FATAL AS WAR.

More Lives Are Lost Through Common Colds than Are Taken in Battle—How to Prevent and Cure Them.

People need to be often reminded of the great danger that lurks in the common cold. In this climate the sudden changes of temperature and moisture in the air make it easy to "catch cold." The symptoms of a cold are well known. Its results include half the diseases that afflict mankind.

If a cold settles on the outer covering of the lungs it becomes pneumonia, inflammation of the lungs, or lung fever, and in many cases carries off the strongest man to his grave within a week. If a cold falls upon the inner covering of the lungs it is pleurisy with its knife-like pains. If a cold settles on the lungs and is not quickly cured the dreaded consumption will have another victim. A cold will so often and so quickly bring on a fatal malady that there never was "a slight cold." Every cold is a menace against your health and life and should have immediate care. The very best remedy made to cure colds is Dr. King's New Discovery for Consumption, Coughs, and Colds.

This grand medicine was always kept in every home. It would save tens of thousands of lives yearly. It cures obstinate Coughs, Bronchitis, Pleurisy, Pneumonia, Hemorrhage, La Grippe, Lung Fever, Asthma, Hay Fever, Croup, Whooping Cough, and other bronchial troubles. Read how it saved the life of Mr. A. C. Thomas, a farmer of Marysville, Texas. He was very low with hemorrhage of the lungs and had lost much blood. He had tried many remedies, but kept getting worse until he thought he had but a short time to live. He then began to use Dr. King's New Discovery, and five bottles wholly cured him. As this supreme throat and lung cure has no equal never take a substitute. Price 50 cents and \$1.00. Money back if not cured. A trial bottle free. At all druggists.

On the 5th inst. the citizens of Newcasel had an opportunity to witness a noted law suit in Justice Caniff's court and listen to two able attorneys in the case. It was a civil action in which Nicholas Michaels and Charles Olinger were plaintiffs and John and Daniel Morgan of Mitchell defendants. The former were represented by Attorney F. L. Doyle of Fond du Lac, and the latter by Judge Simon Gillen of Sheboygan, both of whom proved to be well learned in their profession. The facts of the case were that Mr. Michaels had drilled and piped a well for John Morgan at a contract price (as alleged by the latter) of \$1.50 a foot for drilling and piping and 50c a foot for piping the old well. This was denied by Mr. Michaels, who testified that no contract had been entered into. Hence John Morgan wanted to pay Mr. Michaels the contract price for his work, while Mr. Michaels demanded more, viz: \$1.85 a foot for drilling and piping and 85c a foot for piping the old well. The case was called at 11 a. m., and the following were summoned to try the issue: Robert Raymond, Herman Prehn, John Grill, Thomas Rody, Jas. Flynn, and James Cahill. Both sides had witnesses, who testified in their behalfs and each lawyer did his best to bring out evidence in his favor. Occasionally there was quite a wrangling between the lawyers as to points in law, to the great amusement of the bystanders. At 9 p. m. the case was argued to the jury, by the attorneys. Judge Gillen did remarkably well, and Attorney Doyle proved his equal in addressing the jury. At 10 o'clock the jury retired, and at 11:25 returned with a verdict in favor of the defendants, John and Daniel Morgan. This was the most noted and best law suit ever held in Justice Caniff's court, and Mr. Caniff handled it to the satisfaction of everybody. Attorney Doyle, who was raised around here, did not disappoint his friends as an able and well-read lawyer, and the prospects are that he will be a noted attorney in his day.
