IMPROVEMENTS IN ROADS.

A bill pending in the legislature for an improvement in the methods of road making is sure to interest the farmers of Wisconsin. It provides for a change in the general plan so long followed in this state and is supported by many who have long studied over the problem.

The farmers pay money enough every year for road-making to have good roads in their districts, and a large part of it is literally thrown away. Road overseers, as a rule, know little or nothing about road-making and too often the work is very shabby done.

THE events of the war in the Philippines thus far have all been favorable to the Americans, but they show that we have a great deal of trouble on our hands there. The natives are ignorant and fanatical. They have been oppressed so long by white masters that they mistrust the Americans as badly as though they were Spaniards.

THE east and south have had worse weather the past few weeks than Wisconsin has had. The heavy snow storms and other storms in those parts of the country are worse to contend with than the cold weather we have had in this section.

POLITICIANS still talk of the necessity of protecting our ship building interests, but the fact is that we are ahead of the whole world in that respect. A cruiser just finished for Japan at the same yards in San Francisco where the battleship Wisconsin is being built has made her trial trip and broken the record, showing that she is the fastest war vessel afloat.

THE legislature is wrestling with the free pass question, and it looks as though a law would be passed forbidding any public official to accept free transportation on a railroad or similar favors from any other corporation.

Nic. Schneider, Jr., transacted business in the Twin Villages Monday. Miss A. M. Fellenz returned home last Saturday, after spending two months with relatives at Cadott.

PRESS PULSATIONS.

Gentlemen who have cultivated the habit of telling how the winters have constantly been growing warmer in Wisconsin, and who have told why the climatic change would endure, may now forward their applications for membership to the nearest Don't Worry club.—Milwaukee Sentinel.

Senator McGillivray has introduced a bill looking to a division of the spoils of office to counties according to population. It requires a list to be made of all state officers and employees, with the salaries paid each. Dividing the offices would divide the salaries thereof among the counties. The bill makes no distinction between counties which give Republican majorities and those which do not.

In other words, it seems that Mr. Rockefeller is preparing to make another endowment to some college at the expense of gasoline users.

Wednesday the four were sent to Battery I, Fourth Heavy artillery, at Ft. Trumbull, Conn.

SUBRE LENTEN DAYS. Because the moon will be full on March 27, Easter falls on April 2 this year, and because Easter falls on Feb. 15, Ash Wednesday came on Feb. 15. As Easter is always the first Sunday after the full moon which happens on or next after March 21 of each year, changes of the moon's phases makes Easter a movable feast and consequently determines all the rest.

Lent has been observed since the days of Christ, as it is an institution of the Apostles in commemoration of all of the Lord's physical sufferings, combining at once the fast in the wilderness, the sufferings during holy week and the crucifixion. Beginning with Ash (last) Wednesday, Lent covers a period of 46 days, but 40 of which are really of Lent, as the Sundays are not included in the time of fasting.

Ash Wednesday is so called because ashes in the beginning was laid upon the heads of sinners who were subjected to public penance; and it is now laid upon the foreheads of all good members of the Roman church. In the early days the guilty presented themselves at the churches to avow their faults and to receive the ashes on their heads, at the same time being covered with the hair cloth or sack cloth of penance, after which they were solemnly driven from the church door and not allowed to enter again until Holy Thursday. After the abolition of public penance, in order to conserve the pious teachings of the custom, ashes are now laid upon the forehead at the beginning of lent in the sign of the cross with the reminder of "dust thou art, and unto dust thou shalt return."

Fasting is proposed and instituted as a means of mortifying the flesh and turning the attention toward the church and the great lessons that are taught in the drama of the Passion week. As a general rule fasting is a limit upon not only the quantity and kind of food consumed but also upon the enjoyment of the pleasures of the world. Unlike the Roman church, the Anglican Kirk prescribes no set rules and regulations to be followed as to food consumption, but leaves it to the conscience of the churchmen.—Evening Wisconsin.

Carpenter and mason contractors are invited to call at Wenzel's place and figure on the work between now and March 1st, as the sealed bids will be opened on that date.

Mrs. Nic. Zehren died last Sunday morning at her home, aged 73 years and 10 months. The deceased had been sick for a long time previous to her death. She leaves quite a number of relatives and many friends to mourn her demise. The funeral services were held in the Catholic church Tuesday at 10 a. m., with Rev. Bernard officiating and interment in the St. Martin cemetery at Ashford. May she rest in peace.

HEALTHY MATERNITY.

Two Grateful Women Tell of the Help They Have Received From Mrs. Pinkham.

Read what Mrs. G. A. NONZADDER

Bluffton, Ohio, says about Lydia E. Pinkham's Vegetable Compound, and how well it prepared her for her pregnancy.

Read what Mrs. PINKHAM

has to say about her own experience with her Compound when she was pregnant and labor was not nearly so long as it was with my other babies; and my baby is healthy and what the others were. I think every woman should use my Compound when pregnant, and it will save them so much suffering and misery. I cannot say enough in praise of it. If ever I need medicine again, I will use my Compound.

The most successful tonic known to medicine for women approaching maternity

is Lydia E. Pinkham's Vegetable Compound. It is a safeguard for every woman who uses it, and the fullest benefit comes from its use with Mrs. Pinkham's Advice freely offered to all women.

Here is a convincing statement

bearing directly on this subject, from Mrs. E. B. BOSTON, of 1848 Pacific St., Brooklyn, N. Y.:

"DEAR MRS. PINKHAM—

I am a great believer in your Compound. I was almost despairing of ever again being well, as I have a great sufferer, and had been for years. I suffered from womb trouble, and had terrible blind fits. After writing to you I tried your Compound, and the result was astonishing. I have used it and do not intend to stop. In childbirth it is a perfect boon. I have often said that I should like to have my merits known on the sky with a search-light, so that all women would be convinced that there is a remedy for their sufferings."

A Million Women have been Benefited by Mrs. Pinkham's Advice and Medicine

Rich Pearl Fields Discovered.

New pearl fields of great richness have been discovered off the coast of New Caledonia on the west side, according to the United States Consul Wolf at Noumea. He says that one shell contained the fabulous number of 226 pearls, and one little boat of one and one-half tons furnished last year twenty-two pounds of pearls. Up to this time the water has not been sounded to a greater depth than six feet seven inches, but the fisheries are to be further explored by French and Austrian syndicates. Mr. Wolf says that the quality of the pearl shells is remarkably fine and he urges that Americans profit by the discovery.

Strange Funeral Customs.

In an interesting history of his parish Rev. James Murray of Kilmalcolm, Renfrewshire, mentions that even the joys of the people we must not fail to notice funeral customs, and he calls attention to a curious custom which was prevalent in connection with them. It appears a sieve containing clay pipes, tobacco and was handed round just before the corpse started. Then the mourners, at the head of the bier, as the yard was reached, as the grave was being filled, each stepped solemnly forward and caught a pipe "among the mourners."—Notes and Queries.

HEALTHY MATERNITY.

Two Grateful Women Tell of the Help They Have Received From Mrs. Pinkham.

Read what Mrs. G. A. NONZADDER

Bluffton, Ohio, says about Lydia E. Pinkham's Vegetable Compound, and how well it prepared her for her pregnancy.

Read what Mrs. PINKHAM

has to say about her own experience with her Compound when she was pregnant and labor was not nearly so long as it was with my other babies; and my baby is healthy and what the others were. I think every woman should use my Compound when pregnant, and it will save them so much suffering and misery. I cannot say enough in praise of it. If ever I need medicine again, I will use my Compound.

The most successful tonic known to medicine for women approaching maternity

is Lydia E. Pinkham's Vegetable Compound. It is a safeguard for every woman who uses it, and the fullest benefit comes from its use with Mrs. Pinkham's Advice freely offered to all women.

Here is a convincing statement

bearing directly on this subject, from Mrs. E. B. BOSTON, of 1848 Pacific St., Brooklyn, N. Y.:

"DEAR MRS. PINKHAM—

I am a great believer in your Compound. I was almost despairing of ever again being well, as I have a great sufferer, and had been for years. I suffered from womb trouble, and had terrible blind fits. After writing to you I tried your Compound, and the result was astonishing. I have used it and do not intend to stop. In childbirth it is a perfect boon. I have often said that I should like to have my merits known on the sky with a search-light, so that all women would be convinced that there is a remedy for their sufferings."

A Million Women have been Benefited by Mrs. Pinkham's Advice and Medicine

THE LEGISLATURE

Senate.

The Senate held a fifteen-minute session on the 10th. President Pro Tempore, Mr. Humphrey, moved to lay on the table the bill for the relief of the insolvent debtors, which was adopted. The following bills were introduced: By Senator Devoe, a bill to amend the law relating to the duties of commissioners of fishery, which was referred to the committee on fishery. By Senator Whitman, a bill to amend the law relating to highways, which was referred to the committee on highways. On Handshaking.

While everyone shakes hands, not everyone knows the etiquette of the ceremony, which changes from season to season, according to fashion's latest caprice. Friends of course, may shake hands as often and in whatever manner it pleases them best to do so. They may grasp each other's hands heartily, hold them for a bit if they will, then release them with a cordial pressure. They may be greeted by them in raising and curving the right hand, or in the high lateral movement that means nothing but that a snip-snap is at one end of the hand, or in a "hug" which may give the shake rotary.

CONGRESS.

During the entire open session on the 10th the Senate had under consideration the legislative, executive and judicial appropriation bill. Little progress was made, the time largely being occupied with debate on minor topics. A bill amending an act of Congress for the relief of the insolvent debtors of states and territories for expenses incurred by them in raising and curving the right hand, or in the high lateral movement that means nothing but that a snip-snap is at one end of the hand, or in a "hug" which may give the shake rotary.
