

Kewaskum Statesman.

Communications should be accompanied by the name of the writer, not necessarily by publication, but as evidence of good faith on the part of the author. Write only upon one side of paper, and in giving names and dates, be careful to make them plain and distinct. Advertising copy should reach us not later than Wednesday in order to insure its insertion in the issue of the current week.

SATURDAY, JUNE 23, 1900.

The trouble in China has reached such a stage that it is dangerous for a foreigner to even look there.

It will perplex the average Christian to favor both universal peace and foreign missionary work just at present.—Milwaukee Sentinel.

R. M. LA FOLLETTE is securing enough support throughout the state to make it interesting for other Republican candidates for the gubernatorial nomination.

IP Princess Radziwill of Russia had not been reported as having been robbed of jewelry valued at £10,000 no one would suspect her of having bet on the horse races while in London.

The Appleton Crescent brings out the name of John Johnston of Milwaukee as a candidate for the nomination for governor on the Democratic ticket, just as if Mr. Johnston would stand any show in a convention which will meet with sympathy for the Boers.

It is reported that the Chicago, Milwaukee and St. Paul railway company will change its motive power to electricity on all lines in the Garden city. If the report should prove true, other lines may follow suit to such an extent that people who arrive there on a passenger car may be distinguished from those who roll in on the "hog train."

The Racine chief of police and Rev. D. B. Cheney are being sued for \$25,000 damages as a result of having failed to convict H. F. Corbett on the charge of having shot the preacher and his wife. Thus it seems that the couple recovered from their wounds only to finally share the sufferings that Corbett underwent at the hands of lawyers.

The Republican national convention opened at Philadelphia on Tuesday with speeches by Committeeman Hanna and Temporary Chairman Wolcott. The latter's address was the principal feature of the occasion. As expected, Gov. Roosevelt of New York was forced into the vice-presidential nomination to bolster up McKinley. The platform adopted is insignificant, in that the previous one was not lived up to.

Gen. Otis is certain that the Philippines are "worth more than the price paid for them." Certainly they are worth more to Gen. Otis than he ever paid for them. In consideration of his services as chief executive of the administration's policy of "benevolent assimilation" he has been raised to the rank of major-general, with the privilege of retiring shortly on the salary of that office.—Columbus (Wis.) Democrat.

Unless food is digested quickly it will ferment and irritate the stomach. After each meal take a teaspoonful of Kodol Dyspepsia Cure. It digests what you eat and will allow you to eat all you need of what you like. It never fails to cure the worst case of dyspepsia. It is pleasant to take. All druggists.

BEECHWOOD BEAMLETS. Peter Glass, Jr., drove to Sheboygan last Saturday.

Miss Cassie Hughes closed a very successful term of school Friday.

John Held and wife entertained friends from West Bend last Sunday.

Mr. and Mrs. Henry Glass visited friends at Newcass last Wednesday.

John Clifford, Sr., transacted business at Campbellsport last Tuesday.

The E. F. U. had a pleasant meeting at the club rooms Wednesday evening.

Mr. and Mrs. McDonald attended the marriage of her niece in Osceola last Tuesday.

Miss Maggie Stokes closed a successful term of school in the Sauter district Wednesday.

Peter Hammen and family drove to Kohlsville last Sunday and returned on Monday evening.

Misses Esther and Irene Erb of Appleton are guests of their grandparents here, Mr. and Mrs. M. Stahl.

A large number from this place attended the picnic at Boltonville last Sunday, and they report as having had a pleasant time.

Lost:—Between here and New Prospect, a satchel containing 4 lady's garments, a pair of shoes and some child's clothes. Finder, please return same to Peter Hammen and receive reward.

The marriage of Miss Minnie Nilson of Milwaukee to Aug. Butzke of this place takes place this evening at the Lutheran church, with Rev. Gramme officiating. A reception of immediate friends of the couple will be held at their future home.

Last fall I sprained my left hip while handling some heavy boxes. The doctor called on first said it was a slight strain and would soon be well, but it grew worse, and then the doctor said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of a 50 cent bottle cured me entirely. I now recommend it to all my friends.—F. A. BABCOCK, Erie, Pa. It is for sale by L. Rosenheimer.

Would Not Suffer So Again for Fifty Times

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store, and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic, and one dose fixed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of that night again for fifty times its price.—G. H. WILSON, Livermore, Burgetstown, Washington county, Pa. This remedy is for sale by L. Rosenheimer.

ST. KILIAN SHARPS. John Flash spent Saturday at Fond du Lac.

Rev. Peter J. Burelbach spent last Monday in the Cream city.

Geo. Ruplinger and family returned from their northern trip Monday evening.

Mrs. Kate Heisler spent the fore part of the week visiting relatives at Hartford.

The Catholic congregation has built a sidewalk from the village to the church.

The rain of last Thursday would have been just as welcome if it had been twice as heavy.

Mr. and Mrs. Hy. Budde of Beaver Dam visited at Jos. Strobel's last Sunday and Monday.

The German-American Vaudeville Co. left for Newfane last Thursday, after showing here for ten nights. The entertainments were very interesting and always drew a good sized audience.

A Card of Thanks. I wish to say that I feel under lasting obligations for what Chamberlain's Colic Remedy has done for our family. We have used it in so many cases of coughs, lung troubles and whooping cough, and it has always given such perfect satisfaction, we feel greatly indebted to the manufacturers of this remedy and wish them to please accept our hearty thanks.—Respectfully, Mrs. S. Dory, Des Moines, Ia. For sale by L. Rosenheimer.

NEWSPAPER NEWS. Herman Dalke left Tuesday for a few days' stay in Milwaukee.

A stone box was held at Wm. Pick's place last Friday.

F. Miller spent part of the week with George Braun here.

Revs. Theo. Brauer and G. Kaniess left for Milwaukee last Tuesday to attend a conference there.

Miss Anna Uelmen spent the past week with her sister here, Mrs. J. Schiltz.

Miss Isabel Doyle closed a successful term of school here Friday.

J. Schaefer, assessor of the town of Auburn, called here on official business Monday.

Miss Ida Backhaus is employed as a domestic at the home of August Heberer.

The dance at Dehm's was well attended last Sunday night, about 35 couple having been present.

The German-American Vaudeville are here for a week or ten days. They have a first class show and should be well patronized.

The infant child of Mr. and Mrs. S. Ketter died on the 15th inst., after a lingering illness, and was interred in the St. Mathias cemetery Monday forenoon.

LOMIKA LETTER. Charles Schoss has returned from North Dakota.

H. Brazlaw now works for H. Tolzman, the wagonmaker.

Miss Irene Budahn of Rosendale visited friends here lately.

Mr. and Mrs. H. Tolzman visited the Buche family last Sunday.

The Star band has arranged to hold a picnic on the 4th of July.

Our baker now delivers his products to patrons, having purchased a horse of M. C. Tolzman for that purpose.

Our firemen and a large number of other citizens here attended the Firemen's tournament at Horicon last Sunday.

The marriage of Bertha Schultz to Mr. Richard of Watertown took place here last Sunday, and Conrad Berger was married to Veronika Brown of this place on the 12th inst. Both weddings were celebrated at Marx's hall.

The marriage of Geo. Wolf to Miss Ziegelbauer will take place next Tuesday, when Mr. and Mrs. Peter Wolf also will celebrate the 25th anniversary of their marriage with a silver wedding. The combined celebration will take place in Marx's hall.

Fourth of July Notes. On July 3 and 4 the North-Western Line will sell excursion tickets at low rates to points on the North-Western system within 200 miles of selling station, good returning until July 5, inclusive. Apply to agents Chicago & North-Western R'y.

HOW ABOUT ONE-ARMED MEN! Hugging societies are springing up with alarming rapidity in the West. Not long ago they organized one in the neighborhood of Glenbeulah, and the first meeting netted a church \$68. Old farmers for miles around became active members. The schedule of rates is: Girls under 16 years of age, 15c for a square; from 16 to 29 years, 50c; from 20 to 25 years, 75c; school mums, 40c; another man's wife, \$1; widows, according to looks, from \$3 to \$10; old maids, 3c or 2 for a nickel and no time limit. Preachers have their choice free of charge. Editors pay in advertising, but are not allowed to participate until the others get through hugging, and even then they are not allowed to squeeze anybody but old maids and school mums. The newspapers of Sheboygan probably will not boom hugging societies with this schedule of rates in operation.—Journal.

A SINGULAR SUICIDE.

A Man Holds His Head Under Water Till He Is Drowned.

Of all strange suicides that of a man at Lexington, Mo., seemed most remarkable. He calmly walked into the river until he was in three feet of water, then leaned forward and held his head under until drowned. Hopeless despondency from disease caused many suicides. We have never heard of a more wonderful rescue from the grave than that of Jesse Middle-swart, of Decatur, O. The pit of death yawned darkly at his feet, but he was snatched back from it by Dr. King's New Discovery for Consumption, Coughs and Colds. He says: "I had been enjoying life. My health was good. I weighed 180 pounds. I thought I could defy rains, snows and storms and exposed myself to all weather. But began to cough—how I did cough—day and night. Nothing would stop it. Two of the best physicians here told me that I had consumption and doctored me for a year. Then they told me that I could only live a little while longer. I had frequent hemorrhages and was very weak. I had lost sixty-one pounds and could hardly walk. To think of my former strength and feel this fearful weakness made me desperate. I almost longed to end my horrible suffering. Then a good friend advised me to use Dr. King's New Discovery. I began to get better from the first bottle, but kept using it until I am as strong and stout and well as ever, and now weigh 190 pounds. I can't find words strong enough to praise this wonderful remedy. Dr. King's New Discovery will cure Bronchitis, Pneumonia, Pleurisy, Asthma, stubborn Coughs, severe colds in fact all diseases of the chest, throat and lungs. Large bottles 50c and \$1.00. Money back if not cured. All druggists. Trial bottles free.

ST. MICHAEL'S MITES. Mrs. B. Wiskirchen lost a valuable horse recently.

Michael Beudel of Calvary is spending his vacation at home here.

Miss Barbara Kodenkirch has been here from Chicago since the 13th inst. on a 2-week visit.

Mr. and Mrs. John Tull attended the Wolf-Pastors wedding in the town of Barton last Tuesday.

Mrs. J. Meeth and daughter left last Saturday for a visit with the former's children at Chicago and Waukesha.

The marriage of N. P. Dricken to Miss Marie Mueller will take place in Milwaukee on the 26th inst., at the St. Joseph church.

Math. Schneider was tendered a surprise in the evening of the 15th inst., by the young people of our burg, and all had a good time.

At a special town meeting held in Fillmore last Monday the question of building a new bridge across the Milwaukee river east of Cheesewill was carried by a vote of 106 to 39. The structure will cost about \$4,400.

A surprise party was tendered to Chas. Bath last Tuesday evening on the occasion of the 53d anniversary of his birth. A large crowd was in attendance and the event was highly enjoyed by both old and young. We wish Mr. Bath many happy returns of the anniversary.

Reports show that over 1500 lives have been saved through the use of One Minute Cough Cure. Most of these were cases of grippe, whooping cough, bronchitis and pneumonia. Its early use prevents consumption. All druggists.

Although the fastest railroad trains in the world are claimed for the United States, the fact is that France really excels in this direction. On the French Northern railroad a train makes the distance of 82 miles between Paris and Amiens, without a stop, in an hour and fifteen minutes, which is equal to the speed of about 65 miles an hour.

Two Writers. "But, papa," said the maiden, "the bids fair to become a writer of note." "Yes," answered the old man, "and the other fellow is already a writer of checks." As to the one she ultimately chose, the gentle reader can easily decide—one way or the other. It all depends on the age of the gentle reader.—Indianaapolis Press.

The Chinese ask "how is your liver?" instead of "how do you do?" for when the liver is active the health is good. DeWitt's Little Early Risers are famous little pills for the liver and bowels. All druggists.

Neglect is the short step so many take from a cough or cold to consumption. The early use of One Minute Cough Cure prevents consumption. It is the only harmless remedy that gives immediate results. It cures all direct and long troubles. Children all like it and mothers endorse it. All druggists.

When a shoemaker dies he breathes his last; the candidate gives the great majority; the banker passes in his own; the dancing master gives up the jig; the tailor's goose is cooked; the apothecary throws up the sponge; the chimney sweep goes up the flue; the gambler shuffles off, and the editor expires at the hands of an irate reader for having told the truth.—X.

All who suffer from piles will be glad to learn that DeWitt's Witch Hazel Salve will give them instant and permanent relief. It will cure eczema and all skin diseases. Beware of counterfeits. All druggists.

An ordinance making betting on prize fights a misdemeanor has been passed by the Board of Supervisors of San Francisco. The penalty for a violation of the law is a fine not exceeding \$500 or imprisonment for not more than six months.—X.

Starvation never cured dyspepsia. Persons with indigestion are already half starved. They need plenty of wholesome food. Kodol Dyspepsia Cure digests what you eat so the body can be nourished while the worn out organs are being reconstituted. It is the only preparation known that will instantly relieve and completely cure all stomach troubles. Try it if you are suffering from indigestion. It will certainly do you good. All druggists.

Summer Colds are noted for hanging on. They weaken your throat and lungs, and lead to serious trouble.

Don't trifle with them. Take Scott's Emulsion at once. It soothes, heals, and cures.

50c and \$1. All druggists.

PRESS PULSATIONS.

Bryan represents the American, and therefore the Democratic side of living, burning, dominating issues—imperialism, militarism and monopoly. Consequently he is entitled to, and will receive, the support of this paper.—New York World.

President Krueger probably has read the story of John Paul Jones, whose reply to a call to surrender after his ship was shot to pieces and supposed to be sinking, was that he had just begun to fight. And he kept on fighting, and won out.—Appleton Crescent.

The drug people want the revenue stamp duty taken off their products. The bankers are moving to have it taken off their checks. The lawyers think it ought to be taken off legal documents and the insurance people off policies. The only classes who don't seem to care a continental about it are the telegraph and express companies, and they hustled around and saddled their share of war tax on their patrons, so they can afford to be indifferent about it.—Osage (La.) Press.

But little discussion has so far been stirred up in the ranks of the Democratic party, and it promises to be united in facing the Republican class in the great contest approaching. No matter how grand a party's principles, how honorable its motives, or unsullied its past, it cannot achieve success at the ballot-box if torn by internal strife. The conventions, whether national, state or county, should select of material fitted for the positions to which they aspire, and the rank and file should then give them their unqualified support.—Fond du Lac News.

The Democratic party has never acquired an inch of territory without signing and sealing a covenant agreeing that its inhabitants should have all the rights of American citizenship, and that their territory should be finally adopted as states of the Union. The Republican party was the only political body in this country that has ever proposed to hold vassal provinces, and to denigrate the party wanted no share in the honor. If a people were not fit for free institutions, our government was not fit for such people. We could not afford to become tyrants on the ground that another people were not fit to be free.—Antigo Journal.

Unnecessary taxation is still unjust present taxation, or of many of them, is shown by the fact that the government is monthly piling up revenue millions in excess of its expenditures; millions that are not only indefinitely withdrawn from circulation, but are a constant temptation to reckless appropriations. Thus far in the fiscal year the government income is over \$60,000,000 more than its expenses. The available treasury balance is \$146,000,000 in gold put aside for the issue and redemption department.—Cleveland (Ohio) Plain Dealer.

BOLTONVILLE BUDGET. Ben. Goerler is spending the week at home.

B. P. Wescott has nearly finished taking the census.

Chas. Miller and mother were callers here last week.

Miss Cora Bailey is visiting her sister at Waawatosa.

F. M. Haase delivered drugs to E. L. Morgenroth lately.

M. T. Buckley returned to his home in Hartford last Thursday.

Mrs. E. L. Morgenroth has gone to Chicago to visit relatives.

G. Lezen and C. Wiskirchen went to Hingham last Sunday on their bicycles.

R. A. Gordon and wife attended the funeral of the late Mrs. Albricht last Sunday.

Monday last Mrs. B. Wiskirchen and son Albert were guests at Jos. Neibler's.

Mr. and Mrs. H. Gilbert of West Bend spent Sunday with the Chas. Heise family.

Alex. Ebenreiter and Jos. Schmidt of Kewaskum called on Geo. Bolton last Sunday.

Charles Morgenroth has returned from Wayne, where he had been teaching school.

Geo. Bolton attended the meeting of the alumni of the West Bend high school Thursday evening.

The Boltonville Keystones defeated the Trenton Black Diamonds last Sunday by a score of 10 to 5.

Mrs. E. Blau Katie Ryan, Annie Blau and Mrs. Fisher were entertained at Mrs. E. Riley's last Wednesday.

Mr. and Mrs. F. E. Colvin of West Bend, Mr. and Mrs. F. Van Epps of Kewaskum, and Mrs. A. Goldammer of Elkhart Lake were guests at L. F. Gordon's last Sunday.

Mr. and Mrs. W. R. Wescott and Mrs. F. M. Schuler returned Thursday from Appleton, where they attended the graduating exercises of the Lawrence university.

Morton E. Davis, a Western railroad man, is ready to survey a line across the continent to build an air line railroad from New York to San Francisco, which line is to be practically straight and level. He contends that it is more economical to carry spurs to large cities than to increase mileage by carrying a railroad through them, and more in it to raise mountains and fill hollows. Mr. Davis is related to United States Senator Davis of Minnesota. He commenced life as a brakeman in 1868 and retired from the railroad business in 1888, after having filled such responsible positions as trainmaster and division superintendent in and about Chicago.

LOW PRICES ON FURNITURE

at H. J. EBENREITER'S STORE.

Having contracted for all of my furniture in carload lots before the advance in prices took place, I now have and am retailing at wholesale prices

- SCREEN DOORS.....75c

The Farmer's Watch.

It's a watch that lives a country jay. Who trades not with his neighbors, But to the city goes to spend The product of his labors. He went to an auction store, Where watches fine were selling; The auctioneer with blarney voice, This wonderful watch was selling. Here is a matchless gold-filled watch, With an acre of land on it, And an acre of gold on it, And an acre of silver on it, And an acre of copper on it, And an acre of iron on it, And an acre of steel on it, And an acre of brass on it, And an acre of tin on it, And an acre of zinc on it, And an acre of lead on it, And an acre of mercury on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of potassium on it, And an acre of sodium on it, And an acre of calcium on it, And an acre of magnesium on it, And an acre of aluminum on it, And an acre of silicon on it, And an acre of boron on it, And an acre of fluorine on it, And an acre of chlorine on it, And an acre of bromine on it, And an acre of iodine on it, And an acre of oxygen on it, And an acre of hydrogen on it, And an acre of nitrogen on it, And an acre of carbon on it, And an acre of sulfur on it, And an acre of phosphorus on it, And an acre of GRAY

Why let all your neighbors and friends think you must be twenty years older than you are? Yet it's impossible to look young with the color of 70 years in the hair. It's sad to see young persons look prematurely old in this way. Sad because it's all unnecessary; for gray hair may always be restored to its natural color by using—

Gray Hair Vigor

For over half a century this has been the standard hair preparation. It is an elegant dressing; stops falling of the hair; makes the hair grow; and cleanses the scalp from dandruff.

\$1.00 a bottle. All druggists.

It has been used by Mrs. J. H. Gray for over 20 years and I can heartily recommend it to the public. It is the best hair restorer in existence.

Wm. G. L. Anderson, Editor, Tex. April 24, 1920.

If you do not obtain all the benefits derived from the Vigor, write the doctor about it. J. C. AVEY, Lowell, Mass.

FOUND AT LAST.

The Axe with Which Charles I. was Beheaded.

The vexed question, so much in evidence in the papers recently, "What is the present location of the axe with which King Charles I was beheaded?" has finally been answered. The famous relic now reposes in the Museo Borbonico, at much among the archives of the British museum furnishes these particulars regarding it: The executioner, Charles (Giles Decker) survived the monarch thirty-six years, dying in 1685. His claim to the axe, which he appears to have regarded as his perquisite, was, after considerable discussion, granted by Parliament, and it remained his until his death. He always refused to make an exhibition of the instrument, but his son, doctored, and it remained his until his death. He always refused to make an exhibition of the instrument, but his son, doctored, and it remained his until his death.

A LIFE'S REMORSE.

Author of "Molly Bawn," "Marvel," "Hon. Mrs. Verelox," Etc., Etc.

BY THE DUCHESS

CHAPTER II.—(Continued.)

Evelyn looks as if she could defy the world too, in right of her beauty. She is a little thing, slender, dark-eyed, and clear-skinned, with nut-brown hair, and lips as red as roses. A beautiful girl, as yet a child only, although she is quite 17. Her hair falls in light natural waves about her white, oval face, and her feet are models; even the rough shoes that cover the latter cannot hide this fact.

Her eyes are peculiar—very large, and and somewhat mischievous. Brilliant eyes, that can be dreamy, angry, merry, or as the moment demands. There is something about her that suggests the idea of perpetual motion. An unattractive creature, she has been in the world since the little untrained thing she is now pursuing with a foot as light as a feather.

Jimmy follows, his heart in his mouth. He is a well-built lad and his eyes are full of eager desire for conquest, and a mouth which is always open.

"You're not a very good girl," he roars, racing up, but Evelyn has her own opportunity as well as his. She seizes him by the neck of his coat, and with an angry word or two to him—who knows her well—she sends him to the ground like a dog of demerol. He consents, at all events, to stand still whilst meditating a fresh and unimprobable idea.

"Oh, you have him," cried Jimmy, riding up, coming up and riding down. "I don't care for the capture," he said. "I don't care for the capture," he said. "I don't care for the capture," he said.

GIRLHOOD, WOMANHOOD AND MOTHERHOOD

Are Renovated, Regulated and Restored by the Pelvic Cathartic Remedy, Female Pills.

Mrs. E. C. Everly, 505 Diamond street, Philadelphia, Pa., says: "I feel well, never feel better, thanks to your attention. I can in the way of advancing the sale of your valuable medicine. I have tried at any time. Since I began taking Female Pills, we have never been without it."

Miss Bertha E. Sargent writes: "I can scarcely find words to express my gratitude to you for all your kindness and attention. I have been in your hands for the past year and find it a wonderful medicine. It has robbed me of all my ailments, and I feel as if I were a new woman. I have been in your hands for the past year and find it a wonderful medicine. It has robbed me of all my ailments, and I feel as if I were a new woman. I have been in your hands for the past year and find it a wonderful medicine. It has robbed me of all my ailments, and I feel as if I were a new woman."

Makes Its Own Light.

One of the marine curiosities recently fished from the bottom of the Indian Ocean by a dredging vessel in 1784 by John De La Roche, was a mammoth sea crab which continually emitted a bright phosphorescent light kindled by the common gas of the atmosphere. The oddity in a large tank, nothing peculiar except its luminous quality. The oddity in a large tank, nothing peculiar except its luminous quality. The oddity in a large tank, nothing peculiar except its luminous quality.

Sugar Beet Improvement.

It is a well established fact that plants can be improved by crossing and judicious selection quite as surely and as fast as the breeding of animals. The sugar beet of today actually contains about three times as large a proportion of saccharine matter as it did a century ago.

Libby, McNeill & Libby.

Housekeepers frequently feel the need of luncheon meats which are either ready to eat or can be prepared in a few minutes. Such a need is abundantly supplied in the superior meats put up by the Libby, McNeill & Libby, Chicago, one of whose specialties is advertised in another column of this paper. For more information, write to Libby, McNeill & Libby, Chicago, and you will receive a free literature.

What Do the Children Drink?

Don't give them tea or coffee. Have them drink the new food drink called GRAIN-O. It is delicious and nourishing, and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee, but costs about 1/2 as much. All grocers sell it. 15c and 25c.

900-DROPS

For Infants and Children.

The Kind You Have Always Bought Bears the Signature of

WATERBURY'S

Use For Over Thirty Years

CASTORIA

Vegetable Preparation for Assuaging the Food and Regulating the Stomach and Bowels of INFANTS, CHILDREN

Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. NOT NARCOTIC.

Facsimile Signature of J. C. WATERBURY, NEW YORK.

At 6 months old 35 Doses - 35 CENTS. EXACT COPY OF WRAPPER.

THE BOSTON STORE

GRAND AVENUE AND FOURTH ST. MILWAUKEE, WIS.

This mammoth new daylight store, containing about five acres of floor space, is the greatest sight in Milwaukee. It is one of the most magnificent buildings ever played in an attractive manner. The presentation shown by the public is a masterpiece of architecture. The store is a masterpiece of architecture. The store is a masterpiece of architecture.

"Personally Conducted" Pupils.

In the kindergarten a child is taught much through a system which is used to make him think that he is playing rather than working. But those imaginary devices take away the manliness of a boy who knows that work is work. We must not teach the boy that his teacher exists simply for his amusement. There is a great tendency to bring up children "along the lines of least resistance."

The Teeth in the Bible.

A Kensington dentist, who is likewise a pillar of the church, consulted the Scriptures some time ago in search of a suitable passage to read at the party of the first part remains a bachelor, or something of that sort. Are there not enough children who are already in the world? This last straw?—Jeannette L. Gilder in Harper's Bazar.

Try Grain-O! Try Grain-O!

Ask your grocer today to show you a package of GRAIN-O. The new food drink that takes the place of coffee. The children may drink it without injury. The best and best of the new food drink. GRAIN-O has that rich brown color of Mocha or Java, but it is made of pure grains, and it is a healthy stomachic. One-fourth the price of coffee. 15c and 25c per package. Sold by all grocers.

Origin of the Word "Deadhead."

The origin of the word "deadhead" is suggested by Frederick Stanley in a dictionary. He has recently in a museum in Naples. Among the relics were several popular theater, made in little images, a figure admitting to the fact and a book of an Italian theater. As the theater was a relic of the past, it is a relic of the past. It is a relic of the past. It is a relic of the past.

Market for Wild Animals.

Hamburg is a great market for wild animals, largely from Africa, the continent of the Imperial guard especially. The market is a great market for wild animals, largely from Africa, the continent of the Imperial guard especially. The market is a great market for wild animals, largely from Africa, the continent of the Imperial guard especially.

Construction Work on Wisconsin Central Shops at North Fond du Lac Being Rushed.

Fond du Lac, Wis., June 29.—(Special.)—The construction of the buildings of the Wisconsin Central plant in North Fond du Lac is being rushed and a fair idea of the immensity of the work is shown by the fact that the steel work for the foundations of the main power house is being completed. The steel work for the foundations of the main power house is being completed. The steel work for the foundations of the main power house is being completed.

Novel Electric Car.

A novel trolley car is in use in Berlin. Outside the city it runs on tracks with an overhead trolley contact, just as the ordinary car. When the city limits are reached extra sets of trucks are lowered and the car becomes an electric trolley, propelled by storage batteries carried under the side seats of the car.

Miniature Volcanoes.

Numerous Small Craters on a California Mountain Side.

A most remarkable phenomenon recently observed in every way a volcanic eruption was observed a few days ago twelve miles from Laytonville, Cal. The discovery was made through hearing a thundering, gurgling noise, while standing on the mountain side. The inhabitants on drawing near the scene of the disturbance discovered a completely surrounded by a dense growth of vegetation and some twenty-five miniature craters, exactly resembling volcanic craters, were seen to rise out of the ground from 4 to 5 feet high and about 8 feet in diameter. Each crater was belching forth warm vapor, accompanied by mud, which would flow down the mountain side for miles away. A continuous tremble of the earth is felt, and the running of the water in the streams is heard for miles away. Great crowds of people have camped on the mountain to view the spectacle.

HONOR DUE THE PEN.

But in the Matter of Hero Worship the Sworn Get It.

Julian Ralph is so widely known as a newspaper correspondent, and is so popular as a man both in and out of his profession, that the news from London of the Transvaal war almost a physical cause distress to all his friends in this city, where he lived so long and did such splendid work. The humorous way in which Mr. Ralph describes his injuries and sufferings is characteristic of the man. Surely he is the stuff of which heroes are made.

Spanish Surprises.

In addition to three of four Christian names the Spanish child bears the combined family names of his father and mother. When the surnames are combined, or connected by the particle "y" meaning "and," the one that may be taken alone, for it is the father's name, and the other is the name of the mother. In Spain they know no "senior" and "junior" father and son, and the name of the father and the name of the mother are the same Christian name, but each takes his own mother's name as a distinction. The father being, for instance, Pedro Diaz y Garcia, and the son Pedro Diaz y Blanco.—New York Herald.

A Novel Suggestion.

It is suggested that it will be profitable to try the experiment of using gas engines for driving ships, the gas being generated in the ship itself. Coal will be roasted in retorts aboard the ship in order to drive off the gas from the retorts. The gas thus produced would furnish the fuel needed to reheat the coal.

The Turn of Life

This is a critical period in the life of every woman and no mistakes should be made.

The one recognized and reliable help for women who are approaching and passing through this wonderful change is

Lydia E. Pinkham's Vegetable Compound

That the utmost reliance can be placed upon this great medicine is testified to by an army of grateful women who have been helped by it.

Mrs. Pinkham, who has the greatest and most successful experience in the world to qualify her, will advise you free of charge. Her address is Lynn, Mass. Write to her.

Do Your Feet Ache and Burn?

Slip into your shoes Allen's Foot-Powder for the feet. It makes tight or new shoes feel easy. Cures Corns, Bunions, Swellings, Hot and Itchy Feet. At all druggists and shoe stores. 25c. Sample sent FREE. Address Allen S. Olmsted, Le Roy, N. Y.

India Rubber Nails.

India rubber nails for use in places where ordinary nails are liable to corrosion, are a German novelty.

Lane's Family Medicine

Moves the bowels each day. In order to be healthy this is necessary. Acts gently on the liver and kidneys. Cures sick headache. Price 25c and 50c.

Ask your grocer today to show you a package of GRAIN-O. The new food drink that takes the place of coffee. The children may drink it without injury. The best and best of the new food drink. GRAIN-O has that rich brown color of Mocha or Java, but it is made of pure grains, and it is a healthy stomachic. One-fourth the price of coffee. 15c and 25c per package. Sold by all grocers.

Origin of the Word "Deadhead."

The origin of the word "deadhead" is suggested by Frederick Stanley in a dictionary. He has recently in a museum in Naples. Among the relics were several popular theater, made in little images, a figure admitting to the fact and a book of an Italian theater. As the theater was a relic of the past, it is a relic of the past. It is a relic of the past. It is a relic of the past.

Market for Wild Animals.

Hamburg is a great market for wild animals, largely from Africa, the continent of the Imperial guard especially. The market is a great market for wild animals, largely from Africa, the continent of the Imperial guard especially. The market is a great market for wild animals, largely from Africa, the continent of the Imperial guard especially.

Construction Work on Wisconsin Central Shops at North Fond du Lac Being Rushed.

Fond du Lac, Wis., June 29.—(Special.)—The construction of the buildings of the Wisconsin Central plant in North Fond du Lac is being rushed and a fair idea of the immensity of the work is shown by the fact that the steel work for the foundations of the main power house is being completed. The steel work for the foundations of the main power house is being completed. The steel work for the foundations of the main power house is being completed.

Novel Electric Car.

A novel trolley car is in use in Berlin. Outside the city it runs on tracks with an overhead trolley contact, just as the ordinary car. When the city limits are reached extra sets of trucks are lowered and the car becomes an electric trolley, propelled by storage batteries carried under the side seats of the car.

Miniature Volcanoes.

Numerous Small Craters on a California Mountain Side.

A most remarkable phenomenon recently observed in every way a volcanic eruption was observed a few days ago twelve miles from Laytonville, Cal. The discovery was made through hearing a thundering, gurgling noise, while standing on the mountain side. The inhabitants on drawing near the scene of the disturbance discovered a completely surrounded by a dense growth of vegetation and some twenty-five miniature craters, exactly resembling volcanic craters, were seen to rise out of the ground from 4 to 5 feet high and about 8 feet in diameter. Each crater was belching forth warm vapor, accompanied by mud, which would flow down the mountain side for miles away. A continuous tremble of the earth is felt, and the running of the water in the streams is heard for miles away. Great crowds of people have camped on the mountain to view the spectacle.

HONOR DUE THE PEN.

But in the Matter of Hero Worship the Sworn Get It.

Julian Ralph is so widely known as a newspaper correspondent, and is so popular as a man both in and out of his profession, that the news from London of the Transvaal war almost a physical cause distress to all his friends in this city, where he lived so long and did such splendid work. The humorous way in which Mr. Ralph describes his injuries and sufferings is characteristic of the man. Surely he is the stuff of which heroes are made.

Spanish Surprises.

In addition to three of four Christian names the Spanish child bears the combined family names of his father and mother. When the surnames are combined, or connected by the particle "y" meaning "and," the one that may be taken alone, for it is the father's name, and the other is the name of the mother. In Spain they know no "senior" and "junior" father and son, and the name of the father and the name of the mother are the same Christian name, but each takes his own mother's name as a distinction. The father being, for instance, Pedro Diaz y Garcia, and the son Pedro Diaz y Blanco.—New York Herald.

A Novel Suggestion.

It is suggested that it will be profitable to try the experiment of using gas engines for driving ships, the gas being generated in the ship itself. Coal will be roasted in retorts aboard the ship in order to drive off the gas from the retorts. The gas thus produced would furnish the fuel needed to reheat the coal.

The Turn of Life

This is a critical period in the life of every woman and no mistakes should be made.

The one recognized and reliable help for women who are approaching and passing through this wonderful change is

Lydia E. Pinkham's Vegetable Compound

That the utmost reliance can be placed upon this great medicine is testified to by an army of grateful women who have been helped by it.

Mrs. Pinkham, who has the greatest and most successful experience in the world to qualify her, will advise you free of charge. Her address is Lynn, Mass. Write to her.

THE BOSTON STORE

GRAND AVENUE AND FOURTH ST. MILWAUKEE, WIS.

This mammoth new daylight store, containing about five acres of floor space, is the greatest sight in Milwaukee. It is one of the most magnificent buildings ever played in an attractive manner. The presentation shown by the public is a masterpiece of architecture. The store is a masterpiece of architecture. The store is a masterpiece of architecture.

"Personally Conducted" Pupils.

In the kindergarten a child is taught much through a system which is used to make him think that he is playing rather than working. But those imaginary devices take away the manliness of a boy who knows that work is work. We must not teach the boy that his teacher exists simply for his amusement. There is a great tendency to bring up children "along the lines of least resistance."

The Teeth in the Bible.

A Kensington dentist, who is likewise a pillar of the church, consulted the Scriptures some time ago in search of a suitable passage to read at the party of the first part remains a bachelor, or something of that sort. Are there not enough children who are already in the world? This last straw?—Jeannette L. Gilder in Harper's Bazar.
