Mrs. B. Wiermann spent Wednesday afternoon at St. Nicholas hospital at Sheboygan with her uncle, David Donovan, who is critically ill. The trip was made in L. Klunke's auto.

What might have been a serious, if not fatal accident, occurred here last Thursday, while E. Wiermann and a crew of workmen were excavating the tunnel leading from the race to the mill. The tunnel which is from 8 to 10 feet underground was nearly finished, except some slight scraping underneath. This Fred Brommiller reserved as his right. While he was thus engaged on his hands and knees under the tunnel, the entire embankment caved in. In a moment a crowd of men were busily digging with shovels and pick. Others in the excitement used their hands. Dr. S. Driesel was lastly summoned to set broken bones if life was not extinct. Soon a feeble cry, "keep off my head," was heard, the digging was continued with renewed force and Fred was rescued without any serious injury except a few slight bruises. Wm. Ditschmann was slightly injured with a shovel during the excitement.

PIONEER OF THE TOWN OF KEWASKUM DEAD

John Peter Klein of the Town of Kewaskum Died Last Saturday at the Age of 76 Years. Came to Washington County in 1853

John Peter Klein, of the town of Kewaskum, a pioneer of Washington county, passed away last Saturday, September 11, 1915, at about 4 o'clock A. M. Death being due to hemorrhage of the brain. Mr. Klein was born in Winterburg, Germany, March 19, 1839. On May 15, 1853 he immigrated to America and settled in the town of Kewaskum, where he made his home on a farm ever since. On December 24, 1865 Mr. Klein was married to Miss Barbara Schuppel, who with eight children born to them, and twenty-two grand children survive him. The surviving children are: John P. of Kewaskum, Lizzie, Mrs. Geo. Braun of Minneapolis; William, Ricka, Mrs. John Kludt, Fred, Minnie, Mrs. Paul Backhaus, Louis, all residing in the town of Kewaskum and Nettie, Mrs. Walter Schacht of Milwaukee.

Mr. Klein was very well known and liked by his acquaintances. He was a kind and devoted husband and father, and his death creates a severe loss to the widow and children. He held the office of town treasurer for six years, was secretary of the Ev. Lutheran St. Lucas congregation of Kewaskum for twenty years and served as school director of the school in Schurr's district for a great number of years.

The funeral was held Tuesday September 14, at 1:30 o'clock P. M., with services in the Ev. Lutheran St. Lucas church, Rev. Greve officiating. Interment was made in the congregation's cemetery.

Not a Candidate for Governor

A few weeks ago the Milwaukee Free Press published an article stating that Congressman M. E. Burke of Beaver Dam is to be a Democratic candidate for Governor of the state at the next election.

The Congressman wishes to rebuke this article and has the following to say:

"This article is absolutely laughable and ridiculous. While I am confident that the Democrats of this State will elect the next governor of Wisconsin, especially if Governor Philipp is a candidate to succeed himself, yet I have absolutely no ambition in that line. I have never directly or indirectly spoken, written or intimated to any one any desire to be governor of this State. In fact, I would sooner be Minister to Congo than governor. No taste for the duties of that arduous office."

"The article is the product either of some reporter's fertile imagination, or of some one bearing a grudge against Dodge county Democrats, who imposed upon the reporter. The woods are full of Democratic candidates for governor for 1916. By nominating Congressman Thomas P. Konop, or Hon. Tom Cunningham of Chippewa Falls, the Democrats will elect the next governor of Wisconsin as sure as the sun rises on Election Day in November, 1916."

"As for myself, if the present very kind and favorable sentiment of my constituents toward me continues until the proper time for candidates to make known their ambition, I shall be a candidate for renomination and reelection as Representative of the most splendid district that a man ever enjoyed the honor of representing in the National House of Representatives."

Postmaster: Elect Officers

At the annual Convention of the State League of Wisconsin Postmasters of the third and fourth classes held at Milwaukee last Monday and Tuesday, Wm. H. Fruehlich of Jackson was re-elected President and Geo. H. Schmidt of this village as Secretary. John Rosenheimer Jr., of Schleisingerville was chosen 2nd Vice President from the second Congressional District.

Mr. Schmidt was also appointed a delegate to the National Convention to be held at Cincinnati, Ohio, on September 22 to 24th.

Blood Poisoning Sets In

Joseph Weiss of the town is treating a very bad arm into which blood poisoning set in. Mr. Weiss had received a slight cut on the wrist of his arm sometime ago and while shocking grain one day this small sore began to swell and cause considerable pain. Mr. Weiss went to the doctor and had it treated in the nick of time. At present he is getting along nicely and will soon be able to use the arm again.

PRESENTS LOVING CUP

Delegation From Here Goes to Milwaukee to Present Judge A. C. Backus With Loving Cup

Val. Peters, President and B. H. Rosenheimer, Secretary of the Kewaskum Advancement Association together with Geo. H. Schmidt, editor were at Milwaukee last Monday to present the Hon. Judge A. C. Backus with a Silver Loving Cup.

The presentation took place just previous to the Judge opening the Municipal Court. The presentation address was delivered by President Val. Peters, who said in part "It gives me great pleasure in presenting this cup as a token of the Kewaskum Advancement Association for the courtesy you have shown by delivering the Homecoming address in our village on Sunday, July 25th. May this cup be a life long remembrance."

The Judge who was greatly surprised responded by saying "I am certainly pleased and sure appreciate the token. It certainly is a very good remembrance of that event, and I shall place same in a conspicuous place in my home, where it will at all times be visible. A more appropriate gift by the association could not have been presented."

After the presentation the Judge invited the trio into the court room to hear a few cases. One of the cases heard was for non-support. After hearing the evidence the Judge sharply reprimanded the defendant and sentenced him for ten days in the house of correction and to be fed on bread and water, which would teach him what it means to starve. He also instructed the defendant to report to his office after finishing his solitary confinement for another talking to.

I am indeed grateful to you and the Advancement Association for the beautiful loving-cup presented to me. I shall cherish this token of esteem from my home people all my life. Kewaskum is close to my heart, and naturally so because it is the place of my birth. My associations, the school, the environment, the splendid citizenship all have made an impression that will abide with me for all time. May I through you extend to the people of Kewaskum my warmest appreciation for this very kind remembrance.

County School Board

Leonard Schroeder of town West Bend, Michael Kiley of Plat, and Fred Metzner of Kohlsdorf were appointed by Chairman C. L. Friday of the Washington County Board of Supervisors as members of the county school board, officially known as county school committee, and who succeed the county board of education. The new committee also will appoint a supervising teacher, whose duty it will be to visit all rural schools of the county. The committee will hereafter be elected by the county board of supervisors, the chairman of the board being authorized to appoint the members of the committee on county schools who are to act until the annual meeting of the board of supervisors in November.

DEATH SUMMONS

MRS. J. P. JAEGER

Highly Esteemed Pioneer of The Town of Ashford Passes Away at Her Home Saturday Morning

Mrs. John P. Jaeger died at her home in the town of Ashford last Saturday morning at three o'clock after an illness of several months duration.

Anna Berg was born Sept. 22, 1817, in Wellen, Prussia; in her infancy she immigrated with her parents to America and since her marriage in 1864, to John P. Jaeger, she has resided in Ashford.

Through the death of Mrs. Jaeger, the community realizes a great loss.

She was a devoted wife and a kind and indulgent mother; to her friends the soul of fellowship; to all, a helper in need. And as a mother and sister it is those who knew her best most love to contemplate her. Her cheerful, helpful life; her devotion to husband and family and kindness to everybody will long linger as a fragrant memory in the home which her presence brightened and which death has now darkened. Her life was gentle and in her heart of hearts she carried those she loved, and her hand was never weary, her steps never failed in caring and ministering to those who were in any way dependent upon her.

The funeral services were held Tuesday morning at ten o'clock from St. Martin's Catholic church at Ashford, with interment in the adjoining cemetery. The funeral was one of the largest in the history of the church.

Mrs. Jaeger is survived by her husband, three sons, Martin and Will Jaeger of town Ashford and Michael, a merchant of Campbellsport; four daughters, Mrs. John Muel and Mrs. Philip Boshno of Milwaukee, Mrs. Michael Schull of Eden and Mrs. Andrew Strachota of St. Kilian; also five brothers, John Berg of Beaver Dam; Michael of Marshfield; Martin of Cecil; Nicholas of Chilton; and William Berg, who resides in the state of Oregon; all were present at the funeral excepting Wm. Berg, who could not be located in time to enable him to reach Ashford for his sister's funeral.

Relatives from a distance who attended the funeral are: John Berg of Beaver Dam; Mr. and Mrs. Mike Berg of Marshfield; Mr. and Mrs. Martin, Carrie and Ben Berg of Cecil; Nicholas Berg of Hilbert; Nicholas Zehren of Ashland; Mrs. John Weber of Menomonie Falls; Mrs. Margaret Fischer of Chicago; Mr. and Mrs. John Muel and Mr. and Mrs. Philip Boshno and daughter Virginia of Milwaukee; Mr. and Mrs. Mike Schill and daughter of Edgar; Peter Berg, N. Berg and Mrs. John Weber of Ashford and Michael Johannes of Kewaskum.—Campbellsport News.

STRANGERS ROB A

SLINGER STORE

Drive Up in Auto and Ride Away With The Proprietor's Cash. Got The Nice Sum of \$218

Two strangers driving an automobile, fleeced John P. Miller of Schleisingerville out of \$140 in cash and \$78 in checks last Friday. Nothing is known of their identity. About two o'clock that morning, the two men drove up to Miller's place, and bought two ten cent cigars, paying a \$20 bill to the son of Mr. Miller, the latter being absent at the time. The boy gave the man the change and put the bill in the cash drawer. The strangers then asked the boy if he had any Polarine. The boy replied that they did not have and directed them to Winberg's garage, across the street. The men did not start out, and just at that time a Mr. Langenecker came in with two cans for kerosene, and the boy taking the cans started toward the rear room to get the oil. Mr. Langenecker followed him to the door of the back room and stood there, the door being open. At this, one of the strangers came toward Langenecker, engaging him in conversation at the same time crowding him back from the door, of which he took hold and closed a trifle. A few minutes later the two strangers entered their car and drove away. That afternoon it was found that the cash drawer had been robbed of the cash and checks amounting to \$218. It is supposed the robbery was committed by the second stranger, while the first engaged Mr. Langenecker in conversation. No attention was paid to the number of the car, so there is no opportunity of tracing the men. Hartford Press.

AMONG OUR NEIGHBORS

Milwaukee county has a new species of law breakers. "Automobile ghouls" is the name that has been given them by sheriff E. T. Melms and his deputies. They haunt the county roads for machines temporarily deserted after accidents and take from the cars everything that is removable. For several weeks every damaged car left without a guard has been "stripped". Headlights, tires, tubes, coats, tools, magnetos, carburetors and other parts have been taken. Many of the ghouls are believed to be drivers of taxicabs and jitneys according to Louis Mazurek, acting under sheriff. Others are youths and men who either use motorcycles or walk.

Several weeks ago a youngster of this city deliberately threw a lighted match into the mail collection box at the Chas. Zilberzahn corner. Luckily there was but a letter and a post card in the box at the time and the fire got but a small start. About one-third of the letter was burned and the card was charged along one edge. A little detective work was done and the guilty youngster was rounded up. This fooling with Uncle Sam's mail boxes is a serious matter, as the law provides for a fine of \$1,000 or a sentence of three years in the penitentiary. Therefore, boys, and grown persons as well, let your hands off the mail boxes.—West Bend Pilot.

A Percheron stallion owned by Chester W. Bliss, who resides one mile east of Monterey was stolen from his barn last night. When Mr. Bliss went into the barn this morning at 5 o'clock he found the animal missing and could find no trace of it. He drove to Hartford this morning to notify the authorities, but as he resides in Dodge county was advised to notify the sheriff at Juneau. The animal was a dark bay weighing about 1300 pounds and about seven years old. Mr. Bliss purchased the stallion from his brother, Wirt Bliss this fall.—Hartford Times.

Cedarburg will soon have another industry, a factory for the manufacture of an automobile jack invented by a Brown Deer man. Ernst Groth, Mich. Greene and Reynold Thill have secured the patent right on the new invention and will also be the principal stock holders in the company.

While cranking an automobile for W. Kniekel at Parnell, John J. Pesch, manager of the J. A. Pesch & Sons' garage at Campbellsport, was struck when the crank handle slipped off, and a wound was inflicted in his upper lip which required several stitches to close.

The Adell Volunteer Fire Co. is erecting a new building in which to store its fire-fighting apparatus.

WAUCOUSTA

The German school closed here last Friday.

A. C. Buslaff made a business trip to Campbellsport Tuesday.

H. F. Sackett of Fond du Lac was a business caller here Tuesday.

Miss Emma Galabinska spent Sunday with relatives at West Bend.

Mr. and Mrs. August Wach spent the latter part of the week with relatives in Forest.

H. Hussman, Fred Buslaff and Eugene Ford went to Milwaukee Tuesday to attend the state fair.

CRISIS IS PASSED

VON BERNSTORFF VISIT TO LANSING TENDS TO RELIEVE TENSION OF LAST FEW DAYS.

BERLIN TO KEEP ITS PLEDGE

Ambassador Declares He is Confident That There Will Be No Break Between Nations—Secretary Wants Disavowal From Kaiser.

Washington, Sept. 15.—With an earnest desire manifested by Germany to adjust the submarine question in a manner satisfactory to the United States, it looks as though the crisis in the relations of the two countries has passed.

Count von Bernstorff, the German ambassador, reiterated formally to Secretary Lansing at a state department conference on Monday that his government intended to carry out in good faith the assurances given for the security of life on belligerent liners.

He claimed that the notes, with reference to the Arabic, declared anew the principle underlying these assurances.

The ambassador made it clear to the secretary of state that there was no purpose on the part of his government to evade the spirit of the assurances.

He asserted that the instructions to submarine officers were specific in requiring them not to attack without warning. Of course if a vessel sought to escape or resisted a different situation would be created.

Mr. Lansing insisted that the burden of proof that a ship was attempting to escape or resist must rest upon the submarine commander.

Count von Bernstorff argued that the room for doubt would be restricted if the British government could be induced to cancel the orders given to commanders of merchant ships to ram a submarine whenever and wherever they saw one. The German ambassador believes that as a result of the care which German submarine officers will observe there will be little if any cause for complaint on the part of the United States.

He urged Mr. Lansing to accept arbitration in case of the Arabic, pointing out that there was a sharp divergence of views relative to the way in which that steamer was destroyed.

Secretary Lansing indicated that this government was convinced of the correctness of the evidence in its possession and he believed Germany should disavow the act of the submarine commander.

Mr. Lansing further advised the German ambassador that arbitration of the question of the value of the American lives lost by the action of German submarines was repugnant to this government.

The ambassador is confident that an adjustment of the differences that exist will be reached.

"So far as I am concerned," he said, "there never will be a break between the two countries. I always have been optimistic. Diplomacy has so many resources that I have never seen reason to be pessimistic."

THREE U. S. TROOPERS SHOT

Mexicans Attack Small American Force But Flee After Short Fight.

Brownsville, Tex., Sept. 15.—The United States army in the lower Rio Grande valley on Monday night went on a very near approach to war time military footing.

The cause was a carefully prepared attack upon an army camp near the Rio Grande by Mexicans, the first deliberate blow at the American army here since the bandit raids began and which cost the life of one American soldier. Two others were wounded.

The fight, beginning at dawn, was one of the nerviest actions of American soldiers in border records. Ten soldiers started in the fight. Seven were left in action at the end and one of them was killed.

Two Mexicans were seen to pitch forward on their faces during the fight, but their comrades removed all the Mexican wounded.

The ten Americans who participated in the fight were all members of Troop A, Twelfth cavalry. Private Anthony Craft, Detroit, Mich., was killed. Trumpeter Harold B. Forney, Watertown, N. Y., was shot through the abdomen and may die. Sergeant Walsh was shot in the side.

The camp where the fight occurred was in a grove about a third of a mile from the Mexican frontier.

El Paso, Tex., Sept. 15.—John Lubenck, the American cattleman held for ransom by supposed Salazar men south of Hachita, N. M., last week and who escaped from his guards, arrived here.

British Lose 381,982 Men.

London, Sept. 16.—British losses in the war to date total 381,982 killed, wounded missing. These figures are contained in an official statement. Of the total, 1,965 officers and 79,988 men were killed.

Portugal Rebellion Spreads.

Paris, Sept. 16.—A new insurrectionary movement has broken out not only in Lisbon, but in the principal provincial cities of Portugal, says a dispatch to the Journal from Madrid on Tuesday.

Gen. Von Kluge Ousted.

London, Sept. 14.—A dispatch from Amsterdam says: "Emperor William has dismissed General von Kluge, who was held responsible for the Austro-German check by the Russians in East Galicia."

France to Recruit Colonials.

Paris, Sept. 14.—Deputy Pierre Masse has prepared for introduction in the chamber a bill providing that natives of French colonies and protectorates be recruited for service in the army.

BERLIN DISAVOWS ACT

GERMAN FOREIGN OFFICE IN NOTE SAYS SUBMARINE DIDN'T TORPEDO HESPERIAN.

VESSEL WAS SUNK BY MINE

Government in Note to Gerard Declares That No Teutonic "Diver" Could Have Been in Vicinity of Spot Where Steamer Went Down.

Berlin, Sept. 16.—"The German declaration that passenger ships will not be torpedoes without warning unless they try to escape, when summoned to stop, or offer resistance, holds good," the foreign office announced on Tuesday, thus confirming the statement recently made by Ambassador Bernstorff in the United States. The announcement continues:

"As for the Arabic case, there seems to be merely a difference of opinion about facts, which does not affect the above-mentioned principle."

The German government, in a note to Ambassador Gerard, made a qualified disclaimer of responsibility for the sinking of the steamship Hesperian. On the face of the evidence thus far at hand, the government is satisfied that the Hesperian was not sunk by a German submarine.

The communication is a preliminary note, which may be supplemented when all the facts in connection with the Hesperian incident are established definitely. The German government states that, on the basis of the information thus far obtained, the theory that the Hesperian was sunk by a German submarine apparently may be abandoned absolutely.

It is said that official records show that no submarine should have been in the vicinity of the Hesperian at the time she was blown up. Furthermore, the point is made that the violence of the explosion and the place in which the steamship was struck, as set forth in the accounts of the disaster, indicate that it was due to a mine.

WILL MEET CARRANZA AGENTS

Pan-American Diplomats to Discuss International Affairs With First Chief's Men.

Washington, Sept. 16.—The administration has decided to discuss the international affairs of Mexico with Carranza's representatives, as suggested in his reply to the peace parley proposals. Upon the outcome of that conference will depend whether Carranza and his government shall be recognized as the best way of bringing an end to the troubles of the Mexican republic and restoring peace and order.

Secretary Lansing said on Tuesday that the Pan-American conference would meet in New York Saturday.

Washington, Sept. 16.—Instructions issued months ago urging American citizens in Mexico to leave the country have been renewed to Americans in Sonora, Chihuahua and other northern states, where military advances and border disturbances now make conditions extra hazardous. State department officials denied reports that the order had reference to this government's future course toward Mexico.

DR. DUMBA ASKS "VACATION"

Austrian Ambassador Notified Vienna to Recall Him—Will Sail for Home Soon.

Washington, Sept. 16.—Constantin Theodor Dumba, the Austrian ambassador, asked Vienna to recall him on leave of absence. It can be stated authoritatively that Doctor Dumba will sail for Austria very shortly. No answer to the request of the United States will be made by Austria until after his arrival in Vienna. Austria will inform this government that Doctor Dumba has been recalled on leave. It is understood that Doctor Dumba will sail from New York on a Norwegian vessel bound for Rotterdam. In the meantime Mrs. Dumba is expected to come to Washington for a short visit with friends.

REFeree CALLS BOUT A DRAW

Majority of the New York Newspapers Declare in Favor of McFarland.

Brighton Beach Motordrome, N. Y., Sept. 14.—Billy Joh, who refereed the McFarland-Gibbons bout, gave it as his private opinion that the contest was a draw. This must not be taken in any way as an official decision, but Joh, as one of the spectators, considers he has as much right as anyone to express a personal opinion. The majority of the New York newspaper critics said that McFarland won on points.

Packer McFarland outpointed Mike Gibbons before a large house. Gibbons' work was fast but futile against Packer's infallible blocking, and in the last three rounds Mike was beaten. The stocky boys took the first round by a shade on clean work, the second, third and sixth were even, and the fourth, fifth and last four went to McFarland.

Packer toyed with Gibbons in the ninth and tenth rounds, laughing as he blocked Mike's lead or ducked his swings.

May Mean War for Bulgars.

Washington, Sept. 13.—American Minister Vopicka today called the state department here that in the future all American passports to Bulgaria must be used by the Bulgarian consul general in New York. This was believed here to indicate that Bulgaria is making preparations to enter the war.

Turk City in Flames.

Athens, Sept. 16.—The Turkish city of Phocaea, on the coast of Asia Minor, was reported burning on Tuesday as the result of a bombardment by allied warships. Phocaea is 25 miles northwest of Smyrna.

German Submarine Sunk.

Athens, Sept. 16.—A French torpedo-boat patrol has sunk a German submarine in the Mediterranean sea between Mitylene and Tenedos. It is stated in a wireless dispatch received here on Tuesday.

Relief Ship Goes Ashore.

London, Sept. 16.—A steamer flying the signals of the American committee for the relief of Belgium has gone ashore. Four members of the crew are missing. This is the steamship which was reported sunk.

German Suspect is Held.

Chicago, Sept. 15.—The police are holding Peter Ahn, a former soldier in the German army, and William Path, while detectives investigate their reasons for having had a gymnastic bond in their room.

Colorado Hotel Destroyed.

Manitou, Colo., Sept. 15.—The Mansions, one of the largest summer hotels here, was destroyed by fire on Monday with a loss of \$70,000. The fire is supposed to have started from defective wiring.

WILSON DEMANDS RECALL OF DUMBA FOR STRIKE PLOT

Message Is Sent to American Ambassador Penfield at Vienna.

FULL TEXT OF THE NOTE

President's Action Is America's Reply to Explanation of Letter Intercepted by British Officials—Used American Citizen as Messenger.

Washington, Sept. 10.—President Wilson notified the Austro-Hungarian government on Wednesday, Sept. 9, that he would no longer treat with Dr. Constantin Theodore Dumba, ambassador extraordinary and plenipotentiary to the government of the United States.

Through Secretary of State Lansing the president formally asked the recall of Dr. Dumba, basing his request upon the envoy's admission that he had proposed plans to instigate strikes in American munition plants and had employed an American citizen to convey his secret dispatches to Vienna.

The men with whom Dr. Dumba "conspired" to cripple American industries also are to experience this government's disapproval. They are: Alexander Huber von Perked, consul general of Austria in New York, whose exequatur will be canceled should he be not recalled, on the ground that he furnished the ambassador with an aide memoire setting forth the plan to provoke strikes.

Captain Franz von Pape, German military attaché, whose removal will be suggested to the German government on the ground that Dr. Dumba stated in the seized letter that von Pape had attached great importance to the plan to disorganize and hold up for months, if not entirely prevent, the manufacture of munitions.

The text of the American note to Austro-Hungary follows:

"Mr. Constantin Dumba, the Austro-Hungarian ambassador at Washington, has admitted that he proposed to this government plans to instigate strikes in American manufacturing plants engaged in the production of munitions of war. The information reached this government through a copy of a letter of the ambassador to his government. The bearer was an American citizen named Archibald, who was traveling under an American passport. The ambassador has admitted that he employed Archibald to bear official dispatches from him to his government.

Sought to Cripple Industries.

"By reason of the admitted purpose and intent of Mr. Dumba to conspire to cripple industries of the people of the United States and to interrupt their legitimate trade, and by reason of the flagrant violation of diplomatic propriety in employing an American citizen protected by an American passport as a secret bearer of official dispatches through the lines of the enemy of Austria-Hungary, the president directs me to inform your excellency that Mr. Dumba is no longer acceptable to the government of the United States as the ambassador of his imperial majesty at Washington.

"Believing that the imperial and royal government will realize that the government of the United States has no alternative but to request the recall of Mr. Dumba on account of his improper conduct, the government of the United States expresses its deepest regret that this course has become necessary and assures the imperial and royal government that it sincerely desires to continue the cordial and friendly relations which exist between the United States and Austria-Hungary."

It is U. S. Reply to Explanation.

It was the answer of the American government to Doctor Dumba's explanation of his intercepted letter to Vienna outlining plans for handicapping plants in this country making war supplies for the allies.

Doctor Dumba, after telling of writing the letter which was taken by British officers from James F. J. Archibald at Falmouth, asserted that he acted on orders of his government.

He said that he had been instructed to give the widest publicity to a decree announcing enforcement of the Austro-Hungarian penal code against subjects who engaged in manufacture of war munitions for their country's enemies.

He contended he was fully within his rights in warning his countrymen.

Could Tie Up Plants in U. S.

The letter which Archibald was carrying to Vienna was addressed to Minister of Foreign Affairs Burian, in it Doctor Dumba said he "could disorganize and hold up for months, if not entirely prevent, the manufacture of munitions in Bethlehem and the middle West."

Dumba asked Burian to reply by wireless if he approved measures of this kind in America.

Archibald has declared his innocence in the controversy. He said he knew nothing of the contents of the letter which he declared was given him at the pier just as he was sailing for Europe.

NO INDEMNITY ON STEAMER ARABIC IS BERLIN REPLY

Note to American Government Expresses Deep Regret for Deaths.

MISTAKE IS NOT ADMITTED

Belief of Submarine Commander That Liner Was About to Attack Him Held by Germany to Justify His Action.

Washington, Sept. 13.—Germany's note to the United States bearing on the sinking of the White Star line steamer Arabic on August 19, which was communicated to the American ambassador, James W. Gerard, for transmission to Washington, is in the form of a memorandum under date of September 7, the text of which is as follows:

On August 19 a German submarine stopped the English steamer Dunsley about sixteen nautical miles south of Kinsale and was on the point of sinking the prize by gunfire after the crew had left the vessel. At this moment the commander saw a large steamer, as developed later, the Arabic. She was recognized as an enemy vessel, as she did not fly any flag and bore no neutral markings.

When she approached she altered her original course, but then again pointed directly toward the submarine. From this the commander became convinced that the steamer had the intention of attacking and ramming him.

In order to anticipate this attack he gave orders for the submarine to dive and fired a torpedo at the steamer. After firing he convinced himself that the people on board were being rescued in 15 hours.

According to his instructions, the commander was not allowed to attack the Arabic without warning and without saving the lives unless the ship attempted to escape or offered resistance. He was forced, however, to conclude from the attendant circumstances that the Arabic planned a violent attack on the submarine.

This conclusion is all the more obvious as he had been fired upon at a great distance in the Irish sea on August 14—that is, a few days before—by a large passenger steamer, apparently belonging to the British Royal Mail Steam Packet company, which he had neither attacked nor stopped.

The German government most deeply regrets that lives were lost through the action of the commander. It particularly expresses its regret to the government of the United States on account of the death of American citizens.

The German government is unable, however, to acknowledge any obligation to grant indemnity in the matter, even if the commander should have been mistaken as to the aggressive intentions of the Arabic.

If it should prove to be the case that it is impossible for the German and American governments to reach a harmonious opinion on this point, the German government would be prepared to submit the difference of opinion, as being a question of international law, to the Hague tribunal for arbitration, pursuant to article 28 of The Hague convention for the pacific settlement of international disputes.

In so doing it assumes that as a matter of course the arbitral decision shall not be admitted to have the importance of a general decision on the permissibility of the converse under international law, of German submarine warfare.

FIRST TO SCALE HIGH PEAK

Party of University Students Make a Record in Mountain Climbing in California.

Fighting their way to the top of Half Dome, the most inaccessible point on any of the mountains about the Yosemite valley, A. C. Pillsbury and 17 college students spent a night on the summit and made the descent the next day.

This is the first time on record that a party of tourists has ever scaled the mountain and reached the top of the dome. The summit is 9,500 feet above sea level and the last 1,000 feet of the climb was made with rope ladders. The grade is said to average 75 per cent.

The dome rises hundreds of feet above a massive rock on the top of the mountain proper. The rock itself is 1,000 feet high. The overhanging rock at the summit of the dome projects out from the wall 80 feet and sticks eight feet out into a yawning space. There is a sheer drop of 3,000 feet from this point.

The party spent one night on the point and built a huge bonfire that lighted up the surrounding heights for miles, to the delight of many tourists on the floor of the valley who had observed the climbers through field glasses during the afternoon. At midnight the bonfire was pushed over the point, making the longest stream of falling fire in the history of the state.

Six girls were in the party. All of them are students of Stanford university.

LIVE STOCK

KEEP SHEEP ON EVERY FARM

Flock of From Twenty-five to Thirty Ewes Can Be Maintained at Exceedingly Small Cost.

(By J. E. MCINTOCK, Ohio Experiment Station.)

A small flock of from twenty five to thirty ewes should be found on every farm. A flock of this size can be kept at little expense. It will, if given a chance, clean the fields of weeds, provide a supply of wholesome food, and return to the farmer a neat sum from the wool produced.

A strong, vigorous, purebred ram should be used. Ewes, to be desirable should have straight backs and good mouths. As a rule, sheep have one pair of permanent front teeth when one year old, two pairs when two years old. A ewe with a full mouth may be five or more years old, but if the teeth are neither broken nor

Prize Winning Oxford Down Ram.

lost, nor worn down, the ewe may be bred and kept for a year with good results.

A small flock of ewes can often be pastured during the winter on a wheat or rye field. The best roughage for sheep is clover or alfalfa hay and a few roots. If clover is not available, however, corn fodder supplemented with a little bran or linseed meal is sufficient. As soon as the lambs are old enough to eat, give them a little cracked corn where the ewes cannot get it.

A fence that has been used successfully by the United States Forest service in protecting sheep from coyotes is recommended. This fence is built as follows: A strand of barbed wire is stapled to posts at the surface of the ground; three inches above this is placed a 30-inch strip of close-woven wire fencing, and above this are stretched two strands of barbed wire.

If sheep free from stomach worms are secured, little trouble will be caused by these pests. The worms are small round whitish worms that infest the stomachs of the sheep. The lambs become infested by eating grass on which the young worms have crawled. It is recommended therefore, that the lambs be placed on pastures that have not been occupied by mature sheep.

PLAN FOR CASTING A HORSE

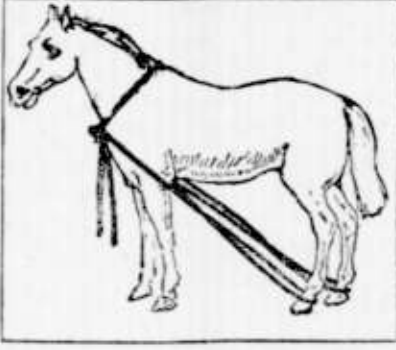

Simple and Inexpensive Method Requires Only Strong Piece of Rope Fifty Feet Long.

(By O. L. PRIEN, Wyoming Experiment Station.)

The most simple and inexpensive method of casting a horse requires only a soft, strong rope 50 feet long. The addition of hobbles to which iron rings are attached, eliminates the chance of rope burns about the fetlocks of the hind feet, but hobbles cannot be used on unbroken range horses.

Knot the rope at the middle of its length so as to make a loop, which, when passed over the horse's head, will fit the neck like a collar. The knot is placed nearest and each end of the rope is now passed backward outside of each foreleg and then between the hind legs and around the respective pasterns.

Before running the free ends through the loop collar pass each end over the

Casting a Horse.

backward length of the rope. This holds the rope more snugly about the pasterns and lessens the chance of the animal stepping out of the rope. A steady pull by assistants on each side will throw the animal. The hind legs may be drawn to the horse's sides and securely fastened.

Liberal Feed for Sows.

The sow can be kept at very little expense in the spring for the first few months after her pigs are weaned, provided she has good pasture. But during the time she is suckling her pigs she should be fed very good food, else she will run down to very poor condition and not be fit to breed for a long time.

Pot Chrysanthemums.
All of the single and pompon sorts are excellent for pot culture, and quite a few of these do well as single-stem sorts, as long as you are not too particular as to the size of flowers. People usually care more for the general effect of a plant in a pot than for the individual flowers. Don't over-pot plants; rather feed a little more and pay the very best attention to the watering, for you want plants with as much foliage down to the pot as it is possible to have. Attend to the staking; so much depends on this if you want a shapely plant. One stake in the center answers nicely for medium sized ones, but even here it is often better to make use of three or five smaller stakes and properly spread the branches. It will add 50 per cent to the good looks of the plant and that, after all, is what counts.

Prosperous Island.
The island of Rombon is, for its size, one of the most prosperous and thrifty of the Philippine islands. Its population is about 35,000. It has three profitable industries which yield a good annual return to the people after paying for the principal food staple of the people—rice—which is largely imported. Copra, white marble, and huri hats are the exports which account for most of the island's prosperity.

BADGER STATE NOTES.

Madison.—The Wisconsin state board of control opened up bids for electric lamps for use in the state charitable and penal institutions, state capitol, state normal schools and state university buildings during the coming year. The bids were submitted by eighteen companies and ranged from 31 per cent to 38 per cent discount from list prices. An ordinary twenty candle power lamp under the lowest bid would cost 6½ per cent. The contract will carry about \$7,000, and the state will, it is expected, save \$2,000 if the lowest bid is accepted, the saving being based on a comparison with the cost of such lamps a year ago.

Baraboo.—The conference board of the Woman's Home Missionary society of the West Wisconsin conference closed a successful meeting here. Miss Carrie Hazard of Plattville and Miss Grace Rosaback of Canaan county were the principal speakers. The following officers were elected: President, Mrs. W. W. Morse, Baraboo; vice president, Mrs. G. S. Joslin, Belleville; recording secretary, Mrs. A. C. Kingsford, Baraboo; corresponding secretary, Miss Florence Heinze, Wyocena; treasurer, Mrs. M. Haines, Madison.

Janesville.—F. E. Anderson, state secretary of the Y. M. C. A., gave an address at a banquet held at the Janesville Y. M. C. A. in honor of J. C. Kline, who has resigned as secretary of the local institution and the new officers. C. R. Bearmore has taken up the work of increasing the membership of the "Y" here with spirit.

Madison.—Three Madison men have enrolled for the civilians' training camp at Fort Sheridan, Ill., opening Sept. 20. They are Carlyle Winslow, engineer in the United States forest products laboratory; Warren Montgomery, Madison street car lines, and C. L. McMillen, insurance agent.

Madison.—Eugene Bosshard, promissory \$4,032 on the bequest made by Fred C. Hewitt to Yale university was collected by Dane county for the state in the Dane county court. Mr. Hewitt left \$500,000 to Yale, which included 400 shares of Chicago, Milwaukee & St. Paul railway stock.

Madison.—Eugene Bosshard, prominent lawyer of Columbus, Wis., has been appointed assistant attorney general, standing highest on the civil service eligible list, and has assumed his duties. The increase of work in the department made the addition of another assistant necessary.

Rhineland.—When a bear visited a road camp of the Fish Lumber company and ate all the grub, work was stopped for more than half a day because the men refused to work without something to eat. The teams of the company were being used on a new road under construction between here and Three Lakes.

New London.—Dispatches from Maukato, Minn., announce the death of Harry Bodoh of this city, who was killed in a sewer trench cavern. With another man, Bodoh was coupling a pipe in the six foot trench. The cavern forced open the gas pipe and the men were smothered.

Washington.—Wisconsin pensions were granted to Della Bowden, Stevens Point, \$12; minor of Willard Candy, Beloit, \$12; Elizabeth McMahon, Doylestown, \$13. The number of pensioners in Wisconsin during the fiscal year ending on June 30 was 18,653; amount paid, \$2,995,769.

Tomato as a Fruit.

After an argument in the Brooklyn courts lasting more than two months, a police court judge has ruled that a tomato is a fruit and not a vegetable.
Two months ago Miss Eva Scheeter was arrested for selling tomatoes on Sunday, in violation of a law which forbids the selling of vegetables on that day. The woman raised the point that a tomato was not a vegetable, but a fruit, and the judge, after delving deep into the authorities, discovered that the article in question was a first cousin to the persimmon, the grape and the currant. The woman was discharged.

THE GOOD JUDGE GETS A LINE ON THE RETIRED JUDGE

VERY INTELLIGENT-LOOKING OLD GENTLEMAN—TOO DAD HE'S HARD OF HEARING.

HE WAS THE BEST JUDGE THIS STATE EVER HAD. IT WOULD DO YOU GOOD NOW TO HEAR HIM TALK THE MERITS OF THE REAL TOBACCO CHEW.

MAYBE you're one of these reformed grinders yourself and know how they like to meet and talk about the little chew that satisfies. When you meet a non-member puddling a big wad in his cheek don't you feel like stopping him and giving him the facts about the *Real Tobacco Chew*?

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

ASK YOUR DEALER FOR W-B CUT CHEWING TOBACCO. IT IS THE NEW REAL TOBACCO CHEW—CUT LONG SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

Notice how the salt brings out the rich tobacco taste.

Hills Prove the Power of Magneto Ignition

Magneto ignition is something that every prospective purchaser of a motor car should know about.

Practically all high priced cars have high tension magneto ignition. So has the Overland.

Magneto Ignition develops more power, due to a hotter spark, which becomes still hotter as the speed of the motor increases. This gives

—a livelier motor with more power at all speeds

—and quicker getaway.

Hilly, country roads, and crowded city streets prove the worth of these Overland qualities.

Call, telephone or write for demonstration.

This is the largest 4-cylinder Overland that will be produced this year

Badger Cattle Will be Shipped to Fair

The foot and mouth disease which recently broke out in a number of the states will not prevent a display of Wisconsin live stock at the Panama-Pacific exposition at San Francisco in the fall as was at first thought. According to information received from San Francisco at the quarters of the Wisconsin - Panama-Pacific exposition commission on Friday, many prize cattle soon will be shipped west.
