THE size of the Dewey home fund, \$35,000, must be a disappointment to those connected with the affair, considering that the government has practically assisted in its collection.

THE relations between the United States and Spain may be said to be reaching cordiality since twenty Cubans have been released from the Spanish prison at Ceuta through the good offices of the United States.

THE plan of deporting negroes to South Africa might be carried out if some steamship company could be induced to transport them to that country at \$15 each and make the return rate treble that amount.

THE weather has been favorable for the state fair this week, while the attractions may also have been such as to contribute towards making it a record-breaker in point of attendance, but this does not indicate that it was a financial success.

WHILE regarding "greasers" generally as a dirty set of fellows, we were suddenly reminded that they have some stringent sanitary laws, as a late dispatch from Progress, Mex., says that the body of Frank Ives will have to be interred there for two years before being shipped to this country.

WHEN Admiral Dewey returns he can endorse so much of his interviews as has been favorably received and attribute the rest to errors of reporters. The latter will simply have to "grin and bear it," as the people will never believe that the Admiral ever said anything wrong—that is, provided he never solicits their votes for an office.

THE Cuban census work is expected to begin about the middle of next month and last eight weeks. It is assumed that this is a preliminary step to an autonomous government on the island, but the proclamation announcing it contains nothing to justify the assertion that the administration will grant immediate independence.

THE United States consul at Dawson City ought to be good authority on the Klondike region. In his last report to the Department of State he says: "It has been proved that only very rich mines can be worked at a profit without machinery this winter on account of the high price of labor and victuals. Hydraulic mining will soon have to be adopted in this country. The opportunity is now open for capitalists to buy claims to operate machinery, which will yield rich returns for the money invested. The poor man's chances, so far as this country is concerned, are gone."

THE result of the retrial of Dreyfus and the way the verdict of guilty was received throughout France simply shows how prone people are to stand by the government. The Rennes affair is merely another case of "right or wrong, my country." Meanwhile some Americans whom one would expect to denounce boycotting are openly advising their friends to stay away from the Paris exposition, notwithstanding the many innocent exhibitors and investors interested in the success of the exposition. However, it would not be surprising to eventually find the "four hundred" of this country introducing a Parisian dish called the Paty de Clam bake, to be served with Esterhazy sauce.

A collection is being taken up here for the relief of the New Richmond cyclone sufferers. The following were elected to take the collection, viz: Math. Marx, Math. Kohler, Peter Drieken and Jacob Wiskirchen.

We had always been of the opinion that ours was a quiet, peaceable burg, but of late it has proven to be quite the contrary. We think that this is a down-right shame, and that such bad feeling and hatred should be dispensed with. Why not have a cheery "good morning" for your neighbor and look him straight in the face with a smile. Even if he does earn a little more money, it's no reason for contradicting him with things which are untrue. Take our advice and be friendly, for you will feel ten times better than now.

FULLNESS OF LIFE.

A Right That Belongs to Every Man, Woman and Child—How to Enjoy It.

It always makes us feel good to meet a person who shows that every nerve and muscle and organ of the body is brimful of vim and vigor and health.

Such people drive away the "blues"—what a pity every person don't always feel so full of life. Millions more would if they had good health.

Statistics show that the most common causes of poor health are troubles of the chest and lungs. It was this fact that produced Dr. King's New Discovery for Consumption, Coughs, and Colds, the world's greatest throat and lung cure.

During the last 25 years hundreds of thousands have found by experience that this wonderful cure conquers these maladies from the so-called simple coughs and colds to the desperate and fatal diseases of the lungs. Thankful letters prove this supreme remedy does cure Consumption, Pneumonia, Bronchitis, Pleurisy, Hemorrhage, La Grippe, Lung Fever, Asthma, Hay Fever, Croup, Whooping Cough, etc.

It acts very quickly on the diseased mucous membranes of the throat, lungs, soothing, healing, and cleansing them of all impurities. See what this royal cure did for Berry Mize, of Welch, W. Va. Mr. Mize, who is 61 years old, writes:

"For seven years I was constantly in pain, and my suffering was great. This pain would now be in my sides, then in my breast, changing from time to time. I tried several doctors, but they could do me no good. I heard that Dr. King's New Discovery was good for troubles of the throat, lungs and chest, and decided to try it. One bottle cured me, and I have not had a touch of the pain since. I cannot find words to thank you for this wonderful medicine." If suffering, ask for Dr. King's New Discovery, and take no substitute. Large bottles 50 cents and \$1. Money back if not cured. A trial bottle free. At all druggists.

Miss Addie O'Brien has returned to her home at Fond du Lac, after a week's visit with friends here.

The case of Captain Carter is coming to a head. He was convicted of swindling the government out of a million and a half, but his influential friends have so far kept him out of jail.

Now he says that if he has to go to jail he will sue on all the senators and members of congress who shared in the schemes by which he defrauded the government. In other words, if they do not keep the president from enforcing the sentence, good-by to all of them.—Milwaukee Daily News.

Perhaps the president may somehow manage to retire Carter on full pay.

—Doctor Secrist of Milwaukee will be at West Bend in the Hotel Weinand next Tuesday and Wednesday. Through the course of many years the doctor has visited our county here and done splendid work and effected many remarkable cures.

—That the managers of the County fair are sparing no pains nor expense towards giving a grand show this year is apparent from the fact that, besides the usual line of attractions, they have arranged a balloon ascension for Wednesday and Thursday, respectively.

—Dr. R. Elmergreen of Milwaukee, who formerly resided here, has been appointed as a member of the new Pension Board of Medical Examiners. The doctor is chosen from the district of Congressman Barney who, together with Congressman Otjen, appointed three physicians to compose the board. The duties of the members are to make medical examinations of applicants for pensions.

—ROLLER SKATING.—Commencing tomorrow, the North Side park hall will be open for roller skating every Sunday and close with a free dance in the evening. Ten cents will be charged for admission to the rink, and parties having no skates will find a good supply of them for rent in the hall. In the meantime the park bowling alley will also be kept open for those who like to play thereon.

—Miss Elizabeth Hausmann returned home Wednesday, after spending several weeks visiting friends at the Capitol city. The following from The Journal of the 25th ult., indicates that she enjoyed her sojourn at Madison: "Miss Chloey Boehmer and a young lady (Miss Hausmann) who is visiting here at 308 East Washington avenue, while fishing on Lake Mendota this morning, caught 35 white bass in 1 1/2 hours."

—The marriage of Susan Felenz (daughter of Peter Felenz) to Peter Brodzeller of Newfane took place in the Holy Trinity church here Tuesday at 9:30 a. m., with Rev. Vogt officiating. The bride was attended by Christina M. Felenz and Jennie Brodzeller, while Henry J. Felenz and Peter Brodzeller acted as the groomsmen. After the ceremony a reception was held at the groom's home, and a large number of relatives and friends of the couple attended.

Don't be in a hurry!—Stop a minute and glance over B. Braunwarth's ad, in this year's premium list of the County fair, next to page 32; it's of interest to anyone.

—Antonio Solda, a fruit peddler, was brought before Justice Mayer last Wednesday on the charge of petty larceny, preferred by Martin Rilling. The latter, while in John Guth's saloon, accidentally spilled some change out of his pocket-book. The peddler helped pick the coin off the floor, but Rilling claimed he was short 50c and that the Dago had retained that amount from his pickings. The justice fined the defendant \$1 and costs and ordered him to pay the plaintiff 50c, making a total of \$6.50.

—The weekly State crop bulletin of Sept. 12th, reports considerably cooler weather than the preceding week, the average temperature having been about 6° lower and ranging from 62° along the northern border to 74° along the southwestern counties. The rainfall during the week has been copious, except over the southwestern and extreme southeastern portions of the state, where the drought continues, while at some points in the northern, central and south-central counties the rains have been so heavy as to retard fall work and damage grain in shock and stack to some extent. Corn cutting is under way in most parts of the state, and the census of opinion seems to be that this crop is now sufficiently matured to be safe from frost. Some damage has resulted from the excessive heat and dry weather, but the crop, as a whole is satisfactory. The potato crop suffered considerably from the hot, dry weather, and while improvement resulted from the cooling of the past week, the relief came too late to materially alter the condition of the crop.

—When we paid \$20,000,000 for the Philippines, we bought Spain's right in the islands. She did not convey them to us by warranty deed with covenants of seizin and warranty and for quiet enjoyment, but simply quit-claimed them, thereby putting our country in precisely the same position with respect to the inhabitants of the islands that she was in before the conveyance, with full knowledge that the inhabitants of the islands were in arms against Spanish rule and were disputing Spain's ownership and right of sovereignty. We therefore are no innocent purchasers in good faith, but have taken the islands with full knowledge that their inhabitants, years before our purchase, had determined to put an end to Spanish control and dominion, and to adopt a government of their own, and the only right which Spain could grant at the time the treaty was made, was the right to continue the fight against the inhabitants. We are now in precisely the same position Spain was in before the agreement was made, and we are doing the very thing we condemned Spain for doing—killing off the natives by thousands.—Madisonian.
