Executed to order with neatness and

A New York photographer discovered "Klondike" and is working it for all 's worth. In his studio he has a stuffed horse, posed in the gallop attitude. The animal is affixed to a platform, the surface of which is well concreted. A park scene is in the background. Young and old women, but particularly the former, who are anxious to give their distant friends the in pression that they are well ap in equestrianism, come to the studio in battalions and have themselves photo-

This morning Baron von Buelow informs the

morning Baron von Buelow informs the American ambassador that Great Britain has at last agreed to the unanimity rule."

The United States has also agreed and the commission can probably proceed to the islands without delay.

The German press this morning gives yesterday's news calmly and mostly without comment.

The Cologne Gazette remarks: "We need not say that if the guilt of the man ager of the German plantation is proven Germany will approve of his arrest and demand for his punishment. We will not defend the behavior of a German abroad rerely because he is a German."

The Cologne Gazette also admits that

Dr. Raffel (the German president of the municipal council of Apia) acted illegally in closing the chief justice's office and The other two powers, we hope, will also admit the illegal acts of their repre-The Tageblatt calls the arrest of the

The Tageblatt calls the arrest of the German manager of the plantation, in which the ambuscade took place, "illegal," saying: "Our consul is the only competent judge."

The Lokal Anzeiger expresses the opinion that the affair shows the need of prompt action by the commission.

The Vossische Zeitung says: "Whatever action the German government takes it will find itself fully backed up by the Reichstag."

by the Reichstag."

A number of leading papers, like the Deutsche Zeitung, Schlesische Zeitung and Hanover Courier point out the ne-cessity of a larger navy and urge the hastening of the present increase in its strength and the adoption of an addi-tional bill for the construction of other

The interpellation on Samon, to which the minister of foreign affairs, Baron Von Buelow, has consented to reply, will be the first subject taken up at Friday's session of the Reichstag. KAUTZ IS ALL RIGHT.

needless collisions, but to protect proper-ty and life until the three treaty powers decided how to deal with the situation. No further instructions have yet sent to him and if any go by eal the next twenty-four hours, which is the limit of the time available if the outs they will be simply a repetition of for mer orders. Department officials point ont that from accounts so far received in pursuance of the policy of defense of foreign interests. It is expected that h will not abate his efforts to secure the restoration of peace and it is probable that when the high commission arrives at Apia it will find its work facilitated ugh the suppression of the commissioners are not likely to

A cadet on his way to Manila had run Cannot Get Outfite from Campa—Some Lost Money.

Marinette, Wis., April 13.—[Special.]—
Jobbers are experiencing some difficulty in getting their outfits from the camps on account of the soft condition of the roads. Many of the loggers claim that they have lost money this season on account of the early and sudden break up and the low prices and long hauls.

A cadet on his way to Manila had run up against a mean cross-sea, the first he ever encountered, and he was having a hard time of it. As he leaned over the rail, struggling for relief, a kind-hearted first lieutenant came along, clapped him on the shoulder, and said: "What's the matter, young man? Stomach a little weak?" "Then," said the colonel, who told the story, "the little cadet hauled himself back on the rail and replied: Stomach weak? Hell, no, I can throw as far as anybody."

WOMAN'S SPHERE.

Among the gentler sex now-a-days great deal is heard about this subject. The sphere which some women would Miss Mary Bauer is visiting at home like to call their own can best be described as "the world with a fence n around it," while that of others includes everything except their own business. Mrs. Hafemeister of Mayville is vis- Then there is the social sphere, and the lady active in it is a member of Philip Guenther and son went to every women's club in town; she is of the kind who, while recently writing an article on "Home Making," neglected a batch of bread in the oven until it burned to charcoal and then avoided expressions of disgust on the part of her husband by hurriedly baking some biscuits fit to wad Sampson's guns. Then she told her 6-year-old Bessie to get supper for papa, while she went out with another of her kind to do some "missionary work." Such a lady is of high rank among women.

Next in line is a somewhat peculiar sphere which a husband draws around his wife by saying "Here you belong." She really doesn't care whether she visiting her sister, Mrs. P. A. Hoffman. does or not; she disregards the sphere The Campbellsport Whites played of her duties; she cares nothing about their first practice game of base-ball progression, nor does she invent anything. She is influenced by everybody and controls nobody; she wants everything and does nothing to obtain it; she talks about great and little things, and will admit even her own folly. She belongs to the "luke-warm," the "indifferent," the "I don't care," the "would be" of social high-standing. John Kohler and family, who lived But, reckoning by her talk, she is very but it provides that each one who at Concord, Minn., the past year, will appropriately classified as a member of the wash-board gossiping society, Mrs. W. Knickel and daughter and babbling nonsensical, ill-founded personal remarks about others who make honest efforts.

Another sphere, occupied by a great ance. No matter how many, is one not larger than the diam-large or small you eter of a wash-rag, and the only time may want them; we such a woman does anything outside of have all sizes and her sphere is when she exasperatingly slashes her wet dish-rag around Johnny's neck for putting his fingers into

the Sunday pie. Smallest of all spheres is the one not larger than a cent, and the woman be- guarantee every pair longing to it is always talking about expenses. "It costs so much to dress the children; to keep the furnace agoing; and, besides, Jennie is taking muc lessons. The rivet was 4 inches long nd must have cost originally about

Silicion carbide crystals or "carborundum," as it is called, is to a great extent to replace diamonds in the production of finely graduated scales. Small,
flat hexagonal crystals are chosen, from
one-half to one millimeter in size. They
are mounted in a steel holder by means
of a drop of shellac. It is stated that
the lines are much more even than those lines are much more even than those produced by a diamond. They have been examined and magnified fifty times and and to be still sharply defined.

-Prof. Grasi of Milan is convinced that the theory that malaria is caused by an organism transferred to the blood of human beings by mosquitoes is cor-rect. He concludes that the best mode f combating malaria consists in "mak-ng war on the mosquitoes, destroying ing war on the mosquitoes, destroying them, and so preventing their reproduction." The marsh waters in malarious districts from being stagnant should be made to flow. Drainage on a large scale is not needed for this object. It would suffice, in the mosthis during which the mosquitoes are prolific, to carry out temporary dryings up or soil desiccation. This, he says, would "save entire regions from a terrible scourge."

what per cent of the inmates of insane asylums owe their mental condition to even by the most particular bostess. even by the most particular bostess. The American entertainer is prone to xcess in the quantity which he offers to his guests. He does this out of a nistaken idea of hospitalitly, not from any fear of being called mean if he should give only a small repast.

As a rule, a dinner should consist of not more than five or six chief courses regetables, each one served separately. followed by an entrement of some sort. and fruit. This is considered quite sufficient by European entertainers, who seldom give more than that, and whose guests would be shocked to see four or time. With the entree are often served from the following letter: two vegetables; but the chief dish of that kind always comes on as a separate course, either just before or after

Don't Be So Wasteful. Don't use tablecloths or napkins to

vipe the dishes with. Don't keep a big fire in the range then there is no need for it. Don't let bread grow musty-use it ip, before it is past using, in puddings, read, cakes, etc.

Don't dig with one side of your broom util it looks freakish, nor use your est broom for scrubbing. Don't let the cheese mold-use it up a preparing cooked dishes if it can not e eaten plain while fresh. Don't kill yourself rubbing on the

der or kerosene will help you so willing-Don't throw out a bag of stale, soft crackers; put them in a big shallow pan and let them get crisp again in a

noderate oven. Don't put your clothes on the line on a freezing day and leave them at the nercy of the winds one minute longer than is necessary.

Don't trust too much to servants to take the proper care of eatables, and of the working utensils; a constant supervision of the housewife will not require much care if it is systematic, and will pay well in the end.

For Spring Fever. One of the most popular simples "for spring war" formerly was hop tea-a pungent but by no means unpalatable -Hotel chambermaids are unknown in drink. One cupful just before going t and rouse the liver to action-so clear ing the clogged system-the "treat ment" to be continued a month or six weeks. A trial of this remedy is decidedly convincing. To make, to one "good pinch" (one-third of a cupful) of loose hops add one pint of cold water: steep in a granite saucepan fifteen min-

utes; strain.-Woman's Home Compan-

Oil Cloth and Lineleum. Oilcloth and linoleum are ruined ofener in the cleaning then in any other sians. nanner. Too hot water and the free use of soap are the usual faults in the treatment they receive. Left half wiped, they looked very bright while wiped, they looked very bright while sick headache. Price, 25 and 50c. wet, but dingy and streaked when dry. and the colors soon crack and peel off. A soft flannel and lukewarm water are he best things for general use upon oilfoth, and you should make sure that it s thoroughly dried after washing.

Permanent Cure for Bunions Place bandage around the foot over the bunion very tight; carry one end of bandage up around the great toe, forcing it out from the other toes toward the inner part of foot a little more each day. This treatment, if persisted in for a week or two, or if bunions are very bad, a little longer, will cure the caus of bunions, namely, enlarged joints worn very comfortably in the shoe.

Eggs. Boil six minutes, dip in cold water good, Ne each egg in half lengthwise, spread a Berling Remody Company, Chicago, Montreal, Xew York. 513 little fresh butter over them, sprinkle with salt, serve very hot. Butter small oval dish, upon this bake three saved in seed sometimes causes a loss of a hundred times the cost of the seed.

A dollar salletion came, a running sore on my leg, causing me great anguish. Hood's Sarsaparilla bealed the sore, which has never returned."

MRS. A. W. BARRETT, 39 Powell St., Lowell, Mass. or more eggs without breaking the them remain till the whites are set.

Parsnip Balle, Mash fine one pint of boiled parsnips add two tablespoonfuls of melted but ter, a high seasoning of salt and pepper and two tablespoonfuls of cream. Stir over the fire until very hot, take off and add one well-beaten egg. When cold make up into small balls, dip into beat en egg, roll in bread crumbs and fry golden brown in smoking-hot fat.

Household Hints. A pinch of salt added to the white of eggs will make them beat up quicker and lighter.

A good way to discover the presence

of moths and also to destroy them is to place a lighted candle in a basin of water. The moths will be attracted by the flame, and will drop into the water. Quinces and hard pears and peaches should be steamed till tender before being put in the sugar syrup. Partly cook them, let them stand in the syrup over night and finish cooking next day. An agreeable variation of the cup custard is to flavor it with coffee in lieu of chocolate or vanilla. The pro portion is three tablespoonfuls of clear. strong coffee to every pint of milk and

three eggs. In making a mustard plaster, take piece of lard and stir the dry mustard into the lard until it is a thick paste and will just spread. Spread on a piec of lawn and apply to the affected part. This will not blister.

Keep canned fruit, preserves and jel lies in a cool, dark closet, that is well ventilated. Thus only can you prevent the troublesome "sweating" sure to make the outside of the glass sticky and disagreeable if kept where there s darkness.
