Edhem Pasha's repeated assaults on the wings of the Greek formation have probably the object of compelling Prince Constantine to send them rein-forcements and thus weaken his center at Pharsalia. We may soon, therefore, expect to hear that Edhem Pasha has struck hardest at this weakend point struck hardest at this weakened point. The once existing idea that no possible good or knowledge could be obtained from an Indian is fast disappearing. When such a man as Dr. C. von Spiegel of Saratoga Springs, in an article published in the daily Saratogian of Sept. 14, states that he is indebted, not only to the North American Indians—Kickapoos, Cheyennes, Arapahoes, Pawnees, Apaches, Kiowas, Com-anches, etc., but to the many so called uncivil-ized nations of the most remote corners of ized nations of the most remote corners of the globe,— for his enormous collection and the knowledge of their virtues, of roots, herbs, barks, gums and balsams, by whose use he has effected the most extraordinary cures in innumerable desperate cases, it would seem that the world at large should no longer hesitate to look for help from such simple but potent agencies — no matter their origin instead of dragging out miserable lives of that is aggravated by poisonous mineral drugs.

PROF. CHRISTIAN VON SPIEGEL, M. D.

With such words of praise from a man of Dr. von Spiegel's standing, a regular physi-cian, a graduate and member of several uni-versities, a man who has built up an enviable reputation by his many cures, some of which have been almost miraculous, we are doubly encouraged to call the attention of suffering humanity to the merits of our all-powerful specifics, The Kickapoo Indian Remedies. The best known of these is Kickapoo Indian Sagwa, that greatest of blood puri-

fiers and corrector of all derangements of the stomach, kidneys and liver. It is purely vegetable and contains no poisonous ingrevegetable and contains no poisonous mare-dients whatever. Thousands are enjoying healthy, happy, active lives today, who but for its timely use would now be leading the miserable hie of a dependent cripple, or filling a premature grave, the victims of bad blood, nervousness, consumption, dyspepsia, rheumatism, dropsy, kidney and liver complaints. nplaints.

Each year it becomes better known and more highly appreciated. Each day hundreds join the happy ones who have been cured by its use and sing its praise. We want sufferers everywhere to give ita

Rice as Food.

Rice is extremely light and easy ligestion, and is free from all acidity The only precaution at all necessary in the use of rice is to have it thoroughly boiled, and it should, of course, be drained and dried on the stove just before being served, so that each grain is separate. As an anti-acid for heartburn or acidity, a little whole rice chewed occasionally will often afford more relief than soda or magnesia.
