### TO WORK FOR **NEW TRANSPOR-TATION LINE**

Eastern Section of Washington County

A chance to secure a longfelt and badly needed want-A trans-

A chance to secure a longiest and badly needed want—A transportation line from Milwaukee to Fond du Lac by way of Brown Deer, Thiensville, Cedarburg. Newburg, Fillmore, SilverCreek, Batavia, Boltonville, Beechwood, Parnell, Armstrong, Dotyville and Fond du Lac, running through or near, above mentioned places.

The line would run through a good farming country, farmed by the best farmers in Wisconsin. I am familiar with the territory. I know every section of land in it, and for several years I have sold farm lands, and I, as well as all men in this line, am well aware of one great difficulty which arises and is ar obstacle in most every sale—too far from a railway station; otherwise, prospective purchasers are well pleased with conditions.

chasers are well pleased with conditions.

A few years ago a survey was made in or near the above mentioned territory, and all concerned were hopeful of a line, but for some reason it went by default, and nothing further was heard of it, and the present mention of such came about in this way:

Several months ago I had a busness transaction with the president of a very successful transportation company doing business

portation company doing business in Wiscorsin, and of the many things we talked of, I asked him if he was familiar with the territory above mentiored, and he said he had not taken it up. I explained to him the conditions. He took note of what I told him and promised to report to me conditions later. Following is his

tions later. Following is his statement:
A good productive farming country but very uneven land and it would be a very expensive line to build, but being a direct line to Milwaukee from Fond du Lac, and owing to the location of his line, would build and operate the line under certain conditions he would make to the farmers and property owners for a certain disproperty owners for a certain distance each side of the line. There would not be ary stock offered nor any schemes resorted to but a bonus to induce the building of said line, and he would not ask the property owners to put themselves in a position to pay unless line was built and operated and the amount he will ask is very

fit and importance.
The writer of this letter does not care to have his name mertioned now, but requests anyone living in the vicinity mentioned to write their views on the matter and state just what they think—if they are for or against the proposed

reasonable, considering its bene-

when writing your views on the matter do not sign your name to your letter unless you wish to do so. I also asked people who are interested in such a line, to write an article to their newspaper and make known their views in that way. If the general sertiment is in favor of the line, I will then bring the president of the trans-portation company mentioned acove to the people of the vicinity and they can know and see who they are to take the matter up

Fond du Lac Men Conquer Roads

L. W. Romaine and H. J. Engels

to Fond du Lac Friday, when they
made the trip in an Elgin 6, the blaized the way from Milwaukee to Fond du Lac Friday, when they made the trip in an Elgin 6, the first car to cover the road tween the two cities in 1917.

But while Mr. Romaine and Mr. Engels evertually reached Fond of Lac their trip was not devoid of hardship, and they were stall-e't in ore drift near Lomira from 6:30 to 10 o'clock Friday night. Most of the roads from Milwaukee to Fond du Lac were it poor conditior, but the worst stretch was that between Lomira and Byron where for a distance of four elected, will be held in Adolph miles drifts of zigantic proportions were encountered.

The Fond du Lac men left Mil-

waukee at 10:30 o'clock Friday forenoon and arrived in Fond du Lac shortly after midnight. They were well aware of the difficulties of their undertaking and they found the job fully up to expec-tations.—Fond du Lac Common-wealth.

### A Bilious Attack

When you have a bilious attack your liver fails to perform its func tions. You become constipated. The food you eat ferments in your stomach instead of digesting. This They only cost a quarter.

Most every busiress man has from time to time contributed to funds to bring some manufacturity business to his home town—to add to its population. Permanent roads will do the same thing, and therease the volume of trade at your point. Permanent road building means building business, for as surely as your trade will increase. The farmer on a bad road takes a chance on getting what he wants writes to the mail order house and lets Urcle Sam take chances on doiry his hauling back and forth. The farmer on a hard road takes no chances on the quality of goods he warts. He drives into town and buys from the local merchant. The cost of living which affects the man in town, is determined by three factors: Production, distribution and consumption. It will be admitted, without argument, that the haul from farm to town. be admitted, without argument that the haul from farm to town on a country road is as much a factor in distribution as the haul from town to the markats of the world on a railroad, and it will be admitted also without argument that a country road ought to be managed on a money making basis as well as the railroad. There is orly one way to make a country road pay and that is to build it with a hard surface.

The United States Office of Public Roads estimates the cost of hauling the average annual crop of the United States from the farm to the railroad station at not less than \$500,000,000 and that this cost would be reduced one-half by the proper improvement of our road system thus saving \$50,000.

Companies are ordered to recruit at war strength-150 men."

Adjt. Gen. Orlando Holway has been appointed temporary brigadier general, pending the appointment of a permanent officer to command the Wisconsin brigade. Col. Randolph A. Richards of Sparta commands the Third regiment and is assisted by Lieut.-Col. John W. Hommel, Neillsville. Rev. George R. Longbrake, La Crosse, is chaplain. The regiment recently returned from duty on the Mexican border.

### To Stay Near Armories.

The men will assemble in their home armories. Those living in the city will be allowed to stay at home nights, the others will be provided with cots in the armories.

There will be no present gathering at Camp Douglas or at any other point until further orders are issued. Gen. Holway during the day was in communication with Gen. Barry and reported that the Third regiment was ready to move to a concentration point.

While National guard officers are disinclined to place one organization above another in efficiency or service qualifications, the fact that the Third is the best organization finds expression in the reports of army officers. This fact, bowever, it is claimed, had nothing to do with the call at this

It was the first regiment to be mustered out after service on the Mexican border and Col. Richards, in point of seniority, is the oldest commanding officer. Gen. Holway for many years was colonel in command of the Third regiment.

### Further Call Expected.

It is the general opinion here, and Adit.-Gen. Holway seems to coincide with this opinion, that other Wisconsin organizations will be called upon to mobilize within the next ten days organize four engineers' corps to form or two weeks. of families of married guardsmen who are called into service.

It is expected a sum much larger than \$100,000 will be needed eventually for this work and it is the belief of Gov. Philipp that the state should adequately provide for all persons whom members of the suard are supporting when they enter the ranks. The governor says there is no reason that these people should be subject to charity as the men who are being called are giving their service to the state and the nation, and it is therefore but right that they should receive some return for the service.

The appropriation bill of the national guard, drawn to meet the requirements of the national law on the subject, gives \$300,000 for the Wisconsin National guard for the next biennial period. Under present conditions this amount will not be sufficient to meet the requirements which Wisconsin will need in placing its soldiers in the field.

#### War Footing Proposed.

The appropriation of \$300,000 was decided upon with a view to placing the Wisconsin National guard on the 10,500 men. It is now proposed to en-\$000,000 and possibly more.

The bill for the appropriation of \$300.00 is before the assembly committee on state affairs, where it has been for some time awaiting a discussion of the measure.

It may be, however, that except on appropriations for immediate use, there may be no action on military appropriation measures until after congress convenes, as it is felt that TERRIFIC CYCLONE SWEEPS HUGE NEW YORK CROWD CHEERS the real program for the raising of troops in Wisconsin to meet the present war emergency, cannot be planned Barry, Chicago commander for the desires of the state, in the way of furnishing troops for national service.

The bill for the appropriation for tue support of guardsmen families will, however, probably come in before the end of the week, as it is felt that as there will be some families of Third Regiment guardsmen to whom the aid should be extended at once.

#### DAVE LAW FOLLOWS A TRAIL OF CRIME THAT LEADS HIM TO A SURPRISING DESTINATION, BUT HE DETER-MINES TO ENFORCE THE LAW TO THE LETTER

Mrs. Alaire Austin, handsome young mistress of Las Palmas ranch, lost in the Texas desert, wanders into the little camp of David Law, state ranger lying in ambush for a Mexican murderer. She is forced to stay 24 hours, until Law captures his man, kills another and escorts her home. "Young Ed" Austin, drunken wastrel, berates his wife and makes insulting insinuations about the ranger. Austin is secretly in league with Mexican rebels and horse thieves. Mrs. Austin starts for her other ranch, La Feria, in Mexico, to secure damages for cattle taken by Mexican soldiers, and encounters Gen. Luis Longorio, who becomes instantly enamored of her beauty, much to her embarrassment. Meanwhile Dave Law, trailing horse thieves, kills a man who shoots his horse.

CHAPTER VIII.

Following Up the Trail. Dave was glad that he had swallowed "Young Ed's" incivility, not only for his own sake, but for the sake of Alaire. After all, he argued, it was barely possible that Ed had spoken the truth. There were many sorrel horses; the evidence of those rain-washed hoof-

prints was far from conclusive; even the fact that Urbina belonged to the Tad Lewis outfit was no more than a suspicious circumstance. And yet, earnestly as he strove to convince himself of these possibilities, the Ranger could not down the conviction that the rancher had iled and that he himself was on the right track. It was late when he arrived at his

destination, but Lewis' house was dark,

and it required some effort to awaken the owner. When Tad at last appeared, clad in undershirt and trousers, he greeted the Ranger with a leveled rifle; but when Dave had made known his identity, he invited him in, though with surly reluctance. Lewis was a sandy-complexioned man of about forty, with colorless brows and a mean, shifty eye. Formerly a cowboy, he had by the exercise of some natural ability acquired a good property-and a bad reputation. Just how or why he had prospered was a mystery which his neighbors never tired of discussing.

Law explained briefly. "Why, he's one of my best men!" laughed the rancher. "He wouldn't ed, and Gonzalez uttered a smothered steal nothing."

"Well, I had to shoot another good man of yours," Dave said quietly. Lewis fell back a step. "Which one? Who?" he inquired quickly.

"Pino Garza." Dave told of the meeting at the branding fire and its outcome. He was aware, meanwhile, "I-hope you don't think we know that Lewis' family were listening, for "Where's that man on the sorrel behind a half-open bedroom door he could hear an excited whispering.

Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste. liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the sys-

tem, and you have a well child again. Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never falls to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

Enough.

"Frank," said the teacher sternly, "you were late this morning." "Yes'm," replied the boy, blushing to the roots of his hair. "I had to get up in the middle of the night and run for the doctor."

"I'll excuse you this time, Frank, but I hope it will never happen again." "That's what pa said, too," was the unexpected answer.

In many recipes the number of eggs may be reduced with excellent results by using an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following recipe is a practical example:

Chocolate Sponge Roll

2 tablespoons melted shortening 34 cup not water 1 teaspoon vanilla 2 teaspoons Royal Baking Powder

The old method called for 4 eggs and no baking powder

DIRECTIONS - Sift flour, baking powder and salt together three times. Beat whose eggs. Add slowly sugar, then boiling water slowly; add next vanilla, melted chocolate and melted shortening, without beating. Sift in dry ingredients, and fold in as lightly as possible. Pour into large baking pan lined with oiled paper, and bake in slow oven twenty minutes. When done, turn out on a damp, hot cloth, spread with white icing and roll.

The breaking of the mill dam at New Cassel last week, caused the high water along the brarch of the Milwaukee river to subside amazingly. The entire dam went out in 1867, when O. L. Helmer owned the mill, and again in 1874, when J. H. Reysen was the owner. About 1881, when Calhoun and son owned the mill property the dam went out for a third time, after which break it was rebuilt with which break it was rebuilt with rock, which stood until recently, in each instance the overflow for many miles along this stream was drawn into the main channel within twenty-four hours after the dam went out. The same is true in other localities, we will refer to the property in the town of Ash-ford, the dam at Elmore and the Hull dam, each held the water and hundreds of acres of choice land, which is now very valuable since hose dams are removed. ### GREAT DEMAND FOR CANADIAN LAND

Americans Are Buyers and Becoming Settlers—Anxious to Get Cheap and Produc-Tive Land.

Reports are to hand that there will be a large influx of settlers from the United States into the Canadian West Guring the coming Spring. For a time there has been a falling off, on account of the fear of conscription, which of course was not possible, and which the Canadian Government gave every assurance would not be put into operation. In any case it would not affect the American settler, and more than that the man who was working on the farm, helping to produce the grain that goes to feed those who are at war, would not be affected.

The excellent yields of the Western Canada crops, and the high prices secured is having its influence on those reports that have been sent out from time to time that this farmer and that April. farmer had paid for their entire farm the ears of the man looking for a farm. When he hears that G. H. Beatty of Nanton, Alberta, had 679 bushels of wheat from 12 acres or an average of 561/2 bushels to the acre, he becomes interested. When he learns that Sidnev E. Phillips of Beddeford, Alberta. threshed ten hundred and fifty-three bushels of wheat, the average being 52% bushels per acre, his interest is further aroused. Thos. Long of Lethbridge had 120 bushels of outs to the acre from a field of 25 acres." W. Quinn of Milk River had 6,094 bushels of wheat from 100 acres, an average of 60 bushels per acre, and Robert Tackaberry of Nobleford makes affidawit that he had an average of seventysix bushels of wheat per acre from a Geld of 10.63 acres. Thos. Boulton of the same place makes affidavit that from ofty acres he had a yield of fifty-three bushels of wheat per acre. Newell J. Noble's affidavit of getting 54 bushels per acre from 1,000 acres stands out most strongly as evidence of what the wheat grower can do. This affidavit is strengthened by a paragraph stating that he had 122 bushels and 30 lbs. per acre from 394.69 acres. Mrs. Nancy Coe makes affidavit that on her farm at Nobleford she threshed six thousand one hundred and ten bushels of wheat from one hundred and fifteen acres, or fifty-three bushels and eight the per acre, and from a flax field (stubble field) she got 20 bushels and 68 pounds per acre.

It cannot be said that these were freak yields because so many had such great success. When these reports are read, the man looking for a farm becomes convinced.

These are only a few of the reasons that will cause a large influx of Amerteen farmers into the Consdian West during the coming Spring.

The farmers now resident in Manioba. Saskatchewan and Alberta are purchasing additional lands. Prices are low and Free homestead land can be had in many districts and the homesteader is welcome.—Advertisement.

Referendum Liquor Bill Is Passed composed of the governor, superintendby the Assembly.

If Ratified by People Law Will Go Into Effect July 1, 1920-Bill Passed by a Vote of 52

Madison.-The referendum liquor bill was sent to engrossment by the assembly by a vote of 52 to 44. If it passes both houses, as there seems likelihood of its doing, and is signed by the governor, the question will go to a vote of the people at the April election, 1918, and if ratified by a majority of the people it will become effective July 1, 1920.

### Plans for Capitol Dedication.

Plans for the dedication of the state capitol this summer will be presented before the legislature probably next WON BY DRYS week, when it is expected that a hearing will be given to the Burke bill on the subject. Senutor Timothy Burke of Green Bay has offered, by request, a bill creating a dedicatory committee ent of public property, superintendent of the State Historical society, state engineer, superintendent of public instruction and five members at large to GOES TO VOTE IN APRIL, 1918 be chosen by the governor, one of them to be a member of the capitol building commission.

For the past three months publicspirited citizens of the state have been agitating the plan of having the new \$7,000,000 capitol building formally dedicated in June or July, this year, when the work on the building will be practically completed. Should the legislature favor the idea it is planned to invite to the meeting all of the men who have served in the legislature, the governors who have served Wisconsin. members of the supreme court and other public officials. Pageants repre senting the early history of Wisconsin are also being planned.

To Provide Funds. Funds are to be derived from these productions for carrying forward the idea. To provide for any possible deficit the bill calls for an appropriation of \$40,000. This money is to come out of the unexpended funds of the capitol lution, changing the constitution so as building commission.

> In writing on economy Thoreau once observed that mankind is apt to "consider not what is truly respectable, but what is respected." Most young people consider that it is a more respectable occupation to sit at a desk in an office than to take in washing. A highly-educated Los Angeles girl thought otherwise and proved her point. As a stenographer she was earning

Erected Soon After the War Removed From City Park,

If the cracking of the wells of the unsightly downtown post office building which for a whole generation has been permitted to occupy the southerly end of City Hall park turns out to be serious enough to necessitate the removal of the hullding, it is to be hoped that enough public spirit will be manifested in New York to compel the return of the park land to the city and the erection of a new federal building elsewhere, says the New York Times.

The building designed by Mullet has always been regarded as an ill-favored specimen of architecture. The lower end of City Hall park had been seized by the United States government dur-Ten definitions of love, culled from ing the war between the states as an encompment for volunteers and the shabby barracks did not disappear until some time after the war. The ground was never repaired and it was transferred to the federal government for a post office and courthouse when the minds of public-spirited citizens were wholly occupied with other matters. The courtrooms have always been ill ventilated. The building has been uncomfortable within and unsightly as to its exterior. Its removal has long been hoped for.

Victor Hugo's Grandson. George Victor Hugo, the grandson of the great Victor Hugo, is now showing in Paris about 100 sketches which are attracting great attention. At the beginning of the war he was a censor, an occupation in which he appreciated too keenly the humor of exercising such a function by the grandson of his grandfather. So, in spite of his white hair, he gave up the censorship and set out for the army. He did not become a general, but he is a lieutenant. After a year and a half at the front he has returned from Champagne with a hundred choice acquarelles, which all Paris is running to see. He has added somewhat to the splendor of the name of Hugo, as he has been twice in the course of the war cited in the orders of the day for meritorious conduct.

# A Medicine for Women

For Forty Years Lydia E. Pinkham's Vegetable Compound has Relieved the Sufferings of Women.

It hardly seems possible that there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

Mrs. Kieso Cured After Seven Month's Illness.

Aurora, Ill.—"For seven long months I suffered from a female trouble, with severe pains in my back and sides until I became so weak I could hardly walk from chair to chair, and got so nervous I would jump at the slightest noise. I was entirely unfit to do my house work, I was giving up hope of ever being well, when my sister asked nie to try Lydia E. Pinkham's Vegetable Compound. I took six bottles and today I am a healthy woman able to do my own housework. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound, and find out for herself how good it is."—Mes. Karl A. Kieso, 596 North Ave., Aurora, Ill.

Could Hardly Get Off Her Bed.

Cincinnati, Ohio.—"I want you to know the good Lydia E. Pinkham's Vegetable Compound has done for me. I was in such bad health from female troubles that I could hardly get off my bed. I had been doctoring for a long time and my mother said, I want you to try Lydia E. Pinkham's Vegetable Compound.' So I did, and it has certainly made me a well woman. I am able to do my house work and am so happy as I never expected to go around the way I do again, and I want others to know what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. Josie Copner, 1668 Harrison Ave., Fairmount, Cincinnati, Ohio.

### Canada Offers 160 Acres Free to Farm Hands

Bonus of Western Canada Land to Men Assisting in Maintaining Needed Grain Production

The demand for farm labor in Canada is great. As an inducement to secure the necessary help at once, Canada will give

ONE HUNDRED AND SIXTY ACRES OF LAND FREE AS A HOMESTEAD

and allow the time of the farm laborer, who has filed on the land, to apply as residence duties, the same as if he actually had lived on it. Another special concession is the reduction of one year in the time to complete duties. Two years instead of three as heretofore, but only to men working on the farms for at least six months in 1917. This appeal for farm help is in no way connected with enlistment for military service but solely to increase agricultural output. A wonderful opportunity to secure a farm and draw good wages at the same time. Canadian Government will pay all fare over one cent per

### Cheaper Land Clearing

The recent demonstrations of the University of Wisconsin proved that the cost of

clearing land can be greatly reduced by better methods and the use of lower strength explosives.

### **RED CROSS FARM POWDER**

Costs less than higher strength powder but does the same work if used right.

Our Farmers Bulletin No. B 597 describes and illustrates the successful methods developed at the demonstrations. Write for your copy — now.

THO is there that's got the heart to refuse a man a little chew from his pouch of W-B CUT Chewing—especially if he's a gentlemanly fellow who would appreciate rich tobacco? Once a man gets used to real tobacco, it goes mighty hard with him to swing back to the ordinary over sweetened kind. W-B has cut in two the amount he tucks away in his

### The Government is a Partner in the Brewing Industry

THE partnership of our Government and the Brewing Industry was entered into during the Civil War for the purpose of increasing war revenues. The bill creating this partnership was signed by President Lincoln with the distinct understanding that the measure would be repealed as soon as war conditions justified its repeal.

As a matter of fact the Brewers of America coluntarily tendered the Government the sum of 50 cents per barrel on every barrel of beer brewed. This was done by the Brewers in a spirit of loyalty, fairness and justice—a willingness to bear their full share of the heavy war revenues.

The United States Government accepted the Brewers' offer with the understanding that it was but a temporary relief measure which, in the opinion of Lincoln, would be repealed as soon as war conditions justified its repeal.

But that which was voluntarily tendered to the Government as a contribution—and was accepted as such—has since been imposed as a permanent tax. Not only that but the tax has been doubled and tripled. The beer tax was 50 cents a barrel for many years after the Civil War. The normal tax was later increased to \$1.00 and at the beginning of the Spanish-American war in 1898, the tax was jumped to \$2.00 per barrel.

After the war was over, the normal tax of \$1.00 prevailed until 1914 when the Emergency act raised the tax to \$1.50 per barrel—and every Brewery in America is paying that sum to the Government now.

> Can one partner in a business take away his partner's share without just compensation? Certainly not!

If you were in business with another and you could not agree, you would buy out your partner, or he would buy you out, paying a fair price for the business. There would be no confiscation-no taking the partner's property without fair or just payment therefore. Such proceedure would be robbery.

In fairness or justice, then, can Governmentbe it National, or State, or Municipal—take away its partner's interest in a business without fair and just compensation?

When anyone's property or business - his source of income or livelihood—is taken away or destroyed by legislation-by an act of the voters -by your act, if you please-is not the one so injured entitled to compensation for his loss?

You would not want your business destroyed by legislation without compensation—would you be a party to legislation that would deny the same right to others?

Remember this-

Compensation simply means that fair payment shall be made for whatever property is destroyed by the vote of the people.

Would you forcefully take anything that did not belong to you without paying for it?

Think it over!

The Brewers of Wisconsin.
