FIFTY MILLION COFFEE DRINKERS.

Why the Famous Firm of Arbuckle Bros. Control the Bulk of the Coffee Trade.

It is estimated that there are fifty million coffee drinkers in America. We have long since passed the mark of being the largest coffee consumers in the world...

From Brazil, Peru, Java and Sumatra, Ceylon, India, Africa, the Philippines, the islands of the tropical seas, bags and barrels pour into New York every year the hundreds of thousands of pounds of coffee...

But the greater portion of the coffee imported is retained in New York by the famous firm of Arbuckle Bros., the largest coffee dealers in the world.

Millions of homes in every section of the country today use the famous Arbuckle coffee. The test of experience has taught the careful housewife that she is supplying the best coffee for her household...

Part of the success of Arbuckle's coffee has been due to the ingenious and unique system used to package it. In each package of the coffee there is a list of articles...

Consumption

is robbed of its terrors by the fact that the best medical authorities state that it is a curable disease; and one of the happy things about it is, that its victims rarely ever lose hope.

You know there are all sorts of secret nostrums advertised to cure consumption. Some make absurd claims. We only say that if taken in time and the laws of health are properly observed.

SCOTT'S EMULSION will heal the inflammation of the throat and lungs and nourish and strengthen the body so that it can throw off the disease.

We have thousands of testimonials where people claim they have been permanently cured of this malady.

E. J. Arimond, together with B. G. Romaine of New Prospect, caught 15 black bass and pickerel on Long lake in 4 hours last Monday. A six high lead roller mill has been purchased for the Acme roller mills here, and the same will be in running order in about ten days.

Jacob Kehle and son Frank of Sheboygan Falls spent last Sunday and Monday hunting ducks at Round lake and succeeded in bagging quite a number of the aquatic fowl. G. Fred, Seismith, who was in this section purchasing some large draft horses, stopped over Sunday forenoon and spent a few hours on Long lake, where he succeeded in catching 16 pickerel and black bass, one of which weighed 4 1/2 pounds. Mr. Seismith has made five trips to the place this year and says: "Of all the waters I have fished on, Long lake takes the cake." On one occasion, he and Mr. Richardson of Sheboygan Falls caught 17 pickerel and 19 black bass.

RACES IN SOUTH AFRICA. The total European population of South Africa, exclusive of Rhodesia, amounts to some 622,000. Out of these certainly not less than 375,000 or some 60 per cent. of the whole, are of Dutch or French origin, "Afrikaners" in the most original acceptance of the term.

Possibly the 17lander population has been over-estimated for a purpose. But while, if it has been underestimated, very little difference will be made in the general proportion of British to Dutch in the whole country, practically no difference will be made in the fighting capacity of the two races should it come to a matter of civil war, which is sincerely hoped will not be the case, as the effective fighting force is all on the side of the Dutch.

According to the latest returns the Transvaal and Free State between them can put 40,000 armed and mounted burghers in the field on short notice. Among the 182,000 rural Dutch in the Cape Colony there are probably not less than 50,000 capable of effective field service. Add to these some 1,500 from Natal and a grand total of 59,000 British, Bechuanaland, and you have an available force of 92,000, every man of them accustomed to out-door life, accustomed to handling arms, possessed of high intelligence and courage, and practically independent of commissariat arrangements. What is the available force, apart from Imperial troops, to place against it? Mr. H. A. Bryden, in his recent article in The Fortnightly Review, puts it as follows: Cape Colony, 3,000; Free State, 1,000; Transvaal, 3,000; Natal, 85,000; British Bechuanaland, 500; Rhodesia, 2,000; total, 29,500, apart from Imperial troops. The figures are not such as to encourage a light-hearted plunge into a South African war.—London Leader.

One beautiful evening when Sir Thomas was aboard the Shamrock a heavy knock about boat, rowed by four men, came paddling along straight toward the yacht. The fellows were paying no close heed to their direction, so Sir Thomas shouted: "I say, my men, look where you're going!" The men ceased rowing and scornfully glanced at the yacht while one of them yelled out: "Wat do ye call that thing yer aboard?" "This is the yacht Shamrock," courteously replied the owner. One of the men contemptuously ran his eye over the craft, and turning to a pal sang out: "By heavens, Bill, look at the freak! The Shamrock, 'e calls 'er. Another bloody injustice to Ireland."—Philadelphia Saturday Post.

A Letter to the Public. Fall and Winter Goods have been arriving in such large quantities that we were kept busy hustling, instead of enjoying a summer vacation. But we now have our store in such shape that we enjoy the result of the hustling. We have a more complete line of desirable goods than any house in more than one or two counties. Our goods are now in such shape that a glance through our store will show you what you want and need, and that the above statement is correct. It was a hit, upon the part of our buyer, in purchasing early and in large quantities, as it enables us to give you the benefit of a large selection and, what is more, a share in the low prices which we took advantage of. We will not endeavor to mention goods nor prices, as the STATESMAN is not provided to enlarge his sheet week. A general invitation is herewith extended to all. It will afford us pleasure to show you through our different departments and see you satisfied that we are able to serve you better than ever. Yours for business, L. ROSENHEIMER, Kewaskum, Wisconsin.
