The Oldest Machine Tool. There can be very little doubt that the potter's wheel, or potter's lathe, as it is also termed, represents today the most ancient form of machine tool known.

Among the many sculptured records of the trades and occupations which so vividly represent the customs and habits of the ancient Egyptians the potter and his wheel have been found frequently depicted, and it is curious to note that through the almost countless generations since that time this crude type of lathe has undergone no material modification.

The primitive form, evidently a small, round table, set on a pivot, and free to revolve, being turned by hand at intervals, and to this device more or less additions in the course of time such simple conveniences as a table to support it and a foot or a hand-saw turning arrangement were added. In general use, however, the potter's wheel of the present time bears all the characteristics of the one which, 4000 years or more ago, served to turn out pottery attesting unspargable taste and skill—Cassius's Nagazaka.

Did Up the Smart Ateck. Some weeks ago a tar back smart Ateck negro coked up to town and smarted himself out as a cook at a restaurant, says the Maroon Post. His name was Ben Smith, and his purpose to be from Fulton. He got so high-toned, and stood so supremely on the usage of a "Southern gentleman, sah," that he became highly incensed when some of the boys refused to take a cigar with him, he soon became the adviser and comforter-general of everybody in the neighborhood. A few nights ago there was a unusual racket, with Ben as the star actor, and when he received the early sudden, the hand of the "bobby" ahead of a seat, even on the velvet cushions of the car.

Didn't Even Notice the Queen. This tale has to do with Kipling's little best, Josephine, writes Kenneth Herford in the Detroit Free Press. Once the poet was driving up Arundel street, in London, toward the Strand, when all of a sudden the hand of the "bobby" ahead of the lord mayor at the Mansion house, Josephine had never seen the Queen and she might see Victoria. The outriders pranced by, followed by the royal carriage. When it was all over and the finger of the law lowered Kipling put down the child. He said: "Well, Josephine, what did you think of it?"

GERMANY'S FORESTS.

The Trees Under Government Care Are a Source of Profit.

Germany has an ambition to become a world power. It has every element of success behind it. Its area is 133,000,000 acres; its forests 24,700,000 acres; its population 47,000,000. Her forest products are a source of great wealth. The present annual total cut of the entire empire is 2,000,000,000 cubic feet, of which 700,000,000 cubic feet come from the State forest. Germany has a steady increasing supply of timber, where we have none because we take no care.

Germany sees to it that lands which in other countries are barren wastes are here made productive in timber and lumber. It produces forty cubic feet of wood per head of population, but with all this Germany has to import considerable lumber. Its yearly annual income from the State forests, which is about one-third of the total forest area, is about \$4,000,000, which enables the government to assure taxes a fair rate of 10 per cent. The value of the forest products from all the forest area is \$107,000,000. These figures are instructive to us as to forest management.—Philadelphia Record.

GEN. METHUEN WRECK.

Strange Conduct of the British Commander.

HIS MIND UNBALANCED

Quarrelled with His Officers and Gave Orders that Resulted in Disaster.

Chicago, Ill., Jan. 11.—A special to the Chicago Tribune from London says that Lieut.-Gen. Lord Methuen, commanding the column advancing to the relief of Kimberley, is to be relieved of his command within two weeks. Later he will be sent to Cape Town and eventually ordered home. When he reaches England he will be retired. These facts have been confirmed by an official of the war office.

Lord Methuen's case is a sad one. Always a rather frail physique, and though a clever boxer and an all-around sportsman, his constitution began to show signs of breaking down almost immediately after he took command of his division.

Three days after the battle of Belmont Gen. Wolsey suggested to the officials of the war office that Methuen be relieved. His advice was not heeded. The wisdom of the age and of the commander-in-chief of the British army is now realized to the fullest extent by the war office which sooted at the suggestion.

It is stated by those acquainted with the inner workings and plan of campaign for the general, that Methuen was a man of high character and of high ability. He was a man of high character and of high ability. He was a man of high character and of high ability.

LORD ROBERTS' PLANS.

Quarrelled with His Officers.

Lord Methuen's quarrel with his officers, his eccentricities, his quarrels with a number of officers under him, three of them, Col. Gough, who was killed at the battle of Colerberg, and Capt. Campbell, who was killed at the battle of Uite Gatare, are mentioned.

Yule, Too, Has Collapsed.

Gen. Yule, who conducted the retreat from the Tlochen in the other eccentricities, has collapsed with a number of officers under him. Three of them, Col. Gough, who was killed at the battle of Colerberg, and Capt. Campbell, who was killed at the battle of Uite Gatare, are mentioned.

THE GAIT OF JUSTICE.

It now seems probable that the man who was arrested on suspicion of having shot Rev. Cheney and wife at Racine will pine away in jail while awaiting his trial.

The Rev. Dr. McGlynn, rector of the church of the St. Mary congregation at Newburgh, N. Y., died at the rectory there last Sunday afternoon, after an illness of about seven weeks, of heart failure superinduced by Bright's disease.

One of our exchanges contains an article on the "Wear and Tear of a Senator's Life," but none of the senators cited suffered the fate of a late Milwaukee alderman in being pestered to death by his constituents.

ST. MICHAEL'S MITES.

Mr. Schaefer of Milwaukee is a guest of Joe Tausch and family.

Nic. Theisen of Kohlsville spent last Sunday under the parental roof.

John G. Dricken held the lucky number that won the gun which was raffled at Meeth's place on the 8th inst.

Rev. G. J. Muenzer of this place and Rev. Miller of Random Lake left last Sunday for St. Louis on a week's vacation.

The marriage of John Roden to Miss Mary, daughter of Mr. and Mrs. Chris. Schneider, was announced in the local church last Sunday.

John Thull's team became unmanageable while he was unloading grain at the Boltonville mill, on the 5th inst., and ran away, throwing Mr. Thull from his seat and injuring him quite severely.

OBITUARY.

On Saturday, January 6, 1900, Louis Habek, residing about a mile south-west of here, died after being laid up since last June.

Mr. Habek, like his father, was interred on the anniversary of his birth, the 9th inst., at 10 a. m., in the Moldenhauer cemetery, with Rev. Moldenhauer officiating.

He was born at Spitzberg, Germany, in 1852, came to this country when only 3 months old, and always resided in the town of Kewaskum, where he married Miss Bertha Brenner in 1876, which union was blessed with 5 children, all of whom survive to mourn the demise of a good husband and father.

He leaves an aged mother (Mrs. Caroline Habek), two brothers (John and Otto) and 2 sisters (Mrs. Moldenhauer and Mrs. J. Brusewitz).

The following relatives from elsewhere paid their respects the memory of the deceased by attending the funeral, viz: Henry Brenner of Milwaukee; Mr. and Mrs. Moldenhauer and Mrs. A. Wagner of Theresa; Daniel Scheid, John Forster, Mr. and Mrs. Otto Scheid, Peter Scheid and wife, Jacob Scheid, Gus. Harder and wife of Campbellsport.

CARD OF THANKS.
