the agony caused by this disease. It affects the joints and muscles, which become stiff and sore and cause constant suffering. The cure for rheumatism is found in Hood's Sarsaparilla, which thoroughly purifies the blood and neutralizes the acid which causes the aches and pains.

soon as possible. If the stalks are wet after being dried, the waste from rotting goes on much more rapidly than before. If the stalks should be cut in the morning this is better than to leave them exposed to further injury by storms, with little chance of drying out, except as it will be frozen dry by the cold of winter. This freezing of wet stalks takes from them most of their feeding value.

This freezing of wet stalks takes from them most of their feeding value.

The Quality of Timothy Hay.

One reason why timothy hay is a favorite in the markets is its uniformity of quality. Not being so nitrogenous as clover, it is much less likely to be injured by being wet and heating. The variation in quality is mainly due to early or late cutting, though some very stable lepers prefer the hay ripened timothy, which is least nutritious because the horse likes the timothy seeds. Clover hay is very apt to become musty and dusty if it has been exposed to fermentation. Timothy hay will not be dusty unless cut in the bloom, and the dust is not so injurious as that from partly decayed clover.

Sweet Apples for Horses.

A quart or two of sweet apples per day for each horse will be worth more to it than the same bulk of oats additional to its regular ration of hay and grain. The apples are better than any kind of roots, and this year they are everywhere cheap and plenty. Some apples are nearly as good, but the horses prefer the sweet apples when they can be had. In nutritive value there is very little difference. There is much sweet in what we call a "sour" apple, which is only called "sour" because an acid disguises the sweet it contains.

Handy Style of Wheelbarrow.

A deep wheelbarrow is more useful than one built on the old plan, because it will hold more, and the work of building such a barrow is not much greater. Any one who owns a wheelbarrow can easily construct one by first procuring two stout pieces for the shafts and mortising them together firmly just behind the wheel. The next mortise must come 2 inches from the ground on the legs of the wheel, and the mortise of the barrow must reach forward to B, where it is supported by two false logs mortised into the shafts and reaching within 2 inches of the ground. The sides may be solid from the floor up, or if preferred they may extend only to the top of the shafts, and from this point movable side rails may extend upward. The only disadvantage in having the body solid is in being forced to remove most of the load from between the handles.

Beef Peculiar.

Stew half a dozen good-sized tomatoes for two hours. Season with pepper, salt and a very little curry powder. Have ready a desired quantity of chopped cold beef (that has been left over from the day before). Line a baker with cracker crumbs, having buttered it thoroughly, then put in a layer of beef, a layer of tomato and then more cracker crumbs. Continue this until the baker is filled, having the last layer of crumbs. Put little pieces of butter over the top, and bake in a good hot oven. This is a delicious lunch.

Rice Grits.

Separate the whites and yolks of three eggs into two bowls. Add one pint of milk to the yolks and beat lightly. To this add one level teaspoonful of salt, three cupfuls of sifted flour, one tablespoonful of melted butter, and mix thoroughly, after which add a little cold water. The whites of the eggs add two rounding teaspoonfuls of baking powder and add to the mixture. Bake from twenty-five to thirty minutes in a quick oven.

Phenomenon of a Drop of Water.

Prof. Worthington has been studying a curious phenomenon for twenty years, a phenomenon for twenty years, a part of the splash of a drop of water, the splashing of an eye, yet it is an exquisitely regulated phenomenon, and one that very happily illustrates some of the fundamental properties of the fluid.

English Apple Pie.

Line a pudding dish with paste, and pare, quarter and core enough apples to fill the dish. Sprinkle with sugar to every three apples, a large pinch of powdered cinnamon, half the grated rind of a lemon. An inverted cup should be placed in the center to hold the juice. This pie can be made in a large, medium or small dish, the ingredients regulated accordingly. It should be eaten hot.

Helps for Housewives.

Eggs will cook much more evenly if the frying pan is covered. If you find your light is apt to run sprinkle the cake lightly with flour. Salt fish is most quickly and best freshened by soaking in sour milk. If you heat your knife slightly you can cut hot bread as smoothly as cold. Soda is an excellent article for cleaning tinware. Apply damp with a cloth; scrub dry.

Watering Plants in Winter.

There is far more danger of giving house plants too much rather than too little water in winter. During the short days and long nights, with very little sunlight on the soil, it is hard to keep it at a temperature where the plants can grow vigorously. All the water that is added lowers the temperature until it reaches a point where the plants barely exist without making any growth. If the soil has much vegetable matter, humic acid will be developed at a low temperature, and this will poison the plant roots.

HOUSEHOLD

Illustration of a woman in a kitchen, possibly related to the 'Household' section.

Twice-Breaded Cutlets.

Select fine firm veal, and have the chops cut from the ribs and meat trimmed neatly from the end of the bone, leaving about two inches to decorate with fringed paper. Dip each chop into beaten egg, and then into fine breadcrumbs, and set them in a very cold place for an hour; then dip them again into the beaten egg, and again roll them in breadcrumbs, sprinkling well with salt and pepper. Put some nice clarified beef fat in a frying-pan and stand it on the range. When it becomes hot fry the chops carefully in it until they are a delicate brown; then lift them out and lay them on a hot platter, with the bone end toward the edge of the dish. Slip a fringed strip of tissue paper over the end of each rib. Pour the tomato sauce on the dish with the chops, being careful not to get any of it on the paper decorations. Veal requires to be well cooked, but mutton chops, breaded, should be cooked very lightly.

Carving a Ham Artistically.

One cannot do this well by intuition, but by practice joined to a small slice of theory it can be done as follows: A ham can be carved in three ways—first, by cutting long, delicate slices through the thick fat from 1 to 2 down to the bone; secondly, by running the

Member of the Royal Academy.

He was also elected a member of the Royal Academy of Arts of Stockholm. On June 8, 1882, Emperor William II. of Germany bestowed upon him the Order of the Eagle, third class. The honor was conferred by the emperor on a manufacturer. On April 15, 1884, William Steiway was elected a member of the Royal Italian Academy of St. Cecilia in Rome, the oldest and most renowned academy of the world.

Active in Politics.

In the presidential election of 1892, Mr. Steiway was one of the Democratic electors-at-large for the electoral college at its meeting in Albany. Mr. Steiway was a member and originator of the National League of Manufacturers, and was elected president of the same organization in 1894. He was also elected a member of the National League of Manufacturers, and was elected president of the same organization in 1894.

Deaths in the Storm.

The Western Blizzard Much Worse Than Was First Supposed.

St. Paul, Minn., Nov. 30.—A Fargo, N. D., special to the Dispatch says: "Fuller reports of the late storm show it to have been more severe than was first anticipated. With two rotary engines working out of Fargo on the Northern Pacific since Saturday morning, N. D., the mail train from Fargo to St. Paul was just reached at 10 o'clock this morning. Only half a mile was cleared yesterday, and the heavy fall of snow, piled by twenty-four hours of rain covered the ground to a depth of twelve to sixteen feet. The cattle were unable to find food and have since drifted into the ravines and settlements for shelter. Hundreds of them have succumbed to starvation.

Human Lives Lost.

St. Paul, Minn., Nov. 30.—Human beings have been frozen to death, cattle have been killed, and many have perished in snow drifts, trains are delayed, wires are down, and the Northwest is in a state of panic. The blizzard that holds the Northwest locked in its chilly grasp. How many human lives have been sacrificed, and how much property has been destroyed, clear away, months hence. Men are missing everywhere in the heart of the storm, and many are believed to be dead. Many are missing with the chances very much against them being alive. Those who are missing are believed to be dead.

New York and Wisconsin the Only States That Can Compete with Germany.

It is one of the strange facts of commerce that nearly all the finest King cheese sold in this country is made here and not imported from Germany. Wisconsin turns out a considerable quantity, but the bulk of the finest imported comes from the St. Lawrence, and shipped to New York, is eaten as the genuine German article in the United States. The cheese is made in the State of Wisconsin, and is sold in the State of New York, and is sold in the State of New York, and is sold in the State of New York.

Novel Tower for Paris Exposition.

M. Devic, the French engineer, has a great scheme for the Paris Exhibition of 1900. One or two stupendous plans he has proposed have been rejected, not on their merits, but on account of the vast sums necessary to carry them out. M. Devic has determined to complete his present scheme at his own expense. It consists of a tower 400 feet high turning upon a pivot and making a complete rotation in an hour. The visitors seated at tables in the different restaurants containing light the tower will not perceive that they are moving, but will enjoy a panorama of all Paris.

Canada's New Flag.

The most famous design is said to be "three conjoined strips, fess or horizontal, not vertical, with a Union Jack at the corner on the upper or red strip next the staff. The new flag is said to be made of the finest copper and tin, containing no other metal whatever. Its resistance to corrosion is stated to be complete, while the tensile strength is as high as that of mild steel. These qualities render it the most valuable flag for all climates, and wherever a combination of great strength with maximum resistance to corrosion is required, as for instance, in boiler stays, fireboxes, boiler tubes, condenser tubes, condenser plates, pump and piston rods, bolts and nuts exposed to moisture, etc. It has a maximum strength of 28.8 tons per square inch when cold.

Request for an Art Museum.

Stephen Salisbury of Worcester, Mass., has given \$100,000 for an art museum to be erected in that city. The group of buildings will form a triangle, and the style of architecture will be that of the Italian Renaissance. Fifty representative men and women of Worcester have charge of the art fund, and by opening a popular subscription they have added to the original fund of \$50,000. Mrs. Helen C. Knowles left \$100,000 for the purpose of developing the art interests of Worcester. The request was in the form of a memorial to her husband.

GIRLS IN STORES.

able, or factories, are peculiarly liable to female diseases, especially those who are constantly on their feet. Often they are unable to perform their duties, their suffering is so intense. When the first symptoms present themselves, such as headache, pains in the back, etc., they should at once write Mrs. Pinkham, at Lynn, Mass., stating symptoms; she will tell them exactly what to do, and in the meantime they will find prompt relief in Lydia E. Pinkham's Vegetable Compound, which can be obtained from any druggist.
