SATURDAY, NOV. 4, 1899.

The recent marriage of a sightless couple at Harrisburg, Pa., is not strange...

AGAIN hath the army mule proven a great beast of burden by saving the British troops from dishonor at Ladysmith.

THE expelling of all students concerned in the latest disgrace to the Wisconsin university probably depends upon how much football talent it will cost the institution.

It seems that "Jones" never pays the freight on flour, as the large manufacturers say the late 10-cent advance on all patent brands...

THE New York magician who was killed as a result of accidentally giving his assistant lead bullets instead of dummy balls to shoot at him...

THE gate receipts of the Jeffries-Sharkey heavyweight championship fight eclipsed those of any sporting or dramatic event in the history of the country.

SINCE the British troops in the Transvaal have resorted to the use of "dum-dum" bullets, we may next hear of their attempting to make death as horrible as possible for the Boers...

GREAT BRITAIN evidently has but few French sympathizers in her war with the Boers, as at a recent prize fight in Paris an Englishman's opponent was allowed to knock him out with a kick in the groin...

IF that Hammond, Ind., audience had not wound up their attack on a divine healer by running him out of town, they might be excused on the ground of having supposed the fellow would receive bodily injuries as so many opportunities to demonstrate his healing qualities.

SINCE reports from the Sulu archipelago have commenced coming in, it seems the Filipinos are not the worst people we have to deal with. Just imagine Uncle Sam in charge of polygamous Mohammedans and slaves who "believe the road to heaven can be attained by killing Christians."

THE announcement that Admiral Dewey is engaged to marry Mrs. W. B. Hazen, a sister of John R. McLean, the Democratic candidate for governor of Ohio, satisfactorily accounts for the many public engagements which the naval hero has canceled and leaves the citizens of Atlanta and elsewhere in good humor.

ARCHBISHOP IRELAND is to be sued for libel by Gen. Funston on account of a Chicago interview wherein the former was quoted as having called upon the General to deny the truth of an article which appeared in The Monitor of San Francisco and sue the editor for libel...

JOHN SHERMAN'S letter assuring Republicans that he would like to see Judge Nash elected as governor of Ohio, is no evidence that he has "kissed and made up" with Hanna in order to prove himself true to the party. In fact there is not a word in the letter to show that Mr. Sherman has not been truly quoted as follows: "Nash is a good fellow, but he is weighed down with Hanna. I have no doubt, with Hanna at the front as he is, he will lose the Republican thousands of votes."

IN a report to the Department of State, Consul McCook at Dawson City says that flowers, vegetables and grain grow as well and mature as quickly in the Yukon section as they do in Vermont, Wisconsin and other northern states. He concludes as follows: "We see no reason why small fruits, such as strawberries, raspberries, blackberries, currants and gooseberries, could not be cultivated profitably, as they are growing wild in the surrounding country. Timothy, red top, and several other grasses suitable for hay, also grow well and as luxuriant as in any part of the United States. In the floral line we have as pretty wild flowers, especially roses, as can be seen in any northern climate. The duration of the season suitable to vegetation is approximately five months in the lowlands and from two to four weeks longer on the hillsides with southern exposure."

BARTON BARDS.

Clover threshing is finished in this vicinity. Andrew Kapler made a trip to the Cream City Monday.

Mrs. R. Miller spent Saturday at Farmington.

An owl was caught in Kapler's barn last Saturday.

Ida Jansen of Farmington visited Katie Dunkel last Sunday.

Great preparations are being made for the approaching church fair. The shooting match held by Wm. Purps was well attended last Sunday.

A number of friends from Milwaukee visited Jos. Kircher last Sunday. August Lueke has moved from Young America into the Ross residence.

Mr. and Mrs. Fred. Kluever are enjoying the company of Mrs. Zipp of Milwaukee.

Mrs. Annie Kaiser has returned from a 3-week visit at Merton, Waukesha county.

The firemen's hook and ladder truck has been brightened up by Painter Braun.

Mrs. Gerhard Koenigs has moved into the residence recently vacated by Henry Otten.

Mrs. John Gayhard has returned to Wabeno, after visiting relatives and friends here.

Mr. Schultz and son from Milwaukee spent Saturday and Sunday with the Suckow family.

The infant son of Mr. and Mrs. Fred. Moll of the town was christened last Sunday.

Misses Amalia Pastors and Agnes Holehouse are visiting relatives in Milwaukee this week.

Frank Bertram has sold his chestnut colored horse to J. R. Boyle & Son of Rochelle, Ill., for \$190.

Chas. Kauffung, who works in the E. P. Allis foundry at Milwaukee, visited relatives and friends here Sunday.

At The Quick Sale, West Bend, all next week. It will pay you to come.

WAYNE WAFTINGS.

Stephen Burns spent Sunday with his brother James.

George Petri of Elmore called on friends here Wednesday.

Frank Kohn spent Sunday visiting his parents, near Kewaskum.

Mrs. Lienkaemper and son Oscar spent Tuesday at Fond du Lac.

Michael Burns, who worked for F. Kudeck in the town of Addison, is at home.

John Petri and family visited his wife's parents at Campbellsport last Sunday.

School commenced in Dist. No. 3 last Monday, with an attendance of 30 scholars.

Andrew Martin, Jr., returned home Tuesday, after spending a week visiting in Milwaukee.

Mrs. Peter Kohn is still seriously sick, and is under the care of Doctor Lambeck of Kewaskum.

Miss Frona Sukowady spent a few days of the week visiting the P. J. Smith family at Kewaskum.

Richard McCullough, who has been working in a sugar factory at Waukegan, is home for a few days.

The fine weather came to a sudden close last Wednesday, when the first signs of winter appeared with a light fall of snow.

W. Kippenhan traded buggies with some parties from Allenton last Sunday. William is always ready for business in either trading or selling.

Geo. Abel, who had a surgical operation performed on his skull last week, is doing well and will soon have fully recovered from the effects of the operation.

Our charivari band gave Mr. and Mrs. John Hawig a grand serenade upon their return home a week ago last night, and the groom appreciated it to the extent of \$4.

This Year's Potato Crop. The potato crop of '99 in this country is one of the largest ever raised, a matter of a good deal of importance as affecting the food supply. The yield is estimated at 242,000,000 bushels, or about 49,000,000 bushels larger than last year. The yield per acre this year is estimated at 81 bushels, which is slightly below that of 1896, but far ahead of last year, or 1897, when it was but 64 bushels per acre.

Wheat in the Klondike. Evidence that the term "Frozen North" is not applicable to the Yukon country was recently brought down from Canada. There was a large sheaf of wheat, oats and barley in the list of evidence. It all came from near Dawson City and was grown this year. The wheat was sown late in May, on land thawed a few inches deep, and it was harvested from 75 to 85 days later, thoroughly ripe. That is from ten to twenty days quicker than the best average of the famous Red River valley. In the samples were white flax, red flax and Scotch wheat that would pass the best grades here, while the oats are fully as good as anything raised in the northwestern states or Manitoba, and the barley is 6-rowed of the highest quality. The seed grain from which this was produced was sent to Dawson last fall at the suggestion of Hon. Clifford Sifton the Canadian minister of the interior. The samples have been forwarded to Montreal and Ottawa and are interesting and suggestive.

Counting the People by Machinery.

Our first census, made in 1795, showed the population of the United States to be five million, and the count cost 1c for each person. It is estimated that the twelfth census, to be made next June, will show that our people number seventy-five million and that the clerk hire in the Census bureau alone will exceed five million dollars.

Clifford Howard, in an article on "How the Next Census Will be Taken," says that "although the work of enumeration will be completed by the 1st of July, it will probably be two or three months later before the list of the schedules are received at the Census office, as not only must they all be first examined by the supervisors, but in many cases they will probably require revision because of some error or informality. The actual counting of the people will not be done until the schedules are turned into the Census office. The enumerators simply gather the facts, and the office force in Washington does the counting and compiling, which is done by electricity. In 100 days all the facts relating to seventy-five million people will be tabulated."

A Pennsylvania scientist thinks he is about to produce smokeless coal. Its ingredients will be 93 per cent. of coal dust and 7 per cent. of tar and caustic lime. The last named article is to prevent the generation of smoke.

Counting the People by Machinery. Our first census, made in 1795, showed the population of the United States to be five million, and the count cost 1c for each person.
