# MASS MEETING

Gasoline Fire Engine is Decided Upon For Better Fire Protection

The Waterworks and Sewerage Question Although Discussed Was Not Brought to a Vote. If it would Have Been, it Would Have Meant a Sure Defeat

The citizens mass meeting, which was held in the village hall last duntil death, otherwise the list would be longer. of the Village Board, was largely attended, nearly every property owner in the village being present The meeting was called to order by President Peters,

Several of the citizens gave their opinions as to what fire protection the village at present had and that an engine was very neces ary. Others were also in favor of intalling a water works and sewer-age system. After an hour of dission it was moved that a vote be taken as to whether or not the village should buy a fire engine. The result being unanimous, not one being against it. The water double harness as much as anyone being against it. The water double harness as much as anyworks question did not make one in town, they were against it. No vote on in affairs of the heart, this was taken, and besides if a P. J. Haug-Firm cha vote would have been taken, would have meant that the village vote on the question of bonding the village for a certain amount either at a regular or special elec-

tion. Two representatives from two different gasoline fire engine firms were present and were called upon to give a talk in regard to their Is a very jovial young man. engines, which was very at-

tentively listened to.

After the mass meeting, the viling to pass a resolution as to the purchase of a fire engine and take further steps as to the immediate proceedings will be found else-where. Next Monday evening is the time called for sealed bids, at 309 319 324-992 which time an engine is expected to be purchased. The order will

### BUICK CAR PICKED IN GOVERNMENT TEST

Eighteen Submitted and Examined b Army Experts Before a Choice is Made

Last week a Model 28 Buick Car ARE PIONEERS OF THE TOWN OF WAYNE was delivered to Colonel Spencer Crosby of the Department of War Mrs. August Becker, Anton Werner and at Washington, to be used by the inspector of public buildings and

> grounds on his daily trips, The government invited all the leading manufacturers of cars priced from \$900 to \$2,000 to submit a car in competition to a committee of mechanical experts. The cars were driven to the designat-

ed place and the drivers dismissed. The examination was made with no representative of any of the cars present. Motor for Motor, shaft for shaft, bolt for bolt, the cars were compared, tested and appraised by the government experts. One by one cars were eliminated until but one remained, It was the BUICK. Of the seventeen or eighteen cars submitted, the BUICK alone stood the rigid tests of quality and construction upon which the examination was based. This car was at once turned over to the government for immediate service.

This is not the first time the BUICK has been selected for government use. Last Fall, when an appropriation of \$250,000 was made for experimentation on road construction, the BUICK 39 was the car used to drive over the various road surfaces that were laid

QUALITY and CONSTRUCTION are the points in the Buick that met the approval of the experts. The BUICK owes these features. of superiority to the fact that it is the only car in the world made completely at one factory under one engineering supervision. Each part is made to act in harmony with every other part. Extreme accuracy is possible - least waste of power and the greatest economy of construction.

Before placing your order for a car let us show you this car.

### Tests of Feeding Cows Single Grain Rations

That the value of feeds for cattle cannot be determined absolute ly by the amounts of digestible food which they contain, and that certain physiological effects of different feeds, which hitherto were considered of practically no importance, have a vital effect upon the health of cattle, has been proved by the College of Agricul-ture of the University of Wisconsin, in a series of experiments cov-

ering four years. Rations of wheat, corn and oats, containing exactly the same a-mounts and kinds of food con tituents or digestible mutrient, were fed young heifers. Oats were used for one lot, wheat for another, corn for another, none of the animals receiving more than one of these grains. The animals so fed, when they reached maturity and underwent the strain of reproduction, showed plainly the effects of being fed on one grain

Those fed on wheat produced weak, undersized calves, either dead at birth or dying shortly after; and the cows themselves were in a low state of health.

Those fed only on corn produced large, vigorous calves and were in good condition throughout the experiment. Those fed on oats were better than those fed on wheat but not so good as tho e

Those fed on a mixture of oats, corn and wheat, were in nearly as poor condition as those fed on wheat, a result contrary to the popular belief that a varied raion produces the best results.

These experiments prove conclusively that due consideration must be given to the physiological action of individual feeds themselves and not merely to the balancing of rations from the point of view of their digestible food constituents.

### Train Derailed

Way freight No. 292 southbound, sumped the track two miles south of this village last Thursday afternoon at 12:30 and tore up over 500 feet of rails. Six cars with the Milwaukee were sent to a point of the wreck where passengers for both directions were transferred.

# RATE COMMISSION

Recommend That Road Renew

### Afternoon Service

Attorney J. E. O'Brien and John Rohlfs Represent Eden Shippers at Hearing

After a hearing of the complaint of the Eden stock shippers at Madison Tuesday afternoon, the railroad rate commission recommended to the railroad that they re-instate the afternoon freight service at Eden. The representatives of the Chicago & North Western agreed that the order issued some

time ago would be recalled and the afternoon service renewed. The Eden farmers and shippers were represented by Attorney J. E. O'Brien of this city and John Rohlfs of Eden and the North Western was represented by At-

torney Vilas.of Milwaukee and division superintendent Though the commission did not come to any definite decision on the matter their recommendation carried sufficient weight to bring the railroad to terms.

The Eden shippers through their attorney J. E. O'Brien and John Rohlfs, claimed that the railroad was causing the suffering of stock due to their refusal to move any freight from the village in the afternoon. The trouble started about five weeks ago when the division headquarters of the Chicago and North Western road is ued an order that no freight from the trains south bound, would stop at Eden in the afternoon, They notitied the farmers who were ship-ping stock that they would have to have the cars loaded in time to be picked up by the freight which passes through Eden at 9:45 in

the morning.
As the shippers could not load the cattle in the morning in time for that freight it was neces ary to load the cattle in the afternoor and leave them over night in the cars. One instance of the delay was sited in which Mr. Rohlfs was the shipper. He loaded a ship-ment of cattle at 4:45 o'clock one afternoon and they were not moved until 3:45 o'clock the next afternoon,-Fond du Lac Reporter

### DOINGS IN FOND DU LAC COUNTY \*\*\*\*\*\*\* \*\*\*\*\*\*\*\*

Plans are already being made for the erection of a \$3,000 clubhouse at Long Lake, near Dundee early next spring. The lake has had a reputation for its fine fish-ing facilities for many years, but during the next fear the second EDEN FARMERS ARE SATISFIED during the past four years has become more popular than ever, Scores of fine cottages have been built along the shores of the lake. Many of the cottages are owned by Fond du Lac people. The new clubhouse now being planned will

be modern in every respect. COUNTY FAIR DATES FIXED

The annual county fair will be held on August 27 to 30 this year, according to a decision reached by the officers of the Fond du Lac

County Agricultural society at a-meeting held recently. That the next county fair, which will open on Tuesday morning August 27 will be bigger and betten than all previous events of a similar mature, is the prediction of the officers, and plans are already underway for assuring the success of the 1912 county fair.

ENDORSE COSTELLO committee on good roads appointed some time ago by the county board of supervisors met Tuesday morning in the office of County Clerk Wilkinson and rec-ommended that the state highway commission appoint Michael Cotello of the town of Byron as ou-perintendent of the highway work to be done in Fond du Lac county. The superintendent will serve for

a term of three years, MARIAN ESTATE VALUED AT \$11,200 Jacob Marian, who died in the town of Ashford, December 12, 1911 left an estate valued at \$11,200, of which \$10,000 is real estate. The heirs mentioned in the petition are the widow, Katharina Marian, two sons, Joseph and William Marian and one daughter, Anna Marian, all of Campbellsport.

INDERTEDNESS REDUCED The indebtedness of the county fair association has been reduced \$1,200 of which amount \$1,000 was appropriated by the county board and the remaining \$200 was taken from the treasury of the association. The total debt of the association now is only \$1,000.

St. Petersburg.-According to a dispatch received by the Evening Vremya from Teheran the Persian government has telegraphed orders to authorities of the towns of Resht and Enzeli instructing them to hold F. E. Cairns and eleven other Americans who made up the staff of W. Morgan Shuster, former treasurer general of Persia. Mr. Cairns and his former asso-

They will be required, the newspaper dispatch adds, to answer for Irregularities which, the Persian offcials allege, have been discovered in the accounts of Mr. Shuster while he acted as treasurer general.

Southampton, Eng.-W. Morgan Shuster, who was shown the dispatch from St. Petersburg, about the order for the detention of his associates in Perela, said:

"I know nothing of this matter, but presume that it is a continuation of the campaign of the Belgian officials to foster M. Mornard's candidacy for the treasurer generalship of Persia by currying favor with the Russian government and by attacking the Americans.

"My accounts were balanced to a cent with the imperial bank of Persia, when I left on January 11. I regard the charges as absurd on their face and purely political."

### SYNOPSIS.

Jack Keith, a Virginian, now a der plainsman, is looking for roaming parties of savages. He sees a wagon at full gallop pursued by men on poil When Keith reaches the wagon the raters have massacred two men and departed. He searches the victims finding papers and a locket with a woman's portrait. Keith is arrested at Carson City, charged with the murder, his accuser being a ruffian named Black Bart. A negro companion in his cell named Neb tells him that he knew the Keiths in Virginia. Nebsays one of the murdered men was John Sibley, the other Gen. Willis Waite, formerly a Confederate officer. The plainsman and Neb escape, and later the fugitives come upon a cubin and find its occupant to be a young girl, whom Keith thinks he saw at Carson City. The girl explains that she is in search of a brother, who had deserted from the army, and that a Mr. Hawley induced her to come to the cabin while he sough! her brother. Hawley appears, and Keith in hiding recognizes him as Black Bart. There is a terrific battle in the darkened room in which keith is victor. Horses are appropriated, and the girl who say, that her name is Hope, joins in the esc. Ekelth explains his situation and the fugitives make for Fort Larned, where the girl is left with the hotel landiady. Miss Hope tells that she is the daughter of General Waite. Keith and Neb drift into Sheridan, where Keith meets an old friend, Dr. Fairbain Keith meets the brother of Hope Waite, who was thought murdered, is at Sheridan, and goes there, where she is mistaken for Christie Maclaire, the Carson City singer. Keith meets the real Christie Maclaire and finds that Black Bart has convinced that there is a mystery in her life which he is going to turn to her advantage. The plainsman tells Hope Waite of her resemblance to Christie Maclaire. They decide that Fred Willoughby may hold the key to the situation. Keith finds Willoughby shot dead. Hope is told of the death of her brother. Keith falis told of the death of her brother. Keith falis told of the death of her brother. Kei

KING'S WAR ROBE ON VIEW

At the Museum In New York City You May See the Feathers Kamehameha III. Wore.

As an example of the past royalty of Hawaiian kings, a remarkable feathered war robe, once the property of Kamehameha III., and said to be the equal in value of diamond ornaments in several of the European regalla, is displayed in the hall of South Sea Islands at the American Museum of Natural History. This emblem of Hawaiian royalty was presented by the king of the islands to Commodore Lawrence Kearney, U. S. N., in 1843. It is a war cape with a history and, according to Dr. Brigham, an authority on Hawailan feather work, a similar cloak, completed in the reign of one of the kings of the islands, was in process of fabrication through eight

Contrary to the custom of the Peruvians, who first made the feathers fast to a cord and then knotted the cord to a cloth, the Hawaiians attached the feathers separately to the netting.

Although a fortune in labor is represented, the feathered war robe only weighs six pounds. It was presented to the museum by George S. ## 4<sup>1</sup> Gallons of **BONANO** for 25 Cents THAT'S ECONOMY

What has the size of the package to do with it when the contents of a regular size can of BONANO will make over 41 gallons of a deliciously palatable and nutritious hot table drink at a cost of only 25 cents

Compare this with the quantity of coffee you can brew from a 25-cent package of coffee, and then compare quality. Use your Mathematics and a lead pencil.

A can of BONANO costs 25 cents and makes 75 big cups. That's one-third of one cent

Coffee by reason of the larger quantity required for each cup costs one cent per cup—that's three times greater cost than BONANO.

BONANO helps reduce the high cost of living. Here's the secret of the red can of BONANO: Every process in its manufacture, from the drying of the fruit material to the roasting drives out the moisture, until at the time it is put into the can, only 4 per cent moisture remains (that's less moisture than there is in the air). This reduces the size of the package, but leaves in all the food value, and the good-

ness and the quality of BONANO remains. Some food manufacturers use every means at their command to inflate the size of their packages without adding anything of value to the original quantity of material and without in-

creasing the quality-often reducing it. Don't compare BONANO with its concentrated food value with coffee substitutes of light and bulky content.

BONANO is not inflated with moisture or air and no adulterant is added to make it appear that you are getting more for your money than your are. BONANO represents highly condensed value. The more moisture we take out, the more you can put back in the brewing and we leave you to add the moisture without paying for it.

When you think of BONANO, think of quality as well as economy. The quality of BONANO is such that you need boil only one minute. BONANO contains no caffeine, tannin, their or other harmtul poisons peculiar to tes,

### **COST OF GRAIN GROWING IN** CENTRAL CANADA

A careful canvass made of a number of men farming in a large way indicates that even with the extreme expense of harvesting the crop, which has been caused by the bad weather and difficulty in threshing, wheat has been produced and put on the market for less than 55 cents a bushel. The Whatsoever a man soweth that shall average freight rate is not over 13 cents per bushel. This would make the cost of production and freight 68 cents and would leave the farmer an actual margin on his low-grade wheat of 171/2 cents and for his high-grade wheat of 191/2 cents; and though this is not as large a profit as the farmer has every right to expect, it is a profit not to be despised, and which should leave a very fair amount of money to his credit when all the expenses of the year have been paid, unless the value of low-grade wheat sinks very much below its present level. ### What the Copy Boy Wrote.

Representative Dan Anthony, of Kansas, publisher of the Leavenworth Times, once had an office boy who yearned to know how to use a typewriter-which accomplishment, the boy figured, would make him a regular reporter.

Anthony turned an old broken-down machine over to him, says the Washington Herald, and bade him learn to run it.

"What'll I write?" the boy asked. "Oh, just take some sentence, any sentence at all," Anthony told him, "and see how long it will take you to

fill a page with it." The boy set to work. An hour or two later Anthony chanced to notice the page on which the lad had been working. From top to bottom of the sheet, and from margin to margin, the boy had written one sentence over and over again until there was scarcely a white spot visible on the paper. The sentence the boy had selected to practice with was: "Who the -- invented school?"

These records are not haphazard, but they are not altogether regular. When several chiefs and medicine men of the tribe are growing old an months I suffered from assembly is arranged where the fa-troubles in consequence of mous Indian interpreter and painter mous Indian interpreter and painter meets the aged men. One by one the old men stand forth before the people ompound made me well and recount the stories of their lives.

They tell thrilling tales of the battles in which they have fought, of the Mrs. Emma Ball.Ey, Alton scalps taken, and the horses they have stolen. These three achievements are regarded as the three most honorable and valorous exploits of the great men. Compared with these the white man's election to parliament, his appointment to high office. and his great commercial achievements are as nothing.

Sometimes their meetings last several days. The old men are enthus!astic in their descriptions of bygone days; thep recite rapidly and gesticulate much. The members of the tribe, sitting about them, listen eagerly, storing the details to be told over and over again to their son's sons, until they are tribal traditions of the long past. As they talk the painter sits upon the ground with his steer hide spread before him and paints with his rude dyes pictures to

illustrate the incidents. A circle represents a barricade or encampment; awkwardly drawn plctures of animals stand for the horses he has stolen; a galloping horse, with a man on his back, suggests the story of a wild flight across the prairie before pursuing enemies; a flag may mean a bloody battle won; a tadpolelike mark, a scalped Indian. The figures are very crude, the drawings no better than those a four-year-old child makes on its slate. But some ingenuity is exercised in the grouping. and each sketch is, in a way, a key to the thrilling tales which in time become history.

Washington and Steuben at Valley Forge

TETWEEN one and two hundred thousand people every year visit Valley Forge.

Everything possible has been done to attract them. On the hills where Washington's army suffered and bled there are now beautifully kept macadam roads and bridle paths that meander through the trees.

By train, auto, bicycle, motorcycle and afoot the crowds comebut always in the spring, summer or autumn.

When snow falls fresh marvels of beauty are revealed. But few, save the fox hunters, ever see them.

In many places the views do not differ greatly from those of that memorable winter, 1777-78, when Washington and his men fought against cold and starvation. An army of ragamusfins, many of the troops even without shoes, poorly and insufficiently nourished, it was almost a miracle that any of those patriots survived.

### HE WAS SOMEWHAT PEEVED

Attendant at Spiritualistic Seance Con sidered Himself Aggrieved and Said So.

Charles M. Cross of Indianapolis thinks variety adds spice to life, so he went to a spiritualistic service.

It was a lively affair with sepulchral voices sounding through trumpets, tambourines playing mysteriously in mid air, and cold, clammy hands of partially materialized men and women making free in the dusky room with those who were in the flesh. In the midst of it something dealt Mr. Cross a victous whack on the nose and he called for lights in a tone not to be disobeyed. With the light the circle as disclosed was all natural and human again. The most human member of it was Mr. Cross, with a bloody nose, spoiling for a fight and all the "madder" because he did not know whom to fight.

"Who did that?" he demanded of the medium. The medium said the gay spirit was

that of St. Peter. But even this explanation did not

satisfy Mr. Cross. "Well, all I ask of St. Peter," he said, "is to materialize for just one minute and if I don't make a vacancy for a new gatekeeper I won't ask to get in."-Indianapolis News.

### TO KEEP THE SKIN CLEAR

For more than a generation, Cuticura Soap and Cuticura Ointment have done more for pimples, blackheads and other unsightly conditions of the complexion, red, rough, chapped hands, dandruff, itching, scaly scalps, and dry, thin and falling hair than any other method. They do even more for skin-tortured and disfigured infants and children. Although Cuticura Soap and Ointment are sold by druggists and dealers throughout the world, a liberal sample of each, with 32-page book on the care of the skin and bair will be sent post-free, on application to "Cuticura," Dept. ### Great Northern Ry Makes Low Fares West

Colonist Tickets on sale daily March 1st to

The Great Northern Railway will place in effect on March 1st, a special One Way Col-onist fare of \$31.50, from Milwaukee to points in the Great Northwest, and continue same daily to April 15th.

This fare will enable everybody who has been convinced of the great opportunities awaiting them in the Golden Great Northern States to reach the goal of his desires economically and quickly.

Three daily trains will carry the Colonists west—from the principal gateways—St. Paul, Minneapolis, Chicago, and Kansas City—and special preparations are being made for the comfort and accommodation of passengers. The fare from St. Paul, Minneapolis, Kansas City, Duluth and Superior will be \$25.00, from Chicago \$33.00.

Tickets will be sold to nearly all points in Montana, Idaho, Washington, Oregon and British Columbia, including Helena, Butte, Great Falls, Havre and Kalispell, Montana; Spokane, Seattle, Tacoma, Everett, Belling-ham, Vancouver, Victoria and Portland.

Every town in the east will enjoy the benefit of this rate, and through tickets can be purchased at low figures. In planning your trip to the Golden Great Northern States, write for free copy of Colonist Folder and cost of through ticket from your town to,

### WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience -a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally need-

less, and that no woman, except in rare cases, should submit to Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases,

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't triffe with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.,-take the advice received and be well.
