The Klim Bims of West Bend, together with the Klim Bim Military Band and a bunch of rooters came to this burg last Sunday evening to play the first game of a series of three with the L. R.'s. They were successful in winning the first match, which no doubt is due to the band they had along. The Klim Bims are a jolly bunch of lads and certainly are there when it comes to bowling and making a noise. The different selections rendered were very good, and amused quite a large audience. As yet we have been unable to learn when the next game will be bowled. This one, however, will be bowled at West Bend.

High School Notes

The Freshmen were given a test in Ancient History.

The Senior class in American History were presented with a quiz on Friday.

Inquisitive Junior; "Oh Say what is your theme on?"

Smart Freshie; "Paper."

Mr. Cavanaugh asking for a Hart's Epochs in American History, "Has any of you girls (heart) Hart to lend?"

Thomas Jefferson, the writer of the Declaration of Independence, and John Adams, the champion of the U. S. Constitution, both died on the 4th of July 1798.

The following is a poem which will describe the Freshmen class:

A Freshman stood on a burning deck,

And as far as he could learn

He stood in perfect safety,

For he was given to burn, Ex.

An emphatic hint consequently to his vituperation and censorious and mordacious ebullition of spleen, he assumed a category of hypochondria and astrophysical umbrage, discerning his choleric and irascible attitude, she emphatically remarked with fastidious euphemism, "Hornogenially, relegate your approbious, scurrilous, abysmal, bonabastic, rigid and grandiloquent carcas from the circumference vicinity." In plain English—"Skidoo!"

Edward Guth, a prospective racer for the valedictory and a brilliant member of the Physic's class has through many experiments discovered a positive cure for the "Blues." Edward guarantees every package used by following is the composition of the most wonderful discovery.

Four grains resolution, one draw common sense, one gill of consideration, debate in eight ounces of experience, flavor with two draws sarcasm, put in bottom of the heart and cork with a clear conscience.

A Freshman's opinion of Algebra.

All of the ridiculous nonsense that ever troubled me, the worst is that absurd tangle of "X-Y-Z." Sometimes the X is the man's age, sometimes the age of the one, equals the only what A does and Y, what B has done. Sometimes it equals the number of sheep, again the leap of the hare, or even the strength of a current when a man is rowing there.

Can some of you wise ones tell me the secret that shadows that X? Methinks it's a share and delusion, invented to puzzle and vex.

LENTEEN RULES ARE RECEIVED

Regulations Were Read at all Masses in the Catholic Churches Sunday

FAST DAYS ARE SPECIFIED

Special Indulgence is Allowed in Certain Cases

The Lenten regulations were read from the pulpit of the Catholic church here on Sunday.

The regulations were issued by Archbishop Meyer and were read and explained at all masses in the churches in the Milwaukee diocese. The rules as received are as follows:

"1. All Fridays and fast-days during the years are days of abstinence from flesh-meat. On Saturdays, which are by law also days of abstinence, flesh meat is allowed by apostolic indult at all meals, unless they happen to be fast-days.

"2. The following are the fast days of obligation: All days of Lent (except Sundays); the Ember days, the Vigils of Pentecost, of the Assumption of the B. V. M. of all Saints, and of Christ-mas, lastly, the Fridays of Advent.

"On fast days only one full meal is allowed to persons obliged to fast. But indult and custom allow coffee, tea, chocolate, with a piece of bread in the morning and the use of eggs, butter, milk, etc., in the evening. For sufficient reason, the fast may be dispensed with at noon, or the dinner or principal meal in the evening.

"During Lent, by apostolic indult, flesh-meat is allowed at the principal meal on week days, except all Wednesdays and Fridays, and also Saturdays in Ember week (March 2) and Holy week (April 6). On fast-days in Lent, flesh-meat and fish, (including oysters, crabs, and shell-fish) are prohibited, except when it applies to the Sundays in Lent and to all persons however otherwise excused or dispensed from the law of either abstinence or fast. But meals may always be prepared from the drippings of either fat or lard.

"Should the feasts of the Nativity (Christmas) and the Circumcision (New Year's), the feasts of the Assumption and the Immaculate Conception of the Blessed Virgin Mary, and the feasts of All Saints fall upon a day of abstinence, the law of either abstinence from such abstinence or fast has been granted for such an occurrence by a special order of the Holy Father, issued on July 2, 1889. The same holds good for parishes where the feast of the patron saint (titular) of the church is observed with solemnity and a large concourse of people.

"Persons excused from fast may use flesh-meat more than once when it is allowed at all, whether in Lent or outside of that season.

BOUND BY LAW OF ABSTINENCE

"3. Catholics having attained sufficient use of reason are bound by the law of Abstinence. But when it is either physically or morally impossible to observe the law, or when it would entail serious difficulties they are excused from it.

"In virtue of the Apostolic faculties granted us by the Holy See we hereby delegate pastors to dispense, in each single case, from abstinence the men actually engaged in treading as well as the farmer families at whose place threshing is going on.

"4. Catholics having completed their twenty-first year of age are bound to fast. But the cause of excuse just mentioned in regard to abstinence apply also to the law of fasting. Hence the Church ordinarily exempts from fasting the sick and those in feeble health (whether by sickness or by old age) women nursing children; all who are engaged in laborious and exhausting occupations. Persons in doubt whether they are excused or not, should consult their confessor or pastor for advice and dispensation.

"5. In virtue of an Apostolic indult we permit workmen and their families the use of flesh-meat at the principal common meal on all fast days and abstinence days throughout the year with the exception of all Fridays. Aah Wednesday, the Wednesday and Saturday of Holy Week and the eve of Christmas.

"6. Persons excused or dispensed from the law of fast or abstinence ought to perform some other good work of piety and charity in the spirit of Christian penance and satisfaction. Hence the pious custom of giving lenten alms. Also the custom of abstaining from intoxicating drinks, of staying away from theatres, dances, parties and other profane amusements."

VILLAGE BUYS GASOLINE FIRE ENGINE

At a Special Meeting of the Village Board Last Monday Evening a Gasoline Fire Engine Was Purchased

TO BE AN IMMEDIATE ORDER

A Representative of the Firm From Whom the Engine was Purchased Promised to Have Same Here Within Three Weeks

The Village Fathers at a special meeting held in the village hall last Monday evening purchased a gasoline fire engine of Waterous make, made by the Waterous Engine Works Co. of St. Paul, Minn. At the time of the opening of the scaled bids, Edw. C. Miller, village clerk read two bids, one from the Howe Fire Engine Co., of Indianapolis, Ind. After carefully considering the two engines, and hearing the reports of the committee who inspected and examined the different makes, the board thought best to purchase the engine before mentioned.

The engine purchased is an Improved Gasoline Fire Engine No. 6 class B, and built per the following specifications:

Motor is of a Four Cylinder Type, capable of developing 45 to 48 H. P., and pump is of the rotary type, fitted with a churn valve or pressure regulator. The engine and pump are mounted on forged steel frame with crane neck, running gear consists of "Archibald's" patent fire apparatus wheels with steel tires, forged steel axles and half elliptic steel springs.

Engine is fitted with a powerful friction clutch, whereby the pump may be stopped without stopping the engine, and the pump is equipped with an automatic heating device for heating pump in cold weather; also fitted with improved feed and filtering device and all other latest improvements. The pump gears are enclosed in metal cover. The Motor is protected by a metal hood hinged together, and arranged to open on both sides. The ignition device consists of two separate and distinct systems; one consists of a Double Set of Dry Batteries with Spark Plugs and wiring for same, and one consists of a Magneto of approved design and manufacture, together with separate set of Spark Plug and wiring.

The equipment with this engine is a 30 foot smooth bore suction hose 3/4 inches internal diameter, with couplings attached, suction hose strainer, two hose gates attached to pump, two lantern brackets, two N. P. fire department lanterns with water shields, all

necessary oil cups and fittings, suction hose brackets, brass hub caps on wheels, rope reel, drag rope, one hand pole, gasoline reservoir with gasoline gauge attached, three S. H. brass hose pipes, 7 brass screw nozzles, assorted sizes; six hose keys, wrenches and all necessary tools, tool box for carrying supplies, one water pressure gauge, one hand torch, one "Neeley" patent hose leak stop, one 2 1/2 inch "Y" connection, foot board in rear of engine, five gallons engine gasoline, one gallon cylinder oil.

The finish of the engine to be in vermilion and colors in fancy striping. The engine will be lettered "Kewaskum Fire Department."

The firm also guarantees the engine as follows:

Through 1000 feet of 2 1/2 inch fire hose, using a 7-8 inch on 1 inch nozzle, a stream of water can be thrown in still air, a horizontal distance of from 125 feet to 150 ft.

Through two lines of 2 1/2 inch fire hose 500 feet of hose in each length and using two 3/4 inch nozzles, two streams can be thrown in still air, horizontal distance of from 125 to 140 feet.

Through three lines of 2 1/2 inch fire hose (1000 feet divided into three lines) and using three 3/4 inch nozzles, three streams of water can be thrown a horizontal distance of from 110 to 130 feet, or four streams a horizontal distance of 100 to 125 feet.

The above streams will be delivered under a pressure equal to that furnished by a Stand Pipe or Tower 250 feet high. They also guarantee that if the engine is properly cared for, it can be started and pump water in from one to two minutes time.

Mr. Holmes, representative of the Waterous Company, stated at the meeting that he understood the condition of the fire protection of the village, and therefore would make this order a rush order. It will take about three weeks time before the engine will arrive at this station, when it will be thoroughly tested. An expert from the factory will accompany the engine to instruct the local fire department as to how to run the engine.

The costumes of all the masked people were very good. Over 50 people enjoyed themselves by masquerading. The on lookers were many. The judges, who were Joseph Schmidt, Geo. P. Brandt and Jacob Schlosser, had a hard time as to who should be the prize winners. Their decisions however met with the approval of all. Mr. Schmidt, Mayor Brandt, Jacob Schlosser and Miss Lilly Schlosser, who were as follows:

Cattlemen Warned Against Tuberculosis

"Tuberculosis can get into your herd of cattle in practically only two ways: the micro-organisms are introduced either by bringing a diseased animal into the herd, or by using factory by-products as skin milk, which contain the tubercle organisms," said Dean H. L. Russell of the College of Agriculture of the University of Wisconsin at five or six hundred farmers assembled at the post mortem demonstration held at the fair grounds. "It cannot originate in bad conditions, though such conditions may make favorable soil for the development of the disease when it is introduced from some previous cause.

"Both ways of infecting your stock are easily and surely preventable. When you buy an animal, insist on getting an official certificate showing that it has been tuberculin-tested with no reaction. If you use factory by-products insist that they be heated to 160 degrees F. for one minute or 140 degrees for ten or fifteen minutes, which will kill all tubercle organisms. Then, having made sure that your herd is healthy to start with, you may be certain that the disease will not trouble you.

"Thirteen herds of cattle were infected with tuberculosis from one auction sale in Sau

BABIES THRIVE ON BONANO

so also do children and grown-ups.
A Chicago man sends us a picture of his baby, a picture of robust and happy good health, and writes as follows:

"The enclosed picture is that of—, six months old, weight twenty-three pounds, stripped (as the athletes say). It may interest you to know that the baby is being brought up in a strictly BONANO atmosphere, and while he does not make an exclusive diet of this drink, still, next to the combination—drink and food, that nature intended for all young folks of his tender months, BONANO ranks a close second.

The baby took to BONANO from the first, as readily as a duckling takes to water, which all goes to show that BONANO is the only natural table drink for children as well as grown-ups on the market today.

When parents in general discover this fact and administer BONANO in place of soothing syrups, the human race will be much healthier in consequence."

A return to the happy good health of childhood is via the BONANO route.

The reason is plain and simple: BONANO, instead of hindering as do tea, coffee, chocolate and cocoa, aids nature in returning to a normal condition—and when your health is normal you have no ailments.

Any table drink that agrees with the baby and makes it healthy and happy is sure to agree with you. BONANO is a near-to-nature health drink, good for old and young, sick or well, and at any and all times.

BONANO is economical—a 75-cup can costs 25 cents.

BONANO is easy and quick to make—boil one minute.

Order a can of BONANO from your grocer today or send 2-cent stamp for 10-cup sample.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be constitutional disease and therefore a constitutional treatment.

Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & Co., Toledo, Ohio.

Sold by all Druggists. 75c. Take Hall's Family Pills for constipation.

Stimulant or Tonic?

Ayer's Sarsaparilla is not a stimulant. It does not make you feel better one day, then as bad as ever the next. There is not a drop of alcohol in it. Ayer's Sarsaparilla is a tonic. You have the steady, even gain that comes from such a medicine. Ask your doctor all about this. Trust him fully, and always do as he says. He knows.

Who makes the best liver pills? The J. C. Ayer Company, of Lowell, Mass. They have been making Ayer's Pills for over sixty years. If you have the slightest doubt about using these pills, ask your doctor. Ask him first, that's best. Made by the J. C. AYER CO., Lowell, Mass.

That dull pain or ache in the back warns you the kidneys need attention if you would escape those dangerous maladies, Dropsy, Diabetes or Bright's disease. Many Wonderful Cures.

This Doctor is well known as a leading specialist of Stomach, Blood, Nerves and Skin Diseases, and is an Expert in the treatment of all chronic diseases, and so great and wonderful are many of his cures, that in some cases it is hard indeed to find the dividing line between human skill and miracle, but this success is simply the result of his exact scientific knowledge, coupled with precise and accurate methods, and an earnest and honest desire to help and cure his patients. All patients afflicted with Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, kidneys or bladder. Rheumatism, Epilepsy, leg ulcers, bedwetting, chronic catarrh and Bronchitis, shortness of breath and weak lungs, and all those suffering from any painful, weakening Nervous Disease that has baffled the skill of other physicians, should be sure to call.

Operations Not Necessary.

It is now acknowledged by many of the best physicians that most of the modern operations for appendicitis, gallstones, tumors, gaffers, and even cancer are not necessary, and would have got well by scientific Medical treatment, without any operation at all. The Heilkraft Doctor, does not operate. He does not need to. He was one of the first to earn the name of "the Bloodless Surgeon," by doing away with the knife, with blood and with pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder trouble, bring a bottle of your urine for chemical analysis and microscopic examination.

Deafness often cured in sixty days. Blind, or painful, or bleeding Piles scientifically treated and cured by a new special injection method.

No matter what your ailment may be, no matter what others may tell you, no matter what experience you may have had with other Doctors, Hospitals or Patent Medicines, if you want to get well again, it will be to your advantage to see the Heilkraft Doctor.
