OF INTEREST TO FARMERS ************

The proposed single tax amendment to the constitution has again come forth for consideration in the state legislature. It isn't standing on the pure and simple tax footing, but is parading as the triend of upper Wisconsin devel-

opment.
What is the single tax? It is a proposal to place all tax on land. It is more than that. It purposes placing enough tax on land to remove all value therefrom.

The single tax doctrine is based upon the theory that "value in land is immoral." Therefore all of it. If the single tax were fully in force not an acre of land in Wisconsin would be worth a

dollar.
But it is said that this would help the development of the up-

Death of Herman Jaeger

At midnight on Sunday Feb. 28, ing from Bright's unease, aged 45

Herman Jaeger was born in the town of Barton on June 28, 1869 and there grew up to manhood, He was married to Emma Behling on April 23, 1895. Following their marriage Mr. and Mrs. Jaeger moved onto a farm near Cedar rora where Mr. Jaeger successfully conducted a saloon for eight years. Three years ago they moved onto a farm in the town of Barton and about a year ago took possession of the Farmer's Home saloon, hotel and dance hall at St. Kilian. Ill health compelied Mr. Jaeger to sell the latter place and about a month ago came to West Bend to live. Six children were born to Mr. and Mrs. Jaeger, all of whom survive. They are: Edward, Frank Harry Katherine, Joseph and Marie at home. Besides his widow and children he leaves his aged mother and seven brothers, his father and two sisters having preceded him in death. The surviving are Frank, John, Peter and Nic. of

Britain and France Forced to Retallate, Notices Assert-Declare Emperor Substitutes Indiscriminate Destruction for Regulated Capture.

London, March 3.-Premier Asquith decided to prevent commodities of any kind from reaching Germany or leaving that country.

This means that no foodstuffs of any kind will be allowed to reach Germany. The embargo will also be extended to raw materials.

This action was taken by the British government in retaliation for Germany's submarine warfare against English merchant ships.

England will now try to starve Germany into submission. It is believed that the embargo of the British government upon foodstuffs and raw materials will increase the activities of the German submarine in the "bread war" against England. In making the momentous announcement, Premier Asquith said:

"There is no form of economic pressure which we do not consider ourselves entitled to assert under existing conditions."

Premier Asquith, in speaking of Germany's submarine war, declared: "Germany has taken a step without precedence in organizing a campaign

of piracy and pillage. "This is not the time to talk peace. Those who do so are the victims of self-delusion. The allies will never sheath the sword till all objects wherefore they have gone to war have been achieved."

This is, in effect, a claim to the right to torpedo at sight, without regard to the safety of the crew or passengers, any merchant vessels up er any flag. As it is not in the power of the German admiralty to maintain any surface craft in these waters, this attack can only be deliv ered by a submarine agency.

"The law and custom of nations in regard to attacks on commerce have always presumed that the first duty of the cantor of a merchant vessel is to bring it before a prize court, where it may be tried, where the regularity of dlers who have surrendered the last the capture may be challenged and where neutrals may recover their carzoes. Washington, March 1.-An annual salary of \$37,500 as chairman of the executive committee of the Chicago, Rock Island & Pacific railroad, the same amount for serving simultaneously as chairman of the executive committee of the Frisco system and a guarantee of \$500,000 additional constituted the compensation pledged to L. F. Loree when he left the presidency of the Baltimore & Ohio road to join the Rock Island forces. He held the new places ten months in 1904 and then was asked by Daniel G. Reid to resign.

Complying, he received in settlement of his agreement with Mr. Leeds \$450,000 in Rock Island railway bonds. Mr. Loree testified to this effect on Friday at the interstate commerce commission's investigation of the Rock Island's financial affairs during the Reid-Leeds-Moore control from 1901 to 1914.

Another witness was Mr. Reid himself, who defended the "big salaries" paid to Rock Island officials, declared that he would not now accept as a gift the control of any western or southwestern railroad and that when he and his associates took over the Rock Island it had a "surplus" of \$8,000,000, "but no railroad," being merely a "streak of rust." He said also a man capable of operating an 8,000-mile railway was worth \$1,000,-

SYNOPSIS.

Warrington, an American adventurer, and James, his servant, with a caged parroot, the trio known up and down the Irrawaddy as Parrot & Co., are bound for Rangoon to cash a draft for 300,600 rupees. Elsa Chetwood, rich American girl tourist, sees Warrington and asks the purser to introduce her. He tells her that Warrington has beaten a syndicate and sold his oil claims for £20,000. Warrington puts Rajah, the parrot, through his tricks for Elsa and they pass two golden days together on the river. Martha, Elsa's companion, warns her that there is gossip. In Rangoon Warrington banks his draft, pays old debts, and overhears and interferes in a row over cards.

"He is looking out for his commission. Heavens! what is the matter with everybody? One would think, the way people put themselves out to warn you, that murder and robbery were daily occurrences in Asia. I've been here four months, and the only disagreeable moment I have known was caused by a white man."

"Because we have been lucky so far, it's no sign that we shall continue so." And Martha shut her lips grimly. Her Warrington, an American adventurer,

Confidences. That night Martha wrote a letter. During the writing of it she jumped at every sound; a footstep in the hall, the shutting of a door, a voice calling in the street. And yet, Martha was guilty of performing only what she considered to be her bounden duty.

My Dear Mr. Arthur: . . . I do not know what to make of it. His likeness to you is the most unheard of thing. He is a little bigger and broader and he wears his beard longer. That's all the differ-ence. When he came on the boat that night, it was like a hand clutching at my throat. And you know how romantic Elsa is, for all she believes she is prosaic. I am certain that she sees you in this stranger who calls himself Warrington. they'll be together for four or five days, Neither of us has the slightest idea what the man has done to exile himself in this horrible land for ten years. I begin to see that man's face in my dreams. She has always been one to me. I have been with her since her babyhood, and yet I know as little of what goes on in her mind as a stranger would. Her father, you know, was a soldier, of flerce loves and hates; her mother was a handsome statue. Elsa has her father's scorn for convention and his independence, clothed in her mother's impenetrable mask. Don't mistake me. Elsa is the most adorable creature to me, and I wor-ship her; but I worry about her. I believe that it would be wise on your part to meet us in San Francisco. The day of sailing was brilliant and warm. Elsa sat in a chair on the deck of the tender, watching the passengers as they came aboard. The flexibility of the Company's policy forms in meeting the needs of Family, Business or Estate, the convenience with which they can be adapted to changing conditions, and the conservatism and care exercised in the investment of funds and selection of risks, have made the Northwestern popular with careful buyers of insurance. Nearly twelve thousand of its old members increased their insurance with the Company last year. Organized in the State of Wisconsin in 1857, the Northwestern has extended its Insurance Service throughout the more healthful parts of the United States until at the present time it ranks fourth in amount of assets and insurance in force, industrial companies excepted. The Northwestern is the largest purely American life insurance company. The above figures are worthy of your careful attention.

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach. liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic-remember, a good "inside cleaning" should

always be the first treatment given. Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50children of all ages and grown-ups printed on the bottle. Adv.

KEEP BUTTER DURING WINTER

To Retain Its Quality Temperature of Cellar Should Be Maintained as Low as Possible.

A supply of butter that will keep through the winter is much desired on most farms, but many find it difficult to produce it. There are two or three secrets that must be observed. First, if the cellar is musty, it must be carefully scraped and cleaned and the side walls and ceiling swept. Then it will be well to whitewash it carefully with a little formaldehyde in the lime. To spray it with a force pump is easy. Fumigation with at least a pound of sulphur is another way of destroying the must germs. The cellar should be closed tightly for several hours while the fumigation is in process.

What makes a cellar damp or musty? Usually it is because some thrifty person is anxious to keep it sweet and lets in the warm air of the day. Warm air contains a large amount of moisture, which is precipitated upon the cold walls, and it naturally follows that the cellar is first Ventilate cellars only during cold

and pack it hard into sound, sweet, stone jars, and over its hard-pressed, level top, spread a disk of parchment paper wet. On this lay fine salt an inch deep. Then tie a tough paper over the top to exclude dust, and place the jar at once in the coldest, cleanest part of the cellar. To make butter retain its quality, the temperature of the cellar should be maintained at as low and even a temperature as is possible. Vegetables and other things that may

produce odors must be excluded. Do not be persuaded that the addition of saltpeter or sugar or any other substance is necessary to the preservation of butter. Salt alone is needed. and one ounce to the pound is sufficient. Never use a cracked or musty to be consumed soon, of course, the washing is not needed, and the flavor washed out.

'CASCARETS" ACT ON LIVER: BOWELS

No sick headache, biliousness, bad taste or constipation by morning.

Get a 10-cent box.

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Balts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep-never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

Canadian Wheat to Feed the World The war's fearful devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and there is an unusual demand

to raise immense wheat crops. You can get a Homestead of 160 acres FREE and other lands can be bought at remarkably low prices. Think of the money you can make with wheat at its present high prices, where for some time it is liable to continue. During many years Canadian wheat fields have averaged 20 bushels to the acre-many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax.

Mixed farming is fully as profitable an industry as grain raising. The excel-lent grasses, full of nutrition, are the only food required either for beef or dairy purposes Good schools, markets convenient, climate excellent. Military service is not compulsory in Canada, but there is an extra demand for farm labor to replace the many young men who have volunteered for the war. The Government this year is urging farmers to put extra acreage into grain.

THE GOOD JUDGE GETS A REASON THAT HE KNOWS IS GOOD)

TEMPER, whether good or bad, depends a heap on a man's getting the tobacco satisfaction he has a right to.

Man after man will tell you that "Right-Cut," the Real Tobacco Chew, gives a comfort and contentment he never had before. He insists on it for himself and he recommends it to his friends.

A little chew of pure, rich, mellow tobacco-cut fine, short shred—seasoned and sweetened just enough, cuts out so much of the grinding and spitting.

Take a very small chew-less than one-quarter the old size. It will be more satisfying than a mouthfu of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit too much. The taste of pure, rich tobacco does not need to be covered up with molasses and wice. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind. **WEYMAN-BRUTON COMPANY**

Purchasing Power of Farm Crops Dwindling

The Federal Department of Agriculture has just issued a statement showing the purchasing power of an acre of farm crops in 1913 compared with 1909. While the price per acre of several farm crops is shown to have increased some extent within the past five years the gain in price has not kept pace with that of some of the necessities used by the far-A.
