CONTRACT NOT YET LET.

Omaha Man's Bid for the Historical Library Building will Probably be Accepted.

Madison, Wis., July 28.-[Special.]-The contract for the completion of the historical library building will probably be awarded this afternoon. The commission has been waiting all the morning for answers to inquiries sent out concerning the responsibility of Contractor Johnson of Omaha, who has the lowest complete bid of \$295,133.07.

Some pressure has been brought to bear to have the contract kept within the state, especially in view of the fact that the J. G. Wagner company of Milwau-kee is but a few hundred dollars above the Omaha man. The latter's bid, how-ever, includes everything called for by the specifications and if satisfactory re-plies are received to the inquiries concerning his responsibility he will probably get the contract.

The commission was in session all the afternoon and until late in the evening considering the bids. Of the forty-eight submitted only eleven were for the completion of the building and it was at first proposed to make combinations of some of the partial bids and see whether a e Bank of Late of the partial bids and see whether a total could be secured which would be under the lowest complete bid. It was finally decided, however, to consider only the bids for entirely completing the building ready for occupancy. Several of these were very close, but there was a wide range in the total; the difference between the highest and lowest was \$83, 528.93. After considerable discussion the commission decided to defer the awarding of the contract until today, in

DOING HER JUSTICE.

Juneau Woman Awarded Part of Her Late Husband's Persion. Juneau, Wis., July 28.-[Special.]-The general deficiency bill passed b Congress last week contains an appropriation for the payment of \$4000 to Mrs. Joseph Lalone of this place in part pay Joseph Lalone of this place in part payment of a judgment recovered by her in the United States Supreme court against the Eastern district of Wisconsin, to government of the 30th day of November, 1896. The whole amount of Mrs. Lalone's judgment is a little over \$10,000, but her attorney, James E. Malone of Juneau was given to understand that

of Juneau, was given to understand that she would have to wait at least one year yet before Congress would provide by appropriation for the remaining \$6000.

The judgment was recovered in the celebrated Lalone pension case, which has been pending in the courts since 1888. In April, 1880, Joseph Lalone, an ex-soldier and husband of the plaintiff, filed a claim for a pension which was allowed. in April, 1888, in the sum of \$5268 and allowed the pensioner \$30 per month.
On November 8, 1888, the pension the Badger Paper company were obtained the United States circuit court for the Eastern district of Wisconsin to get back the money which had been paid to Lalone. A great many days were taken up in the hearing of evidence be-Lander. Lalone was a Wisconsin sol-dier and sustained injuries in the service which brought on paralysis. The department placed an examiner in the field who out a case to the effect that Lahne received his injuries by falling from a wagon after the war. The government proceeded against him, attached the farm purchased with his pension money, and when the court decided against him the farm was sold and the money turned over to the United States treasury.

Last November the United States Supreme court decided that the lower court erred and that he should receive a pension. Shortly after the case was decided against him in the circuit court, Mr. Lawhich brought on paralysis. The depart-

LEGISLATIVE CLERK'S ANXIOUS. Salary Law Does Not Provide for

Traveling Expenses. Madison, Wis., July 28.—[Special.]—It has been discovered that the capitol employe salary law passed by the Legislature last winter does not make provision or the payment of any expense accounts for the payment of any expense accounts, and as some of the clerks and assistants in the different departments have to do considerable traveling in the performance of their duties, notably in the offices of the dairy and food commissioner, bank xaminer and railroad commissioner, a erious question is raised as to how these

erious question is raised as to now these xpenses are to be paid.

The law of 1889 fixing these salaries rovides for the payment of expenses in the same section, while in the law passed ast winter nothing is said concerning ex-penses, and a grave doubt arises as to whether the law of 1897 does not repeal this provision of the old law. The ques-tion has been submitted by the secretary of state, who audits the accounts, to the attorney-general for an opinion, which is anxiously awaited by several of the em-ployes who have during the past month advanced their expenses out of their own pockets, expecting to be reimbursed by

CHEATED JUSTICE.

Lancaster Man Charged with Horse Stealing Takes His Life.

Lancaster, Wis., July 28.—[Special.]—
Rudolph Paetzer committed suicide in
the county jail yesterday by taking arsenic. He had been arrested for horsestealing and was to have had his hearing today. He took a large dose of
poison at 11 a. m. and died at 9:30 p. m.
The physicians did not learn of the
poison having been taken until about six
hours after it had been swallowed. Paetzer was a German who lived in Bloomington, Wis., and previous to his recent
arrest had borne a good character. He
leaves a wife and two children. Stealing Takes His Life.

CHARGE WAS GROUNDLESS.

Discharged. Spring Valley, Wis., July 28.—[Special.]—Albert F. Brown of this place, who was arrested Monday by the sheriff who was arrested Monday by the sheriff from Stillwater, Minn., on a charge of murder committed at Lake Elmo last August and lodged in jail at Stillwater, is back home, clear of suspicion. There was no foundation for the charge.

DRY KILNS BURNED.

Merrill, Wis., July 28.—[Special.]—the dry kiln of the H. W. Wright Lumber company was burned yesterday. The loss will be about \$8000. Mr. Wright, president of the company, is in Milwau-

Waupaca, Wis., July 28.—[Special.]—Prof. F. E. Doty, who has been principal of the Waupaca school for three years, has been granted a release on the fourth year to accept a similar position with the Sparta high school, to supply the place made vacant by Prof. J. W. Livingston.

Burnett Junction, Wis., July 28.—[Special.]—H. Mieskee, a much-respected citizen living near this place, died after a lingering illness at the age of 68 years.

the cause of the Redmond league.

MURDER AT CLINTON.

John Nelson Believed to Have Been Assaulted and Thrown on the Railway Track.

Clinton Juction, Wis., July 27 .- [Special.]-John Nelson, a Swede, aged about

the engine. It looks as if it had been made by the end of a coupling pin. Nelson's clothes and pieces of his satchel were strewn over the track and he was found in the ditch beside the track.

The grass from the track to the ditch shows evidence of a struggle. When found he was still breathing, but died soon after being brought to Clinton. A

suspicious circumstance was the fact that no money was found in his pockets, al-though those who saw him last night say that he was in possession of some \$15 or \$20. He was a farmhand and a favorite in the community.

A coroner's jury was impaneled this morning by H. N. Cronkrite and is still investigating the case. District Attorney W. A. Jackson of Janesville is also on the ground. The inquest has adjourned until Thursday morning.

"Last November 1 concluded to investi-gate the cause of the exciting reports of big gold finds up the river and went on a three days' journey to a new settlement called Dawson City, the center of the Klondike interests. Big strikes were reported there, but there was no ground to be had except it was bought or leased. ported there, but there was no ground to be had except it was bought or leased. Every foot in the gold district had been staked off and duly claimed. I formed a partnership with three friends and we paid \$6500 for a claim and they worked it. I worked on another claim on shares. From January 20 to May 17, we had taken out \$49,000 of dust. Half of this went to claim men, which gave us about \$6000 each for our four months' work. "Later we four bought a claim for \$35. "Later we four bought a claim for \$35,000, paying half down, and we think we will have it paid for in a short time. It is now 'make or break' with me. I hope for good luck and will remain here an-

WAS FULLY INSURED.

List of Companies Interested in the Kau-A schedule of the amounts and the co from J. Stilwell Vilas, secretary of the company. They are all of the American Lloyd's line, as follows:

Lloyd's line, as follows:

Mercantile, \$4000; North River, \$7500; Schulkill, \$5000; Globe, \$19,000; New York and Boston, \$8000; American Lloyd, \$64,500; Great Western, \$15,000; Empire City, \$5000; Merchants and Manufacturer's \$5000; New York, \$20,000; Colonial, \$10,000; Protective, \$5000; Enderwriters, \$10,000; Washington, \$7000; Broadway, 5000; Traders' Fire, \$7500; Agricultural, \$6000; total, \$200,000.

The Badders' now organized as followers. The Badger is now organized as follows

H. A. Frambach, president; Joseph Vilas, vice-president; J. H. Frambach, treas-urer; J. Stilwell Vilas, secretary. This company was first organized in 1881. with the above as incorporators, except J. H. Frambach. During the last ten years they have paid in wages to their employes in this city the sum of \$648,000, and in revenues to the city \$30,000.

The Badger had not long since expend-

ed \$2500 for an automatic sprinkler, intended to be an almost sure protection Milwaukee. against fire, but in this case it was utter-ly useless, as the mill was not running. Undernouth this mill was one of the finest artesian wells known in the state. It was bored through the solid rock, a ten-inch hole, over 800 feet in depth, not one foot of earth was found in all this distance. It affords a ceaseless flow of the clearest and purest water.

THE CROP OUTLOOK. La Crosse Man Visits the Hinnesots

La Crosse, Wis., July 27.—[Spec.al.]— classify them, which is the contract is awarded. the S. Y. Hyde Elevator company, accompanied by C. E. Bennett, superiatendent of the company's line of ele-vators, returned to the city after a week's trip over the Southern Minucsota division of the St. Paul road. They started out to investigate the condition have been previously sent out. President Hyde places the damage of the entire crop along the Southern Minnesota at an average of one-fourth. In South Dakota the damage is estimated at one third. From La Crosse to Fulda, Minn. there will be an average yield of wheat. From Fulda west to the state line there is damage from rust and blight, and here and there the work of chinch bugs is seen. In South Dakota the Hessian fly has gotten in its deadly work, and there are vast fields that will not be touched

by the reaper.

Rye and barley are a good crop. Oats are better than the average. The outlook for corn, barring early frosts, is excellent. Flax never was in better shape. This is the crop the farmers bank on this

CAPT. ROCKWOOD RESIGNS.

He will Leave Co. F, Third Infantry, at

Portage.

Portage, Wis. July 27.—[Special.]—
H. S. Rockwood, commanding Co. F.
Third infantry, W. N. G., has sent his resignation to the adjutant general. He resignation to the adjutant general. He will doubtless be succeeded in the captaincy by First Lieut. Frank T. Lee, he being next in line of promotion. Capt. Rockwood has served with the company since February, 1889, and since Capt. George C. Carnegie's promotion to major of the Third battalion, has been captain.

Bound Over for Trial,

Kaukauna, Wis., July 27.—[Special.]—
George Verbockle and his wife, Delia
Verbockle of Ross murder trial fame,
were up yesterday before Justice M. Mulloy on a charge of grand larceny. Their
examination was conducted by District
Attorney Bottensek of Appleton. They
were held in bonds of \$200 each for trial
at the November term of court and were
committed to the Appleton jail to await
trial.

Willey-Condra Nuptials. La Crosse, Wis., July 27. [Special.]— Miss Catherine Willey, eldest daughter of Mr. and Mrs. J. L. Willey, one of the of Mr. and Mrs. J. L. Willey, one of the charming and accomplished society belles of the city, was wedded today to A. M. Condra. The ceremony occurred at the family home in a fashionable section of the ctiy and was a quiet affair, witnessed only by a small party of immediate relatives and intimate friends. Mr. and Mrs. Condra left immediately for the East.

Wented in Monroe County, izen living near this place, died after a lingering illness at the age of 68 years.

—John Redmond, the Parnellite leader, accompanied by Louis Stuyvesant Chanler as star orator, is stumping Ireland in the cause of the Redmond learne.

Wanted in Monroe County.

La Crosse. Wis., July 27.—[Special.]—Sheriff L. H. Conger of Sparta passed through the city today with Clinton Van Kirk, wanted in Monroe county on a charge of horse stealing. Van Kirk was charge of horse stealing. Van Kirk was charge of horse stealing.

ON GREEN BAY'S SHORE

Brilliant Gathering of Chautauquans at Wisconsin's Lumber Center.

Marinette, Wis., July 27.-[Special.]-Today the first Chautauqua assembly 20, was killed here at about 11:30 o'clock Marinette has ever had opened in fine last night under circumstances which point strongly to murder. When the Lakeside, on the shores of Green bay, southbound freight, No. 582, leaving Clin- where a fifty acre grove with open inger said today if the men at his mines ton at 11 p. m., reached Harvard, the patches here and there provides ample crew found a hat upon the pilot. Instruc-tions were immediately wired to the en-gineer of the nortbound freight, No. 585, to look for the body of a man be-tween Harvard and Clinton.

Nelson was found at 6:15 a. m. about Nelson was found at 6:15 a. m. about forty rods from the depot. His feet were crushed to a pulp, his right arm was cut off above the elbow and there were three wounds in the skull. One of these, according to a physician and other citizens, would not ordinarily have been made by would not ordinarily have been made by on the grounds.
Fairbank of Chicago, the former the chorus director and cocal manager of the assembly; Miss Sit I Sammis of the same city, a rising and brilliant soloist; E. T. Parks, D. D., of Atlanta and Rev. F. M. Rule of Faribault, Minn., who will conduct the Chautauqua Round Table and Sunday school classes, were wel-comed by local management of the Lakecomed by local management of the Lake-side Chautauqua. Mastert Ted and Miss Dora Simpson of St. Paul preceded the other assembly stars by a day. This afternoon Mrs. Genevieve Clark Wilson of Chicago arrived and Prof. P. M. Pear-son, the pride of Cumnock's School of Orators and Electrican aspeared on the Oratory and Elocution, appeared on the

Mr. Zerbe read the preamble and moved that the convention go into a committee of the whole to consider the agreement. J. B. Zerbe was called to the chair and Mr. Dempster moved that the agreement be taken up seriating.

The killed:

JAMES ROWMAN.

Evently injured: the amusing things which grow out of the misunderstandings would fill a book.

Forty-eight Contractors After the His-Forty-eight Contractors After the first torical Library Job.

Madison, Wis., July 27.—[Special.]—C.
F. Cooley of this city has the lowest bid, \$3808.35, for furnishing 600 tons of anthracite and 20 tons of cannel coal for use in the capitol building during the next year. They will probably receive the contract. There were three other bid-ders, Conklin & Sons, and Fisher & Nie-

Milwaukee.
Forty-eight bids for the completion of the Historical Library building under the modified plans were received up to noon today, the time fixed when all bids must be in. This is about the same number as were received on the original plans. Of the forty-eight bidders twenty-two are Milwaukee contractors, fifteen Chicago, and the other eleven from Madison, Racine, West Superior, St. Paul, Minneapolis, Omaha and other cities. The bids were opened at 2 o'clock this afternoon, and owing to their num-ber considerable time was required to classify them, which is necessary before

CHARGED WITH MURDER.

A. F. Brown Accused of Killing a Man

at Spring Valley.

Stillwater, Minn., July 27.—[Special.]

—It has just leaked out here that A. F.
Brown was arrested at Spring Valley. Wis., two weeks ago, for the alleged murder of Thomas Curlin a year ago. The sheriff wanted to keep the arrest quiet in the hope of getting the alleged accomplices.

Doctors Meet at Marinette. Marinette, Wis., July 27.—[Special.]—
Thirty outside physicians are in the city
this afternoon attending a quarterly meeting of the Fox River Medical society.
At the session in Hotel Marinette this
afternoon the following papers were read:
"Can Cancer be Cured?" by Dr. J. R.
Minahan, Green Bay; "Lachrymal Diseases and the results," by Dr. Elwood,
Menominee; "Addisnis Disease," by Dr.
P. J. Noer of Menominee. Two new
members were admitted into the society.

Indians Have a Dance. Black River Falls, Wis., July 27.—
[Special.]—The big Indian dance that took place at the mission yesterday, given by the Winnebago Indians to their Sioux friends, was a day of feasting and pleasure. The young braves of both tribes presented a striking figure decked out in flaming colors with plenty of red and yellow paint. The dance began early in the day and was kept up until late at night.

Appleton, Wis., July 27.—George Mischler and Gustave Last, two papermill employes, were held up here last night. After being shot at twice. Mischler was pounded over the head with the butt end of a revolver and both were robbed of \$5 in coin and a pocket-book. The highwaymen escaped.

Madison, Wis., July 27.—[Special.]— The lowest bid on the Historical library was by Harry Johnson of Omaha for \$295,133.07. The J. G. Wagner com-pany of Milwaukee was only a few hun-dred dollars above Johnson.

Two Companies Admitted. Madison, Wis., July 27.—[Special.]— Two new stock fire companies have been admitted to do business in Wisconsin by Insurance Commissioner Fricke, the Ba-loise of Switzerland and the Alliance As-surance of England. Injured in a Runaway.

PROGRESS IS SLOW. Many Obstacles in the Way of True

Pittsburg, Pa., July 28.—The second day's session of the uniformity convention, which was scheduled for 10 o'clock this morning was an hour late in opening. owing to the slowness of the operators getting together. A list of those who participated in the meeting yesterday shows that eighty-five railroad and river mines and exclusively river mines were represented.

so slow that the indications are that it will be several weeks before an agree-ment satisfactory to the 95 per cent. of the operators of the district, necessary the operators of the district, necessary before "true uniformity" can become an established fact. The operators are rather dazed by this

Progress made yesterday and today was

second attempt to put this peculiar doc-trine into practice. All admit it is fair, but add that it is impossible of accomplishment because it is too fair.
On the one side is W. P. De Armitt,
with a small following, but a giant in himself. On the other side are grouped the mass of operators inimical to any thing Mr. De Armitt might suggest, be

that. There were 7000 people on the grounds Saturday, and almost as many on Sunday. Large as the attendance is, however, it is not so large as it ought to be, considering the attractions that are offered.

An impression that it is a money-making institution may be in part responsible for the fact that more people do not attend. As a matter of fact, it is not a money-making institution. There are a money-making institution.

the conference, but he did not put in an

tion was made to adopt it.

The uniformity agreement passed on by the committee of nine coal operators

does not vary materially from the agree-ment of February, 1896. In relation to the differential in thick and thin vein and between machine and pick mining i states the question shall be settled by states the question shall be settled by a commission appointed hereafter. If not settled in thirty days after the agree-ment has gone into effect the arbitrators shall be authorized to establish the differ-

shall be authorized to establish the differential.

The next change from the old agreement is in the twentieth section relating to amending an agreement. It is proposed that when eighty signers shall signify in writing their dissatisfaction of any section, the commissioners shall hold a meeting in the Pittsburg courthouse. longer a subject for the funny para-grapher. The pest hereabouts has got far beyond the joking stage, and at least any section, the commissioners shall not a meeting in the Pittsburg courthouse not less than two nor more than six days after the call has been issued. The signers attending the meeting shall constitute a quorum.
On the question of wages it says: "The

On the question of wages it says: The said committee, in the absence of an agreement with the miners establishing such compensation, shall refer said question to a board of arbitration to be mutually agreed upon or selected in the manner prescribed by said commission and a like number of representatives of miners who are employes of the subscrib-

AN EFFORT TO SETTLE.

Probability that the Ropes Mine will Re-

Ishpeming, Mich., July 28.—[Special.]

—B. W. Wright, who was yesterday appointed receiver for the Ropes Gold and Silver company, will endeavor to settle affairs soon and thinks the company can reorganized with good capital. In

Bicycle Baggage Question.

Newport, R. I., July 28.—Dr. Chauncey M. Depew, president of the New York Central Railroad company, who so railroads in New York to carry bicycles as baggage, has succumbed to the attractions of the "silent steed." At that time he said a bicycle was sometimes a vehicle and sometimes a trunk. Treating it as a vehicle, he took his first lesson yesterday. For a man 63 years of age he made an excellent start.

erted that Van Tassel Has Confessed

Firing the Fatal Shot.

Laporte, Ind., July 28.—The confessions of the two convicts of complicity in the Hinshaw murder, and the charge that Van Tassel fired the shot which killed Mrs. Hinshaw, are now followed by the sensational allegation that Van Tassel recently wrote a letter in which he confessed the murder of Mrs. Hinshaw, his statements hearing out in every essential statements bearing out in every essential detail the confessions of Baney and the other convict.

GEORGE S. HALE PASSES AWAY.

Boston Dies in Maine.

Bar Harbor, Me., July 28.—George S.
Hale of Boston died here of apoplexy.
He was 72 years old and one of the bestknown lawyers in Massachusetts. He was prominent in tariff reform and civil service reform circles, and had written and spoken much on these topics.

CIVIL SERVICE CHANGES.

Customs and Revenue Collectors Permitted to Name Their Chief Deputies.

Washington, D. C., July 28.-President No removals shall be made from any position subject to competive examination except for just cause and upon writ-ten charges filed with the head of the department or other appointing officer and of which the accused shall have full notice and an opportunity to make defense.

He has also amended rule 3 so as to inwas not involved in the other. The matter is regarded here with all the greater interest because both subjects, the validity of the treaty and the clude within the classified service the employes of all custom house officers with out regard to the number of employes. Hitherto the classification embraced cus-Hitherto the classification embraced custom officers where the number of employes was five or more. This order brings into the classified service sixty-five hitherto unclassified eustom offices.

The President has also amended rule 4, making exceptions to examinations, so as to read as follows:

Custom house service—One cashier in each customs district, one chief or principal deputy or assistant collector in each internal revenue district, who shall act as cashier or chief deputy or assistant collector as may be determined by the treasury department; one deputy collector in each internal revenue district where the number of employes in the office of the collector exceeds four; one deputy ty collector in each stamp (or branch) office.

Appointments to the positions named in annexation of Hawaii, are under con-

Internal revenue service—One employe in each internal revenue district, who shall act as cashier or chief deputy or assistant collector as may be determined by the treasury department; one deputy collector in each internal revenue district where the number of employes in the office of the collector exceeds four; one deputy to collector in each stamp (or branch) office.

Appointments to the positions named in this rule in the custom house service and in the internal revenue service shall be subject to an examination to be prescribed by the secretary of the treasury to be approved by the commission, equal to the examination held by the commission for positions of like grade. Such Appointments to the positions named in this rule in the custom house service and in the internal revenue service shall be subject to an examination to be prescribed by the secretary of the treasury to be approved by the commission, equal to the examination held by the commission for positions of like grade. Such examinations shall be conducted by the commission in accordance with its regulations.

KILLED HIS PARTNERS.

Texas Stockbroker Shoots B. F. and W. W. Kivett-Pleads Justifiable Homicide

Waco, Tex., July 28.-In the stock brokerage office of C. E. Trice & Co. today, B. F. Kivett and W. W. Kivett were shot and killed by W. L. Lambden, a member of the firm. Bad feeling has existed between the Kivett Bros. and few salaried officers, it is true, but they are not paid as much money as they could earn in other ways, and the stockholders have never received a dollar in dividends. When the end of the season shows a balance on hand the money is shows a balance on hand the money is invariably spent upon the improvement of the grounds, and it will be many years before the grounds are so complete that expensive improvements will not be necessary.

This was the series of the season meeting to order there were almost as meeting to order there were almost as yesterday. Two more of the Kivett brothers armed the send to the send the shooting, threatening to kill Lambden occurred when the office was crowded and it caused intense excitement. two fatalities have been caused by mos-

quito bites. in St. Vincent's hospital from a mosquit bite, and yesterday at Keyport, N. J., a baby was found dead in its crib with a black swarm of mosquitoes hanging over it, the infant having been literally bitten to death. From Governor's island there is a story of a soldier who was bitten on the neck by one of the insects, and lost be stanched, while from this city and various other towns, particularly in New Jersey, come reports of a number of cases of serious illness caused by the voracity of these insects. The enormous in-crease of the fierce creatures is usually attributed to the weather. The alterna-tions of rain and sunshine every day for onditions under which they increase and multiply and thrive. The rain has kept the nearby swamps in New Jersey and Long Island sufficiently submerged to

British Property Since 1888. London, July 28.-With reference to London, July 28.—With reference to the reported seizure by Great Britain of Palmyra island, Polynesia, it is of-ficially stated that the island has been British since 1888. The report is sup-posed to have arrisen from the fact that H. M. S. Wild Swan called there last May on a periodical visit.

President Leaves Washington. dent McKinley left Washington today for a vacation that may keep him away from the city for six weeks. He was accompanied by Mrs. McKinley, Secre-tary and Mrs. Alger, Mr. Porter, assist-ant Private Secretary Pruden and Exec-utive Clerk Cortelyou. The white house steward and a maid servant also were along.

Interurban Road in Colorado. Colorado Springs, Col., July 28.—Colorado Springs will be connected with the Cripple Creek gold camp by a short line electric road. The city council has granted a franchise to Irving Howbert and associates and also the right to derive motive power from the city's water system. system.

Washington, D. C., July 28.—The battleship Indiana will be sent to Halifax to be docked and cleaned. This is found to be necessary on account of the bad condition of the drydocks at Port Royal, S. C. While the naval officers naturally deplore the necessity for sending the ship to a foreign dock, they say the practice is not uncommon.

Copies of New Tariff Law.

Washington, D. C., July 28.—The first copies of the tariff act in law form for circulation have been received at the document rooms of the Senate and House. The law makes a pamphlet of seventy pages. The members of the House will have 25,000, the senators 10,000 and the Senate committee on finance 15,000 copies for distribution, making 50,000 in all to be circulated by Congress.

tice is not uncommon.

—A Jersey cow belonging to Jerry Troy of East Windsor, Conn., gave birth to a calf which is quite a curiosity. It was a double-bodied calf, with the two bodies intersecting at the rear. It had two perfectly formed heads, each with fully designed for the legislative council, was and in the back only three, while there were four legs and in the back only three, while there were four legs and in the back only three, while there were four legs and in the back only three, while there were two tails on the body. The calf was of good size, weighing probably 65 pounds. It did not live.

AT REASONABLE RATES.

Exports of Wheat and Corn will be Unusually Heavy-Returning Prosperity.

New York, July 28.-The Tribune says Already rates are from 35 to 40 per cent. higher than they were last year in July, and 50 per cent. higher than two years

The freight department of the White Star line confidently expects freights to reach unusually high figures before long. One ground for this expectation is the peculiar and unfortunate experience which many shipping men had last year. Some of them made contracts months ahead when rates were moderate, and when the time for the actual shipments came those men had the mortification of seeing car-goes carried in their ships for far lower

goes carried in their sinps for far lower figures than were then prevailing.

A member of a prominent firm of ship-ping agents said yesterday: "We have the good fortune to have in this country the greatest aggregate of crops we have ever known, while abroad the yield has been near. People think that when there ever known, while abroad the yield has been poor. People think that when there is a great wheat crop vessels will be loaded down carrying it out of the country, but wheat is a small factor in the whole. Corn is a more important item, and barley is beginning to be so, although few years ago we shipped almost none of it. It is the products of all kinds that our returning prosperity will lead us to send abroad which will make up the especial reference are so closely related as to render the future bearing of this treaty upon the Hawaiian problem a mat-

LIVELY TIMES IN CHITRAL.

British Government Taking Steps to Recapture the Fort Taken by Natives.

London, July 28.-A dispatch from Simla this morning says that the government, is taking all steps necessary to cope with the emergency in the Chitral. Although Fort Chakdara, now cut off, occupied an isolated position, it is believed that with two companies of the Thirty-first Punjab infantry and two guns the garrison can hold its own.

The road between Mardan and Malakand is blocked with hostile tribesmen who have cut the telegraph wires.

Three squadrons of Bengal Lancers and the Second Punjab infantry regiment have started for Mardan. The Seventh Mountain battery is on the way to Malakland and the West Kent regiment is held in readiness at Peshawar.

The Simla dispatch also says that Capt. Holland of the Twenty-fourth Punjab infantry was among those seriously wounded during Monday night's attack on Camp Malakland. Although Fort Chakdara, now cut off,

GOVERNMENT CROP REPORT.

producing states of the Middle West:

Illinois—Very favorable week. Corn continues wonderful growth, general tasseling and silking, while early fields nearing roasting ears. Oats cut and some thrashed, with fair yield and fine berry. Winter wheat and rye thrashing continue. Haying practically finished. Early potatoes being dug, with poor to fair yield. Second crop of clover, cutstock peas, millet, and broomcorn growing finely. Pastures and gardens much revived. KILLED IN A CHURCH. Prof. Patterson Slain at a Baptist Conference by a Negro. St. Louis, Mo., July 28,-A special to the Post-Dispatch from Montgomery, Ala. says Rev. Mace Coleman killed Prof.

Patterson today at the Baptist congress in session there. No reason for the killing is given. A negro named Pritchett has just been caught about a mile from town by a negro posse and he confesses to having

shot Patterson. He is in jail. TWO HAT FACTORIES BURN.

Half a Million. New York, July 28.—Fire started in the blowing room of the hat factory of William Reed & Co., in Yonkers, yesterday afternoon. Two large gas meters exploded immediately after the flames burst forth and within a few minutes the fire was breaking through the windows of the first and second stories. There were 600 men and girls in the building. Intense excitement prevailed while the Intense excitement prevailed while the employes left the building by the fire escapes, the girls being taken out first and all losing their street clothes, so little time was given. The wind carried the flames to the building occupied by Rowland Bros.' hat factory and the interior of this structure was destroyed.

The lowest estimate of the losses is \$400,000 and others run as high as \$550,-

WILL EXACT A ROYALTY. Canada Demands 10 Per Cent. of Klon-

Taspenning, Mich. 3 diver company, will endeavor to settle affairs soon and thinks the company can be reorganized with good capital. In the latter event operations will be resumed at the mine which never looked better than now. The liabilities of the company are yet unknown, but are estimated at various amounts from \$50,000 to \$100,000, with assets of about \$70,000.

The workmen who went out two weeks ago now regret that they did not accept the proposition of the management, which was to receive pay every two weeks with the understanding that back money should be paid as fast as profits on the output warranted.

DEPEW ON A WHEEL.

The workmen was pesterday appointed receiver for the Ropes Gold and Long Island sufficiently submerged to furnish ideal places for the deposit of mosquito eggs, and the sunshine has helped to hatch them out in millions. They swarm in every office and every dwelling house, and even the passengers on the swiftly-moving street cars are so tortured by them that the wild waving of arms and constant slapping of face and neck and arms has grown to be a common sight.

All the Governor's island garrison and the families of the officers stationed there have suffered from the winged pests for three days. Sections of this city in which the vulture-like insects from New Jersey have been practically unknown can no longer make that boast.

MADE NO SEIZURE.

Canada Demands 10 Per Cent. of Klondike Gold Diseoveries.

Ottawa, Ont., July 28.—At the close of the escond sitting of the cabinet last evening it was announced that the government thad decided to impose a royalty on all placer diggings on the Yukon in addition to \$15 registration fee and \$100 annual assessment. The royalty will be romined that the wild waving of arms and constant slapping of face and neck and arms has grown to be a common sight.

All the Governor's island garrison and the families of the officers stationed there have suffered from the winged pests for three days. Sections of this city in which the vulture-like insects from New

dispatch and

SHIPMENTS ABROAD.

that the rise in ocean freight rates for grain-carrying steamships is found to be extending to all grades of ocean freight, in the cable dispatches a few days ago and steamship companies are looking forward to a season of great prosperity. that the question of the Clayton-Bulwer treaty had been raised in the British The large demand abroad for American Parliament in connection with the prowheat has caused a hardening of wheat wheat has caused a hardening of wheat transportation prices at a high figure, which is bound to go still higher when shipments of spring wheat begin in Au-gust. With the exception of the season of 1893, ocean freight rates have not since 1891 reached so high a figure as they are now at. In 1893 they were the posal to annex the Hawaiian islands to quently prepared for the response of the British government that the one question

Large Yield of Small Grains-Corn Has a bulletin issued last night shows the fol-lowing crop conditions in the great grain-producing states of the Middle West:

ing finely. Pastures and gardens much revived.

Wisconsin—Wheat harvest begun and excellent yield is promised, but chinch bugs making inroads in western and central sections. Corn growing rapidly. Oats and barley harvest under way. Potatoes in good condition, but blight appears in localities. Haying delayed in north portion by rain. Tobacco making fine progress.

Michigau—Large portion of wheat, rye and hay now well secured. Oats harvest begun. Corn made good growth and is now in tassel. Timely but unevenly distributed showers have improved potatoes, pastures and gardens, but delayed work in a few localities.

Minnesota—Very beavy rains beginning of week flooding low lying crops. Cool weather following prevented greater damage. High land spring wheat generally fine and filling well. Rye harvest finished. Barley being harvested in south. Upland hay crop being harvested in with crop prospect not improved. Corn growing rapidly.

North Dakota—Excessive rains in eastern portion have damaged all crops on low lands. Wheat is rusting in some places, badly

portion have damaged all crops on low land Wheat is rusting in some places, badl smutted and slightly injured by bugs in oth ers, and also lodged where straw in heavy

ers, and also lodged where straw is heavy. Other crops are only fair. Wet weather has stopped baying and most meadows are covered with water.

South Dakota—All crop prospects are improved. Prompt filling of oats, barley and early and late spring wheat with plump and healthy berry now seems assured, and late wheat possibilities very encouraging. Corn, potatoes and grasses doing finely.

Kansas—Winter wheat harvested and thrashing progressing, showing good yield in quantity and quality. Hot winds and drouth seriously injured much corn in central and central-southern counties, but over the rest of the state corn is in good condi-

the rest of the state corn is in good condition. Prairie haying progressing and giving good crop.

Iowa—Corn making good progress and early fields have reached earing stage, with ample moisture for present needs. Barley and oats mostly harvested and threshing begun. Spring wheat harvest progressing, with some reports of injury by rust and scales, but probably not extensive.

Ohio—Corn, tobacco, wheat and hay damaged in some localities by rain, hail and wind. Haying nearing completion. Threshing well advanced and some fall plowing done. Hay heavy but weedy. Wheat good yield, but some sprouting. Corn in tassel and shooting and growing well. Oats being cut. Tobacco good growth, but worms are numerous. Pastures and gardens are doing well. Grapes are rotting some.

Missouri—Drouth in southern counties broken by good rains and crops greatly improved. Rain needed in western sections. Corn generally doing well, but in some western counties must have rain very soon. Early corn coming into roasting ear. Bulk of hay secured in good condition. Much complaint that grapes are rotting. Prairie haying progressing and giving

of hay secured in good condition. Much com-plaint that grapes are rotting. Nebraska—Very favorable week. Harvest-ing about completed in southern counties and being pushed forward rapidly in northern counties. Threshing is general. Yield of winter wheat is good and quality excellent. Yield of oats is only fair. Corn has grow-well and is silking out nicely. Corn is back-ward, but is generally in excellent condition.

Great Boom. Birmingham, Ala., July 28.—The iron and coal industries continue to show signs of returning prosperity in this district. Two more idle furnaces resumed work today. The Tennessee Coal, Iron and Railroad company blowing in one and the Sloss Iron and Steel company the other. These companies are preparing to start up two more furnaces in a few days. The iron market is growing stronger and the demand for export iron to Europe is larger than for a long time. The removal by Congress of the discriminating duties on Mexican ships loading coal at Southern ports is causing big shipments of coal to Mexican markets. The coal trade, in fact, is heavier than at any time within twelve months and every mine but one in Alabama is in full operation.

Bad Wreck in Nevada.

Several Persons Seriously Injured but Nobody Killed.

Reno, Nev., July 28.—A train wrecked on the Central Pacific railroad four miles west of Reno occurred this morning. Several people are said to be seriously injured. but no one killed.

ELASTIC STARCH has been before the people of the United States for twenty-three years, in it is without doubt the greatest starch invention of the Nineteenth century. Last year its sales ached the unprecedented number of twenty million packages. It is prepared upon scientific inciples by men who have had years of practical experience in fancy landrying. It makes irong easy, restores old summer dresses to their natural whiteness, and imparts to linen a beautiful dilasting finish. It is the only starch mannfactured that is perfectly harmless, containing nei-

The Migration of Swallows, A Dutch correspondent writes: "Arnhem, the capital of the province of Gueldelrand, as is known, is situated upon the Rhine, which is crossed by a bridge. Passing over it one day, one of my friends witnessed a remarkable scene. Myriads of swallows, apparently those living in the environs, were crowded together, as they are every year in exactly the same place. When they flew up, which they did several times before Walter Allison, Mr. Venne and the When they came down again, it was kept in first-class lumber yards. Misses Maud and Francis Allison, while done with a deafening shrill and enroute to Parnell last Wednesday, vis- shricking or whistling or piping-a ourious noise, which it is almost impossible to describe. It seems as if they wanted to make sure that all John Shuebing and Michael Krueger family of West Bend and Mrs. O. H. could stand the voyage, for many Richter and family a few days this of the others, who pecked them to

MURRAY & NAUGHTON'S

Henry lake is a beautiful body of water withanarea of about forty-one square miles and is situated on the dome of the continent in a depression in the Rocky mountains near Targees pass, Idano. Henry lake is the "home" of a most wonderful floating island, which is seen first on one side of the lake and then on the other. The island is about 300 feet in diameter, and has for its basis a mat of roots and decayed vegetation sufficient to support large trees and a dense growth of underbrush. The edges of this floating island are thin, of course, but near the center it is several feet thick and of sufficient strength to support a good-sized summer hotel, if some one could be found that would care to make such a venture. There is a good-sized willow thicket near the center of the island, and scattered around among them are several dwarf pines and aspens. These trees catch the breeze which is continually blowing over this highly situated lake, and, acting as sails on a boat, move the 300-foot island hither and thither over the forty square miles of water at their will. A Floating Island.

Wisconsin Patents.

Wisconsin Patents.

Patents for the following Wisconsin inventors are reported for this week by Erwin, Wheeler & Wheeler, 58 and 59 Loan and Trust building, Milwaukee, Wis. These attorneys will furnish the Inventors' Handbook free:
Julia F. Bascom, South Milwaukee, pneumatic shoe sole; J. E. Brown and E. E. Pettit, Waukesha, railway draft appliance: D. R. Dix, assgr., Ean Claire, butter mold; G. Haumas, Berlin, ink stand; F. H. Hoberg, Green Bay, Wis., toilet paper holder; Sam Knowles, Gibbsville, belt coupling; O. C. Little, assgr., Menasha, sample plate; G. Lusted, assgr., Lake Mills, butter printer or molder; E. J. Pennington, Racine, assgr., Igniter for explosive engines; P. J. Rock, Superior, snap hook; F. Straubel, Green Bay, drawer or file box; J. F. Theurer and P. Fisher, assgrs., Milwaukee, method of and apparatus for producing air free carbonic acid gas; A. H. Garrison, Milwaukee, assgr., stove or range (design); C. & J. Michel Brewing Co., La Crosse, beer (trade mark).

An Earthquake Year.

This will be known as an earthquake ear. No great catastrophe has occurred year. No great catastrophe has occurred in consequence of the terrene convulsions, but they have been strangely frequent. We hear of them in Canada, in the South, in Mexico, in Italy, in India, and we know that in Japan and the East Indies the earth's surface is normally agitated, so that people do not get their night's rest if the tremor quiets down. In that case it is like the stopping of the screw on an ocean steamer; ping of the screw on an ocean steamer it wakes everybody up. The worst dam age that has been accomplished is it Calcutta. This city appears to have suffered as greatly, and much in the same way, as Charleston.—Brooklyn Eagle.

Cheyenne Pestered with Lizards. A recent number of the Cheyenne Sun-Leader had the following: "Probably the largest number of lizards ever observed on the streets and sidewalks of Cheyon the streets and sidewalks of Chcy-enne can be seen at the present time. After yesterday's rain in the vicinity of Lake Minnehaha it was next to impossible to cross the street without walking over the disagreeable pests. Even in the arch-way of the depot lizards were very nu-merous. Many ladies on the streets were badly frightened while walking to their homes, and for this reason carriages were much in demand."

There is a Class of People Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called GRAIN-O, made of pure grains, that takes the place of coffee. The most delicate stomach receives it without distress, and but few can tell it from coffee. It does not cost over one-fourth as much, Children may drink it with great benefit, 15c, and 25c, per package. Try it, Ask for GRAIN-O.

Taking Precaution. Precaution.—"Say, missus," said Meandering Mike, "do you wanter hire anybody?" "No." "Ye don't think yer husband wants ter hire anybody, do yer?" "I'm sorry to disappoint you, but I am sure he does not." "Taint no disap-pointment. I jes wanted de assurance dat I could go ter sleep in dis next lot witout bein' disturbed by offers of work."—Washington Star.

The Chicken was Loaded. A few days ago the family of Ed Fay oncluded to kill a chicken to cook, and ound this invoice in its gizzard: Twenty-four BB 22-caliber cartridge shells, two gravel stones, two glass beads, a bit of glass and a pin. The shapes of the cartridges had undergone modification

larger frames are needed. Any good

bricklayer ought to be able to put up

Pasturing Across a Highway.

Many farms are so situated that the

cattle must be driven across a high-

way to pasture. This almost always

affords trouble. The cattle will break

away up and down the highway to

feed by the roadside, instead of cross-

ing the road directly from the pasture

gate to the lane leading to the barn.

A device is shown herewith that may

prove of assistance in such cases. A

narrow lane is built on each side of

the road, extending well up to the

carriage track but not close enough,

of course, to prove any inconvenience

to travelers. Two long bars of thin

boards are then fitted to slide across

the highway when the cattle are to be

driven across, and then back again,

out of the way of travel. A bent rod

of iron connects the two ends of the

bars, so that both can be slipped across

the road at once, the bend in the rod

permitting it to rest upon the ground

so that the cattle can pass over it. To

operate this takes but a moment's

Time to Cut Timothy.

Timothy grass is usually left too late

trition of clover at any stage, and if left

until its seed ripens, much that was nu-

trition earlier is changed to woody

fiber. The common mistake is made of

allowing the head to blossom. Then it

needs to ripen its seed so as to get be

vond the blossom stage. Old horsemen

say that timothy seed is very nutritious.

It would need to be to produce any ef-

fect, as it is a very small part of the

head. What really keeps up the

cut feeding that goes with it. The best

time to cut timothy is just as it comes

into head and before it blossoms. The

it has more available nutrition than it

ing the furrow there are inevitably large air spaces left under it, which except in very ear springtime, dry it out much too quickly to make a good, the worse if the soil is clayey in texture and has been plowed when too wet. Then the furrow between the dry air under it and the dry air above it bakes into a clay brick that no plant roots can penetrate. But if the furrow is broken down soon after being turn ed the soil dries through evenly, leav ing it in fine condition for a seed bed.

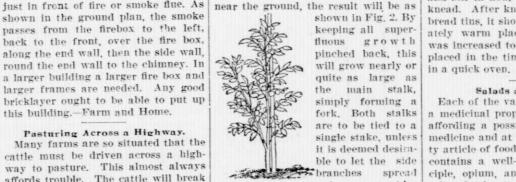

Paring Hoofs of Sheep causes of greatest loss. Many who When kept in warm stables, with cannot dispose of the crop in a fresh their feet resting in strawy manure state allow it to rot or feed it to stock. kept damp with their urine, sheep's hoofs will often grow too long. It is what apples could not be sold fresh the condition under which foot or hoof and so constructed an evaporator. The rot usually occurs. Sheep need dry plan was original with me and has land to graze on, and all the better if it worked to perfection. The building is is stony or rocky, giving opportunity 8 feet long, 4 feet wide and 9 feet high for the sheep to knock off pieces of to the eaves. The walls are of good their hoofs and keep them of proper hard brick and 8 inches wide. The fire length. When pastured on low ground box (a) is in the end opening on the sheep's hoofs should be occasionally outside. In the center of one side is a pared, and a little blue vitriol put on door 2 feet wide (b) extending down 6 to prevent disease, should any germs of feet from the eaves or to within 3 feet the rot be present. It is a good time of the ground. This leaves space 3 to examine the sheep's hoofs before they are turned out to pasture.

Pruning Tomatoes, According to a writer in Farm and Fireside, where the temato vine is trained to a single four-foot stake the

ripening of the tomato may be slightly delayed, yet the increased size and excellence of the fruit more than compensate for the brief delay in ripening. Presuming. then, that a fivefoot split stake has been firmly set at each plant and the feet wide on each side for trays (c) tomato vine has al-

which are 2 feet square and made of ready been tied to 1 by 11/4 inch material, the bottom be- the stake with coming covered with fine wire mesh. A mon twine, a daily lookout must b framework extends entirely around kept for the suckers which put out the room of 2 by 3 inch material, nail- from the main stalk and retard the ed 6 inches apart, to support the drier proper development of the tomato frames. When a frame is filled, it is plant. The sprouts, or auxiliary suckeasily slid into a place either on the ers, which push out from the base of right or left of the door. Close the the upper side of each of the side ventilator in the roof when the sulphur | branches must be resolutely pinched is put in to bleach the apples. The off, or broken off if the pinching has firebox (a) is 10 by 10 inches square, been delayed too long. If this is done 3 feet long, arched with one 4 inch and the vines have been tied to the thickness of brick. The firebox walls stakes with not less than three strings, are 4 inches thick. Cold aid is admit- as the growth has been continuous, the ted on both sides of the fire box vine when in bearing will appear as through flues 4 inches wide, passing shown in Fig. 1.

from the rear of the box to the front If, as it sometimes occurs, a second of it and passing into the frame room | branch or stem is allowed to grow from just in front of fire or smoke flue. As near the ground, the result will be as shown in Fig. 2. By keeping all super-

ground, where they will continue to | itive properties. Water cress is a tongrow and ripen fruit after the staked ic, excitant and purifier, Celery, a vines have ceased bearing. These will stimulant, will do good to the depressfirst killing frost. On the approach of these marvelous properties, it is easy frost it has become customary by man; truckers to pull up the vines and be repeated daily without danger and spread them in a well sheltered place and cover them with litter, so as to allow the ripening process to go on. This late crop is often more profitable than that of the staken vines near the close of the tomato season.

Improved Grain Shock.

According to a writer in the Farm Journal nine bundles of grain make a better "shock" than the old-fashioned dezen. Get up four in a cross, then four more, one in each of the spaces between two of the first four, and cap with the ninth, well broken, and the tops toward the prevailing wind. If well set, that is, each sheaf standing on its own bottom and thoroughly closed in at the top, such a shock will stand a stiff windstorm and a three days' rain without harm,

Much of the baled hay that comes to market it musty. Most farmers when they bale hay think it need not be very dry, as the bales are small. But the amount of hay packed in them is always sufficient to get up a violent ferment unless the hay is properly before it is cut. It does not have the nudried before it is put into the bale. It there were more care used in baling hay the price for it would be much better than it is, as the hay itself would be better worth it.

Cure for Hog Cholera. Dr. Salmon, of the government by reau of animal industry, is credited with recommending the following as a cure for hog cholera: Wood charcoal 1 part; sulphur 1 part; salt, 2 parts strength of timothy-fed horses is the bicarbonate of sodium, 2 parts; sodium hyposulphite, 2 parts; sodium sulphate 1 part; antimony sulphide, 1 part-10 hay will not weigh so much then, but parts in all. Pulverize and mix thoroughly. Dose, 1 tablespoonful for each 200 pounds of hogs once a day.

Stop the Leaks. Prices for dairy goods rule low, with hinning all the larger fruits. Just be- out much prospect that they will be fore the seed begins to form nature higher in the very immediate future. does a great deal of this thinning, and Hence, it should not be forgotten that t is perhaps as well to wait until all the profits of dairying are made up of the fruit that will naturally fall has the small daily savings of the differfallen. Then pick off the surplus fruit ence between the cost of production wherever it seems to be superabund- and value of the milk and butter. A ant. In most cases this thinning does saving of ten cents per day in a herd

cause it so largely increases the size of to \$150.-Lewiston (Me.) Journal.

Food Laws in France. France knows how to protect the rights of her people. THE RUSH KEEPS UP.

Lack of Transportation Facilities Prevents San Francisco's Depopulation.

San Francisco, Cal., July 27 .- The hrongs about every shipping office that has even the remotest Alaskan relations have by no means diminished. It would seem that the only circumstance which prevents the wholesale depopulation of San Francisco is the limit in the transortation facilities.

Every day sees some new scheme for vercoming the difficulties in the way of eaching the Klondike and the fleet of teamers and schooners pressed into the ervice is growing steadily.

The latest of the Klondike transports

tion schemes is being engineered by Capt. Harriman, of the firm of Harriman & Mills. He has been approached by a mills. He has been approached by a number of persons anxious to go to Klon dike and in response to numerous re-quests has mapped out a plan for any quests has mapped out a plan for reaching the diggings by the middle of September. He will charter a large sailing tember. He will charter a large salivate vessel, and the party will consist of sixty men, each of whom will take one ton of provisions. No one will be permitted to go unless he takes this quantity. Each one will be charged \$225 for the trip and Capt. Harriman thinks for this sum here lead them in Dawson City before in land them in Dawson City before

September 20.
The ship will carry a large lighter, and a steam launch will be used to tow the ighter from St. Michaels to the Klonlike. After reaching St. Michael's cargo like. and passengers will be transferred to the lighter. Capt. Harriman will return to San Francisco in the vessel and the party will be conducted to their journey's end by an agent of the firm who is thorough the same of the sa oughly acquainted with the river.
The Alaska Commercial company's steamer Excelsior, which leaves here to

steamer Excelsior, which leaves here to-day, will not make another trip to Alas-ka before June of next year.

The Commercial company not only de-clines to sell any more tickets, but it rep-resentatives do all in their power to dis-suade applicants from attempting the trip antil next year. Some twenty or thirty amount of brains will decline anything matil next year. Some twenty or thirty have endeavored to secure accommodations for the first trip next June. The company declines to bind itself so far thead, although a number of the applicants were willing to put up a forfeit and terree to glide by any terres the company.

WISCONSIN MAN'S LUCK.

Cleaned Up \$10,000 in the Klondike, but Paid Dearly for it.

San Francisco, Cal., July 27.—Two
more miners from the north have come
in on the City of Pueblo and are registered at the Commercial notel. They are Henry Dore and J. E. Boucher, and both ell tales of the hardest kind of experi-

\$30 taken from the ground in eight months is but a portion of Dore's experince. Of all those who have reached the city, his tale is one that ought to make those without experience think twice before plunging into unknown dangers.

Mr. Boucher left his home in Wiscon sin three years ago, went in by Juneau and the Chilkoot to Forty-Mile and had the usual run of poor luck. He went to work for \$12.50 a day, but soon gave out and then he went to prospecting. "I had no better success at this the work," he said, "and was pretty we usted when I heard of a strike Klondike. I struck a good claim and cleaned up \$10,000. I am going back home to enjoy myself till next spring. when I will go back again if I do not so out in the meantime."

Dore and Boucher brought out nearly \$20,000, but they decline to give the ex

NOT SO MANY DEATHS.

Reports About Graves at Forty-Mile Post Were Evaggerated. San Francisco, Cal., July 27.—Returned Yukonites deny the story told by Frank Moss of Great Falls, Mont., to the effect that 2000 graves at Forty-Mile post of the terrible sufferings of the gold seek ers. F. G. Bowker says that so far from being over 2000 deaths on the Klondike luring the past three years, there was no han a year ago, and since ave been three deaths in that whole disso far as known. the graveyard at Forty-Mile post which has served for all that section for some years past, there are only between thirty and forty graves.

GOLD IS FOUND IN MINNESOTA. Rich Ore Discovered in the Northwestern

Part of the State. Duluth, Minn., July 27.—A find which rivals the gold fields of British Columbia is just reported in Northern Minnesota in a region heretofore unexplored. The first news of the find was received here yesterday. The discovery was made in section 60, range 21 west, about fifty miles from Duluth. A large number of assays of samples have been made, and they show that the rock, which is deco posed, is rich in gold, silver and lead. The samples that so far have been as ayed were taken at a depth not exceed-ng three feet. Several veius have been ocated, the smallest of which is eleven nches in width and the largest sixty

NEW FIND IN ALASKA. Discovery May Prove as Valuable as the

Klondike. San Francisco, Cal., July 27.-The lat est rumer from Alaska is of the discovery of rich quartz in large quantities of the Stewart river. Particulars ar rague and beyond the fact that the ledg is a large one and that the rock assay \$300 nothing can be learned.

This, if true, will mean much for the Klondike district. The Stewart rive runs into the Yukon not far above Daw son and it is reasonable to suppose that the placer gold now being found belo may have its origin in the mountains the head of the Stewart river and neigh boring streams.

YOUNG GIRL SLAIN.

First Murder Among the Sac and Fo Indians for Twenty Years.

Toledo, Ia., July 27.—The first murde in twenty years among the Sac and Fo Indians of Iowa occurred in camp, whe a young woman, Setonaqua, 16 years age, was murdered within a few hundred feet of the main village. The Indians had a big feast the other

night. This girl remained later than to other women and all that is furth known is that her body was found by a Indian boy early in the morning. He mother has been dead for years and she lived with her nucle, John Whitefish. Although there is no definite clew to the murderer, circumstances point to one of the young men who had been at the dance last night as the one who enticed the girl away and cruelly beat her to death with a club.

A DEMAND FOR LOWER WAGES.

Silk Workers Ask for a Reduction to Conform to Union Schedule. Paterson, N. J., July 27.-The anomaly of silk workers asking for a cut in their wages may be presented this week in the Ashley & Bailey mill, owing to the action of the United Broad Silk Weavers' union of America, which prepared a schedule of America, which prepared a schedule give lower rates than that paid for certain work in some of the mills. It is under the control of the mills. work in some of the mills. It is under-stood that the Ashley & Bailey workers, at a secret session, lecided to ask for cuts on certain work, in order to conform with the union schedule.

MUST PAY ROYALTY.

Dominion Government Gets After the Klondike Geld Miners. Klondike Gold Miners.

Ottawa, Ont., July 27.—At a meeting of the dominion cabinet this afternoon it was decided to impose a royalty on all the precious metal taken out of the Yukon mining country.

It was not definitely stated, but it is proposed to make a man pay \$50 royalty per day if he is making twice that sum, the ground taken being that the property belongs to the Canadian people.

Schintz is Arrested. Chicago, Ill., July 27.—Theodore H. Schintz, lawyer and real estate dealer, who recently failed to the extent, it is said, of nearly a million, has been arrested on a charge of alleged frand in selling a trust deed for \$5000. Schintz was released on bail.

Electrical Company's Fail. Chicago, Ill., July 27.—The Metrop tan Electric company failed today. liabilities amount to about \$35,000; a sets \$100,000. The concern is capitalizat \$300,000. Poor collections are said have caused the assignment. FREE MEDICAL ADVICE.

The Generous Offer of a Well Know Patent Medicine Firm. The Kickapoo Indian Medicine Co

have become famous throughout Americal for the marked good that has been performed by the use of their famous remedies. These remedies are known to day to thousands, and have accomplished many and wonderful cures. No matter, however, how efficient a medicine is, it is often necessary in special cases that some experienced doctor should advise the sufferer exactly how such medicizes should be used in his individual case. It is ulso often practicable, when diseases are not clearly defined, to consult with a docor and learn exactly what course should be pursual hofes, when the saccharged with the theft, arreated was charged with the theft, arreated and are cured by the and locked up, when the watch was found, having been removed by the wonsfound, not clearly defined, to consult with a doctor and learn exactly what course should be pursued before beginning to take any medicine whatever. By doing this, all danger of taking the wrong remedy is averted. The Kickapoo Indian Medicine Co., in order that their patrons shall the sooner be restored to health and avoid any possibility of not doing everything to effect this desirable end, have placed at the disposal of the public in general, the like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made effect this desirable end, have placed at the disposal of the public in general, the use of their medical department. This department consists of a corps of efficient and experienced physicians who will give your case, if you will write to them, private consideration and will furnish you with advice that will be invaluable to you, all absolutely free. We therefore advise any of our readers who are suffering, to write, addressing the Medical Department, Kickapoo Indian Medicine Co. New Haven, Conn. Your letters will be considered as sacredly confidential, and the advice you will receive will come the advice you will receive will come from men of many years experience. Re-member these same doctors that will ad-vise you are all firm believers in the wonderful Indian remedies, on account of their efficacy, as well as due to the fact they are absolutely harmless, being made they are absolutely harmless, being made of roots, herbs, barks and gums, and contain no poisonous ingredients of any description. If you are suffering, it will pay you to drop the Kickapoo Indian Medicine Co. a line as soon as possible, and learn from a competent physician exactly how to use their wonderful remedies.

A Curious New Hampshire Law. A curious law exists in New Ham shire. It is designed to protect the in terests of the town under certain contingencies. It was the custom for any one intending to remove into a town to give notice of such intention. At the give notice of such intention. At the next regular town meeting he was warned to stay away, because the law provided that if this was done the town would not be liable for his support in case he became a pauper. This is still the law in New Hampshire, but it has set been regarded for over a century. not been regarded for over a century Even wealthy and influential men were varned not to remove into the towns which they wanted to live. It was not a matter of disgrace or personal ill-will but purely a precaution to cover possible future financial reverses.

Shake Into Your Shoes

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting feet, and instantly takes the sting out of corns and bunious. It's the greatest comfort discovery of the age. A wholesale paper dealer in New York City relates that his first explanes with Discounting the could be could b rience with Ripans Tabules began 18 months ago. Prior to that he could not recall a time when he was not troubled with constipation. Nothing gave more than temporary allies and the state of the state gave more than temporary relief; but, since taking

Ripans Tabules

perform their functions with regularity; there is no distress after eating no headache, no heartburn, no dizziness—nothing of a dyspeptic nature. The same gentleman also relates that "if he occasionally stays a little lot late at the club and meets convivial companions, a Tabule taken before going to bed wards off every unpleasant after effect."
