Kewaskum Statesman.

Communications should be accompanied by the name of the writer, not necessarily for publication, but as evidence of good faith on the part of the author. Write only upon one side of paper, and, in giving names and dates, be careful to make them plain and distinct.

GEO. NUGENT, Editor.

The offer of peace, which the new Spanish ministry is sending to Cuba by Gen. Blanco, is so heavy that it takes 20,000 fresh soldiers to carry it.

In the absence of a barometer at the Cream City's state semi-centennial celebration, a cue to the free lunch routes of the city may serve the same purpose. For that matter, any old cue but a Chinaman's "will go" in a crowd at Milwaukee.

RAIN has come at last to a large extent of country that was sorely afflicted with the drought. Winter wheat seeding has been very much retarded in all the states which make it a leading crop, but there is yet time for it, especially in those states farther south.

The Chicago Tribune says that J. Pierpont Morgan absolutely controls the whole railroad system of the country. If that is true, it is high time that such men as Robert M. La Follette should seek to arouse the people to the dangers of corporation combinations.

The Baltimore lady who secured a judgement of \$1,770 for breach of promise, notwithstanding that the defendant's refusal to marry her was based on the discovery that she has a flat foot, may now be regarded as having a head good enough to offset any defect in her feet.

EX-GOV. BOIES of Iowa says that "the Chicago platform has had its day in court before the tribunal of last resort." This reminds one that the same was said of the protective tariff policy upon Grover Cleveland's second election to the presidency; but, nevertheless, the champion of protection has since been elected president of the United States by an overwhelming majority.

PROF. ERNEST O. SYLVESTER, who was a few years ago principal of the Hartford schools, has been getting rich in the newspaper and mining business in Alaska, where he went several years ago. He has several claims in the new and rich Klondyke region and has just sent in \$10,000 worth of supplies for the men who are at work for him there, intending to go himself early in the spring.

The death of an Elkhart merchant a few weeks after his arrival at San Antonio, Tex., reminds one that of the many who seek to recover their health by going south, many neglect going thither in time to derive any benefit from the change. However, we have known consumptives to reside in the Lone Star state for several years after physicians had predicted their demise within a few months after leaving their northern homes.

THE inspectors of the Postoffice department, who were sent out to watch the experimental trials made under the congressional appropriation for free delivery of the mails in the rural districts of the country, have made their report to the department. It is understood that the report is very favorable to the plan. The farmers who have had their mail brought to their doors appear to be pleased with the plan and desire its continuance. It is estimated that such free delivery all over the country would cost the government at least \$90,000,000 a year.

THE State board of control has been having a hard time to find a suitable superintendent of the Waukesha Industrial School for Boys to take the place of Hart, who is to be removed as the result of the recent investigation into his methods. The place was offered to President Albert Salisbury of the Whitewater normal school, but it was declined by him. The school has heretofore been made a dumping ground for professional politicians and it is time there was a change. The board should select a superintendent for his qualities for management, and not because he has a political pull. The eyes of the people are upon the school and the state board. They are tired of machine politics in connection with such institutions.

THE municipal campaign in New York is attracting a great deal of attention because of the struggle of the advocates of good government against the political machines which are in for the money that can be made out of the offices. The old Democratic organization of Tammany Hall has a very faithful ally in the Republican machine in the hands of Boss Platt, who would like to set Tammany in control of the affairs of the city if he cannot have it himself. A good start was made for honest government by the citizens' organization which nominated Seth Low (Rep.) for mayor, but Platt refused to let the Republican convention endorse him, and it nominated Gen. Tracy, who was in President Harrison's cabinet as secretary of the navy. Tammany nominated Judge Robert A. Van Wyck for mayor, but his refusal to endorse the Chicago platform so incensed the free silver Democrats that they nominated Henry George. The issue of the campaign depends on whether the George defection from Tammany will be greater than the Platt defection from the opposition which is headed by Low. In case Tammany wins by Platt's help, he will expect a return of the favor when it comes to electing a legislature and state officers, so that while Tammany robs the people through the city government the Platt machine can rob them through the state government.

The government of the United States, like the mythological mills of the gods, grinds exceedingly slow; but, further like them, it also grinds exceedingly fine. Men may use the cloak of the government for questionable business transactions for a time, but sooner or later their career is officially stopped. John Wedderburn, the originator of the defunct Examiner Claims Bureau, the Press Claims Company, and the head of the extensively advertised business of John Wedderburn & Co., solicitors of patents, refused to believe this until confronted with the decision of the Commissioner of Patents to disbar the firm from practice before the United States Patent office on account of fraudulent practices. This is no more than John Wedderburn & Co. deserve, but it is a little hard on a great many newspaper men who allowed themselves to be inveigled into exchanging advertising space for certificates of stock in that concern; it is also hard upon those inventors who have paid advance fees to said firm, but all gold-brick and confidence schemes are hard on the victims. John Wedderburn & Co. also published the *National Recorder*, which the Post-office authorities have been asked to place on the fraud list.—X.

MANUFACTURED ONLY BY
THE J. C. HUBINGER BROS' CO
KEOKUK, IOWA. NEW HAVEN, CONN.

ELASTIC STARCH has been before the people of the United States for twenty-three years, and is without doubt the greatest starch invention of the Nineteenth century. Last year its sales reached the unprecedented number of twenty million packages. It is prepared upon scientific principles by men who have had years of practical experience in fancy laundering. It makes ironing easy, restores old summer dresses to their natural whiteness, and imparts to linen a beautiful and lasting finish. It is the only starch manufactured that is perfectly harmless, containing neither arsenic, alum nor any other substance injurious to linen, and can be used even for a baby's powder. (Oct 3)

"Many have said that their children would have died of croup, if Chamberlain's Cough Remedy had not been given," write Kellam & Orrum, druggists, Seaview, Va. "People come from far and near to get it and speak of it in the highest terms." This is equally true of this remedy in every community where it is known. Buy a bottle at L. Rosenheimer's store and test it for yourself.

Prof. Marcia, who is at the head of the Appleton schools, is the latest choice for superintendent of the Waukesha Industrial School for Boys, vice Judson G. Hart removed.

Few men in this country are better or more favorably known to the drug and medicine trade than E. J. Schall, buyer in the proprietary medicine department of the Meyer Bros' Drug Co., St. Louis. He says: "My boy came home from school with his hand badly lacerated and bleeding, and suffering great pain. I dressed the wound and applied Chamberlain's Pain Balm freely; all pain ceased, and in a remarkably short time, it healed without leaving a scar. For wounds, sprains, swellings and rheumatism, I know of no medicine or prescription equal to it. I consider it a household necessity." Sold by L. Rosenheimer.

WEST BEND BLORE.

The veteran Dr. S. G. Pickett, who will be remembered by old settlers as one of the first practicing physicians in this vicinity, was down from Campbellsport last Wednesday reviewing the improvements made since he was here last and renewing his old-time acquaintances among the residents of Kewaskum—that is, what is left of them.

At the Lutheran church last Saturday Miss Ottilie Dreher and Charles Groeschel were joined in the holy bonds of wedlock. The happy event took place at 2 p. m., with Rev. Greve officiating in the ceremony.

After the ceremony the bridal party repaired to the local photograph gallery, where the young couple obtained several mementos of the happiest event of their lives. Later on a formal reception was held at the home of the bride's parents, where a large number of relatives and near neighbors gathered and presented the couple with many rich tokens of esteem.

Both Mr. and Mrs. Groeschel are well and favorably known by a large share of our readers, the former being a promising young cigar manufacturer here, while the latter is a daughter of Mr. and Mrs. Val. Dreher.

The newly wedded couple, who are now at home in the N. J. Mertes residence building on Railroad street, have our best wishes; and, if the hopes of an admiring circle of friends should be realized, sunny skies and placid seas will surely be theirs throughout the voyage on life's great ocean.

The wedding of Rose Mattes and Otto Gerhardt took place at the home of the bride here on Oct. 12, 1897, with Rev. R. Drescher of Oconomowoc officiating. Annie Gerhardt and Lillie Dreher were the bridesmaids, while Henry Huhnholz and Anton Mattes were the groom's men.

The young couple left last Thursday evening for Chicago, where the groom has resided since he left Boltonville, some time ago. We join their many friends in extending our best wishes.

Not only will the outputs of the three Milwaukee plants absorbed by the American Maltng company be increased, but Milwaukee is to be the purchasing center of the big concern. It is not because of Milwaukee's lake and rail connections that the Cream City assumes so prominent a place, but because Wisconsin barley is the best in the world.
