The hunter, in prowling through the woods, came upon the carcasses of two fine bucks, their horns firmly interlocked. They evidently had been fighting and in the struggle had locked horns. Being unable to get them separated, and, consequently, unable to obtain any food, they had starved to death in that position. One set had nine prongs. The horns are so firmly locked together that it is impossible to separate them without sawing off one Killed by the Cars

DAMAGE TO CROPS.

Winter Wheat, Rye, Timothy and Clover Have Suffered Severely in Wisconsin.

Official reports received by the weather flice from volunteer observers in parts of Wisconsin show a serious condition of the small grains, as a result of unfavorable weather in January, which froze winter wheat, rye, red clover and timo-thy, to such an extent that in some parts of the state, it is said, there will be prac-tically no winter crops. The damage to winter wheat is placed at from 50 to 90 per cent., that of rye about 20 per cent., to red clover 70, and to timothy 10 per

A. H. Pape of New London, one of the most careful observers, reports that has recently visited and carefully has recently visited and carefully inspected about 200 fields of grain in his section of the state, as a result of which inspection he places the damage to wheat at 90 per cent.. and that to rye, red clover and timothy at the figures given. He attributes the terrible oss in small grains to the hard freeze of January 4-5, which followed decidedly warm weather during the latter part of December, when there were also warm rains.

CONGRESS.

The tariff bill passed by the House was received by the Senate as soon as the session opened on the 1st. There were no formalities as to its reference and without motion or comment the presiding officer. Mr. Hobart, referred the bill to the committee on finance. Mr. Hoar secured immediate consideration for a joint resolution directing the secretary of the navy to use a government vessel or charter a private vessel for the transportation of contributions of grain, etc., to the famine stricken people of India. The Cuban question was revived in the Senate after a long period of comparative calm. Four distinct Cuban resolutions were brought forward in rapid succession. The last and most important one came from Senator Morgan of Alabama. It declares that a state of war exists in Cuba and amounces the policy of the United States is to accord to both parties to the conflict recognition as belligerents. Mr. Morgan gave notice that he would call up the resolution at the next meeting of the Senate with the expectation of securing final action.

of advice to the President by adoption.

Much had blood was developed in the Senate on the 6th, over the Cuban question, and there were numerous stormy passages and acrimonious personal charges. Early in the day, Mr. Morgan of Alabama called up his resolution declaring that a state of war exists in Cuba and recognizing both parties as belligerents. Mr. Morgan spoke for some time in a dispassionate manner on the resolution, but was aroused by Mr. Hale of Maine to a serious of sharp retorts. It led to the declaration by Mr. Morgan that instead of sending a lawyer to Cuba to investigate the case of Dr. Ruiz, as was contemplated, the administration would do well to send a ship of war to Havana and demand redress. At another point, Mr. Hale questioned Mr. Morgan's statement that Cuban prisoners, declaring that the information reaching him (Halet showed that no such condition existed. Mr. Morgan asked who this information came from, and then hotly asserted that he knew where it came from, as the senator from Mai had not denied that he was in communication with the Spanish authorlifes. Mr. Hale indignantly denied that his information came from Sanish sources, and said it was furquire additional piling ground for the large amount of wood.

nished in every item by American Cruzeas.

Cuba and the flood sufferers divided attention in the Senate on the 7th. The reading of the President's message urging congressional relief for the devastated regions of the Mississippi river was followed by the passage of a joint resolution offered by Senator Jones of Arkansas appropriation 512 0000 to be immediately available

After listening to a long personal explanation on the 3d from Mr. Terry (Dem., Ark.), who felt aggrieved at statements that he was jealous and sore because the Democrats had selected Mr. Bailey instead of Mr. McMillin as their leader, the House by unanimous consent passed the Senate joint resolution to charter a vessel to carry food to India's famine sufferers, and then adjourned until the 7th.

It makes the selling of pools on races or other sporting events a penal offense in Wisconsin and sounds the death-knell of the Ideal and Jockey club gamblers. The Senate having had sufficient fan with Mr. Risum's anti-theater-high-hat bill, which it advanced to a third reading Wednesday, promptly killed it when it came up for passage. There were one or two straggling votes in its favor. Bills were killed as follows: No. 462 A. relating to publication of lands to be sold for nonpayment of taxes; No. 274 S, relating to advertisement of real estate for sale for taxes. Bill No. 126 A. providing for a Northern Wisconsin state fair at Chippewa Falls, was advanced to engrossment and third reading. A joint resolution from the Assembly was concurred in providing for regular sessions on the 2d and 3d, and for adjournment then to 8:30 p. m. on the 7th.

In the Senate on the night of the 1st on motion of Mr. Withee a joint resolution was adopted for a joint committee of five to attend the funeral of ex-Senator Cameron at La Crosse tomorrow, and Senators Withee and Eaxter were appointed for the Senate. Mr. Austin obtained a suspension of the rules for the immediate passage by the Senate of Nos. 66 and 67, sent to authorize the consolidation of the two corporations, and the organization of Milwaukee-Downer college, an amendment having been agreed upon to remove technical objections to the bills.

Joint resolution No. 61 8, authorizing the state treasurer to transfer funds, not more than \$20,000 in any one mouth, for normal school purposes, was passed by the Senate on the 2d. Senator Davis' bill, No. 169 8, to prevent corrupt practices in elections, limit expenses of candidates, prescribe duties of candidates and political committees and provide penalties for violation, was on motion of Senator Austin laid over until the 8th and made special order. Bill No. 206 8, providing for a state purchasing agent for the charitable and penal institutions of the state, was also laid over until the 8th and made special order on motion of Senator Youmans. were passed: No. 59 S, relating to terms of commitments to workhouses; No. 190 S, providing that rallway companies may consolidate their stock, franchises and property when their railroads can be lawfully connected and operated together to constitute one continuous main line with or without branches; No. 368 S, designating June 7, 1808, as a public holiday for the celebration of the state's semi-centennial; No. 373 S, providing that the vaults in the capitol basement shall be made fireproof penalties for piacing obstructions on steam, electric or cable railroads as are provided for obstructions on steam railroads. The committee on privileges and elections reported No. 219 S, providing for the salary of the city clerk of Milwaukee, with an amendment making his salary \$2500 and cutting off all fees, and providing for sworn pay rolls. No. 10 S, the revision of the insurance code, which has cost Commissioner Fricke so much labor both in preparing and defending, was killed in accordance with the report of the committee last evening, without discussion. It is to be replaced by afteen separate bills. Senator Green secured further delay until next Thursday for his bills, Nos. 147 S and 162 S, providing for license of street railway companies and taxation of electric light plants. Bills were killed as follows: No. 78 S, providing for the establishment of an advisory pardon board; No. 177 S, relating to inspectors and clerks of elections; No. 300 S, to prevent the introduction of San Jose scale and other insects. On motion of Senator Mayer No. 536 A, amending the act establishing a municipal court at Oconomowoe, was concurred in under suspension of the rules. Under permission of a joint resolution the fifteen insurance bills were introduced, twelve by Senator Davis and three by Senator Roehr, to take the place of the Fricke insurance revision. All were referred to the committee on finance, banks and insurance and were taken up by the committee for consideration this afternoon. Several members succeeded in dodging the Saturday session before recess was taken to 7.30 p. m.

About one-balf of the senators were absent, mostly without leave on the night of the 2d. The Wylie anti-pool bill was concurred in by the Senate earlier in the day, and under the rules the time in which a notion for reconsideration could be made expired with adjournment at night. Mr. Thayer, president pro tem., was in the chair, and in an interval between committee proprise. Mr. Burke moved that the vote by which No. 130 A was concurred in

Gov. Scofield sent to the Senate on the 3d an important veto message. It stated his reasons for withholding his signature from the McGillivray anti-trust bill. The bill not only prohibited the formation of trusts in Wisconsin but authorized and made it the business of the attorney-general to proceed against foreign combinations doing business in any way in this state. Gov. Scofield vetoed it on the ground that its provisions relating to outside combinations were unconstitutional because of interfering with interstate commerce and that its operation would be pernicious. He also held that its provisions were harsh and unreasonable. A majority of the seats were vacant when Lieut. Gov. Baensch called the Senate to order, but the official record will not disclose this fact, for after the prayer Senator Burke moved to dispense with the roll call, and it was so ordered. Senator Burke then called attention to the fact that the journal did not show that his motion to reconsider the anti-pool bill included a motion to lay the first motion over to the 8th. The chair said that the journal would be corrected in accordance with the facts. Senator Conger, by request of Senator Baxter, introduced a bill to amend the laws authorizing the city of Boscobel to construct a toil bridge across the Wisconsin river. There was no calendar, and on motion of Senator Devos adjournment was taken to the 7th at 8:30 p. m. Gov. Scofield sent to the Senate on the 3d

The Senate went through its calendar before adjourning on the night of the 7th.

The bill fixing the salary of Milwaukee's city clerk at \$2500 per annum and prohibiting his taking of fees, was ordered to engrossment without further comment than an explanation by Mr. Roehr that the salary was now fixed at that sum, but the clerk had also taken fees and extras reported at from \$1500 to \$1600 per annum, while it was believed the salary was adequate for the services required. Bills were passed as follows: To increase the efficiency of the free library commission; to provide for a board of police and fire commissioners; relating to highways and bridges; relating to fishways in dams; relating to payment of street improvement bordering on public parks; relating to payment for sewers; to provide for increased number of railroad maps; relating to extension of sewers; relating to collection of fees the services of the several relating to the services of fees the services repaired to the services of fees the services relating to collection of fees the services relating to the services of fees the services relating to collection of fees the services relating to the services fees the services relating to collection of fees the services relating to the services relating to collection of severs; relating to collection of severs and the services relating to collection of severs relating to the severs relating to the severs relating

until the Sin and the Assembly adjourned until 8:30 p. m. on the 7th.

The Assembly was in session for just an hour on the night of the 7th. In that time eleven bills and one joint resolution were passed, and several measures laid over. This is the sum total of the business done, aithough the calendar was a large one and warranted a longer session. There were twenty bills ready for consideration which were not taken up, Mr. Clark's motion to adjourn being carried by a vote of 48 to 28. The bills passed were: Mr. Hall's resolution for a constitutional amendment to prevent the use of railway passes by public officials; providing for an annual appropriation of \$15,000 to the State Historical society; providing for the taxation of telegraph companies; relating to county aid for the building of bridges; relating to military training and discipline; to appropriate money to the trust funds to reimburse loans to the State Agricultural society; relating to board of arbitration and conciliation; relating to railroads; preventing discharge of sewage into Delayan lake; authorizing a dark and size in Creen hay Door county;

It provides for a license fee of \$500 from dealers in cigarettes and prohibits the sale of cigarettes to minors under penalty of a fine of not less than \$25 or more than \$100. following day. The Milwaukee school board bill was concurred in by the Assembly without a word of discussion. It takes the appointment of school commissiones out of the hands of the common council and places it in the hands of a nonpartisan commission. There having been some question as to whether or not an aye and no vote should have been taken on the Hurd cigarette bill at the onening of this morning's session of at the opening of this morning's session of the Assembly, the vote was reconsidered and an aye and no vote was taken. It was unanimously in favor of the bill, as was the vote the night before. Mr. Niss stirred up the Milwaukee members by offering a resolution to establish a special committee to be known as the Milwaukee delegation to serve for the balance of the session to consider Milwaukee matters. Messrs. Eaton, Burnham and Anson objected and the resolution was voted down. Quite a number of leaves of absence were granted. The committee on public lands reported a substitute for the three bills relating to the sale of timber and land on the state park. The following bills were passed: No. 353 A. repealing compensation of delegates from country agricultural societies to state fairs; No. 359 A, authorizing a company to pick up stray logs, lumber, timber, etc.; No. 378 A. organizing a state board of agriculture: No. 423 A, relating to the letting of contacts for printing in cities of first class: No. 536 A, amending law of municipal court at Oconomowoc; No. 543 A, relating to use and ownership of water and light plants; No. 12 S, acquiring lake frontage for park or boulevards in Milwaukee; No. 14 S, conferring certain powers on municipal corporations; No. 29 S, providing for a more correct record of births and deaths; No. 171 S, relating to compensation of committees of county boards; relating to certain actions against members of the National guard; relating to enforcement of penalties and forfeitures; No. 285 S, authorizing certain corporations to condemn lands; No. 294 S, relating to disposition of fines in certain cases; No. 56 S, requiring Heense for hunting deer; No. 61 S, relating to the punishment of sodony; No. 68 S, exempting lands used for public parks and grounds from taxation; No. 132 S, relating to the punishment of sodony; No. 68 S, exempting lands used for public parks and grounds from taxation; No. 132 S, relating to means of the late of the first class; No. 370 S, authorizing a dam across the Wi

Assembly.

Speaker Buckstaff stole a march on the street car companies on the 1st by sliding through the Assembly an amendment to Senator Green's street car taxation bill, which wipes out the law of 1895 and restores the old law. If the smendment is not killed in the Senate the street trail way companies will hereafter have to pay taxes as they did before the passage of the famous law of two years ago. Senator Green's bill increased the tax of the companies to 1½ per cent. on the first \$250,000 of the gross receipts, 2½ per cent. of the receipts above \$750,000 and all the countiles of Brown and Sauk inserted.
