WORK OF CONGRESS.

Senate. Mr. Aldrich presented a special order in the Senate on the 15th, fixing the standing committees and their personnel for the fifty-sixth Congress. The order was adopted without dissent. Adjourned until Monday. Numerous petitions expressing sympathy with the South African republic in their far with Great Britain were presented by Mr. Mason in the Senate on the 18th. Resocations in opposition to the retention of the Philippines were introduced by Mr. Tillman and Mr. Bacon. A speech was made by Mr. Morgan in favor of his resolution to prohibit trade combinations interfering with interstate commerce.

The Senate on the 19th substituted its own financial bill for that of the House. Mr. Aldrich gave notice that he would call up the former January 4, 1900, and press it to passage. Mr. Stewart presented a resolution granting the Commercial Cable company the right to lay a cable to Cuba. A bill was passed creating a commission of five to revise and codify the pension laws. Mr. Allen, appointed from Nebraska, took the oath of office.

the oath of office.

The Senate on the 20th laid upon the table a resolution from the regents of Smithsonian Institution asking that Richard Olney be appointed to the vacancy on the board, Mr. Hoar saying Supreme court justices might as well suggest who should fill the vacancy on that bench. The Senate referred to the judiciary committee a resolution by Mr. Buther for a constitutional amendment providing that the chief justice and United States judges be elected by popular vote. Mr. Hoar sent in a resountion declaring in effect for a withdrawal from the Philippines. A resolution was passed with public interests, to communicate the Senate all the testimony and findings the commission which investigated the iduct of the Spanish-American war, Ad-ricd to January 3, 1900.

The splendid patriotism of the volunteers continues to be evidenced on all sides. The newspapers note with satisfaction the effect that this display of British spirit and evidence of the resources the empire is able to command is having on continental crities. The Westminster Gazette, however, sounds a note of alarm. It thinks the moment is peculiarly unpropitious to send abroad the home defenders, since no one is quite casy as to the effect the proceedings in South Africa will have on Great Britain's European neighbors.

Manila, Dec. 21.—Gen. Lawton's body was brought back to Manila yesterday over the boggy trails and across the swol-len rivers which lie between San Mateo

and this city.

The details of Gen. Lawton's death are that at 9 o'clock Tuesday morning when Capt. Breckenridge was shot Gen. Lawton assisted in taking him into a small protected depression. The bullets rained about him as his tall form was exposed above the embankment.

The officers about him called his attention to the feet that they were sheeftention to the fact that they were shooting at him and begged him to be careful. Gen. Lawton said he must see what

was going on at the firing line and started away. He had gone but fifty feet when he met his aids, King and Fuller, returning. Suddenly he paled and clinched his hands. King asked what was the matter and Gen. Lawton replied: "I am shot through the lungs." He then pitched forward, the blood gushing from his mouth. He did not speak again.

Staff is Grief-Stricken. Gen. Lawton's staff is grief-stricken and cannot talk. Manley. Lawton's 12-year-old son, who accompanied his father during the entire northern campaign, as he stood outside the gate to-night awaiting the arrival of his father's body, said: "Oh, how I hate to see him come in this way." The critics of the Army and Navy club declare that Gen. The Illegal Voting Case at Fond du Fond du Lac, Wis., Dec. 21.-[Spe Fond du Lac, Wis., Dec. 21.—[special.]—A case which is attracting wide attention in this city at the present time is that of George Murphy, charged with illegal voting, the alleged crime having taken place on April 4 last. The case is made all the more interesting from the fact that some person interested in the outcome of the suit went into the office of the cities Blowett about six weeks ago outcome of the suit went into the office of Justice Blewett about six weeks ago and stole all of the papers and two pages from the criminal decket containing the minutes in the case. There was not an entry left to tell that an examination had taken place in justice court or that the prisoner had been bound over. A plea of abatement was filed in the case when it was taken up yesterday afternoon and the state set up a general derial. The court allowed the state to in-The court allowed the state to innoon today and reported no agreement.

troduce witnesses to show that such an examination was had. The oral statements of several were allowed in evidence and the plea of abatement was denied. A jury was then drawn and the various witnesses are being examined.

The case is attracting considerable atten tion, the courtroom being crowded. To case will probably be on until Friday.

HEMLOCK IS SCARCE. The Output in Northern Wisconsin is Greatly Diminished. Greatly Diminished.

Breed, Wis., Dec. 21.—[Special.]—
This section, so long known as a great hemlock country, is about depleted of that kind of timber. While last year the cut in this neighborhood exceeded 3,000,000 feet, the output this winter will fall below 2,000,000. The product goes to the Shawano pulp mills and the Falls Manufacturing company at Ocento Falls.

About 200,000 feet of hardwood logs will be shipped from here to outside points.

MAID SUES MISTRESS. Neenah Society is Interested in a Libel Suit. Neenah, Wis., Dec. 21 .- [Special.]-Neenah society is interested in a suit begun against Mrs. Jennie Gilbert, wife of Theodore Gilbert of the Gilbert Paper company. My Mother Had Consumption

"My mother was troubled with consumption for many years. At last she was given up to die. A neighbor told her not to give up but try Ayer's Cherry Pectoral. She did so and was speedily cured, and is now in the enjoyment of good health." D. P. Jolly, Feb. 2, 1899. Avoca, N. Y.

Cures Hard Coughs

No matter how hard your cough is or how long you have had it, Ayer's Cherry Pectoral is the best thing you could possibly take. But it's too risky to wait until you have consumption, for sometimes it's impossible to cure this disease. If you are coughing today, don't wait until tomorrow, but get a bottle of Cherry Pectotal at once and be relieved. It strengthens weak lungs.

Would Rather Not.

It is by no means rare for a barrister It is by no means rare for a barrister to be as much embarrassed by the answer he gets from a witness as his victim is by his questions, but if rudeness or eleverness disconcerts the man of law he is much more put about by extreme suavity, relates the London Telegraph. When, therefore, at the Southwark county court a lady answered the learned counsel's quesction by saving, insinuatty court a lady answered the learned counsel's quesction by saying, insinuatingly, "Oh, no, my dear," it was felt that she distinctly "had the grin of him," and he courageously sat down. It was evidently the day for witnesses, as later on in the case another man was told to keep his voice up. Judge Addison remarked that he spoke as if he had a potato in his mouth, and told him to imagine that he was on board his ship and was speaking to one of his mates. The witness looked queerly at the judge, and then said grimly: "I don't think I had better, your honor."

An Iola soldier relates that one day Gen. Otis came out on the firing line and ordered the shooting to cease. A Kansas boy, who thought he was doing all sorts of damage to the insurgents, kept on shooting. "Didn't you hear my command to cease firing?" thundered the general. "Who are you?" asked the soldier. "I'm Gen. Otis." "Otis, hell," responded the soldier; "I know that isn't so; Otis never comes out here." And bang went the gun.

SOME IMPORTANT DISCOVERIES. Though Keene appeared to be quite a hero in his way, he was evidently a practical one, for he had expressed no regrets at thus appropriating his companion's bower. On the contrary, in a few moments a deep space showed that he was presented as the state of the contrary in the con Though Keene appeared to be quite a nents a deep snore showed that he was disposed to make the most of the time. But Arva Lake, though on another oc asion quite likely to notice this slight obuseness, did not in the least heed it now, out rather rejoiced that her knight had readily taken her advice.

when he had climbed the point he only saw dark stony ridges, in some cases rising even higher than his perch, and nowhere a sign of life. He hastily descended and reported the state of affairs. "Never mind," he said, light-heartedly, "the morning may tell a different story." With this he went to the foot of the bank and began to prowl around. Presently he uttered an exclamation of satisfaction. He had found quite a little hollow in the face of the bank. Its front was partly barred, with a kind of gridiron effect, with what seemed to be several long roots of a tree. "Here is a chance for a first-class tent," he called out, "and I will soon make it into one." He hurried back, took the spare pieces of canvas, returned to the hollow and speedily had quite a tentike retreat ready. He then brought some of the embers from the fire, with some difficulty pulled and cut off some and a second cheery blaze.

"Here, Miss Lake, prepare to emigrate.
Idon't dare to risk the back country yet.
For you can't tell about the reptiles and such like and malaria; but still you won't exactly have to stay in the open air."

At last, after a little reflection and a stronger endeavor to realize her surroundings, she discovered that it was the combined snapping of a fire and the pounding of the sea on the beach.

"Then I couldn't have been so woefully sleepy after all, or those things would not have wakened me," she reflected; and with the cheaver held for the reflection and a stronger endeavor to realize her surroundings, she discovered that it was the combined snapping of a fire and the pounding of the sea on the beach.

Of course, that was enough for a Yankee. I made a fish-hook out of the pin and pushed out. I took my twine for line and picked up some snails for bait. You see the result."

"Isn't that splendid! If only now we can find water we shall be sure of keeping soul and body together. What is that you have in the shell?"

"That is salt. I managed to get it from little places in the rocks where it was left by evaporation. But it is pretty light and scanty, and there is some sand mixed with it."

The shame of this brought a blush to her cheeks, yet at the same time something like a thrill of satisfaction at this watchful state of conscience shot through her. She turned to him with a look and manner of the firmest resolution.

"I was about to do a very selfish thing.

I had forgotten that you had suffered doesa't it?" she said, glancing around. "I wonder what is beyond the rocks yonder? If we only knew that."

"I slipped up there this morning after wood," said Keene, "but couldn't discover much. You see, there is a little valley just beyond that bank, and beyond that is a long succession of hills and hollows. I didn't have time to explore any further then. There seemed to be almost no vegetation."

"Well, I am sorry for that; but perhaps we shall find some further in the interior. But that reminds me. When are we to start on our exploring trip?" doesn't it?" she said, glancing around.

sponsible for the state of coma that follows too frequent dramming.

Navy officers in China acquired a lasting reputation as drinkers by taking surreptitiously a tablespoonful of oil before starting on a drinking bout. The explanation has been made that the oil, floating on top of the liquor, prevented the fumes from rising and causing drunkenness. Can this be true? An old "rounder" in this city, who has drunk half the clubmen in town under the table, says, give him a bowl of nuts and let him crack and eat one or two after each dram and he will resist all the liquor influence that can be thrown at him.

May you not look upon me; let ... walk alone!" To allay a storm he says: "The elephants collect, they wallow across the sea; go to the right, go to the left, I break the tempest." When about to begin an elephant hunt, accoring to Thompson, he uses this charm: "The elephant trumpets, he wallows across the lake. The pot boils, the pan boils across the point. Go to the left, go to the right, spirit of grandfather (the elephant): I loose the fingers upon the bow-string."

The Malay believes in witches and witcheraft. There is the bottle imp, the Polong, which feeds on its owner's blood till the time comes for it to take possession of an enemy. Then there is a horrid thing, the Penangalan, which possesses women. Frequently it leaves its rightful abode to fly away at night to feed on blood, taking the form of the head and intestines of the person it inhabited, in which shape it wanders around.

Such beliefs may perhaps have their origin of metempscychosis, which in oth-er ways has some foothold among the er ways has some foothold among the common people. For instance, elephants and tigers are believed sometimes to be human souls in disguise, and so the Malay addresses them as "grandfather" to allay their wrath and avoid direct reference to them. Crocodiles also are often regarded as sacred, and special charms are used in fishing for them. One such, given by Maxwell, is as follows: "O Dangsari, lotus flower, receive what I send thee. If thou receivest it not, may thy eyes be torn out!"—From Malay Folklore, by R. Clyde Ford, in Appletons' Popular Science Monthly.
