SATURDAY, FEB. 3, 1900.

SINCE reinforcing the British army in South Africa only seems to increase the number of Boer victories, further effort upon the part of Great Britain seems foolhardy.

THE action of Gov. Taylor in declaring the Kentucky legislature adjourned in Frankfort to meet in London is about as desperate as the shooting of Senator Goebel as a move to prevent the latter from succeeding Taylor as governor of the state.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste, prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup, and has been used in tens of thousands of cases without a single failure, so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by L. Rosenheimer.

Electric Balloons.

An electric balloon for signaling is among the latest ideas, especially for use in the Boer war. According to the plan the balloon, which is made of gold braters' skins, carries a number of electric lamps, which are connected by wires with an apparatus below. These lamps are flashed at intervals corresponding to the dots and dashes of the Morse code, and on a clear night can be seen 100 miles away. The balloon may be sent up some distance from an enemy, connection with the ground apparatus being made by wire. The chance of the balloon being hit by sharpshooters is small, as it is sent up at night, and unlighted, so that when the signals are commenced it is out of range. A number will be sent to South Africa to be tested.—New York Post.

A TERRIBLE OATH.

The Chinese Have No Regard for an American Oath, But Tremble Before Their Frightful Oath of Their Own Land.

A Chinese witness in a San Francisco murder trial was giving evidence that the prosecution knew was a lie until the attorney made him take the Chinese oath, with its horrible penalty for lying. Then there was a wonderful change. The witness showed the most abject fear, grew white, trembled like a leaf, and almost fainted. His oath is simple, but Americans will tell absolute truth under it. We give the form of it in the oath of a woman whose life was saved by Dr. King's New Discovery for Consumption, Coughs and Colds: "State of Pennsylvania. Mrs. Mary A. Dailey, being duly sworn, says she has been terribly afflicted with Bronchitis and Asthma for over six years, during which time she was attended by two physicians without obtaining any relief. She constantly grew worse, so that for a long time her life was despaired of. She then got a bottle of Dr. King's New Discovery, and found quick relief. She has used six bottles since and been cured, and has better health than she has had for many years." Signed Mary A. Dailey. Sworn and subscribed to before C. Sherwood, J. P. of Pennsylvania, to Dr. A. B. Woodward, of same place, writes to say Mrs. Dailey gained 50 pounds in weight while being cured. This grand medicine is the most wonderful throat and lung cure in the world. It is superior to any other remedy, and during twenty-five years by amazing cures, that have often seemed miraculous. Now, what will Dr. King's New Discovery do? It cures every Consumptive who takes it in time, and heeds its advice. At all drug stores. Never take a substitute.

Too Much Boy and Too Few Potatoes.

Boston Journal: One of the maddest women in this city is a down-town boarding house mistress, who has wasted several days in an effort to find a certain huckster who worked a very shrewd swindle on her. She bargained with him for fourteen bushels of potatoes, with the understanding that he was to put them in the cellar for her. The careful housewife counted the 24-bushel bags as the man went into the cellar seven times. Shortly after the huckster left, a neighbor notified her that during the delivery she had seen a small boy crawl out of the front cellar window. An investigation showed that the man had taken ten bushels of potatoes, and that on two occasions the boy had been carried down cellar in the bag used by the huckster, and had then climbed out of the window and back into the wagon to repeat the swindle.

Buried Treasure.

Uncle Tom Weston, an old negro down on the Florida side of the Okefinokee swamp, has raved for 35 years that a buried treasure which he is unable to recover. He says that his old master buried \$25,000 in gold during the civil war, when Sherman's army was marching through Georgia. He carried the treasure-box for his master and dug a hole in the swamp, wherein the gold was buried. An accident before the war left him blind, so he was unable to see where the treasure was concealed. His master died during the war without recovering the gold or leaving instructions concerning it. Besides being blind, Uncle Tom is crippled by many years of suffering from rheumatism. Still he has made many trips to the swamp in quest of the hidden treasure, only to be disappointed. The old man is afraid somebody has already recovered it, as he has made those several parties have searched the swamp. He is the oldest negro in the Okefinokee region and daily sits on his door-sill wondering about the buried money and sorrowing because he must die without recovering it.—Cincinnati Enquirer.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste, prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup, and has been used in tens of thousands of cases without a single failure, so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by L. Rosenheimer.

Electric Balloons.

An electric balloon for signaling is among the latest ideas, especially for use in the Boer war. According to the plan the balloon, which is made of gold braters' skins, carries a number of electric lamps, which are connected by wires with an apparatus below. These lamps are flashed at intervals corresponding to the dots and dashes of the Morse code, and on a clear night can be seen 100 miles away. The balloon may be sent up some distance from an enemy, connection with the ground apparatus being made by wire. The chance of the balloon being hit by sharpshooters is small, as it is sent up at night, and unlighted, so that when the signals are commenced it is out of range. A number will be sent to South Africa to be tested.—New York Post.

A TERRIBLE OATH.

The Chinese Have No Regard for an American Oath, But Tremble Before Their Frightful Oath of Their Own Land.

A Chinese witness in a San Francisco murder trial was giving evidence that the prosecution knew was a lie until the attorney made him take the Chinese oath, with its horrible penalty for lying. Then there was a wonderful change. The witness showed the most abject fear, grew white, trembled like a leaf, and almost fainted. His oath is simple, but Americans will tell absolute truth under it. We give the form of it in the oath of a woman whose life was saved by Dr. King's New Discovery for Consumption, Coughs and Colds: "State of Pennsylvania. Mrs. Mary A. Dailey, being duly sworn, says she has been terribly afflicted with Bronchitis and Asthma for over six years, during which time she was attended by two physicians without obtaining any relief. She constantly grew worse, so that for a long time her life was despaired of. She then got a bottle of Dr. King's New Discovery, and found quick relief. She has used six bottles since and been cured, and has better health than she has had for many years." Signed Mary A. Dailey. Sworn and subscribed to before C. Sherwood, J. P. of Pennsylvania, to Dr. A. B. Woodward, of same place, writes to say Mrs. Dailey gained 50 pounds in weight while being cured. This grand medicine is the most wonderful throat and lung cure in the world. It is superior to any other remedy, and during twenty-five years by amazing cures, that have often seemed miraculous. Now, what will Dr. King's New Discovery do? It cures every Consumptive who takes it in time, and heeds its advice. At all drug stores. Never take a substitute.

Too Much Boy and Too Few Potatoes.

Boston Journal: One of the maddest women in this city is a down-town boarding house mistress, who has wasted several days in an effort to find a certain huckster who worked a very shrewd swindle on her. She bargained with him for fourteen bushels of potatoes, with the understanding that he was to put them in the cellar for her. The careful housewife counted the 24-bushel bags as the man went into the cellar seven times. Shortly after the huckster left, a neighbor notified her that during the delivery she had seen a small boy crawl out of the front cellar window. An investigation showed that the man had taken ten bushels of potatoes, and that on two occasions the boy had been carried down cellar in the bag used by the huckster, and had then climbed out of the window and back into the wagon to repeat the swindle.

Buried Treasure.

Uncle Tom Weston, an old negro down on the Florida side of the Okefinokee swamp, has raved for 35 years that a buried treasure which he is unable to recover. He says that his old master buried \$25,000 in gold during the civil war, when Sherman's army was marching through Georgia. He carried the treasure-box for his master and dug a hole in the swamp, wherein the gold was buried. An accident before the war left him blind, so he was unable to see where the treasure was concealed. His master died during the war without recovering the gold or leaving instructions concerning it. Besides being blind, Uncle Tom is crippled by many years of suffering from rheumatism. Still he has made many trips to the swamp in quest of the hidden treasure, only to be disappointed. The old man is afraid somebody has already recovered it, as he has made those several parties have searched the swamp. He is the oldest negro in the Okefinokee region and daily sits on his door-sill wondering about the buried money and sorrowing because he must die without recovering it.—Cincinnati Enquirer.

Is Baby Too Thin?

If so, there must be some trouble with its food. Well babies are plump; only the sick are thin. Are you sure the food is all right? Children can't help but grow; they must grow if their food nourishes them. Perhaps a mistake was made in the past and as a result the digestion is weakened. If that is so, don't give the baby a lot of medicine; just use your every-day common sense and help nature a little, and the way to do it is to add half a teaspoonful of

SCOTT'S EMULSION

to the baby's food three or four times a day. The gain will begin the very first day you give it. It seems to correct the digestion and gets the baby started right again. If the baby is nursing but does not thrive, then the mother should take the emulsion. It will have a good effect both upon the mother and child. Twenty-five years proves this fact.

The following story was told at the capital recently at the expense of a certain Western representative who is subject to spells of absentmindedness, says the Washington Times. One morning the Westerner hurried to the parcel mail-box on the corner and deposited a scrap of paper which he had in one hand, while from the other he drew some mail into a garbage-barrel which happened to be standing near the curb.

A reporter dreamed one night that the editor had decided to issue an entirely satisfactory paper. Every item brought in was carried around to the parties most interested, and if any objection was raised to the item it was killed. At 4 p. m. the paper went to press as usual, and when the patrons unfolded it that evening they found it nothing but a blank sheet. However, the editor slept sweetly that night, realizing that he had printed nothing to offend anybody, and that his paper was entirely satisfactory.—X.
