Last Wednesday evening the Holy Jiggers were successful in defeating the Holy Jumpers three straight games. You depend on it that there is some jiggling going on now.

The Home Merchant.

A portion of our people seem disinclined to patronize the home merchant except when they can't help it. They will ask a grocer to deliver a yeast cake to their back door. But when it comes to ordering a winter's supply of canned goods they write to some distant department store.

It should be needless to say that if everyone did thus, we should have stores to rent, fewer opportunities for people to earn a living at home.

On the contrary if we all bought everything possible at home, our stores could keep even better stocks. It is a great convenience to be able to make selections from a good line of goods at home. This becomes possible where everyone loyally supports the home merchants.

Under such circumstances existing stores could do a larger business employ more people, and new concerns would start. Every person owning real estate or a business here would see it grow more valuable.

Even the man with nothing would gain. There would be more property to tax, hence more public improvements. With more money in circulation our fraternal societies, churches, and clubs could serve the community more efficiently.

Advertising Seed Grains Topic for Farmers

Profitable advertising of seed grains is one of the important topics to be discussed at the coming meeting of the Wisconsin Agricultural Experiment Association to be held at the College of Agriculture, Friday and Saturday, January 26 and 27. Practically nothing has been done in the way of investigating farm advertising up to this time. Some time ago the department of agriculture journalism instituted some experiments and tests to determine the real value of different kinds of "ads" in different farm papers. Some of the results of these experiments will be given to the experiment association at their meeting.

H. E. Krueger, who has won most of the big prizes for grains and forage plants at exhibitions during the past few years, will discuss the subject "Growing and Preparing Seed Grains and Forage Plants for Exhibition." Practically every topic interesting to farmers who grew field crops will be considered at the coming meeting.

BOY ACCIDENTLY SHOT BY COUSIN

Herbert Ramthun Accidentally Shot by His Cousin Alfred Ramthun Last Sunday

THE UNFORTUNATE LAD IS DOING NICELY

Both Boys Were Playing With a Double Barrel 12-Gauge Shotgun Loaded With Shells

Last Sunday afternoon while playing with a double barrel 12 gauge shot-gun near the house of F. W. Ramthun east of this village Alfred, the sixteen year old son of Mr. and Mrs. F. W. Ramthun, accidentally shot his cousin, Herbert, the 16 year old son of Mr. and Mrs. August Ramthun.

Both boys were playing with the shot-gun and frequently loaded the gun, took out the shells and passed it to one another. Finally while Herbert was going to go in the house his cousin, Alfred, picked up the gun, not aware that it was loaded, and in some manner the charge entered the boy's right leg. Medical aid was at once summoned. It was also found that two shots entered the boy's right leg at a 14 shots went into the left leg. The two boys were about 45 feet apart at the time of the accident. It was also found that 70 shots entered a pail, which stood by the boy's side. The unfortunate lad at the present writing is doing very nicely.

- Best Gent Mask \$1.00

If crowd affords it another prize will be given. The price of admission will be 25 cents a person. Supper extra. Everybody is cordially invited to attend. This will be the last dance before Lent.

Old Lady Breaks Hip

Miss Wilhelmina Bilgo, aged 94 years, who makes her home with her son August in this village was unfortunate last Monday afternoon in breaking her hip. Mrs. Bilgo had just finished reading a paper and got up from a rocking chair to place the paper on the table. She only took a few steps when in some manner she fell down and broke her hip. Mrs. Bilgo and children, who were in another part of the house heard her moan and rushed to her side. Medical aid was at once summoned. The elderly lady is doing as well as can be expected. We hope for a speedy recovery.

Personal Application Required

Postmaster A. G. Koch has received an order from the postal department that on and after Jan. 31st, the patrons on rural routes are requested to make personal application for money orders to the carriers and receive receipts for the same, instead of simply depositing the money in the mail boxes as heretofore. This has been done to prevent the loss of letters containing money, as many times mail carriers would deposit them with the rest of the mail not knowing they were intended to be registered, and if lost the sender has had no chance of having the money returned.

Our Great Combination Offer

Do you know that the FARM JOURNAL uses over sixty tons of paper for their issue. It's so good and so cheap that over three quarters of a million people take it and refuse any substitute. We have made an arrangement by which we can give you the FARM JOURNAL for five years and the Statesman for one year, BOTH for \$1.50, which is little more than the price of our paper alone. Have you ever seen such value as this offered by a newspaper? Send the order with the money to this office. Do it now.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

West Bend Has Large Fire

Roller Mills of West Bend Destroyed by Fire Last Friday Night. Loss \$25,000

The West Bend Roller Mills, of West Bend owned by the Adam Kuehlthaus estate was totally destroyed by fire last Friday evening. The total loss is estimated at \$25,000, with \$17,000 insurance. The fire was first noticed by the night fireman of the Electric Light Plant, who turned in the alarm. The power house, which adjoins the mill, was saved by hard and heroic work of the members of the West Bend and Barton Fire Departments. At one time they had seven streams of water on the fire. If the power plant would have been destroyed, it would have meant a hard blow for the city of West Bend, as the lights and water works of the city is furnished from this plant. Down town business places would have been minus steam heating, which is also secured from this plant.

This is the second fire West Bend has had in that neighborhood within the past few weeks. The fighting of the fire was very disagreeable for the thermometer registered 110 below zero at the time. Whether or not the mill will be rebuilt has not been learned.

Residents of Campbellsport Aroused Over Poor Depot of North Western

Cheese and crackers form a good diet, but when it comes to rats and crumblers, the residents of Campbellsport object. A rodent squawk is something new on the menu of the villagers, but nevertheless they assert that food of this nature is now in evidence there on account of the North Western depot being overrun with rats, which are often found in the cracker boxes and other boxes and other things consigned to the Campbellsport merchants.

The residents of Campbellsport have been endeavoring for several years to obtain a new depot, but so far their plans have proven unavailing. Unless something is done by the railroad within the next few weeks the villagers intend to take the matter up with state rat commission at Madison.

The Campbellsport depot it is claimed has been a joke for many years. The building is an antiquated one and totally unfit for the purpose for which it was intended. It is unsanitary and so small that sixteen persons will tax its capacity. "We want a new depot and intend to have it even if we have to go to Madison for it," said one of the prominent merchants of the village today.

Don't be a Tumbledown Farm Journal

MANY a farmer will tell you he never knew how much bigger crops he could raise until FARM JOURNAL put it into his head to work more with his brains.

This great little paper is always nudging farmers up to make more money. Pleasant but persistent, it works at you year after year to raise larger crops, finer horses and cows, heavier hogs, bigger apples and potatoes, and shows you just HOW to do it.

FARM JOURNAL ("cream, not skim-milk") is 34 years old, and has 750,000 subscribers, more than any other farm paper published. Its million readers (known as "Our Folks") are the most intelligent and prosperous country people in the world, and are always saying FARM JOURNAL helped to make them so. It is clean, brief, "boiled down," full of practical wisdom, gumption, fun and sunshine. It believes in order, thrift, kindness, comfort, and happiness, and it has old Peter Tumbledown always ready to show how NOT to run a farm.

"Our Folks" have comfortable homes, modern buildings and machinery, tight roofs and fences, gates that swing free, sound horses, well-dressed and happy wives and children, and money in bank. Their potatoes are the largest, their milk tests the highest, their hogs weigh most, their fruit brings the best prices. Live farmers everywhere find this out, and they want the FARM JOURNAL.

Subscribe now, and get with the paper any of these famous **Money-making Secrets.**

These great illustrated booklets are all stories of success in farming, and they tell you the METHODS that won it.

Poultry Secrets is a unique collection of the secret methods and discoveries of successful poultrymen. It gives Fitch's famous mating chart, suppressed for years, the Curtis method of securing 50 per cent. more pullets than cockerels, Boyer's method of wearing fertility, with priceless secrets of mating, breeding, feed and feeding, how to produce winter eggs, and many others of great value long jealously guarded, now first published.

Horse Secrets exposes the methods of "bishops," "plugging," cocaine and gasoline doping, and other tricks of "gypsies" and swindlers. It enables any one to tell an unsound horse. It also gives many valuable feeding, training, breeding and veterinary secrets.

Corn Secrets is the great NEW hand-book of Prof. Holden, bushels more per acre of corn that is rich in protein and other valuable stock-feeding elements. Wonderful photographic pictures make every process plain.

The MILLION EGG-FARM tells how J. M. Foster, in the New Jersey nine-belt, makes over \$14,000 a year, mainly from eggs. If you keep chickens, read about the "Rancocas Unit" and learn how Foster FEEDS his hens.

THE "BUTTER BOOK" tells of seven cows that produced half a ton of butter each per year (140 pounds is the average). An eye-opener for dairymen. Get it, weed out your poor cows, and turn your good ones into record-breakers.

GARDEN GOLD shows how to make your back-yard supply you with fresh vegetables and fruit, how to cut down your grocery bills, and get cash for your surplus produce. It tells when and how to plant, cultivate, harvest and market every kind.

DUCK DOLLARS tells of the great Weber duck-farm near Boston. Every year they sell over 40,000 ducklings at a net profit of 50 cents each. Tells why ducks pay them better than chickens, and just HOW they do every thing.

Any one of these splendid booklets, both for \$1.00 with Farm Journal FOUR full years.

(And if you subscribe NOW, before they are all gone, and tell us where you saw this offer, we will send you also Poor Richard Revived, Franklin's great almanac brought down to 1912, packed with wit and wisdom for the farmer.)

For the Hair

Are you so fortunate as to be well satisfied with your hair? Is it long enough, thick enough, rich enough? And your hair does not fall out? Well, well, that is good. But you may know of some not so fortunate. Then just tell them about Ayer's Hair Vigor. They will surely thank you after using it, if not before. Remember, it does not color the hair. Show the list of ingredients to your doctor. Let him decide their value. He knows.

Bonano is Different

BONANO is different from any other table drink you ever used—and better.

This is the difference:

I. BONANO, properly brewed, is deliciously palatable, without the necessity of learning to like it, to those whose taste has not been injured by the tea and coffee drug.

II. BONANO has a body and a rich aroma and flavor.

III. BONANO is a health drink because it contains nothing injurious and much real food value that is easily digested.

IV. BONANO may be used by anyone from childhood to old age, sick or well, and at any and all times, with nothing but beneficial effects.

V. BONANO is economical—a 75-cup can costs 25c, or one-third of one cent per cup.

VI. BONANO is easily and quickly made—boil one minute.

VII. BONANO will not spoil. We guarantee its keeping qualities.

VIII. BONANO is pure and clean, made from nothing but fruit under most sanitary conditions.

IX. BONANO is universally endorsed by physicians.

BONANO is so absolutely different that it is good.

Ask your grocer to supply you or send us a 2c stamp for sample. Give it a thoroughly fair trial and note the difference.

The Greatest Offer Ever Made to Stock Feeders
Dr. Hess Stock Food on 3 Months Trial

From the manufacturer's written guarantee and the upping praise it is receiving from our customers we are doubly sure that it is, without a single exception, the best Stock Food or tonic ever produced and at a price that you can afford to feed it regularly.

Now here is our proposition: We will supply you with sufficient Dr. Hess Stock Food to feed your animals twice a day for three months; we will supply you with 25 lbs. or one ton, then if at the end of three months you are not absolutely sure that it has paid you to feed Dr. Hess Stock Food, that is, if your animals fed for market have not been more thrifty, your other stock in better state of health, return to us the empty package and we will refund every cent you have paid us.

Here are the prices: 500 lbs. for \$25.00, or 100 lbs. at the same rate \$5.00, or 25 lb. pail at \$1.60.

There is not a farmer or feeder in this community that can afford to miss this liberal proposition.
