Wholesome Pastry Cooking.

Pastry flour should be used, as this is soft and oily in texture.

Butter, or lard, or cream may be used for shortening.

For juicy fruit pies, use deep dishes if you prefer.

For squash, pumpkin or custard, line deep plates with crust, prick it, and bake it slightly before filling.

Pastry is better when fresh, and your fruit should be only enough for one pie.

For pie crust, use one cup of butter, one cup of lard, and one cup of shortening.

Scotch Blood in Cheerokees.

The Cherokee Indians come well by their sturdiest and shrewdest and their love of controversy.

Western paper says that as the result of a strong infusion of Scotch blood they added to the strength of their characteristics.

It is Scotch history that after the battle of Culloden many Scotchmen left their native land and crossed the English sea.

It is Cherokee history that numbers of these sturdy Scots found homes in the Cherokee nation before the enforced migration of the tribe from Georgia to the Indian territory.

ANGEL'S ATTACKED. Eight Hundred Insurgents Driven to the Mountains.

CAPTURE LOCOMOTIVES. Ten Additional Regiments of Infantry to be Sent to the Philippines.

Manila, Aug. 17.—6:15 p. m.—Eight hundred insurgents attacked Angeles this morning, but the Twelfth regiment drove them into the mountains. Three ditches locomotives were captured.

None of the American troops were injured. The insurgents lost in the morning, C. T. Spencer of Kentucky, a reporter for the Manila Times, was killed yesterday during the fight at Angeles.

There are now nearly 25,000 regulars, and within a week or ten days will have 27,000, or nearly the number he estimates as necessary to end the insurrection.

Gen. MacArthur has demonstrated that it is not difficult to resume the occupancy of any city or town where the American troops have withdrawn.

At Angeles MacArthur is, for the first time, in a position to move north, a distance of sixty miles. He holds the country from Manila north to the province of Ilocos, where the natives have never been particularly friendly to Aguinaldo and his followers.

TEN NEW REGIMENTS. To be Immediately Organized for Service in the Philippines.

Washington, D. C., Aug. 17.—An order has been issued directing that ten additional regiments of infantry volunteers be organized for service in the Philippines.

The regiments will be numbered thirty-eight to forty-seven, and will be organized at Fort Sill, Okla., and at the other military posts in the United States.

The names of the regiments are: Fort Riley, Kan.; Camp Meade, Pa.; Fort Ethan Allen, Vt.; Fort Niagara, N. Y.; Fort Hancock, N. J.; Fort Mifflin, Pa.; Fort Mifflin, Pa.; Fort Mifflin, Pa.

The transport Grant, with the Wyoming, is en route to Nagasaki on her way to San Francisco.

New York, Aug. 17.—A special to the Herald from Manila, Aug. 16, says that orders will be issued by Secretary Root directing the organization of ten additional regiments of infantry volunteers to be sent to the Philippines.

President McKinley has given his approval of the recommendation that regular army regiments be selected for colonial and insurrectionary service in the Philippines.

Secretary Root tomorrow will recommend that regular army regiments be selected for colonial and insurrectionary service in the Philippines.

It is proposed also to increase the hospital corps to 2000 men and the number of medical officers to 1000.

It will have an army of practically 65,000 men.

POLICY OF OCCUPATION. MacArthur's Victories Indicate that the Insurgents will be Permanently Driven to the Mountains.

Washington, D. C., Aug. 17.—Gen. MacArthur has taken permanent possession of the principal towns in the provinces of Pangasinan, Ilocos and industrial importance, is second only to the province of Manila, and it has also been taken by the American troops.

Gen. O'Neil announces that MacArthur's troops occupy the country from Manila north to the province of Ilocos, where the natives have never been particularly friendly to Aguinaldo and his followers.

This policy of occupation will be continued until the insurgents have been driven to the mountains.

The troops will leave a strong garrison to protect the people who accept the authority of this government.

It is not expected that Gen. O'Neil will be able to take the city of Manila until the end of the month.

REVENUE TAX WAS NOT PAID. Big Concern in Missouri Charged with Committing Frauds on the Government.

St. Louis, Mo., Aug. 17.—George C. Starck, president of the St. Louis Iron Works, has been charged with committing frauds on the government by making and disposing of brandy on which the revenue tax had not been paid.

The distillery, wine cellar and plant, valued at \$250,000, have been seized by a representative of the United States internal revenue department.

Mr. Starck said: "I know absolutely nothing about the matter which has caused all this trouble. We have been rectifying for three years, and my son has been in the business since he was a child. I had no idea there was any trouble until I learned that the revenue officers were looking over our books and plant."

He denied that he had been in a party to any attempt to defraud the government, or that he knew of any such attempts.

Gen. G. Starck, secretary of the wine company was arrested here today on the same charge preferred against his father.

Both prisoners were taken before the United States commissioner for a hearing, and \$2000 bail each.

FATAL ACCIDENT. ON A FERRYBOAT. Two Ladies and Four Children Drowned in White River.

Washington, Ind., Aug. 17.—A carriage containing six persons was precipitated into White river last night as it was being driven aboard a ferryboat, and all were drowned.

The dead are: Mrs. ALBERT HENSEL, FOUR HENSEL CHILDREN, Mrs. HENSEL and her four children, accompanied by Miss Dillon, had driven into the river on the morning of a picnic and were returning home.

Several miles above here they thought to take a short ferry crossing, but the ferry was crowded with passengers and the horse had just stepped aboard the ferryboat when the horse parted and the carriage went overboard.

The swift current carried the victims down the bank instantly and they were drowned. This morning the bodies of the children were recovered.

TRAIN HELD UP. IN NEW MEXICO. Passengers Rally to the Relief of the Train Crew and Put Robbers to Flight.

Chicago, Ill., Aug. 17.—A special to the Tribune from Denver says: Colorado & Southern passenger train No. 1 was held up last night near Nelson, N. M. The attack occurred at 11 o'clock and was heralded by a fusillade from the bandits. One shot struck Mail Clerk Herbert B. Smith, who was completely disabled.

The train was stopped and the engineer ordered to stop the engine and baggage car. The robbers opened fire and the fire was returned by the passengers.

The robbers did not get through the left side of the face, and Frank Harrington, the conductor, received a bullet in his arm. A special train left Trinidad this morning with the sheriff and a posse of men.

Several robbers from the track badly wounded, who acknowledged that he was the party who had shot the mail clerk.

The scene of the attack is within two miles of the scene of the robbery of three weeks ago.

COMPANY NEGLIGENT. Verdict of Jury in Bridesport Horror—Motorium Guilty of Criminal Carelessness.

SATURDAY, AUG. 19, 1906.

The Hanover, Pa., minister who recently expired upon concluding a sermon on "The Uncertainty of Life" may be said to have closed with an illustration more convincing than the most earnest words ever uttered on the subject.

The "fans" who have noticed how well the "standing" of the Western league clubs has stood without shifting for weeks past would undoubtedly like a change, even to the breaking up of the league through an opposition baseball association.

HOWEVER well intended, the present movement to "save the Democratic party" is decidedly handicapped, owing to the general belief that a majority of the interested movers opposed the regular nominees of the last national convention.

THE last time the Republicans were defeated, it was not uncommon to hear it asserted that the high tariff bill had killed the party, so large was Mr. Cleveland's majority. Still, the people next turned around and elected the champion of that bill to the presidency. In view of this, alone, Boss Croker's prediction that Bryan will be our next president is apt to give Republican leaders some concern.

It is said that ex-Queen Liliuokalani of Hawaii is keeping house in Washington, "just like thousands of other widows with small incomes." However, it seems it is not so much owing to a small income as it is to a desire to increase it that this particular widow has seen fit to live at the capital city of the nation. She has a claim to the so-called crown lands of Hawaii, which she imagines congress will eventually recognize.

JUDGING from the fact that a trio of editors were recently robbed in Pennsylvania, it would seem that burglars are getting desperate in the Keystone state. Col. Dickson of the Media Ledger reports as being minus a pair of lavender colored pants, and a Major Wagenseller of the Middleburg Post says a thief carried off a couple of his railroad passes and some delinquent accounts, while Editor Higgins of the Bradford Era had a whole ham taken from his kitchen refrigerator one night.

THE amount of distress created by the New Richmond cyclone and the Texas flood seems to pale into insignificance when compared with the distress which a hurricane has since created in Porto Rico. However, the reports of bounteous crops in more favored portions of Uncle Sam's domain indicate an over-production sufficient to provide the necessities of life for all victims of the misfortunes indicated, while money seems so plentiful as to be contributed for the mere glorification of some distinguished citizen.

ANOTHER leaf has been added to the history of the Dreyfus case by an attempt to assassinate the leading attorney last Monday, while he was driving from his residence to court. The would-be assassins were in ambush at the roadside in Kennes, and sent a bullet into the back of the unguarded victim after his carriage had passed them. The act was committed just at a time when the attorney seemed about to clear Capt. Dreyfus. However, as the wound is not apt to prove fatal, M. Labori undoubtedly will recover and work on the case more earnestly than ever.

As it is too late to erect a new parochial school this year, the old one is being repaired for another term.

Miss Ursula Straub has returned from Fond du Lac, after attending a course in the summer school there.

Miss Mary Weber and two friends, Mr. and Miss Higgins, from Chicago are visiting the former's parents here, Mr. and Mrs. J. Weber.

The barn on Adam Fleischmann's place was struck by lightning and burned to the ground on the 11th inst., while a lot of his grain and a number of farm tools were also destroyed. The loss is estimated at about \$4,500, while the insurance is only \$1,500.

The total cash premiums offered at the Wisconsin State Fair approximate nearly \$50,000, besides a large number of valuable special premiums offered by manufacturers, dealers and others.

This was of money is attracting the most numerous and varied entries ever recorded at a Wisconsin state fair. It will bring together a great display to be seen Sept. 11 to 15th.

PRESS PULSATIONS.

With Bryan and Watterson in harmonious support of Goebelism in Kentucky, with both Harrison and Altgeld passing between battles to swear allegiance to Bryan in Illinois, and with Banker Belmont and Boss Croker singing the praises of the Nebraska in New York, it is a Tammany chorus it will be interesting to note the progress of the anti-Bryan movement being promoted by Committeemen Gorman, Wall and other apostles of expediency.

If the general authenticity of the other departments of the "99 Blue book" is on a par with that devoted to the state press, it is truly fearfully and wonderfully made. Not a single newspaper in Milwaukee county outside of those published in the city of Milwaukee is listed. And—shade of Jefferson!—The Milwaukee Daily News is set forth as a Republican organ.—North Milwaukee News. Yes, and we notice The Daily Appeal is still listed, while The Wisconsin Forwards is omitted.

Mathersite Shaw, governor of Iowa, says to the returning soldiers, "if anybody speaks disrespectfully of McKinley and his conscription administration, shoot him on the spot; and, so long as I am governor, you will be sure of a pardon." How is it about embalmed beef and Carterism; should death be visited on all persons mentioning these subjects in the presence of your soldiers, and could you also assure them a pardon, governor? Shaw is evidently the rankest jackass in the herd.—Cedarburg News.

The London report that William Waldorf Astor has been elected as a provincial justice of the peace reminds The Neenah Times of the following election incident, which occurred at Oconto away back in the '50s: A pioneer farmer was one of the town supervisors, and his son John was a candidate for justice of the peace. On election night the board met to canvass the votes, when the pioneer farmer solemnly gathered up the tickets, shoved them into his pocket and said: "Zhen-temen, I take dese tickets home with me and count 'em myself." Next day he set to counting the votes, while his son was cutting timber in the woods nearby. Upon concluding the count the earnest old gentleman went to the door, made a trumpet-like ooh with his hands and shouted: "Zohn! Zohn! Come home! You needs not work any more. You is elected zhaekass of de peace."

Casper Brandstaeder and his son from Kewaskum are busy painting the store building recently purchased by L. S. Guth.
Lawrence Guth, accompanied by his mother-in-law, Mrs. C. Fleischmann, and Frank Noworatzky of Kewaskum, called here Thursday. Mr. Guth will move here and open his new store during the fore part of September.

During the heavy thunder storm which passed through this section on the 11th inst., a number of buildings were struck by lightning. A barn on John Fritsche's farm, about a mile from the village, was struck and destroyed by fire, together with a lot of grain which had been stored in the building. The barn, granary, machine and wagon shop, together with the stacked grain on Adam Fleischmann's place was also destroyed in like manner. Frank Belling's barn was also struck by a bolt of lightning, which tore a hole in the roof about 15 feet in diameter; and Peter Wolf's house on Main street was damaged to the amount of about \$50. One of our citizens went up on Lauer & Schultz's elevator just after the storm and saw eight fires at as many different places. So far as we have learned, Mr. Fleischmann is the heaviest loser from both last and this year's crop was destroyed, besides all of his hay, farm machinery, wagons, etc.

Ingersoll and Douglass.
Late one Saturday night, in the midst of a terrible blizzard, Frederick Douglass arrived in Quincy, Ill. He was to give a lecture there on the following night, but no preparation had been made to receive him. Upon going to a hotel, the proprietor refused to take him in, and he was obliged to seek lodging elsewhere. After vainly hunting a place to lay his head, half frozen and sick at heart from the discourtesy shown him, Mr. Douglass stopped a stranger and inquired if he knew of a man in Quincy who would give him shelter.

"Well, I don't know but there is one man who would," said the stranger, "and he's Bob Ingersoll, whose house is down this street." Thanking his informant, Mr. Douglass set out and succeeded in finding the place without any difficulty. "If I had been a prince," said the negro in relating the experience, "I could not have received more courteous treatment."

From that day until Mr. Douglass' death a strong and lasting friendship existed between these two men, who had one bond of sympathy to draw them together—that of a small world's antagonism.—Boston Herald.

SLAVERY IN THE SOUTH

After Forty Years of Bondage a Mississippi Man Has Just Regained His Freedom.

Sometimes we hear of slavery still existing in some out-of-the-way place in the South—rarely in the Southern city. A recent case in a town in Mississippi will create great surprise because it was white slavery. The pretty town of Maben, Miss., was the place where the dreadful bonds were broken. Dr. O. B. Cooke, of that city, has lately written the facts. He says: "Dr. King's New Discovery is the largest moving force in my life. It has cured me of a cough I have been suffering with for forty years." Think of it, forty years a slave to a cough. Then that all-powerful champion, Dr. King's New Discovery, shattered his bonds and made him free. This peerless cure is the medicine of the century. In tens of thousands of homes it is considered the guardian angel of the family health and always kept in the house. It is made to cure Consumption, Coughs, Colds, Croup, Bronchitis, La Grippe, Pneumonia, Hemorrhage, Whooping Cough, Asthma, Pleurisy and other bronchial troubles. Against such diseases eternal vigilance is the price of health. Neglect causes nine-tenths of the cases of consumption, which may be often traced to a slight cold or troublesome cough brought on by exposure and permitted to hang on until the lungs become inflamed. Dr. King's New Discovery soothes and strengthens the bronchial tubes, allaying inflammation and cleansing them and the lungs of all impurities, and stops the most obstinate Coughs. If you have any trouble of the chest, throat, or lungs get it at once and take no substitute. Regular prices 50 cents and \$1.00. Money back if not cured. Trial bottles free.

Synopsis of Wisconsin Game Laws.
The open season for hunting protected game in Wisconsin is from Nov. 1 to Nov. 30, though the hunting or killing of deer in Sheboygan and Fond du Lac counties is prohibited entirely until 1907. (2) Wild duck, brant, snipe or any aquatic fowl from Sept. 1 to Jan. 1. (3) Wild geese from Sept. 1 to May 1. (4) Woodcock, partridge, pheasant, prairie chicken, quail, hen, grouse of any variety and plover from Sept. 1 to Oct. 1. (5) Otter, Martin or fisher from Oct. 1 to May 1.

It is unlawful to take, catch or kill any Mongolian, Chinese or English pheasant, or quail of any variety, in Wisconsin, on any estate or kill swan at any time. Except when duly authorized for scientific purposes only, it is unlawful to take, catch or kill, at any time, any whistling, night-hawk, blue bird, blue jay, thrush, robin, lark, turtle dove or any other harmless bird, except blackbirds, crows, English sparrows or pigeons for trap shooting.

It is unlawful to take or destroy the eggs or nest of any waterfowl or bird except crows and English sparrows, or to molest or destroy any unskat house. It is unlawful to take, catch, kill, impede in its progress or otherwise interfere with any carrier or homing pigeon.

LICENSES.
All residents of this state desiring to hunt deer or aquatic fowl must procure a license therefor, the fee of which is \$1. If other protected game is hunted with a dog, a license is also necessary, though it is unlawful to hunt deer with dogs at any time.

Resident hunters must procure licenses from the clerk of the county wherein they reside. Non-residents of the state can procure licenses from the secretary of state at Madison, and the fee is: (1) To hunt deer and other protected game, \$5; (2) To hunt protected game except deer, \$10.

Read the Fish and Game laws for information relating to the sale, possession and transportation of game; also to the prohibited and unlawful methods of hunting. When in doubt as to the construction of the law or for other information address J. T. ELLISON, State Fish and Game Warden, Madison.

Some of Uncle Sam's Odd Expenses.
Everyone knows that it costs almost \$400,000,000 a year to run the United States government in times of peace, and that the departments of war and navy, the Indian and Pension bureaus, absorb the larger part of this amount; but in the course of years a large number of dependents upon Uncle Sam's purse have come into being. Such, for example, are the International Bureau of the African Slave Trade, located at Brussels, the expenses of which our government contributes \$100 a year; the International Bureau of Weights and Measures, also at Brussels, to which \$2,750 is contributed on the coast of Morocco; about \$4,500 to be divided among citizens of other lands for services rendered to shipwrecked American seamen; \$500 a year toward maintaining a hospital for sailors at Panama, and \$9,000 for keeping the American convict in prison in foreign countries. The unfamiliar purposes in the home country for which money is appropriated from the federal treasury is the maintenance of the Washington monument, costing \$11,250 annually, and the provision of artificial limbs for soldiers, calling for \$47,000 a year.—Lester's Weekly.

The good roads convention to be held in connection with the State fair promises to be one of the largest meetings of farmers ever held in the state. A live interest is shown all through the state, and there has been a growing demand for road machinery since the last legislature authorized its purchase on time payments. An urgent invitation to attend the good roads convention has been sent to the Secretary of Agriculture, which he is expected to accept.

Is Baby Thin this summer? Then add a little SCOTT'S EMULSION to his milk three times a day. It is astonishing how fast he will improve. If he nurses, let the mother take the Emulsion. 50c. and \$1.00; all druggists.

MYSTERIOUS DISAPPEARANCE.—On Monday last, August Bilgo brought a cow from his farm near New-fane to the pasture on his place here.

After turning the animal loose, Mr. Bilgo set to work repairing the fence and had only been so engaged for about 15 minutes when he noticed the meek-eyed kine had disappeared as completely as if the ground had opened and swallowed her. More-over, a diligent search failed to disclose any trace of the critter until Thursday forenoon, when Mr. Bilgo found her among the other cattle here, looking considerably exhausted. It is supposed that the cow got out of the pasture to return home, but lost the way and finally came back again, after wandering about for some time.

—The Gaar Scott traction engine, which arrived here Wednesday and left overland for Fillmore under the management of an expert of the Co., ran off the road and into a swamp sheered off the road upon striking a stone. The scene presented by the wreck was alarming, as the front wheels and axle were sunk in mud, while the engine leaned as if about to tip over sideways. Upon bracing the machine up, it was left stand till the next day, when the difficult task of getting it out and back onto dry land was commenced. Various ways were tried in vain, until finally a trio of experts—John Schaefer, Phil. Meinhardt and Martin Berg—arrived and did the job in short order.

Buffalo Bill's Wild West—Excursion Rates.

Everybody who can will undoubtedly take a holiday when Buffalo Bill's Wild West and Congress of Rough Riders of the World exhibits in Milwaukee on Aug. 28th, for which important event the railroads will offer low round-trip rates, and, in some instances, run special trains to accommodate the big crowds that always attend this exhibition of heroic fame and just renown.

Differing, as it does, from all other exhibitions, Buffalo Bill's Wild West stands as a living monument of history and educational magnificence. Its distinctive feature lies in its sense of realism, bold dash and reckless abandon. It is not a "show" in any sense of the word, but a series of original, genuine and instructive object lessons, in which the participants repeat the heroic parts they have played in actual life upon the plains, in the wilderness, mountain fastness, and the dread and dangerous scenes of savage and cruel warfare.

A vivid reproduction of the battle of San Juan will be presented with magnificent scenic effects and participated in by many members of Roosevelt's Rough Riders, who actually participated in the gallant charge. In addition to the usual foreign contingent is a number of Filipinos and Hawaiians, in all their savage picturesqueness.

Buffalo Bill (Col. Cody) positively appears at every performance.

—Doctor Sechrist is praised by hundreds whom he has cured. The doctor will give a medical examination free to anyone suffering from chronic ailments, next Tuesday and Wednesday, in the Hotel Weimand at West Bend.

The following from this vicinity attended the dance at Eden last Tuesday night, viz: Misses Annie Flynn, Mary Micheals, Catherine Fellenz, Belle and Sarah O'Brien, also Messrs. Chas. Huecker, Arnold Bannon, Louis Hendricks, Geo. Lindsay and Henry Fellenz.

The baseball game between our boys and the Parnell team ended in a row last Sunday. Evidently some of the players of that place thought our boys knew very little about the game, as the Parnellites were continually kicking; and, though our boys knew the kicks were unwarranted, they acquiesced until the first half of the 8th inning, when a climax was reached. One of our boys had reached the 3d base, and the next man went to bat when one of the Parnellites claimed the man on 3d was out. This proved too much 'for our boys, and they quit rather than submit to it. The score stood 7 to 5 in our favor, but the umpire gave the game to Parnell by a score of 9 to 0. However, with one or two exceptions, the Parnellites are a gentlemanly set, and we hope the game with them here tomorrow will turn out more satisfactorily in every way.

BEECHWOOD BEAMLETS.

WANTED—A good road-horse, by G. W. Koch.

Chas. Miller transacted business at Kewaskum last Thursday.

News is scarce here, as the farmers are all busy with their threshing.
