CORRECTION IS MADE

Hon. M. E. Burke Did Not Seek To Reduce the Tariff Duty on Swine.

Washington, D. C. April 18 1913.
 Mr. Geo. H. Schmidt,
 Kewaskum,
 Wis.

My Dear Editor:-
 I wish to call your attention to an Associated Press despatch which represents me as having offered an amendment to the new Tariff Bill, now under consideration by the Democratic Caucus, to place swine on the free list. This is not correct, and does me a great injustice and misleads all readers of the same.

In the Tariff bill now under consideration, swine are placed on the free list. Therefore it would be useless for me to offer an amendment to that effect. I did offer an amendment to take swine off of the free list, and to place them on the dutiable list at 75 cents per head, one-half of the present tariff. As cattle are on the dutiable list at 10 per cent ad valorem, a reduction of about 50 per cent. I thought it consistent and no more than right that a tariff should be placed upon swine at about the same rate.

I hope in the interest of justice and truth that you will publish this correction, and that your exchanges will do likewise.

Thanking you in advance, and with kindest personal regards, I remain,

Yours very truly,
 M. E. BURKE.

ARRESTED FOR SPEARING

Louis Hendricks and Joseph Rodler of Campbellsport Taken Into Custody on Charge of Violating Fish and Game Laws

When Louis Hendricks and Joseph Rodler of Campbellsport were arrested in Justice D. E. Blewett's court at Fond du Lac Monday morning to answer charges of violating the state fish and game laws, they surprised the court and game warden by pleading that they had already been arrested for the alleged offense, had pleaded guilty, and paid fines of \$25 each before Justice Herman Jaas of Campbellsport.

Hendricks and Rodler were charged with having speared pike in Long Lake, and were caught with fifteen pike in their possession. Warrants were sworn out before Justice Blewett at Game Warden A. R. Brunet, and the defendants were brought to said court on Monday morning.

According to the information given to the court by the defendants, Wayland Helmer, of Campbellsport, who was arrested before Justice Blewett at Fond du Lac last Saturday night on a charge of violating the gamelaws and pleaded guilty, upon his return to Campbellsport swore out complaints against the two men, charging them with spearing pike in Long Lake on April 16th. The two men, according to their story, pleaded guilty at the Justice court at Campbellsport and paid their fines. The case of these two men at Fond du Lac was opened up last Wednesday morning.

At the time of Helmer's hearing last Saturday after pleading guilty, he was sentenced to thirty days in the county jail. Sentence was suspended however.

Studebaker
 "Such shipments mean Studebaker has the confidence of the farmer"

Every year over one hundred thousand horse-driven vehicles are sold by Studebaker. Over a million Studebaker vehicles are always in use. Stop and think what that means.

This enormous output means that Farmers—the men who know—depend upon Studebaker wagons to do their work.

And a Studebaker wagon never fails. It is always ready to do a big day's work—and to keep on doing it. There are thousands of Studebaker wagons that have been in service from 20 to 40 years.

A Studebaker wagon is a real business asset. Wheels, body, frame, axles and running gear have been tested and retested by experts. You can buy cheaper wagons but they're not Studebakers, nor will they last like Studebaker wagons.

Whether in city, town or country, for business or pleasure, there is a Studebaker vehicle to meet your requirements. Farm wagons, trucks, contractors' wagons, buggies, surreys, runabouts, pony carriages, business and delivery wagons—each the best of its kind. Studebaker harness also, of every description.

STATE MUST YIELD TO FEDERAL LAWS

ATTORNEY GENERAL CONSTRUES SUPREME COURT RULING ON CORN SYRUP CASE.

CONGRESS' ACTS SOVEREIGN

Holds, However, State May Enact Further Restrictions Affecting Intra-State Business — Amendments for Present Law Asked by Dealers.

Madison — Attorney General W. C. Owen upon the request of Dairy and Food Commissioner Q. Vital, hands down a decision of vital importance to every dealer in food and drug commodities in Wisconsin. The opinion is based upon the recent decision of the United States supreme court in what is known as the Corn Syrup case, arising out of a prosecution instituted by Commissioner Emery against certain Wisconsin dealers who were charged with handling a misbranded commodity under the Wisconsin law. The majority decision of the Wisconsin supreme court was reversed, and Commissioner Emery's contention was overruled.

The effect of this has been far reaching and most important to the Wisconsin dealers in food and drugs or any commodity requiring a label. As a result, commodities of interstate commerce can be shipped into Wisconsin and sold here under branding and label laws conforming to the federal statutes, while an additional discrimination in the way of brands and labels can be imposed upon the Wisconsin producer upon commodities of intra state traffic.

Attorney General Owen holds in his opinion that the present Wisconsin law regarding the labeling of syrups is in conflict with the federal statutes, and says that the state must yield to the superior power given congress by the constitution. The opinion of the attorney general further holds "that the state may require such additional label, not in conflict with the requirements of the federal law, as may be reasonably required for the protection of the consumer against fraud or adulteration, or substances that may be injurious, and that the state may even go farther and prohibit entirely the sale of goods deemed by it to be injurious except the first sale within the state in the original package, meaning by that term the shipping unit rather than the package intended for the consumer.

In order to meet the condition confronting the Wisconsin dealers, Assemblyman Fleming of Kenosha Monday night introduced a bill seeking to pave the way for an adjustment of the difficulties and conflicts between the federal and state laws. It is likely that Commissioner Emery will also introduce a bill seeking to bring this result about.

ANTI-DISCRIMINATION WINS

Hull Bill Receives Final Action and Goes to Governor—Spring Primary Measure Killed.

Madison — Final legislative action has been given the Hull anti-discrimination bill and the measure now goes to the governor for his signature. The assembly accepted the senate amendment to the bill which provides that all prosecutions under the bill be under the direction of the attorney general. The bill is a strong measure and provides that no person or corporation shall buy or sell commodities more cheaply at one point in the state than it does at another. It is believed the governor will sign the bill.

The assembly indefinitely postponed the Rosa bill changing the primary election from September until the spring elections in April and also expressed their opposition to pensioning judges of the Supreme and Circuit courts.

Assemblyman Douglas Anderson of Oneida county presented a bill of great interest in that it practically creates a board which shall in the future be empowered to make the selections of administrative appointive officers in Wisconsin.

Start Railroad Construction.

Fau Claire — Work of laying the steel rails for the new railroad line that will extend from Fairchild, this county, to the Chicago, Milwaukee and St. Paul road near Caryville, has been started.

General Store Is Burned.

Necedah — The store of William Feisch at Strong's Prairie was burned to the ground. The fire started in a defective chimney. The loss is estimated at \$4,000.

Money Blows About on Streets.

Missing Man Is Safe.

Cranks Geared Up Car.

Racine — E. J. Birkett, master mechanic of the Case company, attempted to crank his automobile while the machine was in gear. He fractured four ribs, wrenched his spine and sustained internal injuries.

Train Amputated Leg.

Sparta — Omar Lundrigo, aged 13, was playing about the railroad track when he fell between moving cars. His right leg was crushed so that amputation was necessary.

MANY MEASURES REMAINING

Appropriation Bills May Delay the Close of Legislative Session Beyond June 1.

Madison — On the assumption that the session is to close within the next month, it will be necessary to dispose of some of the more important measures, during the next few weeks. Speaker Hull is steadfast in his belief that adjournment should be reached before June 1. The senate leaders, however, are not sure of this.

Senator Scott, chairman of the finance committee, acknowledges that many of the largest appropriation bills are still to be acted upon. If the Governor marketing commission proposition is to receive more than casual attention, with any idea of passing the law, this subject will demand considerable time.

The big insurance bills, frequently debated before the committee, are still to come up for consideration in open debate. Little or no real progress has been made in the so-called "blue sky" legislation. The last, but not least, is the water power bills, a subject over which there is always a maximum of time consumed.

Favors Per Diem Plan.
State Treasurer Henry Johnson, himself a former assemblyman, is an advocate of the "no work no pay" policy as applied to the state legislature. He believes that were legislators paid a per diem instead of a flat sum—\$500 at present—the closing days of a session would be marked by a full attendance. "The movement for short sessions, say 120 days, might perhaps eliminate some of the criticism that has arisen in the state on account of the long sessions held in recent years," he said. "An amendment should be added to the constitution allowing pay to the members only when attending the sessions. This would probably inspire a better attendance during the latter part of the sessions when, as a general rule, appropriations and many other important bills are passed, or rejected sometimes because there is not a better attendance."

Philadelphia Mayor Coming.
A dispatch from Philadelphia says: Mayor Rudolph Blankenburg, the reform executive of Philadelphia, and the members of his cabinet have decided to go back to school and take a course in political economy, in order to be more competent to run the affairs of the city. The mayor and at least two members of his cabinet have arranged to go next month to Madison, Wis., to attend a three days' course of lectures at the University of Wisconsin. The entire membership of the City club, an uplift civic organization, probably will accompany the officials. The expedition is scheduled to leave Philadelphia on May 26, arriving at the University of Wisconsin on May 21.

Racine. — That automobile traffic has taken the place of team and wagon is plainly evidenced in Racine by the announcement of the officers of the Fish Bros. Johnson, former senator from this district, is the principal stockholder in the wagon company which was organized in 1862 and for nearly half a century was one of the largest wagon manufacturing companies in the United States and employed hundreds of men. For the past five years the company has operated the plant to but half capacity.

Reason for the Change in the Present Color of Mourning

Something more than a mere desire for change has brought about the use of white for those in mourning. It is the expression of a changing attitude of the mind toward this matter of mourning apparel. White is not somber or oppressive to others and therefore will make the most unobtrusive mourning. For the past three seasons black hats of crape or other fabrics trimmed with crape have been duplicated in white and it is probable that the idea has been well received because the most authoritative shops continue to show white mourning.

For the summer season veils are made of net bordered with crape. Those for first mourning are large but cool and light, nevertheless. In the very large, coarse mesh with wide crape border, either in black or white, can be worn without any inconvenience. It is probable that white crape and other mourning fabrics in white will make rapid progress in popular favor now that they are well introduced. White crape is a very beautiful fabric and the process of water proofing to which English crape is subjected has made it practical.

A turban and veil are pictured here developed in white. The turban is of crepe Georgette with veil of net bordered with white English crape. There is no trimming on the turban but the crape border on the veil pinned to the front of the turban and turned back provides a beautiful decoration.

Almost a duplicate of this model is shown in black. These serve to demonstrate that it is now simply a matter of choice between black and white mourning. The introduction of crape in the body of the hat or in the veil or trimming is significant of mourning and makes these models appropriate for first or deep mourning. Crape is the only fabric everywhere acknowledged as correct for this purpose.

VISITING DRESS

For the woman who loves a cup of tea in the afternoon and who also likes a small cookie or cheese cracker or some such tid-bit to nibble while sipping her tea, there is a new suggestion in the way of serving the wafers and cakes.

Often even a sandwich plate will be too small to hold as many crackers as are needed when three or four friends drop in for a cup of tea and gossip, and for this a flower basket, the style that is flat with a tall handle, generally used for the garden when picking flowers, is just the thing, for it holds a most surprising number of cakes, and in this way one can easily pass a large number of tid-bits at one time without the least inconvenience, and for crackers, decorated with jelly and cheese and such edibles as cannot be laid on top of each other, this flat basket is unsurpassed.

Pink Crepe Skirts.
Neckties and petticoats matching are everywhere to be had in pink crepe de chine; one perfectly plain one unlined, with very scant elbow sleeves, is finished with the border of white edging down; it is priced at \$7.95, and could be made more successfully for about half the amount at home. Another model is of pink charmeuse, draped with white chiffon and trimmed with a reverse effect in shadow lace, which is caught in with a rosette of the chiffon at one side of the skirt, but this gown is spoiled by a flowered white satin girdle. For those who care to dress a little out of the ordinary run of apparel there is a bouidour gown of greenish yellow nearly of mustard tone. Its material is crepe de chine, and, of course, stock and petticoat is to be had matching. Almost all the bouidour slips are of clear white lace. A woman may make herself very charming in the present styles in her bouidour.

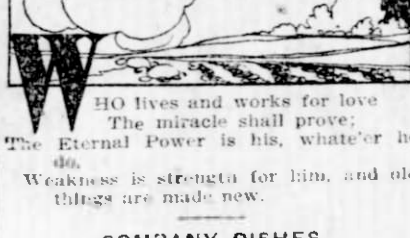

Frills and Furbelows.
In Pierrot frills there is a charming novelty, the frill being of very fine white killed net veiled by a still finer transparency of black net. Unless you see this you will hardly realize how sweet it is and how lightly the black rests mistily on its under killing.

Debutantes, of course, have always worn tulle, and equally of course they do so still, tulle with pretty groups of roses and flowing girdles of brette ribbon. At the same time older women are making net the favorite material for blouses, and the choice is not altogether unwise, for a well made net often wears better than chiffon, and white net is not difficult to wash and do up.

Perfused Corset Bags a Novelty.
Many women prefer to keep their corsets over night in long and narrow bags thickly wadded and scented. These receptacles are made of all manner of dainty fabrics, but are most substantial in plain satin or heavy corded silk, hand-painted or hand-embroidered and decorated with old French prints framed with tassel tuco.

Tulle and Brocades Combined.
Brocades are used for sumptuous evening robes, when a large, rich pattern will compose part of the effect, and perhaps mousseline or fine tulle the other.

THE KITCHEN CABINET

Who lives and works for love? The miracle shall prove: The Eternal Power is his, whatever he be. Weakness is strength for him, and old things are made new.

COMPANY DISHES.

When entertaining at luncheon and a small cake is desired, try these: Bake cup or sponge cakes in gem pans, frost with boiled frosting, and when cold cut a small circle from the top and scoop out part of the inside crumb. Fill with a rich preserve, place on a doily-covered plate and serve with a bowl of sweetened whipped cream.

Lemon Snow Pudding.—Put two tablespoonsful of gelatine into a bowl, add a cup of water and when the gelatine is softened add two cups of boiling water, a half cup of sugar, the strained juice of two lemons which has been boiled with the water and sugar for five minutes. The thin yellow liquid may be added, too, and strained out. When the mixture begins to set add six whites of eggs folded in carefully after they are stiffly beaten. Put into a wet mold and allow to set until firm. Serve with a custard or with whipped cream and fruit of any kind desired for a garnish.

Cheese Fingers.—Beat the whites of two eggs to stiff froth and fold in lightly a cup of grated cheese. Season to taste with paprika and salt. Spread in long, narrow crackers, then brown in the oven. These may be either served hot or cold, and are nice with a salad course.

Cucumber Salad.—Take five tablespoonsful of sour cream, add two tablespoonsful of vinegar, a dash of red pepper and salt to taste, and a tablespoonful of finely-chopped chives. Blend carefully, and use as a dressing on thinly-sliced cucumbers.

Hot fried sardines served on a bed of water dress makes a nice way of serving these little fish.

Celery and nuts chopped fine and mixed with a salad dressing makes delicious filling for sandwiches.

A teaspoonful of sugar added to each quart of flour when making baking powder biscuits will improve them.

FOOD EN CASSEROLE.

Of course, all cooking in casserole is done in the oven. If one uses gas, it may seem an expensive method of cooking, but when one realizes how much can be done with the oven, the work may be planned to save every bit of heat. There are on the market small ovens which can be used on the little simmer burner at a very slight expense. The oven will save its price in a few weeks' gas bill.

There are small stone dishes which may be used to serve hot bits of any vegetable or meat and make most appetizing dishes. For example, if one has a tablespoonful or two of sweetbreads, mushrooms or fish of any kind, they may be put into a small ramekin, white sauce added, and covered with crumbs and browned when needed.

For a family of five, one may have something different in each dish, and each member of the family may be invited as to choice, provided they don't all want the same thing.

Tongue which has been carried, if cooked for several hours, with seasonings, a teaspoonful of Worcestershire sauce, a few drops of tabasco, half a cup of seeded raisins and a pint of beef stock, will be delicious and tender. The tongue may be removed to a platter and the sauce poured around it.

Veal, though one of our expensive meats just now, may be used to add variety to the table, buying one slice from the leg, brown it well and place on a layer of carrots, turnip, onion and potato. Sprinkle with celery and pour over all the browned gravy, slightly thickened with flour. Bake slowly until tender.

A most delicious casserole dessert is baked bananas, which have a sauce of lemon butter and sugar poured over them. Serve with a half glass of currant jelly added ten minutes before serving.

Two Kinds of Pleasure.
The girls are getting up another party.
"Well, inviting people to one's house is a delightful pleasure."
"True, but the keenest enjoyment seems to come through leaving people out."
Rich Man and Poor Man.
"I should think you'd be ashamed to sponge on Gotrox daily at lunch. The meals are always at his expense."
"Oh, it's a mutual arrangement. The jokes are at mine."

Reactionaries.
Knicker—Our young couples want to begin where their parents left off. And they will probably end where the old folks began.
Apparatus invented in England for preserving fish in carbonic acid gas under pressure is said to keep them perfectly fresh for at least six months.
To prevent a cow switching her tail in the face of a person milking her a Maine man has patented a chain and hook to hold her tail against one leg.

Does Backache Worry You?

Many who suffer with backache and weak kidneys are unnaturally irritable and fretful. Bad kidneys fail to eliminate all the uric acid from the system, keeping you "on edge" and causing rheumatic, neuralgia pains.

When your back aches, and you notice signs of bladder irregularities, suspect your kidneys and begin using Doan's Kidney Pills, the best recommended special kidney remedy.

An Indian Case.
Mrs. Mary A. Elder, 100 Franklin Street, Indianapolis, Ind., says: "I believe Doan's Kidney Pills saved my life. I was in a very bad way and was confined to bed for several weeks. I had a very bad case of kidney trouble and was unable to get on my feet. I used Doan's Kidney Pills and in a short time they cured me. I have not had a symptom of kidney trouble since."

All He Wanted.
A Boston man tells of a certain irrepressible bore who always made use of a formula when anyone sought to put him off and thus spare the objects of his attention the annoyance of an interview with him. This formula was: "But I assure you I want but one word with him—only one word!"

On one occasion he sought out a noted lawyer. The latter's clerk met him very solemnly with: "Why, haven't you heard? Mr. Blank died last night!"

The words were scarcely out of the clerk's mouth when the applicant was saying, contentiously: "But I assure you I want but one word with him—only one word!"

HANDS ITCHED AND BURNED

Abbotsford, Wis.—"My son had eczema on his hands for about one year. The eczema started with a rash. His hands were sore so he could not close them, and when he wet his hands they hurt him so he could hardly wash. His hands itched and burned just terrible and if he would scratch them, they would break out into sores. He could not get any rest or sleep, and his hands looked quite bad."

"We had medicine and salve and it kept getting worse all the time. I got some Cuticura Soap and Ointment, and after washing his hands with the Cuticura Soap and putting some of the Cuticura Ointment on two times a day and tying cloths on them for about six months they got well and have not broken out since. Cuticura Soap and Ointment cured him entirely." (Signed) Mrs. Lawrence Kiehl, Feb. 13, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

Get Paid for Bathing.
To promote health and comfort among their 700 employes, Harrison Bros. & Co. of this city have offered to give every man employed at their plant 15 cents each time he takes a bath.

There are no strings to the offer. All that is necessary is that the bath be taken in the elaborately fitted bathrooms of the concern. As soon as a workman finishes bathing he will receive a check from an attendant, and on pay day he may have the checks cashed at the rate of 15 cents apiece.

The idea was suggested by Dr. Francis D. Patterson, former chief police surgeon of this city, whom the company has secured to look after the welfare of the men. Dr. Patterson is an old University of Pennsylvania football player and oarsman—Philadelphia Dispatch to New York Tribune.

Who's Doing the Talking?
"A business man should never take his stenographer out to lunch."
"Why not?"
"Oh, it causes talk."
"Of course it causes talk, but if the business man will abstain from cocktails, he won't talk to her half as much as he might."

His Business.
"There is one man who can be safe always in taking his customers at their face value."
"Who might he be?"
"The beauty doctor."

For many years piano manufacturers and dealers have tried to reduce the selling expense of pianos. The old way of paying solicitors, paying music teacher's commissions and engaging great artists to play their pianos at fabulous sums are being eliminated, and now it is the question of the best advertising piano, and one in which the purchasers are given the greatest possible value. This is the age of co-operation and the manufacturers correctly believe that the best way to market and introduce their product is to spend the advertising money in making special offers to the people rather than employing world famous demonstrators at fabulous expenses and making the people pay for such methods by asking a heavily inflated price for the piano.

Pains in the Stomach.
If you continually complain of pains in the stomach, your liver or your kidneys are out of order. Neglect may lead to dropsy, kidney disease, thousands recommend E-lectric Bitters as the very best stomach and kidney medicine made. H.T. Alston, of Raleigh, N. COMING TO WEST BEND

AT HOTEL WASHINGTON

NEXT SATURDAY, MAY 3rd

Are Healed By Laying On Of Hands.

Rev. D. R. Schiller, D. N., Noted Divine Healer Apparently Works Miracles Before Multitudes. His Work A Labor of Love.

TREATMENT FREE

(From Freeport Daily Standard).
 "One of the most remarkable features about the visits in the city of Rev. D. R. Schiller, D. N., the noted healer, is the extraordinary amount of attention he has attracted here, and the enormous crowds that have been flocking to him, from various parts of America (and others have written from Europe) to see him, also visiting here. This week after week, and for many months, in fact, the crowds have been so large that the hotel could not hold all—they could not even get into the door. All with ailments of one sort or another. None were turned away—rich or poor."
 "If ever a true heart beat in the breast of any man, it certainly beats in the breast of Healer Schiller, whose work is a labor of love for the unfortunate sick and suffering."

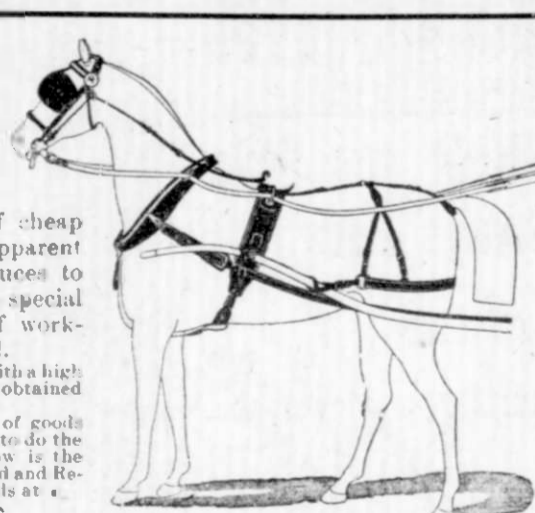

REV. D. R. SCHILLER, D. N.
 The noted healer, upon whom was bestowed the gift of healing, while plowing in the field, as a boy.

JUMPS OUT OF BED—SHOOTING AND FRASING THE LORDS—Was A Bed-Ridden Rheumatic Sufferer—Now Healed In Good Health.
 Mrs. Wm. Miller, R. F. D. 2, Shannon, Ill., like hundreds of others, testifies to the wonderful results achieved through God's grace and the efforts of Healer Schiller. No one but God, really, knows the untold agony Mrs. Miller suffered with rheumatism. For months at a time she had to be turned in a sheet. All that "skilled" doctors, kind friends, and a devoted husband could do, was done, in a vain attempt to find relief. She finally wished for death to relieve her suffering. But, like an angel from heaven, a kind neighbor lady, who herself had been saved from a life of suffering through the ministrations of Healer Schiller, imparted the good news to Mrs. Miller. The latter lost no time in getting in touch with the celebrated healer. And, without even a personal visit, Mrs. Miller was healed almost like magic—she jumped out of bed, shouting and praising the Lord Jesus Christ, her pains left her; she resumed her household duties on the farm, and of course the whole family is happy again. Who can blame them?
Was Deaf—Now Hears Birds Sing, And Hearsers Cry.
 Divine-healing is demonstrated as never before. It recognizes no distinction in disease, heals and cures, restores the sick and afflicted, as in the days of old, and by the same interposition of the Lord's infinite power. This was again demonstrated in the case of Mrs. Jesse Putney, Rockford, Ill., who was, as the old saying goes, "deaf as a post." Her head aches and ringing in ears, almost all her life, and her hearing in life was destroyed through her sad affliction. Material means failed to lead her to the road she had long sought, and mourned because she found it not—the road to God's greatest of all blessings—abounding health and strength. Mrs. Putney was healed a year ago, and she still hears perfectly. She has sounded the grand praises of this glorious God-given treatment, far and wide. She steers well, nervousness has ceased; eats hearty; has ambition to work again; feels strong and healthy—enjoys life as her Creator intended.

Carried Before Healer Schiller—A Helpless Paralytic—Walks Home.
 Mrs. A. Finch, on a stretcher, was carried to Healer Schiller. She was more helpless than a new-born child—could neither walk, stand up, sit, talk, or even whisper. For fourteen long months, she had to be fed with spoon. Six of the best physicians in the state, one after another said, "Her case is beyond all human aid." Now, after meeting Healer Schiller, this lady has done all her household work wherever she pleases, within the past two years.
Was Almost Totally Blind—Now Sees Perfectly.
 Mr. Hollie Johnson, Elgin, Ill., was led to Healer Schiller by his wife. He had been almost totally blind for four years, and during that time, hundreds of dollars were spent with eye specialists in four states. However, his case grew worse almost daily. God led him

DID YOU EVER STOP TO "THINK"

About the "Twin Tables"

Up to this time, Pedestal Tables have been made with a single pedestal, but their shortcomings are so many that one manufacturer has succeeded in overcoming them by using two pedestals—each oval or oblong and complete in itself. They are called
"Twin" Pedestal Extension Tables
 They are superior to others because:
 No troublesome lock necessary. Gaping or standing open at bottom impossible. As perfect extended as when closed.
 In extending a "Twin" to 6 ft. the top opens without spreading pedestals. Prevents marring of finish on legs. If extended farther than this the pedestals spread, giving the most rigid support possible without exposing unfinished surfaces, locks, bolts, etc., as is the case with the single pedestal tables, a feature worthy of your attention, especially when entertaining friends at luncheon or if table is continually used, in the extended position.
 "Twin" are made in numerous designs and finishes.
