SATURDAY, JUNE 16, 1900.

The season of air ships and sea serpents sets in as the weather gets warmer.

The tramp who ordered a Kenosha housewife to cook a meal for his liking has been given board where his likes or dislikes will not bother the cook.

The municipal campaign in Havana is quite Yankified, in that each side accuses the other of corruption, while the recalcitrant voter has to choose between the two.

In personally reporting as to how the Filipinos are behaving, Gen. Otis undoubtedly convinced President McKinley that Aguinaldo is a sort of rapid-disappearing gun personified.

It is claimed that the Republican majority in Oregon is 20 per cent less than two years ago, though some Republican papers early termed the result "a decisive victory" for their party.

Geo. W. Peck has been unanimously chosen as the Democratic nominee for Congress in the Fourth district, and likely will make the campaign anything but humorous for Theo. Otjen.

The New Yorker who has already bet \$25,000 on Bryan's election must be well posted on the probable action of the Kansas City convention, both as to the prospective nominee and the platform which he will run upon.

In case the proposed trust for securing conventions should include all large cities in this country, the great anti-trust party would have to hold its next national meeting in Cedarburg or some like Simon-pure Democratic balliwick.

COL. BRYAN may well go on a fishing trip to Minocqua, as all the Democratic conventions are endorsing his candidacy for the presidency with a unanimity equalled by that which the Republicans show in endorsing President McKinley for re-election.

The General Federation of Women's Clubs seems to be Ruffin it yet, as a result of having drawn the color line at a convention in Milwaukee last week. This matter calls to mind many apposite sayings, such as "justice is blind," "all coons look alike to me," etc.

SINCE the enemy tore up 25 miles of railroad at the rear of Lord Roberts and killed, wounded or captured all but six of the Fourth battalion, the inhabitants of London are convinced that the end of the South African war is as uncertain as the locality of a hostile Boer.

AND now the gold Democrats talk of holding a national convention at Indianapolis and nominating Dewey for the presidency. If these fellows keep on booming the admiral, his name will not even be mentioned at the Kansas City meeting, to say nothing of his chances for second place on the regular ticket.

THE reported massacres in China may not be caused by foreign missionary work, but as the first attempt to Christianize mankind resulted in the crucifixion of Jesus, it could hardly be expected that the Boxers' society of 11,000,000 semi-barbarians would take kindly to those who differ in their mode of worship.

THE Court of Claims has judicially determined the famous Sampson and Schley case by declaring that the former was the commander-in-chief of the naval forces that destroyed Admiral Cervera's fleet. This shows that the "boss" should get the greatest credit for the good work of his men and the greatest blame when the crew deserves it.

SENATOR SPOONER should note that the postmaster general says the Island of Porto Rico and the territory of Hawaii are included in the term "United States," while the island of Guam, the Philippine archipelago and Tutuila are included in the term "islands and possessions of the United States." But perhaps this is only done to facilitate the handling of mail.

THE Democratic state convention, to nominate state officers and presidential electors, will be held at Milwaukee on Aug. 22. The matter of who is to be the next national committee of the party in this state has wisely been left to the Wisconsin delegates to Kansas City, as the national interests of the party are first to be considered in making such a selection. He should be a man in accord with the platform which will be adopted, at least.

SENATOR QUARLES, who had been in Washington since the fore part of last winter, has arrived home and is "glad to get back to Milwaukee." Thus it seems he returns to the bosom of his constituents with a lighter heart than many of those who voted for the Porto Rican bill, though the number of times he will be asked why he supported the much mooted measure may yet cease him to his way to some secluded summer resort pending the fall campaign.

THE Republican national committee of this state evidently believes that the coming political battle will be the hottest his party ever engaged in, as he says: "I would rather go through forty campaigns like that of 1896 than the one we are to go through." However, Mr. Payne has no intention of scaring his forces so that they will enter the fight half whipped, as he adds: "There are new issues to meet, new conditions to overcome, and we cannot afford to be over-confident."

Jaehning and Richard Beger. The latter delivered a much appreciated address, after the programme, and was followed by our school principal, who made a short speech preparatory to awarding the diplomas. The graduates of 1900 are a very bright set of scholars, and are the pride of their parents as well as their teacher.

Would Not Suffer So Again for Fifty Times Its Price.

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCord's drug store, and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic, and one dose fixed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—G. H. Wilson, Liverman, Burgetstown, Washington county, Pa. This remedy is for sale by L. Rosenheimer.

Ivy poisoning, poison wounds and all other accidental injuries may be quickly cured by using DeWitt's Witch Hazel Salve. It is also a certain cure for piles and skin diseases. Take no other. All druggists.

### A TERRIFIC FIGHTER.

Daniel Boone, the Famous Hero and Kentucky Pioneer, Might Well Be Called the Bravest of the Brave.

Into the depths of wild forests where no white man's foot had ever trod before went Daniel Boone, the first settler in Kentucky. He had to fight ferocious beasts and still more savage men, but he never knew fear, and to read about his deeds stirs the blood of all Americans. One of this famous family, Mr. W. T. Boone, of Williamsport, in that state, shows that he is like the great hero in one respect, that he will not shed human blood if he can avoid it. It was to prevent the flow of blood that he first used Dr. King's New Discovery for Constipation. He says: "I lost all last summer day I first felt the awful power of a sunstroke. I cannot describe the terrible agony that I suffered. For one month I felt the torture of a dry, burning fever. I could scarcely eat anything. I lost all strength and vitality. Then followed terrible hemorrhages, when blood flowed from my lungs. It seemed that death from quick consumption was very near, and that I was lying on my dying bed, when a good friend advised me to try Dr. King's New Discovery. The result was marvelous. I only used one bottle, and in two weeks every trace of lung trouble had left me and I was completely cured." The wonderful power of this grand medicine to cure every bronchial trouble makes it the supreme medical discovery of the century. It has cured consumptives given up to die by all doctors. It will promptly cure the most stubborn coughs and severest colds, Bronchitis, Pneumonia, Pleurisy, Hemorrhage, La Grippe, Lung Fever, Asthma, Hay Fever, Croup, Whooping Cough and all throat and lung diseases. Dr. King's New Discovery is a perfect life-saver that no home should ever be without. Only 50 cents and \$1.00. Money back if not cured. Trial bottle free. At all druggists.

### Who Are the "Boxers"?

London Mail: Since the murder of Mr. Brooke and the devoted Church of England missionary, who was hacked to death in a Chinese village, many people have asked, "Who are the Boxers?" and the European powers have had to consider whether steps should not be taken to suppress these dangerous fanatics, who are organized, well armed, and as savage in their fanaticism as the Sudan Derivishes.

The Chinese society of Boxers constitutes in reality a great clan of murderers, estimated to contain in its ranks over 11,000,000 semi-barbarians, well organized, well armed, and as savage in their fanaticism as the Sudan Derivishes.

The society was originally formed with the intention of protecting honest men in China from the depredations of the foreign missionaries, who were called Ta Tse Hwei, which means "The Society of the Great Sword," a title which seems to have been changed to a comparatively recent date to the more familiar name which so often appears in our newspapers.

When and where the clan originated is not certain. The natives refer to it as an "ancient" society, but that may mean ten years or 100. It is agreed that at first its principles were laudable and its work good, but as it became more powerful and increased in numbers, many dishonest and designing persons entered it for prestige and protection, just as they ally themselves with influential bodies in other lands.

These men proved a disturbing element, and in many cases directed the efforts of the society against their personal enemies, whom they represented as bandits. Terrified by persecutions, the innocent victims looked around for protection, and discovered it in Christian missionaries. It is said that they professed conversion. At any rate, it seems clear that the missionaries succeeded in protecting them, and thus intensified the feeling which has always existed in China against Christian evangelists.

In many districts of Shantung countless Christian homes have been destroyed. German Protestants and Roman Catholics, English churchmen and Congregationalists alike have been victims of shocking outrages.

Unless food is digested quickly it will ferment and irritate the stomach. After each meal take a teaspoonful of Kodol Dyspepsia Cure. Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on first said it was a slight strain and would soon be well, but it grew worse, and then the doctor said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of a 50 cent bottle cured me entirely. I now recommend it to all my friends.—F. A. Babcock, Erie, Pa. It is for sale by L. Rosenheimer.

POLITICAL.

This is the recurrent quadrennial political year, yet there are few indications of political enthusiasm such as in past times preceded great national elections. It is true there has been a season of state and local conventions to select delegates to the national bodies and other preparations for party nominations, but there is not any large degree of enthusiasm. It was not so in the past. The recollections of the presidential elections in war times and of preceding national canvasses are filled with incidents of campaigns that extended through many months and were fraught with intense popular excitement. Has political interest died out, or have the times so changed that wholly different conditions prevail? Whatever the fact, politics this year is very tame.

Not later than the hot days of July will the political spirit of men begin to assert themselves. Then will come the political meetings and platform discussions, in which millions will gain new interest. After August heats it will be realized that the future welfare of the country is at stake. Then will develop the thorough going partisan, ready to argue, to cheer or to howl over his side of the political questions. Then the man who months previous claimed he was done with politics will find himself irresistibly drawn into the vortex. The millions will set to work for their respective parties as though their whole future depended upon it, and thus it will go until the votes of about 14,000,000 citizens are cast, and the result being more or less known, the cooling off time will come.—Dubuque (Ia.) Herald.

Broken Bric-a-Bracs. Mr. Major, the famous cement man of New York, explains some very interesting facts about Major's Cement.

The multitudes who use this standard article know that it is many hundred per cent better than other cements for which similar claims are made, but a great many do not know why. The simple reason is that Mr. Major uses the best materials and does not show large profits. Mr. Major tells us that one of the elements of his cement costs \$1.25 a barrel, and another costs \$2.50 a barrel, while a large share of the so-called cements and liquid upon the market are nothing more than lime dissolved in water or citric acid, and in some cases, altered slightly in color and odor by the addition of cheap and useless materials.

Major's cement retails at the 1c and 2c a lb., and when a dealer tries to sell a substitute you can depend upon it that his only object is to make a profit on any cement.

The profit on Major's cement is as much as any dealer could make on any cement. This is doubly true in view of the fact that each dollar of advertising which now amounts to over \$500 a month, throughout the country. Established in 1875.

Insist on having Major's. Don't accept any kind of advice from a druggist.

If you are all handy (and you will be likely to find that you are a good deal more so than you imagine) you will be surprised to find how many dollars a year you will thus save.

If your druggist can't supply you, it will be forwarded by mail (either kind) free of postage.

Milwaukee is making great preparations for the reception and entertainment of the many thousands of people who will visit the city during the last week of June to participate in the festivities incident to the third annual carnival. So thorough has been the work that there can be no doubting that every feature announced will be carried through to perfection. In a few days the great task of erecting the arches over Wisconsin street and grand avenue will be commenced, and just prior to the opening of the carnival the merchants of the principal streets will decorate their stores in a more brilliant and lavish manner than ever before. The carnival opens June 28 and closes the 29th, and during the entire week very low rates will be granted by all the railroads entering the city.

You may have been to England or Europe and still need much more information. Only the fact that you are here now, tells the fact that you are here now. It tells the fact that you are here now. It tells the fact that you are here now.

E. church here will be preached on Sunday, June 24th. There will be about 70 firemen from here, and the Fillmore brass band has been hired to accompany them. The Milwaukee lodge of locomotive firemen, have finally concluded not to abandon their excursion to Kewaskum on July 22, as the railroad company has granted them satisfactory terms. Consequently the excursion will run as at first announced. N. E. France of Platteville, Wis., state inspector of apiaries, was here between trains yesterday and reported as finding much foul brood in the beehives of Wisconsin. He will call again later on for the purpose of doing some work hereabouts. In the meantime, however, it might be well for apiary owners to correspond with him, as his inspection costs nothing, while he saves the hives and bees instead of burning them in case of foul brood. John Strobel entertained a number of relatives and friends, at the family residence on Fond du Lac avenue last Sunday, on the occasion of the kirmes as well as the 53d anniversary of his birth. The guests included the following from elsewhere, viz: Wenzel Beisier and wife from Lomira, Mrs. B. Berg of Ashford, Mrs. S. Schneider of Elkhart Lake, S. Stevens had performed the ceremony, a reception was held at the home of the bride's parents, Mr. and Mrs. H. Roecker, with about 200 guests in attendance. The groom's folks live in Wayne, but the young couple will reside here, where we wish them success.
