SPINAL DISEASE AND NERVOUS PROSTRATION

No Affection of the Spine Is Possible Except Accompanied by Most Serious Nerve Disorders-Another Case Where a Nerve Food Was Successful.

1 rom the Journal, Detroit, Mich. "Disease of the spinal cord and ner-vous prostration, was what the doctors called it at first," Mrs. Rosa Tapley, of No. 721 Harrison street, Ionia, Mich., said yesterday to a reporter, "but it was not long before every organ and member of my body was affected. There was a continuous beating at the pit of my stom-ach, my head ached on until I thought I should grow insane. I felt as if I were should grow insane. I felt as if I were smothering, and my legs would become so weak that I had to drop when I felt the spells coming on. As for sleep, that was out of the question (except little cat naps), for in addition to the feelings I have al-tempted to describe, I had neuralgia, and for six months I kept getting worse and worse. At last I was conlined to my bed in October, 1894. "These nearly always thought it was la

"I have nearly always thought it was la grippe," Mrs. Tapley continued, "though the doctor never would say so. Whatever it was, however, it kept growing worse and worse (especially my head and nerves) and I thought I should die. But I drag-ger, on a wretched existence until about one year ago, when, while I was reading the Detroit Journal and Saranac Weekly, I saw a long account of a similar case to my own being cured by the use of Dr. Williams' Pink Pills for Pale People, 1 made up my mind to try those pills, and so procured a supply and began taking them according to directions. I took them faithfally, gave them, in fact, a most thorough trial, and, I am happy to say, with splendid results, so that now my heart's action is normal, my back and spine give me very little trouble, all neuspine give me very little trouble, all neu-ralgic and rheumatic pains have left me. have no headache whatever, and after he hell that I suffered my life is now like heaven.

"I cannot say too much in praise of these pills. I have never tired of recommending the pills to my neighbors (and my sister, who is a school teacher, and had a horrible time with her nerves and loss of memory, at my suggestion is tak-ing Dr. Williams' remedy and is being rapidly cured).

"Read over what you have written," Mrs. Tapley requested. After listening attentively to what she had dictated she attentively to what she had dictated she said: "I can sign that statement with the greatest pleasure," and when the last re-mark was entered the lady signed her name to the reporter's notes thus: (Signed) "MRS. ROSA TAPLEY,"

721 Harrison street, Ionia, Mich. Dr. Williams' Pink Pills contain, in a condensed form, all the elements neces-sary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness, either in male or female. Pink Pills are sold by all dealers, or will be a box or six boxes for \$2.50 (they are never sold in bulk or by the 100), by ad-dressing Dr. Williams' Medicine Com-pany, Schenectady, N. Y.

Banished for Life.

Czar Nicholas has just signed a decree sentencing the son of Gov.-Gen. Karpoff to banishment for life in the remote Siberian province of Irkutsk for having killed an engineer named Kur-Young Karpoff, who was a cavman. alry captain, entered, with a couple of w officers, a railway carriage while drunk, and so grossly insulted two women pasengers that they appealed for on to the only other occupant of ing piled on them. If the coop is sufcompartment, the unarmed engineer Kurman. On the latter attempting to remonstrate with the officers, Karpoff drew his revolver and fired three times at the unfortunate man, killing him on pot. The court-martial appointed the case found the captain guilty punicide, with extenuating circumthe spot. stances, inflicted a small penalty and declined to order him to pay a sufficient sum to provide for the maintenance of

Using the Incubator.

The best oil is none too good for the incubator lamp. Poor oil, besides being dangerous, crusts the wick, and encrusted wicks give very little heat. Lamps must be filled and cleaned even when the best oil is used. To forget pure after the vessel has been a few this duty once may spoil a hatch and waste much precious time. It will pay to make an effort to keep the incubator room at a moderate and even temperature. A temperature of thirty degrees to forty degrees in the room requires the lamp of the incubator to be run at its full capacity, and of necessity there will be a free circulation of air, and, hence, too much ventilation resulting in too great evaporation and a drying out of the eggs. This is the case with a majority of the machines. A very high understanding the use of edge tools. temperature is just as inconvenient. A

degrees and seventy degrees, without the presence of coal gas, is about right. Temporary changes, higher or lower, for an hour or two, do little harm. No self-regulating apparatus, however ingenious, will dispense with the use of brains in running an incubator. It is sometimes needful to discount the assertions of the catalogues in this respect, and to watch vigilantly that the machinery does not bind or chafe, or become disarranged by the heat and moisture within or from some obstruction without. This is the time to work the incubator for all it is worth .- Poultry World.

Shipping Fowls by Express. Poultry breeders and poultry buyers are interested as to how best to ship breeding stock by express. Expressmen have found much fault in the way fowls were occasionally prepared for shipment, and the result was double first-class charges used to be made on poultry. As this seemed an injustice, poultrymen and expressmen came to

gether and decided on what should constitute a proper coop in consideration of single first-class merchandise rates instead of double. This conference resulted in the adoption of a "one rate" price instead of a "double rate." Also, of dollars. that coops must be strong and slatted and not injured by other packages be ficiently strong, expressmen have no objection to coops being lined inside with cloth to protect birds from a draft. The coop illustrated above is four feet long, two feet wide, and twenty inches high, made entirely of laths, excepting the bottom and the boards around the base, which are four inches wide, of

application to kill. The Australian sheep growers have succeeded in eradlcating scab from that country. Now every sheep brought to Australia has to submit to the bath once to destroy possible germs that have not becom visible.

Storage Purifies Water. After all, the best kind of purifier is nature's own. The minute organisms known as bacteria are the chief causes of the impurity of drinking water. These invisible creatures have to live as well as their larger brethren, and

they must eat to live. As soon as they have eaten all in the water that there is to feed on they die. Dr. Frankland has stated, from his recent examination of water stored for two weeks, that it seems as pure and free from bacteria life as if it had been passed through the best of filters; but it seems strange that this should have so recently come under Dr. Frankland's experience. Every one knows that there is no purer or better water in the world than that which is supplied to seafaring people. Almost any kind of water stored away in a ship's tank becomes absolutely

weeks at sea. This is usually ascribed in popular language to fermentation; but there is really nothing to ferment, it is simply that the bacteria have eaten everything in the water there is to eat and then died of starvation .-Meehan's Monthly. A Milking Stool. The self-descriptive illustration, from Farm and Home, shows a practical milking stool, readily made by any one

and sugar.

Madison, Wis., Feb. 24 .- [Special.]-Before the committee on corporations esterday Assemblyman Taylor presented his arguments in favor of the passage of his department store bill, which is likely to create something of a stir in the state before it is passed upon. The committee took no action on the matter and appointed a hearing for a week from Cream well together three-quarters of next Thursday when it is expected that a large delegation will be present and a pound of butter and three-quarters of a pound of sugar. When well mixed, e matter will be more fully discussed. Mr. Taylor submitted a number of im-portant reasons why something should be done to change the existing state of affairs, and said that one of the most imadd the beaten yolks of five eggs, two wineglassfuls of milk, one wineglass of brandy, one of wine, half a grated nutmeg, half a teaspoonful of allspice, portant was that of improving the morals of the clerks. The wages paid by the department stores he maintained were insufficient, especially to the female em-ployes, and they were almost driven upon the streets. The whole tendency two teaspoonfuls of cinnamon, half a pound of citron, one pound of raisins, one pound of currants, one pound of English walnuts, half a pound of figs, one pound of flour, added with the of the department store he said was de fruit, then the lightly beaten whites of

another reason why the department stores should be wiped out, Mr. Taylor said, was that they interfered very much with the small dealer. He devoted considerable time to discussing the effect upon the small merchants and showed that some of the large department stores were almost driving them out of the busi-ness. In Chicago, Mr. Taylor said, the small shopkeepers had begun a strong movement for their own protection and they were backed by the Civic associa-tion. The Legislature of Minnesota was wrestling with the probrem and a joint committee of its two houses was holding daily sessions to take testimony on the subject. New York was also taking steps, he said, to remedy the existing evil. five eggs. Have ready a large, wellgreased cake pan, or, better still, place in the bottom and around the sides well-greased paper cut to fit the pan. Pour in the butter and bake in a mod-Crumb some stale bread, rejecting the browned part of the crust. Put a layer of the crumb in a pudding dish, then one of cranberries, cover with sugar and dot with bits of butter. Alternate the layers of bread crumbs and berries until the dish is full, finishing with a layer of crumbs. Stir a beaten Mr. Taylor's bill divides merchandise

Mr. Taylor's bill divides merchandise into seventy-eight classes and provides a license for each class. A person may engage in as many lines as he is willing to pay license for. The licenses are to be fixed by the city council and the annot be less than \$5 each. The bi-license of less than \$5 each. The biegg into a cup of fruit juice and pour over the top. Bake slowly about forty minutes, or till the cranberries are cooked. Something depends on the size of the pudding dish. Serve with a does not apply to cities of less than 2000 liquid pudding sauce, or with cream

BICYCLE BAGGAGE BILL.

Wheelmen Make a Plea-Railroads Re-

Madison, Wis., Feb. 24.-[Special.]-The two committees on railroads in joint session yesterday had a lively time with Senator Whitehead's bill to compel the railroads to carry bicycles free as bag-gage. Representatives of the railroads were present and there were quite a crowd of wheelmen on hand to speak in favor of the bill. The railroad's representatives are very much opposed to the bill and will do everything in their pow-er to defeat it, but they did not make Measure a quart of milk, reserving any argument before the committee, co tenting themselves with asking questio enough to wet to a smooth paste one

f the wheelmen. Senator Whitehead said that he had in Senator Whitehead said that he had in-troduced the bill at the request of the wheelmen and that thousands of peti-tions had been received from the people of the state justifying his action. He said that he had a personal interest in the matter and was fully of the opinion that bicycles ought to be considered as havenee.

He introduced M. C. Rotier as chief consul of the Wisconsin division of the L. A. W., who read an address to the nittee and called attention to

committee and caned attention to de-cisions of the court in which it was held that bicycles were baggage. The Green Bay road, he said, carried bicycles free now and the Wisconsin Central was will-ing to do it, but the Western Passenger Make light, rather rich pastry, roll thin and cut in squares of about four inches. Spread upon each square a small quantity of deviled ham, leaving association objected. He called attention to legislation in other states where the railroads had complied with the statute about one-half an inch around the edge uncovered. Moisten the edges with cold water, and roll each sheet of ham without a protest. He thought that to refuse to carry bicycles was discrimina-tion and argued that bicycles should be and pastry compactly, pressing the ends together. Brush over with white of ced on the same footing as gu egg and bake .- Ladies' Home Journal. nd canoes, which the railroads always

carried free Judge Harriman agreed with Mr. Ro-tier that the railroads discriminated against wheelmen. Long ago the rail-

STANTON'S FOVERTY.

The Great War Secretary Had to Borro Money in Pittsburg. The following letter concerning Edwir M. Stanton is published in the New York Sun of February 11:

The Sun is mistaken in saying that Stanton did not have to borrow money to re-eestablish his law practice. Mr. Stanton, soon after he left Johnson's cabinet, wrote somewhat in these terms to J. K. Moorhead, who was for many years member of Congress from the Pittsburg, Pa., district: "Dear General: I am in need of money, even for maram in need of money, even for mar-eting. I could get all I want, if I I am in could get all I want, it is would let my poverty be known, by pub-lie subscription; but you know I would not think of permitting such a thing. I want to borrow \$3000. My security, you know, is sufficient in the coal lands we own together."

we own together." Gen. Moorhead told me this soon after receiving Stanton's letter. He was my kinsman and most intimate friend, and he was aware of my friendship for many years for Mr. Stanton. My first ac-omaintance with the great lawyer was quaintance with the great lawyer wa made in 1850, in Philadelphia, where he was arguing before the Supreme court helice believe, what was known as the Wheel poverty when he ceased to be secretary of war, and that he borrowed this money and the secretary and the secretary of war. and it was paid back afterward. Jame L. Claghorn and the Union league of Philadelphia, soon after Mr. Stanton's death, raised a fund of \$100,000 for his family. I was a subscriber to the fund. At that time I lived in Williamsport, Pa. Henry Dundas, when secretary of war under William Pitt, and while England under William Pitt, and while England was putting forth every man and dollar to break the power of Napoleon Bona-parte, took a bribe of £100,000. Our secretary, if he had desired, had the op-portunity to acquire wealth beyond the greed of avarice. But he died in abso-lute poverty. We should all be proud of his memory. J. B. M.

Portland, Or., Jan. 22.

The Spartan Virtue, Fortitude, The Spartan Virtue, Fortitude, Is severely taxed by dyspepsia. But "good digestion will wait on appetite, and health on both," when Hostetter's Stomach Bit-ters is resorted to by the victim of indi-gestion. Heartburn, flatulence, billousness will cease tormenting the gastric region and liver if this genial family corrective meets with the fair trial that a sterling remedy deserves. Use it regularly, not spasmodie-ally-now and then. It conquers malarial, kidney, nervous and rheumatic aliments.

-The herd of European bisons pro-tected by the Tsars of Russia in the for-est of Bjelowski, Lithuania, numbered 1900 in 1856, but is now reduced to 500, and shows no sign of increase. The dwindling of the herd is ascribed to inbreeding, due to the confined area of the reservation reservation.

Care of Potatoes in Cellars.

There are many dangers of injury to potatoes kept in cellars. That of being frozen is what happens the worst, but it is always guarded against, so that no caution is needed about that. Much greater is the likelihood that the potatoes are kept too warm, and especially comes always from potatoes thus massed, and those in the bin will be untouched by frost even when a film of ice will form over water set in vessels on the floor, or the potatoes left outside the heap have been frozen. It is doubtless the warmth developed by sprouting the potato that creates the warmth that protects the mass as it slowly rises says." through it. When it is seen that potatoes are beginning to sprout, they sprouts be broken off. Those that are meant for seed ought to be put in a

mass, unless in a pit out of doors, and they should be got out and exposed to

Feeding Wheat to Stock.

Wheat is now much dearer than any other kind of feed. Yetthere are cir cumstances in which some wheat may be fed even at present prices. It does not pay even when wheat is cheapest to feed it exclusively. It has more nitrogenous substance in proportion to its bulk than any other grain, and is therefore very likely when fed alone to ferment in the stomach. Yet when combined with other grains and cut hay or straw the wheat paid for hogs very Sun. near its present prices in the market.

Therefore a small proportion may yet wheat is always the cheapest grain. That is for laying hens. But they must he writes: not be fed much lest the hens fatten, as they will just the same as if overfed with corn.-American Cultivator.

country trips. He gave his experience in states where wheels had been declared to be baggage and gave an account of the way the roads in those states handled wheels. In all of those states, he said,

it had been found that the returns of the railroads were increased through the arrying of wheels. Ex-Mayor Oelrich of Oshkosh took the ground that wheels were now necessities and that the roads should be compelled o recognize the fact. There was a con-bination, he said, which prevented the Wisconsin Central from carrying wheels and the Legislature ought to pass the

bill to break it up. C. E. Buell, the Madison attorney who drew the bill, said he had no fecl-ing against the railroads and admitted

that he could see some grounds for the objection that it was not fair to ask the railroads to carry bicycles which were a legal sense vehicles, but the same jection had been raised years ago to other things which were now considered as baggage and to which the railroads raised no objections. He then gave a a stove or range will loosen clinkers on the fire brick, so that they may be taken short history of the development of the law in relation to carrying of baggage. off easily, and a store that is rubbed off law in relation to carrying of baggage. He thought his bill was very conservawith newspapers after each meal will tive and said that he had been careful

eliminate everything that might an pear to be radical. Frank P. Van Valkenburgh of Milwankee quoted the passenger associa-tion rules defining baggage as wearing

apparel and then read a number of de-cisions in which many of the things had been decided to be baggage. When he said that the Wisconsin Central was said that the Wisconsin Central was willing to carry wheels free Mr. Wis-well asked him where was his authority for the statement and he said it was the general passenger agent of the road. The representatives of the railroads were not ready to argue their side of the case and the matter was laid over until March 10, when the final hearing will be given the measure. A remedy for roaches can be obtained borax in equal parts, and scattering it which must be swept up, unless replac-All brooms or brushes made of whisk given the measure.

SHOVE STANDS CONVICTED.

Manitowoc Banker Loses His Appeal to

the Supreme Court. Madison, Wis., Feb. 24.—Banker Shove, accused of accepting deposits at an insolvent institution, has lost the ap-peal which he took to the Supreme court. Try ironing pieces of heavy manila and he still stands convicted, just as he did when the jury returned a verdict against him at Oshkosh.

against him at Oshkosh. Shove was a resident of Manitowoc and president of the T. C. Shove Bank-ing company. April 12, 1892, the com-pany made a voluntary assignment, pre-cipitated, it was claimed at the time, by reason of the destruction by fire of the Manufacturing company.
