RESULT OF ELECTION.

Tammany Sweeps Greater New York.

Republicans Carry Iowa—Ohio Legislature in Doubt.

The results of the elections on Tuesday, November 2, are summarized as follows:

New York city is carried by Tammany by a plurality of 80,000.

New York state elects a Democratic judge of the court of appeals by 50,000.

Massachusetts is Republican by 58,000.

Wisconsin is Republican by 20,000.

The Maryland Legislature is probably Republican, insuring a Republican United States Senator from that State.

Virginia goes solidly Democratic.

Detroit elects a Democratic mayor, as do Providence and Newport, R. I., and Buffalo, N. Y.

The fusion ticket defeated the Republican nominees in Cincinnati.

Ohio probably goes Republican by 10,000 to 12,000.

The Legislature with a United States Senator at stake, is close.

Silver Democrats carry Kentucky.

Louisville is Democratic by 500.

NEW YORK.

New York, Nov. 3.—The latest returns on members of the Assembly show a majority of 130.

In the last Assembly the Republican majority was seventy-eight.

Three City Council members were elected in this city.

The Republican majority of twenty, of the twenty-one aldermen elected in Greater New York, five are Republicans and sixteen Democrats.

For chief judge of the court of appeals, Parker (Dem.) has a majority in the Senate.

Taking the revised figures of the returns from the boroughs of Bronx, Richmond, Manhattan and Richmond, the untraced figures from Queens's total vote for mayor of Greater New York is: Van Wyck, 228,242; Wood, 179,439; George, 147,395; Tracy (Rep.), 101,176; and Tracy (Dem.), 19,747.

New York, Nov. 3.—The result of the election in Greater New York was a complete victory for Tammany.

Robert A. Van Wyck, the head of the city ticket, was elected mayor of Greater New York by a plurality of 87,208.

Each of the five Democratic candidates for mayor, carried several assembly districts and polled a large vote, but all were defeated.

Henry George polled 202,222 votes, and carried the majority of the city.

The candidates of the prohibition, socialist and fusion tickets were defeated.

The indications are that with the exception of the twenty-one members of the assemblymen in Brooklyn and nine of the thirty-five in New York all in Queens county are Democrats.

The Citizens union elected two assemblymen in New York.

The present representation in the assembly from the five boroughs is: Queens, 25 Democrats and 12 Republicans; Kings county, 7 Democrats and 10 Republicans; Richmond county, 2 Democrats and 4 Republicans; Richmond county, 1 Republican and 1 Democrat.

An exceptionally large vote was polled, despite the inclement weather, the figures being as follows: Total vote, 1,100,000.

Such a rush to the polls has never been known except in presidential elections.

The registration was abnormal, 452 behind that of last year.

The total of 567,256 registered voters, 6.6 per cent. failed to vote for President and the estimated total of 1,100,000 voters, 28.8 per cent. failed to vote.

Youngstown, O., Nov. 3.—Complete returns from Mahoning county give Basaldua, Republican, 25,000; and Taylor, Democrat, 22,000.

Des Moines, Ia., Nov. 3.—The Register figures on the Republican plurality is 25,000.

These figures are based on practically all the returns.

Chicago, Ill., Nov. 3.—The Register figures on the Republican plurality is 25,000.

These figures are based on practically all the returns.

TOUCH RIGHTS AND GENERAL BENEFITS AS

Such rights and general benefits as dollar have in my letter of acceptance as well as in the platform, being pledged from the first. These pledges are not to be forgotten, those promises are to be carried out.

Albany, N. Y., Nov. 3.—The completed returns from all the counties in the state show that the Republicans have won the year previous by not giving as large a majority for the Democrats at least by changing some of the great gains made in the Assembly by the Democrats, many of them being in counties and districts where the Republican majority on the part of Democratic managers of winning.

Republicans explain these gains by their success in the municipal campaigns and the trading of votes. The morning returns indicate that the Democrats have lost a majority of 30,000.

The Democrats appear to have captured the state except St. Mary's and Calvert, although I am assured that both the Republican senator and member of the House were elected there.

Baltimore, Md., Nov. 3.—With semi-official returns from all the counties in the state except St. Mary's and Calvert and fairly good estimates from there, the Democrats appear to have elected most of the members to the next Legislature to give them a majority of five joint ballot tickets.

Official returns may be necessary to determine the position of some of the counties and may alter the result, but from the best obtainable figures at this time, the Democrats appear to have secured a majority of five joint ballot tickets.

STOLE HUSBAND'S LOVE.

Charge Made by Mrs. Monette Against Grace Howard, the Indian Educator.

Minneapolis, Minn., Nov. 3.—A special to the Journal from Chamberlain, S. D., states that a very serious accusation has been brought against Grace Howard, the celebrated educator, who is the founder of Grace mission, on Crow Creek reserve, and daughter of Joe Howard.

Mrs. Monette, wife of the present superintendent of Miss Howard's South Dakota ranch, has accused her of having seduced her husband's affections, charging criminal intemperance and making a number of charges, all of which are denied by Miss Howard.

It is claimed that the case, which resumes up next month, will be bitterly fought.

A GEORGIA student received fatal injuries in a football game last Saturday; but it is seldom that fatal results follow a prize-fight, though the latter "sport" is almost universally condemned for its "brutality."

AN Arkansas court has decided that a husband can be compelled to pay the debts his wife incurred before marriage. That is good law and good sense, too; the man who is foolish enough to marry a woman who cannot pay her own debts deserves to be punished.

THE Milwaukee Journal has unearthed another state scandal in the Landt case. It really does look as though good men were at a discount when an ex-county treasurer short in his accounts is kept as superintendent of a state institution until arrested on charges of embezzlement.

PROF. MERICA of Appleton has taken charge of the Waukesha Industrial school this week. We hope he will prove to be the right man for the place. A reformatory can not be much of a success unless it is in competent hands, and the unfortunate boys at the school should be made into good citizens if possible.

BOB LA FOLLETTE has commenced his campaign against corporation control of political affairs. He speaks from the pulpit now instead of from the grand stand. It is a hopeful sign when the churches invite speakers to deliver addresses to their congregations on subjects intimately connected with the management of political affairs.

MISS FRANCIS WILLARD, the great head of the W. C. T. U., has given notice that she intends to devote the next year to raising the indebtedness on the Woman's temple and to building a home for workmen at Evans-ton, thus dividing her benefactions between the deserving of both sexes who are not overloaded with wealth. In her, America rejoices and hopes that she will be successful in her grand efforts.

SINCE the Y. M. C. A. of Milwaukee has seen fit to declare war on certain performances at the Academy of Music, the managers of that playhouse may do like those of some newspapers, viz: justify the "objectionable features" by proving that there is a great demand for them. In this matter, the Y. M. C. A. will soon be in a position to sympathize with those who raised a storm of objections over a charity ball given at the Academy several years ago.

THE Union Pacific railroad has been sold to satisfy the claim of the government against it for bonds paid for building it and for defaulted interest on them. The government is to receive over \$53,500,000 from the sale and the company will be reorganized by the syndicate which has purchased the property. When the road was built, just after the civil war, the government guaranteed the payment of the bonds. It was considered a work of great national necessity, and the country at large has profited immensely through it, but the capitalists who have controlled the company have made large fortunes out of it, though they have failed to pay the debt to the government.

THE woods of northern Wisconsin are filled this week by an army of hunters moving to the slaughter of the innocent and unsuspecting deer. Heretofore it has not been possible to gauge the number of deer hunters, but now one must have a state license to hunt in the open season, and the county clerks have been kept busy for weeks issuing the licenses. In the county of Ashland alone over 400 licenses have been issued to citizens of the state who pay \$1 each for the privilege, while non-resident hunters are compelled to put up \$30. In Marinette county two women have gone to the woods with rifles on their shoulders and licenses in the hip-pocket of their bloomers, where the male hunter carries his snake medicine.

THE effort of the United States government to interest Great Britain in the cause of bi-metalism appears to have been a complete failure, and the larger use of silver as coined money is thus rendered more uncertain than ever. To carry out the St. Louis platform promise, to seek to bring about international bi-metalism, President McKinley appointed a commission consisting of Senator E. O. Wolcott of Colorado, ex-Vice-President Adlai E. Stevenson of Illinois, and Gen. Charles J. Paine of Boston to go to Europe and present the case to the British and French governments. The commission has done all in its power to advance the cause of the white metal, but has apparently failed, through the opposition of the British government. France is well inclined to silver and would restore free silver coinage on the basis of 154 to 1. The British government has submitted the case to the government of India, which by the nature of its trade would be the most affected by the change in the monetary standard, but after careful consideration the Indian officials have decided that the risks would be too great and therefore not to be undertaken. This outcome leaves the outlook less promising than ever for leading European commercial nations to restore silver to its old place as standard money with gold.

DUNDEE DOINGS.

The Lutheran congregation is putting up a new stable for the pastor. A baseball game was given last night, and a good time was had. Doyle was the attorney for Mrs. R., but O'Connor made no defense. C. E. Krahn, proprietor of the STATESMAN, called here last Monday and ye correspond was given a pleasant call. While here Mr. Krahn secured the following new subscribers, viz: Rev. A. Reul, Patrick Doyle, Joseph Parrett, Geo. Burnett, A. Habert, Jos. Oederker, M. Schenk and M. Kilkoyne. The bee which E. J. Armond got up last Saturday, to gravel the road between Bowen's and Burnett's hills, was fairly attended at the outset, and in the afternoon a large crowd was present, and they did a very good piece of work. However, when people outside the district, and even the town and county take part improving a road, it certainly would look better for parties within the district to turn out in full force. Good roads is what is needed, and even if farmers are busy they will never miss a day spent improving the roads, as they will save twice the amount in repairing their wagons, etc.

DEPEW ON A GREAT RAILROAD.

"Talking about great railroads," said Chauncey Depew, "the Chicago and Northwestern, with its 8,000 miles of track, is about the liveliest railroad on this continent." "The North-Western trains run to St. Paul and, in fact, over the Union Pacific to California. It is the only road that you can ride fifty miles an hour from Chicago to Ogden and Portland, Oregon, without changing cars." "Where else does the North-West run to?" I asked. "Why, everywhere. It is an all-over-continent railroad. It spreads out like a great fan from Chicago. It runs straight through to Milwaukee, Madison, St. Paul, Duluth, Superior, Ashland and the copper and iron mines of northern Wisconsin, Minnesota and South Dakota to Pierre on the Missouri and Oakes on the Northern Pacific. It shoots a train straight through to Cedar Rapids, Ia., Omaha, Neb., to the Black Hills in South Dakota, and to the Asphalt lakes beyond Fort Casper in Montana. It draws the tin from Harney's Peak, and corn from Lincoln, Hastings and Superior, Nebraska." "And makes time on all these roads?" "Its engines are the best in the world, and its cars the newest. Makes time? Why, Eli, tell me that when their great overland 12-car train shoots into Omaha you will see the Union Pacific officials standing at the end of the bridge waiting to set their watches by the train!"—Eli Perkins' Railroad Letter. Picked Out the Eggs Herself. The other day a woman went into a grocer's and said: "I want two dozen of eggs; they must have all been laid by black hens." The grocer replied: "Madam, I am willing to accommodate you, but you have the best of me this time. I don't know the eggs of a black hen from those of a speckled or white one. You had better pick them out yourself." She did so, and when the two dozen were counted into her basket the grocer looked at them and said suggestively: "Well, madame, it seems as though all the big eggs were laid by black hens." "Yes," she said, "that's the way you tell them."—X.

At the Holy Trinity church in Newburg, last Wednesday, George Riley and Katie Foley were united in the holy bonds of matrimony by the Rev. Nuttmann. The bridal party consisted of the Misses Rose Foley and Anna J. Riley, and the Messrs. Edward Riley and Patrick Foley. After the ceremony at the church the couple, accompanied by their many relatives and friends, repaired to the home of the bride's parents, where the remainder of the day was pleasantly spent in the usual festivities of such an occasion. Mr. and Mrs. Riley were the recipients of many beautiful and valuable presents. They will reside on a farm near here. NEW PROSPECT NOTES. John Van Blarcom is at home to stay now. P. A turkey shoot will be held at H. Wittenberg's tomorrow (Sunday) at 2 p. m., and a fine lunch of turkey will be served in the evening. All are invited.

Last Wednesday was a very lively day in the village. The streets were lined with teams, and 4 cars of stock were shipped, reminding one of a Cattle fair day.

The L. Rosenheimer Malt and Grain Co. took in considerable cloverseed during the past week, as high as 200 bushels having been received in one day.

Dr. Klumb attended the second annual dance given by the Tennis club at West Bend last Tuesday evening, and he says that it was a very enjoyable affair.

Mat. Hosterman of Hartford is having his well drilling apparatus put in good trim at Remmel's machine shop, preparatory to drilling several wells at Mitchell.

Another consignment of gents' clothing was received at the L. Rosenheimer store last Tuesday, which indicates that the firm's low cash prices there are winners.

The frame work for a bay-window in the depot arrived Thursday and will be put in place shortly, making an improvement which Agent Gottsleben has wanted for a long time.

The 64th anniversary of the birth of Peter Kohn was celebrated at his home, 3 miles northwest of here, last Wednesday evening, and a very enjoyable time was had by all who attended.

While the frosty atmosphere of the past week was quite disagreeable at times, it has proven a great blessing to the people of the South where yellow fever exists, as cold weather kills the germ of that dreaded disease.

While at Beechwood last Tuesday we viewed Chas. Koch's new building, which is nearing completion. It is a splendid, large structure and would be a credit to a large city; but, as Charles says, "nothing is too good for Beechwood."

According to the best reports from dealers, the unprecedented apple crop of last year has been followed by an almost complete failure this year, and it is said that where trees bore crops a year ago they had few or no apples this season.

RUNAWAY NEARLY RESULTS FATALLY.

Last Tuesday afternoon while Rev. Schmidt was driving the young horse which he lately bought of Arey Perschbacher, the animal became frightened in front of the latter's shop, on Fond du Lac avenue, by a team that followed closely. The colt jumped to one side and the rig struck an obstruction which tipped out the driver, who clung to the reins and was dragged a few rods before he let go. Luckily he escaped serious injury, having sustained but a few scratches.

The horse continued his course northward on the avenue, and several teams coming in the opposite direction only avoided a collision by clearing the way until Mat. Fellenze came along with his team and buggy. The runaway struck the rig and threw Mr. Fellenze forcibly to the sidewalk, where he was picked up in an unconscious condition. On taking the unfortunate man to Dr. Hausmann's office, a hole was found to have been made in his head, although he sustained no other injuries except a few bruises.

Mr. Fellenze's team also ran away, all three of the horses going north as far as Geo. Schief's farm, where they were caught. Neither of the rigs were damaged much.

SAURERSS BARDS.

Henry Saureress is repairing his house. Mrs. Jacob Voltz of Milwaukee is visiting her parents here. A surprise party was tendered Peter Jansen and wife this week.

A Kircher and A. Kapfer were in Kewaskum last Monday. Charles Buckley of Boltonville was seen on our streets recently. John Roming is now ready to saw wood in good shape at reasonable rates.

Gerhard Malenauer, Sr., has put a wind-mill on his barn. It was bought of H. Kircher, Jr. The Kickapoo did not give their last show Wednesday night, but concluded to stay until tomorrow night.

The Barton business men should adopt the cash system and keep up with the procession. It would also save them from being beat out of many a dollar.

BEECHWOOD BEAMLETS.

Willy Fox is working for Peter Glass, Jr. B. Hicken and family drove to New Cassel last Sunday. Wm. Schaefer and Fred. Heider are very busy cutting cedar posts.

Emma Gutkae is employed as a domestic at F. Harvie's in Farnell. Peter Ketter made a very pleasant call near Parnell last Sunday evening. Miss Annie McBride went to St. Ann last Monday to commence her school.

Mrs. Lofis of Forest Junction made a brief visit with her mother, Mrs. Ann McBride, this week. John Held is having his well bricked and our local water explorer, Frank Rose, is doing the job.

Miss Margaret O'Connell is spending the week in Sheboygan visiting her sister, Mrs. Jos. Hughes. John Gills received the sad news of the death of Thomas Gills' little boy at Sheboygan as a result of diphtheria.

The N. C. and C. literary society will hold its first meeting of the season tonight. The sale at McCullough Bros.' store Wednesday was pretty well attended. E. B. Rook and family have moved into the vacant half of John Grissman's house.

WAYNE WAFTINGS.

Last Thursday, W. Petri threshed his cloverseed and it yielded 20 bush. Andrew and William Martin left last week for Milwaukee to seek employment.

The raffle and dance given by John Batzler last Sunday evening was fairly well attended. The woods around here are full of hunters, and many of them secure plenty of game.

George Petri spent Thursday and Friday at Milwaukee purchasing a new stock of goods. It is rumored that the marriage of John Brinkmann and Miss C. Becker will take place soon.

Petri Bros. are still manufacturing cheese and expect to run their factory the rest of this month. A few more fine days like we had this week and our farmers will be through with their rush work.

The wedding of Julius Bartel and Dora Broecker, both of our town, will take place some time next week. Not many pranks were played here Sunday evening, but one of the worst was played by Carl on Napoleon.

The Richardson Bros. gave a minstrel and dog show in Petri's hall, to a fair-sized house, last Tuesday night. J. H. Martin of Kewaskum called on us Tuesday evening and spent the night with his parents. John is a welcome boy in our burg, and we always know when he's here by the sound of a violin and a cornet at his home.

The Forster Bros. have a framed photograph of Dr. Hausmann's residence grounds showing the duplex steel tower wind-mill which they erected for the Doctor some time ago. It will prove a good advertisement for them.

NEW CASSEL NUGGETS.

The recent mayoralty contest in Greater New York will remind the student of current events of the election which will ensue upon the consolidation of Campbellsport and New Cassel, under the name of Greater New Cassel. "There is no longer any doubt," said Mr. Joseph Goss, who was in New Cassel last Monday evening, "that the influence toward the union of the two cities; 'there is no longer any doubt as to the consummation of the project,'" and Mr. Goss emphasized his words.

He is an energetic worker and deserves some recognition at the polls. He is already spoken of for city engineer. The mayoralty lies between John Clifford of New Cassel and Michael McCullough of Campbellsport. The friends of Mr. Clifford look for a strong vote, and his probable majority, between Milwaukee bridge and the Big culvert McCullough's strength lies west of the Prussian line.

The committee in charge of the Clifford forces met Tuesday at the Glass harness shop and decided to hold a caucus at the Eagle hotel in the near future. There are three candidates in the field for city clerk. They are John Kohler, Otto Teschendorf and Al. Busch. It is said that John stands in best with the "boys" and the "push" will carry him through.

In all probability, Hon. R. C. Caniff will be the first judge of the municipal court, although there are rumors of a strong candidate in the person of M. Dagenhart of Campbellsport. Prof. B. Harigrove is the only candidate for superintendent of schools; but it is said there will be a strife. "Billy" Hall, the well-driller, is urged for sidewalk commissioner. If elected, his first duty will be to counteract the influence of Hallowe'en.

A number of neighboring friends made their appearance at the home of Mr. and Mrs. Mat. Marx last Friday evening on the occasion of the 25th anniversary of their marriage. Refreshments were served at 11 o'clock and the old folks enjoyed dancing until 1 o'clock, when the guests left wishing the host and hostess many returns of the day.

HE NEVER CAME BACK—A gentleman calling at a hotel left his umbrella in the stand in the hall with the following inscription: "This belongs to a man who can deal a blow of 250 pounds weight. I shall be back in ten minutes." On returning for the umbrella he found instead a card thus inscribed: "This card has been left by a man who can run 12 miles an hour. I shall not come back."—X.

Miss Cisneros, the young Cuban girl who was made famous by her sensational escape from a Havana prison, arrived in Chicago last Monday and remained there until yesterday, when she returned to Washington, D. C. The directors of the Milwaukee Carnival association held a meeting last Monday evening and decided to hold the celebration of the 90th anniversary of the state of Wisconsin during the week beginning with June 27 and ending on July 2, 1898. Last Monday morning Dr. L. M. Bachhuber of Maville received an infernal machine. On unwrapping the package he luckily noticed several grains of powder which had escaped from the box to the wrapper, so he soaked the whole in water and later opened the box and found the interior arranged so that sliding the lid open would scatter a bunch of matches and ignite sufficient dynamite to blow the Doctor into eternity.
