## WAR DEPARTMENT ISSUES **SUGGESTIONS ON THE PROPER**

Many inquiries concerning the proper method of displaying, hanging, and enluteing the United States flag are being received in the War Department with the evidence of serving approximate the serving idence of securing some authorita-tive statement relating to the sub-

In this connection it should be remarked that while it is within the province of the War Depart-ment to prescribe rules and regument to prescribe rules and regulations governing the matter in question for observance within the Army, yet it is beyond its province to prescribe any such rules or regulations for the guidance of civilians or to undertake to decide anestions concerning the subject and that the flag should never be hung or displayed with the union down except as a signal or displayed.

There is no Federal law now in force pertaining to the manner of displaying, hanging or saluting the Umted States flag or prescribing any ceremonies that should be observed in connection herewith. In fact there are but two Federal laws on the statute books that have any bearing upon this subspect, one the act of Congress apposite the left shoulder with the right and; if incovered, they will unspect, one the act of Congress apposite the left shoulder with the right hand; if incovered, they will unspect, one the act of Congress apposite the left shoulder with the right laws on the statute books that have any bearing upon this subspect, one the act of Congress apposite the left shoulder with the right laws of the seat. His young-ter brother Jessie, was in the seat of beside him but was uninjured. The injured man lived for an hour and a half, but was beyond all medical aid.

the act of Congress approved February 8, 1917 (Public—No. 305—64th Congress), providing certain penalties for the desecration, mutilation or improper use of the flag within the District of Columbia. Several States of the Union have enacted laws which have more or less bearing upon the general subject, and it seems probable that many counties and munatically in the property of the property of the country of cipalities have also passed or-dinances concering the matter, to govern action within their own

Warning against desecration of the American flag by aliens has bees issued by the Department of Justice, which has sent the following notice to Federal attorneys and marshals:

"Any alien enemy tearing down, mutilating, abusing or desecrating the United States flag in any way will be regarded as a danger to the public peace or safety within the meaning of regulation 12 of the proclamation of the President issued April 6, 1917, and will be subject to summary arrest and punishment."

is the practice in the Army, each day in the year, to hoist the flag at sunrise, irrespective of the condition of the weather and to lower it slowly and ceremoniously at sunset, indicating the commencement and cessation of the activities of the day, and to display it at half staff on Memorial Day (May 30) from supples poon and at full staff from noon until sun et, and also on other days specially designated for that purpose by the proper authority the flag always being first hoisted to the top of the staff before being lowered to the half staff po-

There has been some question omong the civilians concerning the exact location of a flag hung "half staff". Theoretically, the flag is always hung on a separate staff, much shorter than the staffs usually erected on buildings, and as a consequence a flag hung at half staff would be located much higher on the ordinary flag staff than under the present practice, but still the custom of placing the half-staffed flag in about the conter of the flaz pole, whatever its length may be, is rather generally observed throughout the country and this Department sees no red objection to this custom.

Considerable discussion has arisen throughout the country concerning the proper manner of hanging and displaying the flag for decorative purposes. As al-ready stated, there is no Federal ready stated, there is no rederal law governing the subject, and individual opinion differs as to the procedure that should or should not be followed. It has been suggested that as far as possible the hanging of the flag should be rescripted to tricted to suspending it from flag pole, in the regular way, and not to displaying it otherwise; that for purposes of decoration only the national colors should be arranged in the form of bunting and not used in the form of the flag; that if it is nevertheless the desire to use the flag for decora-tive purposes it should always be hung flat whether on the inside or the outside of buildings, with the union to the north or east, so that there will be a general uniformity in the position of the union of each flag displayed; that the flag should rarely be displayed in horizontal position or laid flat that under no circumstance should it be hung where it can easily be contaminated or soiled, or be draped over chairs or benches to be used for seating purposes, and that no object or emblem of any kind should be placed above or upon it. This Department sees no objection to flying the flag at night on civilian property provided it is not so flown for advertis-

Seventeen Ships Attempt to Run the North Sea Blockade-Only One Escapes.

London, July 18.-A fleet of 17 small German vessels ventured forth from Rotterdam in an attempt to run the British blockade. A powerful British "mosquito" flotilla lay in wait for them out in the North sea. This is what DAVIES SEES PACKERS FIRST happened to the Tenton ships:

Four sunk four captured, five stranded, one wrecked, two fied back, badly damaged by gunfire, total, sixteen. One fled back and reached shore unharmed.

It was the first effective blow the British navy has dealt to the German blockade-running system in three years of warfare. It was made possible by the presence in British waters of American destroyers, which enabled the British to detail a large part of their mosquito craft to watch the crafty little Teuton smugglers.

### QUOTA EACH STATE MUST RAISE BY DRAFT FOR NATIONAL ARMY

Allotment by states of quotas to be raised by selective draft for Uncle Sam's national army was announced by the war department.

The quotas assigned are on a basis of proportionate population of each state to the population of the nation as recently fixed by the census bureau. In the allotment each state is given credit for its total enlisted National Guard strength, plus the men enlisted in the regular army between April 2 and June

The following table gives the war department allotment, gross quotas, net quotas and National Guard and regular army credits-the total of the latter two appearing in the final column of the table:

## FORMAL DRAFT ORDER ISSUED BY PRESIDEN

Wilson Rallies 1,262,985 Men Around the Flag.

687.000 ON THE FIRST CALL

Official Allotment Shows What Part of Total Must Be Furnished by Each State and Territory In the Union.

Washington.-A formal order by President Wilson, drafting 687,000 into the military service under the sele. tive conscription law, was promula gated by the war department, together with an official allotment showing what part of the total must be furnished by each state and territory.

The only steps now remaining are distribution by the governors of state quotas among the local exemption districts and the great lottery. which probably will be held next week and which will establish the order in which registrants are to present themselves for service or exemp-

## FALL OF HOLLWEG HITS PEACE MOVE

Elevation of Hindenburg Favors the Militaristic Leaders.

**CROWN PRINCE TO THE FRONT** 

Change Means Severe Setback to the Efforts of the Austrian Emperor to Hasten Peace-Michaelis is Real Bureaucrat.

Zurich, July 16.-Austria should detach herself from the kaiser, the former Czech minister, Herr Praschek, declared in the Austrian reichsrath Saturday, in a dispatch from Vienna. Herr Praschek said the hate of the world was not directed at Austria, but at Germany, and that peace could not be obtained by clinging to Germany's side. "Must we continue to sacrifice our interests to the expansion of Germany? Must we continue to submit to German militarism which drew us into this war?" he said.

London, July 16.—By the resignation of Dr. von Bethmann-Hollweg the war party, represented by the German crown prince, Field Marshal von Hindenburg and General von Ludendorff, all of whom were called to Berlin by the crisis there, appears to have

gained the ascendency. This victory for the war party augurs ill for the electoral and parliamentary reforms sought in Germany and for the movement to diminish Ger-

many's war aims. This means a severe setback to the efforts which have been put in progress by Emperor Charles of Austria to hasten peace. The chancellor was overthrown, although the Centrist Catholic party and the South Germans generally had rallied to the suggestions of peace emanating from Austria and preached by Matthias Erzberger.

Michaelis Real Bureaucrat. The overthrow of the imperial chancellor is regarded as the beginning. rather than the end, of developments of the utmost gravity within the German empire bearing directly on the great struggle now in progress on the battlefields of Europe.

Bethmann-Hollweg's successor, Dr. George Michaelis, is a typical Prus-

cian bureaucrat. Just before his official head was swept away Dr. von Bethmann-Hollweg, who was apparently backed by fighting defensively for the freedom of her territorial possessions, that appeared satisfactory both to those who were calling for peace by agreement and those demanding a repudiation of a policy of no annexations and no in-

Victory Almost in His Grasp. So far as internal reforms had a part in the ministerial crisis, Dr. von meant the formation of a sort of im-

perial coalition ministry. The tide, it now seems, turned against the chancellor when, for dynastic reasons, the crown prince was called back to Berlin from the front, the kaiser explaining the summons by stating that the proposed electorial and parliamentary reforms affected not

him alone, but his successor. The crown prince for years has been opposed to Von Bethmann-Hollweg and his policies. At the time of the Agadir incident and again when the unsavory Zaborn incident had excited disgust even in Germany, the crown prince espoused the cause of the extreme his behavior in the reichstag in the

The reichstag, according to a Berlin dispatch, has adjourned, the president. Dr. Johannes Kaempf, being authorized to summon the body "as soon as circumstances allow."

The reichstag's proposed peace resolution, which, according to the Berlin Tageblatt, a majority of the bloc of the center, radicals and socialists, decided to introduce unchanged upon the reassembling of the reichstag, reads as

"As on August 4, 1914, soon the threshold of the fourth year of the war, the German people stand upon the assurance of the speech from the throne 'we are driven by no lust of conquest.'

"Germany took up arms in defense of the liberty and independence and for the integrity of its territories. The reichstag labors for peace and a mutual understanding and lasting reconciliation among the nations. Forced acquisitions of territory and political, economic and financial violations are incompatible with such a peace.

"The reichstag rejects all plans aiming at an economic blockade and the stirring up of ennity among the peoples after the war. The freedom of the seas must be assured. Only an economic peace can prepare the ground for the friendly associations of the

"The reichstag will energetically promote the creation of International judicial organization. So long, however, as the enemy governments do not accept such a peace; so long as they threaten Germany and her allies with conquest and violation, the German people will stand together as one man, hold out unshaken and fight until the rights of itself and its allies to life and development are secured. ### An "Owed"

My auto 'tis of thee, short cut to a pile of dough on you two years ago, and now you quite refuse to go, or wan't or can't. Through town and country side, you were my joy and pride, oh happy day. I loved thy hue thy aice white tires so new, but now you're down and out for true, in every way. To thee, old rattle box, came many bumps and knock for thee I grieve. Badly thy top is torn, frayed are thy seats and worn; the whooping cough affects thy horn, I do believe. The perfume swells the breeze, as we pass by I paid for thee a price, as we pass by I paid for thee a price, twould buy a mansion twice; now everybody is velling "ice" and I wonder why. Thy motor has the grip, thy spark plug has the pip, and woe is mine I too have chills, ague and other ills, endeaversing to pay my hills, size them. oring to pay my bills, since though art mine. "It has been estimated that one toad ls worth \$19.44 in a single season because of the cutworms it devours," 88 per cent of the food of the toad consists of garden pests.

"The toad is nocturnal in habit, coming out in the dusk to search for food, the soft earth or dense vegetation.

For at will keep down all insects that begin early crop, plant and cultivate as for Dec. to show themselves, finding them under leaves and stalks that hide them from an ordinary observer. In Paris oads are regularly caught and sold to gardeners for insect hunting in their greenhouses. And yet many boys and older people destroy them ruthlessly as soon as they discover them in the garden. The toads will eat cutworms by the wholesale, if they can find them, and I have seen them devour potato bugs in great numbers when deprived of more palatable food,"

sects Have Received Most Attention-Ravages Are Costly.

All plants are subject to attacks by parasites. These parasitic enemies are as different in structure as the plants upon which they feed. Some purasites are microscopic plants called fungl, and are the causes of such wellknown diseases as apple scab, brown rot and wheat rust. Others are known as bacteria, producing the injurious fire blight of fruit trees. Still others are not plants at all but are insects.

Of all plant parasites, undoubtedly scale insects have received most attention during the last thirty years said Doctor Ackert. "Approximately Their small size has rendered them obscure. Woman Wanted Something as Unprotentious as Possible and She Got It at Ten Dollars a Plate.

The matter of war rations depends entirely on the individual, as is indicated by the following story from New

York: The other day one of the feminine customers of the Plaza hotel approached an assistant manager and told him that she wanted to give a "war luncheon"-something quite sim-

ple and unpretentious. "Yes, madam," said the assistant manager, mentally groaning at an an-

other example of thrift. "Now," said the woman, "I want champagne served instead of cocktails while my guests are in the reception room. I want"-and she named a brut which costs \$10 a quart. "And for luncheon I want some caviar"-and on and on she went, with the assistant manager's pencil scratching busily as she talked and his spirits rising

with each scratch. "How much?" she asked after she had explained the menu. "How much will that be?" The assitant manager

made a hasty calculation. "Ten dollars a plate," he said. "Oh, dear!" she said. "Isn't food becoming almost prohibitive! There will be plates for twenty. Please have everything as simple as possible."

"Dressmaking Not an Art." That dressmaking is not an art, but labor, was held by a jury in the United States district court recently, in the case of Albert de Vroye, husband of maker, says the St. Louis Star. Laws Make Big Volume.

It is estimated that the law supple ments containing the laws of the present legislature will make about 272 pages of the supplement size which are circulated by the weekly newspapers of the state. Two years ago these supplements made 208 pages. The increase is therefore over 30 per cent. In 1915 there were 635 chapters published. There will be about 653 acts this session, but the laws of 1917 are much larger and occupy 30 per cent more space than those of two years ago. Some of the whoppers are:

Fish and game act, about 103 bill size pages; drainage act, 103 pages; workmen's compensation, 45 pages: revisors, 161 pages; common school system act. 40 pages; revisor's bill 1-8, 34 pages, and revisor's bill 549, 39 pages. In Handy Form.

### Why Pay the Peddler or Canvasser Twice These Prices?

You can save a good deal of money by buying your stock tonic at this store, instead of paying the peddler big, fancy prices for goods of unknown quality. Look at these prices for that old reliable and guaranteed stock conditioner and worm expeller—

### DR. HESS STOCK TONIC

12 25 pound pail costs \$2.00 % 

Remember, we have no peddler's wagon and horsess expenses to pay. That's why we can sell you Dr.

Hess Stock Tonic at these rock-bottom prices. Here is another point, Mr. Farmer, we want to emphasize, that is: Dr. Hess Stock Tonic is highly concentrated; it goes farther, as the small dose quantity

Dr. Hess Stock Tonic is to put your animals in a thriving condition, make the ailing ones healthy and expel the worms-otherwise you get your money back right here at our store.

Are You One of Them?

There are a great many people who would be very much benefited by taking Chamberlain's Tablets for a weak or disordered stomach Are you one of them? Mrs. M. R. Searl, Baldwinsville, N. Y. relates her experience in the use of these tablets: "I had a bad spell with my stmach about six months ago and was troubled for two or three weeks with gas and severe pains in the pit of my stomach. Our druggist advised me to take Chamberlain's Tablets. I took a bottle home and the first dose relieved me wonderfully, and I kept on taking them until I was cured." These tablets do not relieve pain but after the pain has been relieved may prevent its recurrence.
