Fond du Lac Matters.

FOND DU LACS GROWTH.
Additional Brought by Wisconsin Central Well Population to Nearly 17,000.

Fond du Lac, Wis., Dec. 17.—[Special.]—The population of the city as shown by the 1900 census, just given out, falls far short of the expectations of Fond du Lac people. While the figures are a decided disappointment, people here do not take into consideration the fact that the census was taken before the Wisconsin Central people were here in any numbers, and the additional gain in the census of a decade ago was a healthy increase without the great addition which the establishment of the Central shops at North Fond du Lac has since brought to the city and which will be raised by a thousand more by the middle of next summer.

The census was begun the first day of June last and was concluded the 15th day of that month. At that time only a limited number of Central trainmen had been transferred to Fond du Lac. The real increase which the Central interests brought to the city was not until after the census was taken. It had this occurred a year sooner the census figures of 1910 would be a lower way from what the population of the city is today.

Evidence is not lacking showing the increase of the past few weeks. Every boarding house and hotel in the city is overcrowded. Many families have rented every spare room in their homes for the accommodation of the newcomers, and many of them have been unable to find permanent quarters.

Only a very small number of the Central men have brought their families to Fond du Lac on account of the lack of homes. The company is said to have had to rent a whole lot of houses on the part of take care of its interests. The general opinion is that Fond du Lac today has about 17,000 population.

A, Fortieth Wisconsin Volunteer Infantry. He is survived by his wife, Mrs. J. C. Hardinburg, and the Misses Rosella and Jennie Hardinburg. The funeral was held at 2 o'clock this afternoon at the family home, burial being at Riverside.

DE WET seems to be delaying the close of the war in South Africa.

IF \$25,000 was paid for the return of young Ed. Cudahy, we presume his kidnapers will quit work, though the profits seem sufficient to induce others to enter the business.

THE fellow who asserted that "the Boers fight behind rocks, while the English fight behind the Irish" may now ascribe Kitchener's late defeat to his having been short on Irish, while his opponents were long on rocks.

Hot Time in Tombstone.

THE drainage from the lately laid sewer of our borough is killing all the fish in the river at this point.—Tombstone Times.

SINCE the Times lost the burg printing to us, it seems that the greatest public improvement made by our present board of aldermen is worthless in the estimation of that sheet. True, quite a number of the finny tribe hereabouts have died lately, but we believe their demise is due to the Times editor having washed his character in the polluted stream.—Inscription.

THE foregoing fling from the Inscription proves the truth of our assertion on the street the other night, when a friend asked why our opponent was at his office so late, and we replied that the proximity of the ash-barrel would indicate that the Inscription was scouring up his intellect.—Times.

STATUS OF ISLANDS.

IN a late address at Ann Arbor, Mich., on "The Status of Annexed Territory and of Its Free Civilized Inhabitants," ex-President Harrison took a positive stand on the question of citizenship in the colonies and declared that the provisions of the Spanish treaty and of all treaties were subject to the constitution and could not impair it; and if these islands became part of the United States in the sense of the constitution their people became citizens, and the revenue clause, which was especially under disposed in the Porto Rican case, applied. He especially dwelt upon the liberty clauses of the constitution as necessarily applicable to all civilized peoples owing allegiance to the United States.—X.

AT the late battle of Omdurman the Dervish horde attacked the British troops with a rush, but were shot down by hundreds, until not a man was left, except one tall, gaunt figure, the standard-bearer of the Khalifa. A SURE CURE FOR CROUP.

Twenty-five Years' Constant Use Without a Failure.

THE first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proven effectual. No other preparation can show such a record—25 years' constant use without a failure. For sale by L. Rosenheimer.

Broken Bric-a-Bracs. For Christmas Shoppers
Major's Cement, the famous cement man of New York, explains some very interesting facts about Major's Cement. The multitudes who use this standard article know that it is many hundred per cent. better than other cements for which similar claims are made, but a great many do not know why. The simple reason is that Mr. Major uses the best materials ever discovered and other manufacturers do not use them, because they are too expensive and do not show large profits. Mr. Major tells us that one of the elements of his cement costs \$1.25 a barrel, and another costs \$2.50 a gallon, while a large share of the so-called cements and liquid cements cost nothing more than the glue, dissolved in water or other acid, and in some cases, almost nothing in color and odor by the addition of lime and useless material.
Major's cement retails at the rate of a barrel, and when a dealer tries to sell a substitute you can depend upon it that his only object is to make larger profit.
The profit on Major's cement is as much as any dealer ought to make on any cement. And this is doubly true in view of the fact that each dealer gets his share of the benefit of Mr. Major's advertising, which now amounts to over \$500,000 a month, throughout the country. Estimated in 1897.
Instead of having Major's, don't accept any off-hand advice from a druggist.
If you are all hands and you will be likely to find that you are a good deal more so than you imagine (you can repair your rubber and leather articles with Major's Leather Cement). And you will be surprised at how many dollars a year you will save.
If your druggist can't supply you, it will be forwarded by mail (either kind) free of postage.

CHRISTMAS AND NEW YEAR'S AT HOME.

[Written for the STATESMAN.]

Oh, would I could be a child once again, To spend Christmas and New Year's at home.

With dear father, mother, brothers and sisters, Mist laughter and frolic and fun.

Old Santa would come and pound on the door, Then he'd dash on the window pane,

Jingle his bells, run up and down, Then dash on the window again.

Father would say, "Go open the door!" To brother, sister or I,

But not for the world, with St. Nicholas outside, Coming just fresh from the sky.

At last he'd come in with a terrible face And garment as black as the night,

And as we sat there, with St. Nicholas outside, Gaze at us awfully, then raise up his whip,

And strike at us with all his might.

Now he had been naughty, as most children are, With a childish quarrel now and then;

So, "Lay it on, old Santa," our father would say, "And don't you spare my pain!"

And he did lay it on, most dreadful of men, And should the whip in hand chance to break,

From a bundle snugly strapped on his back, Another quickly he'd take.

He'd make us kneel down, our Father to say, "Thought to pray was merely in vain!"

We'd mumble and get the prayer mixed up, Then commence our best of good wishes.

Sometimes mother'd hide us in folds of her dress, Which she pretended at first not to see;

But he could not be cheated; not he, But he could not be cheated; not he,
