OF INTEREST TO FARMERS

Watch Your Seed Potatoes

The potato growers of the state are being urged to store their seed stock this year with the greatest care and to keep close watch of their seed bins throughout the winter.

"The reason for this special precaution is that owing to the unusual weather conditions last fall late blight attacked many of the fields and gained entrance into the tubers.

If we are to have sound seed stock for planting next spring, it will be necessary for us to remove from the bins all rotten tubers and those with blight spots, declares James G. Milward, secretary of the Wisconsin Potato Growers' association.

According to him the vitality of the potato seed depends very largely upon how it is stored during the winter months, and anything which, in any way, injures the stored tuber is sure to result in decreased vitality of vine growth the following season.

Two conditions to avoid in storing potatoes are varying temperature, and any considerable loss of water due to evaporation, which causes the tubers to shrivel and shrink.

Many farmers in the potato districts of the state now have good underground potato cellars, where the seed stock can be protected against frost injury, and so kept at a uniformly even and sufficiently low temperature (33 to 40 degrees F.).

Consider State Drainage Problem

A conference of two drainage commissioners and drainage engineers and contractors is being held in Madison to consider ways of improving the lands of the state which are in need of better drainage.

Township assessors' reports, which have been verified by field surveys, indicate that there are in Wisconsin several millions of acres in need of better drainage. Of this area about one-half consists of muck and peat marshes and the remainder is made up very largely of wet clay lands.

Of the state's marsh lands a smaller proportion is in marshes of from 25,000 to 50,000 acres. To effect improvement of these areas requires the co-operative action of a large number of property owners.

Every important phase of the drainage problem is receiving attention at this conference and a permanent organization of the men interested in drainage is being effected.

Wisconsin Agricultural

Wisconsin's standing as an agricultural state is advanced by reports on the average yield of corn in the various states for the past ten years. Wisconsin's yield is 35.2 bushels to the acre and only four states make a better showing and these are but a little greater. Pennsylvania leads with 38 bushels per acre. Ohio is next with 38.1, Indiana shows 37, Illinois 35.5 and Wisconsin 35.2.

Now Wisconsin may be counted as a corn state. Wisconsin raised last year 32 million bushels of potatoes which is almost the extent of the crop of Michigan which leads the country in the tuber product. Wisconsin has more cows than New York, which is second, and while New York's number of cows is falling off Wisconsin's is increasing. There have been 30 new creameries established in Wisconsin within the year, and the value of the Wisconsin dairy product is 100 millions of dollars annually. There are those who expect it soon to reach 300 millions a year.

Results From Good Seed and Proper Farming

The Wisconsin Farmer is in receipt of an interesting letter from F. S. Campbell of Three Lakes who has been a red hot booster for better potato seed and yields. Campbell won first premium at the Oneida County Fair in 1912 on Rural New York potatoes, second at the 1913 fair and first at the 1914 fair recently held. He won first and a silver cup at the 1915 potato show in Oneida county, and carried off the same honors with the silver cup with the show held October 29th this year. He also won first and a silver cup on the same at the potato shows of 1913 and 1914. This remarkable record has been accomplished by carefully selecting seed. This year Mr. Campbell says they got right down to hill-selected seed. For six years he has been at the business of getting better seed every year and it is no wonder he revels in blue ribbons and silver cups.—Wisconsin Farmer.

Prompt Action Will Stop Your Cough

When you first catch a cold often indicated by a sneeze or cough break it up at once. The idea that "It does not matter" often leads to serious complications. The remedy which immediately and easily penetrates the throat is the kind described by Dr. King's New Discovery coughing the irritation, loosens the phlegm, you feel better at once. It is so easy to reach the very seat of the cough that it is one of the most honest testimonials. See at your Druggist.

LOCAL BASKETBALL TEAM DEFEATED BY SLINGER

Beaten at Schleisingerville Last Saturday Evening by Score of 40 to 28. Locals Defeat New Prospect Sunday Evening by Score of 87 to 17

The local basketball five journeyed to Schleisingerville last Saturday evening, but were not successful in defeating the strong team of that village, they having lost by the score of 40 to 28.

The locals were the first to score and it looked as if they would be returned victors, but Slinger took a spurt and made several goals, making the score at the end of the first half 20 to 15. Kewaskum was determined to win however, and soon tied the score in the second half only to be beaten at the last few minutes of play when Slinger made five or six goals in succession.

The game was very fast and not marred by roughness which prevails in most games. Had the local five played their usual game the result would have been much closer, if not a victory for our team. They were greatly handicapped by the size of the hall which is very small. Nevertheless, the boys are well satisfied with the treatment they received from the Slinger players. A return game will be played in this village on Sunday evening, January 24th.

Kewaskum Slinger
Ed. Romaine F. Wadewitz
Ed. Miller P. Priess
Ed. Romaine C. C. Friess
Al. Schaefer G. E. Theisen
J. Strachota G. Duensing

Summary of the game:
Field Goals, El. Romaine, 5; Ed. Romaine, 1; Miller, 4; Schaefer, 1; Strachota, 2; Wadewitz, 5; P. Priess, 1; Friess, 5; Theisen, 2. Free Throws, Miller, 2.

On Sunday evening the locals defeated the New Prospect team in this village by a score of 87 to 17. The game was very one-sided and was of no interest as usual. The visitors could not guard our players and never had a chance to hold them from scoring. This was the first game that the visitors played and with a little more practice will make a good team, they having a very strong lineup.

ARE SOME HUNTERS

Rev. William Wescott, pastor of the Congregational church, this city, is one of four brothers who recently returned from a hunting expedition in the vicinity of Winter, Wis., which is in the locality of Cameron Dam, made famous by John Dietz. The other brothers are Earl of Milwaukee; Raleigh of Barron, Wis., and Bruce of West Bend. Each member of the party secured his legal allowance of one deer, the largest of which was a 210 pound one, and in addition the brothers brought out of the woods the carcasses of three black bears—a mother and her two cubs—which the hunters had quite a time with before they succeeded in killing them. The bear carcasses will provide fine furs for the Wescotts.—Waukesha Dispatch.

H. A. SAWYER HONORED

H. Arthur Sawyer of Hartford, the present district attorney of Washington county will be named United States district attorney for the eastern district of Wisconsin if the nomination of Mr. Sawyer is expected to go to the United States senate within a week. This appointment will please all of Mr. Sawyer's friends and every resident of the county who recognize the sterling worth and character of this deserving young man. He has been elected district attorney three times, and always gave the best of satisfaction. He is an able attorney, well qualified to the high office to which he will shortly be named and that he will make good in his new position is a foregone conclusion. He will conduct the office to himself and with credit to the party for whose welfare he has labored unflinchingly for many years.—West Bend Pilot.

TO KEEP POSTOFFICE OPEN

In order to avoid a congestion of the delivery and receipts of mail and to give all ample time in mailing their parcels for Christmas, Postmaster Geo. H. Schmidt wishes to announce that he will keep the local post office open on the evenings of Monday, Tuesday and Wednesday, December 21st, 22nd, and 23rd, until 8:30 p. m. The citizens of the village are especially urged to do their Christmas mailing during the evenings aforesaid mentioned. By doing so it will mean a saving of time waiting during the day when the office force will be busy otherwise.

Mr. Schmidt further wishes to state that if packages are to be sent any distance the parcel should be mailed at once so that they can be marked "Do not open until Christmas" or other similar quotations.

The public should also bear in mind that when mailing unsent Christmas, New Years, or other cards, that said cards must be enclosed in a sealed envelope and postage paid at the first class rate 2 cents per ounce or fraction thereof.

THE "OLD FASHIONED" MOTHER

Thank God some of us have an old fashioned mother. Not a woman of the period, painted and enameled, with all her social manners and fine dresses, white jeweled hands that never felt the clasp of baby fingers, but the dear old fashioned mother with a sweet voice, eyes into whose clear depth the love of light shone, and hair just threaded with silver lying smooth upon her faded cheek. The hands, worn with toil, gently guided our steps in childhood and smoothed our cheeks in sickness ever reaching out to us in yearning tenderness. Blessed is the memory of an old fashioned mother. It floats to us like the perfume of some wild blossoms. The music of other voices may be lost but the enchanting memory of her will echo in our soul forever.—Exchange.

NOTICE TO PICTURE PUZZLE CONTESTANTS

On account of the cut for picture puzzle No. 14, being delayed in the mails we were unable to change the ad this week, but expect the cut to arrive in time for next week's issue. We are therefore running last week's picture for those who did not cut it out of last week's issue.

IS RECOMMENDED FOR POSTMASTER

Thomas Curran to be Recommended in The Very Near Future as Postmaster at Campbellsport

Congressman M. K. Reilly of the sixth district, just before leaving for Washington, D. C. to attend the regular session of congress, made an announcement that he would soon recommend the name of Thomas Curran of Campbellsport for postmastership of said village to succeed Pat Durand whose term expires soon after January 1st. There were eight candidates in the field at one time for this position. The statement of Congressman Reilly in regard to this appointment is as follows: "The making of this appointment was not a very pleasant or an easy matter for me. In making selections there are three rules that I always follow. They are: The candidate must be a man of ability and very efficient, he must have a very good standing in the community in which he resides, and last, he must be a man that has given good political party service previous to his appointment."

Mr. Curran is one of Campbellsport's most prominent citizens. He is one that is well liked by all the recommendation to be made by Congressman Reilly will meet with the hearty approval of all.

AMID RAGING BEASTS" BROTHER OF KEWASKUM CITIZENS DIES

John M. Fleischmann of Campbellsport Passed Away at His Home Last Thursday

John M. Fleischmann, brother of Mrs. William Hausmann, Miss Elizabeth Fleischmann and Mrs. Fred Andrae Sr., of this village, passed away at his home in Campbellsport last week Thursday evening after a serious illness of three months duration.

Mr. Fleischmann was born in Germany April 28th, 1839. He is survived by two sons, Charles Fleischmann of Campbellsport, and Frank Fleischmann of St. Kilian, three daughters, Mrs. Kate Theisen and Mrs. Adolph Ulrich of Campbellsport, and Mrs. Matt Thill of South Elmhurst; three sisters, Mrs. William Hausmann, Miss Elizabeth Fleischmann and Mrs. Fred Andrae Jr., all of this village.

Deceased had reached the age of 75 years. He was a man who was held in high esteem by all. His acquaintance was very large and they greatly sympathize with the survivors in this bereavement.

The funeral services were held on Monday morning from the St. Matthews church at Campbellsport. Rev. E. J. July officiated. Burial was made in the Union cemetery. Mrs. Hausmann, Miss Elizabeth Fleischmann and Mrs. Andrae of this village attended the funeral.

JOHN WILGER FOUND GUILTY BY JURY

Important Case Tried in Justice Rolf's Court, West Bend, Monday. Defendant Was Charged With Having Violated Saloon Ordinance

The case of the city of West Bend vs. John Wilger, for a violation of the saloon closing ordinance was tried before a jury in Justice Rolf's court on Monday. The city was represented by its attorney L. O'Meara, while attorney Zabel of Milwaukee appeared for the defendant. The case was called at 9:30 o'clock and so much interest was taken that the court room was crowded to the walls. Mr. Wilger demanded a jury trial and the following jurors were summoned: John Trevisanus, Louis Ottmer, George Koch, Geo. Obermeyer and Fred Karsten. The case was fought bitterly by attorneys, and many witnesses were called to the stand. At the conclusion of the arguments to the jury, the jury retired and in thirty minutes they agreed that Mr. Wilger was guilty as charged. The justice thereupon assessed a fine of \$25 and added costs of the action—\$20.56. Mr. Wilger asked for a stay of proceedings, but as there was no such move possible he paid fine and costs. The complaint against Mr. Wilger was made by Policeman Heild, who charged that Mr. Wilger had his saloon open after midnight and handed out liquor after that hour. The policeman feels that his case was a just one, and is naturally highly pleased at the verdict of the jury. He says he will see to it that the city's ordinances are enforced to the letter and hopes our citizens will approve of his determination. Winning his case for an attorney who has a state wide reputation is a feather in the cap for West Bend's rising young lawyer, and the city authorities have the highest praise for the very able manner in which he handled the case.—West Bend Pilot.

WILLIAM SCHAEFER AND ANDREW DRICKEN PASS AWAY AT THEIR RESPECTIVE HOMES EARLY THURSDAY EVENING

We are this week obliged, with deep regret, to publish the news that the grim reaper, early on Thursday evening called away two of our well known citizens, Mr. William Schaefer and Mr. Andrew Dricken.

Both of the parties have been in failing health for several months. Mr. Schaefer was the senior member of the firm of Schaefer & Schultz, who conduct the Republican Hotel of this village. He was a man well liked by all.

Andrew Dricken is the youngest son of Mr. and Mrs. Peter Dricken of this village and a carpenter by trade. His acquaintance is very large.

The funeral of Mr. Schaefer will be held on Sunday afternoon at 1:30 o'clock from the home to the Ev. Peace church with interment in the congregation's cemetery, Rev. Mohme officiating.

The funeral of Mr. Dricken will be held on Monday morning at 9:30 from the Holy Trinity church with interment in the congregation's cemetery. Rev. Ph. J. Vogt will officiate.

A fitting obituary of both of the deceased will appear in our next week's issue.

AMONG OUR NEIGHBORS

Waupun's sewerage system claimed a victim Wednesday in the person of William Reed. Reed was at work putting in a sewer at the Fred Dehne residence. The excavation had been completed and the last pipe was being laid. Mr. Reed sent his helper to get an extra length from the lumber yard and instructed him to notify the city clerk, R. C. Merriam, that the job was ready for inspection.

When the city clerk arrived on the scene the trench had caved in and nobody was to be seen. The helper soon returned and noticed that the tools had also disappeared, pointing to the conclusion that Reed had been buried alive.

Work of digging began at once and the body was found about a foot below the top of the dirt in a stooping position. The unfortunate man had been caught and smothered when the earth gave away.

Reed was a young man and had been married about two weeks previous to his death to Miss Nellie E. Bush of Wapuna.—Horicon Reporter.

THE LOCAL SECTION CREW HAD A NARROW ESCAPE FROM SERIOUS INJURY OR POSSIBLE DEATH, LAST SATURDAY MORNING AT NINE O'CLOCK, WHEN THEIR HANDCAR WAS STRUCK BY A SOUTH BOUND SPECIAL TRAIN AND TOTALLY DEMOLISHED.

The members of the crew did not know about the running of the special train, and owing to the dense fog and the rumble of their own car, did not know of the danger they were exposed to, until the engine was within a very short distance from them. The men jumped and were uninjured but could not save their car.—Campbellsport News.

Mrs. Herman Kruke, who resides on a farm in the town of Port Washington, was badly injured on Wednesday as a result of an attack by a vicious cow. The animal was secured in a stanchion, but when Mrs. Kruke passed in front the cow lunged and gored her badly, one point of the horn penetrating the body near the stomach and inflicting a serious and painful wound. Three local physicians attended the patient, whose condition continues to be precarious.—Port Washington Star.

The body of Otto Schweitzer, of Milwaukee, who was drowned in Windlake Oct 7, was recovered by John Jeremy and son, the Indians of Stillwater, Minn., on Tuesday. Mr. Schweitzer fell from a boat and all efforts to locate his body were unsuccessful until finally the Indians, who have made a record for recovering bodies, were engaged and they seemed to have little trouble in locating the body.—Burlington Standard Democrat.

Hugo Landvatter, employed in the Gehl plant, had a rather unpleasant experience on Monday. While oiling a shaft in the machine shop his clothing was caught on a shaft and was literally torn off his body. He received slight bruises but no injuries that will disable him. It was a lucky escape.—West Bend Pilot.

EDITOR HORN IN RACE

The editor of the News has his "hat in the ring" for the postmastership of Cedarburg. Other candidates in the field are Jacob Dieckrich and Joseph Poole. Congressman Burke notified each candidate by letter Tuesday morning that petitions could be circulated among the voting patrons of the local postoffice beginning Friday.

The term of the present postmaster, Herman Boerner, expires on December 15th, and it is believed Representative Burke will appoint his successor in the course of two or three weeks.—Cedarburg News.

Here is good luck to you Brother Horn. We are sure that if you are successful and once in the harness, you will like the work and honor as postmaster.

STRIKING PUPILS ARE LOCKED OUT

PARADE OF 150 STUDENTS IS FOLLOWED BY LARGE INDIGNATION MEETING.

SCHOOL BOARD STAYS FIRM

Parents Uphold Boys and Much Discussion is Caused Where Public Sentiment Seems to be Equally Divided.

Eau Claire.—A sympathetic strike of about 150 high school students, thirty of whom were girls, in demand that twenty-three boys recently expelled from the high school be reinstated, is the latest development in the controversy between school authorities and students.

It had been decided by the parents that the suspended students go back peacefully to school, but they were met at the main entrance and refused admittance by the teachers. Calls from strikers outside the building brought several students when the doors to all but the front entrance were locked and the police guard placed at the unlocked door to prevent students either entering or leaving.

After a meeting in the park, a parade in Indian file was formed, consisting of all the strikers, marched about town traversing the business section several times and disbanding after deciding to remain on strike until all expelled students are reinstated unconditionally.

A majority of the parents upheld the boys and public sentiment seems to be equally divided. Much discussion has been caused by the locking of the doors at the high school, contrary to state law. No guards were left at the locked entrances, and if a panic had spread among nearly 500 pupils remaining in the building many lives would have been imperiled, it is said.

AUTO BANDITS AGAIN ACTIVE

Resisting Five Assaultants, Earl Dexheimer of Fort Atkinson, Suffers Fracture of Skull.

Madison.—With Earl Dexheimer of Fort Atkinson, a junior in the college of engineering of the University of Wisconsin, lying in the Madison General hospital with a fractured skull as a result of the second outbreak of the holdup wave, students at the state school are aroused to a high pitch of excitement.

Dexheimer was one of three victims attacked by five masked bandits who drove up to the curbstone in a car just outside of science hall, directly opposite the residence of President C. R. Van Hise. Dexheimer, who was accompanied by a young woman, took the affair as a joke at first and was slow in complying with the demands of the men to "shell out."

Shortly before, two men took a watch from Dr. M. Morse in front of Chemistry Building, and near by, Frederick Wayman, a freshman, was robbed of \$5 and a stick pin. No trace of the robbers has been found. A group of students who learned of the holdups, scoured the Latin quarter in an automobile, a short time after the attack, but found no one.

Superior to Build Hotel. Superior.—A \$250,000 hotel is assured for Superior through negotiations which have just been completed by special committees of the Commercial and Rotary clubs with former Twin city hotel men whose identity is kept a secret for business reasons.

Work will be begun in the spring and the structure, which is to be five stories high, will be ready for occupancy in the early fall. It will be strictly fireproof, with a frontage of 100 feet on Tower avenue and 140 feet on Eleventh street, standing on the southwest corner. The site was secured on a ninety-nine year ground lease from the owners, eastern men.

STRANGER SAYS HE IS DIETZ

Tells Eastern Papers Secured Pardon From President For Famous Cameron Dam Defender.

Milwaukee.—Reports are again being received regarding a man who claims to be Leslie Dietz, son of the Cameron dam defender, and says he walked from Winter, Wis., to Washington, D. C., to see the president and obtain a pardon for his father. A few days ago the supposed Leslie Dietz arrived at Baltimore, Md., and declared he had secured an interview with President Wilson, that the latter had promised to pardon the elder Dietz, and had already signed the necessary papers. The supposed Dietz visited offices of Baltimore newspapers and claimed to have presented to the president a petition with 3,000,000 signatures. He said he had started on his long walking trip almost two years ago, visiting many states. According to word received from Chippewa Falls Leslie Dietz was in that city on Dec. 6 to attend the opening of the Metropolitan theater, in which he is interested. He left there for Mayville, Wis.

The members of the Dietz family have been showing moving pictures of the adventures of their father and themselves during the Cameron dam affair, and have been making large profits out of their enterprise. In addition, they have been showing at moving picture houses in all parts of Wisconsin and have sold their rights in other states where they could not appear personally. They reserved for themselves, however, the rights for Minnesota, Michigan and Illinois. About six weeks ago a man claiming to be Leslie Dietz walked into the office of the New York Globe and convinced the editors he was genuine. He said he was completing a walk of 50,000 miles and had obtained 1,000,000 signatures to a petition requesting that his father be pardoned. He stated at that time he was leaving New York for Washington. He did not seek money.

At the time of the New York incident members of the Dietz family issued a statement scoring the man as an impostor and denying that Leslie Dietz had been in any of the cities mentioned.

The family is unable to explain the actions of the stranger. Thus far all efforts to take him into custody have been unsuccessful.

MORE HERDS CONDEMNED

State Veterinarian Warns Against Visiting Neighboring Farms While Disease is Prevalent.

Madison.—Two new herds of cattle have been found infected at Oregon by State Veterinarian O. H. Ellason and the cattle will be killed at once. The infected cattle were found on the farm of Jessie Hall and Mr. Goggin. Dr. Ellason is of the opinion that the infection was brought to the Hall farm by hunters and may have been carried to the Goggin farm as the result of visits. An outbreak of the foot and mouth disease has also been discovered on the Clark Harris farm near Delavan.

In the territory where the disease is prevalent people should not visit each other's farms," said Dr. O. H. Ellason. "Do not visit each other's cattle and stay at home as much as possible so that this plague may be wiped out." To date upwards of \$55,000 worth of cattle has been condemned and slaughtered in the state as the result of the foot and mouth disease.

STATE SUFFRAGISTS ELECT

Adopt Budget and Set Aside Salary For an Experienced Field Worker.

Milwaukee.—A unanimous ballot cast at the convention of the Wisconsin Suffrage association in the Hotel Pfister re-elected Mrs. Henry M. Youmans, Waukesha, president of the association. Other officers chosen are: Vice presidents, Miss Zona Gale, Mrs. Victor Berger, Milwaukee; Mrs. J. A. Strathearn, Kaukauna; corresponding secretary, Mrs. James L. Foley, Watertown; recording secretary, Mrs. A. J. Rogers, treasurer, Miss Emma Robinson, Kenosha; auditors, Miss Melissa V. Brown, Madison, and Mrs. Lena Hobbins, Madison.

The \$5,450 budget presented was accepted and it was suggested that \$1,200 be set aside for the salary of an experienced organizer for field work.

SUPREME COURT HELPS HUSTING

GETS MANDAMUS OF HIGH TRIBUNAL TO EXPEDITE SENATORIAL RECOUNT.

CASE COMES UP DECEMBER 8

Election Canvassing Boards Must Certify Immediately to Their Respective County Clerks in Three Counties.

Madison.—Justice J. B. Winslow of the Wisconsin supreme court, on petition of Paul O. Husting of Mayville, democratic claimant of the election as United States senator, issued an alternative writ of mandamus requiring the county board of election canvassers of Milwaukee, Dane and Douglas counties to certify immediately to their respective county clerks their determination of the vote for United States senator as originally canvassed, and requiring the clerks of the three counties to transmit to the secretary of state such returns and the state board of canvassers to canvass such returns on or before Dec. 10.

The petition sets forth that Gov. McGovern asked for recounts of the senatorial votes in the three counties in question and that such recounts are not likely to be completed until the middle of next year. It is alleged that the petitions for recounts were filed for the purpose of securing undue delay in the final canvass. The authority of the state board of canvassers, it is alleged, will expire on Dec. 10. If the returns to the state board are canvassed without the returns from Milwaukee, Dane and Douglas counties, Mr. Husting says, the result may show that Gov. McGovern has an apparent plurality of 6,000 votes whereas, Mr. Husting declares, he himself has a plurality of over 1,100 votes.

McGOVERN TO HEAR PLEAS

Will Consider Many Appeals From Prison and Milwaukee House of Correction.

Madison.—Gov. McGovern on Dec. 11, 14 and 15 will hear applications for pardons for twenty-one persons confined in the state prison and the Milwaukee house of correction. The petitioners and the order in which their petitions will be heard are: August Krueger, convicted of murder in the first degree at Stevens Point on Oct. 17, 1912, and sentenced to prison for life; Hugo Kelling, convicted of assault and robbery in Milwaukee on Sept. 17, 1913, and sentenced to three years to the house of correction; Dell Oborn, convicted of murder in the second degree at Oshkosh on Dec. 15, 1908, and sentenced to twenty-one years in prison; Kennel Paskos, convicted of manslaughter in Dodge county on Feb. 16, 1914, and sentenced to four years in prison; Frederick C. Schwaders, convicted of sodomy in Milwaukee on March 22, 1912, and sentenced to five years in prison; Lester Showalter, convicted of rape at Lancaster on Oct. 6, 1910, and sentenced to fourteen years in prison; Emma Thrush, convicted of murder in the first degree for killing her husband, at Ashland, and sentenced to prison for life; George Williams, John Howe, Harry Daniels, Frank Mulvaney and John Webb, convicted in Trempealeau county on April 4, 1911, for having possession of burglar tools and sentenced to prison for ten years; George Willoughby, convicted in Milwaukee on Jan. 22, 1908, of murder in the first degree and sentenced to prison for life; Max Winkel, convicted in Trempealeau county on Oct. 3, 1903, of murder in the first degree and sentenced to prison for life.

File Expense Schedules.

Madison.—W. H. Hatton of New London, defeated aspirant for the republican nomination for governor, on Friday filed a statement in the office of the secretary of state declaring that he had spent \$4,776.10 for campaign purposes. Gov-elect E. L. Philipp of Milwaukee spent \$4,310.64. The expenses of the June convention, he said, were \$468.87. A. H. Dahl of Westby, defeated aspirant for the republican nomination for governor, spent \$2,549.31, owes in unpaid bills \$756.54, and received in contributions \$2,550. Congressman H. A. Cooper of Racine spent \$425 and Congressman John M. Nelson of Madison \$226.74.

DAIRY NOTES

The milkers' hands must be not only clean but also dry. A trade mark can be made very valuable by a good dairyman. When selling butter it pays to put it up in neat, attractive cartons. A fall calf becomes a producer when milk and butter are most valuable. A poor milker is one of the surest means of diminishing the milk flow. Remember that the income from the dairy is an all-the-year-round proposition. One way to improve dairy quality is to have better and more sanitary barns. The success of a dairy depends largely on the careful rearing of the best heifer calves. The milk of a cow affected with anthrax cannot be safely used, or should not be used. If there is a drip, drip from the roof of the dairy barn you may just expect a drop, drop, drop in the milk production. Convenience in the management and arrangement of the farmstead saves both work and money in doing the daily work. Dual purpose cows and \$30 a ton grain are two rather discouraging propositions in more than one dairy section. The superiority of dairy farming over that of grain lies in the fact that the dairy farmer sells only the cream from the milk while the grain farmer sells the cream from the soil.

DAIRY THE DAIRY MAKE BUTTER INTO BLOCKS

Simple Device, Recently Patented, Quickly Transforms Bulky Material into Individual Cubes.

The simple device shown in the accompanying cut is a recently patented apparatus for quickly transforming a pound of butter or similar material into cubes for individual use. The material to be cut is placed in the trough or chamber between the strips and upon the open cutting frame, and

Butter Made Into Cubes.

In this position the hand operated pressing arm is depressed, which action forces the material upon the cutting frame from which it is forced and deposits the material in individual blocks or pieces of a certain size, weight and shape. The size and shape of the block can be regulated to suit the circumstances.

GENTLE BULL IS DANGEROUS

Many Breeders House the Animals in Such Manner That Handling Becomes Quite Unnecessary.

The dehorned bull can crush one fatally. He is less dangerous than the horned bull, just as a man with a closed fist is less dangerous than a man whose closed fist holds a sharp knife. Dehorn the bull by all means and put a ring in his nose. Lead him with a staff having a snap-hook to catch into the nose ring and in addition always have a rope or strap attached to the halter ring. If he wears a halter, or to the nose ring. If the bull pulls the staff out of one's hand he can still hang on to the strap. If the nose ring breaks out, or breaks, the strap or rope to the halter may help. Many dairymen now house their herd bulls in such a way that handling becomes unnecessary. The bullhouse has a gate door which holds with a rope and pulley, letting the bull into an alley connecting with a yard of small size and with a high, light fence. A cow may be let into the same yard by a different gate and the bull turned in with her.

SUGAR BEETS AS SOLE DIET

When Such Feeding is Long Continued Animals May Scour—Milk Flow is Materially Reduced.

Sugar beets or sugar beet tops fed excessively as a sole diet to milk cows will reduce the flow of milk and increase the live weight because they contain fat rather than milk-forming material. If such feeding is long continued the animals may scour and do poorly. A good feed of beets for an ordinary cow is 30 to 40 pounds per day in two feeds along with a small amount of grain and all the alfalfa or clover hay she will eat. Sugar beet tops should be fed carefully and never as a sole diet.

Canadian Wheat to Feed the World

The war's fearful devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and there is an unusual demand for Canadian wheat. Canada's invitation to every industrious American is therefore especially attractive. She wants farmers to make money and happy, prosperous homes for themselves while helping her to raise immense wheat crops. You can get a Homestead of 160 acres FREE and other lands can be bought at remarkably low prices. Think of the money you can make with wheat at its present high prices, where for some time it is liable to continue. During many years Canadian wheat yields have averaged 20 bushels to the acre—many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax. Mixed farming is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, markets convenient, climate excellent. Military service is not compulsory in Canada, but there is an extra demand for farm labor to replace the many young men who have volunteered for the war. The Government this year is urging farmers to put extra acreage into grain. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada, or Geo. A. DODGING THE BEATEN PATH

Good Story as it is Related, Though it Doesn't Often Happen in Real Life.

Congressman Robert L. Dougherty of North Carolina smiled when the conversation turned to reversing the order of things. He said he was reminded of the case of Bowers. Bowers met a benevolent party on a railroad train one day, and as the acquaintance ripened a bit he began to spread before the other the history of his life.

"When I was a clerk in a grocery store," remarked Bowers, among other things, "I received only nine dollars a week, and, like many other young men, I fell in with bad companions and began to gamble. I—" "I see," interrupted the benevolent party, sadly, "you were tempted and took money which did not belong to you."

"Oh, no," cheerily responded Bowers. "In less than a month I won enough money to buy the grocery."

Astonished Minister.

The proud father had come up from the country to see his sailor son on board his ship. He had never seen a battleship before, and accordingly marveled thereat. Just as he caught hold of the two ropes which hung over the side to assist sailors to the deck, he was somewhat surprised to hear a clanging of bells—the eight bells of seamen's time. As he stepped on deck he met the officer of the watch. He saluted him and said, timidly: "I beg your pardon, sir, I've come to see my son Jack, but, 'pon my word, I didn't mean to ring so loud."

MAN'S LOVE FOR THE DOG

Strong Spirit of Affection That Binds Them Together Has Long Been a Matter of Note.

The day before I reached Chitna I met a trapper carrying five little puppies on his back. He had the mother dog with him in good condition. He had been three days (two of them without any food) making 12 miles rather than sacrifice these dogs and he had frozen his feet and hands so badly as a result that I am afraid he was bound to lose some of his fingers and toes.

I like to think that I finished my 1,000-mile trip in 21 days with the same five dogs with which I started, and that not one of them had even a sore foot during the entire journey. In fact, before I started Psyriak had cut his left hind foot, which made it necessary to mucklock it, but when I finished my journey he was in better condition than at first.

Not once during the whole way did I sit on the sled; I pushed it for at least 500 miles and ran beside it for another 300. Running became such a habit that when I got to Cordova and started to go down the street I found myself unconsciously running. I really had to learn to walk from the beginning all over again.

I hated to part with my dogs, but as our country is too hot for them I decided to give them away. I broke up the team and separated them, so that they would not work together again. I had several chances to sell them, but I could not think of doing so.

When I boarded the boat at Valdez, where I left two of my dogs, my leader, Psyriak, tried to get up the gang-plank after me, but when they would not let him be stood there until the boat pulled out, whining, as much as to say, "How can you desert me now?"—Lieut. George F. Waugh in World's Work.

NEW IDEA NOT IMPRESSIVE

Cabman Tried It, and It Worked, but He Still Prefers the Old Way.

"I was in a county court the other day," said the seedy-looking cabman, "and I heard one of those solicitor chaps say, 'People don't seem to understand that the only thing necessary to keep a horse from kicking when he is down is to get hold of his ear and keep his nose up in the air. A horse cannot kick when his nose is in the air. I have seen a lady keep a horse quiet that way without soiling her gloves.' 'What's good enough for a lady,' says I, 'is good enough for me, and I tried it experimental-like, instead of sittin' on his 'ead'."

"Well," remarked the attentive listener, "did the horse kick?"

"Not a bit! He seemed so tickled with the idea that he couldn't stir for lamm!" But I think I shall sit on his 'ead next time, all the same."—London Answers.

Not in the Orders.

Jim's boss sent him up on the roof to paint it. That was early in the morning. Toward nightfall the boss clambered up the ladder to see whether his workman had flown away or been eaten by the birds. There was Jim sitting on the edge of the house, singing.

"Jim, you lazy piece, what you been doin'?"

"Nuffin'."

"Didn't I send you up here to paint the roof?"

"Yassir."

"Well, did you do it?"

"Yassir."

"What else did you do?"

"I went to sleep."

"Why didn't you come down if you had finished?"

"'Deed, boss, you jes' said paint de roof. You never said nuffin' 'bout comin' down'."

Old Sunday School.

There is many an old collier, agricultural laborer and factory operative still living who owes knowledge of reading, writing and arithmetic to attendance at Sunday school, for down to quite modern times secular as well as religious instruction was given, relates the London Chronicle. The change came with the enactment of compulsory education in 1870; and an aunt, still happily vigorous, and alert, has told me her embarrassment when, as a young girl who had just left Miss Pinkerton's academy, she found among the class allotted to her in the Sunday school the gray-haired old coal dealer of the village, who wished to learn arithmetic. For many years also Sunday school teachers were regularly paid. Robert Raikes, for instance, gave his assistants 1s 6d per Sunday.

Timely Admonition.

The death of a child as a result of its clothing catching fire from an open grate has moved Coroner Jamison to admonish parents that the safety of their loved one is imperiled by the tolerance in homes of unscrupulous and gas stoves. Year after year the advent of cold weather has marked the beginning of a long list of fire fatalities, probably the most agonizing form of death, and yet, in spite of such warnings, the unscrupulous grate is the exception and not the rule. In the months of January and February of the present year no less than 22 children were burned to death as a result of the use of open coal and gas grates, and during the year many women have met a similar fate.—Pittsburgh Chronicle Telegraph.

A Little Thing Like That. If you are sufficiently talented look in your glass, comb your hair and hold a candle in one hand, all at once. You must be alone, too. If lucky, you'll see your true love's face over your shoulder.

Pleasures of the Rich.

"Mrs. Van Million is back from Europe."

"What is she so tickled about?"

"Seems she smuggled in two packages of foreign cigarettes."

PRaises WISCONSIN ANTI-TUBERCULOSIS ASS'N

Milwaukee, Dec. 7th (Special)—To a Wisconsinite, an organization dependant upon public support which does not beg, and beg mainly from the rich, may not afford occasion for wonder; writes Samuel Hopkins Adams, eastern magazine writer and public health expert in a peculiarly bright and readable article, "Health to Sell" which appears in the forthcoming issue of La Follette's. To me the principle was revolutionary. It required a genuine wrench of the mind to adjust myself to this radical fact, that one hundred dollars (unsolicited by the way) is the largest contribution in money ever made to the Wisconsin Anti-Tuberculosis Association. Practically the only source of revenue is the sale of the Red Cross Seals.
To every man, woman and child who aids the public health movement by the selling or purchasing Red Cross Seals, this health agency by Mr. Adams has a personal interest for it brings home in a vivid way the immensity of the work, as seen by an outsider, that is being done in Wisconsin and that is financed entirely by the pennies from the sale of seals. How wisely that money is spent and how widely Wisconsin methods are influencing the national public health movement are emphasized in Mr. Adams' article from which the following excerpts are taken by courtesy of LaFollette's:
"Selling health is the actual business of the Wisconsin Anti-Tuberculosis Association. It has completely commercialized a splendid endeavor, commercialized it not for private profit but for public gain.
"I don't believe there is another concern in the world so undercapitalized.
The Wisconsin Anti-Tuberculosis Association is not businesslike. It is business.
Dr. Hoyt E. Dearholt, Executive Secretary of the association, is the originator and standardizer of the principles, unique so far as my experience goes, whereon the association conducts this work.
He is, I believe the most practical educator now engaged in public health work. He has found a method of making money not only talk but teach. That, in the main, is the Dearholt idea. It is the working basis of the Wisconsin Anti-Tuberculosis Association.
"The Dearholt idea is not narrowly confined to tuberculosis alone. The penny's primary business is to save life.
Not only is the sale of seals a source of revenue, but it is a most potent and practical agency for educating the young American in the nature and danger of the Great White Plague.
The boys and girls believe they are learning to sell goods. So they are; but the vital lesson which they are sub-consciously absorbing is the truth which teaches them to protect themselves, their households and their city from the most destructive of all scourges.
There may be commercial organizations in this country which have as complete and pervasive a system as that organized under Dr. Dearholt and perfected by Mr. Bradley, but I have yet to hear of them. It is a saturated solution of selling.
Scientifically, Wisconsin's distinctive achievement has been its investigation into and determination of rural tuberculosis. The "Flying Squadron of Health" has become noted throughout the country among hygienists.
Werle is ever on the trail. To catch the man who is already interested is easy, says he. Its the man who don't care a hang that we've got to get. So he studies how to make tuberculosis interesting.
Every newspaper in the state is on their list and most of them are on their staff.
They have enunciated a principal, new, so far as I know, in quasi-official public health work. Help the man on the job to do the job. It is one of the big ideas of the Wisconsin system.
Not a penny comes in to headquarters which has not brought somebody a lesson in health in the giving. Not a penny goes out from headquarters but bears to some other its message of life-saving. It is the only campaign in scores that I have studied in which there is no waste.
The defense is the people's penny, offered not as charity but as to a fund for mutual protection against the common and ever imminent destroyer."

SANTA CLAUS
Manufacturer of Toys, Playthings, Candies, and Everything for Christmas

SANTA CLAUSVILLE, DECEMBER 12, 1914

MY DEAR PEOPLE OF KEWASKUM AND VICINITY:

As usual I have made my yearly visit to the L. ROSENHEIMER STORE at Kewaskum, and left them a big share of the toys I made up during the year. They have always given me a nice space, on their second floor, to display my goods, and this year I left a better assortment of TOYS, Candies and Winter Goods, than I ever did before. While at the store the other night, I took a peep into the various departments, such as the SHOE, CLOTHING, DRESS GOODS and CLOAK departments, and was really surprised to see such a fine assortment. I must say these people carry a BETTER and CLEANER STOCK OF MERCHANDISE than any of the neighboring stores I called at, and their prices are not high. I would advise you to go to the L. Rosenheimer store early (do not wait too long) and you certainly will not be disappointed. Hoping you will take advantage of this advice, so I can call again next year, and bring them a good big supply, I remain,

Ever your,

The Safety Habit

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle. It's safety for the lives entrusted to their care.

The same principle applies to the banking business. Our bank employed the Safety Habit at the outset—Safety to the depositors' money entrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

GERMAN TROOPS OCCUPY LODZ

Capture of Town Officially Reported From Berlin and London.

RUSSIAN STATEMENT MADE

Impossible at This Time to Estimate Losses or to Ascertain Number of Prisoners—German Victory is Considered a Remarkable Feat—Kaiser Reported Indisposed.

Berlin, Dec. 9.—It was officially announced this afternoon that Emperor William is ill. The announcement states that he is suffering from a feverish bronchial catarrh and has been obliged to postpone for some days his return to the front, which had been arranged for today.

Berlin, Dec. 8.—The German official statement given out in Berlin this afternoon says that in northern Poland German forces were successful in prolonged fighting around Lodz in defeating strong Russian forces stationed to the northwest and to the southwest of the city.

"In northern Poland we gained important successes in prolonged fighting around Lodz by defeating strong Russian forces stationed to the northwest and to the southwest of this city, which is in our possession.

Russian Loss Reported Large. "Details of the battle giving us Lodz cannot yet be made public because of the extended field over which the engagement was fought.

German Victory Remarkable. London, Dec. 7.—After a long battle fought with the greatest stubbornness, the Germans have succeeded in occupying Lodz, Poland, which is an unfortified city.

This success of the Germans, largely because of what preceded it, is considered by military experts a really remarkable achievement. Less than a fortnight ago the army to which this victory has fallen was surrounded by Russians and cut its way out only at the last moment, losing great numbers of men and many guns.

This was made possible by the network of strategic railways on the German side of the frontier, over which reinforcements can be sent where they are most needed.

Russian Army Hard to Move. The Russians, on the other hand, vigorously attacked on both wings, were unable to send fresh men to stiffen their center to meet the German wedge, and were compelled to fall back.

German Reported Pursuing Foe. Berlin, Dec. 8.—An official statement today says: "In northern Poland the German troops are closely pursuing the retreating enemy to the east and to the south of Lodz.

Petrograd Statement. Petrograd, Dec. 6.—An official statement issued here describes as ridiculous the German claims to having captured enormous numbers of prisoners, cannon and machine guns.

"On the other hand, the German details that they have lost a single gun is disproved by the fact that in the Brest-Litovsk district alone near Lodz we took from them 23 guns and a large amount of spoils.

Says Germans Lost Heavily. "Neither do the Germans mention the supply columns which they burned nor the cannon and ammunition which they abandoned in the forests and which we are gradually finding.

"The Germans also conceal the losses which they sustained in the November fighting, although witnesses state that never before had a field of battle presented such a sight as on the roads of the German retreat toward Strykow.

French Loss 100,000. Paris, Nov. 26.—(Correspondence)—The French war office does not issue lists of losses in the war.

The French military authorities, through their agents and spies, are well informed regarding the situation of the German army.

British Loss 3,213 Officers. London, Dec. 7.—To date Great Britain has lost in the war 887 officers killed, 1,777 wounded, 549 missing, and a total officers' casualties list of 3,213 men.

Battle Not Yet Over. London, Dec. 8.—The great battle for possession of Poland continues. The front extends along 300 miles and a victory over a part of it at least appears to have fallen to the Germans.

Official Berlin Report. Berlin, Dec. 7.—It is officially announced this morning that the Germans occupied Lodz, in Russian Poland, on Sunday.

The official communication issued yesterday merely stated that the battle around Lodz is taking its course as we expected, and continued: "Nothing of note has taken place in the war area east of the Mazurian lakes, where the enemy remained quiet.

Another official statement from the German headquarters was given out yesterday as follows: "The report given in the Russian statement of November 29 that the German attacks in the vicinity of Czestochowa failed with many casualties to the Germans is false.

The German official announcement is given further support by delayed dispatches from Petrograd to the Daily Telegraph.

"For the last three days," says one of these dispatches, "the Germans in Russian Poland around Lodz have been strenuously aggressive.

Germans Heavily Reinforced. "The German wedge, which already has been driven into Russian Poland, is being pushed with tremendous reinforcements. The base of this wedge is a line from Thorn to Kalisz.

"The enemy's plan around Lodz involves the cutting of some of Warsaw's most important lines of communication. The Germans plan to hold this wedge all winter by inaugurating elaborate trench warfare."

GUNS FOR BORDER

BATTERIES SENT TO NACO, ARIZ., WHERE MEXICANS ARE KILLING U. S. CITIZENS.

GEN. BLISS IS IN COMMAND

Reinforcement of Boundary Patrol Merely to Force Neighbors to Quit Firing North—Fighting is Resumed South of Border.

Washington, Dec. 10.—American troops have been ordered to stop the firing of warring Mexican factions across the border at Naco, Sonora, into the Arizona town of that name, in which five persons have been killed and 44 wounded.

President Wilson directed Secretary of War Garrison to issue the necessary orders following a cabinet meeting in which the representations of citizens in the Arizona town were discussed.

Reports received from General Bliss state that he directed Gen. John J. Pershing, in command at El Paso, to move a battalion of field artillery immediately to Naco, and that General Pershing replied that batteries A, B and C of the Sixth field artillery, which were en route to the north, would leave El Paso at daybreak.

The citizens of Naco, in a mass meeting on Sunday, directed an appeal by telegram to Senators Ashurst and Smith of Arizona, Fall of New Mexico and Smith of Michigan, concluding with the cry: "For God's sake help us."

The administration acted on the supplications of the citizens for relief from their perilous situation. The contending factions which have been fighting on the Sonora side for the past two months are the Carranzista forces under Gen. Benjamin Hill, who are entrenched about the town with their backs to the international line, and the Villalita faction, which is attacking under command of General Maytorena, former governor of Sonora province, whose force is mainly composed of Yaqui Indians.

A dispatch from Amsterdam says that, according to a message from Berlin, it is reported there that upward of 100,000 prisoners were taken by the Germans when they captured Lodz.

OPPOSE PUBLIC PROBE

PRESIDENT AGAINST INVESTIGATION OF WAR PREPAREDNESS.

Might Create Bad Impression Abroad

Favors Full Inquiry by the Regular Committee.

Washington, Dec. 9.—President Wilson announced that he was opposed to Representative Gardner's plan for investigating preparedness of United States for defense, because he thought it was unwise and "might create very unfavorable international impressions."

"The president told Representative Gardner that he was opposed to the method of inquiry proposed by Mr. Gardner, because he thought it was an unwise way of handling a question which might create very unfavorable international impression. He stated to Mr. Gardner that he was entirely in favor of the fullest inquiries by the committees of congress and that there were no facts in the possession of the executive department which were not at the disposal of those committees."

Representative Gardner, at the conclusion of the conference, declared that he would fight for an inquiry regardless of the president's opposition. He propounded two questions to the president, as follows: "There are two ways of defeating my resolution. It can be defeated on a vote, or it can be defeated on a committee on rules."

"Will you authorize army and navy officers to testify before the navy committee on my invitation, either with or without explicit instructions?" The reply of the president to these interrogations were not made public.

Mr. Gardner said he was not surprised at the president's position and would continue to press for passage of his resolution. He will consult with other members of congress to learn their views.

COLORADO COAL STRIKE OFF

Convention of United Mine Workers Adopt Resolution to End Trouble on December 10.

Denver, Colo., Dec. 10.—The Colorado coal strike—in northern and southern fields—is over. By unanimous vote of the convention of the United Mine Workers, a resolution was adopted on Tuesday night, officially declaring the strike of December 10.

The delegates from the northern fields, who have been out for more than four years, offered resistance at first, but the sentiment was overwhelmingly in favor of abandoning the struggle. The resolution under which the strike was ended was prepared by the national officers of the union at Indianapolis and sent here by a special committee. It provides that the strike be declared off and that the men apply for their places in the mines, depending upon the Low commission to procure for them certain reforms which they demanded. These relate largely to enforcement of mining laws.

Frank E. Gove, counsel for the operators, declared emphatically that the strikers would not be taken back. Coincidentally, a private telegram received here stated that Secretary Garrison had decided to withdraw the federal troops from Colorado immediately.

Wien. Das Selbstbild eines bayerischen Soldaten aus München wird dem Verf. Prof. Aug. telegraphiert. Von einem bayerischen Veteranen - Infanterie - Regiment folgte das 1. Bataillon in einem 3 bis 4 Meter tiefen Kanal umgeben vorwärts, als vom Feinde plötzlich das Wasser in den Kanal gelassen wurde. Die darauf aus dem Kanal steigenden Leute, die bereits bis an die Knie im Wasser standen, erlebten sofort Feuer aus feindlichen Schützengräben. Ein dem Bataillonstab beigegezierter Wachtmeister fuhr fort auf einem Rad nach der Schloßburg, durch die das Wasser einfiel. 400 Meter vor dem Ziel freipierte eine Granate, die den Mann vom Rade heruntertrieb, ihm aber nur Streifenwunden am rechten Oberarm und der rechten Hand bebrachte. Er fuhr weiter. An der Schloßburg fand er zwei französische Pioniere. Zu einem Hof er weg. Der andere war eine Handbombe und entfiel. Diese fiel glücklicherweise ins Wasser, doch konnte der verwundete Wachtmeister die Schloßburg nicht fassen. Unmittelbar darauf erhielt er einen Schuß in den Oberkörper und fiel nun selbst ins Wasser. Mittlerweile waren andere Soldaten auf Umwegen vorgegangen und fauberten die feindlichen Schützengräben. Als bald konnte das 1. Bataillon aus dem Kanal heraussteigen. Auch der tapfere Wachtmeister hatte sich über Wasser zu halten vermocht. Der Oberst erteilte ihm die Befehle und beförderte ihn sofort zum Unteroffizier. Der Kaiser verlieh ihm das wohlverdiente Eisenerz Kreuz. Im Lagerort steht der Held jetzt seiner Genesung entgegen.

Partenkirchen. Eine schwere Bluttat betrafte hier in einem hiesigen Hotel bedienstete Ehegattenmeister Bernhard Wehl aus Fiedorf vor einigen Tagen. Er schlich sich nach Mitternacht in das Schlafzimmer des Hausmeisters War Spärum im Hotel Stern, um ihn zu vergiften. Mit einem Weisfährer er auf den abgemessenen Schlafenden ein und brachte ihm lebensgefährliche Verletzungen am Kopfe und an den Armen bei. Der Heberfallene war gleich bewußtlos und konnte sich weder wehren noch um Hilfe rufen. Rüb nahm dann das Geld aus der Hosentasche des Spärum zu sich. Morgens halb 9 Uhr fand man den Heberfallenen in seinem Blute auf und brachte ihn ins Krankenhaus, wo er hoffnungslos darniederlag. Die von der Gendarmerie sofort angeforderten Erhebungen führten bald auf die Spur des Täters, das blutbefleckte Weil und Fußspuren haben ihn verraten. Er gelangte die schreckliche Tat ein und wurde in die Provinzhölle Garnisch eingeleitet.

Wiesbaden. Von den Söhnen des verstorbenen Landrats Gehemrats v. Dittfurth leben drei im Felde (Wilhelm, Horries und Karl). Alle drei erhielten das Eisenerz Kreuz 2. Klasse. Der jüngste, einzig noch lebende Bruder des Landrats, Generalleutnant Bobo v. Dittfurth, erhielt das Eisenerz Kreuz 1. und 2. Klasse. Von seinen vier Söhnen, die mit ins Feld zogen, erhielt der älteste das Eisenerz Kreuz 2. Klasse. Der dritte starb den Heldentod am 26. September vor Neims, und der vierte wurde am demselben Tage leicht verwundet. Der einzige Sohn von Goinar v. Dittfurth, dem jüngsten Bruder des Landrats v. D., erhielt das Eisenerz Kreuz 2. Klasse. Außerdem erhielt bis jetzt noch 5 andere Mitglieder der Familie v. Dittfurth das Eisenerz Kreuz 2. Klasse. Dortmund. Die Dortmunder Kronenbrauerei, die bereits 15,000 Mark für das rote Kreuz spendete, hat ein Lagerort mit allem Zubehör eingerichtet. Sie sorgt für die Familien ihrer im Felde stehenden Beamten und Arbeiter, und zwar in folgender Weise, daß die Stadt Dortmund nichts beizutragen braucht. Außerdem hat sie neuerdings zusammen mit ihren Beamten 20,000 Mark für den Kriegsliebesdienst aufgebracht. Endlich ist sie mit einem sehr erhellenden Beitrag an den 125,000 Mark beteiligten für den Verband Dortmunder Bierbrauer für den Kriegsliebesdienst zur Verfügung gestellt hat.

A remarkable story of a man going 11 days without food or water comes from Capetown, South Africa. The 7-dger had 5,000 tons of coal on board. While the coal was being discharged the laborers were astounded by seeing a hand emerge from the heap. In a few moments enough of the coal was removed to disclose the body of a man. After he had sufficiently recovered it was gathered that he was engaged at Delagoa bay in loading the Tiger. He was working the bottom

BADGER NEWS NOTES

Beloit.—The alumni council of Beloit college has reported in favor of the three year rule in intercollegiate athletics, according to a statement by President Eaton in an address, and the matter will be put to a vote of the student body on Friday. It is declared the vote of the students will decide the matter. Students will also decide whether to require freshmen to be in the college a semester or entire year before engaging in intercollegiate athletics.

Beloit.—The sophomores of Beloit college will, during their junior year, publish the College Codex, a biennial handbook. Harold C. Philbrook of Castleton, Me., was elected editor in chief and Eugene Drenning of Beloit, business manager. Among the editors are Miss Helen Hillhouse, Beloit, on organizations; Max Webb, Fort Atkinson, literary; Jeanette Denmore, Beloit, literary; Miss Fronnie Murray, Beloit, literary; Iris Cornell, Beloit, athletics; Miss Francis Walsh, arts.

Harley.—Walter Zukowski of Saxton, charged with having killed two deer—in excess of the legal limit, pleaded guilty and was fined \$32 by Municipal Judge Thomas. Game Warden B. P. Lanning and J. G. Keeler, at the time of arresting Zukowski, seized a 165 pound buck that was sold for \$25, which was turned over to the state treasury. Zukowski was again arrested for having three more deer in his possession, and a ninety day suspended sentence was imposed by the court when he pleaded guilty.

Grand Rapids.—The Marshfield Sanitary Mattress and Hammock company of Marshfield closed its factory this week and the property is now for sale. Originally known as the Marshfield Holding company, the plant has been in operation for the last ninety years. Five years ago it was reorganized under its present name.

Merrill.—Several dogs have been poisoned during the last few days in this city and it is feared that the culprits will succeed in killing many canines before they are caught. Two years ago nearly every road dog in the city was given strychnine and the parties doing the work were apprehended after doing much damage.

Washburn.—A big modern dairy farm for shipping milk to the larger cities is to be established east of Washburn by W. L. Hammond, a Chicago business man. He already has a fine herd of pure bred cattle on the place and is now arranging for installing modern appliances and equipment in a large barn.

Kenosha.—Lithuanian Catholics in Kenosha mourn the death of the Rev. John Gadelkis, known in Kenosha as the "priest of the poor," who died in the Alexian Bros' hospital in Chicago, aged 38.

Washburn.—Mr. and Mrs. Edward McDonald, the first couple married in Bayfield county after the eugenic law went into effect in this state, are the parents of a baby boy that tips the scales a eleven and a half pounds.

Plainfield.—The greatest sporting event of the winter was the double basketball game in this city, when the Plainfield girls defeated the Wild Rose school girls by a score of 17 to 1. The Plainfield High school boys defeated the Wild Rose High school team by a score of 56 to 9.

Hayward.—A needle swallowed six months ago by the infant of George Gouge was removed from the abdominal wall by an operation at the Indian hospital. The needle had worked its way a considerable distance upward and outward and was giving the child much pain.

Rhineland.—Another north Wisconsin hotel landmark is to be razed. The old Fuller house, built in 1888 by William Fuller and used continuously since as a hostelry, is to be torn down. Whether it is to make way for the modern hotel to be built under advancement association auspices is not known.

Park Falls.—Over \$40,000 worth of the stock of the proposed building and loan association has been subscribed, and it is believed over \$100,000 will be taken before the organization is completed in January.

THE CONVENTION GIVES YOU A VOTE OF THANKS, JUDGE, FOR MAKING KNOWN THE REAL TOBACCO CHEW.

IT WOULD BE A SELFISH MAN, INDEED, WHO WOULD KEEP TO HIMSELF GOOD NEWS LIKE THAT.

THE GOOD JUDGE IS GLAD TO DO HIS FELLOWMEN A FAVOR

ONCE it gets started every man on the job is soon using "Right-Cut", the Real Tobacco Chew. Each man has his friends—and so the circle widens. "Right-Cut" earns that best of all praise, the quiet word from friend to friend.

It's mellow, full-bodied tobacco—seasoned and sweetened just enough. The taste is fine and it lasts.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

It is a ready chew, cut fine and short so that you won't have to grind on it with your teeth. Grinding on ordinary sand tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered on with molasses and borax. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.

BUILD UP YOUR HOME MARKET

Farmers Should Patronize Local Trade Centers.

AVOID BOX CAR MERCHANT.

Interest Your Local Newspaper Publisher, Bankers and Lawyers in Plan to Advance Your Town—Mail Order Houses Stifle Development of Small Localities.

(Copyrighted, 1914, by Thomas J. Sullivan.) There are two ways of looking at the subjects of home markets, and the subjects should be studied from both viewpoints if a reasonably correct understanding is to be arrived at.

It should be understood in advance that each community, inclusive of all the people who live in the market town and the farmers who surround it, is an industrial unit and that the prosperity of the individuals living in the community rises and falls, ebbs and flows, with the prosperity of the community as a whole.

One important aspect of the situation is that the farmer has a right to look for a good market for what he raises and has to dispose of. He is a producer, first of all, and must produce before he can consume.

The trading center, where he would naturally expect to dispose of his surplus products, is not performing its functions as a part of the community if it does not make preparation for buying everything the farmer wishes to sell, and the market should always be a cash market.

This much the farmer has a right to demand in return for the support he is able to give the town.

Could Get Better Prices. If the farmers have in their local town a market for their products or a great part of them they would obtain a much better price for everything they raise, and the consumer would pay considerably less than the people living in large congested centers.

To supply the needs and demands of the people living in the large cities great quantities of country produce are daily shipped to the commission merchants operating there.

The city consumer pays the price for living in the center of excitement, as he joins with the producer in sharing the cost of moving the farm products to the large cities; also the expense entailed in handling, storing and disposing of them.

Town is Entitled to Support. On the other hand, having provided for a good, adequate market, the town is entitled to the support of the farmers.

Furthermore, the only manner in which the market can be maintained is for the farmers to give all their trade to their local merchants—keep their money at home.

The cow must be fed if she is to continue giving milk. You cannot draw more out of a cow than has been put into that milk.

If the farmers of a community persist in sending the money they receive for their products away from home to buy goods the time surely will come when there will be no money at home with which the town's tradesmen can buy the farmers' products.

This is the philosophy of the situation in a nutshell.

The residents of a town who does not exert his every effort in his interest, to build it up and make it strong and prosperous, is indeed retarding his own advancement. That's the logical reply.

Develop a Home Market. The first step in the right direction is the creation and development of a home market. Everything within your power should be done to make your town the trading mecca of your vicinity.

You should volunteer your services and co-operate with the other citizens in making your town the trading envy of your section of the state.

Give the question a little thought and when you have reached a conclusion do not hesitate to voice your sentiments.

Go to your local newspaper publisher, your banker, your merchant, your lawyer, your hotel keeper and your druggist and tell them what you think would be the best way to build up and advance your town.

Citizens Are Thoughtless. The efforts spent should not be directed in specific channels, but should embrace the betterment of rural life and conditions.

The work for the improvement of both town and country ought to be made a community job, and every resident should engage in the work with equal zest.

Local development will be hindered just as long as the thoughtless citizens line up at the counter of the faker and tender him their hard earned dollars and while they continue to aid in increasing the bank accounts of the enormous corporations engaged in selling goods by mail through deceptive pictures in expensive catalogues.

Let the community rise up in one body and put a stop to this practice.
