—The boiler can be located convenient to the watering tank, the dairy or the work shop; stock will not freeze in ice water; there is nothing but steam that will keep pans, cans and dairy utensils absolutely sweet; steam through a coil of pipe running around the workshop makes a comfortable place for the farmer to repair his implements, harness and tools in winter.

—While our local machinist is not the inventor of this feed cooker or agricultural boiler, he has examined and approved its mechanism and will therefore guarantee it in every sale.

VERDICT ON CARL LINDBACK'S DEATH.

At the inquest held before Justice Sievers in West Bend last Wednesday, doctors testified in accordance with the post mortem examination reported in these columns last week.

Dr. Dustin testified that said examination showed that Carl Lindback's heart was normal, as were the lungs; that the blood which proved fatal "would stop the heart and also the blood channels of the brain."

Dr. Heider corroborated these statements. Dr. Dustin, who was called at the time, said that young Lindback lived about ten minutes after receiving the blow. Several witnesses of the fight testified, also Willy Glantz, but nothing contrary to the particulars given last week developed.

THE CORONER'S VERDICT.

The coroner's jury, after being out a short time, brought in the following verdict:

"That Carl Lindback, deceased, came to his death accidentally at the hands of William Glantz, on the 24 day of February, 1898, at the city of West Bend in Washington county, Wis. We recommend that William Glantz be not prosecuted for manslaughter. While believing that no further action is advisable as to the matter leading to the affair causing his death, we recommend that boxing exhibitions or contests within this county be not tolerated, and that the authorities of the city of West Bend in particular take such step at any time as will result in the suppression of such exhibitions, contests or so-called sport."

The Origin of St. Valentine's Day.

The following, from Leisure Hours, gives a great variety of information as to the origin of the above named day.

1. In England and Scotland, on the 14th of February, each young bachelor received by lot one of the opposite sex as "valentine" for the year.

2. It was a kind of mock betrothal marked by the giving of presents.

3. The usage no doubt grew out of the old notion, alluded to by Chaucer and Shakespeare, that on this day birds choose their mates.

4. Several saints of this name of Valentine (one of them a martyr at Rome under Claudius) were venerated on Feb. 14.—Chambers.

5. Some hold Valentine's day is observed in commemoration of St. Valentine, a Christian martyr, who was decapitated in 270 A. D., during the Claudian persecution at Rome.

6. It is not improbable that Valentine's day owes its origin to a commemoration of the loving and charitable disposition of St. Valentine.
