COMPULSED TO CARE FOR MAN HE SHOT.

Kewaskum Statesman.

Communications should be accompanied by the name of the writer; not necessarily for publication, but as evidence of good faith on the part of the author.

SATURDAY, NOV. 17, 1900.

THE New York World management has engaged Ex-Gov. Geo. W. Peck of Milwaukee for the next six months to write a series of humorous articles for the Sunday edition of that paper.

At the next session of the legislature a petition will be presented for the organization of a new county, taking portions of Price, Lincoln and Oneida counties, with Tomahawk as the county seat.

DURING the fiscal year there were detected and destroyed \$11,146 in counterfeit silver coins, notes and certificates; 3,277 5-cent pieces and 121,652 1-cent pieces. Counterfeit gold coins are rare, only 13 having been presented at the United States treasury during the year.

THE CREAMERY TRUST SCHEME.

Chicago promoters who contemplate a butter and cheese trust to cover the Northwestern states doubtless expect to find their profits in the sale of stock to glib purchasers. The dairy interests of Wisconsin will be well served if the scheme is defeated in its inception.

The candor shown by a Milwaukee creamery man who has undertaken to explain the plan and object of the proposed scheme is praiseworthy. It will enable the farmers on one hand and consumers of butter products on the other to see at once that all of the benefits or profits to be derived from consolidation are to go to the commission men or creamery operators. There is not even the customary shallow pretense that economy of production or reduced cost to consumers is among the objects of the promoters.

The creamery chieftain complains that "the farmers have been practically dictating the price to be paid for milk by the creameries," which will amuse the farmers if it does not convince them. On the other hand he declares:

There is too much competition in the field now, so I presume that with the new company once in working condition many of the smaller factories will be closed and the business centralized in the larger. It will then be possible to raise the price of butter, cheese and milk products to a point that will give the creamery men a chance to make a fair profit on their investment.

It does not require very complicated calculations to determine that by compelling the farmers to sell milk more cheaply and requiring consumers to pay more for butter the creamery men would have "a chance to make a fair profit." It is reasonable to assume that the increase in the number of creameries, especially in large cities, has been due to the fact that existing conditions permitted a fair profit. Certainly any such enterprise as is proposed to levy tribute upon both producer and consumer will stimulate farmers to a revival of co-operative creameries and stimulate consumers to demand such modification of laws as will make investors in creamery trust stock regret that they did not place their funds in a more legitimate undertaking.—Milwaukee Sentinel.

Gets Options at Fond du Lac.

All the options necessary for a double track through Fond du Lac have been secured by the C. & N.W. Ry. Co. It is to form a portion of the double track system from Chicago to Green Bay, which now extends to Milwaukee, and rights of way have also been secured for the remainder of the distance. Oshkosh granted a franchise last Tuesday evening. The track will be built in the spring.

There is no pleasure in life if you dread going to the table to eat and can not rest at night on account of indigestion. Henry Williams, of Booneville, Ind., says he suffered that way for years, till he commenced the use of Kodol Dyspepsia Cure, and adds: "Now I can eat anything I like and all I want and sleep soundly every night." Kodol Dyspepsia Cure will digest what you eat. All druggists.

Free Delivery for All.

Postmaster General Emory Smith has framed his estimates to be submitted to congress, and will ask an appropriation of about \$121,000,000 as the appropriation for the entire service for the fiscal year ending June 30, 1902. This includes an estimate of \$3,500,000 for the rural free delivery service. By the close of this fiscal year 4,300 rural free delivery routes throughout the United States will have been established, and the general extension contemplated for next year will involve about 4,500 additional routes. The success of the service so far instituted has resulted in plans for a very general extension next year. The postmaster general, together with other officials is investigating the feasibility of putting the service in operation at every point throughout the country not reached by the regular free delivery service in operation in the cities.

Many people worry because they believe they have heart disease. The chances are that their hearts are all right, but their stomachs are unable to digest food. Kodol Dyspepsia Cure digests what you eat and prevents the formation of gas which makes the stomach press against the heart. It will cure every form of indigestion. All druggists.

One of our citizens butchered his pigs last Wednesday, and in the evening he was cooking sausage in a kettle over a bonfire when seen by a party of people who had met in the neighborhood. They soon concluded that it would be a great joke to take some of the sausage unknown to the owner, so when the coast seemed clear one of the party quietly made his way within reach of the kettle, when he was surprised to hear "Die sich nicht nicht ganz fertig!" shouted by the owner, who was so hidden by steam at the opposite side of the kettle that the words seemed to boil out of it. So the joke is on Phil. now.

She was 10 days aboard ship before landing at her destination, but felt no worse for her long ride across the ocean. She spent 2 weeks in Russia, the land of her birth, and where her step-mother still resides, her father having died a year ago. From there she visited relatives and friends. She reports that farmers still use oxen in the latter country, also that there are many poor people there. Home-ward bound she boarded the steamer Freeland, which was caught in a severe storm of 24 hours' duration, and one which Mrs. Yoost says she hopes to never undergo again.

Setting the Land Question.

A collier wandering on some land belonging to Earl D. chanced to meet the owner face to face. His lordship asked the collier if he knew he was walking on his land.

"Thy land! Well, I've got no land myself," was the reply, "and I'm forced to walk on somebody else's. Whaur did you get it from?"

"Oh," replied the earl, "I got it from my ancestors."

"And whaur did they get it from?" inquired the collier.

"They got it from their ancestors."

"And whaur did their ancestors get it from?"

"They fought for it."

"Ah, well," said the collier, squaring up to the earl, "come, and I'll fight thee for it."—X.

OUR GLORIOUS CENTURY

No Period in the History of the World Can Compare With It.

What tremendous strides forward the race has taken in this 19th century. One hundred years ago there were no asylums for the blind, the deaf and dumb. There were few hospitals. No chloroform or other anaesthetics softened the pain of the surgeon's knife. There were no medicines that enabled him to see foreign substances in any part of the body. That supreme triumph of medical skill, Dr. King's New Discovery for Consumption, had not been produced. It's only 30 years since this marvelous medicine began to earn the praise of all mankind by such astounding cures as that of Mr. A. Hines, of Manchester, Iowa. He contracted a hard cold which settled on his lungs. In his own words: "It constantly grew worse, though treated by the best doctors. I coughed night and day, had bleeding of the lungs; became so weak I could hardly walk. Then doctors said there was no hope; that I must die. But a friend urged me to use Dr. King's New Discovery. One bottle helped me greatly and I'm further use completely cured. Hundreds have used it on my recommendation and all declare it is the greatest medicine on earth for coughs, colds and all throat and lung troubles. Give it the hardest test that you can and you will prove it's matchless merit shines the clearest. Above all tests that are severe. Sold by all druggists. Price 50c and \$1.00. Money back if not cured. Trial bottles free.

Gold in Waukesha County.

Excitement in no small degree has taken hold of the neighborhood which circles about the farm of August Nemitz in Waukesha county, because of the favorable report of an assayer on some samples of dirt taken from Mr. Nemitz's land. Now all the farmers of the district are looking for gold. The Nemitz farm is located two miles north of Sussex. The gold is mixed with gravel and small quartz rocks. Two assays have been made—one of dirt taken at a depth of three feet from the surface, and the other at ten feet. The first showed gold and silver of the value of \$8.33 to the ton and the second a value of \$8.95 to the ton. The belief of Mr. Nemitz is that the dirt will become richer as a greater depth is reached.—Milwaukee Sentinel.

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF PURE COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA

will generally correct this difficulty. If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

John O'Connell, who died here on the 7th inst. at the age of 80 years, was one of the oldest settlers in this part of the country, and was well and favorably known. His death was due to general debility. He was the father of a large family, being survived by 7 sons and 3 daughters. The funeral services were held from the St. Michael church in the town of Mitchell last Saturday, with Rev. Father Burke of Cascade officiating and a large concourse of people in attendance. The bereaved relatives have our sympathy.

Either luck or their ability as contortionists saved them from breaking their necks. They are well known as good contortionists, having been with P. T. Barnum's circus, at least we surmise so from their reactions during the accident.
