TURN TURTLE

Saturday and Sunday

(West Bend News) Frank Schoenbeck is receiving the congratulations of his friends these days, that he is alive and uninjured, having had a miraculors escape in an auto accident last Sunday evening. He was coming down the Barton hill in his coming down the Barton hill in his auto, when in order to avoid a collision with a buggy in which were seated three young ladies, he turned out of the road and into some lost dirt, causing his auto to run into the ditch, which turned bottom side up. Mr. Schoenbeck his wife, son in law and daughter Mr. and Mrs. F. Deutsch, and the latter's little child who were in the auto with him were pinned under the car until relieved by pasder the car until relieved by pas-sersby. Mrs. Frank Deutsch had three ribs fractured, all the others escaping with a bad scare. The only damage done to the car was more. a broken windshield and a bent

fender. Last Saturday evening at about Last Saturday evening at about midnight, Henry Lang, driving Edwin Pick's Ford touring car, with Edward Morawetz and Jos, J. Huber as occupants collided with a horse and rig being driven by Alvin Baesemann on the road just north of here. The auto turned over and threw out the occupants of the horse was created by the ho The horse was cut a bit and a wheel on the buggy broken. Baese-man received a sprained arm and and Morawetz had his foot cut by

glass from the windshield. A fender, the lamps and the windshield were broken on the car.

Ben Herdt riding his brothers' motorcycle collided with the fence along the road near West Park and badly damaged the machine. He received a few slight bruises.

Amusements

Sunday, May 14-Grand Opening dance in the North Side Park. Music by the Kewaskum Quintette. Lunch will be served. Landlady Mrs. Jos. Eberle promises a good time for all.

Sunday, June 4-Grand dance in the North Side Park hall. Music by Gibson's Harp orchestra of Appleton. Don't fail to attend. Prince of Wales' Apple Green Gem Found in South Africa.

One of the unique stones is an apple green diamond owned by the present Prince of Walod. It was discovered in South Africa, and is the largest stone of the shade in the world.

Apple green is a very rare and preclous species. It was found two and a half years ago and weighs three and a half carats. The value placed upon it by connoisseurs is \$8,000, but it is practically a priceless jewel, as the Prince of Wales would not part with it for anything. The ordinary price of a diamond is \$150 a carat weight, and on that basis of valuation the Prince's stone would be worth only about \$500: but its rare shade is its charm.-Louisville Courier-Journal.

Teachers in Philippines.

Salaries paid school teachers in the Philippines range from \$900 to \$2,000, and from \$1,500 to \$2,500 for division superintendents. A candidate must pass examination in a thesis, penmanship, arithmetic, English, geograpay, history and civil government of the United States, physiology and hygiene, nature study and drawing, science of teaching, and experience, training and general fitness. There is quite a severe medical test as to physical fitness to stand the climate.

An Ancient Bell.

The bell which Gov. Migueal A. Otero found at the old mission fort of Algadones N. M., was made, presumably in Spain, in 1355, and was taken to Algadones, N. M., by a Catholic priest who accompanied the invading army of Coronado in 1527. It has been at Algadones ever since. What is more remarkable, no one outside the little village, where it has been ringing nearly 400 years, knew of its existence until Gov. Otero found it.

Public Lavatories in England.

The public works committee of Birmingham, England, in submitting to the city council a proposition for the the diamond necklace and the blue construction of an additional underground lavatory, etc., announces that to believe that Mrs. Talcott is an adwhere small charges are made there are profit possibilities in conveniences of this kind. The committee said that the four underground lavatories, etc., ford the blue buckle to keep safely were paying the city a net profit of \$2,430 a year.

Queer Siamese Justice.

In Siam, when there is a question at law between two partles and a scarcity of witnesses to establish the truth in the case, it is customary to resort to the water test. Both parties are required to dive simultaneously into deep water, and the one that stays the longest under is adjudged the truth teller and gets the verdict .-Exchange.

Good Selling Points.

An exchange says the Japanese solsure shot, has a good eve for landmarks, sleeps only three hours out of the twenty-four, is cleanly and patriotic, and costs the nation only nine abouts of important papers. cents a day. Sounds as if some big department store had just received a choice lot of Japanese soldlers and was bound to have a run on them .- Buf-

Railroad Up Gray's Peak,

A new railroad, planned to scale Grays Peak, near Dillon, Col., will attain a height of at least 300 feet greator than the road which climbs Pikes Peak. The new road will tap an imnortant mining area the Georgetown district, and will be a feeder for both the Colorado and Southern and the Denver and Rio Grande railroads.

A Remarkable Career.

A remarkable veteran soldier in England is Lord Chelmsford, now 77 years old, but appearing like a man in the 50s. It is 60 years since he entered the army, and he is among the now thinned ranks of those who served before Sebastopol. He was in the Mutiny, and later experiences were his in the Abylisinian, in the Kaffir and then in the Zulu wars.

Lily of the Valley Poisonous.

In spite of its beauty, the lily of the valley is denounced by scientists on a humanness and charm in this new the ground that both the stalks and the dowers contain a poison. It is afternoon"risky to put the stalks into one's mouth, as if the sap happens to get to await the slow speech of the man into even the tiniest crack in the lips at law. it may produce swelling, often accomne nied by pain.

Bank for Workingmen.

To encourage working people to establish homes of their own, Norway has founded a bank for working men. It lends money at 31/2 and 4 per cent., and gives the borrower 42 years in which to pay the loan. The total cost of the house must not exceed £160, and the area of land must not be more than five acres.

The Kaiser an Early Riser.

The Emperor of Germany usually rises about 5 o'clock and generally to be found in his workroom at 6 o'clock. First there is served to him a cup of only passed her hand across her eyes, tea or boulllon and a sandwich. Then, as if in weariness. lighting a cigar, he reads over such clippings from newspapers and maga- me-that you have been thinking unzines published all over the world as kind things about me!" "Ah! You are quite a champion of

his, I see! But the young man-does he-ah, return your trust?" It was a chance thrust, but a home thrust. The girl could only reply by tapping a little bell. Sophie appeared

"Mr. Helderman cannot be detained longer this evening, Sophie. Let him have his hat and coat."

CHAPTER XIV.

When Rutherford again opened his yes to a dull, insistent sense of suffering, it was broad daylight. Some one was still kneading his tortured frame persistently.

"Helderman, you devil, stop!" he commanded, hoarsely. "No. Pritchard-the surgeon." recrted the other man. "Now, listen

to me! If you don't stop tossing about until I find out what's the matter with you it will be all up with you about ever walking again." Rutherford, sick with pain, subsided.

"You're pretty well done up," the surgeon observed as much to himself as to his patient, after a series of investigations which seemed to the victim like an inquisition. "It's in the old place," muttered

will get well-I will walk!" "Good for you! I like your spunk!" said the doctor. Craig breathed heavily, then he inhaled again and turned his eyes to-

Craig-then he added savagely, "but I

ward the practitioner. "You using chloroform on me?" "No-some one beat me to it and has spilt all the bottle on your man

"Gooley?" exclaimed the sufferer anxiously. "Hello Mike." For answer Mike lifted up a sick

ooking countenance, then struggled to his feet, saluted and collapsed back into his chair. "Some one 'phoned for me to come at once "

It was a woman's voice. "But no woman could have known -that I was hurt!" puzzled Craig. "Look here, doctor, when did you get

the message?" "At a quarter of three-but I didn't go back to bed, as she insisted that I come at once."

"Yes, but I didn't get it clearly. I have the impression that it was Val-

Craig's jaw dropped, leaving the name unfinished. He groaned, suffering in mind and body. Now he knew why he had been attacked. Helderman had come to search his rooms and his person, for the necklace or the buckle-or both-and, worst of all. with the connivance of a woman who. he had felt more than once, was deceiving him! And moreover, she was so closely advised of all Helderman's movements, that she was actually able to summon a doctor for his victim, inside the hour! The fact that she took the trouble to summon aid was mighty poor comfort.

The physician must have seen his anguish of body and soul, for he mixed and Helderman met her at the door. a sleeping draught and gave it to I saw them." Craig. Under its influence he sank into a troubled but restful slumber. It was mid-afternoon when he awoke Mike was sitting by his bed, and now

grinned broadly. "Hello, Mike, yourself again?" "Sure, sor, and hoping you are en-

joying the same blessing!' "Oh, I'll be better after I've had something hot to drink. Anything else I called at the lawyer's"-

happened?" "Not just like the last, thanks bebut two men called this morning who were anxious to see you and when they found out how banged up you were

said they'd come back later, sor." "The secret service men again Mike. I wish I weren't so popular!" It was, in truth, the secret service men who called, the next morning, but not the imitation ones whom Craig had in mind. Gooley ushered them in about 10 o'clock, and lined them up in the bedroom, where his master could see them without turning his head. Although Craig was much better than he had believed he could be so soon the surgeon!" he said. after the terrible twist to his spine, he was still not inclined to exertion. But he was pleased with his visitors.

"Hello, Crowder!" he greated one tones. of the two men. "I'm jolly glad you have come.

you are laid up," the detective re- to Dr. Pritchard!" he insisted, vexed sponded. "This is Mr. Sims. He at her posing. knows you, although you don't know

Craig nodded and looked more please." closely at the other man. He acknowledged that he did not remember to telephone him, about three o'clock have seen him before. "He's one of us." commented Craig.

"What do you want to know?" Craig asked.

"Mr. Rutherford, you once told me, in the presence of Mr. Brookfield, at the Barristers' Club that Mr. Helder strangely!" man was the man who read you a wireless message right off the reel." Rutherford nodded. He noticed the other man hitch his chair nearer the I got the worst of it"bed. Crowder evidently was keen up-

on the scent. "The banker told you that this message was for the secret-service man on board?" Crowder continued.

"That's what he said."

Sims shook his head. "I never got the message or any

message like it-and if there was one there ought to have been more about this necklace-and never heard about such a message until I got to head-

"You sure of that?" Rutherford de

Rutherford looked at Crowder. 'What do you make of it?" he asked.

"Why it's easy," affirmed Crowder. "Helderman invented that message out of the whole cloth; that's what I told you at the time. And Sims is right. So long as Sims didn't answer, Berlin would have sent another message to be sure. Helderman invented it."

"What for?" exclaimed Craig. "Wasn't suspicion directed pretty pointedly at a couple of passengers on

that shin?" "But why should such a report have been circulated at all-and who could have been interested in it?" he ques-

tioned. "It was all a part of a shrewd scheme by your friend Helderman. He was afraid the secret service men might have just such a message, and he started it on his own account-to

divert suspicion-from himself!" "Then Helderman's a smuggler?" queried Craig. "I believe you," was the only reply

the secret service man vouchsafed Then he turned and asked, unexpectedly, "Who did you up, Mr. Rutherford?" "Fielderman."

"What time was this?" "At 2 o'clock in the morning," an-

swered Craig. "Then it wasn't Helderman!" "But it was! There's just one man

I've ever known that had such a grip,

Craig persisted, vexed at the detec tive's doubts. "At 2 o'clock night before last," said Simms, "I saw Helderman pacing back and forth before his window up on

Riverside Drive. He did not leave the house. "And he was there last night, too,"

added Crowder. Rutherford gave over trying to shake the men's conviction that Helderman could not have been his assailant; and they rose to go, expressing the hope that he would soon be about again.

"Oh, by the bye, Mr. Rutherford," said Crowder, stopping, hat in hand, "you remember my mentioning a Mr. nnd Mrs. Talcott as the ones on whom"-

"Yes, yes, I remember!" Craig in terrupted, with a clutch in his throat. "Well, I've got a hunch that they are just blinds, just being used to divert suspicion from the real smugglers."

"What makes you thing so, Crow der?" Craig managed to ask. "Sims here saw a young lady enter

the house up there a little after two. We've often seen her going in and out. She seems to be a relative, or an accomplice, or something. She is Mrs. Talcott"-"Why, you don't know Mrs. Talcott,

rowder!" Craig protested, trying vainiv to keep his voice steady. "Don't I though! Sims has known her ever since she came across on the

Gothic.' Siras podded. "Slender woman," he said. "Graceful, and carries herself well. Has a long gray cloak, and another of blue. Fond of wearing buckles. I've often seen her. She came up to the house in a cab a few minutes after you heard the clock strike two downtown.

The telephone bell rang just after the detectives left.

It was Miss Ballantyne's voice greet ing Craig a trifle uncertainly. "Could you-could you find it convenient to call this afternoon? I

don't want to put you to too much

trouble, but I wanted to arrange to get a certain piece of property before "I'm very sorry," he replied, "but I am still unable to navigate very well. Even I cannot recuperate from treat-

ment such as I have received at short notice." "I-I-thought that if you could call I would tell you in-how sorry I am I didn't mean to be rude, the other evening, after all you have done for me and my father-but your words hurt! I know circumstances seem against me! and I should not blame you that you cannot keep your faith, in spite of them. Oh, if you only knew how gladly I would tell you all!

"Send the surgeon ! Do you need surgeon?" There was no mistaking the almost breathless anxiety of her

"It was very good of you to send

"Why, you certainly must have known that I was pretty badly done "I'm glad to be here, sir, but sorry up, or you would not have telephoned

> "Dr. Richard? I know no Dr. Richard. Tell me, what is the matter-"I said Dr. Pritchard. Didn't you

night before last, to come and look after me?" "I did not, Mr. Rutherford. How could I know that you needed a phy-

sician? If you would only tell me what is the matter! You talk so "I am laid up for several days," he answered. "Some one entered my

room, night before last. In the tussle "Oh, I'm so sorry! So sorry!" came back the distressed voice. "And I feel again as if I have been to blame! Was

it a burglarf"

"Well, Sims here was a special "No, Miss Bahandyne, you needn't detail on board the Gothic, though I worry on that account. The blue buckle is safe"

He was tempted to hang up the receiver, but waited to fire one parting

"By the bye, Miss Ballantyne, what did Mr. Helderman tell you?"

"Last night?" she added, wonder-"No, the night before-when I was

hurt.' "I did not see him the night before. I saw him last night, and it was partly about this that I wanted

"There seems to be some confusion about dates-but you did see him?" persisted Craig.

"Why, yes-but how queerly you talk!"

to see you."

"Good by," he said, putting the receiver back in place.

CHAPTER XV. A Velour Hat

Friday morning, Sophie chanced upon Miss Ballantyne's handbag on a desk of the West Tenth street house. She looked it through with professional thoroughness. She found nothing of especial interest except a small folded bit of paner on which was writ-

ten: "Cowen, Covington and Brown-32

Nassau-Friday at three." Today was Friday. The maid quickly restored the paper to its receptacle, and hastened upstairs to her mistress. "Mademoiselle, will you tell me what costume I shall prepare for you

today?" "Ch, anything." "Why not again the velvet gown and the velour hat, Mademoiselle? The combination is ever suitable for the Avenue, or for the stuffy old business office. Why do persons have to talk so much business, anyway?"

"Then you can lay out the velvet gown. Besides," she added to herself. "Mr. Leclerc will know me easier by that."

maid, smiling. "Hello!" called a man's crisp, business-like tones. "This is Mr. Cowen talking. I wish to speak with Miss

"Yes, Mademoiselle," returned the

Ballantyne, please." "This is Miss Ballantyne-but I do not recognize the name." "Cowen, of Cowen, Covington &

Brown," "Oh, yes!" replied Billie, her heart beating more rapidly than ever. "Did Mr. Leclere tell vou"-

"Everything is satisfactory, Miss Ballantyne." "Oh I'm so glad-so very glad!" "Mr. Leclerc is not here just now. He is detained on another matter. He asked me to call you up and postpone

3, I understand?" "Yes, at 3, this afternoon." "I believe he agreed to deliver to you a certain-sentimental article-in

the meeting slightly. It was to be at

which you are interested?" "Yes-have you it ready?" she asked

breathlessly. "Certainly. I am merely rehearsing these details in order that there may Ballantyne, if you will be good enough

to postpone your visit until 4, Mr. Leclerc will be able to see you.' "Until 4? Certainly," Billie agreed; and the business-like person at the other end of the line thanked her, and

rang off. Four o'clock came at last: and punctual to the stroke she presented herself at the spacious suite of offices where Mr. Leclerc was to await her. The office boy smiled at her, and without waiting for her to give her name

or errand started toward the inner of-"I'll tell Mr. Cowen," he said. "He

was just going, but don't think he has left the office yet." Miss Ballantyne wondered how the boy could know who she was so quickly; and if it were customary in large offices like this to tell an office-boy so accurately of expected clients. In a moment he was back, asking her to

"Mr. Cowen is glad he waited a mo

ment longer, he says." There were two men seated in the coom into which she was ushered. One she recognized as Mr. Leclerc, peering at her from behind his heavy glasses. The other was evidently Mr. Cowen, as he sat behind a desk piled high with papers. Mr. Leclerc arose. She approached him with hand extended. "You are here on time, Mr. Leclerc."

she said pleasantly. "You are back, Mis Ballantyne?" he remarked, not noticing her hand at first, then taking it as if her greeting rather surprised him.

"Back?" she repeated. "Why. I have 't been away." "Is there something further we can do for you, Miss Ballantyne?" Cowen inquired, courteously.

"Further?" she questioned, smilingly. "This is Mr. Cowen, I believe?" "Certainly," he replied, looking keenly at her. "I thought we agreed that everything was properly adjusted."

"So I understood you to say," she answered, her mind reverting to the telephone conversation, "and I have come for-the blue buckle."

"The blue buckle?" Leclerc repeated, while Cowen appeared to listen to this strange conversation without comprehending it.

"I came for it, as you suggested," the girl said. "And you got it, as I promised," Le clerc replied.

"I-got it!" Billie exclaimed, in as-

tonishment. (Continued next week.)

BOYS SENTENCED TO CLEAN TOWN

WILL ACT AS WHITE WINGS UN. the County Judge has to deal." TIL COURT IS ASSURED OF THEIR REFORMATION

JUDGE PUIS BLAME ON PARENTS

Holds Them Responsible for Infraction Of the School Law and Discipline

Hackensack, N. J .- Under the watchful eyes of a village marshal and of many unofficial eyes, six boy meendiaries, whose ages range from 13 to 15 years were cleaning the streets of Palisades Park, having been sentenced by County Judge Seufert to act as white wings in their home borough until the court is assured of their repentance and reformation.

The boys, who for several months past have acted a little worse than traditional bad boys, a short time ago, participated in setting fire to a valant building in Morsemere. That led to their arrest for arson. It was learned that an older boy, Joseph McCulluogh, who admitted having started the blaze and who had been in the reformatory at Jamesburg, had been the ringleader and guide. Judge Seufert held McCullough for a return to a reform institution, but announced his intention of trying an experiment with the boys of more tender age.

The judge in disposing of the case in court said that a large proportion | being laid on the table, but apparentof the blame should be fixed on the parents for not having watched closely enough over the activities of their children. Continuing, Judge Seufert

"One of the facts difficult to deal with in the case of juvenile offenders is that the children involved will play the part of heroes among their companions. In order to eliminate this heroic element it is intended to put them to work every Saturday morning for some time on the streets of Palicades Park, at cleaning crossings, picking papers and rubbish on the roads and cleaning up around the public school building. They will be compelled to devote the whole of every Saturday morning to their tasks and will probably be in charge of some of-

"The boys have also been prohibited from talking about or conferring with the rest of the school children concerning their experience in connection with the fire or jail, and have been impressed with the fact that a violation of any of the provisions of the probation will meet with further punishment. In addition they will be placed under the jurisdiction of Recorder Viewig, of Palisades Park, to whom they will report weekly. He will receive monthly reports from the school and the parents as to the behavior of the children.

"In regard to the position of the parents in matters of this sort, the trouble the court finds in dealing with these children's cases is that truancy is the starting point and that parents pay little or no attention to the reports that come each month from school and show on their face how many days the child was absent and low many times tardy. In some instances the parents pay little attention to whether reports are brought home or whether the child brings tooks home to study. The parents of each of these boys were summoned to court and personally brought before me and told in detail what their obligations are as parents and were directed to pay close attention to their children in the future.

"This case is a good illustration of the dire results of the lack of home surveillance and discipline. This is not an isolated case of truancy, but the deliberate planning and combination resulting in a gang of young miscreents not only becoming truants, but committing serious infractions of the

"It would be well to publish the fact that in this class of cases the court is apt to hold the parents just as responsible for the infraction of the school recovered to leave Kirksville with his law and discipline as the children who commit the violation and to deal with | They stopped at Minneapolis for a vishe parents accordingly.

"It is my intention to watch with was taken with the grip, but accordmuch care the working out of this ing to information from there the illpenalty because of the fact that the solution of the boy question is probably the greatest problem with which

Judge Seufert has long manifested a kindly interest in boys and young men and is always loth to subject them to prison influences if he can punish them for their wrongdoing without sentencing them to a prison term. He nlways is a strict disciplinarian.

HOLE IN MAN'S HEART IS PLUGGED; LIFE RESTORED

Heroic Operation that Saved Would-Be Suicide From Death Is

Fully Explained. Kirksville, Mo.-Earl H. Fisk of Helena, Mont., who shot himself thru red disks, and they were well lubrithe heart here still lives and is in a cated by the oil which the can also fair way toward recovery. His life was contained. She spent the best part saved by an operation performed by of a week washing off her alimony Dr. George A. Still, who says he took and then carted it off to the bank. hold of Fisk's heart, thru which the bullet had passed and by twisting the have accepted the can of pennies, as tissue of it with his thumb and forefinger plugged the hole and stopped the flow of blood. Dr. Still says the buckle is on guard for the next heart had ceased to beat and the man was apparently dead.

Fisk shot himself in his room shortly before 1 p. m. He was carried into fuse to accept it. the operating room at 1:20 o'clock Examination showed a bullet wound directly above the heart. The following account of what was done was dictated by Dr. Still.

"The shirt and undershirt were cut away from the chest and the skin day club, one of the most exclusive immediately sterilized with pure car- women's organizations in the city, apbolic acid washed off with alcohol. plied to Secretary of State Roach for The patient gasped a few times after copies of the corporation laws of the ly was dead. No pulse could be felt either in the wrist or neck.

"I made the remark that there wasn't much use operating on a corpse and then added that he wouldn't be any deader if we had a good look at the wound inside. I immediately opened the chest between the fourth and fifth ribs for about four inches, the bullet hole being in the middle of the wound, which was in the intercostal space below the rib near the nipple, a little inside. The wound exposed a out finding the time piece. The mill hole in the pericardium, which was distended with blood. I spilt the per- further search could not be made. icardium and let out a lot of blood clot This exposed the hole in the heart.

"The instant I took hold of the heart it began to beat. With my index finger I twisted the tissue of the dition after its long rest under the heart wall so as to plug the hole in the heart, then removed the remaining clots in the heart sack or pericar-

"From then on the pulse picked up, but all the time I was sewing up the wounds and while the nurses were ad- swiftly running water had kept it ministering a gallon of normal salt solution, he did not regain consciousness. The normal salt solution was to replace the lost blood and counteract shock.

"He did not regain consciousness until some time after he had been in bed, and it was two or three days before he was totally rational.

"The pulse steadily improved until after about three days it was normal. He ran a little fever during the first week. His temperature was practically normal for the next two weeks, and later on he left the hospital, apparently all right.

"The bullet which had gone thru the body and lodged in the tistues under the skin between the tenth and eleventh ribs on the right sid a was removed. It was perfectly shaped. The end of it showed the imprice of his shirt where it struck before entering the book. The sides showed the marks of the revolver riflings. It had mass ed the ribs golds in and showed no bone marks. It must have traversed a lip of the lung, the heart and liver.

"It went thru the heart near the center. It must have barely missed the largest voin in the body, the vena cava, and a little farther to the right would have caught the thin part of the heart and the pulmonary vessels. a little farther to the left the aorta the main aretery of the body. The bullet was an old style one of lead."

Fisk tried to get out of bed one night when the attendant was not looking. He struggled to injure the

PRESERVE THE **GOOD OLD RATTAN**

SEVERAL TEACHERS AND "OLD FASHIONED" CITIZENS OUT-LINE BELIEF IN ROD

STY PEDAGOGUES NEED POWER

Present Tendency is to Spare the Rod and Spoil the Child.

Boston, Mass .- Preserve the good old rattan, the old fashioned spankings and the "clubbin's" in the schools was the rallying cry of several teachers and old fashioned citizens who appeared before the committee on education to protest the bill which would do away with corporal punishment except by permission of the parents or guardian of the child.

"There is too much of this mollycoddling going on," declared indignant citizen John I. Fitzgerald, who represents the cosmopolitan district of Ward 8. "Time was when the cato'-nine tails and the switch were part of the household furniture. Now we have the spectacle of a daughter haling her father into court because he had dared to chastise her. Beatings never hurt any man; they do him

killed himself in September, shortly He believed firmly in the principle of "spare the rod and spoil the child." and gave lusty cheers for the good old plan of applying a rattan to the proper vulnerable spot in the hide of a recalcitrant pupil.

> But Fitzgerald's rooting for the stick treatment was as naught compared to the delegation of principals of schools in Lynn. It seemed as if all the corporal punishers of the Shoe City were on deck to defend their constitutional rights.

> Edgar Copeland who is said to be one of the most popular principals in this city, was one of the principal speakers in defense of the system. He declared that a teacher must have the power behind him to get action out of obstinate pupils or to reprove youthful pranks that violate the rules of good order in the school room.

> James W. Applebee of Lynn, an other principal, confessed to having a clear record this year and a good amateur standing in the corporal punishment league. But he was strong for the rattan method of educating the youthful mind to sprout.

"There is a time when a boy needs it right on the spot," he said, but the reference was not to locality but to time. "If you cannot punish the boy he takes the attitude What are you going to do about it?'

"There are some schools where a boy gets sick and has decent burial business. before the red tape is cut and punishment allowed and the hov what he is spoiling for."

The hearing was decidedly reminis cent of the youthful days of the committee and the audience, and they took keen interest in it. Every potential beater of the children, as the principals were looked upon, was greeted with careful scrutiny as if he might have concealed a stick up his sleeve which he was about to assault them with.

William T. Mignault was the petitioner for the legislation. It was his ed to be permanent homes, nor palcontention that the child should be protected from the sudden passion of ling, who were too proud to bathe in the teacher.

"At present," he said, "the same person is the accuser and the judge of the child." He told of a case in Dorchester where a girl of 11 was so punished that her ear was torn to an extent requiring six stitches to sew it up. He believed that his bill, while not abolishing corporal punishment, would tend to prevent unjust punishment. Senator Chapman and Renresentative Wall were recorded for the bill.

"ELECTRIC HOBO" IS CALIFORNIA PRODUCT

Cooks as He Goes and Steals "Fuel From Third Rail With Own

Appliance.

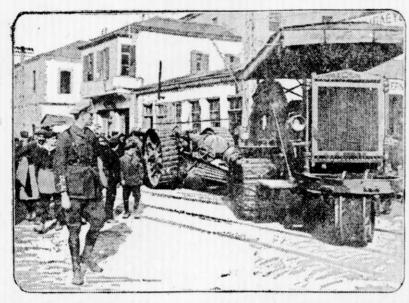

farmer, proudly hailed his prize Ches-Marysville, Cal.-Wanderers have hire hog when she became mother of been known to adopt various means ten piggies, four red, there white and of obtaining a livelihood and are known by various types, but a new CUTS MEALS TO REDUCE variety has just been discovered in

this vicinity. He is known as the "electric hobe." He is never without a hot meal when he can beg the ingredients with which to cook, and he doesn't have to carry a match with him or worry about kin

dling a fire. The Northern Electric Company's third rail is his stove, or at least the source of his fire, for he carries with him a patent stove. It consists of a folding iron plate, interlaced with copper wires. When he gets hungry he unfolds it and makes a connection vest of 25 1.2 inches and wears 10 1.2 on the third rail, places the food on the stove and, when ready, eats to him heart's content. Jackrabbits, vegeta tables, coffee and flapjacks can be

cooked on the electric grill. C. B. Harter, a Sutter county ranch er, says he saw the "electric hobo" at work cooking his breakfast the oth er morning. Among other things he heated a can of water on the stove took a rusty razor from one pocket, a cake of soap from another and a piece then began eating one meal per day and still gained flesh. He says he has of mirror out of his cont lining and returned to his old habit of eating shaved

HAS BATH, ELECTRIC LIGHTS, AND LIBRARY TO INCREASE EFFICIENCY

Cleanliness and Attractiveness the Strong Features of this Model Camp in Washington

Seattle, Wash .- "Clarence Hobnail, he huge fisted, hairy chested hook tender, emerged rosy from his morning ablutions in the tiled bathroom and made his toilet with usual care. Over the selection of a cravat that would match the dull bronze of his artful silk hosiery he spent a full quarter of an hour. Then, with a final polishing caress to his manicured nails he strode smiling from the bunk. house, eager to begin his days work."

Sounds foolish doesn't it? It is, but not so foolish as many an old time logger would consider the things that are going on the the Cherry Valley logging camp.

Logging de luxe is the program at Cherry Valley, but what the old timer might overlook in his scornful comment upon a model logging camp would be the efficiency of the plan. The Cherry Valley Logging Company which operates near Everett, has reformed the old time camp until an old timer would not recognize it, but not solely for the spiritual uplift of the logger; rather because this is good

The time honored logging camp, bunkhouse and cookhouse was the original bachelor's hall It represented the worst man can do in the way of housekeeping.

The big men who go into the woods to get out the timber accepted that as - matter of course. It never occurred to them to consider whether a logging camp could be improved upon. Logging camps had always been as they were and always would be, in the estimation of any who ever gave the matter a thought. They were not intendaces of pleasure for pampered darthe creek and eat off a plank table of uncertain cleanliness.

A bunk in a logging camp was, and is, with few exceptions, a plank box of coffin size, floored with fir boughs at some forgotten period. The food served on the plank tables was, and usually is, rich and above all plentiful but that is all one could conscientiously say of it.

Wash day in the old time logging camp comes on Sunday, and the timebonored method of laundering clothes bonored method of laundering clothes is to hang them on a snag in the river Send in your and let the current do its worst.

Then the Cherry Valley Logging Company came into the field and

brought about an innovation. It built a model logging camp.

Each man in this camp has a bed or his own, an iron bed, with springs and a mattress. The bunkhouse itself is a substantial, modern well ventilated, pleasant structure, with rooms for recreation. It has a laundry of its own and rows of sanitary laundry tubs where employes do their washing.

There are real bathrooms in this bunkhouse, and hot and cold running water for bathing. There are reading rooms, a library, and there are electric lights.

Similarly surprising things have been happening to the cookhouse. It is now a place where a dyspeptic would care to dine. Cleanliness and attractiveness are two of the strong features of the whole camp.

"The result of this innovation," said R. A. McDonald, manager of the company, who is a frequent Seattle visitor, "is increased efficiency. We get the best types of men and we keep them interested in the job. That means a bigger cut. We weren't indulging a whim for visionary philanthropy when we upset the traditions of logging camps. We were looking for dollars and cents results, and we got them."

But, shades of the great North woods, what will the old time logger say to it?

HIS FARM IS TRAMPS' HEAVEN Good Natured Planter Houses 595 in One Year.

Reading, Pa .- Henry Heft, a good natured farmer of near Adamstown. gave lodging to 595 tramps during the past year. Every hobo calling at his country place is given a comfortable place to sleep and meals. In return the guests always do chores about the farm. In all his experience, Heft has never had any trouble with those whom he sheltered.

His records show the January guests numbered 34, February 32, March 83; April 83; May 64; June 71, towns of classic nomenclature. There July 37; August 70; September 32; October 18; November 38; and Decem-

Fire Talking. At the recent Royal Society con-

versazione in London, an interesting modification of the phonograph was shown by Mr. T. C. Porter. The trumpet was removed from an ordinary phonograph, and the diaphragm covered by a small chamber, through which a mixture of coal gas and air was passed. The gas was led from the diaphragm, through two rubber tubes at the end of which were small burners. The burners were set at an angle to each other so that the resulting jet of gas was spread into a sheet. If the phonograph was worked, only extremely feeble sounds were produced but as soon as the two jets were light. ed, the flame rendered the sound perfectly audible, and the articulation was very nearly as good as could be obtained with the use of a trumpet,

TOOK SHIP AROUND THE HORN. Admiral Clark Got Command Because of Skill at Chess.

Admiral Charles E. Clark, who took the battleship Oregon around Cape Horn and into action at Santiago, is said to owe his appointment as commander of that boat to his skill as a

chess-player. Capt. Clark was at San Francisco in command of the gunboat

Bennington. When ashore he spent

much time in the chessroom of the Mechanics' library, where he met some of the best players in the city. According to the story, when the time

came to appoint a man to command the Oregon a friend of Clark's in the navy department at Washington put his name forward. "You should see

that man play chess," said he, and

went on to describe his intense application and determination, adding:

"And that's why I think he can bring

the battleship around safely, if any

one can." Three hours later Clark

received orders to assume command

of the Oregon and take her at once

to Cuban waters.

A Life-Saving Sash.

A Frenchman, M. Challeat, has invented a new sash which, he thinks, will keep every one who wears it from drowning. The wonderful article is made of India rubber; but inside it is placed a little box containing a certain quantity of one of the compounds of calcium. When the sash comes in contact with the sea the calcium compound decomposes and produces a quantity of gas sufficient to inflate the sash and preserve its wearer from any risk of death by drowning. Experiments have been made with this new idea, and so far they have been satisfactory.-Exchange.

A Malay Time Piece.

In Malay the natives keep a record of time in the following way: Floating in a bucket filled with water they place a cocoanut shell having a small perforation, through which by slow degrees the water finds its way inside. This opening is so proportioned that it takes just one hour for the shell to fill and sink. Then a watchman calls out, the shell is emptied, and the process is begun again.

A List From the Classics. New York State is full of cities and

must have been a wave of Graeco-Roman lore when the christening of municipalities took place, with a byproduct of Asianism as a seasoning There are such names as Rome, Troy, Athens, Cairo, Syracuse, Ithaca, Sparta, Italy, Greece, Egypt, Tyre, Memphis, Venice, Florence, Corinth, Parma, Milan, Naples, Hector, Ovid, Delhi, Delphia, Diana, Paris, Pompey, Ilion, Palmyra, Palermo, Marathan, Mycenae, Napoli, Nineveh, Babylon, Romulus, Siloam, Smyrna, Utica, Virgil, Homer, Cicero, Ceres, etc.

Anaesthetics Suppress N-rays.

M. E. Meyer has shown that vegetables put under chloroform lose much of their power of emitting N-rays, and M. Jean Becquerei has been led to try whether this effect of anaesthetics is not more general. He finds that not only organic bodies, but even inorganic, for example, sulphide of calclum, cease to emit N-rays when under the action of the fumes of choloroform, ether, protoxide of nitrogen, etc. In fact, the suppression of N-rays by anaesthetics in vegetables and miner als is much alike.-London Globe.

Was Above Temptation.

A good story is told of A. C. Mac-Laren, a well-known cricket player. He was playing a picnic match "up country" in Australia when one of the batsmen skied a ball very high between the wickets. MacLaren was walting for the catch, but the striker in running past cried, "Oh, Archie, drop it, do, and I'll allow you to kiss my sister." MacLaren, it is added, was proof against the attempted bri-

Canadian Absentees.

An Ottawa correspondent reports to the Montreal Gazette that often not more than 200 members of the Dominion's House of Commons are in their seats. "The frequent and long absence from Ottawa of members is even more commented on this session than it was last," he writes. "Among those who do stay at Ottawa most of the time, too, there are many who usually find less to interest them in the debates of Paliament than in the various rooms surrounding the chamber."

New Dish on London Menus.

Hundreds of people dined off roast Russian bear the other day at two London restaurants. The bears had been imported alive from Russia and slaughtered in this country. The bear steaks were so much appreciated that roast bear, it is stated, will in future be regularly included in the menu of these and other restaurants. -London Tit-Bits.

KEWASKUM, - - - WISCONSIN

NO MONEY IN CIRCULATION.

Inhabitants of Tristan da Cunha Havo

No Jails or Schools as Well. Folk who hold that money is the root of all evil may find support for that belief in the Isle of Tristan da Cunna. For, though seventy-seven white folk inhabit this flyspeck of an island in the South Atlantic, there is no money in circulation among them, and, significantly enough, there also is no wrongdoing of any description. Wrote a recent visitor to the island: "Money would be useless, for there is nothing to buy." And he continued: "Living in honesty, sobriety, and harmony, free apparently from all crime, vice, dissension, or double dealing, the inhabitants of Tristan da Cunha seem unconsciously to have carried out the purpose entertained by the original settler in 1811, Jonathan Lambert, by keeping themselves 'beyond the reach of chicanery and ordinary misfortune." They have no written laws. All being law-abiding, they need none, each doing what seemeth right in his own eyes. They have no jail. Crime among them being unknown, such an institution would be a superfluity. They have no form of government and pay no taxes. They enjoy perfect independence and freedom which never degenerates into license. The community is absolutely moral."-Los Angeles Times.

Americans Should Spank

The crown prince to the throne of Belgrade, a lad of seventeen, fell in love with an actress. The king sent for his son, laid him across his knee, and spanked him, curing him of his folly. If royalty can spank, why should it not become a fashion? The son of an American citizen who disgraces his parents should be spanked, and while the American citizen has his knee in position, let a few pats be given to the daughter who loves the wrong man; who goes to the depot to flirt with strangers, and who loafs the streets instead of helping mother at home.-Atchison Globe.

Spats Worn by Highland Soldiers. Where did spats come from? High-

land soldiers wore them first. Because of the bravery of Highlanders at Lucknow and elsewhere in India during the Indian mutiny the people of England looked about for some way to show their admiration. Scrutiny of the Highland dress disclosed that spats were the most suitable for adoption, so they were adopted and have been commonly worn ever since.-Edinburgh Scotchman.

Early History of Coffee.

The use of coffee beans was first known to the Abyssinians, but the employment of coffee as a beverage was first recorded in the fifteenth cen-

Two varities of "gahoua" were known. One was a preparation from the shells of the seeds, which was known as "qicharyat," and one from the seeds proper, which was known as "bounyat."—Bullentine of Pharmeceutical Science.

Shoes for a Giant.

A Calumet, Mich., shoemaker has just finished a pair of shoes for Louis Mollenen, known as "the Quincy Hill Giant," Mollenen is nineteen years old, stands seven feet eight inches in height, and tips the scales at 300 pounds. The shoes are sixteen and one-quarter inches in length, six inches in width and weigh five pounds each. Molle at work in the Quincy mines where he is employed.

Did Not Understand "Mongreis."

Sir Henry Howarth, the well-known archaeologist and historian, was dining out and found himself sitting next to a young lady, who immediately at tacked him by saying: "Oh, Sir Henry. I am so glad to have met you, for I want your advice about a dog of mine." "My dear young lady," quoth Sir Henry, "I know nothing about dogs." "Oh, yes, you do I have been told that you have written a book on 'Mongrels' and mine isn't a really wellbred dog." Sir Henry smiled, for he is a great Asiatic authority and had written on "Mongols," not mongrels.

Rent 1 Cent a Month.

Anthony Suda of St. Louis lives in a house, for which he pays a rental of one cent a month. This rental is charged by his employers, and Suda's task is that of acting as watchman at the factory, almost adjoining his home. His employers state that they charge Suda one cent a month rent for the house in order that he would be entitled to 30 days' notice before eviction in the event of the property passing into other hands.

As Green as He Looked.

During the last session of the Circult court in a small town in southern Wisconsin a well-known Badger lawyer came to grief by being just a little too sharp. According to his habit, he was browbenting one of the witnesses. "Now, Mr. Jones," said he, "you can answer that question a little more clearly. You are not as green as you look." "Yes," drawled the witness, in reply, "I am a butcher be profession and not a lawyer."

Meaning of Dog Watch.

Dog watch is a corruption of dodge watch, and is the name given to two short watches of two hours each on shipboard one from 4 to 6 p. m. and the other from 6 to 3 p. m. The dogwatches were introduced to prevent the same men from always keeping watch at the same hours of the day; hence on these occasions the sailors are said to dodge the routine, or to be doing dodge-watch.

Her Dearest Wish. Says the woman: "Oh, that mine enemy would let me trim a hat for

FARMERS ASK SILO QUESTIONS. Experiments Show Clay Block Silo Sat-

isfactory If Well Built and Is Warmer Than Wooden Silo. What kind of a silo shall I build?

Will silage freeze more quickly in a ollow tile silo than a wooden one? Does the exposed iron on a cement tave silo make it an undesirable type o build?

What, in brief, are the requisites of a ood silof Does silage affect the wearing quali-

ies of concrete? These are questions that farmers are sking in their letters to the agriultural engineers who have briey com-

iled answers: schoosing a silo. The first two items, help to get her to laying again soon. f course, will differ in different localiies. Results with the clay block silo on many farms have proven very satisactory. When built of good material and by good workmen we have heard

of no complaint about this type. Experiments have shown the hollow ile to be warmer than the wooden silo. The exposed iron on a cement stave ilo does corrode in a number of years. The bands may be replaced, however,

or from \$25 to \$40. The qualifications of a good sile are: It should be air tight.

It should be smooth. It should be built of durable mate

It should be built to withstand the ursting pressure of the silage.

Silage does not have any very detri nestal effect upon wall made concrete. sand used in the concrete should contain no particles soft enough to be ratched with the thumb nail.

e retain usual length and width.

TO BREAK UP BROODY HEN.

Don't Duck Her in Water, Throw Her Off Nest or Starve Her.

Don't duck a sitting hen into the water trough to break up her broodiness, warn the poultrymen. Nor should she be thrown off the nest time after time or shut up in a coop without food or water because she wants to sit These methods may break up her broodiness, but may also destroy her egg laying ability for some time.

Put her in a slatted bottom coop ung between two trees. Supply her with fresh water and plenty to eat and her broodiness will soon be broken up A V-shaped trough can be placed in front of the coop so that a moistened Cost, availability of material and food can be fed occasionally. Plenty lurability are points to be considered of grit, green and animal food will

NEED OF EXERCISE.

Exercise in some form is absolutely necessary for health. We are so contructed by nature that the digestive ract and alimentary tract demands bodily activity in order to perform its proper functions. Without it troubles egin to appear. Constipation beames a chronic disease, the circulaion becomes poor, the liver and kiday begin to grow corpulent because similative organs are unable to work roperly from lack of proper exercise.

"All on fire! no one there but old man and Nell," and he was off, faster in be printed in this and 75 to 180 other than le'd come. I rode out to the 'All on fire! no one there but old nan and Nell," and he was off, faster than he'd come. I rode out to the field where Jim was, leading his best horse for him. By that time we could see the smoke rising from the cluster of buildings on the southern horizon. I followed Jim as fast as I could, on the slower animal, wondering if this talking until the coals had nearly fire could become as terrible as the old time prairie fires, or the forest fires of every fall. Before long, I passed men plowing a wide furrow on the south side of a mile square field of wheat. At the ranch, others were doing what they could to stop the fire, wetting roofs pailfuls at time, handed along a line of half a dozen men and women, from pump to barn. A few others were getting

things out of the house.

I saw a white-haired old man stand ing stock still in the midst of the confusion. Suddenly he clenched his right hand and threw his arm up into the an experience I had that first summer in Dakota. "I never could ex- knew it was old man Pearson, cursplain it, nor believe it, nor forget it," ing God for this misfortune. ING BIG DRAMA

"Cutey" Working on a New Photo-Play Featuring Earle Williams.

One of the most important pictures under course of construction is "The Scarlet Runner," taken from the popular novel of that name, by C. N. and A. M. Williamson, which is now being filmed under the direction of Wally Van. This feature is practically the debut of Mr. Van into the realm of are practically strangers to her. drama and romantic pictures, for his work hitherto has been solely in the line of comedy. In this release Wally is destined to lose the sobriquet of "Cutey," which has made him a favorite for many years.

"The Scarlet Runner" will be released in twelve episodes, each one complete in itself and each one telling one of the thrilling adventures of the gentleman chauffeur made famous by the Williamsons. Earle Williams, a favorite in the world of photoplayy, will be seen in the principle role while the feminine lead is to be changed with each episode. Practically all of the prominent Vitagraph actresses will be seen, with the exception of such leading players as Anita Stewart, Lilian Walker, Edith Storey and

Wally is having adventures of his own in filming "The Scarlet Runner," which was picturized by Geo. Plympton. The "Runner" is an automobile, built specially for use in this production, and as the exteriors must have scenes and architecture typical of England, where the plot is laid, extensive traveling has to be done in the big limousine.

Contrasting with this feature are two of Wally's latest efforts, "Levy's Seven Daughters," and "Putting Pep in Slowtown," and it will be interesting to see the results of this director's versatile talents.

COMEDIAN OF REPUTE PRODUC- MRS. DE HAVEN MILKS A COW

But Would Rather Drive an Auto Than Operate an Animated Refrigerator, She Declares.

All her life dainty Flora Parker De Haven, who plays the leading role in "The Wrong Door," and in Director Otis Turner's Universal production, "Get the Boy," has lived in the cities when she has not been treading the Agriculture. As a result of this exboards, and consequently rural districts and the animals of the country

When Director Turner told the little lady she would have to milk a cow in ne of the scenes she exclaimed: "Me milk a cowf Oh, goodness, you'll surely have to rehearse me. I hardly know what a cow looks like."

And, indeed, more than one rehearsal was necessary, for Madame Bovine seemed to know that Flora Parker De Haven was a stranger to the art of milking and persistently refused to submit to the operation.

Director Turner, after many patient efforts, finally succeeded in getting the bamboo, which are now under experiattention of the cow, whereupon the little star proceeded nervously to play the part of the milkmaid.

After it was over, this dainty Uniersalite said: "I'd rather drive an auto any time

than operate an animated refrigeranever encountered in all my life."

NEW MUTUAL FEATURE WEIRD GHOST STORY.

Creepy Plot In Drama of Dual Personality.

Perhaps you do not believe in ghosts. Neither did young William H. Stuyesant, the hero of "The Dead Alive." Young Stuyesant's wife had died, leaving behind her a sister, her exact image of which her husband knew nothing. Old "Doc" Ardini, a professional crook, learned that Stuvesant did not know of the girl's existence. He also wanted to get some money away from the young fellow, so he claimed to be a spiritualist, and To all her California friends Mar- promised to bring the broading young related to the sweet gum of the south, man's wife to life again in a seance.

All would have been well if Mary, year, and on top of that she went up closed her identity to her dead sister's

PLANTS FROM CHINA

Plant Introduction Expedition Yields Promising Specimens-New Hardy Yellow Rose Discovered

The third expedition into China to discover new plants suitable for introduction into the United States has been completed by F. N. Meyer, plant explorer of the U.S. Department of pedition through the center of China, and two previous explorations of sim ilar duration covering extremely cold Manchurian regions and the Arid regions of Chinese Turkestan, there have been sent to America for planting and testing for commercial adaptability, seeds, roots, or cuttings of some 3,000 food and forage plants, flowers, ornamental shrubs and vines, shade and timber trees. The previous expeditions brought to America specimens of many cold- restrictant and dry-land grains, sorghums, soy beans, alfalfas, and forage plants, and also certain semitropical plants such as the mentation to determine their useful ness for the extreme south.

Of the many specimens forwarded to this country during the last expedition, the specialists regard as most significant the jujube, a fruit new to this country, which may be suitable tor like that. Such cold reserve I have for use in the southwest; a wild peach restrictant to alkali, cold, and drought the root system of which offers great possibilities as a grafting host; certain Chinese persimmons larger than any hitherto known in this country; a number of aquatic food roots and vegetables which offer promising possibilities for the utilization of swamp land; some thirty varieties of vegetable and timber bamboos; and a number of Chinese vegetables, bush and climber roses, shrubs and trees.

Of scientific rather than commercial

interest is the discovery on this ex-

pedition, near Hangchau, of a hickory tree, the first found in China. The existence of this tree, together with the facts that the sassafras and tulip trees are common in both countries and the Chinese tea box tree is closely confirms the fact that the flora of the southeastern United States and that of sections of China are closely related. Another discovery of botanical interest was the finding in a remote and hitherto unvisited valley in Tibet of a hazel tree 100 feet high, a surprising departure from the bazel bush. Elsewhere English walnuts were discovered in a wild state; and the discovery of the wild peach is regarded as significant because it seems to establish that the peach may have been a native of China rather than of Persta, to which its origin has been as cribed. The discoveries of native and hardy oranges and other citrus fruits, a number of which have been brought "When a man and woman marry," that it is practical in exceptional to this country for breeding work, give sayo a philosopher, "they should live cases only, remarks the Louisville added evidence that China was the by themselves if they have nothing Courier-Journal. Its general adoption home of the orange, which was intromore than a frying pan and a blanket would not be possible. But if it were, duced into other countries probably by early Portuguese travelers. Similarly the Spartan advocate of freedom, and many plants commonly ascribed to other countries, such as the wistaria. realized. And in the history of matri- chrysanthemum, lilac, azalea, and certain peonies and rambler roses, have been developed by the Chinese, although, because they reach Caucasian use through other nearby nations, their Chinese origin often has been

overlooked. To lovers of flowers the new Chinese rose known as the Rosa xanthina should be of special interest, particularly in view of the fact that there is at present a great demand for yellow roses. This bush has small, light yellow flowers, but its great quality is its hardiness which will enable it to flourish in the North even as far as Canada. The chief promise of this rose, however, lies in the fact that it will in all prabability lead to the production of new hardy types of yellow roses adapted to cultivation in America. It may produce varieties which will not drop their leave like our Per sian vellow roses do and yield varieties with larger and more showy flowers. In addition, the explorer found a number of new rambler roses, particularly certain yellow ramblers which if locally successful, will meet a demand for a climbing rose with a flower differing in shade from the crimson and pink flowers of the well known

RACKS FOR EGGS

rambler varieties.

Eggs, if kept in a cool place with a them, will keep better than if otherwise stored. Small racks for holding a dozen eggs are of convenient size for enamel, the openings being of a size to bold an egg upright. Similar racks are made of wood and still others have a wooden base with a wire holder for each egg.

Milk pails should be of such con struction as to enable them to be easily cleaned and kept bright. This is best accomplished by having the inner surface of the pail smooth and free from seams or crevices, which serve as a place for dirt to accumulate and make its removal difficult. The pails should have the seams smoothly soldered and should be heavily tinned to prevent rusting. They should have a narrow or covered top to exclude as much falling dirt as possible.

IT'S EASIER NOW.

When I was young I had to go and till the cornfield with a hoe. Ah, it was weary work, indeed; I paralyzed the noxious weed and scraped the dirt around the corn and yearned to hear the dinner horn. I'd toil all day to beat the band, till blisters came on hoof and hand, and then the husbandman would say as he dug up my meagre pay, "Was that the best that you could do? You must have loafed the whole day through!" And now I see the farmers ride on cultivators tall and wide, that hill the corn and slay the weeds, as they are drawn prancing steeds. A hundred freekled lads with hoes might work all day along the rows and not achieve as much, I ween, as would one green and red machine. The farmers of those modern days know naught of old time toilsome ways, they do their labors sitting down and ride in choo-choo cars to town; they find the boodle growing rank and have to stack it in the bank.

GAY THREE-PIECE DRESSES IN LIEU OF SUITS.

Now that the penitential season is practically over, the feminine mind LA MODE VACILLATES ON THE any of these aids to health, then he urns naturally to the subject of clothes. Usually suits receive the first onsideration, and there is wide choice n Easter offerings.

Among the comparatively new ideas ne finds the three-piece dress. In other seasons we recognized this triple lliance of skirt, blouse and coat under the title of three-piece suit. Now, owever, the blouse has been supereded by the one-piece dress and the ensmble takes its name from the lat-

One of the most attractive of such nodels is found in a Cheruit frock made of dark blue serge and having a yoke and long sleeves of taffeta, elaborately embroidered with chainstitching in gay colors. The beauty about this particular garment is that when warm weather arrives the silk guimpe may be replaced by one of ingerie fabric.

Bulloz has also contributed a very effective model which shows a serge dress trimmed with taffeta roses in natural tones. Over this dress is worn three-quarter length coat of voile, the exquisite rose trimming of the gown. One can hardly speak of such creations as suits or costumes, and yet they will be worn in the street just tice guide to that of the other. as if they were.

Ever so many of the houses that mport costumes for pre-Easter exposition are now offering the originals at prices that are, in many instances, as reasonable as they could be prored in Paris. The idea seems to b that it is better to move the originals quickly before they have lost the lovelty and charm of their French inception, rather than to carry them over more or less indefinitely only to find them eventually copied broadcast over the world and thereby much depreciated in value. After all, this is good sense and good business.

It becomes more and more appaent as the days go by that the popuarity of the navy blue, demonstrated ast Spring and Summer, is to be duplicated during the approaching weeks. One finds this evidenced in the suits of serge, the demi-costumes of grosgrain silks and the practical separate coats of gabardine and briliantine.

Many of the suits continue the ombination of the serge and taffeta and this despite the fact that this association of wool and silk fabric was Nevertheless, one may pay more than wear suit of serge and taffeta.

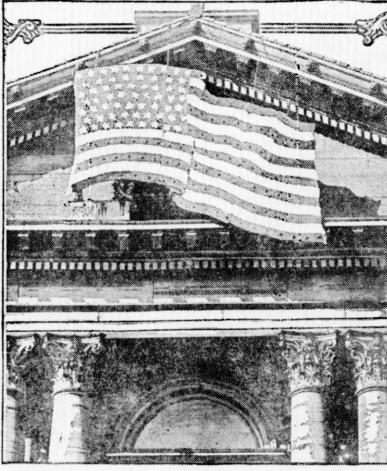

While all the skirts are short and one character. There is the suit with the eton or bolero jacket, the one with is almost three-quarter long. It is on flesh. At first the poor fellow feels can eat a greater number of eggs than be left relatively plain.

per representative tried to break through the hermit's veil of isolation. The enclosure covers more than an acre of ground, is surrounded by a very high and thick hedge, and along the bottom barbed wire is stretched, so that it is almost impossible for any one to effect an entrance. On the outer side of the main fence is a ditch ten feet deep and twelve feet wide, the earth being banked up so as to form a barricade twenty feet high, and on the top of this another thick hedge is planted. The work must have taken one man twelve months to complete, and was done twelve years ago by the hermit all in the night time.-London Chronicle.

Greeley's Visit to Colorado.

In his reminiscences Henry Villard tells of Horace Greeley's visit to Colorado. He and a companion went in one of the express stages and had met with a singular and perilous accident. In driving through a herd of buffaloes the animals, probably maddened at the sight of the red color of the coach, had attacked and upset it. Greeley had received a severe cut below his right knee, crippling him for several weeks. Being confined to his room in the hotel by his wounds Greeley was greatly disturbed by the sound of revelry by night that rose unceasingly from the barroom. Villard writes: "His wrath culminated on the third night of his tortures. I was fortunate enough to be with him and thus became an eye and ear witness of what hapened. About 10 o'clock he got up and insisted on limping to the barroom. His appearance, though his presence in the building was generally known, created surprise and instant silence. He begged for a chair, and, 'Friends, said he, 'I have been in pain and without sleep for almost a week and I am well-nigh worn out. Now I am a guest of this hotel, I pay a high price for my board and lodging and I am entitled to rest during the night. But how can I get it with all this noise going on in this place?" Then he addressed one of the most pathetic appeals I ever heard to those around him to abandon their vicious ways and become sober and industrious. He spoke for nearly an hour and was listened to with rapt interest and the most perfect respect. He succeeded, too, in his object. The gambling stopped and the bar was closed every night at 11 o'clock as long as he re

Odd Costumes of Eastern Countries. Both in Mostar, the capital of Bos nia, and in Sarajevo, the capital of Herzegovina, the attention of the traveler is arrested at every turn by the varied costumes of the nativesveiled Mohammedan women with henna-stained nails; men in red fezes, enormous blue trousers and zouave jackets; young girls in almost transparent white garments, beneath which voluminous trousers droop over flat-soled, peak-toed shoes of deer hide, profusely decorated with red leather, and yet other women whose headgear is a cross between a coalscuttle bonnet and a chimney cowl, horrible to look upon and suggestive of suffocation and unapproachable prudery. Though these countries are ruled by Austria, the people are essentially oriental.

HILL'S STORE NEWS

Painting Stripes Upon a Donkey

NOT many years ago, a man sought to dispose of a poor donkey that for many years had toiled in his behalf. As the donkey stood, he was worth little. As his color was quite like that of a zebra, all he needed was the stripes. This man quickly with paint and brush supplied the stripes. The man sought a buyer, but none were deceived. Paint could not disguise the real animal.

Readers of advertising are seldom deceived; paint in advertising changes the look too little to be deceptive. Women who seek accepted styles are coming to this STORE. No deceptive stripes here.

Women have learned to expect from this STORE not alone the best styles but all that goes with the best, QUALITY MERCHANDISE. For here, more than style, you find MERCHANDISE that's different.
