SATURDAY, AUG. 26, 1899.

Those who complain because "the president is spilling about the country" are probably in favor of having him restricted to a message annually.

SINCE "Jack" McCormick knocked "Kid" McCoy out by a blow on the chin, it seems that the "Kid's" main organ of pugilistic aspiration was over-trained.

UNQUESTIONABLY Gov. Pingree is "some potatoes" in Michigan politics, but we doubt his ability to send Gen. Alger to the U. S. senate as the biggest tuber in the Wolverine patch.

SINCE the "infernal machines" sent to Dreyfus' leading attorney have been found to be "fool but not dangerous," we presume they may be considered as nothing unusual about the case.

ROASTING HOT.—A western editor, who evidently belongs to the "orthodox Brimstone church," says "comments on Ingersoll's demise have been suspended on account of the intense heat."

WITH \$75,000 contributed toward a New York reception and \$11,000 "chipped in" for a Washington home for Admiral Dewey, the former testimonial of regard seems to have a decided balance in its favor.

THE rush of "American brains and capital" into Cuba has not jarred the island thus far. This is probably because Old Sol there is about as uncomfortable for a Yankee as Jack Frost is in the Klondike region.

AN exchange says "the move to raise the price of coal indicates that it will take money to have a hot time in the old town next winter," just as if it does not "take money" to have such a time in "the old town" at any other season of the year.

FROM a news report we learn that upon recovering from a stroke of lightning lately, Charles Ward of the Washington navy yard was found to have the branch of a tree clearly imprinted on his back, but up to last accounts the picture of Aguinaldo had not been so visited upon General Otis.

CONSIDERING the number of votes polled for Palmer and Buckner in Wisconsin, the gold Democrats have been proportionately better favored than the Republicans in Gov. Scofield's selection of delegates to the trust conference, while the silver Democrats have been entirely overlooked if not ignored.

THE Klondike letter from O'Connell Bros., as edited and published by us recently, has since been printed in The Plymouth Review without due credit to the STATESMAN. However, we presume the "sin of omission" was not committed intentionally, as the Review is not among the state papers noted for piracy.

SINCE Gen. Merritt has declared that the insurrection in the Philippines would have been crushed long ago were it not for the moral support given the insurgents by anti-imperialists in the United States, it would seem that the insurrection is not going to be crushed, as Atkinson's followers are increasing about as fast as Otis.

THE amount of time taken up by the U. S. senatorial committee in considering the financial question shows that the committee realize that they are "up against the real thing." If the Republicans fasten the gold standard onto the country at the next session of congress, the coming presidential campaign will be a hummer from coast to coast.

A LARGE illustration of a "surf congress" of American millionaires at Newport may do to fill out the news columns of some of our leading exchanges, but the chances are that the whole of said congress could cross the river Jordan without creating general mourning on this side of the stream, while the loss of another such person as Blaine, Grant or Lincoln would cast a pall of gloom over the entire nation.

PRESS PULSATIONS.

If you will consider for a moment that the word "bureau" means "memorandum list" and the word "dossier" a "file of papers," the intricacies of the Dreyfus case will be somewhat simplified.—Indianapolis Journal.

The suggestion is made by a Chicago paper that the Philippines be converted into a penal colony, and that all the penitentiaries in the country be emptied into that new possession of ours. Isn't there a law against unusual and cruel punishment?—Peck's Sun.

It is now reported that Admiral Dewey at Naples said that the inhabitants of the Philippines are capable of self-government, and that the only way to settle the insurrection and insure prosperity in the islands is to give it to them. If Dewey has such ideas he should have expressed them in a message to this government long ago. Then, again, perhaps he has and they have been censored.—Milwaukee Daily News.

While rabid Frenchmen are raving with hatred for the Jews, it is refreshing to recall the words of the Hon. Simon Wolfe, spoken to a Jewish congress but a short time ago. "At no time let us be found congregated as Jewish-Americans, German-Americans or Irish-Americans, for that destroys the very purpose for which this country exists—unity, and what is still more necessary, the higher development of American patriotism." So say all true Americans, no matter from what ancestral stem they may have sprung.—Evening Wisconsin.

Farm Sold for a Drink of Water.

A section of land constituting one of the finest farms in the fertile Brazos bottom of Texas once sold for a drink of water. It was about fifty years ago, according to ex-Lieut. Gov. George T. Jester, that a crowd of frontiersmen from off the Brazos came to Corsicana on a trading expedition. The grandfather of Mr. Jester was a Methodist circuit rider and lived in Corsicana. His house was a rendezvous for people from far and near, who came trading. In those days land certificates were used as circulating medium, as money was rarely seen.

On one occasion a whisky-drinking character from off the Brazos arrived in town, got on a drunk, and at night was put to bed in the second story of the Jester mansion. About 1 o'clock in the morning he awoke with a terrible thirst. There was no water in the room, and he couldn't find the way down stairs. Sticking his head out of the window he saw some men asleep in the yard. He called to them repeatedly to bring him a drink of water, but in vain. Finally he yelled out: "One of you fellows bring me a drink of water and I'll give you 320 acres of land." This aroused one of the sleepers sufficiently to say that he wouldn't climb the stairs for 320 acres of land, whereupon the other was raised to 640 acres, and the man took a bucket of water up stairs and handed out a dipper. "Give it to me out of the bucket, like a horse," said the toper, and he drank about half of it.

In those days a Texan's word was his bond, so next morning his benefactor got a deed to 640 acres of Brazos bottom land, which is now owned by descendants of the water carrier and is one of the finest farms in Texas.—New York Sun.

An Arkansas View of the Heathen. The other day an old squatter came to the city and attended divine service at a fashionable church, says The Arkansas Traveler. The old fellow listened with wrapt attention to the sermon, occasionally nodding in approval or shaking his head in uncertainty. When a man with the contribution box approached, the squatter asked: "What's that?"

"We are taking up a collection for the heathen, and as you seemed interested in the sermon, I didn't know but you would like to give a few dimes."

"Why, he doesn't know anything about the gospel, why we want to raise money enough to send it to him."

"Wall, I tell yer, I don't think he'll spile afore mornin'. I've got a hoss swap on han', and ef I ken get 'nuff hood, come around an' we'll sorter look into the matter."

"But, my friend, the heathen children need clothes."

"So does mine, by jingo! Bill ain't worn nuthin' but a shirt for six months, an' haster slay outn' perlie society. Ike's got a vacancy in his teeth bigger'n yer hat, an' Jack haster crawl under de house when a stranger comes, 'cause he got his clothes scorched durin' the hog killin'. Come aroun' arter the hoss swap, for I don't think the heathen'll spile afore mornin'."

4,000 DELEGATES EXPECTED.

Good Roads Convention the Largest Gathering of Farmers Ever Held.

Thus far 1,720 delegates have been appointed to the Good Roads convention to be held at Milwaukee, representing 29 counties. Additional lists of delegates are being received daily by the secretary, and there is every prospect that from 3,500 to 4,000 delegates will be present. That would make the convention the largest gathering of farmers ever held in the state.

The Austin & Western Co. of Chicago has offered to furnish all necessary road rollers, rock crushers, screens and road graders for building the proposed object lesson road. They will arrange for an extensive exhibit of their machinery at the State fair grounds. The Fleming Mfg. Co. of Fort Wayne, Ind., will make a similar exhibit. A special rail-road rate of one cent per mile has been arranged for the benefit of delegates.

A curious barometer is used in Germany and Switzerland. It is a jar of water, with a frog and a little stepladder in it. When the frog comes out of the water and sits on the steps, a rain-storm will soon occur.—X.

A Novel Explanation.

A Georgia revenue man had a novel experience with a moonshiner in a suspected district. Early one morning he discovered an old man standing near a grave in the mountain region. But the trouble about this grave was that the revenue man had observed smoke issuing from the place where the headstone should have been. He surprised the old man, who immediately feigned great sorrow, explaining his presence there by the statement that the grave was that of his brother. At the mention of his brother he feigned great grief and said he "would never get over it" and said a hard dispensation of providence. "But, isn't it peculiar," said the revenue man, "that I see a stove-pipe at the head of his grave and smoke issuing therefrom." "Stranger," replied the weeping moonshiner, "he died in his sins, an' his' my opinion they're a-roastin' of him down there."

A Double Headed Child.

Mr. and Mrs. Simms Hall of Teays, near Winfield, W. Va., are the parents of a child who is a peculiar freak of nature. The girl has two heads about equal in size, the normal head possessing no deformities, but has rather a handsome face and apparently a bright look for a child. The abnormal head is about the size of the natural one, but it has neither eyes, mouth nor ears. However, by touching the head, small cartilages can be felt where the ears should be. The child seems to be in the best of health and does not suffer from the second head.—X.

A MARVELOUS CENTURY

Wonderful Progress of the Last Hundred Years—No Period in the History of the World Can Compare With It.

For amazing discoveries, for stupendous inventions, the 19th century has never had an equal. An electrician and an engineer sat in the Keokuk Hotel in Hannibal, Mo., discussing the question what is its greatest product? The former said the telegraph, the latter the railroad. But Mr. J. E. Lilly, who is connected with the management of the hotel, said: "Gentlemen: the greatest product and most wonderful discovery of the 19th century is Dr. King's New Discovery for Consumption, Coughs and Colds. The reason is plain. A discovery by which many thousands of lives are saved every year is infinitely more important than that which promotes a man's convenience. I know what this grand remedy will do, for it saved my life. I was taken with typhoid fever, that left a severe case of Pneumonia, my lungs became hardened and I got so weak I couldn't even sit bolted up in bed. No doctor or medicine gave me any relief. I expected to die of Consumption. Then I happened to see this marvelous medicine advertised, and bought a 50-cent bottle. It gave immediate relief. I continued to use it until I am now a well and strong man. Now, gentlemen, when you think that 100,000 consumptives die annually in this country, alone, and that many thousands of them might be saved by using Dr. King's New Discovery, you will see I am right in saying this is the greatest discovery of the century." This medicine is the grandest cure on earth for Consumption, Stomach Coughs, Severe Colds, Bronchitis, Asthma, Pleurisy, La Grippe, Hemorrhage, Hay Fever, Pneumonia, Lung Fever, Croup, Whooping Cough, and all bronchial troubles. The first dose brings relief. Money will be returned if no benefit. Large bottles 50 cents and \$1.00. A trial bottle free. At all druggists.

A Habit.

The lawyer asked the witness if the incident previously alluded to wasn't a miracle, and the witness said he didn't know what a miracle was.

"Oh, come," said the attorney. "Suppose you were looking out of a window on the twentieth story of a building and should fall out and not get injured. What would you call that?"

"An accident," was the stolid reply.

"Yes, yes; but what else would you call it? Well, suppose you were doing the same thing the next day; suppose you looked out of the same window and fell out, and again found yourself unharmed. Now, what would you call that?"

"A coincidence," said the witness.

"Oh, come, now," the lawyer began again. "I want you to understand what a miracle is, and I'm sure you do. Now, just suppose that on the third day you were looking out of the twentieth story window and fell out, and struck your head on the pavement twenty stories below, and were not in the least injured. Come, now what would you call that?"

"Three times," said the witness, rousing a little from his apathy. "Well, I'd call that a habit."

And the lawyer gave it up.—The Gentleman.

To one who has grown to think the automobile an old story from the constant sight of it on the streets of New York, it seems odd to notice the excitement that it produces in even the larger towns. The first one that rolled up the streets of a certain town aroused such vivid interest that a woman all but fell from a trolley car in her anxiety to look at it. There was one calm lady aboard, however, and after the automobile had disappeared another woman said to her: "I guess you didn't see that; it was a horseless carriage." "Oh, yes," replied the calm lady, looking bored. "I have traveled."—X.

Guth, proprietor of the Kewaskum House, to Miss Adeline Zimmerman of Mayville occurs at the latter place today (Saturday). —Another excursion train will be run from Milwaukee to Neeah and Menash and intermediate points tomorrow (Sunday), with a round-trip rate of \$1 to Kewaskum. Such excursions over the North-Western line are being run quite frequently this season, in competition with the Wisconsin Central railroad. —F. A. Stange, the music teacher from Waubesa, has rented rooms in Chas. Weddig's residence on Fond du Lac avenue until he can find a suitable house for his family. Several of our young people attended the dance at Wayne last Sunday night, and it seems somebody there had a mania for flowers, as some of the ladies were minus the daintiest buds on their hats upon preparing to go home. Among the victims were the Hoening sisters of this place, who were robbed of every flower on their hats. The proprietor of the hall, Mr. Eckel, was very sorry that such a thing should occur at his place and offered to pay for replacing the missing goods.

OBITUARY. DIED.—Mrs. J. N. Perschbacher, at her home 3 miles north of here, in the town of Auburn, on Thursday, Aug. 24, 1899, at 7 p. m. The deceased suffered for some time with a complication of ailments which finally resulted in dropsy. She was born in Golditz, Saxony, Germany, on March 23, 1828, and came to this country in 1854. She married twice, first to Mr. Bassler, who died in 1868 and left 8 children—August, Louis, Robert, Herman, Emil Edward, Clara (Mrs. John Kracht) Lizzie (Mrs. Harrison). Later she married Mr. Perschbacher, and though her second marriage leaves no offspring the following step-children share in mourning her demise, viz: Otto, John, Arey, Gustav, Adolph, Lizzie and Emma (Mrs. Wilke).

The funeral will be held tomorrow (Sunday) at 1:30 p. m. with services at the house only and interment at the Gage cemetery. The bereaved husband and relatives have our sympathy. Most of the farmers who have finished threshing hereabouts are well pleased with the yield. Fred. Luedke, who threshed this week, reports that his barley averaged 52 bushels to the acre, though his oats did not average over 16 bushels per acre. ASHFORD ACTIONS. William Jennings Reily of Eden, accompanied by his sisters Mary and Catherine, called on friends here last Sunday. We are pleased to state that Mrs. Adam Fleischmann is improving, and it is sincerely hoped that she will soon be classed among the healthiest of our neighbors. Ye correspondent is not an expert at fishing, but nevertheless he is of the opinion that a lot of noise on the way or close to the water will not attract the fish to the bank. Messrs. Bernard and Michael Maue are using two "earnon wagons" for transporting liquid fertilizer. They say it is a great success and that every farmer should have one.

DUNDEE DOINGS. Threshing is nearly completed in this neighborhood. Miss Lauretta O'Brien returned to her home in Escanaba last Thursday. Mrs. M. A straw-stack and barn on Herman and Gustav Zingler's place burned up last Tuesday evening. Loss about \$1,000; insurance, \$700. The birthday party in honor of Miss May Bannan, on the 18th inst., was one of the most enjoyable social events of the season. In spite of the heat, the young people indulged in dancing until early the next morning. Light refreshments were served and the Hallows & Church orchestra furnished music for the occasion. BASEBALL. The Campbellsport Whites played the last of a series of games with the Whites of Theresa at that place last Sunday and won easily. It was a hit-and-run game this time, our boys doing the hitting and the Therasas the running. The Campbellsporters slugged the ball from the start and kept it up throughout the game, while Pitcher Schlaeter's curves were only batted hard in the third and ninth innings. However, the game was loosely played by both clubs, many bad errors having been made, which did much toward swelling the score. The features of the game were the batting of the Campbellsporters and H. Boden of Theresa, and the daring base running of H. Yankow and H. Felenz. Nat. Haessly umpired in a very satisfactory manner, not a kick having been made by either side.

SCORE BY INNING. Campbellsport..... 3 2 2 3 0 6 0-23 Theresa..... 2 0 1 1 0 0 2 1 9-33 The Weekly Newspaper's Value. A writer in The Review of Reviews sums up the attributes of the weekly as follows: "Each copy is read not only by the five people usually credited to the ordinary paper, but by twice that number in many instances, for many subscribers pass their paper on to the inmates of less fortunate homes. These publications are pre-eminently the home papers of newspaperdom. They are not superficially scanned while men travel to business and then left for brakemen to gather up. They go directly into homes, where the reading of them is a duty as well as a pleasure. Hence their peculiar value to advertisers and their value as molders of public opinion."

A New Stamp Ruling. Railroad men in Milwaukee received notice lately from J. F. Tucker of the Central Freight association at Chicago of a new ruling by the commissioner of internal revenue in regard to stamps upon export bills of lading. The previous ruling required two 10c stamps upon such bills and the banks would not accept them unless they were so stamped. According to the new ruling only one 10c stamp is necessary. The bill of lading which bears the stamp is the one which must be held by the shipper.—Evening Wisconsin.
