SATURDAY, APRIL 28, 1900.

The best thing about the presentation of a gold watch to Admiral Dewey by 50,000 children was his promise to keep the gift.

Now that the farming season has commenced, the new-fangled seeders drawn by horses are increasing the business of country doctors.

SAMUEL S. BARNEY of West Bend evidently is to serve a 4th term in congress, as the Republican nomination in the 5th (this) district is equivalent to election.

The Methodists now contemplate removing the ban on dancing—a subject which will prove quite as interesting as what McKinley drinks to quench his thirst at wine suppers.

In greeting patrons from the country, Milwaukee merchants may eventually learn that the glad-hand of yore makes a better impression than any style of hat yet suggested at a "smoker."

THE Kansas editor who ran his paper in Satan's steps for a week failed to cut much of a swath, but likely this is owing to the number of publishers who have been issuing "a h— of a paper" for years.

PUCK proposes Richard Olney as the Democratic nominee for the presidency and at the same time advocates the re-election of McKinley, but this is not surprising in a publication issued under the motto of "What fools these mortals be!"

THE result of Gen. Agnus' last act in the Schely-Sampson muddle is a victory for Schely over the Washington administration as well as Sampson, as Schely only received his dues after Agnus threatened to publish the basis of his claims.

THOUGH Wm. J. Bryan is as much in favor of free silver as ever, his recent utterances indicate that if nominated at Kansas City he will not promise legislation which he could not give the people if elected as president of the United States.

THE merchants between Chicago and Milwaukee, who failed to suppress the sale of 25-ride individual trippers to the Garden city, may now peruse the Porto Rican bill for pointers on how to monopolize the trade of their respective burgs.

WITH Quays opposed to the seating of Quay and Spooner in favor of giving the Pennsylvania seat in the Senate, the case attracted considerable attention in Wisconsin until the Keystone state governor's appointee was finally rejected by a majority of one vote.

LATE reports from Tien Tsin say that members of the "Boxers" Society have massacred many Chinese Catholics, near Pao Tin Fu. Really, such work is barbarous, though there is a bit of consolation in contemplating that some Chinamen have been cinched in a Christian faith.

HON. M. A. LANGE of the Fond du Lac Reporter, one of the leading Democratic papers of the state, is a candidate for the party nomination for state senator in the 18th district. If nominated and elected, he would fill the office with credit to himself and his constituents. Here's to Senator Lange!

DURING a series of impersonations given in the Alhambra theatre at Milwaukee last Sunday afternoon, Bryan's name was more generally applauded than that of McKinley, though Republicans may well claim that such a "straw" was to be expected of a crowd in attendance at "Muldoo's Picnic."

In speaking of Arbor day an exchange says "every man, woman and child should secure something and plant it." Why, certainly; even a few hours' income will do to "plant" then by those who can "secure" it more easily than shrubbery, while Wisconsinites having "money to throw to the birds" can do so in observance of the Spring Green adjunct to the day.

As a means of uniting the factions and thus polling a heavy vote in the coming election, the nomination of Robert La Follette for governor would seem to be good policy upon the part of budget Republicans. However, the party is so powerful in this state that the heeler of present high office-holders evidently imagine that no faction dare bolt because of repeated failure to get their "hooks" in at the pie-counter.

THE Senate committee on privileges and elections has found that "the election to the senate of William A. Clark of Montana is null and void on account of bribes, attempted bribes and corrupt practices by his agents, and of violation of the laws of Montana defining and punishing crimes against the elective franchise." Thus it seems that so long as "money makes the mare go," inexperienced millionaires are apt to over-feed the fleet-footed animal in a race for the United States senate.

A THRILLING ESCAPE

Wonderful Rescue of an Eastern Woman from a Fort Smith, Arkansas.

"We notice many curious things in our business," said the clerk of a large hotel at Fort Smith, Ark., but the average druggist sees more of them than we do. W. H. Cole, one of our best known druggists, lately told me a wonderful story. He said there came to his store one day, about the most feeble old lady he had ever seen. She could scarcely walk, and she could not have weighed 70 pounds. She had just come from Pennsylvania. The doctors there had told her she could never reach Fort Smith alive, as she was in the last stages of consumption. But she determined to see her son and daughter before she died. Now comes the strange part of the story. Cole had sent a package of newspaper. This bit of paper happened to tell her of a famous medicine—Dr. King's New Discovery for Consumption. Coughs and Colds—had cured a woman of consumption, and the old lady wanted to try it. She bought a bottle, then went to her son's in the country, where she stayed, taking this medicine all the time. One day a plump, rosy-cheeked elderly woman came in. Neither Cole nor his wife knew her, and they could hardly believe it when she told them she was the old lady who had been here five months before, expecting to die almost any day. She now weighed 140 pounds and said the marvelous medicine—Dr. King's New Discovery—had saved her life." Mr. Cole will confirm to anyone the facts here given. Whoever suffers from any Throat or Lung trouble should get this supreme remedy. It has cured many cases of Consumption given up by doctors, and positively cures Bronchitis, Asthma, Pneumonia, Hemorrhage, Pleurisy, La Grippe, Lung Fever, severe Colds, obstinate Coughs, Croup, Whooping Cough, etc. Price 50 cents and \$1.00. Money back if not cured. A trial bottle free. At all druggists.

A dance was held at McCullough's place last Sunday night with a large crowd of young people in attendance, and they all had a good time.

All druggists.

Remarkable Cure of Rheumatism.

KENSA, Jackson Co., W. Va. About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a 50-cent bottle and used it according to the directions, and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. B. PARSONS. For sale by L. Rosenheimer.

THE COIN BEHIND THE MAN.

You may sing a song of glory, Of the man behind the gun, While the shot and shell were screaming through a terrible din, With his wicked little way of dying into you, When they get a trifling pay, Let us speak it gently, And doubt if you can, What strikes the world all over Is the coin behind the man. When a fellow is out for office And wants it awful bad, He'll tell you he speaks to papa Of the bean that's behind his head; When his friends are meeting him, When your friends in meeting smile As though they had not met you For the money's kind of while, You will see how true this ditty, And doubt if you can, What strikes the world all over Is the coin behind the man.—Exchange.

"I think DeWitt's Little Early Risers are the best pills in the world," says W. E. Lake, Happy Creek, Va. They remove all obstructions of the liver and bowels, act quickly and never gripe. All druggists.

The suggestion of ex-Senator John L. Mitchell for the Democratic nomination for governor, meets with considerable favor. Mitchell's loyalty to the party when others deserted is not forgotten.—Waukesha Dispatch.

H. Clark, Chauncey, Ga., says DeWitt's Witch Hazel Salve cured him of piles that had afflicted him for twenty years. It is also a speedy cure for skin diseases. Beware of dangerous counterfeits. All druggists.

The death of ex-Senator Sawyer recalls a story told of him by a friend in Washington. Sawyer was a very generous giver of charity and of presents, which never he nor the beneficiary would have cared to denominate as charity. He told his friend one day that he was going to turn over a new leaf and try to keep his donations down to a limit that would not exceed \$1,000 a month. Three months after his friend asked how he had made out. "I started out pretty well," he replied, "and if I hadn't given \$10,000 to an old Wisconsin friend of mine in hard luck last month, I think I should have kept within the limit."—Washington Star.

W. H. Shipman, Beardsley, Minn., under oath, says he suffered from dyspepsia for 25 years. Doctors and dieting gave but little relief. Finally he used Kodol Dyspepsia Cure and now eats what he likes and as much as he wants, and he feels like a new man. It digests what you eat. All druggists.

An East Indian prince, on his first visit to this country, suffered so continuously from cold that he contracted pneumonia and died. He was cremated, and after being some ten minutes in the crematory an attendant opened a small slit in the side of the furnace to note the result. The prince was sitting bolt upright on the slab and shouted, "Shut that door!"—Life.

An exchange prints the following interesting announcement of "A Literary Evening": "We are pleased to announce that a literary evening will be given on Wednesday next for the benefit of the new school bell, which was duly paid by the trustees. The new bell, which is a thing of beauty and a joy to the eye, is certainly worthy of a Literary Evening—the best that we can get up. There will be hot supper and recitations from Byron; ice cream and Tennyson, at 10c a plate; selections from Bill Arp's writings and baked 'possum; and dancing to the music of the town band, which has recovered from the pneumonia. A large attendance is expected."—Atlanta Constitution.

In almost every neighborhood there is someone whose life has been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who has been cured of chronic diarrhoea by the use of that medicine. Such persons make a point of telling it whenever opportunity offers, hoping that it may be the means of saving other lives. For sale by L. Rosenheimer.

GRANDMA HAD CONSUMPTION

and I am afraid I have inherited it. I do not feel well; I have a cough; my lungs are sore; am losing flesh. What shall I do? Your doctor says take care of yourself and take plain cod-liver oil, but you can't take it. Only the strong, healthy person can take it, and they can't take it long. It is so rich it upsets the stomach. But you can take SCOTT'S EMULSION. It is very palatable and easily digested. If you will take plenty of fresh air, and exercise, and SCOTT'S EMULSION steadily, there is very little doubt about your recovery. There are hypophosphites in it; they give strength and tone up the nervous system while the cod-liver oil feeds and nourishes.

At tired tramp turned from the dusty road of a quiet village and rested on the front steps of a wayside cottage. Soon the noise of a man and a woman in violent altercation came through the windows, and the hoboe listened intently. Angry words and occasionally the sound of something thrown, was heard, and the weary wanderer could scarcely sit still. At last, evidently, the wife had taken a broom and dealt fast and furious blows. The tramp could restrain himself no longer, and upon rushing into the house he darted between the pair and huskily cried: "Give me a clip or two, old woman; it seems just like old times."—Collier's Weekly.

# A Mother's Tears

## "I Would Cry Every Time I Washed My Baby."

"When he was 3 months old, first fevers and then large boils broke out on my baby's neck. When I washed and powdered him I would cry, realizing what pain he was in. His pitiful wailing was heartrending. I had about given up hope of saving him when I was urged to give him Hood's Sarsaparilla, all other treatment having failed. I washed the sores with Hood's Medicated Soap, applied Hood's Olive Ointment and gave him Hood's Sarsaparilla. The child seemed to get better every day, and very soon the change was quite noticeable. The discharge grew less, inflammation went down, the boils took on a healthy color, and the raw flesh began to scale over and a thin skin formed as the scales dropped off. Less than two bottles of Hood's Sarsaparilla, aided by Hood's Medicated Soap and Hood's Olive Ointment, accomplished this wonderful cure. I cannot praise these medicines half enough." Mrs. Geriout, 37 Myrtle St., Rochester, N. Y.

# Game is Decreasing.

In the South African game animals have, in recent years, been quickly disappearing on account of sportsmen and other causes more or less due to the advance of civilization. In the case of many species the numbers have dwindled from immense herds to only a scattered few preserved in a semi-wild state on the frontier of some of the colonies and settlers. There can be little doubt that the present war will still further diminish the number of large animals—New York Herald.

# CAREFUL OF THEIR VOICES.

Public Singers Forego Many Pleasures for the Sake of Their Art.

Adelina Patti has led a life of self-denial for the sake of her voice. As a young girl she never had any of the pleasures which fall to others. Parties, dancing and fun of every kind were denied her. Her father and her brother-in-law, M. Strakoski, who was also her instructor, had her constant company, and she would fatigue her voice. One can imagine how bright and lovely a child Patti would have been, had she not been denied the pleasures of the table were for her. She used to eat only plain food, and she would not eat anything that would injure her voice.

CHAPTER XXVI.—(Continued.)

"You found the boat all right, of course?" she remarked tentatively.

"Yes, and fixed her, as I told you."

Arva sniffed and then, with a more potent, settling down near him when she had finished.

"If it should blow like this, you wouldn't dare start, would you?" she inquired, referring to the all-important topic.

"No; but it probably won't," he answered. "You know we must always catch a breeze for a day or two when the wind changes, and then it calms down. It is working from east to south now, and I expect by tomorrow night it will be into a decent sort of breeze."

"And if it is, then the next day we shall start?"

"I don't see why not."

"And you realize it, do you?" she asked with a look of inquiry.

"Well, it is pretty hard to fully take it," he said thoughtfully. "It will be a great change to a vessel when you get back to the world."

"He stopped and patted Filice's hand, who was just recovering from his leg."

"By the way, here is the dog," he went on lightly, and as though changing the subject. "When we get back home what are we going to do with him? Will you have him?"

"Oh, yes. Why, sure enough," she exclaimed, a little taken aback. "I didn't think I have a dog, but I'll take him. In fact, I have none at all."

"I have none at all," she said, with a smile. "I've never owned one."

"But of course you will bring him around here, will you?" she asked.

"I'll give him up on any other terms," she said, with a look of determination.

"By the way, here is the dog," he went on lightly, and as though changing the subject. "When we get back home what are we going to do with him? Will you have him?"

"Oh, yes. Why, sure enough," she exclaimed, a little taken aback. "I didn't think I have a dog, but I'll take him. In fact, I have none at all."

"I have none at all," she said, with a smile. "I've never owned one."

"But of course you will bring him around here, will you?" she asked.

"I'll give him up on any other terms," she said, with a look of determination.

"Well, it is pretty hard to fully take it," he said thoughtfully. "It will be a great change to a vessel when you get back to the world."

"He stopped and patted Filice's hand, who was just recovering from his leg."

"If it should blow like this, you wouldn't dare start, would you?" she inquired, referring to the all-important topic.

"No; but it probably won't," he answered. "You know we must always catch a breeze for a day or two when the wind changes, and then it calms down. It is working from east to south now, and I expect by tomorrow night it will be into a decent sort of breeze."

"And if it is, then the next day we shall start?"

"I don't see why not."

"And you realize it, do you?" she asked with a look of inquiry.
