H. E. ROETHE SPEAKS TO AUDIENCE HERE

for Governor Spenda Monday Afternoon in the Village

H. E. Roethe, editor of the Fen-nimore Times, and also "Legomo-bile" candidate for the nomination another defeat at the hands of the for Governor on the Republican ticket spent Monday afternoon in this village, coming here from Campbellsport. At 4 P. M., he delivered an address to a fair sized audience on upper Main St., the only reason for having a small audience in attendance was on account of lack of advertising. The

address, was however, enjoyed by all who heard him. Mr. and Mrs. Adam Schmidt and that if a stop was not made, the Sunday with Mr. and Mrs. M. Gantenbein spent Sunday with Mr. and Mrs. M. Gantenbein spent people of the state would be th tenbein.

Mr. and Mrs. Aug. Bohland and daughter Wilma and Miss Manz spent Tuesday evening with Aug. Heberer and family.

Mr. and Mrs. Robt. Struebing. Mr. and Mrs. John Struebing Aughter Mrs. John Mrs. J several laws framed and passed which would be to his own inter-est. He also believes in eliminating several commissions and weed out hundreds of unnecessary of-fice holders. If elected one of the first things he will proceed to do

will be a general housecleaning and will start right at the Governor's office.

After closing his address Mr.
Roethe mingled with the crowd and circulated his cards. He also made a very good impression upon the people here and it is expected that at least the farmer votes will go towards him for the nomination. All those that heard

the candidate talk remark that he spoke "Common Sense." The Legomobile' candidate left via train for West Bend in vening, where he made a similar ddress. The address given by address. Mr. Roethe was the first political speech made in this village this

SUE, SAYS WILSON

DRDERS ATTORNEY GENERAL TO PROSECUTE DIRECTORS OF NEW HAVEN ROAD.

POSITION TOLD IN LETTERS

Civil Action to Dissolve the Railway Combine Also Called for-McReynolds Fears That Mellen May Be Exempt.

Washington, July 23.-Criminal proceedings begore a grand jury to punish the directors of the New Haven, and a civil suit to dissolve the railroad combine, will be brought immediately by the department of justice, with the sanction of President Wilson.

The position of the president and Attorney General McReynolds was made public through letters, one from the attorney general to President J. M. Hustis of the New Haven, dated July 9; one to President Wilson from the attorney general, dated July 21, and the president's reply.

The concluding paragraph of the president's letter is as follows:

"In the circumstances the course you propose is the only one the govquest and direct that a proceeding in being made. equity be filed, seeking the dissolution of the unlawful monopoly of transportation facilities in New Eng. FRAUD land now sought to be maintained by the New York, New Haven & Hartford Railroad company, and that the criminal aspects of the case be laid before RAILROADS AND COAL OPERAa grand jury."

In his letter to the president, Attorney General McReynolds stated that if his recommendations met with approval he would immediately give the necessary directions.

'The criminal aspects of the case,' he stated in his letter, "have been kept constantly in mind; much data bearing thereon was collected some months ago, and care has been exercised to permit nothing which might interfere with proper prosecution at the appropriate time. We have not held out the slightest hope that parties guilty of criminal violations of the law could escape.

"In April and May last, there being indication that the interstate commerce commission, by examining them, might immunize certain central figures in the unlawful arrangement. it was asked carefully to consider the the New York Central system. effect of such action. Nevertheless, Mellen, and perhaps others flagrantly W. O. Building That Represents All the Mechanical Ingenuity of the Best Constructors.

WILL LONG OUTLAST WOOD of clay or ordinary earth, because clay

Cost of Putting Up Is in Large Measure a Matter of Whether Materials Have to Be Transported From a Distance or Are at Home.

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only enclose two-cent stamp for reply.

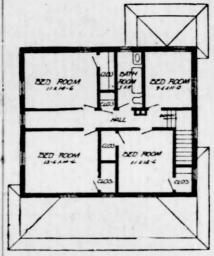

By WILLIAM A. RADFORD.

A cement block house 25 feet long by 31 feet wide, including the porches. is given in this plan. The first cement block houses were expensive and unsatisfactory, because no one knew how to make the blocks or how to avoid the many little difficulties that presented themselves. Mechanical ingenuity, however, and our acquired knowledge of mixing cements, gravel, broken stone, and cinders, with improved block-making machines, have oughly wet, has never been improved simplified matters until it is now upon. quite possible to build a better house ordinary wooden houses cost.

sues which affect this general state ors, and with nuch better satisfaction ment. In some parts of the country, the right kind of sand and stone is abundant; in other places it must be brought from a distance. In cement probably a number of years; and it construction, one of the greatest problems is the cost of teaming the heavy materials necessary to make the blocks; but there are locations where the block machine may be set down tom that every one should know, is on the lot on which the houses is to the manner of leveling the ground. be built, and the gravel or sand from A celiar bottom usually is not put the cellar excavation used in the mix- in until after the first-floor joists are ture that goes through the block ma- in place. The joists, of course, are chine. In a case of this kind, the level; and it is easy to level the cellar only teaming necessary is for delivery bottom to the joists by using a meas-

insulation against dampness and rapid changes of temperature.

a cement outside entrance, the walls of which and the stair are built together and when finished really make one big solid stone. The composition for the cellar bottom consists of four inches of grouting, which is composed of one part Portland cement, two parts clean, sharp sand, and four parts small, clean broken stone. The word "clean," to a cement man, means that the sand and stone used must be free from all but very small traces or loam will not combine, and, if used, the cement will be crumbly. The manner of mixing differs somewhat with different workmen, but the old method of mixing the materials thoroughly dry, then mixing again thor-

THE OLD TIMER IS ON TO THE REAL TOBACCO CHEW

DON'T take a big chew. Just a nibble will satisfy you, because "Right-Cut" is the Real Tobacco Chew.

Taste it, smell it—see how different it is from ordinary tobacco.

By the time you've used up half a pouch you'll be telling your friends about it, same as the men you hear talking about it now.

Pure, rich, sappy tobacco-seasoned and sweetened just enough.

Take a very small chew-less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

If your dealer does not sell it, send us 10c. in stamps for a pouch of "Right-Cut" Chewing Tobacco.

The Watermelon and James two branchs, bantering each other regarding their personal appearance, decide to grean up, acquire new clothes and let their companion, Mike be the Watermelon and James two great their companion, Mike be the Water as to who is the better owner as the water as to who is the better owner as the water as to who is the better owner as the water as to who is the better owner as the water as to who is the better owner as the water as the Bartlett and the Watermeion are roboed of their money and lewelry in the night. Alphonse, the general's chauffeur, and Bartlett's car are mising. The party proceeds in the general's car, gets lost again and runs out of gasoline. Watermelon and Billy go to a farm house for food. Bartlett proposes to Hehrietta and is accepted. Billy starts back with the food while Watermeion goes to ask the farmer to tow the auto in. Hurrying to catch up with her. Watermeion finds Billy stuck in the railroad tracks with a train rushing down upon her. He saves her life and confesses his love Watermeion decides to sneak away in the night and take to the road again. A fire in the night destroys the farmer's barn and the general's car, and Wa'ermeion decides he cannot leave them yet.

"An into the screeks, or one with no brains and no soul. But, you see.

I love you."

Billy's eyes blazed. "You will never marry any one else with me alive," said she.

"How could I marry you, dear? I have nothing—absolutely nothing. We couldn't have a home anywhere,"

"We can make a home," pleaded billy.

"You can't make a home with nothing to make it on," said the Watermelon.

"Ah, but we have something to

CHAPTER XXII.-Continued. The Watermelon raised his hand you and me." to his head and gently brished his back hair with futile embarrassment. "Why, you know that guy we heard dreds, thousands, dear." coughing in the bushes? Well, he put me wise to the fact that your fatherer-that your father and Batchelor I'm rotten," said he. enemies on the Street and I thought-maybe-er-if-why, your him on the chin, for she could reach father asked me to go with you on no higher. the trip you know, and I thoughter-that if Batchelor was in the city alone and your father thought he was with him-why, Batchelor could beat heart." him on the Street and not mind the loss of the few things I had to takefor a week's fun. See what a cheap for this week and the thought of you." guy I am, Billy? A bad egg.' "Yes," said Billy. "Father asked

you to go. Why did he do that?" The Watermelon flushed. "Why-"Father knew you were an enemy. He told me that you, Batchelor, I he knows-"

Soup making is an art. Why trouble with soup recipes when the best chefs in the country are at your service? A few cans of Libby's Soup on your pantry pressed by the fingers it should shelf assures you of the correct flavor, spring back. Fish showing signs of ready in a few minutes. There are Tomato, Vegetable, Chicken, Oxtail, Consomme, Mock Turtle and other kinds. Your grocer has them.

I Want Some U.S. CARTRIDGES

Rifle ammunition must act uniformly. If one cartridge goes off quicker than another the velocity will vary and accurate shooting becomes a thing of chance and luck.

The primer is what insures uniformity of explosion. Primers made of fulminate of mercury and ground glass are uncertain because in the mixing of heavy mercury and light glass the force of gravitation is always operating against a perfect mixture.

The U.S. Primer is a strictly chemical combination—not a physical mix-ture, and it fires with the precision and uniformity of a watch's tick.

The superior uniformity of the non-mercuric primer has led the Government to make only cartridges with this type of

Another thing—mercury eats brass—renders it brittle and unstable. The U.S. primer has no action on bruss—does not affect it and is not affected by it. It does not foul a gun barrel.

All these primer advantages give greater coursey of bullet flight. Practically every When you begin to me U.S. Ammunition you may expect a quick improvement in your marksmanship.

TO SELECT AND COOK FISH

Precaution in Buying Always Neces sary-Style of Preparation May Be Varied.

In buying fish get the kinds in season, as this lessens the chance of being served with cold-storage products. Cold-storage fish may be known by the lack of brightness in the eyes. Fresh fish have clear eyes, red gills, the fins stiff, and the scales shining. The flesh should be so firm that when opposite conditions, such as dull eyes, liver-colored gills, etc., should be refused. Fresh halibut is known by its pearl white or shining gray skin, firm flesh and pleasant odor.

Some fish are at their best cooked in one way only, others may be served in a variety of ways. For instance, hallbut may be baked, broiled, boiled or fried. This rule is also true of other white fleshed fish, as cod and haddock.

Those fish known as oily are best suited to baking or planking, though broiling is not to be despised. Under this head will come bluefish, mackerel, salmon and shad. I think boiling is the best way to cook salmon. Small fish should be fried in deep, very hot fat. This will include smelts, brook trout, perch, whitefish, etc. Frying oil is best for the purpose, or one can use suet and lard, half and half .-Pittsburgh Dispatch.

Sour Cream Pie.

One cupful sour cream, four eggs, one cupful sugar, one cupful raisins, one-half teaspoonful of cloves. Separate the yolks from the whites of the eggs and beat the yolks until creamy; add the sugar, raisins chopped fine, the sour cream and the cloves. Place in a double boiler and cook until thick and creamy. Line a pie tin with piecrust and bake in the oven as for lemon pie. Fill this baked cruet with the cream mixture and place in the oven until well set. Beat the whites of the eggs with four tablespoonfuls of powdered sugar, cover the top of the pie with this meringue slightly. Serve cold. Eaten with a piece of sharp cheese, this is a delicious summer dessert.

Baked In a Box.

If you would like your picnic cake to arrive unbroken, try baking it in one of the five and one-eighth inch by eight and one-half inch tin wafer boxes. If the box is filled half full of cake dough it will rise nearly even with the top, leaving just enough room for icing. The cover can then be put on and the cake will arrive in perfect condition. A good recipe for the above sized box is the following: One cupful of sour cream, one cupful of sugar. one-half cupful of crushed walnut meats, a level teaspoonful each of soda, baking powder and salt, one well beaten egg and enough flour for a stiff batter. Spice to taste. The cake should be baked in a slow oven until It doubles in size, then the heat should be turned on to finish.

Fruit Sherbets.

Red Raspberry Sherbet-One boxful of red raspberries crushed and heated with a little water and the seeds strained out, one pint of water. one cupful of sugar blended together and the juice of one-half lemon.

Pineapple Sherbet-Three cupfuls granulated sugar, three cupfuls sweet milk, three cupfuls cold water, one can of pineapple or one pineapple picked to shreds with a fork. Mix all together and freeze the same as ice cream. Grape Sherbet-One quart of milk. one pound of sugar, one cupful of grape juice, the juice of one lemon. Mix and freeze. Delicious.

Cheese Souffle.

Cook together in a saucepan two tablespoonfuls each of butter and flour, and when they are blended pour upon them a half pint of milk. Stir. to a smooth white sauce and stir into this eight tablespoonfuls of grated cheese, a saltspoonful of salt, a pinch of baking soda and a dash of paprika. Have ready four eggs, whites and yolks beaten separately. Remove the cheese mixture from the fire and gradually beat into it the yolks of the eggs; last of all fold in lightly the stiffened whites. Turn the mixture into a greased pudding dish and bake in a stendy oven to a golden brown.

Rhubarb Jelly.

This makes a nice Sunday dessert. because it can be prepared the day before. Soak one-half boxful of gelatine in half a cupful of cold water for an hour. Cook two pounds of rhubarb in very little water and when reduced to a pulp sweeten to taste. Set aside and cook one cupful of sugar with one of water for 20 minutes. Stir the soaked gelatine into the boiling sirup and stir until dissolved. Remove from the fire, add the rhubarb, and set away in a mold to cool.

Chocolate Puff Balis.

Would some one like to try my ecipe for chocolate puff balls? One piul sugar, one egg, one tablespoonul butter, one cupful milk, one teapoonful cream tartar, one-half teaspoonful soda or a heaping teaspoonul of baking powder, two tablespoonals of chocolate or cocoa, teaspoonful f vanilla and two scant cupfuls of steam half an hour. Eat hot with whipped cream.

Novel Salad. its of smoked chicken is to cut them into tiny cubes, put into a cup, and add enough seasoned gelatin to cover. Fut into a cold place to get firm. Unmold cut into small squares, springle with finely chopped celery, and serve, as a saisd with a French dressing, or a stiff mayonnaise.

Collar of Batiste or Net.

Why not embroider a collar on and to prevent their raveling. miliste or not? A very simple and sasy design may be carried out in two dren's stockings in a large family sep- cotton thread, which is brittle. Any piace between slices a thin slice of shades of blue or any color preferred, arate sew two inches of very narrow dress which will give hard wear cheese. Season cheese with sali and the scallops being embroidered in tape at the top and back of each stock- should be made up entirely of silk cayenne. Toust until cheese is meltwhite and finished with a plaited ing. Except when being worn each The sun and water rots cotton, but ed, holding bread together. These are
