SATURDAY, OCT. 7, 1899.

SINCE Admiral Dewey returned it is noticed that reportorial imaginations are "soaring into the blazing sunlight of truth" about him.

LATE matrimonial returns from St. Joseph, Mich., indicate that Milwaukee's loss by the True marriage law is the aforesaid burg's gain.

A PATRIOTIC resident of this county has quit calling his dog Dewey since someone tied a tin-can to the cur's tail and nearly humiliated him to death.

SINCE Mayor Rose has taken a personal interest in the work of securing the next national Democratic convention for Milwaukee the people of that city can at least rest assured that its claims will be ably presented, though he might have "got" his Dallas telegram one word shorter.

In regard to the trouble between Great Britain and the Transvaal, it seems that the Britons are desirous of working a scheme whereby they can vote in the little South African republic and thereby control its government without swearing allegiance thereto.

THE Waukesha omnibusman who eloped with a mulatto damsel only to be arrested in Chicago, found his wife as cold hearted as the law governing his case upon returning to the Spring city, while the girl's parents seemed overjoyed at her deliverance from the "white trash."

ROBERT SCHILLING is reported to have said the following in regard to the game law: "Farmers object to feeding the game all through the year just for the benefit of the few city dudes who are able to get out licenses in the hunting season."

THE man who wants the earth with a fence around it is mythical, but the fellow who fenced off the sun and sells its rays at \$20 a month per window is real.

In an article written from the domestic side of the servant girl problem, a correspondent in the Chicago Chronicle of last Sunday says: "Once I worked in a house where they had fine rugs and cut glass and solid silver in the dining-room, but I had not one decent kitchen utensil nor even a good broom or carpet sweeper."

On the 30th ult. Policeman Kossow of Milwaukee died as a result of having been too lenient with one Herman Mueller, who was allowed to wrestle and scuffle with the officer until the latter was killed.

PRESS PULSATIONS.

The University of Wisconsin promises to enjoy unusual success and prosperity this year. The football team is reported to be stronger than ever, and that department is about the only one heard from, the public must mold its opinion accordingly.—Chippewa Herald.

No tax is popular with the taxpayers unless it can masquerade as an evasion of taxation, and this is precisely what the mud-road tax has always done. It is paid in the form of an expense for additional horses, wagons, harness, feed, stable room, repairs, labor, and a hundred other things, the necessity for which would be greatly reduced or entirely removed by the construction of good roads.—La Crosse Press.

The present country roads are too wide. There is a needless waste of land on either side of the roadway, on which noxious weeds of every variety interfere with drainage and are an eyesore and a menace to the surrounding fields under cultivation. Why not sell these acres of now useless lands to the owners of the property adjoining and apply the funds thus derived to the building of narrow but good roads.

AIR LIKE WATER.

A New York Chemist Makes a Liquid Out of the Air We Breathe and Does Strange Things with It.

This is an age when marvelous discoveries of wonderful liquids astonish the world. One has just been made in New York. A chemist has at last been able to change the air we breathe into a liquid, which looks like purified water. It is said this liquid will be a great benefit to mankind. It is within the memory of people now living that another wonderful liquid discovery was made, namely, Dr. King's New Discovery for Consumption, Coughs and Colds. It was made by the most scientific means from the purest medicines, proven by Dr. King to have the greatest healing power on mucous membranes. This remedy was made to cure all diseases of the chest, throat and lungs. These maladies are commonly caused by irritation and inflammation of the membranes through colds and other causes, that make it easy for fatal disease germs to fasten on them and do deadly work. This royal cure quickly heals the inflamed tissues, kills the disease germs, and soothes and cleanses the membranes of throat and lungs of all irritations. It will quickly stop the most obstinate Coughs and cure severe Colds, Bronchitis, Asthma, Pneumonia, Pleurisy, Hemorrhage, Lung Fever, La Grippe, Whooping Croup, Whooping Cough, and other bronchial troubles. It always cures Consumption when taken in time, and has cured many cases that have been given up by doctors. It saved the life of F. O. Mann, of La Crosse, Wis., when every other remedy failed. He took a very bad cold, which settled on his lungs and brought on Consumption. Nothing did him any good. He coughed day and night, and could not get any sleep. When he began to use Dr. King's New Discovery, after taking three bottles he was wholly cured. Use only this supreme remedy. Price 25 cents and \$1. Money back if not cured. A trial bottle free.

You need not lose flesh in summer if you use the proper means to prevent it. You think you can't take SCOTT'S EMULSION in hot weather, but you can take it and digest it as well in summer as in winter. It is not like the plain cod-liver oil, which is difficult to take at any time. If you are losing flesh, you are losing ground and you need Scott's Emulsion and must have it to keep up your flesh and strength. If you have been taking it and prospering on it, don't fail to continue until you are thoroughly strong and well. Look at our Lockets. ARTISTIC productions for ladies of taste. Nothing more beautiful is made. Our stock contains the pick of the season's productions and the latest and most stylish are here at moderate figures. Herman Knarr left our burg last Monday on a hunting trip. We hope he will have good success and bring us a good lot of birds. Miss Catherine Reilly opened her winter term of school in Dist. No. 1 last Monday, and we are pleased to see her smiling face among us again.

A certain object caused quite a little excitement in our village Monday evening. The object sounded like a runaway horse, but we could only see the outlines of a man. But, whatever it was, it must have been frightened by something, as otherwise it could not have gone at the rate it did.

For the best plows in the market call on H. W. Schnurr, who has the local agency for the celebrated Improved Lord plows and all others made by I. B. Rowell & Co. He will also be pleased to quote prices on anything you contemplate buying in the vehicle line.

We sacrifice hundreds of lives, we count up our sick and wounded by the thousand, we expend millions of dollars to continue the war, and we shall be forced to pay out billions of dollars in future in the way of pensions, and for what? For a few thousand dollars of more trade or commerce with the Philippine islands, which will go into the pockets of our parvenu millionaires who are ashamed of their ancestry and nationality. This nation has departed far from the standard of freedom and equality when men are found vile enough to excuse the Filipino war.—Cedarburg News.
