## THE GOOD JUDGE SPENDS A NIGHT AT HIS CLUB. THINK SOME OF THE VALET TO BRUSH JUDGE THE VALET THINK SOME OF THE LIKES THE REAL MEMBERS GOT IT. MY CLOTHES, BUT HE'S DOING SOMETHING AS WELL AS WE DO.

FOR years men searched for the Real Tobacco Chewand vou bet they know when they've found it.

Ever since the Real Tobacco Chew first came out its fame has been spreading from one town to another.

A little chew of pure, rich, mellow tobacco-seasoned and sweetened just enough-cuts out so much of the grinding and spitting.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies. how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

excess of licurice and sweetening makes you spit too much. 66 Notice how the salt brings out the rich tobacco taste. ??

A counterfeiter was once walking along a lonely side street when he was stopped by a bold, bad robber. The robber presented a large openfaced revolver and demanded coin. He got it-about two gallons of lead dollars fresh from his victim's private mint.

Next day the robber bought himself an automatic pistol of the latest design, a weapon which he had long coveted. He paid for the gun out of the proceeds of his latest haul and was immediately haled before a magistrate and sent up for a long term of years for counterfeiting.

Western Canada Farmer Writes as to Conditions.

A. G. Hansen is a farmer living near Clavet, Sask., and as an old resident of Minnesota, takes strong exception to some of the articles appearing in American papers disparaging the true conditions in Western Canada. The "Cottonwood Current" of Cottonwood, Minn., an important weekly paper in the southwestern part of the state, recently published a letter from Mr. Hansen, which is interesting reading. In his letter Mr. Hansen makes & splendid case for Western Canada against those who seek to deter farmers in the States from settling in Canada. He says:

"The district in which we live is a fair comparison to any other district in the country, made up mostly of settlers from the States. The majority here consists of Americans from Minnesota, lowa and the Dakotas, with a few Canadians and an odd English. man. We have been here eleven years, ever since this part of the country was settled, and the majority have done well. If they have not, it is certainly not the fault of the country.

"There has not been a crop failure in this district since settled. This year was the poorest, caused by lack of rain, although a fair estimate of wheat is about twelve bushels per acre, average, and oats about ten. Some farmers got as much as twentyfive bushels of wheat per acre, and we all got good prices.

"The laws of Canada are nearly the same as those of Minnesota, and we enjoy the same privileges.

"So far as the European war is concerned, we suffer to a certain extent as all the world does. Canada is giving a helping hand to her Mother Country, and we American-Canadians firmly believe it is Canada's duty to do so. I have not heard one American-Canadian who has expressed a different opinion. Canada is not compelled to send her soldiers. The service rendered is all voluntary service.

"The accusation that old settlers are considered undestrable citizens and are forced out of business, even in danger of being 'mobbed at their own fireside,' is all false, a mere fabrication in the mind of badly informed correspondents. There are a few who have been discovered carrying letters. others papers and plans to prove them spies, and whose object is to conspire against the government. These have justly been arrested. Such a class of people cannot be considered good citizens, whether living in Canada or in the United States.

"Some people are failures wherever they are, and as an excuse for failure in their country it may seem easy to put the blame on the Canadian people are not afraid of the Canadian govern- family."

government is giving away. affected by the drought, and is also is known, and we will take care of sending seed grain to those in need of help. This is very different from driving settlers away from their own

"I have always observed that the people who love their Mother Country most are those who make the best citizens of their adopted country. The glorious 'Stars and Stripes' will always stand for what is good and noble to us, though we live in a neighbor country where we also enjoy 'life, liberty and the pursuit of happiness."-Advertisement

# Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffer-

ing among women than any other one medicine in the world? We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for womenand every year we publish many new testimonials, all genuine and true. Here are three never before published:
