Speaking of the Divorce Evil

Trying to succeed in business without advertising is like the case of the man who, trying to cut expenses, divorced his wife and alone attempted to keep house and raise his children. It cost him more money for doctor bills and funeral expenses in a year than he gave his wife in a lifetime.

When advertising is divorced, business success becomes failure.

This paper is building your neighbor's business. He has reasons. He tried advertising and it helped him. It is not an experiment - this paper brings results. Good, hard, convincing results - dollars.

Fire losses in the United States amount to about \$250,000,000 annually-\$500.00 a minute.

This tremendous difference is due to better building construction, less carelessness and greater individual responsibility in Europe.

Fraternal Orders, Labor Unions and Insurance Companies Erect Tuberculosis Sanitoria.

As an investment in the health of their members, four large fraternal orders, two international labor unions and one of the largest insurance companies in the United States have established sanatoria for the treatment of tuberculosis, according to a statement issued by the National Association for the Study and Prevention of Tuberculosis. The Royal League, the first fraternal order to establish a sanatorium, conducts a hospital for its tuberculous members at Black Mountain. The Modern Woodmen of America conducts one at Colorado Borings; the Workmen's Circle, one at Liberty, N. Y., and the Independent Order of Foresters have one at Rainbow Lake, N. Y., and will soon open a second one at San Fernando, Cal. The International Typographical Union has since 1898 conducted a sanatorium at Colorado Springs, and the International Printing Pressman and Assistants' Union of America has recently opened a new institution at Rogersville, Tenn. A leading life insurance company is now erecting a sanatorfum at Mt. McGregor, N. Y., which will be the first of its kind established by an "old line" insurance company.

SYNOPSIS.

Jack Keith, a Virginian, now a border plainsman, is riding along the Santa Fe trail on the lookout for roaming war parties of savages. He notices a camp fire at a distance and then sees a team attached to a wagon and at full gallop pursued by men on ponies. When Keith reaches the wagon the raiders have massacred two men and departed. He searches the victims finding papers and a locket with a woman's portrait. He resolves to hunt down the murderers. Keith is arrested at Carson City, charged with the murder, his accuser being a ruffian named Black Bart. He goes to jail fully realising the peril of swift border justice. A companion in his cell is a negro, who tells him he is Neb and that he knew the Keith family back in Virginia. Neb says one of the murdered men was John Sibley, the other Gen. Willis Walte, formerly an officer in the Confederate army. The plainsman and Neb escape from the cell and later the two fugitives become lost in the sand desert. They come upon a cabin and find its ione occupant to be a young girl, whom Keith recognises as a singer he saw at Carson City.

If the blood is poor and filled with the poisons from diseased kidneys or inactive liver, the heart is not only starved but poisoned as well. There are many conditions due to impure blood-such as dropsy, fainting spells, nervous debility or the many scrofulous conditions, ulcers, "fever sores," white swellings, etc. All can be overcome and cured by

Dr. Pierce's Golden Medical Discovery

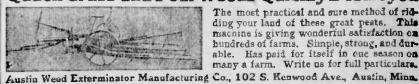

This supplies pure blood-by aiding digestion, increasing assimilation and imparting tone to the whole circulatory system. It's a heart tonic and a great deal more, having an alterative action on the liver and kidneys, it helps to eliminate the poisons from the blood.

To enrich the blood and increase the red blood corpuscles, thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery and do not permit a dishonest dealer to insult your intelligence with the "just as good kind." The "Discovery" has 40 years of cures behind it and contains no alcohol or narcotics. Ingredients plainly printed on wrapper.

CUTS STATE INTO 40 **INCOME TAX DISTRICTS**

Rev. Corr of Juneau visited here Madison, Wis.-The state tax commission has completed the division of the state into assessment districts under the new income tax law and fixed the salary of the assessor to be appointed for each district. The division was made as nearly as practicable on the basis of population, assessed valuation and compactness for convenience of administration. The law pro-

vides that no district shall consist of less than one county and the commission has not combined more than three counties in any one district. All the more populous and wealthy counties constitute single districts. The division was made as follows:

WILL BE ALLOWED EXPENSES Under the law the office of supervisor of assessments will be abolished after January 1 next and the duties pertaining to that position will thereafter be performed by the assessor of incomes. Statisties compiled in that office show that the expense of supervisors of assessments throughout the state has been approximately \$50,000 per year and the salaries fixed for the assessors of incomes do not exceed that amount, but they will be allowed their expense in addition.

In fixing salaries the tax commission has aimed to limit the expense to the lowest figure that will secure efficient service. It is estisa Monday where Mr. Yankow will basis of the number of districts created and salaries fixed, excluding expenses of assessing corporation by the commission and clerical help in that department, will not exceed on half the amount allowed to be expended under the act.

The salaries of assessors of income range from \$800 in some of \$3,600 in the city of Milwaukee. The The Epworth League held a busi- to \$1,500. Naturally those districts sees meeting Tueday evening at having large manufacturing and vice examination for the position of income tax assessor will be held early in November, and it is exnected that a large number of eandidates will apply

THE WORLD'S LARGEST CHEESE.

The largest cheese ever made was completed at Appleton, Wis., Aug. 15 by Nicholas Simon, a noted American cheese expert, assisted by Dairy and Food Commissioners John D. Cannon of Wisconsin and A. W. Parkins of Minnesota and forty expert cheesemakers. It weighed 12,361 pounds, contained exactly 12,000 pounds of curd, 330 pounds of salt and 31 pounds of rennet, but not an ounce of coloring. It cost between \$5,500 and \$6,000 to build the cheese, and it was necessary for the 1,200 model dairies to do the milking of 8,000 registered Holstein and Guernsey cows at the same hour. The milk had to be cooled to the same temperature, and the thirty-two sanitary cheese factories which manufactured the curd had to follow the same process to make the curd uniform. Every tool or implement used was sterilized. It required seventy-two tons of milk to produce the 12,000 pounds of curd. President Taft will visit the National Dairy show, Chicago, the morning of Monday, Oct. 30, and after his address to the people he will be invited to cut the big cheese.

A FAMOUS GUERNSEY COW.

Go and see Dolly Dimple. The world's famous Guernsey cow, owned by F. L. Ames, Langwater farms, North Easton, Mass., will be on exhibition at the National Dairy show in Chicago, Oct. 26 to Nov. 4. This cow made a record of 18,880½ pounds of milk, equal to 9,000 quarts in a year, almost thirty quarts, or an eight gallon can, a day for the entire year. As Dolly weighs approximately 1,000 pounds, she gives back her weight in milk eighteen times over, or a cash production of \$900 annually. It is well worth a trip to Chicago to see this great cow.

THE GREAT \$1,000 WADDINGTON TROPHY.

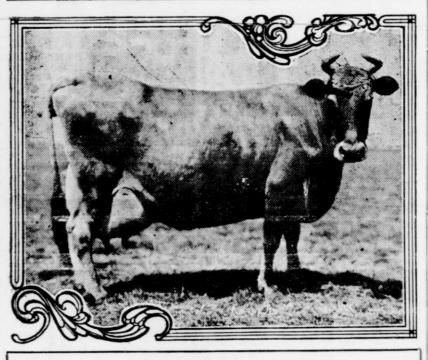

At the National Dairy show, International amphitheater, Union stockyards. Chicago, Oct. 26 to Nov. 4, the above \$1,000 trophy will be contested for by the leading breeders of Ayrshires, Brown Swiss, Dutch Belted, Guernseys, Holsteins and Jerseys. Mr. E. W. Oglebay of Elm Grove, W. Va., the donor of the cup. offers it for the best five cows in the show, regardless of breed, exhibited by breeder. This will bring the various breeds against each other in open competition in the show

PRESIDENT TAFT TO ATTEND NATIONAL DAIRY SHOW.

The National Dairy show, Chicago, has been growing steadily in importance, and President Taft has accepted the invitation of the board of directors and will attend the show and address the people Monday morning. Oct. 30. After his address the president will be escorted to the dairy products exhibit, where he will be invited to cut the world's greatest cheese, which this year weighs 12,000 pounds—six tons—and stands higher than a man.

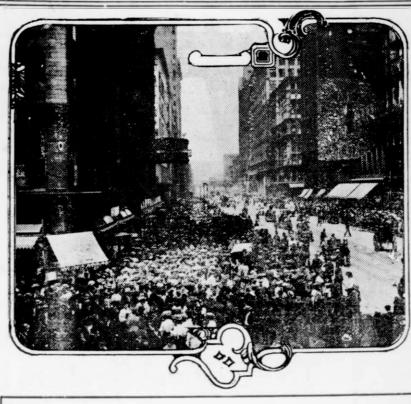

JACOBA IRENE, CHAMPION LONG DISTANCE COW OF THE WORLD.

Jacoba Irene, who holds the greatest long distance record in the production of milk and butter fat of any cow in the world, made her wonderful record when she was owned by Hon. A. O. Auten, who is the general manager of this year's National Dairy show, which will be held in the International amphitheater, Union stockyards, Chicago, Oct. 26 to Nov. 4. In one year Jacoba produced over her own weight in butter. Hundreds of other heavy producing cows undergoing yearly tests will be on exhibition at the show.

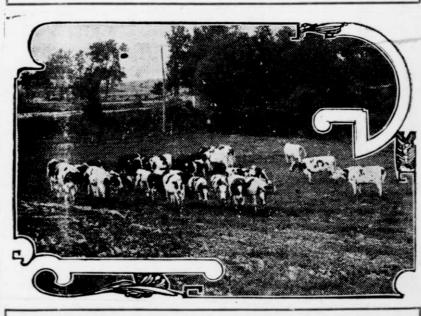

JUDGING CONTEST AT NATIONAL DAIRY SHOW.

One of the most interesting features of the National Dairy show, Chicago, International amphitheater, Union stockyards, Oct. 26 to Nov. 4, will be the students' judging contest. The illustration shows the conclusion of one of these contests, judging Ayrshire cows. This year the Jersey and Holstein Breed associations have been offered a \$400 agricultural scholarship. The Guernseys will award a magnificent silver cup for the best team of students judging Guernseys.

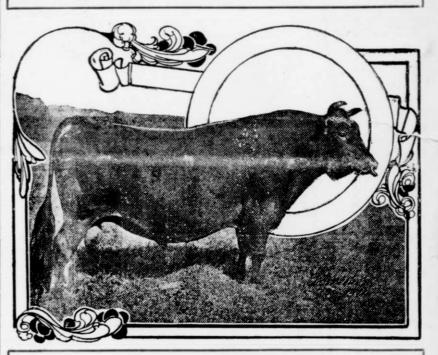

CHICAGO'S HOLIDAY WEEK.

Chicago is to have a great "long distance" holiday from Oct. 26 to Nov. 4, when the National Dairy show will be held at the International amphitheater, Union stockyards, Chicago. President Taft will be at the show Oct. 30, and there are special attractions arranged for every day. There will probably be dairy farms given away. The railroads have been requested to make reduced rates, and those in the Central Passenger association have already announced a rate of a fare and a half on the certificate plan. The fall is the best time of the year to visit Chicago.

WHERE THE BIG CHEESE CAME FROM.

The world's greatest cheese, weight six tons, will be on exhibition at the National Dairy show, Chicago, International amphitheater, Union stockyards. Oct. 26 to Nov. 4. It was made from milk produced by 861 herds, of which the illustration shows the one which was located nearest Appleton, Wis., where the big cheese was made.

NOBLE OF OAKLANDS, SON OF LADY VIOLA.

In one corner of the immense arena at the International amphitheater. Union stockyards, Chicago, during the National Dairy show, Oct. 26 to Nov. 4, will be a special exhibition stall in which will stand Noble of Oaklands, the highest priced bull in the world. Noble was bought for \$15,000 by Mr. J. B. Haggin, who owns a 7,000 acre farm at Lexington, Ky. It is through the courtesy of this gentleman that this bull and his mother, Lady Viola, who sold for \$7,000, as well as a select few of Noble's Kentucky harem, will constitute an exceptional exhibit at the National Dairy show at Chicago.

CITY MILK DELIVERY DISPLAY.

All of the principal milk dealers of Chicago will enter teams in the delivery wagon display at the National Dairy show, International amphitheater, Union stockyards, Chicago, Oct. 26 to Nov. 4. In addition to the horse show feature which this exhibit produces there will probably be introduced a milk distributing competition between the various drivers as to which one can deliver the greatest amount of milk in a given time at certain designated points within the building, which correspond to "make believe" hours on the drivers' routes.

CITIZENS' Entertainment Course

Groeschel's Opera House, Kewaskum, Wis. 1911—1912

The Original Strollers Male Quartette October 11, 1911

A. G. Steele, First Tenor, Violinist; A. R. Carpenter, Second Tenor; W. G. Wells, Baritone, Pianist; E. C. Parmenter, Basso, Impersonator

WE were very fortunate in securing this noted quartette for the first number of our course. Messrs. Steele, Carpenter and Wells are best known on the Pacific coast where they have played two or three times in most of the leading cities such as San Francisco, Los Angeles and Long Beach. Mr. Parmenter has been in the lyceum business for twelve years and has assisted in concerts in every state in the Union except Nevada. Last winter, their most successful season, they gave six concerts in Central Wisconsin. This season they are to give twenty-two in Central and Southern Wisconsin. Their time is now taken by the Bureaus till 1915.

Their program consists of bell ringing, piano and violin music, solos and quartette songs, impersonations and a variety of other splendid features.

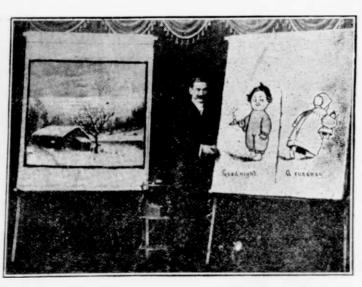

Mr. Gibeon Garl, the Distinguished Character Monologist and Impersonator November 28, 1911

Iittle laughing now and then will benefit the best of men." Mr. Garl's entertainment will bring forth one hundred laughs, real hearty laughs, healthy laughs at real comical or humorous situations. While mainly of this nature, the program is not without pathos and dramatic action. One of the best things about Mr. Garl is his great ability to change characters, from the Italian fruit vender to the Polish Jew, from the old Yankee to the small boy who wakes his "pa" at 2 a. m. to ask him juestions, from the awkward farm hand to the polished English dude; and to make these changes in full view of the audience, but still leave the audience in doubt whether they are really listening to the same man so startling and complete are the changes.

He is a Rare Artist and will surely please

Ash Davis, Cartoonist January 26, 1912

MR. DAVIS' work is no experiment. He has been on the lyceum platform for eight years and in that time has won the distinction of being the best artist of all the cartoonists.

He finishes from Twenty to Thirty Pictures in a

Single Evening

ranging from humorous caricatures to landscapes, and from oil paintings to rag pictures. Sand etching is another very novel feature of his program. All his

picture work is accompanied by a running line of humorous and entertaining songs, poems and stories which make the entertainment full of life and interest.

Katherine Carroll Smith Concert Company

Miss Katherine Smith, Reader and Impersonator; Miss Ruth Whitcombe, Violinist; Miss Bessie Lewelling, Soprano, Pianist.

TWO at least of this company are well known to Wisconsin audiences whom they have frequently delighted by their music and story. All are talented entertainers and charming young women, and have found hosts of friends in their travels.

Miss Smith has won an established reputation for her juvenile impersonations, dialect stories and clever costumes. She has appeared in concerts in all parts of Wisconsin and has made a specialty of return dates.

Miss Whitcombe and Miss Lewelling are both trained artists and have amply proved their worth as musicians.

Their work this season is proving a very successful one in every way.

The Townsend Concert Company April 4, 1912

Miss Winifred Townsend, Violinist; Miss Faerie Townsend, Soprano, Pianist;
Mr. Ralph Walker, Cellist, Baritone

DURING the season just past, this company has won unusual distinction for the superiority of their ensemble numbers—those which all take part. Each one is also fully capable of holding without effort the attention and interest of the audience. Very few companies present the variety of selections here given: violin, piano, cello, soprano and baritone solos; instrumental and vocal trios and duets; impersonations; sketches in comedy, drama and romance; popular selections and scenes from the grand operas—surely no one of the most fastidious taste can fail to be pleased.
