—In a letter sent from Madison, S. D., Chris. Tischhauser says that the prices of farm lands there are advancing at a lively rate. Farms that could have been bought for \$1,200 last October are now held at \$1,700. He says those who want to buy Western farms should make haste, as it is his opinion that the prices are going higher yet. —David Holmes of Wausau, who was mustered out with Co. I at Ansonia and who volunteered to ride Col. Caldwell's horse from Milwaukee to Oshkosh, arrived here last Monday and shipped the steed the rest of the way up to the latter city. The animal was a southern horse and unused to icy roads, so Mr. Holmes concluded not to risk driving the precious charger any further. In talking about life at the Alabama camp the Wausau volunteer gave his opinion of the rations by stating that when the secretary of war visited Ansonia he asked one of the boys how he liked the feed, whereupon the soldier kindly invited Gen. Alger to dine with him. It is needless to state that the general declined to obtain "proof of the pudding" by eating it himself. Just imagine a war secretary full of "embalmed beef."

On motion of N. J. Mertze the board adjourned to meet on March 27th at 7:30 p. m., for the purpose of making a final settlement with the treasurer. JOSEPH SCHMIDT, Clerk. Father Grome's Proposed Grotto. The Rev. Father Grome, formerly pastor of the Catholic parish here, is now raising money in Milwaukee for a grotto which he proposes to have built underneath St. Joseph church at Eleventh and Cherry streets. The unique piece of architecture will cost \$4,000, and the priest has already raised \$3,000 of the necessary sum. According to The Sentinel the plan is to build a subterranean room at a depth of 9 feet below the basement floor of the church. Although its dimensions have not yet been decided upon, it will be built of masonry, and the interior will be covered with ground glass spars, the design being such as to convey the impression of a grotto. Above, in the basement chamber, a chapel will be erected. Both the chapel and grotto are to be in imitation of the grotto at Lourdes, France, the present fame of which rests entirely upon the grotto of Massaville.

It will be useless to hope for certificates if the branches in which the examination is required have not been mastered with a fair degree of thoroughness. Teachers are especially requested to make a careful study of the Manual of the Elementary Course of Study for Common Schools. All persons who expect to teach in Washington county during the coming year should attend one of these examinations in order to procure the legal requirements necessary to engage a pupil. District Boards are urgently requested not to honor expired certificates. Pupils from the county schools who wish to write for diplomas may present themselves at any of the following places: Allenton, March 20; Jackson, March 21; Kewaskum, March 22; Richfield, March 24; Hartford, March 29; West Bend, April 5. A Ball Game Reveals Leprosy.

A correspondent sends us a terrible account of a ball game in New Mexico, where leprosy was discovered.

Accompanied by the doctor, the young leprosy patient crossed the river to her father, and in a nervous way and blushing painfully she told him what her partner had said.

A JUDGE'S EXPENSES.

They Amounted to More Than His Salary by About \$60,000.

And in this connection, said Chief Justice Peters of Maine, I will state my own experience. I have been on the bench continuously for twenty-five years last May, and my salary, at first \$3000, and since 1887 \$2500, has never for a single year paid my year's expenses, or anywhere near it. The nearest it has ever come to making the two ends meet was in 1874, the year next after my appointment, when my expenses of support were \$2416. And this sum did not include house repairs, nor did it include taxes, nor expenses of travel, nor money paid for law books, nor gifts to friends and relatives, excepting small current charities. The next nearest to this was in 1880, when my living expenses, making the same exclusions of donations as before stated, were \$4750.

The disparity in all the other years of my occupancy of a seat on the bench between receipts and expenses were greater than in the instance named. And while it may not be worth while to expound facts in detail, I will say in general terms that for the period of more than a quarter of a century during which I have been a member of the judiciary, and wholly in the service of the state, my ordinary living expenses, not including my maintenance in the family, exceed all the amount of salary received by me from the state by more than one hundred per cent. And still I am not aware that I am regarded by my friends and neighbors as living at all extravagantly.

"Only the First Step" is Difficult.

The first step in Spring should be to cleanse Nature's house from Winter's accumulations. Hood's Sarsaparilla does this work easily. It is America's Greatest Spring Medicine. It purifies the blood, as millions of people say.

It makes the weak strong, as nervous men and women gladly testify. It cures blood diseases, as thousands of cured patients can testify. It is a medicine for you, as you will gladly say after you have given it a fair trial.

Bad Blood—Although past 70 years of age I am thoroughly well. It was three bottles of Hood's Sarsaparilla that made me so after spending over \$60 in medical advice. My blood was a raw rose on my ankle. Mrs. LOUISA MASON, Court Street, Lowell, Mass.

People Care Nothing for Professional Differences if It Cures. Medicine these days is making such a name for itself that it is being planted by the cure of today's ailments.

Curiosities of Colds. It is a remarkable fact that people catch colds only when they are warm. A correspondent writes from Arroyo Seco Plaza postoffice, in New Mexico, that copper, gold and silver are found in a canyon near there.

MONSTER FISH STORY.

It was Told by a Woman So It Must Be True. Mrs. George O. Barnes, who lives on Sanibel Island, in the Gulf of Mexico, has written a letter to her youthful kinsman, Master John Bogle of Danville, Ky., in which she relates a most interesting and at the same time a most extraordinary fish story.

One morning as Mrs. Barnes was upon the beach she and two others saw a great commotion in the water. They saw a large fish jumping about and black objects were splashing about and spray was rising before them. The person soon reached the shore, and stood in wonder at what was before them.
