NUMBER 6

OF INTEREST TO FARMERS ************

Why Stay on The Farm

There are two classes of the rural population that are trending townward. The one is the ambitious youth who want to see the most and do the most in life. They look to the city for large life and opportunity. The other class is those who have made good and past middle life go to the city to find happiness.

Why should these two classes stick to the farm?

The youth should stay on the farm because practical tilling of the soil today offers larger opportunities than any other vocation or profession. Farming shows well in the criterion of good business. The financial returns for scientific agriculture measures up well with any other

Farming is a home work and builds up family interest and companionship. The family live together. The work is congenial from mayors and other men of and broadening. It calls for the prominence. Not once during his German nation. He is a most development of the whole man. There is scope for the keenest in- ed charity. physical form and the most sen-You can bring the most highly enjoyable use on the farm.

Finally the critical test of a vovice to humanity. Here farming the world.

Why should those who have tition. made good stay on the farm?

This can be answered in a sinterial, mental, physical and moral suicide for the well to do farmer to retire to the village or city. If felt the big petition was weigh- ican editors, that the kaiser is a he has been a real farmer he is a ing heavily on him. GETS 3,000,000 TO SIGN DIETZ PETITION

Dam" Now Seeks Aid of President Wilson

Leslie Dietz went into the New York World office Friday night after a tramp of 11,000 miles during which time he has visited every state in the union and obtained 3,000,000 names to a petition to President Wilson asking for the pardon of his father, John E. Dietz, who is serving a life term in the state prison in Waupun,

In the summer of 1912 Leslie tions. Dietz started out with his petition to the president.

To get his 3,000,000 signatures Dietz first traveled west, always going by foot. In every town he sought and got signatures to his petition. Also he got letters long trip has he asked or receiv-

SYNOPSIS.

Mark Truitt, encouraged by his sweetheart. Unity Martin, leaves Bethel, his native town, to seek his fortune. Simon Truitt tells Mark that it long has been his dream to see a steel plant at Bethel and asks his son to return and build one if he ever gets rich. Mark applies to Thomas Henly, head of the Quinby Lton works, for a job and is sent to the construction gang. His success in that work wins him a place as helper to Roman Andsrejzski, open-hearth furnaceman. He becomes a boarder in Roman's home and assists Piotr, Roman's son, in his studies. Kazia, an adopted daughter, shows her gratitude in such a manner as to arouse Mark's interest in her. Heavy work in the intense heat of the furnace causes Mark's interest in her. Heavy work in the intense heat of the furnace causes Mark to collapse and Kazia cares for him. Later Roman also succumbs and Mark gets his job. Roman resents this and tells Mark to get another boarding place. Five years elapse during which Mark has advanced to the foremanship, while his labor-saving devices have made him invaluable to the company. In the meantime Kasia has married one Jim Whiting. Mark meets with an accident which dooms him to be a cripple for life. He returns to Bethel intending to stay there. He finds Unity about to marry another man and wins her back. Unity urges him to return to his work in the city. Mark rises rapidly to wealth and power in the steel business, but the social ambitions of his wife make their married life unhappy. The big steel interests are secretly anxious to get hold of stock in the Iroquois Iron company, supposed to be worthless. Timothy Woodhouse ried life unhappy. The big steel interests are secretly anxious to get hold of stock in the Iroquois Iron company, supposed to be worthless. Timothy Woodhouse seeks financial assistance from Mark and the latter buys Woodhouse's Iroquois stock at a small figure. Henly forces Quinby to let Mark have stock in the Quinby company. Mark finds Piotr making a socialistic speech on the street and the boy shows that he is still bitter against Mark. Mark finds Kazia, who is divorced and is now a hospital nurse, caring for Roman who is near death. Mark is advised by his physician to stop taking drugs and take a long rest. He gets six months' leave of absence. One day he takes Kazia out driving, and they meet Mrs. Truitt. A bitter quarrel ensues and Mark demands a divorce. He absents himself from the city during the divorce proceedings and makes no answer to the sensational charges brought by Mrs. Truitt. On he return he is treated coldly by many former friends.

CHAPTER XX.

The Red Glow. Henley did not know what an impetus he had given with his "Pick out the thing you want most and fight him her reason was not an empty one.

until you get it."

Mark had not sought out Kazia. More than he would admit to himself, there is a real love to smooth the he had suffered during the weeks of injustice. Suffering had for the time dulled the longing for her. And be found the real love-until now." hind that had been a proud reluctance to offer a love tainted by the tongues of scandal-mongers. But now the hunger for a great love-born on an hard. "Of course, it is. Then, don't autumn evening of his youth when he you see-" had come upon a frail slip of a girl "No, if it is real, then I can't---I raptly gazing into the twilight, too daren't-risk losing it. I haven't had much a part of him to be stifled even much, ever, except this love-I mustn't during the years of fierce blind strug- lose it. And you don't know-I'm not gle and disappointment-made itself fine and clever and cultured, like-like felt again, downing pride

He called up the Todd hospital, was the lacks-" She was becoming inber. He called up that number.

The response came in a low voice that even the telephone could not rob of its music for him. His heart leaped. Kazla!"

There was a pause, then the low voice came again: "Who is that?" "This is Mark Truitt."

Another wait so long that he thought the connection had been broken. "Yes?"

"Is there any place I could meet you-by accident?"

"Is there any reason for an accident?" "If you think not, there is none.

. Are you still there?" "Yes. . . . You can come here." She

gave an address. 'This evening?" "If you wish. . . . Good-by."

He alighted from a car that eve-

ning before a big but unpretentious of his beautiful philosophy. apartment house in one of the city's quieter neighborhoods. Three stories above the street he came to a door on in her eyes both fear and the glow of which was her card. He knocked, She opened the door. For many seconds they stood looking at each

other, motionless, speechless. , . . He broke the silence, in a strange greeting that spoke of itself. "How often I remember you so on the threshold!"

"I thought it was your step." The rich color surged before the invitation, lent meaning by his greeting. "Will you come in?"

The quiet little sitting room was a caress. He thought he had never found, even in the wilderness, so restful a place.

"I suppose," he said aloud, when they were seated, "it's part of the mystery of personality."

"What is?" "This room. It's the homiest I've ever been in."

"I'm glad you like it. I've had it for years. I suppose I oughtn't to keep it, because I don't get much good of be a lasting love. Love can't live exit except in vacation. But I like to think of it as a place to come back

"You're on your vacation now?" "Yes. I have a long one this year. I take only Doctor Wolf's cases now, and he is abroad for the summer." He leaned back in the chair to which she had assigned him and watched

her under cover of their inconsequential chat. "Why did you ask me to come here?"

"Because I didn't want you to think-" She paused uncertainly. "That you believe all you may have

heard of me lately. Thank you, Kazia. But I'd have expected you to say that." Her eyes fell again to the sewing. "Kazia," he asked directly, after a moment. "has any one ever connected

you with my scandal?" She looked up quickly again. "Why, no. How could they?"

"A mysterious woman has been mentioned. I've been afraid that every one I've had to do with might be smirched with me. I didn't want youof all women-to be touched."

"Do you care so much about it all?" "I wouldn't admit it to any one else. But I do care, Kazia."

She was silent, but the dark eyes were very gentle.

He leaned forward and drew her to

CHAPTER XXII.

The Cleft Stick. In Canada's capital, thinking themselves still safe. Mark had persuaded Kazia to stay over two days, that they might have one last uninterrupted period together. It was a mistake, an

anticlimax. They were at breakfast when, glancing up, Mark espied a familiar figure at the doorway of the hotel dining room-a figure of courtly and noble mien; moving with slow thoughtful stride and head slightly bent, as though, even amid the commonplace functions of life, his mind never ceased to dwell on momentous philanthropic projects; and withal modestly unaware of the whisper that ran over the room or of the many necks craned in his direction. An obsequious captain & waiters led him down the room, and by fateful chance, toward the table where sat Mark and Kazia. Mark regarded him in that fascination which a dangerous object often has for its victim.

Now it may be that the philanthropist was not quite so unaware as he seemed of the interest evoked by his entrance, for a pair of furtively roving eyes alighted upon Mark. He stopped. "Can it be-of course, it is Truitt, suavely. This is an unexpected pleasure." He extended a genial hand.

Mark took it mechanically. "How zre you, Mr. Quinby?" he muttered out

"I suppose I am well." Jeremiah Quinby smiled benignantly. "A busy their days carefully, thinking only that life leaves little time to consider the state of one's health. You are looking The man was ewept out of himself, better than I have ever seen you." "I'm better than I've ever been."

-never, said the envious, so pronounced as in the presence of a pretty woman-were displayed in their perfection. Even Mark's fears were lulled. At first the philanthropist gave himself almost wholly to Kazia. He showed her the splendors of his car, from the little kitchen, where her expert ad-

miration brought a grin even to the pudgy face of the Japanese cook, unto the plaster cast of the ichthyosaurus Quinbyi conspicuously placed at one side of the library section. "Truitt tells me, Mrs. Whiting, that

you are a nurse. A beautiful calling! A fitting sphere for woman-woman, tender minister to suffering!"

"And it pays," Kazia smiled, "better than most woman's work." "But not enough. Have you ever noticed that the most important serv-

ices are always the poorest paid. I have often wished," Quinby sighed, 'that it lay in my power to give every deserving man and woman the just reward earned by their service." "Ah!" breathed Kazia, "that would be something to do."

one of insuring harmony. He felt of Quinby bent a benignant smile on Kazia, "Mrs. Whiting, you must leave commission dismissed a petition by me an address. As it happens, I am pleading some unfinished packing, a trustee, and it may be, an influence in the Todd hospital. Surely the prolowed her admiringly to the door, then fession of healing offers a woman a the Lindsey Farmers Telephone larger-and a better paid-field than mere individual nursing?"

gishness struggled for the upper hand. "To those who are fitted." "You are modest, of course. But I am sure I have not judged you too generously." He led Kazia to a big cushioned

chair at the observation end of the

car, had the Jap bring magazines and

the latest novel. She lay back in the chair, smiling her thanks up to him, as frankly as if she had not a suspected secret to brazen out. The philanthropist smiled back-and the light in his eyes, as they swept the figure beneath them.

Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for womenand every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

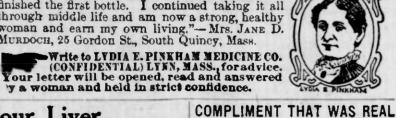

PROVIDENCE, R. I.—"For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—Mrs. S. T. RICHMOND, 199 Waldo Street, Providence, R. I.

A Minister's Wife Writes:

CLOQUET, MINN. - "I have suffered very much with irregularities, pain and inflammation, but your wonderful medicine, Lydia E. Pink-bram's Vegetable Compound, has made me well and I can recommend the same to all that are troubled with these complaints."—Mrs. Jen-NIE AKERMAN, C/O Rev. K. AKERMAN, Cloquet, Minnesota.

From Mrs. J. D. Murdoch, Quincy, Mass.

South Quincy, Mass.—" The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. Jane D. Murdoch, 25 Gordon St., South Quincy, Mass.

LIBRARY BOOKS BY MAIL DEATH ENDS QUARREL

Parcel Post Marks New Departure in Extension Work of Wisconsin Free Library System.

Madison.-Circulation of library books by mail is announced as a new plan by which the Wisconsin Inflicts Fatal Wounds on Self-Claim DR. T. J. REDLINGS, MARINETTE, Free !.ibrary commission will open to all the citizens of the state the vast libraries of the University and the State Historical society. Parcels post and free delivery are to make accessible almost half a million volumes for of where he lives.

While use of the parcels post is a new departure in library extension his victim's wife of the murder. work, it nevertheless is a part of the evolution of the Wisconsin Free Library system, and is a direct outgrowth of the traveling library idea instituted in this state by Frank Hutchins about twenty years ago.

Matthew S. Dudgeon, secretary of the Free Library Commission, like Mr. Hutchins, plans to furnish books to these who peed them meet. While to those who need them most. While employing the same principle as that involved in the traveling library plan, he has expanded that idea so that instead of merely serving a community by sending a box of books to some central point, where the country Decline in Cotton Market an Indirect people can make a selection from sociation convention-Drs. YOUR BLOOD

is the canal of life but it becomes a sewer if clogged up. All life consists of building up and tearing down and just in the same manner that the blood carries to the various parts of the body the food that the cells need for building up, so it is compelled to carry away the waste material that's torn down. These waste materials are poisonous and destroy us unless the liver and kidneys are stimulated into refreshed and vigorous life.

DR. PIERCE'S Golden Medical Discovery

is the balancing power—a vitalizing power. It acts on the stomach and organs of digestion and nutrition—on the purifying filters which clean the blood. Thus fresh vitalized blood feeds the nerves, heart—and brain. This well known alterative relieves catarrh of the stomach and headaches accompanying same, and has been successful for more than a generation as a tonic and body-builder. It builds up the rundown system. You need it—if you are always "catching cold"—or have catarrh of the nose and throat. The active medicinal principles of American-Native-roots are extracted without alcohol and you can obtain this tonic in liquid or tablet form at any drug store or send 60 cents in 1-cent stamps for trial box of tablets.

West! Thank God for Wilson. This ers ought to report political meetis the war cry that is carrying the ings fairly if they wish to make Democrats to victory this fall.

While the Democrats of Wisconsin are harmonious and united in this campaign the Republicans are split badly by factional fights and every attempt to heal the old sores is proving a failure.

With one breath the Philipporgans say the Blaine candidacy doesn't amount to a hill of beans and with the other they abuse the Boscobel bolter with their best line of adjectives. It is to

That riot at the university of Wisconsin may serve to open the eyes of the people to the startling fact that the taxpavers of this state annually pay out nearly \$600,000 for the support of nonresidents.

Gov. McGovern is the man whose administration was made famous by the organization of taxpayers' league to protest against outrageous extravagance. Future historians will find some rich material in this period.

If you wish to uphold President Wilson, vote for M. E. Burke for Representative and Paul O. Husting for U. S. Senator, THEY WILL work with Wilson. Also remember Judge Karel for Governor He is a strong endorser of the Wilson administration.

Loyal supporters of President Wilson who do want to see him embarrased in any manner while he is using every affort to keep the United States out of the maelstrom of war that is devastating Europe will vote for the Democratic candidates for congress.

In talking about Mr. Philipp being the citizens' and taxpavers' candidate the Milwaukee Sentinel overlooks the fact that Judge Karel began the fight against oppressive taxation two years before Mr. Philipp and appreciative citizens are not going to forget it when they go to the polls in November.

The Mayville Meeting

When Judge John C. Karel returned to Milwaukee from Mayville where he addressed a Democratic meeting he was asked concerning Sunday paper saying the meeting was a failure and that less than 150 persons were in attendance.

"That report was absolutely untrue said Judge Karel. The meeting was a grand success, and there were between 600 and 700 persons present. Teams and automobiles brought in the farmers for miles around Mayville and the town people turned out enthusiastically to welcome their fellow urged all Democrats to vote

KEWASKUM STATESMAN citizen, Senator Paul O. Husting the Democratic state ticket. This The great crowd and the enthusiasm with which it greeted Sena-GEO. H. SCHMIDT, Editor & Proprietor tor Husting demonstrated the high nal prints conspicuously in its day. hearty support to his candidacy dent: for the United States senate. The meeting convinced me and everyone else who attended it that Senator Husting is one of Dodge county's most popular sons.

"I am at a loss to account for the misrepresentation regarding the attendance at the gathering. We have been taught to expect abuse from the editors of the op-"War in the East! Peace in the position press but these publishgood their assertions that they are newspapers. Subscribers to newspapers are entitled to the truth and when they do not receive it they are being defrauded. It is to be sincerely hoped that we shall not witness such another case of misdirected partisanship during the remainder of the campaign as has been shown in this Mayville affair,"

Bob Cuts Loose is weeping and wailing and gnashing of teeth in the camp

of Philip, Pfister and Plutocracy. There will be no LaFollette support for the Stalwart candidate for Governor, but bitter, unrelenting warfare. In the current issue of his weekly, Senator La Follette places himself squarely on record of endorsing the independent candidacy of John J. Blaine of Boscobel. Senator La Follette makes it plain that he desires everyone of his faithful supporters to rally at once to the Blaine standard. This means that a great mass of Republican voters will not support the nomiof the party. Senator La Foliette says that Mr. Philipp is "not the representative of the well settled progressive policy of

the people of this state" and calls attention to the fact that Philipp was made the Republican candidate by a minority vote of about istration) measures receive from one-third, the remainder of the Republican vote being divided among five other candidates known as progressive. Senator LaFollette described Mr.

Philipp as an old-time supporter of railway and other corporate interests. He again alludes to him as the "stand-pat" candidate who obtained his nomination "with

Bob gleefully alludes to the fact that his enemy McGovern received less than one-third of the Republican votes polled. Senator LaFollette insists that he is not a boss and to prove his assertion says:

"Had I been in any sense a boss or in control of a political machine in Wisconsin, the orders of which were issued and obeyed in accordance with political machine methods, does anyone suppose for a moment that there would have been five progressive the story printed in a Milwaukee Republican candidates in the field inviting defeat by a divided publican party to power and rein-

KEEP HEAVY DOORS IN PLACE

Iron Rod Used as Brace Will Prevent Sagging on Hinges-Illustration la Self-Explanatory.

To prevent heavy doors from sag ging on their hinges an iron rod is used as a brace. Take a piece of strap iron bent at right angles, with hole

Prevents Sagging Doors.

rod. Then a three-eights or one-half inch iron rod which books in eye on must be secured in post or rafter then hook in rod, tighten top and the door cannot sag.

THREE ESSENTIALS FOR COW

Amount of Exercise Are Needed for Proper Development.

(By L. M. BENNINGTON.) Some of the leading dairy authorities may argue as they may, but many good dairymen believe that the time is past when a man with an ordinary degree of intelligence should advocate the practice of putting the cows in the stable in the fall and compel them

This practice may not prove detrimental to the individuals during the one generation that is so manged, but how about the succeeding generation and their progeny? Will they not be

weakened? The very first law of animal health is pure water and pure air and a reasonable amount of exercise, and no animal can be properly developed in all of its organs and functions unless it is provided with these three es

Hillside Crops.

Records of crops will show that the trees grown on the hillsides or at the top of elevations have a greater percentage of crop years than those in the hollow. This condition is primarily due to the air drainage or to differ ence of temperature between the low ground and that a few feet higher up. Experiments have shown that on still, frosty nights there has been a differ ence of 15 degrees in as many feet between the bottom of a ravine of hollow and the top nearby.

The Compost Heap. A few old fence rails, built together

in a square in the gadren will hold all the rubbish that is fit for decomgarden and manure and all ashes from the house. Pour the wash water over it and allow it to pack thoroughly. It it concentrates now all the waste refuse and prevents the hens from broadcasting it again.

Fresh Air for Horse. Do not attempt to secure warmth in

the stables by banking windows and closing everything up tightly. The horse is a breathing animal and needs fresh air, but it should be supplied without exposure to drafts.

Expensive Laziness. It saves a lot of work to dump the corn for cattle on the ground and let them dig it out of the dirt at their convenience, but it is a mighty expensive form of laziness.

Our busy brewers are here every day turning out that delightful beverage Lithia Beer. They are very busy too -because more people are daily learning of the wonderone side of building. The screw eye ful food and medicinal value of Lithia Beer. That's why tightly in a direct line with hinges, we urge you to try it. Telephone No. 9.

A Thousand to One

Ever think about this? There seems to be a thousand ways to spend money to one chance to make it.

Doesn't it seem that way to you? It does to most of us, and that's the reason why you should take care of it after you have made it. The very best plan to take care of the money you have made is to place it in a good, safe, reliable bank like ours. It will be subject to your check but you will not be so liable to spend it or lose it as you are by carrying it around or hiding it around the house.

Utterance of President Wilson Gives Big Impetus to American Foreign Trade.

Washington, Oct. 14.-In one of the most important utterances since the beginning of the European war President Wilson gave a tremendous impetus to American foreign trade, and incidentally to the expansion of the

American Merchant marine. The president said that the United States is prepared to protect to the utmost the rights of shippers of American exports when such goods are being transported in vessels flying neutral flags. This is an assurance of protection from confiscation by belligerents of the following classes of

exports: Grain, meat, and other food and all other conditional contrabands of war consigned to any destination in neutral countries or to belligerent countries for the consumption by noncombatants only.

Arms, mules, horses, and other absolute contraband of war consigned to neutral countries and not for the use of the present belligerents.

If the policy announced by the president is carried out the United States will insist that justice be done the shippers of American goods in neutral vessels which may be seized by a belligerent.

1 Want Some (US) CARTRIDGES

Test after test after test of ammunition has proved the value of the U.S. non-mercuric primer. No mercury in the primer means no harmful, corrosive fouling of the barrel, no destroying action on the brass cartridge case, no varying time of ignition. The U. S. primer is a strictly chemical compound that acts with perfect uniformity.

Where fulminate of mercury is used, ground glass is also used. Ground glass is difficult to mix with mercury and its effect is not only to wear down the rifling, but also to cool the primer flame by absorbing about 16% of the heat.

World's Championship Rifle Teams habitually use U. S. Cartridges.

WORLD'S SERIES WON BY BOSTON

BRAVES BREAK RECORDS IN CLIMB TO WORLD'S CHAMPIONS.

TAKE FOUR STRAIGHT GAMES

Not Since the National Commission Took Charge of These Contests in 1905 Had This Feat Been Achieved.

RESULT OF SERIES.

First Game-Boston, 7; Philadelphia, 1; pitchers, Rudolph and Bender. Second Game-Boaton, 1; Philadelphia, 0; pitchers, James and Plank. Third Game-Boston, 5; Philadelphia, 4; pitchers, Tyler and James,

Fourth Game-Boston, 3; Philadelphia, 1; pitchers, Rudolph and Shawkey, and Pennock.

Boston, Mass., Oct. 14.-The Boston National league completed the most sensational record in modern professional baseball by defeating the Philadelphia Americans in the fourth and final game of the world's series at Fenway park on Tuesday by a score of 3 to 1.

Beginning with fheir rush from last place in the senior league in the middle of July the Braves have broken traditions and records in the national sport with speed and abandon during the last three months. They emerged late Tuesday afternoon champions of the universe, leaving a trail of startling surprises and upsets in their wake which it will be hard to duplicate in years to come.

Last but far from the least of their accomplishments was the overthrow in four consecutive games of the world famous baseball machine of Connie Mack, with its \$100,000 infield, home run heroes and corps of skilfully blended veteran and youthful pitching

To crush completely and decisively the great combination which has represented Philadelphia in the American league in recent years is honor enough for any rival baseball club, but the Braves did even better, for they established a new world's series record by winning in succession the four games necessary to clinch the title.

Not since the national commission sssumed charge of these annual interleague contests in 1905, has this feat been achieved until Tuesday. Several clubs have won four out of five games. and in the early days of the Temple cup and National league vs. American association, straight victories were chronicled. In 1884 Providence defeated the Metropolitans three straight.

Connie Mack, the Athletics' leader, is the only manager who has won appears to have stumbled over the mystic fourth, just as Managers Mc-Graw, Jennings, Chance and Mack have all failed to win four league pennants in a row.

MOVE CAPITAL TO HAVRE

Belgian Government Removed From Ostend to French Soil-Third Move Since Fall of Liege.

London, Oct. 14 .- The headquarters of the Belgian government were transferred to Havre on Tuesday. With the exception of King Albert, who remains at the head of the army, the minister of war, the members of the cabinet with other government officials and the diplomatic corps left Ostend by steamer for the French port, where they will carry on the affairs of state and where hospitality has been offered them by the French government.

The American and Spanish ministers, both of whom still are at Brussels, are the only diplomatic representatives accredited to Belgium re-

maining in that country. This is the third move of the Belgian capital since the Germans silenced the forts of Liege. The government first moved from Brussels to Antwerp; thence to Ostend, and on Tuesday across the line to Havre. This final change followed quickly upon the German westward advance, which was begun immediately after the fall of Antwerp.

Boers Start Revolt.

London, Oct. 14 - The rebellion of a section of the Dutch element in south Africa, which broke on Tuesday with the suddenness of a bolt from the blue, is the first warning note that has marred the harmony of the British empire since the outbreak of the war, and it has momentarily diverted attention from the arena near the heart of the empire.

Germans Sweep Poland.

London, Oct. 14.-With the exception of Warsaw, the Germans are reported to be in occupation of practically all of Poland, indicating an advance of more than 100 miles into Russian territory.

THE NIGHT WATCHMAN THROWS LIGHT ON THE SUBJECT

ON'T take a big chew. Just a nibble will satisfy you, because "Right-Cut" is the Real Tobacco Chew.

Taste it, smell it—see how different it is from ordinary tobacco.

By the time you've used up half a pouch you'll be telling your friends about it, same as

the men you hear talking about it now. Pure, rich, sappy tobacco-seasoned and sweetened just enough.

Take a very small chew-less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to soit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end. It is a ready chew, fine and short shred so that you won't have to grind on it with you meth. Grinding on ordinary candied sobase makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and rice. Notice how the salt brings out the rich tobacco taste in "Right Cut." One small chew takes the place of two big

nann and family. Frank Curran purchased an inerest in the Seering Bros, store and hereafter the firm will be known as Seering and Curran. tion. John Seering, who sold his interest to Curran, left for Bonduel

The Hoffman's Cornet Band will celebrate the 25th anniversary of its organization on the 31st day of this month. They will give a concert in the afternoon, followed by the Firemen's play, "The Confederate Spy" at the Opera House in the evening.

The sad news of the death of Miss Jane Jones of Green Lake was received here Sunday evening. The cause of her death was blood poisoning, and had been sick only a few days, therefore, her death comes as a great shock to relatives and friends. She was about 18 years of age, and is the second oldest daughter of Rev and Mrs. R. H. Jones, They lived at Campbellsport the past year and about a month ago moved to Green Lake where Rev. Jones was appointed pastor of the M. E. Church. She leaves to mourn her early departure her grief stricken parents, and three sisters, Mariam, Bernice and Ruth. all at home.

The remains were brought here Tuesday morning on the 9:44 train and the funeral services were held at the M. E. Church, Rev. T. J Reykdal pastor of the local church officiating, assisted by Rev. W. Hall of Fond du Lac. Rev. Dunkley of Mayville and Rev. Roberts of South Byron. Interment took place in Union cemetery. The floral offerings were large, which spoke of the high esteem in which the deceased was held.

The pall bearers were six of her friends. John Hughes, Gilbert Trentlage, Charles Seering. William Knickel, Patrick Kelley and Mr. Spencer.

Among those from away who

Scientific Doctors

Some time back a patient vis ited an eminent specialist. The consultation required about fifteen minutes of the specialist's time. The fee was \$50. The pa-John Theisen was a Kewaskum tient was scandalized and indig-

> A month later he stated that this was the lowest fee he ever paid. He had previously spent hundreds of dollars without benefit. The last man didn't guess. He knew.

The term "scientific" is very commonly misunderstood. To most people it conveys a suggestion of heaviness and prosiness. "Scientific" really means knowing and not guessing. It is much more convenient for most people to guess than it is to get facts. atives at Fond du Lac last Satur- That is one of the reasons why there is so much unscientific medicine practiced.

It must not be gathered from this that any criticism is being Mr. and Mrs. Emanuel Scheid made of physicians which is not spent a few days at Golden Cor- applicable quite as much, or more to other occupations. Consider agriculture as one example. In spite of the splendid scientific farming that has been taught by the university, relatively little real scientific farming is being done. Scientific Wisconsin farmers have developed strains of farm animals and bred grains which have attracted the attention of the entire country. Thous-

ands upon thousands of dollars

have been put into the pockets of

the lead of the pure scientists. In how many factories is there scientific shop management? One could carry the illustrations into every field, but it is not necessary. At first all scientific discoveries and methods have been considered impractical by those who have most needed exact F. Haskins made a business trip knowledge of facts. In the end science is found to be extremely simple and more easily comprehended than vague speculation. The main reason why there are not more scientific physicians is because the public supports so

many superstitions that make it

difficult for really scientific men

Scientific agriculture makes more money for farmers. Scientific shop management makes more money for manufacturers. Scientific accounting makes more money for merchants and financiers. Gradually fathers and mothers are learning that em_ ploying physicians who know instead of guess is economical. The fee of the latter class of physicians for a single visit is usually higher, but there are apt to be fewer visits.

What a Man Can Do

an excellent illustration of what a man can do with the soil of northern Wisconsin. The display referred to came from a farm just over the Douglas county line in mosta, an iron worker by trade. is the owner of the farm and the raiser of the products on exhibi-

With reference to fine agricultural products it is sometimes said that they are raised by experimenters who can afford the time and money necessary to raise exhibition products which could not be raised under normal conditions, and that the cost of production is greater than the market value. That view is not possible with reference to this display.

Mr. Chramosta arrived at Iron River, Bayfield county, nine years ago with his wife and six children after having worked for sixteen years in a Chicago iron foundry When he arrived he had only eleven dollars in cash. He bought a piece of land all on time, no cash down, and went to work. Of course he had to work for wages as opportunity offered, to earn subsistence, but he found time to work on his land to get things started. Now he is a prosperous farmer with horses, cattle and hogs, chickens, etc., and the products he is getting from the soil be judged by the display, which includes in much variety wheat, oats, corn ,beans, peas, apmushrooms, pumpkins squash, onions, artichokes, turnips, peppers, cabbage, mustard, pieplant, speltz. carrots, beets flax, clover, timothy, bluegrass. hops, tomatoes, celery ,caraway, wormwood, balm, calvia, millet saffron firebush, June grass, etc. Evidently times have changed with Mr. Chramosta since nine years ago. Meantime the number of his children has increased from six to ten. The northern Wisconsin farms agrees with the children .- Superior Telegram.

Quick to Recognize Genius and Sensible Men.

HER WEAKNESS AS A BUYER

Her Susceptibility to Bargains-Women Have More Strength In Their Looks Than We Have In Our Laws.

[Copyrighted, 1914, by Thomas J. Sullivan.] Women have more strength in their looks than we have in our laws and more power by their tears than we have by our arguments. Women are quick to recognize genius and to listen when wisdom speaks. They may chatter in the presence of fools, but know and appreciate the value of earnest,

It is assumed that the Almighty made man as his masterpiece, and. conceited being that he is, man accepted this statement as a piece of truth.

That the earth and all it contains were made for his special benefit, that woman was created solely for his comfort, that the sun was made to give him light by day and the moon to enable him to find his way home at night. that the heavens were hung with a rethe students who have followed splendent curtain of stars and the planets sent whirling through space in a majestic dance about the god of day simply to afford him matter for wonder and amusement-ideas of this sort evince an egotism that can only be ac credited to man.

Masterpieces indeed! Why, God made man and, finding that he could not take care of himself, made woman to care of him, and she is discharging her heaven ordained duty in an artistic and capable manner.

Are Women the Weaker Vessels? Men are fond of alluding to women as "the weaker vessels," and Pope calls man the "great lord of things." Men rule with a rod of iron the creatures of the earth, the sea and the air. They hurl defiance in the face of kings and presidents. They tread the ocean's foam beneath their feet, they harness the imperial thunderbolts to the jaunting electric car and even succeed in mounting the storm and flying upon the wind, but the bravest of them tremble and lie like Cretaus when call ed upon by their wives to explain some of their extravagant purchases, and for this reason many men delegate their wives as the official "family shoppers" and thereby shift the responsibility to

More Good Sense Than Men. Women have more good sense than men. They have fewer pretensions. are less implicated in theories and judge of values more from their immediate and involuntary impressions on the mind and therefore more truly The fine agricultural display in and naturally. It is said "men have the front windows of the Ruth sight, women insight." For these and Bros. department store, affords, many more reasons women make better shoppers than men.

Women regulate their purchases al gether by the amount they have to spend, men by the amount of credit they can get. Women like to put their money where it will do the most good. Bayfield county. Charles Chra- men where it will make the greatest show Men are usually "broke," wo-men very seldom. All of which goes to show that women are the "stronger

vessels" after ali. Women Are Prone to Bargains.

Woman's weakness as a purchaser lles in her pronounced susceptibility to bargains. No man ever followed freedom's flag for patriotism with half the enthusiasm that woman will trail the red, white and blue that con stitute the banner of the bargain coun-

ter. And therein lies her temptation This trait of woman's nature is recognized by the mail order and retail catalogue houses to the extent that nearly all of their misleading circulars and pictorial catalogues are addressed to the women. And the women, true to their natures, respond with many

Their Spirit of Loyalty.

But if women are prone to bargaint they are also possessed with the sense and spirit of loyalty to their own town and community when once they come to a full realization of the injury they are working both to themselves and their home merchants by sending their money away to some large corpora tion in a big city for goods that they can buy as cheaply and of much better grade at home and without the incon venience necessitated by long delays when ordering from out of town mer

The Slogan of Woman. Women not only make the bome worth while, but they make the local town, the countryside and the whole community worth while. Wherever there is found a movement on foot for the uplift and betterment of com munity interests and conditions woman's power and woman's influence can always oe found behind it. Woman's slogan is, "Purity of home, purity o. community and the home town and home merchant forever."

The mail order patrons are not willfully and consciously in the wrong they are merely mistaken. They areto use the language of a jokesmith of a dead century-trying to skin a fint worth a nickel and spoiling a jackknife worth a dollar.

Hopeless Lung Trouble Cured Many recoveries from Lung Troubles are due to Dr. Bell's Pine Tar-Honey. It strengthens the Lungs, checks the Cough and gives relief at once.-Mr. W. S. Wilkins, Gates, N. C., writes: "I used Dr. Bell's Pine-lar-Honey i a case given up as hopeless and it effected a complete cure." Get a bottle Dr. Bell's Pine-lar-Honet. If your cough is dry and hacking let it trickle down the throat, you will surely get relief.

What Song Does This Picture Represent?

PICTURE PUZZLE NO. 6

My answer to Puzzle No.

Name

Address

This is a contest of skill and judgement open to everyone. Three prizes will be given absolutely free by this paper, viz. First, \$25; Second, \$10; Third, \$5.

The puzzles will be printed one each week for Twenty weeks. Every contestant will be permitted to submit as many sets of an wers as he wishes but each set must contain only one answer

All answers must be neatly written or printed on coupons published in this paper and must have the name and residence of the contestant on each compon.

Any or all members of a family may enter the contest, in case there are no complete sets of correct answers, prizes will be awarded to the persons submitting the greatest number of

In case of a tie awards will be made on the basis of neatness and accuracy.

All employes of this paper and their families are absolutely

barred from participating in this contest. Under no circumstances send answers until the end of the contest, then arrange them in sets, in numerical order, and send them all in together.

Bowers, the artist, the only person who knows the correct answers, has personally placed them under seal which will be broken in the presence of witnesses.

The prizes will be awarded One week after close of

Guide Books that contain among others the correct answers to all pictures, including back numbers containing coupons, may be had at this office, price 40 cents.

Big Ben should be in every farmer's home

You men who live on the farm have got to be heavy workers. And if you are heavy workers you require neavy sleep and lots

For heavy sleep is heavy work's reaction and it's not always easy for the heavy sleeper to get up without help. That's where Big Ben comes

He makes it easy every

morning. Big Ben is a truth-telling and reliable alarm clock.

He gets you up, he never fails. You're always up on the dot if he's in the sleeping room. See him in my window next time

you come to town. Hear him greet you Good Morning. He is

well worth meeting, indeed.
