ON THE GUN DECK.

Place on a Man-of-War Where Danger Is Greatest.

When a great battle-ship is fighting the place of greatest danger is on the gun deck. It is upon it that the great guns of the foe are turned as well as the smaller rapid-fire pieces that throw a storm of solid metal.

In any naval battle the place where most lives are lost is the gun deck. For this reason every man upon it. It is always wise to protect the part that is exposed to the greatest danger.

Dr. King's New Discovery for Consumption, Coughs and Colds does this. The bronchial tubes and lungs are the gun deck of the body. There is the place of greatest danger from attacks of disease. It is there that the heaviest guns of the arch-enemy—Death—are trained.

Thirteen-inch guns—Consumption, Pleurisy, Pneumonia, Bronchitis, Hemorrhage; ten-inch guns—La Grippe, Lung Fever, Quinsy; eight-inch guns—Asthma and Catarrh; the rapid-fire—Whooping Cough, Croup, Coughs and Colds, that strike quick and hard.

Attacks from these diseases demand and should have the sure protection that millions have found in that wonderful lifesaver, Dr. King's New Discovery. W. H. Morgan of Lake City, Fla., is one of the many who have proved that all these diseases are cured when all other remedies fail.

He says: "About a year ago I took a severe cold, which brought a distressing cough, ending in consumption. I tried many remedies as well as physicians, but steadily grew worse. I lost much sleep and could not sleep, and at times could scarcely breathe. At last I tried Dr. King's New Discovery and found immediate relief. I used six \$1 bottles and was wholly cured. It is truly a wonderful medicine. If suffering ask for Dr. King's New Discovery and take the substitute. It has no equal. Large bottles 50 cents and \$1. Money back if not cured. A trial bottle free. At all druggists."

Wanted Too Much for Two Dollars a Week. A city merchant in need of the services of a boy, lately put the usual card in the window of his establishment.

Many lads had called in response to the advertisement, but it was not taken down until 3 p. m. At that hour a little, wiry 12-year-old chap with sharp eyes, freckled nose and sandy hair, went in and asked about the sign.

He was promptly escorted to the manager, whereupon the following ensued: "We want a boy," said the manager, giving the applicant a critical look.

"I'm a boy," briefly replied the lad. "What can you do?" inquired the manager.

"Most anything that a boy can do, I guess. I have been working for more than a year now."

"Where?" "In Mr. Black's store. You know he broke up."

"Well, we want a boy, but so far we haven't been able to find what we are looking for. We want a boy who is honest, industrious and diligent. He must always be on time, and must not run on the streets, nor play marbles for keeps, nor tell stories nor smoke cigarettes, nor fight other boys, nor play ball on Sunday, nor use bad language, nor play tricks on other employees in the store, nor get into any kind of mischief during business hours."

He must be neat in appearance, keep his clothes tidy at all times, his face and hands clean and his shoes shined. In addition—

"Hold on, mister," interrupted the youthful applicant; "you ain't lookin' for a boy, you're lookin' for a Sunday school song, and I ain't it. Solong!" And the youngster hustled out, whistling "Break the News to Mother."—X.
