The night in Chandler was one of in-describable terror. With a better part of its inhabitants dead or dying and the re-mainder too hadly injured or unable from fright or because of darkness to rende assistance, little better order than bed-lam prevailed. Rain poured down upon the disconsolate inhabitants and all duron of the church from surrounding towns arrived.

Many of the wreeks took fire and burned themselves out, several still smouldering when morning broke over the town. From the fire's work will finally come the worst realizations of the disaster, for it is believed that many of the missing were burned to death. The cyclone struck Chandler without warning about 6 o'clock last evening. Its work of carnage began before the inhabitants realized what was upon them and hardly any means of escape was left open. Tearing through the business district, stores were hurled right and left. lifted high into the air and tossed in every direction. The courthouse, in which Chief Justice Dale was holding court, was taken off its foundation and the building nearly crushed. Passing on into the residence district, the wind wreaked its veageance there, and, rushing into the open country, finally spent itself. #### DAY TO GO TO CUBA.

to Investigate the Death

Washington, D. C., March 30.-Judge retary Porter said that nothing had yet been determined in regard to the Cuban question and that it might be several days yet before a decision was reached. It is known, however, that the President is considering the advisability of having Judge Day go to Havana as the legal representative of the state department in the investigation to be made of the alleged murder in prison of Dr. Ruiz.

Consul-General Lee informed the state department some time ago that Spanish investigations as a rule were mere farces, that he could not consent to be present

that he could not consent to be present at that which is to look into the death of Dr. Ruiz, first because he had no confidence in it, and secondly because he was not a lawyer. This suggested to be relieved shortly. This suggested the idea that the representative sent there might at the same time make a

The present proposition is to have him go to Havana as the representative of the state department at the sentative of the state department at the Ruiz investigation and improve the opportunity to look over the field and make an unprejudiced report of the situation. Canton, O., March 30.—Judge Day re-turned to the city from Washington about noon. He declined to discuss in detail the story that he will go to Cuba as the representative of the President.

He authorizes this statement: "In the event an American attorney is sent to Havana to assist Consul-General Lee, I will take the matter under consideration.

Deafness Caunot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies, Deafness is caused by an inflamed condition of the macous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.
