HIS LIVING EXPENSES.

Millions Said to Have Been Lost in the Chinese Railroad Enterprise.

New York, Jan. 5.-As has been stated, the entire estate in New York of Calvin S. Brice amounts to only \$600,000. Common consent had placed that estate at \$10,000,000. The fact came out when the widow, Catherine Olivia Brice, filed a petition praying for appointment as administratrix and declaring that her husband left no real property and only \$600,000 in personal property.

concessions. By skillful diplomacy he had gained from the Chinese government permission to build a railroad from Hankow to Hong Kong, a distance of more than a thousand miles, as well as the privilege to mine coal, iron and other materials along the route of his line.

This privilege cost an enormous amount of money. Mr. Brice expected to own in time a vast railway system that was to honeycomb all China, tap its vast resources, and do business for its 400,000,000 people. He died just as the preliminary work had been done and just as he secured the necessary capital in Engsecured the necessary capital in England to assure him success.

Brice spent \$200,000 a year on his family and nt. his fortune was pla at \$5,000,000. The commercial agencies

gave him that rating.

But Calvin S. Brice was not spending the income on his investments. He was spending his principal—the money he made day by day. Some of it went for household expenses, some to his family, some for clubs, opera box, traveling, en-tertaining, politics, horses and the like; the rest was spent at Newport, where His widow's affidavit shows that Mr. Brice died without leaving one penny invested in real estate in this state. Not even the home on Fifth avenue was his. When the Brices moved to New York, twenty years ago, Mrs. Brice bought and paid for the house out of her own purse. Her husband has saved nothing. In fact, he died worth less than he had when he came to New York a millionaire, twenty years ago.

Under the law the widow is entitled to one-third of all personal property. That gives Mrs. Brice \$200,000. The remainder is divided among the children. Mr. Brice had five children, and each one will get one-fifth of the remaining \$400,000, or \$80,000.

fore courts and juries is indicated by the fact that he has been found on one side or the other of the majority of all the great trials of the time. Among lawyers there is a saying that Mr. Choate's contemporaries divide among

Some of the leading elements of his remarkable success with juries are a strong yet simple style of spenking; a voice of robust tenor quality, musical, flexible and under admirable control; a dignified presence, coupled with a most affable bearing, and above all, a matchless good humor which infuses itself into all that he says and does, "His humor is absolutely unique," is the judgment of Frederic R. Coudert.

Undoubtedly Mr. Choate will accept the Undoubtedly Mr. Choate will accept the post of ambassador to England at a sacrifice of income, for lawyers who ought to know say that his practice is very lucrative, and that he has received many fees of \$100,000 or more for a single case. In the social and public life of New York he has been as distinguished as at the bar. He took the stump for Fremont in 1856, and he has been heard in every important campaign since that

In the case of David Stewart against Collis P. Huntington, tried in 1881, for the payment of a large sum of money which Stewart claimed was due to him under an agreement with Huntington for the purchase of certain Central Pacific stock, Mr. Choate appeared for the plainting December 2008 cupation.

Dr. Castillo and Mayor Bacardi have urged the citizens to remain peaceful while awaiting the results of the visit of Gen. Wood and Dr. Castillo to Washington. Gen. Wood, accompanied by his aide-decamp. Lieut. Hanna, and Dr. Castillo, representing the merchants and business men of this city, left here for New York today on board the United States transport Mississippi. They were accorded an enduring their passege down Mariani street to the wharf.

The municipal band preceded Gen. Wood, who was accompanied by the mayor and his staff and large numbers of officers and Cubans, who walked the entire distance, amid continuous applause and deeply moved. There were between 5000 and 6000 persons in the procession and the women wept and wished the general bon voyage. Cuban gratitude was never more clearly expressed. Men who a few weeks ago were antagonistic to the American commander were today among his most entire to the Fifth regular infantry were today on board the auxiliary guntal and bade her farewell in the usual man-load this between this salted with Huntington for the purchase of certain Central Pacific stock, Mr. Choate appeared for the plainting the purchase of certain Central Pacific stock, Mr. Choate appeared for the plainting. Roscoe Conkling was on the other side and he insisted that Huntington was not responsible for what his associates might have done on the Pacific coast. On this point Mr. Choate said to the jury:

"It reminds me, gentlemen, of an alibi that was introduced in another famous case. You remember when Mr. Tony Weller was called in consultation about the defense of Mr. Pickwick, in whose arms the fair widow who sued him had been found dissolving in tears, and he said: 'Sammy, may advice to you is to prove an alibi. Some defendants when brought to trial believe in character and some in an alibi, but I advise you to stick to an alibi and let the character and some in an alibi. His Great Courage.

That courage is among the great advocate's qualities has been shown on many memorable occasions. He was once addressing a bench on which Judge Van Brunt was sitting, and the judge wheeled his chair around and began to talk with one of his associates, paying no heed to Mr. Choate. Judges have been known to do such things before and since, and usually lawyers accept the situation without protest, fearing to offend the bench. Mr. Choate, however, stopped short in his speech, folded his arms and looked straight at the judges. His face was a study of well-controlled resentment. The courtroom was hushed, and the stillness was so marked that Judge Van Brunt turned to the silent lawyer with an inquiring gesture.

"And you shall have it," was the judge's instant reply, recognizing at ones the fairness of the protest and the tactful way in which it had been made.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also manufactured by scientific processes known to the California Fig Syrup Co. only, and we wish to impress upon all the importance of purchasing the rue and original remedy. As the genuine Syrup of Figs is manufactured by the California Fig Syrup Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALI-FORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of

### WHAT IS RAG TIME?

An Artist Tells How it is Evolved from Any Music. "What is 'rag time?' " the enthusiastic rtist was asked.

"Well, the extensive literature on this "Well, the extensive literature on this subject will explain it best. Now, here's a rag-time primer." At this juncture he produced a big piece of sheet music with the picture of a young man looking very unhappy in a dress suit. "This young fellow," pointing to the picture and reading, "claims to be the 'original instructor to the stage of the now popular rag time in Ethiopian song.' The author guarantees to teach anybody who can play the piano a little bit how to play in rag time. The preface says 'rag time (or negro dance) reface says 'rag time (or negro dance from Spanish music, or, rather, from Mexico, where it is known under the head and names of Habanara Seguidilla, etc. being nothing but consecutive music, either in treble or bass, followed by reg-ular time in one hand. Would Punish Jockeys. C. Whitney's radical views on the probable that the stewards of the Jockey club may be moved to take some action sustaining the ideas. Mr. Whit-ney thinks much of the bad racing that has been seen in and around New York r the past two seasons has been the fault of the jockeys. He would do away with this evil by so disciplining the boys that they will be most obedient. He advocates the suspension of riders for stated terms—months and possibly seasons. The main idea is to take no notice whether the offending jockey is on a favorite or an outsider. The punishment for failure to join his company at the post or for other objectionable acts would be visited upon him just the same.

It is expected that if the idea is carried out a new office will be created, that of starting steward. Mr. Whitney would not invest the average.

Pe-ru-na works harmoniously with nature to eject the tubercles from the lungs, and works so successfully that if there is a cure for consumption

Pe-ru-na is the remedy. Read this letter from Mrs. H. A. Tyner, of Four Oaks, N. C., about her daughter, Mrs. L. Keene. She says: Pe-ru-na Medicine Co., Columbus, O.

DEAR SIRS:- "My daughter had every symptom of consumption-suppression Address, Allen of menses, night sweats and great emaciation. She was so low that none of who had taken Pe-ru-na, told me if anything would help her Pe-ru-na would. I got a bottle of it and some rock candy and began giving it to her. Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.
