### AS A BURIED TREASURE. Man After \$35,000 Hidden

Ross Murder Case at Appleton. Appleton, Wis., June 16.-[Special.]of the Civil war, now a A jury was secured yesterday afternoon in the case of Porter Ross of Kaukauna, few days ago to charged with the murder of his wife at ng a transaction a resort near Kaukauna, on March 8 last. At the same time Ross also shot ry, a bag con- and killed his wife's sister, Kittie Duoried in the prey, but the complaint in the present Ell Pingers in trial alleges only the killing of the wife. To this complaint Ross pleads not guilty several expediwife's alleged paramour and fired in self-defense, the shots going wide and killing who had been the women by accident. Ross has entirefathers with d from New sane with which he busied himself in jail

established a until a few days ago, and is now as rathe panic of imminent be- Yesterday in court he saw his two the young daughters by a former marriage for the first time in several weeks. One of them is aged 14 and the other 9 years. Toank had closed and a trip to there became at. He sent asking him to some as mossible and a trip to the section upon their meeting in court, but the elder he ignored almost completely. He has acted in the same manner when the children visited him in the same as a condensation of his injail, and gives no explanation of his indifference toward the elder girl, who has been constant in her attentions to him upon every opportunity.

Four witnesses for the state were examined yesterday, being County Surveyor

Harriman, who testified to preparing diagrams of the house and grounds of the grams of the house and grounds of the resort where the shooting occurred; City Marshal Dan Reardon of Kaukauna, who was called to the house immediately after the shooting; Dr. C. D. Boyd, who testified as to the wounds of the murdered woman, and Undertaker Fargo, who testified to propaging the beds for who testified to preparing the body for burial, described the wounds and identi-fied the blood-stained waist and corsets of the dead woman. The examination of witnesses for the state continues today. Fred Schabo, the alleged paramour of the dead woman, was on the witness stand this morning and told the story of the shooting. He admitted that he struck Ross and knocked him partly through a window, and it was then that Ross began shooting. On cross-examination he told the story of his connection with Mrs. Ross, which began after she left her husband and was leading a dissolute life at Appleton.

### SCHOOL FUND INCOME.

Supt. Emery Apportions it Among the Several Counties. Madison, Wis., June 16.—State Super-intendent Emery has apportioned the amount of the state school fund income in the treasury on June 1, 1897, to the sev-eral towns in the state, as follows:

### BIG SALE OF IRON ORE. Thomas Bardon Purchases 225,000

Tons from the Pioneer Mine at Ely.

Duluth, Minn., June 15 .- [Special.]-Thomas Barden of Ashland, one of the managing directors of the Pioneer mine at Ely, is authority for the statement that the entire allotment of the Pioneer under the total number of institutions reportthe Bessemer ore pool, amounting to 225,000 tons, has been sold, the larger part within the past ten days. It was sold at

about \$3 a ton, the highest price paid for Lake Superior ore this season. This sale insures the operation of the mine for the balance of the season. Shipments are being made direct from the shaft, the stockpile of 160,000 tons remaining untouched. Mr. Barden looks for an increased demand for ore. He also says that the enterprise for the building of an independent regime of an independent regime of also says that the emerprise for the building of an independent railroad to the range is taking more definite shape and he is certain one will be built soon. Independent mine owners are back of the scheme,

### HARD TO GET A JURY.

Special Venire of Sixty Ordered in the Ross Murder Case.

was exhausted without securing a single one to sit during the trial. The lefense exhausted but one of its twenty-four peremptory challenges, the remainder of those examined being excused for cause. A special venire of sixty was summoned by the jury commission to appear at 2 o'clock today. It will be Wednesday or later before a jury is secured. Ross now announces that his plea will be self defense, though his actions since his confinement had led to the general belief that insanity would be his plea. He claims he will be able to prove that Schabo, his wife's alleged paramour, struck him and that his sister-in-law cried "Kill the ——," and that he fearing for his life drew his revolver and fired at Schabo, the shots going wide and inflicting wounds from which his wife died almost instantly and her sister about two weeks later.

### BANK EXAMINER'S REPORT.

Condition of the State's Financial Institutions Shown-Building Associations.

Madison, Wis., June 15 .- [Special.]-State Bank Examiner E. I. Kidd's fourth semi-annual report, made to Gov. ing to him to be 286, divided as follows: State banks, 130; private banks, 107; savings banks, 1; building and loan associations, 48. The aggregate authortion of private banks was \$1,125,986.26. The total assets of all banks reporting was \$43,062,139,14, of which sum \$11,-024,205.92 represented money of all kinds, and \$32,037,933.22 represented loans, discounts, real estate and all other assets. Of their liabilities, \$7,981,689.26 assets. Of their habilities, \$7,381,689,26 represented capital stock, \$2,667,083.59 surplus and undivided profits, \$31,090,160.90 deposits, and \$1,323,205.30 rediscounts and bills payable.

A comparison with the semi-annual report made December 14, 1896, tabulated from reports called for from the banks November 21, 1896, shows a decrease of two private banks, a decrease in capital Appleton, Wis., June 15.—[Special.]—
In the Ross murder case yesterday afternoon the entire panel of thirty-four jurors was exhausted without securing a single one to sit during the trial. The defense or hausted but one of its twenty-four personals of \$151,787,758.26. This comparison also shows an aggregate increase of son also shows an aggregate increase of resources and liabilities of \$1.529,-427.92. The cash reserve carried is larger than has been before reported, it being 35 45-100 per cent. of deposits.

The work of making the regular annual examinations of these institutions. nual examinations of these institutions is in progress at the present time and will be completed before July 3 next, the

close of the year.

The new state banks organized, with name, location and capitalization are as follows: Meinhardt bank, Burlington, \$25,000; Farmers' State bank, Darien, \$25,000; Bank of Hudson, Hudson, \$25,-000; Commercial State bank, Medford, \$25,000. Private banks organized were: Merchants' and Savings bank, Kenosha, no capital; Victor E. Huntzicker, Neilsville, \$20,000.

The capital stock of the following banks

was, upon application of the stockholders, reduced by act of the Legislature as follows: Citizens' bank, Whitewater, from \$75,000 to \$50,000; German American bank, Oshkosh, from \$150,000 to \$100,000

### FUTURE OF INSURANCE.

Wisconsin Commissioner Indulges in Some Prognostications.

Madison, Wis., June 14.-[Special.]-In his forthcoming report on life and casualty insurance companies Insurance Commissioner Fricke gives a treatise on the different systems of life insurance which will probably not be relished by the assessment and fraternal companies though he says he is not the advocate of any class or system of life insurance. ized capital of state banks reporting was 86,558,700, and the reported capitaliza- old line companies, and believes that a old line companies, and believes that a system will be finally evolved which will be both secure and reasonable in cost.

The report contains detailed state ments of the life insurance companies, casualty insurance and suretyship corporations, assessment life and accident associations and fraternal assessment orders of this or other states authorized to transact business in Wisconsin. The total number of these organizations is 137, divided as follows: Fixed premium (old line), 28; suretyship corporations, 5; casualty insurance, 18; assessment life, 26; assessment accident, 16; fraternal assessment, 44.

Growth of Life Insurance.

The growth of life insurance in the past twenty years is shown in compara-tive tables. In 1876 there were twentyfour companies doing life insurance business in the state with 23,489 policies and \$39,332,798 of insurance in Wisconsin. December 31, 1896, there were ninety-eight of these companies doing business in Wisconsin, with 197,037 policies and \$272,787,081 of insurance in force in the state. The business written in 1876 amounted to \$9,017,686; in 1896, \$46,511,869. The claims incurred in 1876 aggregated \$408,939; in 1896, \$2, 615,771.39.

The total receipts of the insurance department from January 7, 1895, to June

The following banks have gone out of business: The Exchange bank, Alma Center; The Exchange bank, Hixton.

The total number of banks which have

January 7, 1895, to December 31, 1895, to December 31, 1895, to December 31, 1896, to December 31, 1897, 1895, to December 31, 1897, 1897, to June 1, 1897, 161,318.77

ont parts of the state are quite numerous. The organization promises to be come a large one.

State Trust and Savings bank, West Superior, State Trust and Savings bank, West Superior, State Trust and Savings bank, West Superior, Commercial bank, Earu Claire, The edub has leased two and a half acres of ground at Brodhagen's Point, on the separate assets and liabilities of these institutions at the time of failure was \$176,790, with aggregate amount due depositors \$282,028.15. I am informed by the receivers of the two first posses, cooking tuensils and dishes. The house is only one mile from the village of Cecil and is easy of access both by boats and rigs.

PIONEERS TO MEET.

Winnebago County Society of Winnebago County will hold its semi-annual midsum and the points of the Pioneer's society of Winnebago County will hold its semi-annual midsumer reunion at Riverside park Wednesday, June 23. The Oskoso from Omno, Winneconne and other points are expected to farrive over and. Dinner will be served. of February it went into the hands of a receiver.

The Commercial bank of Eau Claire suspended during the panic of 1893, but reorganized by the depositors taking stock to the amount of 25 per cent, of their deposits. The continued depression in business and financial circles, to gether with unbusinesslike management, caused it to close its doors on January 7, 1897.

From information received through the courtesy of the officials in charge, I infer that from the nature of the assets the payment of any considerable sum as dividends to depositors of the two last

that from the nature of the assets the payment of any considerable sum as dividends to depositors of the two last named banks is contingent upon a marked improvement in business conditions and an appreciation in real estate values.

Under the provisions of Chapter 368, laws of 1897, the supervision of all building and loan associations doing business in this state devolves upon the bank examiner. Up to the present time forty-eight of these institutions have filed copies of their articles of incorporation and bylaws in this office, and in due course of time regular examinations and reports as to their condition will be made, as required by the act above named.

COOLING BUILDINGS.

The Apparatus Used for that Purpose—Its Importance Industrially Considered, When the important part is considered which the manufacture and sale of heating appliances for buildings play in the contract of the company or association be maintained and the policy-holder provented.

Life insurance can properly be divided only into two classes—fixed premium and flexible premium is factly and calculate the premium is faced the contract is absolute, and it follows as a natural consequence that upon each contract or policy issued there must be an accumulation or reserve which will without question carry the contract to maintain the contract of the fixed premium complex of their articles of incorporation and bylaws in this office, and in due course of time regular examinations and reports of the company or association be made, as required by the act above named.

insurance policies, by whatever company or association issued, and that the reserve necessary be carried as a liability and deposited in securities with the government. With such national supervision the law could provide that in the event of an impairment of the reserve, instead of throwing the company into the hands of a receiver, the national commission shall calculate the amount necessary to make good such impairment and order an assessment upon the policy-holders. With a national department to protect the insurance interests there would be need of but few laws to give absolute security to policy-holders, and it would make failures of life insurance companies and associations impossible.

Kaukauna Man Accused of Murdering His Wife and Her Sister.

ROSS TRIAL BEGINS.

Appleton, Wis., June 14.-[Special.]-The trial of Porter Ross of Kaukauna for the murder of his wife and her sister, Kittie Duprey, at a place in Kaukauna, March 8, began in the circuit court here this afternoon. The case will be fought vigorously by the defense, the plea of temporary insanity being urged.

Difficulty will be experienced in securing a jury, as the defense has twenty-four peremptory challenges, besides unlimited challenges for cause. It is probable that a jury will not be secured before Wednesday. The jury commissioners met today and drew an extra panel of fifty jurors as the present panel is sure to be exhausted. Kittie Duprey, at a place in Kaukauna,

## LURED TO HIS DEATH.

C. D. Collins Stabbed and Robbed at St. Louis by His Partner in Business.

St. Louis, Mo., June 16 .- C. D. Collins wealthy Tennesseean, was lured to his probable death Tuesday night by a man e had known since boyhood and with whom he had been on terms of intimate riendship for six years. His assailant is Martin Ensley of Memphis, whose father, Col. Enoch Ensley, was one of the most prominent mine owners and planters of the South.

planters of the South.

Ensley induced his companion to visit
Meramec Highlands, a summer resort
fifteen mules from here. On the plea of
illness he led him to a clump of busines
about seventy-five yards from the hotel.
There, stepping behind his victim, he
dealt him blow after blow on the head
with a hammer he had purchased, presumably for the purpose of committing
the murder.

When the pounding with the piece of steel had reduced Collins to a state of When the pounding with the piece of steel had reduced Collins to a state of insensibility Ensley stooped over the prostrate body and tore from a vest pocket a roll of bills that amounted to \$6000. He darted up the hill and passed the money to an accomplice, who is believed to have escaped on a trolley car. Then the would-be murderer ran down the path leading to the Meramec river. Two men saw the terrible assault and the robbery and witnessed the transfer the robbery and witnessed the transfer of the money and the escape of the principal and his accomplice. Charles He "Touched" Several Mukwonago Men Feiter, a baker employed at the inn, and a gardener, who had been at the inn, and a gardener, who had been engaged about the grounds a fortnight, were the witnesses. They ran and notified Nightwatchman Busch and told him the story. When the nightwatchman reached the spot he found Collins lying flat on his face greaning, but unconscious. Blood was flowing from several wounds on his scalp, the left ear being nearly torn away. He was removed to Kirkwood, where a physician dressed his wounds.

Ensley, after leaving his victim, had run to the fence that skirts Kirkwood track and then he passed the money to his confederate. Ensley did not try to board the car. Instead he ran along the board the car. Instead he ran along the fence and darted down the hill leading to the river. Arriving there he followed the stream for nearly a mile until he reached a shanty occupied by a boatman. He pounded vigorously upon the door, and when the old man opened it he exclaimed: "I've been robbed and my friend has been murdered. Look, I am covered with blood."

The old man hastily dressed, and an swering the stranger's appeal for assistance he accompanied him up the river and then up the hill toward the inn. Ensley evidently expected to find the body where he had left it and evinced great surprise when he saw people running around.

Ensley is Placed Under Arrest "Here is a man you want to tell your story to," the old boatman said as some-one came up. The arrival was Night-watchman Busch. To him Ensley repeat-ed the story he had told on the river

bank.

"What's your name?" asked Busch.

"Martin Ensley," was the reply.

"You are the man I am looking for,"
said Busch. "I want you for murder,"

Kirkwood and it was broad daylight when the prisoner was taken to the room on the third floor of the north side inn and brought face to face with the wounded man, who was tossing on the bed.

"Is this the man who struck you?" asked a deputy.

The outbreak of the fromble between the trouble between the tro asked a deputy.

Identified by His Victim. Collins looked at him steadily. "Yes," said he. "Ensley, how could you do it," he added.

he added.

The prisoner looked down, muttered something about having been assaulted as well and was led away. He was then driven over to Clayton.

Collins, the wounded man, has a stable here at the fair grounds, but he runs the horses under an assumed name. He has always had a penchant for thoroughbreds, but his parents, who are prominent in Nashville, objected to his owning race-horses and so did his wife, who is from Cleveland. This spring Collins decided to try his luck on the track. He was offered a good price for a hotel he owned fered a good price for a hotel he owned in Nashville—\$25,000—and closing the bargain made arrangements for placing a stable at one of the tracks.

In order to be at perfect liberty he sent his wife to her relatives in Cleveland, and then unfolding his plans to Martin Ensley, his boon companion, and asking him to accompany him, he purchased the two horses which had run at Memphis and left with them for St. Louis, Ensley accompanied him. Collins had \$15,000 at his command and Ensley \$1000 or so. The arrangement to the state of the sta

Ensley, a man of something more than national fame and regarded until his death, three or four years ago, as the richest individual in the South. Col. Ensley was a leading spirit in the devel-Ensley was a leading spirit in the development of the mineral resources of the South. He was largely interested in the Tennessee Coal and Iron company, established the steel works at Bessemer, Ala., helped make Sheffield, Ala., a great mining place; founded several towns, one of which bears his name; owned several big cotton plantations and was an intimate friend of Andrew Carnegie.

Ensley had two children—Martin, who is almost 32, and Lady, a year or two younger. For the latter he named the Lady Ensley mine, one of the largest in Alabama. Martin occupied a high position in the social circles of Memphis, Nashville, Birmingham and other Southern cities during his father's life. He was married to Bettie Selden, daughter of M. L. Selden, a wealthy Memphis man.

for divorce on the ground of non-support. Since the divorce Martin has divided his time between Memphis, Nashville, Birmingham and other cities where his father had interests.

Valparaiso, Ind., June 16.—Miss Laura Marnell, a young woman of Nebraska City, Neb., came here a week ago today to attend college. She secured a room in Commercial hall, and, not feeling well, kept close to her room, forming no acquaintances and not matriculating, so she was not known at the college. For a day or two a disagreeable odor was noticed in the building, and when it was traced to her room, the door, which was locked on the inside, was broken open, and her partly decomposed body found lying on the bed. The doctors think an overdose of morphine was the cause of death.

Paris, June 16.-The Eclair this morn-

St. Petersburg, June 16.—John W. Foster, the United States commissioner, started for London today. It is understood that his mission has been successfully accomplished.

Daniel O'Connell is Dead. London, June 16.—Daniel O'Connell, son of the Irish liberator of the same name, is dead.

From the Record and Union, Rochester, Minn.

Mrs. Elizabeth Pratt, wife of Mr. John
Pratt, one of the oldest settlers in Olmstead County, Minnesota, for many years
has been painfully afflicted with rheumatism. Mrs. Pratt is well known in the
vicinity of Viola, having during one administration held the responsible position
of postmistress. She tells the tale of her
affliction and subsequent restoration to
health, which is printed in order that
others similarly suffering may read and
adopt the same remedy she did.
Viola, Olmstead Co., Minn., Aug. 24, 1896.

"A little over ten years ago I discovered
that the joints of my fingers were enlarging, and very sore. I consulted many ing, and very sore. I consulted many physicans, with some slight relief at times from pain, but the joints grew larger and larger, and my neck, shoulders and limbs were so stiff that I could not move them without great pain. My toes too were swellen out of all shape and my

ing to directions until I have taken alto-gether about three dozen boxes. My fingers are now straight and flexible, and the joints reduced to their normal size, the rheumatic pains are almost gone, and

now, though I always keep Pink Pills by me, I never use them unless I catch cold, or get wet through. I am willing that this testimonial shall be published, in order that the extraordinary curative powers of Dr. Williams' medicine may be known to rheumatic sufferers. known to rheumatic sufferers.

(Signed) "MRS. E. A. PRATT."

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the

blood and restore shattered nerves. They blood and restore shattered nerves. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood, and restore the glow of health to pale and sallow cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. Pink Pills excesses of whatever nature. Pink Pills are sold in boxes (never in loose bulk) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Company, Schenectady. N. Y.

### A PRIEST'S TROUBLES.

Father Hellstern of Barton is Accused of Having Resisted an Officer.

Rev. Father Herman Hellstern of Barton was bound over to the circuit court of Washington county by Justice Root of Hartford, this morning, on a charge of resisting an officer. The preliminary examination was waived. Bail was fixed at \$100, which was immediately furnished by two residents of Barton. Father Hellstern was arrested last Thursday, when he was taken before the said Busch. "I want you for much, and he seized the prisoner.

Ensley protested his innocence, but was taken to the inn and placed under guard. All this occurred about midnight. At 2 this morning two deputy sherifis and the seized at the se West Bend issued a writ of replevin to recover possession of a dog which was supposed to be wrongfully held at the parish house in Barton. Coffee is said to have been introduced into Europe by Dr. A. Rauwolf, a German physician, about the middle of the sixteenth century. He got it from Arabia, after it had passed into that coun- I try from Abyssinia. It is a pity, for ffee is one of those seductive lants which do harm under the disguise of seeming to do temporary good. It is a nerve poison on the same principle that alcohol is, and opium. Hence the public are to be congratulated on the rospect of the new food drink, Grain-O, taking its place. The latter is prepared from pure grains, is nourishing, sustaining and healthful, and never affects the nerves. Those who have tried Grain-O say nothing can induce them to resume the use of coffee. Good for children as for adults. Cost, one-fourth that of

the duchess cannot bear to hear the words "nailist" or "bomb" uttered in her presence. She spent the night before the Csar was buried kneeling by the coffin. believe that the earth is shaped like a top, with its broad flat end at the North Pole, and its point at the South. The fact that geodesists have taken all their observations at the North would account for their obtaining too high a ratio for the fattering. not see across the room. I was told that I had nervous prostration and that my blood was bad. I tried medicines with only temporary relief. One day I was told to take Hood's Sarsaparilla and I got six bottles. I began taking it and soon commenced to improve. This encouraged me to continue. I had

FOUND THE RIGHT KIND of medicine. I am now completely cured. I have gained in flesh and weigh 158 pounds. I can eat and sleep well. I rec-ommend Hood's Sarsaparilla to all sufferers and believe it saved me from the insane asylum." Mrs. F. F. FIRRAR, 1023 North Burdick street.

### BOTH BARRELS WERE LOADED.

Indiana Hunter Looks Into the Muzzle o

a Gun and is Now Dying. Another illustration of the ever-convincing plan of looking into the muzzle of a shotgun to be able to conclude whether or not it is loaded has been brought to notice. John Porter, Jr., of Newpoint, east of Greensburg, Ind., on the Big Four, was out squirrel hunting. He met a friend and talked a while and afterward was not sure whether he had loaded the gun. Instead of putting his ramrod into it to find out, he pulled back Trobably no woman in any station of 'ife has touched on more tragedies than the Duchess of Saxe-Coburg-Gotha. As a young girl she had the grief of seeing her eldest brother die of consumption, and to her fell the task of consoling his betrohted—Princess Dagmar of Denmark. She had already been a happy wife and mother six years when came the terrible tragedy of her father's death. Even now the duchess cannot bear to hear the words "nanilist" or "bomb" uttered in heresence. She spent the Cast was not sure whether he had loaded the gun. Instead of putting his ramrod into it to find out, he pulled back the hammer so he could see the light if there was no load in it and put his eye over the muzzle. His dog happened to touch the trigger and both barrels were discharged. He had taken his eye off the gun, else his entire head would have been blown off. As it was, his left eye and cheek were torn entirely out. He will die.

Native Africans Injured by The bulk.

The bulk of the later authority is to the effect that civilization at present harms the negro by exposing him to dis-cases he never knew before. In his sav-age state the black man goes naked and becomes strong by a constant contact with the fresh air. The first thing done for the happy black heathen is to make him wear uncomfortable clothing, in which he sweats and breeds poisonous microbes with horrible fluency. He never changes this clothing, and when he gets wet he knows no better than to dry them by sitting close to the fire. In this way he contracts fever, and undermines an otherwise robust constitution. For this reason many magistrates hold the opinion that from the adoption of civilized cus oms by the natives, and the consequence of disease, there will result check to the present rate of increase among the blacks. The death rate among the so-called

those in the savage state, owing to reasons above given; but here again we have to remember that the savage state referred to is one protected by English aws, and the Christians referred to are such as have not learned how to preserve their health made of the protections between the protections and the change conditions of heir health under changed conditions of fe. With increased pressure of popula-ion in South Africa, and increased diffiers, Chicago, for one of these beautiful souvenirs.

The number of dark-haired girls who get married greatly exceeds that of the fair ones, a statistician tells us, and in order to prove this is owing to man's choice, not the redundancy of bruneites, he proceeds to show that an overwhelming majority of those women who "live and die unmarried" have fair hair and blue eyes.

We sell the best 98c ladies' Kid Glove We sell the best 98c ladies' Kid Glove their neighbors; today they send out their neighbors. silently this great revolution is going on, making from day to day more real the rule of the white man in Africa.—Har-

per's Magazine. For Baldheads.

Men who are predisposed to be bald will not be able to take much consolation from the discovery by M. Sabouraud of a microbe, which he terms "the bacillus f seborrhea, found in rounded masses the upper third of the hair follicle He asserts that this bacillus affects th 'sebaceous glands of the scalp, where produces depilitation, or baldness;" i other words, the affected follicle dies He adds that scales and crusts that as ormed on the "seborrheal head are do o the superposition of other microbe but here they do not, as a rule, cause acne." There is a little grain of com-fort in this fact. The mechanism by which the bacillus causes baldness, he which the bacillus causes baldness, he admits, is not understood, but, "anatomially, it leads to progressive hypertrophy of the sebaceous glands and an exudation of leucocytes around the papilla of he hair." It is suggested that, although there has been a great deal of mystery is to the cause of baldness, it is somehing to know that the actual destruction of the hair is due to a bacillus, and even the storned perchange much of the hief may be prevented.—New York

now for the yarding of fowls that some plan for properly putting up the fence important. Ordinarily this fencing is slack and very untidy. It needs to be thoroughly stretched. To do this the plan shown in the sketch may be

DEVICE FOR STRETCHING WIRE FENCING. used to advantage. A strip of board has four or more hooks arranged on one —A novel form of punishment which it is said is being perpetrated in Porto Rico is known as the componte. It consists in beating the individual with a "manate" A pulley attached to the following post until he faints. Sometimes, however, it draws the netting tightly past the preside to hold the roll firmly and to ceding post, when it is secured firmly the next post.-American Agriculturist.

> Don't Overwork the Boys. pose labor upon boys which should be the work of men. Now, the physical energies of a growing boy have already an important work allotted to them, that of building up a strong, healthy organization. The vital force canno e exerted in making muscles and bone and at the same time be expended in a hard day's work in the corn field. We have seen many instances of boys be ing stunted and dwarfed, because they were overworked by an inconsiderate father. When work is crowding in the fields there is strong temptation to utilize every muscle, the willing boy is imressed into service to provide means for the growing hogs, at the expense of his own growing body. This is all wrong. A farmer would not for an instant think of harnessing his 6-months old colt and hitching him to a plow, and why should not the growing boy have

-Market Basket. Heavy Soil Best for Fruit. Owing to its earliness and the ease with which it is cultivated, it was nataral that for a long time sandy soil should be preferred by the fruit grower. But it is becoming understood that well underdrained, heavy soils can be worked nearly or quite as early as sandy soils, and these are much richer in the mineral elements of plant food that are essential in perfecting fruit of any kind. In many of the winter fruits the easiness of ripening on light soil becomes a disadvantage, as it makes late fall and early winter fruits of varieties that, when grown on heavier soil, should be kept in good condition until

the same thoughtful consideration?

Don't overwork the boys. They are all

what are called the non-sitting varieties. There are a few days rest, generally, though sometimes not more than one or two between different settings. It is really surprising to see a are usually of small breeds-producing her weight in eggs within three or four weeks. For its bulk, the egg furnishes

Water in which soot has been dissolved has always been a favorite with florists for manuring plants, and also at the same time keeping off injurious insects. It has a slight smell of sulphur, to which doubtless its power to repel injurious insects is due. Some ammonia in the water makes it much more effective as a fertilizer. The soot is pure carbon, and has considerable power to ly made and easy to measure land with. absorb ammonia, which it will give out only as the roots of plants surround the

Straightening Crooked Streams. It does not matter much how crooked the little stream may be that meanders through pasture lands. But if it is to to the wheel by a pin at the center. It be cut for hay, or especially if it is desired to use the land for plowing, it is important to have the brook straightened, so as to take as little room as possible. In many places a straight, deep ditch, cut to lead off a stream that only runs in the spring, may be profitably turned into an underdrain. The conrenience of plowing over it and the land saved will make it pay.

> Whitewashing the Henhouse. It is hardly worth while to paint the henhouse, which is usually a cheap structure, made warm and comfortable, but not stylish. But at the time of spring cleaning it should never fail to get a good whitewashing, both inside and outside, except the roof. It will destroy all the smaller lice and all the eggs that would hatch if this or oil were not applied to them. The whitewash is an excellent thing in winter also, as it makes the henhouse lighter.

Many horses, especially if fed grain, eat it much too fast to get the most good from it. A good way to compel the hoops for the doors. A silo 16 feet | slow eating is to mix with the grain a high would need few clean pebbles, that will oblige the

Making Horses Eat Slowly.

cut. The staves of of cut hay, or twice its bulk of straw. Farm Notes. Keep the very best of the hay for the

mendation in a horse. With all growing stock increase the saw can be insert-feed as the animal requires it. Hogs will keep healthier if too many

More horses are injured by hard driv-

ing on an empty stomach than in any other way. By not allowing the weeds to grow there will be no necessity for killing

them later on. Be on the lookout for the white caterpillar. They are the parent of the cab- trees in the woods, on the end of which

Have everything in readiness so that the harvesting can be done as soon as the crops are fully ready.

As a general rule the earlier varieties of grain, fruits or vegetables are not as productive as the later ones.

The oftener the grass is cut the greater the injury to the weeds, as they are thus prevented from seeding.

Adjourned Over Good Friday. Some years ago court was in ses sion during holy week in Charleston.

On Thursday James L. Petigru re-

quested that the judge would adjourn court until Saturday, "What for?" asked the judge "Because," said Mr. Petigru, "to-mor row is Good Friday.'

"I know nothing about Good Friday," said the judge. "If you do not, may it please your

honor," said Mr. Petigru, "there are a number of persons in this community with staples and the work advanced to who do. The Episcopalians, the Roman Catholics and the Lutherans together form a large part of the inhabitants of this city and Good Friday is a day sacred to them." "Well, sir," said the judge, "I have

nothing to do with this and the court will be held." "You will hold it without lawyers

then," said Mr. Petigru. "Then, sir, the cases will be called and the lawyers must take the conse quences if they are not present." "Do I understand, your honor, that

you will hold court on Good Friday? "Yes, sir," said the judge. 'Then," said Mr. Petigru, "you will be the first judge who ever hold court on Good Friday since the days of Pon-

This was too much for the judge and he adjourned court until Saturday .-Savannah (Ga.) Press.

A Pretty Story of the Kaiser. A pretty story, savoring of the ro mantic, is told in the French press

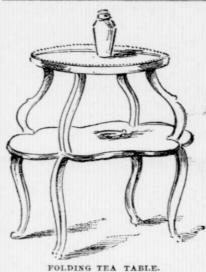

about the Kaiser. Recently his majesty went to the Berlin barracks alone. The corporal on guard recognized the the material we have to make men of. Kaiser immediately, and saluted him. The Kaiser was pleased, and, approaching the soldier, said: "Why do you look so sad, corporal?" The corporal did not reply. The Emperor then asked if he was disappointed in love. At this the corporal found his tongue, and replied that he wished to marry Marguerite, the daughter of the ser geant-major, but that her father would not give his consent until he became a sergeant. "And do you love her very much?" asked the Kaiser. "Oh, yes, was the reply. "Then," said the Emperor, "go and tell your future fatherin-law that William II. makes you a

No breed of hens will lay an egg each therapeutic value to those who attempt that ought to prove of some suggestive day for any very long time without a to prescribe remedies for this dreaded vanilla, and bake in deep pie pan. period of rest. This is true even of but apparently inevitable affliction.

Tea Table that Can Be Folded. An odd piece illustrated herewith is a folding tea table which shuts up, and when not in use can be made to stand against the wall, occupying only a few inches of space. Open, it forms a useful-size tea table, quite firm and subsmall hen-and some of the best layers stantial. This can be made in any wood, but perhaps looks the best in mahogany, inlaid with satinwood. There is also a game table arranged in the the most nutritious food that a man can same way, with packs of cards, drafts and the other et ceteras pertaining to popular games, ingeniously hidden under the green baize, which lifts up in a similar manner to the lid of a writing desk. This forms the very handlest of

card and game tables, as it can be so readily moved from one room to an-

How to Make Coffee.

If you have not a regular coffee strainer, make three or four cheesecloth bags of a size large enough to accommodate the amount of coffee that you use, allowing for swelling of the grain and for a drawstring to tie. Wash and boil the bags after making, so that not a taste of the cloth remains in them. Fill the bag with the coffee, and have in a teakettle, boiling hot, exactly the amount of water you want to use for your coffee. Rinse the coffee pot out with hot water, and put the bag in the pot and pour over it the boiling water. Place the pot on the back of the stove, where it will remain just below the bubbling period for at least ten minutes. The result will give you clear, in as shown in the mix the meal with three times its bulk er is egg necessary. Empty the bag ach receives it without distress. as soon as the meal is over, as there will be no more good in the coffee, and per package, sold by all grocers. wash the bag in hot water; shake free of all the grounds and hang in the air to dry. Have at least four such bags, and keep them and the coffee pot scrupulously clean. To boil coffee is to ruin its flavor.

The Clothesline

How often a woman has felt heart. greatest comfort discovery of the age. sick, after doing a large wash, to find the line broken as the nails came out that tried to hold it, and all the tried, aching feet. Try it to-day. Sold clothes had to go back in the tub. Buy by all druggists and shoe stores. the best line, then take the best of care mail for 25 cents, in stamps. Trial of it, taking in as soon as the clothes package FREE. Address, Allen S. Olmsted, Le Roy, N. Y. are dry. For from 3 to 5 cents you can buy large, strong clothes hooks, with four screws to fasten. Attach a few of these on the buildings, or if you have large trees it won't harm them to fasten the hooks on these. If the men folks are not sufficiently interested to do this for you, be independent and do it yourself. Next, have good, strong clothes poles ten feet long. The best are boards two inches wide. If you can't have these, you certainly can find long, slim you can have a crotch left, and these will answer nicely.

The Cooking Range.

If the range is kept in good condition, it must be often blackened. This is necessary, not only for the preservation of the material, but also as the requisite of a brick fire from a moderate amount of fuel. Yet blacking im plies dark marks upon your dishes set on the warming shelf, and these dark rings are transferred in time to the dining-room to appear where the dish has been placed upon the tablecloth. A tin plate set upon the shelf, upon which the dish may rest, is the only sure way to prevent the transmission of the ring of black. The wiping off of plates of platters at the last moment is not al ways, even in the most orderly kitch ens, thorough.

Chocolate Sauce for Ice Cream. Chocolate sauce, to serve with ice cream, is made by covering a quarter of a box of gelatine with half a cupful of cold water; soak for half an hour Put a pint of cream in a double boiler to heat; add to this two ounces of grated chocolate; cook until smooth, then beat well with a cream whip; add half a cup of sugar and the gelatine; strain; add a teaspoonful of vanilla and set aside to cool; when cool you may stir in whipped cream or serve just as it is. -Ladies' Home Journal,

A Nice Breakfast Dish. Soak over night a piece of salt pork,

not too fat. Run it through the meat chopper, add some herbs and pepper Make a good biscuit crust, using baking powder. Roll out rather thin, cut into rounds or squares; put some of the mince between two of the pieces, wet the edges and pinch together to keep in the gravy, which may flow from the meat. Bake it in a hot oven for half an Tried Recipes.

Potato Rolls-Five large potatoes, nashed while warm; add one quart of flour, salt to season, one teacup of milk. Stir until light, make into rolls, let it stand two hours, then bake.

Poor Man's Pudding-Half cup of rice, half cup of raisins (seeded), a little butter cut into small pieces, sugar and cinnamon to taste, two quarts of milk. Bake slowly in moderate oven. Baked Custard-Six eggs, well beaten (whites and yelks), to a quart of milk, one-third of a cup of sugar, flavored with vanilla or rind of lemon. grated. Bake in slow oven, in a pan of

Green Peas-Shell half a peck of green peas, put in a saucepan, cover with boiling water and cook until tender. Drain the peas, add one-half teaspoonful of pepper and one tablespoonful of butter to a pint of peas and serve in a hot, covered dish.

Cocoanut Pudding - One cocoanut, grated, three eggs, one cup sugar. Parboll cocoanut in its own milk; add eggs, well beaten, then sugar, and a little citron cut into small pieces; flavor with Serve with cream, if preferred.

Salads as Medicine.

Each of the various salads possesses a medicinal property of its own, thus affording a possibility of absorbing a medicine, and, at the same time, a dainty article of food. For example, lettuce contains a well-known narcotic principle, opium, and may, therefore, be taken for insomnia. Chicory has laxative properties. Watercress is a tonic, excitant and purifier. Celery, a stimulant, will do good to the depressed. Whatever faith one may have in these marvelous properties, it is easy enough to prove them. erties, it is easy enough to prove them. The trial can be repeated daily, without danger, and with pleasure to the palate.

A Stout Backbone

A Stout Backbone

Is as essential to physical health as to political consistency. For weakness of the back, rheumatism, and disorders of the kidneys, the tonic and dietetic action of Hostetter's Stomach Bitters is the one thing needful. The stomach is the mainstay of every other organ, and by invigorating the digestion with this preparation, the spinal column, and all its dependencies, are sympathetically strengthened. The dyspeptic and billous will find it a pure vegetable stimulant and tonic. peptic and billous will not table stimulant and tonic.

Fasting Cures His Rheumatism. John Lynch of Eugene, Or., a suf ferer from rheumatism, has discovered that fasting is a cure. By abstaining from food for a week or ten days pain leaves him and does not return for some time. He has fasted five times and the result has been the same in each case. The longer the fast the longer the cure.

Are Particular Buyers.

The leading steel men agree that the most particular buyers in the country are the Winchester Repeating Arms Co., New Haven, Ct. This company will only accept the most perfect of selected lots. Such information is not surprising to any one who owns a Winchester gun, for its strength and fine finish is very apparent. The Winchester are just as particular about everything that is used in making guns and ammunition as they are about guns and ammunition as they are about steel. For this reason when you but when you buy Winchester goods you can be sure of getting the best in the world. They cost no more than poor makes. Send for a large illustrated catalogue free.

**BUFFALO BILL.** 

A NOTED MAN'S OPINION ON A SUB-

JECT OF VITAL IMPORTANCE.

He speaks from experience. His life, his knowledge

lend weight to his statements.

If there is a man in America to-day, whose opinion of that which has to do with the Indians and their habits is of value, it is that of the Hon. Wm. F. Cody (Buffalo Bill). The years of his life spent with them as a government scout and his later life of success, combined with the respect and admiration felt for him by the entire world, make his words an unquestionable authority, on any thing to do with this subject.

When such a man as this, in times of sickness resorts to medicines and obtains relief by their use, that are of nature's own brewing, made by nature's own children—the

ing, made by nature's own children—the Indian—from her all powerful roots, barks and herbs, as they themselves gather them, it would seem that the example he thus gives to the world should be followed and profeted by.

Note what he says in his own words con-cerning the wonderful results to be obtained by the famous Kickapoo Indian Sagwa:— "I have known of its virtue for a long

of the Indians and his unimpeachable integrity
