Fond du Lac, Wis., July 5 .- [Special. The indications are that the city is a last up to one of the hardest propothat the municipality has ever had t solve and aldermen are racking their brains for a safe and the most economic cal solution of the question. The water in the Fond du Lac river has been gradu ally getting lower each year and its di-mensions this summer wouldn't entitle the stream to be dignified by even the name of a creek. Still it is called upon to take care of the sewerage drainage of the whole city and the conditions today are such that residents of the district re such that residents of the distric through which the stream courses, are up in arms and demand that immediate steps be taken to correct the unsanitary state of affairs lest an epidemic of dis

BRYAN NOMINATED AGAIN.

The Usual Flood of Oratory and Bursts of Enthusiasm-Text of the Platform.

Convention Hall, Kansas City, July 5. -It was not until 4 o'clock that Chairman Richardson brought the convention Jones.

The first business of the convention was the reading of the formal call by Secretary Walsh.

Rev. Dr. S. M. Neel, pastor of the Central Presbyterian church, offered prayer.

were raised and a triumphal procession of delegates marched about the hall.

The platform was adopted without a word of dissent. It is as follows:

We, the representatives of the Democratic party of the United States, assembled in national convention on the anniversary of the adoption of the Declaration of Independence, do reaffirm our faith in that immortal proclamation of the inallenable rights of man, and our allegiance to the constitution framed in harmony therewith by the fathers of the republic. We hold with the United States Supreme court, that the Declaration of Independence is the spirit of our government of which the constitution is the form and letter.

stitution and whose people can never become citizens.

We are in favor of extending the republic's influence among the nations, but believe that that influence should be extended, not by force and violence, but through the persuasive power of a high and honorable example. The importance of other questions now pending before the American people is in no wise diminished and the Democratic party takes no backward step from its position on them, but the burning issue of importalism growing out of the Spanish war involves the very existence of the republic and the destruction of our free institutions. We regard it tion of our free institutions. We regard it as the paramount issue of the campaign.

Monroe Doctrine is Upheld. Monroe Doctrine is Upheld.

The declaration in the Republican platform adopted at the Philadelphia convention held in June, 1900, that the Republican party "steadfastly adheres to the policy announced in the Monroe doctrine" is manifestly insincere and deceptive. This confession is contradicted by the avowed policy of that party in opposition to the spirit of the Monroe doctrine to acquire and hold sovereignty over large areas of territory and large numbers of people in the Eastern hemisphere.

prevent the extension of European authority our supremacy in American affairs. At the same time we declare, that no American people shall ever be held by force in unwilling subjection to European authority.

We oppose militarism. It means conquest abroad and intimidation and oppression at home. It means the strong arm which has ever been fatal to free institutions. It is what millions of our citizens have fled from in Europe. It will impose upon our peace are to enjoy those biessed privileges of free government which have made the United States great, prosperous and honored, we earnestly ask for the foregoing declaration of principles the hearty support of the liberty-loving American people. For the first time in our history and co-eval with the Philippine conquest has there been a wholesale departure from our time-honored and approved system of volunteer organization. We denounce it as un-Amer-ican, undemocratic and unrepublican and as a subversion of the ancient and fixed principles of a free people.

Will War with Trusts.

Private monopolies are indefensible and intolerable. They destroy competition, control the price of all material and of the finished product, thus robbing both producer and consumer. They lessen the employment of labor and arbitrarily fix the terms and conditions thereof and deprive individual energy and small capital of their opportunity for betterment.

They are the most efficient means yet devised for appropriating the fruits of industry to the benefit of the few at the expence of the many, and unless their insatiate greed is checked all wealth will be aggregated in a few hands and the republic de-Will War with Trusts.

greed is checked all wealth will be aggregated in a few hands and the republic destroyed. The dishonest paltering with the trust evil by the Republican party in state and national platforms is conclusive proof of the truth of the charge that trusts are the legitimate product of Republican policies, that they are fostered by Republican laws and that they are protected by the Republican administration in return for campaign subscriptions and political support.

campaign subscriptions and political support.

We pledge the Democratic party to an unceasing warfare in nation, state and city against private monopoly in every form. Existing laws against trusts must be enforced and more stringent once must be enacted providing for publicity as to the affairs of corporations engaged in interstate commerce and requiring all corporations to show before doing business outside of the state of their origin that they have not attempted, are not attempting, to monopolize any branch of business or the production of any article of merchandise.

The whole constitutional power of Congress over interstate commerce, the malis and all modes of interstate communication shall be exercised by the enactment of comprehensive laws upon the subject of trusts. Tariff laws should be amended by putting the preducts of trusts upon the free list to prevent monopoly under the plea of protection.

The failure of the present Republican ad-

The failure of the present Republican administration, with an absolute control over all the branches of the national government, to enact any legislation designed to prevent or even curtail the absorbing power of trusts and illegal combinations or to enforce the anti-trust laws already on the statute books proves the insincerity of the high-sounding phrases of the Republican platform.

Comprations, should be presented in all The failure of the present Republican ad-

nights and their legitimate interests should be respected, but any attempt by corporations to interfere with the public affairs of the people or to control the sovereignty which creates them should be forbidden under such penalties as will make such attempts impossible. We condemn the Dingley tariff law as a trust-breeding measure, skillfully devised to give the few favors which they do not desire and to place upon the many burdens which they should not bear.

Reaffirms 16 to 1 Plank.

Reaffirms 16 to 1 Plank.

We reaffirm and indorse the principles of the national Democratic platform adopted at Chicago in 1836 and we reiterate the demand of that platform for an American financial system made by the American people for themselves which shall restore and maintain a bimetalile price level and as part of such system the immediate restoration of the free and unlimited coinage of sliver and gold at the present legal ratio of 16 to 1 without waiting for the aid or consent of any other nation.

We denounce the currency bill enacted at the last session of Congress as a step forward in the Republican policy which aims to discredit the sovereign right of the national government to Issue all money, whether coin or paper, and to bestow upon national banks the power to issue and control the volume of paper money for their own benefit

control the volume of paper money for their own benefit.

A permanent national bank currency secured by government bonds must have a permanent debt to rest upon, and if the bank currency is to increase with population and business the debt must also increase. The Republican currency scheme is, therefore, a scheme for fastening upon the taxpayers a perpetual and growing debt for the benefit of the banks. We are opposed to this private corporation paper circulated as money, but without legal tender qualities, and demand the retirement of the national banknotes as fast as government paper or silver certificates can be substituted for them.

Direct Vote for Senators. Direct Vote for Senators.

We favor an amendment to the federal constitution providing for the election of United States senators by direct vote of the people, and we favor direct legislation wherever practicable.

We are opposed to government by injunction; we denounce the blacklist and favor arbitration as a means of settling disputes between corporations and their employes. In the interest of American labor and the uplifting of the workingman as the cornerstone of the prosperity of our country we recommend that Congress create a department of labor in charge of a secretary, with a seat in the cabinet, believing that the elevation of the American laborer will bring with it increased production and increased prosperity to our country at home and to our commerce abroad.

Speaks for Liberal Pensions.

Speaks for Liberal Pensions. Speaks for Liberal Pensions.

We are proud of the courage and fidelity of the American soldiers and sallors in all our wars; we favor liberal pensions to them and their dependents and we reiterate the position taken in the Chicago platform in 1896 that the fact of enlistment and service shall be deemed conclusive evidence against disease and disability before enlistment.

We favor the immediate construction, ownership and control of the Nicaraguan canal by the United States, and we denounce the insincerity of the plank in the national Republican platform for an isthmian canal in face of the failure of the Republican majority to pass the bill pending in Congress.

Hay's Pauncefote Treaty a Crime. We condemn the Hay-Paunceforte treaty as a surrender of American rights and interests, not to be tolerated by the American people.

We denounce the failure of the Republican

We denounce the failure of the Republican party to carry out its pledges to grant statehood to the territories of Arizona, New Mexico, Oklahoma, and we promise the people of those territories immediate statehood and home rule during their condition as territories, and we favor home rule and a territorial form of government for Alaska and Porto Rico.

We favor an intelligent system of improving the arid lands of the West, storing the waters for purposes of Irrigation and the holding of such lands for actual settlers.

Enforces Chinese Exclusion.

We favor the continuance and strict enforcement of the Chinese exclusion law and its application to the same classes of all Asiatic races.

Jefferson said: "Peace, commerce and honest friendship with all nations, entangling alliances with none."

We approve this wholesome doctrine and earnestly protest against the republican departure which has involved us in so-called politics, including the diplomacy of Europe and the intrigue and land-grabbing of Asia, and we especially condemn the ill-concealed Republican alliance with England, which must mean discrimination against other friendly nations, and which has already stifled the nation's voice while liberty is being stifled in Africa.

Upholds Boer Side of War.

Believing in the principles of self-government, and rejecting, as did our forefathers, the claim of monarchy, we view with indignation the purpose of England to overwhelm with force the South African sepublics. Speaking, as we do, for the entire American nation, except its republican of necholoders, and for all free men everywhere, we extend our sympathies to the heroic burghers in their unequal struggle to maintain their liberty and independence.

We denounce the lavish appropriations of recent republican congresses, which have kept taxes high and which threaten the perpetuation of the oppressive war levies. We oppose the accumulation of a surplus to be squandered in such barefaced frauds upon the taxpayers as the shipping subsidy bill, which, under the false pretense of prospering American shipbuilding, would put unearned millions into the pockets of favorite contributors to the Republican campaign fund.

We favor the reduction and speedy repeat of the war taxes and a return to the time-horored democratic policy of strict economy in governmental expenditures.

ground where they are, for the Chinese army has been heavily reinforced. The bombardment of foreign quarters has been renewed and the allies are constantly under fire.

Toward midnight a dispatch was given out from the British consul at Hankow stating that the legations were still holding out July 1, but that the struggle was hopeless. The admiralty confirmed this report, but added that the ammunition of the legation guards, numbering originally about 450, has been exhausted. An earlier dispatch from Admiral Seymour dated the 24th of June, had stated that all the legations, except the British, German and part of the Russian had been destroyed, but that one gate of the city was held with guns by the captured Chinese. Official news was less despondent than the press dispatches from Shanehai and other ports, but it was clearly impracticable for the army at Tien Tsin to relieve Pekin unless a stroke of extraordinary audacity were attempted. Possibly the papers of the messages received at Tien Tsin may inspire the commanders of the allied forces with the energy required for a forlorn hope, but this seemed hardly within the range of possibilities.

New York, July 5.—The fire at the works of the Standard Oil company at Constable Hook, Bayonne, N. J., which started early this morning, was still rag-ing at 9 a. m. and no estimate can yet be made of the damage, though it will run into millions. The entire plant is almost certain to be consumed. The oil from the works is spreading along the upper bay and the Kill Von Kull, blazing as it flows, and serious damage is certain for

the adjoining property.

and John Wasto and Owen Drummond were overcome by fumes and smoke and Fred Mauer was cut by flying glass. They all lived in Bayonne.

The fire was started about 1 o'clock this morning by a bolt of lightning which fell during a terrific thunder and rain storm. It struck squarely in the immense yard of the Standard Oil company, which covers over 600 acres of ground. King, the watchman, was struck by the bolt, and at the same time it exploded two immense reservoir tanks of crude oil. One hundred men were at work in the yards, and whether more were killed is not yet known. The explosion was heard for miles and the grounds were lit up for hours afterward by flames which leaped a hundred feet in the air. Even at 8 o'clock this morning the column of smoke which rose from the still burning tanks spread out in such a cloud to those com-ing to this city from the west that the

Then tugs formed a cordon a little way out from the docks and fought the flames from that side. Great booms of logs were thrown out in a semi-circle to prevent the burning liquid from flowing unrestrained over the water and carry-ing destruction to shipping down the bay. Water of No Avail.

Inside the yards the Bayonne fire department made an ineffectual fight against the burning fluid. Water was of no avail and the fire had to be fought by strategy. Trenches were dug to divert the streams of burning oil from attacking property outside of the oil yards.

Right in the line of the fire with the wind blowing from the northeast, were the plants of the Tidewater Oil company, the Kalbfleish Chemical company, the Bayonne Chemical works, the Bergenort Chemical company, the Oxford Copper works, the Port Johnson coal docks, the Pacific Coast Barge company and the Crude Oil docks. At 10 a. m. the flames were shooting up into the fair fully 300 feet high and the blazing oil extended over an area of nearly half a mile. The heat was such that the firemen could not get near enough to the flames to do much good. The fireboats along the shore at Constable Hook occupied a better position in this respect, but the water that reached the blazing oil had little effect.

The force of employes of the Standard oil had little effect.

The force of employes of the Standard company resorted to their usual method when a fire breaks out in the works. They pumped oil from one set of tanks into others at a distant point from the blaze. This work was slow as well as dangerous to human life, owing to the rapidity with which the flames communicated from one tank to another.

With cheers and applause the resolution was adopted, while the band in the south gallery played patriotic airs in lead of the enthusiasm.

When the applause had subsided Charles S. Hampton of Petoskey, Mich., read, in magnificent voice, the immortal declaration of independence. As the full and rounded sentences of the great state paper rolled through the hall the cheering and enthusiasm increased, and when Mr. Hampton had concluded the tremendous applause fairly shook the building.

July 5.—Convention hall was again besieged today by eager and excited thousands. Long before the time set for
opening the second day's proceedings of
the convention, all of the streets approaching the building were solidly
massed with humanity moving toward
the many entrances. Expectancy was at
a high pitch and it was universally felt
that the day had in store the great
events of the convention. By 10 o'clock,
thirty minutes before the time set for
the opening of the convention, nearly the opening of the convention, nearly every seat in the galleries was occupied. Richardson Swings His Gavel. At 11 o'clock the slender figure of Chairman Richardson loomed up above the platform assemblage. He swung the gavel lustily and above the din faintly could be heard his calls for order. Slowcould be heard his calls for order. Slowly quiet was brought out of the confusion, and the chairman presented Right Rev. John J. Glennan for the opening invocation, the entire audience, delegates and spectators, standing reverently with bowed heads, while the words of the prayer echoed through the building.

Mr. Richardson now announced that the platform committee was not ready to report and, pending word from them, he invited to the platform ex-Gov. Hogg of Texas to address the convention. The giant form of the Texan advanced to the front, and was greeted enthusiastically. He was in good voice and his words reverberated through the hall. At the termination of Gov. Hogg's address, Chairman Richardson stepped forward to say a few words to Sergt.-at-Arms Martin, and the crowd took advantage of the opportunity to start the cry Arms Martin, and the crowd took advantage of the opportunity to start the cry of "Hill." It came from all quarters of the galleries, but practically little of it from the delegates. Mingled with the calls were hisses. Chairman Richardson wielded his gavel vigorously and when order was restored in some degree, announced: "Gentlemen, I have the honor to introduce to you Hon. A. M. Dockery, Missouri's favorite son."

Mr. Dockery was warmly received and his prompt attack upon the conduct of the Republican administration for its management of the Philippine question was greeted with the usual demonstrations of applause. His assurances that Bryan would be the next President of the United States, and his condemnation of any alliance between this country and England, received the same enthusiastic reception and cries of "Hurrah for Dockery" from the Missouri delegation. His appeal for harmony "along the fundamental principles" met with a cheer, and when, a minute later, he said: "Gentlemen, get onto the platform, whatever it may be," a yell went up chiefly from the silver delegations. Congressman James Williams of Illinois was then introduced by Chairman Richardson. He opened his remarks by an appeal to all Democrats to stand together on the platform, which, he declared, would be broad enough to hold them all. He spoke briefly and was frequently applauded.

As Mr. Williams took his seat, Chairman Richardson announced: "We will now be addressed by Gov. J. W. Beckham of Kentucky." tury to the republics of Central and South America.

The greedy commercialism which dictated the Philippine policy of the Republican administration attempts to justify it with the pica that it will pay, but even this sortida and unworthy pica fails when brought to the test of facts. The war of "criminal aggression" against the Filipinos, entailing an annual expense of many millions, has already cost more than any possible profit that could accrue from the entire Philippine trade for years to come.

Furthermore, when trade is extended at the expense of liberty the price is always too high. We are not opposed to territorial expansion when it takes in desirable territory which can be erected into states in the Union and whose people are willing and fit to become American citizens. We favor trade expansion by every peaceful and legitimate means. But we are unalterably opposed to the scizing or purchasing of distant islands to be governed outside the constitution and whose people can never become citizens.

The profit on Major's cement is as much as any dealer ought to make on any cement. And this is doubly true in view of the fact that each dealer gets his share of the benefit of Mr. Major's advertising, which now amounts to over \$5,000 a month, throughout the country. Established in 1876. Insist on having Major's. Don't accept any off-hand advice from a druggist. If you are all handy (and you will be likely to find that you are a good deal more so than you imagine) you can repair your rubber and leather articles with Major's Leather Cement. amongst the bushes.

Miss D'Arcy, having upheld herself with much vigor in a most dignified position until the last faint sound of his footsteps has ceased upon the air, now permits herself to fall out of line, and sinking upon the rickety old seat of the summer house, that is the home of countess wriggling beasts, gives herself up o unbounded wrath. Tennis is a good game, no doubt. What would become of the country folk without it? But that modern misery, the tennis is a name of the country folk without it? nis tournament, can hardly be regarded as an unmixed joy. "She was anxious to see you. I thought by her eye there was a scolding in store for you, and rather went out of my way to give you the warning wink; but unfortunately I took it into my head that you'd come by the short cut across the fields, and lo! and behold, you came by the orthodox avene."

"Now then!" says he, laying solemn hands on Miss D'Arey, and so turning her as to face the house. "Hold up your chin; your face a little more this way, miss, if you please," with a professional air. "Pull our your frock—so. Now look at me and smile. Hah! that will do. Now, don't wink! For here's her grace at last."

CHAPTER VIII. Here she is, indeed, and in great feathr apparently. There is a general sensation: an honest straining of necks to she her on the part of half the con munity, a most dishonest attempt at indifference on the part of the other half. Now she has reached the halldoor. Now she has descended from the carriage and is beaming blandly on every-

Lady Stamer is hurrying across the lawn to receive her, raging furiously as she goes at the fact that Mrs. Vaudrey, her life-long enemy, is already hobnoblished that the state of ng with the duchess, becking and nodbing with the duchess, becking and nod-ding at her with all the vigor (and it is a good deal) of which she is capable. Mrs. Vaudrey indeed—to use her own expression uttered later on—has been careful to be upon the spot (wherever that may be) at the moment of the duchess' arrival, and has rushed forward to welcome her with as much effusion as though she were mistress of the cere-monies and Parklands to boot. In fact, for a full minute the duchess

who has not the Sainton family well in mind at the moment—and whose mem-ory is not as good as her intentions—so considers her, and pours out upon her all sorts of civil nothings. It is only for a minute, however, and as providentially "I like her," says Miss D'Arcy, rather names are named nothing comes of i "Ah! Here is Lady Stamer at last," says Mrs. Vaudrey, and her grace, with little inward gasp and a strong de-sire for laughter, goes over it all again

DAY OF MANY ACCIDENTS

John Arndt Instantly Kills a Little Child at Antigo.

TRAGIC END OF A BOY.

Several Persons Are Badly Injured at Fond du Lac Serious Result of a Joke.

Antigo, Wis., July 5 .- [Special.]-While John Arndt was carelessly loading a revolver on the street yesterday it was accidentally discharged and struck the 6year-old son of Charles Febring, a prominent business man. The boy died al most instantly. He was an unusuallybright child and his tragic death is a shock to the community as well as to his parents. Arndt escaped in the con-fusion, but was soon arrested and lodged Shot in the Face.

Fond du Lac, Wis., July 5.—[Special.]—Carl Brugger, manager of Fond du Lac's famous basketball team of 1899-1900, and junior member of the carriage firm of Longdon & Brugger, was one of the victims of a Fourth of July accident vesterday. accident yesterday. At about 3 o'clock in the afternoon Will Ballwitz jokingly in the afternoon Will Ballwitz jokingly aimed a revolver, loaded with blank cartridges, at Mr. Brugger, within a short distance of his eyes. A cartridge exploded and Brugger ducking his head just the moment before probably saved him his eyesight. As it was, the right side of his face was filled with powder. The largest grains were removed by Dr. Mayham, who will make efforts today to further eradicate traces of the ugly-looking marks. Ballwitz was cook in Sergt. Brugger's mess in the Porto Rican campaign.

May Lose Eyesight. Willie Marcoe, aged 13 years, son of F. E. Marcoe, was the most seriously in-jured of the victims of Fourth of July casualties yesterday. By a premature explosion the contents of a cannon were discharged into his face, both eyes being affected, with a liability of permanent injury. Both cheeks were filled with powder. The thumb of his right hand was also badly lacerated.

Miss Gehrke, a young lady making her home with her uncle, Engineer Hayes of the North-Western road, had her right eye severely injured yesterday, a large cannon firecracker exploding in close proximity to her face. Little Floyd proximity to her face. Little Floyd Brennan innocently threw the cracker at Miss Gehrke, having no idea of the danger wrapped up in the big explosive.

FORTUNE IN A WHEAT FIELD.

Four years ago without a dollar and in debt, today worth \$100,000 in cash That is the record made by one family in wheat-raising in Oklahoma. A fortune of \$100,000 in four years. Half of that money they have in cash in the bank here. They will net the other half in cash within two weeks for the 150,000 bushels of wheat they are now harvesting. The Miller family operates the "101" ranch, nine miles southwest of here. The ranch has 40,000 acres of land that is divided in two by the Salt Fork river. Of this land 6000 acres is problem 1100 in core 200 in care 600. wheat, 1100 in corn, 200 in oats, 600 sorghum, 1200 in hay and 1100 in watermelons and muskmelons. There is one wheat field of 2250 acres, three milong and two and a half miles bro without a fence or road through it. The without a fence or road through it. The harvest on this ranch began recently. Twenty-five reaping machines began at once, working in a row. The first swath cut was five miles long around one wheat field. The reapers cut and bind 600 acres a day. A harvest of 150,000 bushels of wheat will be gathered. It will be sold from the thresher in the field for cash, all except 5000 bushels, which has been all except 5000 bushels, which has been sold for seed at 30 cents a bushel more than the regular market price of ordinary wheat. Mr. Miller contracted Saturday to sell the first 10,000 bushels threshed at 52 cents a bushel, regardless

Supreme Court Sustains the Foot-Ease Trade Mark.

Justice Laughlin, in Supreme Court, Buffalo, has ordered a permanent injunction, with costs, and a full accounting of sales, to Issue against Paul B. Hudson, the manufacturer of the foot powder called "Dr. Clark's Foot Powder," and also against a clark's Foot Powder, "and also against a retail dealer of Brooklyn, restraining them from making or selling the Dr. Clark's Foot Powder, which is declared, in the decision of the Court, an imitation and infringement of "Foot-Ease," the powder to shake into your shoes for tired, aching feet, now so largely advertised and sold all over the country. Allen S. Olmstead, of Le Roy, N. Y., is the owner of the trademark "Foot-Ease," and he is the first individual who ever advertised a foot powder extensively over the country. He will send a sample Free to any one who writes him for it. The decision in this case upholds his trade-mark and renders all parties liable who fraudulently attempt to profit by the extensive "Foot-Ease" advertising, in placing upon the market a spurious and similar appearing preparation, labeled and put up in envelopes and boxes like Foot-Ease. Similar suits will be brought against others who are now infringing on the Foot-Ease trademark and common law rights.

The Telephonograph. The telephonograph is a new invention which comes to us from Denmark. Not quite for the first time, for we had heard of it about a year ago; since then, though, the inventors have made progress.

Yesterday the postmaster-general, Von Podbielsky, was present at the experiments. The telephonograph is a combination of the telephone with a newly-constructed phonograph, which makes it procedule to five and preserve converges in possible to fix and preserve conversations in the absence of the intended hearer, so that he can listen to the message after

his return.

But the importance of the invention reaches much further. Through the use of magnetophonography, it is possible to multiply the effect of the sound and to give the sound greater force. Thereby it is possible to greatly extend the lines of the present telephone system. The dis-tances will become much greater. There is still another advantage-simultaneous conduction for several conversa-tions through the same wire.—London

OIL CROP DECLINING.

Beet Sugar is Being Raised in New York Instead.

The beet-sugar industry is attaining wonderful proportions in various sections of this country. A few years ago in some sections of central New York the peppermint-oil crop was the leading feature, and brought more money into the hands of the farmers than did the apple crop. But now the peppermint crop is mostly a thing of the past in that section, and the mint stills are kept in operation by the crop of a few acres near them.

The beet-sugar crop has driven the mint crop westward, for the farmers find it more profitable to raise sugar beets. Ten years ago every community in cen-tral New York had a resident who was getting rich by stilling mint, but these mills are now falling into disuse. Lyons, N. Y., was the center of the mint market of the world, but that honor is now of the world, but that honor is now among the claims of distant Western cities. The fame of the Wayne county oils was known near and far and took the world's prize at the Columbian exposition in 1893. The Pan-American exposition will bring a new locality into similar prominence in all probability. Thus, the peppermint crop, like the march of civilization, has gone westward.—Philadelphia Record.

Apropos of the old sloop-of-war Kearsarge and her building at Portsmouth, N. H., an eye witness tells of the curious way in which she was "launched." "She was built," he says, "on the marine railway at the head of the drydock at Portsmouth navy-yard, pushed into the dock by hydraulic rams and floated out into the river." The Kearsarge was not a "ninety-day gunboat" or an emergency cruiser. She was authorized by Congress before the Civil war began.—Boston Journal.
