DEATHS OF THE WEEK

The Grim Reaper Calls Away Three Old People, Two Women and One Man, the Latter a Veteran of the Civil War.

MRS. JOSEPH THUESCH.
The death of Mrs. Joseph Thuesch of St. Michaels, which occurred at her home last Wednesday, May 7th, after an illness of eight weeks with heart and kidney trouble, brought a sense of personal loss to a great many of our people, by whom she was held in the highest regard. Mrs. Thuesch was a woman who devoted to her home and made it a delight to her husband, children and friends. She was a woman who did not seek new friends, but nevertheless, they were few and she went. The loss is a great one, not only to her husband and children, but to the entire community of St. Michaels. She also was a very devoted Christian.
Deceased was born on March 1st, 1843 in Pror, Germany. When a young girl of eleven years she immigrated to this country with her parents, settling in the town of West Bend. On April 11th, 1863, she was married to Joseph Thuesch. They came to their present home fifty years ago, soon after their marriage. Their union was blessed with eight sons and three daughters, who together with the grief-stricken husband still survive. The names of the children are: Anton, Mary, Mrs. J. C. Hausmann, Susan, Mrs. Wm. Schieffer, Christ and Christiana, Mrs. Max Koepel, all of Milwaukee; Philip of Madison, Minn.; Jacob and Nicholas on the home-stead. Mr. and Mrs. Thuesch were residents of the town of Scott for forty years.
The funeral was held to-day, Saturday, at 10 A. M. from the St. Michael's catholic church at St. Michaels, with interment in the congregation's cemetery. Rev. Beyer officiating.
The entire community we know joins with the STATESMAN in extending to the surviving family our sympathy in their great affliction and joining with them in mourning the loss which we all sustain.

MET WITH BAD ACCIDENT

Arthur Reuber, Employed at the Auto Factory Lost His Right Eye.

Arthur Reuber, employed as an engine builder at the auto factory met with a bad accident Saturday afternoon, which has cost him the loss of his right eye. While driving a wrist pin into a cylinder a chip of steel flew off, striking him in the eye, and passing through the lid embedded itself a sixteenth of an inch in the eyeball. He was taken to Milwaukee on the Central that day for treatment by a specialist, and it was found that removal of the steel would destroy the eye and in order to save the sight of the other eye it would be necessary to remove the eye that was injured. The young man was accompanied by Dr. Rockwell and it was decided to perform the operation at once.—Hartford Press.

GAME WARDEN IS BUSY FOR TOWNS AND VILLAGES

Fishermen at Long Lake Are Arrested for Illegal Fishing.—All Are Fined \$25.00 and Costs.

Game warden Brunett of Fond du Lac last week arrested five fishermen at Long Lake, charged with illegal fishing. Those arrested were Max Bahling, William Marquardt, Peter Anhalt of Plymouth, and Henry Wittenberg Jr. and Wilbert Wittenberg of Dundee. The first three had their hearing at Fond du Lac in Justice Blewett's court. Messrs. Bahling and Marquardt are pleading guilty and were fined \$25 and cost amounting to \$33.85. Mr. Anhalt pleaded not guilty. He was charged with having used a trammel net for catching fish. Sentence was suspended, but he paid the costs of the action. The latter two, Wittenberg brothers, aged 18 and 16 years were arraigned before Justice Herman Paas of Campbellsport on Monday on a complaint sworn out by Marlon Gilboy on a charge of illegal fishing. Both of the boys pleaded guilty and were fined \$25 and cost.
Let the above be lessons for all those who do illegal fishing. Perhaps all you fishermen, who violate the law, enjoy the sport, but in case you are arrested you will feel sorry, as the sport will certainly be very expensive. The court has no sympathy with all those violators.

Election Bill Provides for Nominations By Petition—Designed to Circumvent Caucus and Ring Tickets

Madison, Wis., May 2.—One of the most important election bills before the legislature and one that has received little attention was reported for passage to-day by the senate committee on education and public welfare. The bill provides for a modified form of the Australian ballot at town meetings and village elections and was introduced by Senator Bickler and has for its purpose the doing away with evils that have been down through generations and as exemplified in many towns where ring rule has prevailed and cliques or interests have held undisputed sway by machination or devious methods. The bill provides:
At any election at which town or village officers are to be elected, candidates for any office shall be nominated by nomination papers signed by electors of such town or village equal in number to 15 per cent of all the votes cast in such town or village for all candidates for governor at the last preceding general election. Such nomination papers shall conform to the provisions of subsections 3, 3 and 5 of section 30 of the statutes. Such nomination papers shall be filed in the office of the town or village clerk at least ten days prior to the holding of such election.
The town or village clerk shall cause to be printed a sufficient number of official ballots. Such ballots shall be printed upon white paper and shall be of sufficient length and width to afford space for the names of all candidates. The offices to be voted for and the names of the candidates shall be arranged in the manner provided in sections 35-5 and 25-6 of the statutes. Sufficient space shall be left under each office to write a name in lieu of any name printed thereon. Such official ballots shall be placed in the hands of the village clerk at least ten days prior to the holding of such election. The names of the persons nominated in the manner provided in this section and none other shall be placed upon the official ballots; provided that in case no nominations are made the spaces in which names of candidates may be printed or written shall be left blank. Ballots not provided for the respective town or village clerk shall not be counted in an election, but any voter may write upon his ballot the name of any person for whom he desires to vote for any office, such place as to indicate the office.
Ballots used at such elections shall be furnished solely at the expense of the respective town or village.
The bill does not abolish that sacred institution, the town caucus, it may be held just the same, but the "caucus ticket" must then be confirmed by petition before it goes on the ballot.

SIRUPS BILL IS ARGUED

Wholesale and Retail Grocers Tell Legislature Corn Product is Wholesome.

Madison. — "Corn sirup" or "glucose mixed with refined sirup" has been sold as corn sirup for thirty years in Wisconsin and is perfectly wholesome as a food product, asserted representatives of wholesale and retail grocers and jobbers of Wisconsin before the assembly committee on public welfare at a hearing on the Pfefzig bill authorizing the sale of this saccharine product as corn sirup. Representative of newspapers of the state also spoke for the bill. State Dairy and Food Commissioner J. Q. Emory spoke against the bill.

At the close of the hearing Commissioner Emory suggested that the bill be amended to provide that corn sirup may be sold in packages with a label bearing the words "Corn Sirup" and the names and percentages of the ingredients of the product. The committee will consider the bills and proposed amendment later.

SUFFRAGE IS LOST

BRITISH HOUSE OF COMMONS REJECTS VOTE BILL BY 266 TO 219.

FAILS OF SECOND READING

Cheers and Hoots Mingled by Pros and Antis as Women Are Denied Ballot—Effort Made to Blow Up Hotel.

London, May 8.—The fate of the women's suffrage bill was sealed by the votes of more than fifty Irish Nationalists, who voted against it. The bill, whereby it was sought to enfranchise 6,000,000 women, was rejected by a vote of 266 to 219.

The huge throng awaiting the result of the vote outside the house received the announcement that the bill had been killed with a mighty roar. From many throats came cries of rejoicing, while the thousands of suffragettes and their sympathizers which had gathered in anticipation of victory, gave vent to their feelings in hoots and cat calls. The floor of the commons presented a scene of intense excitement during the poll on the bill.

By allowing the Dickinson bill to come up for its reading, Premier Asquith kept his promise to the suffragettes, but it is known that he will not permit the measure to be again brought up at this session.

Much satisfaction was expressed throughout London when the defeat of the bill became known. It was claimed on all sides that the campaign of arson, destruction and wire-cutting which the militant suffragettes have carried out for many months had received proper official condemnation.

Scotland Yard detectives are searching for the woman who stole the bomb from the policeman after he had arrested Ida Ward, a suffragette, on the charge of placing a lighted bomb in the main entrance of the Holloway jail without ball, pending her arraignment.

FOUR POLICE ARE GUILTY

Former New York Inspectors Convicted of Conspiracy to Obstruct Justice—Trial Bares Facts.

New York, May 8.—Former Police Inspectors Dennis Sweeney, John J. Murtha, James Hassey and James Thompson were Tuesday found guilty of conspiracy to obstruct justice by a jury before Supreme Justice Seabury. The verdict was returned after the jury had been out 32 minutes.

The verdict of guilty marks a long stride in the graft investigation conducted by District Attorney Whitman. The case of the four former inspectors, now captains under suspension, was felt to be the most important to be brought to trial following the long list of sensational exposures in which men close to the graft ring literally fell over each other to turn informer with the hope of saving themselves.

After the verdict had been returned Justice Seabury ordered the four police officers returned to the Tombs to await sentence.

Sacramento, Cal., May 6.—By a vote of 26 to 2 the senate early Saturday passed the Webb alien land ownership bill and late at night the assembly also adopted it. The bill was signed by Gov. Johnson and is now a law. Only three votes were cast against the measure in the lower house, one Democrat and two Republicans members opposing the bill on the final passage. The roll call was held less than twenty-four hours after the final passage of the act in the senate.

Secretary of State Bryan concluded his mission to the governor and legislature of California with a message of farewell. In summing up, Secretary Bryan rehearsed the objections and suggestions of the president, already made public, and concluded: "You are fortunate in this state in having the initiative and referendum. The initiative spurs you on to do that which you believe your people want done, while the referendum empowers those for whom you speak to put their veto upon your acts if you fail to reflect their wishes. It may be assumed, therefore, that if you feel it your duty to enact any legislation on this subject at this time your people will either manifest their approval by acquiescence or their disapproval by submitting your action to the judgment of the voters by means of the referendum."

"I leave you with renewed assurances of the president's friendly concern in the subject with which you are dealing and my appreciation of the kind reception which you have accorded to me as his spokesman."

GOMPERS TO PRISON

COURT UPHOLDS SENTENCE OF LABOR HEAD, BUT REDUCES TERM.

GIVEN THIRTY DAYS IN JAIL

Union Chief Guilty of Contempt—Mitchell and Morrison Are to Pay \$500 Each, But Escape the Imprisonment Ordered by Lower Bench.

Washington, May 7.—The sentence of twelve months given Samuel Gompers in the Buck Stove & Range company contempt case was reduced Monday by the District of Columbia court of appeals to 30 days in jail. John Mitchell, sentenced to nine months, and Frank Morrison, to six months, had their sentences remitted and fines of \$500 imposed.

The chief justice of the court, dissenting, held that the entire contempt judgment should be reversed. The lower court gave Gompers one year, Mitchell nine months and Morrison six months without option of fine. All were convicted of violating a court injunction in the noted Bucks Stove and Range case.

An appeal from the decision will be taken to the Supreme court of the United States, if attorneys for the labor leaders can find ground on which to ask the highest court to review the judgment.

The contempt was alleged to have been the publication of the name of the Bucks Stove and Range company in a so-called "boycott list" in the American Federation of Labor's magazine after it had been forbidden by the court.

HOW TO WHITEN THE THROAT MUST BE HAND EMBROIDERED

Lemon Juice or a Ripe Tomato Will Remove Any Discolorations—Alcohol to Harden. The Proper Thing for Both White and Colored Linen Parasols—Wide Variety of Designs.

Shapeliness is not all that is necessary to the making of a throat beautiful. The texture of the skin must be fine and soft, white and unblemished. Cleanliness is the first essential. A good thorough scrubbing with a not too soft brush, hot water and soap, once or twice a week, will do no harm, the rest of the time using the ordinary cloth. Apply lemon juice or a ripe tomato to any discolorations that may appear, and unless the pores are enlarged, use cold cream freely.

Alcohol will harden the flesh. As for the various bleaches, there are some that are harmless, except insofar as they invariably are drying, which ultimately leaves the skin harsh and brash. Here is one that can easily be made at home, but like the others, it is drying, so be sure to counteract this effect by applying cold cream after using it. Mix half an ounce of peroxide of hydrogen, six ounces of witch-hazel and half an ounce of lactic acid. Apply this with a soft cloth.

FLOWERS THAT MATCH FROCK

One of the Prettiest Fancies of Many Seasons is the Adornment Thus Effectuated.

What a real pleasure women missed when they were too prim to tuck a bunch of flowers into their frocks, or too fearful lest the stalks should stain their pretty raiment.

Nowadays flowers are the finishing touch of every toilette, and some women give orders to their florists or their gardeners for a bouquet twice or thrice a day to match the gowns they intend to wear.

In the evening it is usual to wear a single and very exquisite blossom, the work of human hands. A giant rose, a mammoth poppy, an orchid—all are popular. Strange fantasies in material are employed; here a lace flower tipped with fur, and there one made of hand painted mouseline, a marvelous copy of nature's own handiwork.

Lace Blouses.

Lace will be a feature of the coming summer, and the heavy lace blouse will be once more indispensable. For some time cluny, Irish point, and Bruges have been neglected, and now they are to be revived; not in pure white, but in a deep ochre tint. I have seen one in a combination of Irish and cluny made in kimono fashion, with the sleeves half way down the arm in black satin. These sleeves do not reach much beyond the elbow, and the introduction of the black satin near the skin gives a new touch to the lace blouse. A slim white throat looks well uncovered, and the new blouses are made without collar bands, as were most of the bodices last winter. But where the throat is marked, it is as well to cover it with transparent net.

Crape Waists.

A college girl who wore cotton crape-waists to save her laundry bills, had difficulty in rendering them wearable at first, as they were too limp if not starched at all, and if starched, wrinkling them made the starch uneven, they made the Modern Priscilla. She experimented until she found that by washing them in this starch and hanging them up to drain on a coat hanger, without wringing, they were exactly right.

Cromwell Collar.

The Cromwell is the name given to a linen collar which is mounted on an upstanding band. The collar falls over the band. It is trimmed on one side with linen-covered buttons, while buttonholes are worked at corresponding places on the other side of the collar.

DAINTY SUMMER DRESS.

A summer dress of white lace embroidered in yellow with underskirt of white charmeuse. Belt of yellow taffeta.

Wardrobe Box.

A space saver is the wardrobe box which fits under the bed. This box is suspended from two metal arms, or bars, which are affixed to the bed. This makes it possible to draw the box in and out without trouble. The box does not touch the floor, so there is no possibility of dust accumulating under it, and the bed, with the box in position, may be moved at will. The boxes, which are provided with hinged covers, come in different sizes and are designed for different purposes.

ENGROSS CHILD LABOR BILL

Measure Provides That No Child Under 16, Unless in Domestic Service or Farm Labor, Can Work More Than 48 Hours a Week.

This bill provides for a legislative commission to investigate the white slave traffic and provides an appropriation of \$10,000. The commission is to report at the next session of the legislature.

The Goff bill, 114A, relating to child labor, was ordered engrossed in the assembly. This bill provides that no child under sixteen years of age, unless in domestic service or farm labor, can work to exceed forty-eight hours in a week. He must have at least half an hour for the noon rest during which all machinery operated by children must stop. The child is to have instruction at a continuation school at least four hours a week.

Among the bills passed by the assembly was the Minkley measure providing that on complaint to the railroad commission by employees of any public utility the commission shall investigate the wages and hours of labor. The Johnson bill, making void policies of unauthorized insurance companies, passed. The A. E. Martin bill, closing grocery stores and butcher shops on Sunday, was ordered to a third reading. An amendment by Assemblyman Carl Hansen providing the law should not apply in towns and villages unless the town and village boards wished, was adopted.

The senate concurred in the Estabrook bill authorizing the city of Milwaukee to appropriate \$5,000 for the celebration of the centenary of Commodore Perry's victory.

The senate passed a bill establishing a state teacher's agency in connection with the state industrial commission.

Senator Husting introduced a joint resolution providing for the election of United States senators by popular vote. The resolution takes the place of the one erroneously adopted by the legislature and returned to the governor by the federal secretary of state. The governor sent a special message to the legislature, calling attention to the mistake and recommending the adoption of a correct resolution without delay. The Husting resolution was referred to the committee on education and public welfare.

On motion of Senator Culbertson the senate reconsidered the vote by which it killed the Browne bill, providing for the encouragement of cooperative buying and selling. The bill was referred to the committee on finance.

The Glenn woman suffrage bill will go to the people for a referendum vote at the fall election in 1914. The bill was concurred in by the assembly Tuesday night by a vote of 47 ayes to 25 nays.

By a vote of 57 to 17, the assembly sent to engrossment the workmen's compensation bill as reported by the committee. Repeated attempts were made to amend and defeat the bill. As engrossed it wipes out the defense of contributory negligence and places all employers of labor under the law, unless they elected to stay out.

The Roessler amendment taking away the defense of contributory negligence was defeated 55 to 23.

Mr. Pfening's amendment sought to increase from 15 to 30 per cent the deduction where employees failed to obey rules adopted for safety. This, too, was defeated.

Mr. Roessler's amendment that farmers be placed under the law, by taking away the limit of farm workmen was rejected, 50 to 27.

Mr. Roessler moved to strike out the schedules of compensation for injuries, believing it should be left to the discretion of the industrial commission. This amendment also was rejected.

Barlingdale of Chippewa opposed the bill, as did Hawn of Pierce and Hood of La Crosse. Minkley made a speech for the bill. "I don't care what you do with this bill," he said, "but this assembly should care. If you vote that you are not willing to make \$40 a minimum wage for the teacher that is to instruct your children this legislature will go down in history as being against progress in education." The bill passed by a vote of 48 to 26.

The brush fires have died down, but a heavy pall of smoke hangs over the district, and drifting out on Lake Superior makes navigation hazardous.

News Notes of Wisconsin.

New Richmond.—Dr. Daniel J. Donohue, formerly of this city and a son of former Mayor Charles Donohue of New Richmond, now at Glendive, Mont., has just been promoted from major to colonel of the Montana National guard, placing him in command of the Second Infantry. Dr. Donohue saw his first military service as a private in the Wisconsin National guard and he participated in the Porto Rico campaign in the Spanish-American war in Company C, Third Wisconsin, from Hudson.

Madison.—Attorney General Owen submitted an opinion to the railroad commission relative to the petition of Janesville business men concerning the right to rebuild the burned structure over the Rock river. The attorney general holds that the statute protects the right to build over a river unless such building causes unlawful obstruction to navigation, and that it is the duty of the railroad commission to report such unlawful obstruction to the governor.

Madison.—The University of Wisconsin took its first dual meet with Ohio State university here by a score of 93 to 33 points. The mile run furnished the most sensational finish of the day. Hedges of Wisconsin creeping up on Ferrer, Ohio, on the home stretch and breaking the tape by half a foot lead.

Marshfield.—Engineer James Dolard of passenger train No. 1 on the Soo line was severely injured when his train, bound from Chicago, crashed into a switch engine.

Medford.—The 13-year-old son of Mr. and Mrs. A. Loudeau was thrown from a horse and instantly killed.

Madison.—Thirty million bushels of potatoes are raised annually in Wisconsin, according to a statement issued recently by the Wisconsin Potato Growers' Association.

Stevens Point.—W. S. Winget of Peoria, Ill., has started breaking up a 1,500-acre tract of land in the recently drained Buena Vista marsh. He brought with him an oil tractor engine, capable of developing 60 horsepower. It has a capacity of plowing and harrowing at one operation from twenty-five to thirty acres a day.

Johnson Creek.—Edward Nelson, 92 years old, of Johnson Creek, was probably fatally injured when a North-western freight train, bound for Fort Atkinson, struck the milk wagon in which he was riding at a grade crossing here.

Plymouth.—The Plymouth Community Development club has been incorporated for the purpose of promoting the manufacturing interests and industries of Plymouth and vicinity.

Madison.—It is proposed to add the sum of \$5 to the entrance fee at the university, the additional amount to be devoted to the support of athletics. Each student would be entitled to see all games without further charge.

Neenah.—The bottom has dropped out of the potato market here. Farmers are selling potatoes on the streets at 40 cents a bushel.

NOTES From MEADOWBROOK FARM

By William Pitt

Ducks are profitable.

Provide poles for beans.

Take good care of the colts.

Plant corn after sugar beets.

The season for grape pruning is past.

Don't sow untested seed of any kind.

Sow peas early, then plant for succession.

Grass will soon show in the color of the butter.

Concrete makes a good foundation and barn wall.

Initiate the butter-fat test and recall the boarder cow.

Many an animal with a pedigree is not a profit producer.

Farming problems demand good judgment and keen thinking.

The silo has come to stay as a permanent form of farm equipment.

Barns and silos save feed enough in a short time to pay for themselves.

The dairy farm that is carefully managed improves from year to year.

A brush to wash dairy utensils is more sanitary than the time-honored rag.

A solid concrete base for the separator will lengthen the life of the machine.

Slilage is the cheapest dairy feed there is and in many respects it is the best.

The man who breeds the best stock is almost invariably the leader in his community.

The mating of ewes and rams takes place from the last of March to the middle of June.

For bloom in sheep give one dram yellowphosphate of soda and three drams of spirits of ammonia.

Chicks must be well fed to grow; the feeding pen saves the feed and protects the little chicks.

When vegetables are grown to sell, the eye must be consulted as well as the palate. "The looks of things" count.

It's fun to watch the thrifty early spring pigs tumbling over one another trying to see which will get to the trough first.

To rid the premises of rats, fill the holes with tin scraps from the tins or with broken glass and plaster over with cement.

There is nothing that adds the appearance of prosperity to the farmstead more readily than good paint on buildings and fences.

There is nothing like spring sunshine for the cows. Their quarters may be ever so comfortable but the sunshine does them good.

Did you forget to trim the trees? Say, go out in the orchard and do a little trimming some day and give the team a little extra rest at noon.

A few hours of work "grounding" the wires of the fence about the pasture may save the best cows in the herd from destruction by lightning.

It is just as necessary to plow or otherwise cultivate the peach orchard when it bears not a peach, as it is when the trees are to be loaded with fruit.

A Colorado fruit grower has patented electric massage for fruit trees. The object is to enable fruit trees to resist frost when they are budding and blossoming.

A mixture of salt, ashes and salt-peter raked into the soil when preparing the onion bed, stimulates the growth of the onions and tends to banish the onion maggot.

Work a little slacked lime into the soil where your cabbages are to be grown to prevent club-root. A garden well fertilized better resists the attacks of pests than one meagerly fed.

Raspberries, when grown without support the canes should be pruned back in summer so as to make them stocky and self-supporting; when fastened to supports they may be left longer.

In starting a new hedge begin it as soon as the ground is workable from receding frost. It pays to dig out the soil and enrich it as for making a garden bed or border. The digging should be to the depth of two feet.

With the open range now supplying the poultry more and more bugs, worms, etc., those poultry keepers who have been feeding beef or meat scraps should carefully cut down the supply considerably in this ration, as it is very easy to overdo such feeding at this season, and an oversupply of it is a check on the egg yield, at the same time being liable to cause serious diseases among the flocks.

Trim the colts' feet.

Spraying is insurance.

Use care in setting plants.

Spray the orchard thoroughly.

The gardener is no better than his tools.

Overworking will make butter look like lard.

Test all vegetable seeds as soon as they are received.

Has the seed corn 50 per cent or better germination?

The best time to apply ground limestone is after plowing.

It always takes pounds of feed to make pounds of butter-fat.

A weed is a plant out of place. Too-thick sowing makes weeds.

Beans are good for sheep, the long vine varieties being preferred.

Better a nose ring for the young bull than an accident afterward.

The digestive powers of the hog are the feeder's foundation of success.

It is bad policy to sell a cow just because she will bring a good price.

The silo is a land-mark that points you to the best farms in the community.

On many farms the garden is the most neglected spot. It ought not so to be.

Don't skimp the garden. A good garden is money out at interest. "Get a plenty."

It's a poor policy to jerk the horse and then speak the command to it afterward.

The dairyman with a bunch of shoats this spring has a good market for his skim milk.

Work in the potato patch may begin as soon as planting is finished. Use the harrow first.

Go over the tools, put them in repair, and order any new ones needed for the summer's work.

If the cows or calves get lousy, try an application of strong brine thickened with strong soap.

Sweep up every particle of silage in the chute and alleyway and give it to the cows at every feeding.

The good dairy cow not only pays for her own feed, but she pays for food for the whole family as well.

Putting some lime in the wash water occasionally will keep the churn from taking on that offensive smell.

New potatoes very early in the summer are just as appetizing and palatable for farm folks as anybody else.

One still finds people who do not think a garden pays. Such people patronize the storekeeper and the druggist.

Studebaker

"Yes Sir! Studebaker wagons are made to back up a reputation."

"I know, because wagons of every make come into my shop for repairs, and I have a chance to see how they are made."

That's the opinion of thousands of blacksmiths who know the quality of Studebaker wagons.

The owners never regretted that they bought Studebakers.

Tested materials, accurate workmanship insure a wagon unequalled for durability, and this careful selection of wood, iron, steel, paint and varnish has been a fixed rule with the Studebaker Company for sixty years. That is why a Studebaker wagon runs easiest and lasts longest. It is built on honor.

Whether you live in town or country, there is a Studebaker vehicle to fill your requirements for business or pleasure — and harness of every description made as carefully as are Studebaker vehicles.

"Twin" Pedestal Extension Tables

They are superior to others because:
 No troublesome lock necessary. Gaping or standing open at bottom impossible. As perfect extended as when closed.
 In extending a "Twin" to 6 ft. the tops open without spreading pedestals. Prevents marring of finish on legs. If extended farther than this the pedestals spread, giving the most rigid support possible without exposing unfinished surfaces, locks, bolts, etc., as in the case with the single pedestal tables, a feature worthy of your attention, especially when entertaining friends at luncheon or if table is continuously used, in the extended position.
 "Twins" are made in numerous designs and finishes.
